Disclaimer Regarding Forward-Looking Statements

This quarterly report includes forward-looking statements (that include those within the meaning of Section 27A of the U.S. Securities Act of 1933, as amended, and Section 21E of the U.S. Securities Exchange Act of 1934), as amended about Panasonic and its Group companies (the Panasonic Group). To the extent that statements in this quarterly report do not relate to historical or current facts, they constitute forward-looking statements. These forward-looking statements are based on the current assumptions and beliefs of the Panasonic Group in light of the information currently available to it, and involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors may cause the Panasonic Group's actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by these forward-looking statements. Panasonic undertakes no obligation to publicly update any forward-looking statements after the date of this quarterly report. Investors are advised to consult any further disclosures by Panasonic in its subsequent filings under the Financial Instrument and Exchange Act of Japan (the FIEA) and other publicly disclosed documents.

The risks, uncertainties and other factors referred to above include, but are not limited to, economic conditions, particularly consumer spending and corporate capital expenditures in the Americas, Europe, Japan, China and other Asian countries; volatility in demand for electronic equipment and components from business and industrial customers, as well as consumers in many product and geographical markets; the possibility that excessive currency rate fluctuations of the U.S. dollar, the euro, the Chinese yuan and other currencies against the yen may adversely affect costs and prices of Panasonic's products and services and certain other transactions that are denominated in these foreign currencies; the possibility of the Panasonic Group incurring additional costs of raising funds, because of changes in the fund raising environment; the possibility of the Panasonic Group not being able to respond to rapid technological changes and changing consumer preferences with timely and cost-effective introductions of new products in markets that are highly competitive in terms of both price and technology; the possibility of not achieving expected results or incurring unexpected losses in connection with the alliances or mergers and acquisitions; the possibility of not being able to achieve its business objectives through joint ventures and other collaborative agreements with other companies, including due to the pressure of price reduction exceeding that which can be achieved by its effort and decrease in demand for products from business partners which Panasonic highly depends on in BtoB business areas; the possibility of the Panasonic Group not being able to maintain competitive strength in many product and geographical areas; the possibility of incurring expenses resulting from any defects in products or services of the Panasonic Group; the possibility that the Panasonic Group may face intellectual property infringement claims by third parties; current and potential, direct and indirect restrictions imposed by other countries over trade, manufacturing, labor and operations; fluctuations in market prices of securities and other assets in which the Panasonic Group has holdings or changes in valuation of long-lived assets, including property, plant and equipment and goodwill, deferred tax assets and uncertain tax positions; future changes or revisions to accounting policies or accounting rules; the possibility of incurring expenses resulting from a leakage of customers' or confidential information from Panasonic's systems due to unauthorized access or a detection of vulnerability of network-connected products of the Panasonic Group; as well as natural disasters including earthquakes, prevalence of infectious diseases

throughout the world, disruption of supply chain and other events that may negatively impact business activities of the Panasonic Group. The factors listed above are not all-inclusive and further information is contained in the most recent English translated version of Panasonic's securities reports under the FIEA and any other documents which are disclosed on its website.

(2) Principal Businesses

The Panasonic Group is comprised primarily of the parent Panasonic Corporation and 485 consolidated subsidiaries in and outside of Japan, operating in close cooperation with each other. As a comprehensive electronics manufacturer, Panasonic is engaged in production, sales and service activities in a broad array of business areas.

Panasonic supplies a spectrum of electric/electronic equipment and related products, which are categorized into the following five segments: Appliances, Eco Solutions, AVC Networks, Automotive & Industrial Systems, and Other.

During the six months ended September 30, 2015, there were changes in principal businesses and major affiliated companies as follows.

Consolidated subsidiary:

As of April 1, 2015, SANYO North America Corporation (Automotive & Industrial Systems and Other) was merged to Panasonic Corporation of North America.

As of August 7, 2015, the Company acquired 100% of shares in ITC Global Inc. in the U.S. and ITC Global Netherlands Cooperatief U.A. in the Netherlands. Accordingly, both of companies and subsidiaries of both companies (collectively, ITC Global) became consolidated subsidiaries of the Company (AVC Networks). ITC Global is a provider of satellite communication service company for the ocean energy industry.

Associated company under the equity method:

As of June 30, 2015, Panasonic acquired 49% of shares in Ficosa International S.A. (Ficosa) which is a mirror manufacture for automotive-use in Spain classifying it as an associated company under the equity method.

The Company's consolidated financial statements have been prepared in conformity with U.S. GAAP, and the scope of affiliates are disclosed based on the definition of those accounting principles. The same applies to II The Business Overview.

II The Business Overview

(1) Operating Results

During the six months ended September 30, 2015 under review, the economic slowdown was seen in emerging countries including China. In the U.S., both employment environment and personal spending continued to improve. In Japan, economic recovery was slow due to weak personal spending and exports, although employment environment improved.

Under such business circumstances, Panasonic positions its fiscal 2016 as a year to make a major change towards generating profit from sales growth. In its recent business conditions, Panasonic has determined its business fields for sustainable growth and has been promoting various initiatives.

The Company has implemented the following business initiatives during six months ended September 30, 2015.

The initiatives during the fiscal 2016 first quarter, for housing business, the Company decided on capital investment to boost capacity of solar cells at its production sites in Japan to meet growing demand in the global solar market. For automotive business, Ficosa in Spain and the Company announced the agreement on their capital and business alliance in September 2014 to launch electronic mirror systems business in a timely manner. After completing approval procedures from related authorities, Panasonic has a 49% stake in Ficosa in June 2015. Accordingly the Company forged a business alliance with Ficosa and is involved in its management.

The initiatives during the second quarter, for Age-free (elderly care) business, the Company opened an elderly housing with supportive service site in September 2015, for the first time in the neighborhood of Tokyo. Adopting Panasonic Group's housing equipment and electronic products, this is established with Panasonic's skills and experiences in nursing care facilities and services. For consumer electronics business, Panasonic exhibited Lifestyle Showcase at the Internationale Funkausstellung Berlin (IFA) 2015, one of the biggest trade shows for consumer electronics in the world. The Company presented its idea of lifestyles we all desire, with a wide range of products from audio-visual equipment to home appliances and personal-care products.

Consolidated group sales for six months ended September 30, 2015 under review increased by 1% to 3,760.4 billion yen from the same period of fiscal 2015 (a year ago). Domestic sales decreased year on year due mainly to sales

decrease of solar photovoltaic systems, although sales in consumer electronics were stable. Overseas sales increased year on year due mainly to a positive effect from yen depreciation and sales increase in BtoB solutions business, although sales in TVs decreased due mainly to downsizing marketing activities to focus on profit generation.

Operating profit* increased by 13% to 200.5 billion yen from a year ago, due to withdrawing or downsizing unprofitable businesses and improvements in the business through restructuring. The Company has strategically focused on high value-added products, which contributed to the operating profit growth as well.

Income before income taxes increased by 35% to 164.1 billion yen compared with the same period last year. This was due mainly to the reduction of expenses for preventing further accidents with the residential water heating systems in other income (deductions) incurred a year ago.

Net income attributable to Panasonic Corporation increased by 38% to 111.3 billion yen from a year ago, due to the benefit from the revaluation of deferred tax assets as a result of the board resolution to introduce the consolidated tax in the first quarter of fiscal 2016.

* In order to be consistent with generally accepted financial reporting practices in Japan, operating profit, a non-GAAP measure, is presented as net sales less cost of sales and selling, general and administrative expenses. The Company believes that this is useful to investors in comparing the Company's financial results with those of other Japanese companies.

(2) Operating Results by Segment

Certain businesses were transferred among segments on April 1, 2015. Accordingly, the figures for segment information in fiscal 2015 have been reclassified to conform to the presentation for fiscal 2016.

The Company's six-month consolidated sales and profits by segment comparing with previous years are summarized as follows:

Appliances

Sales decreased by 2% to 1,171.9 billion yen from a year ago. This was due mainly to sales decrease in TV business as a result of downsizing marketing activities, and worse market condition in China. However, sales in home appliances and personal-care products were favorable mainly in Japan.

Segment profit increased by 9% to 43.5 billion yen from a year ago due mainly to the impact by the sales increase offsetting the negative impact of exchange rate movement.

Eco Solutions

Sales decreased by 2% to 772.3 billion yen compared with the previous year. Sales decreased significantly in solar photovoltaic systems business due to worsened market condition in Japan. However, businesses such as wiring devices and circuit breakers were favorable.

Segment profit decreased significantly by 27% to 30.4 billion yen from a year ago, since rationalization initiatives were unable to offset the impact from sales decrease in solar photovoltaic systems and exchange rate movement.

AVC Networks

Sales increased by 7% to 570.8 billion yen from a year ago. Sales in Vertical Solution Business remained strong, leading segment-wide sales growth. Sales also increased in Visual and Imaging Business, including favorable sales in security system in Japan.

Segment profit increased significantly by 710% to 31.9 billion yen from a year ago, due to sales increase mainly in Vertical Solution Business.

Automotive& Industrial Systems

Sales were 1,386.6 billion yen compared with 1,386.2 billion yen, in line with the same period a year ago. Sales increases in LCD panels due to favorable non-TV application and automotive electronics businesses were unable to offset the impact from termination of some Industrial businesses and sales decrease in Factory Solution Business compared to the previous year when demand was temporarily strong.

Segment profit grew by 5% to 61.1 billion yen from a year ago due mainly to streamlining of material-related process, fixed-cost reductions and the positive impact of exchange rate movement, although R&D costs mainly in automotive business increased.

Other

Sales decreased by 6% to 280.2 billion yen from a year ago due mainly to the business transfers, despite sales increase in PanaHome.

Segment profit decreased by 49% to 1.0 billion yen from a year ago.

(3) Assets, Liabilities and Equity

The Company's consolidated total assets as of September 30, 2015 decreased by 84.9 billion yen to 5,872.1 billion yen from March 31, 2015. This was due mainly to decreases in cash and cash equivalent and account receivables, and some currency depreciation in emerging countries, despite the seasonal increase in its inventory.

The Company's consolidated total liabilities as of September 30, 2015 decreased by 153.5 billion yen to 3,810.9 billion yen from March 31, 2015. This was due mainly to redemption of unsecured straight bonds and decrease in retirement and severance benefits.

Panasonic Corporation shareholders' equity increased by 84.8 billion yen, compared with March 31, 2015, to 1,908.1 billion yen. Adding Noncontrolling interests to Panasonic Corporation shareholders' equity, total equity was 2,061.2 billion yen.

(4) Cash Flows

Cash flows from operating activities

Net cash provided by operating activities for the six months ended September 30, 2015 amounted to 126.8 billion yen, a decrease of 40.5 billion yen from a year ago. This was due mainly to an increase of working capital (trade receivables, inventories and trade payables).

Cash flows from investing activities

Net cash used in investing activities amounted to 149.9 billion yen, an increase of 69.9 billion yen from a year ago. This was due mainly to purchase of subsidiaries and associated companies' shares, and an increase in capital expenditures.

Accordingly, free cash flow (net cash provided by operating activities plus net cash provided by investing activities) decreased by 110.4 billion yen from a year ago to an outflow of 23.1 billion yen.

Cash flows from financing activities

Net cash used in financing activities amounted to 72.5 billion yen, a decrease of 5.6 billion yen from a year ago.

Taking into consideration exchange rate movement, cash and cash equivalents totaled 1,156.1 billion yen as of September 30, 2015, a decrease of 124.4 billion yen compared with the end of the fiscal 2015.

Notes to Consolidated Financial Statements

(1) **Summary of Significant Accounting Policies**

(a) **Basis of Presentation of Consolidated Financial Statements**

The Company and its domestic subsidiaries maintain their books of account in conformity with financial accounting standards of Japan, and its foreign subsidiaries in conformity with those of the countries of their domicile.

The consolidated financial statements presented herein have been prepared in a manner that reflects adjustments which are necessary to conform with U.S. generally accepted accounting principles (U.S. GAAP).

(b) **Principles of Consolidation**

The consolidated financial statements include the accounts of the Company and its majority-owned, controlled subsidiaries. The Company also consolidates entities in which controlling interest exists through variable interests in accordance with the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 810, Consolidation. All significant intercompany balances and transactions have been eliminated on consolidation.

The equity method is used to account for investments in associated companies in which the Company exerts significant influence, generally having a 20% to 50% voting interest, and corporate joint ventures. These investments are included in Investments and advances in the consolidated balance sheets.

The Company has 485 consolidated subsidiaries and 93 associated companies under equity method as of September 30, 2015.

The Company accounts for the defined benefit pension plans and the lump-sum payment plans in accordance with the provisions of ASC 715, Compensation-Retirement Benefits. In accordance with the provisions, funded status of defined benefit pension plans (that is the balance of plan assets less benefit obligations) is recognized on the consolidated balance sheets and pension liability adjustments, net of tax, are recorded in the Accumulated other comprehensive income (loss).

Actuarial net gains and losses in excess of the corridor (10% of benefit obligations or fair value of plan assets, whichever is greater) are amortized over the average remaining service period of employees, except for the plan described as follows.

The Company and certain domestic subsidiaries made a transition from the defined benefit pension plan to a defined contribution pension plan, effective after the date of transition with respect to employees' future service. Actuarial net gains and losses related to the defined benefit pension plan that are maintained for employees' past service in excess of the corridor are amortized over the average remaining life expectancy of plan participants.

The Company is not dependent on a single supplier and has no significant difficulty in obtaining raw materials from suppliers.

(d) Use of Estimates

The preparation of consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates and assumptions are reflected in valuation and disclosure of revenue recognition, allowance for doubtful receivables, valuation of inventories, impairment of long-lived assets, impairment of goodwill, environmental liabilities, valuation of deferred tax assets, uncertain tax positions, employee retirement and severance benefit plans and assets acquired and liabilities assumed in business combinations.

Management evaluated the subsequent events through November 10, 2015, the issue date of the Company's consolidated financial statements.

(e) **Reclassifications**

Certain reclassifications have been made to the prior years consolidated financial statements in order to conform with the presentation used for fiscal 2016.

(10) Fair Value

ASC 820, Fair Value Measurements and Disclosures defines fair value and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy are as follows:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets.
- Level 2 Quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable, and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 Unobservable inputs for the asset or liability.

Assets and liabilities measured at fair value on a recurring basis

The following table presents assets and liabilities that are measured at fair value on a recurring basis at September 30 and March 31, 2015:

The Company's existing marketable equity securities and commodity futures are included in Level 1, which are valued using an unadjusted quoted market price in active markets with sufficient volume and frequency of transactions.

Level 2 available-for-sale securities include all debt securities, which are valued using inputs other than quoted prices that are observable. Level 2 derivatives including foreign exchange contracts and commodity futures are valued using quotes obtained from brokers, which are periodically validated by pricing models using observable market inputs, such as foreign currency exchange rates and market prices for commodity futures.

Assets and liabilities measured at fair value on a nonrecurring basis

For the six months ended September 30, 2015 and 2014, there were no circumstances that required any significant assets and liabilities that are not measured at fair value on an ongoing basis to be measured and recognized at fair value.

The fair value of financial instruments

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

Available-for-sale securities

The carrying amount is equal to the fair value which is estimated based on quoted market prices. The fair value is also described in Note 3.

Long-term debt, including current portion

The fair value of long-term debt is estimated based on quoted market prices or the present value of future cash flows using appropriate current discount rates. The Company classified long-term debt in Level 2. The carrying amount and fair value at September 30, 2015 are 919,158 million yen and 931,527 million yen, respectively. The carrying amount and fair value at March 31, 2015 are 962,029 million yen and 974,671 million yen, respectively.

Derivative financial instruments

The fair value of derivative financial instruments is estimated based on unadjusted market prices or quotes obtained from brokers, which are periodically validated by pricing models using observable inactive market inputs.

Advances

The fair value of advances is estimated based on the present value of future cash flows using appropriate current discount rates. The Company classified advances in Level 2. The carrying amount approximates fair value.

Financial instruments other than those listed above (such as Cash and cash equivalents, Time deposits, Trade receivables, Short-term debt, Trade payables, Accrued expenses)

The carrying amount approximates fair value because of the short maturity of these instruments.

Limitations

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instruments. These estimates are subjective in nature and involve uncertainties and matters of significant judgments and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

(11) Commitments and Contingent Liabilities

The Company provides guarantees to third parties mainly on bank loans provided to associated companies and customers. The guarantees are made to enhance their credit. For each guarantee provided, the Company is required to perform under the guarantee if the guaranteed party defaults on a payment. Also, the Company sold certain trade receivables to independent third parties, some of which are with recourse. If the collectibility of those receivables with recourse becomes doubtful, the Company is obligated to assume the liabilities. At September 30, 2015, the maximum amount of undiscounted payments the Company would have to make in the event of default was 26,299 million yen. The carrying amount of the liabilities recognized for the Company's obligations as a guarantor under those guarantees at September 30, 2015 was immaterial.

In connection with the sale and lease back of certain machinery and equipment, the Company guarantees a specific value of the leased assets. For each guarantee provided, the Company is required to perform under the guarantee if certain conditions are met during or at the end of the lease term. At September 30, 2015, the maximum amount of undiscounted payments the Company would have to make in the event that these conditions were met was 1,472 million yen. The carrying amount of the liabilities recognized for the Company's obligations as guarantors under those guarantees at September 30, 2015 was immaterial.

The Company and certain subsidiaries are under the term of leasehold interest contracts for land of domestic factories and have obligations for restitution on their leaving. The asset retirement obligations cannot be reasonably estimated because the durations of use of the leased assets are not specified and there are no plans to undertake relocation in the future. Therefore, the Company did not recognize asset retirement obligations.

The Company and certain of its subsidiaries are subject to a number of legal proceedings including civil litigations related to trade, tax, products or intellectual properties, or governmental investigations. The Company has been dealing with the various litigations and investigations. Depending upon the outcome of these different proceedings, the Company and certain of its subsidiaries may be subject to an uncertain amount of fines, and accordingly the Company has accrued for certain probable and reasonable estimated amounts for the fines.

Since November 2007, the Company and MT Picture Display Co., Ltd. (MTPD), a subsidiary of the Company, have been subjected to investigations by government authorities, including the Japan Fair Trade Commission, the U.S. Department of Justice and the European Commission, in respect of alleged antitrust violations relating to cathode ray tubes (CRTs). For the year ended March 31, 2010, the Japan Fair Trade Commission (JFTC) issued a cease and desist order against MTPD and assessed a fine against its three subsidiaries in South East Asia, but each named company challenged the orders. In May 2015, JFTC made a decision to revoke a part of the orders and sustain the other, but

MTPD and its subsidiaries appealed to the Tokyo High Court because they believe the decision is factually and legally erroneous. For the year ended March 31, 2013, the Company and MTPD received notification of a European Commission Decision in violation of EU competition law and appealed to the European General Court against the decision because the Company believes this decision is factually and legally erroneous as it applies to the Company and MTPD. In September 2015, the European General Court rendered the judgment to accept some of the arguments but reject the other arguments made by the Company and MTPD. The Company will appeal to the European Court of Justice. Since June 2012, the Company and Sanyo Electric Co., Ltd., a subsidiary of the Company, have been subjected to investigations by the European Commission, in respect of alleged antitrust violations relating to the rechargeable battery. Other than those above, there are a number of legal actions against the Company and certain subsidiaries. Management is of the opinion that damages, if any, resulting from these actions, will not have a material effect on the Company's consolidated financial statements.

The ability to predict the outcome of these actions and proceedings is difficult to assess given that certain of the investigations and legal proceedings are still at an early stage, present novel legal theories, involve a large number of parties or taking place in jurisdictions outside of Japan where the laws are complex or unclear. Accordingly, the Company is unable to estimate the losses or range of losses for the actions and proceedings where there is only a reasonable possibility that a loss exceeding amounts already recognized may have been incurred.

(14) Acquisition

On August 7, 2015, the Company acquired all equity interest of ITC Global Inc. (USA) and ITC Global Netherlands Cooperatief U.A. (hereinafter, collectively including their subsidiaries, referred to as "ITC Global") and accordingly, had a controlling interest of ITC Global from the acquisition date.

ITC Global is in the business of providing satellite communication services for the ocean energy industry. As a result of this acquisition, the Company expands its satellite communication services in addition to inflight system and enhances its competitiveness by expanding the scale of the business operations. The market of satellite communication services for the ocean energy industry has a sizable demand with the potential for long-term growth and high profitability, as its customers emphasize quality rather than price. Satellite communication services for the ocean energy industry also highly complements the existing inflight system business as satellite communication services for the ocean energy industry has huge demand in developing countries where satellite communication services for inflight system has fewer demand. Furthermore, the Company is expected to absorb the ITC Global's highly-reliable technology and business know-how of satellite communication services and enjoy synergy as ITC Global uses the same satellite band frequency and transmission method as the Company's satellite communication services for inflight system.

The fair value of the provisional consideration paid (cash) for the controlling interests of ITC Global as of the acquisition date is 31,300 million yen. Acquisition-related cost was not material for the six and three months ended September 30, 2015.

Assets acquired and liabilities assumed are provisionally reflected in the Company's consolidated balance sheets as of the acquisition date (the Company is currently evaluating the fair values of assets acquired and liabilities assumed at the acquisition date, and therefore the below amounts are subject to change) as follows:

	Yen (millions)
Cash and cash equivalents	539
Goodwill	21,656
Intangible assets	11,052
Other assets	5,271
 Total assets acquired	 38,518
Total liabilities assumed	7,218

Total net assets acquired

31,300

Intangible assets of 7,148 million yen are subject to amortization, which include customer relationship of 4,877 million yen with a 9-year weighted-average useful life. Intangible assets of 3,904 million yen are not subject to amortization, all of which relates to trademark.

The total amount of goodwill is included in AVC Networks segment, and is not deductible for tax purpose.

Net sales and income before income taxes of ITC Global that are included in the consolidated statements of operations for the six and three months ended September 30, 2015 are not material.

Pro forma information has been omitted as the amounts are not material.

Corporate Governance Report

Last updated on November 10, 2015

Panasonic Corporation

President: Kazuhiro Tsuga

Contact: 06-6908-1121

TSE Securities Code: 6752

<http://www.panasonic.com/global/>

The corporate governance of Panasonic Corporation (the Company) is described below.

I. Basic Policy on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Policy [updated]

The Company, since its establishment, has operated its business under its business philosophy, contributing to the progress and development of society and the well-being of people worldwide through its business activities. Also, the Company believes it is important to increase corporate value by fulfilling accountability through dialogue with various stakeholders such as shareholders and customers, making effort to execute transparent business activities, and swiftly conducting business activities with fairness and honesty based on its basic philosophy of a company is a public entity of society.

The Company recognizes that corporate governance is the important basic structure for the aforementioned purpose, and endeavors to establish and strengthen the effective corporate governance structure based on the Audit & Supervisory Board System composed of the Board of Directors and Audit & Supervisory Board Member (A&SB Member) / Audit & Supervisory Board (A&SB).

[Reasons for not complying each principle of the Corporate Governance Code] [updated]

The Company complies all of the principles set forth in the Corporate Governance Code.

[Disclosure based on each principle set forth in the Corporate Governance Code] [updated]

[Principle 1.3 Basic Strategy for Capital Policy]

The Company will work to sustainably increase its corporate value, balancing financial stability with capital efficiency and strengthening each of them. In terms of the financial stability, the Company is working to maintain and

buildup a positive net cash position to establish a robust financial position in order to bear business operation risks entailed in active investments. Also, the Company is working to drive aggressively to generate cash and streamline assets to increase shareholders' equity ratio. In terms of the capital efficiency, the Company aims to continuously generate returns that exceed the return expected by the capital market. To achieve the above objective, the Company utilizes CCM* as one of the management control index and conducts management concerning capital costs, deploying the index across the divisional companies and utilizing it in investment decision makings.

Table of Contents

- 2 -

From the perspective of return on the capital investment made by shareholders, the Company, in principle, distributes profits to shareholders based on its business performance and is aiming for stable and continuous growth in dividends, targeting a dividend payout ratio of between 30% and 40% with respect to consolidated net income attributable to Panasonic Corporation.

* CCM: The acronym for Capital Cost Management. The management control index established by Panasonic, which incorporates capital efficiency. CCM is derived by deducting capital costs from the earnings generated by businesses. If the earnings generated by a business exceed the capital cost, that business will have fulfilled its minimum earnings requirement expected by the capital market. Capital cost is calculated by multiplying invested capital by business division's CCM rate (rate of return expected by investors).

[Principle 1.4 Strategic Shareholdings (So-called Cross-Shareholdings in the Corporate Governance Code)]

Other than holding shares of affiliated companies, the Company acquires and holds shares or interests of other companies, limiting to those of strategic partners to which the Company has a close business relation. The Company also judges whether the holding is necessary to increase its mid- to long-term corporate value, considering comprehensively its business strategies and business relation with such partners, among other factors.

For the shares other than affiliated companies, the Company determines that the holding of the shares be limited to a minimum necessary, and periodically judges the validity of the acquisition or holding of the shares in light of the significance and cost and benefit of them. The Company considers selling the shares if it determines that the holding cannot be justified.

In exercising voting rights of the shares that the Company holds, the Company decides and exercises each agenda, considering in a comprehensive manner, whether the Company can expect, among other things, the increases of the mid- to long-term corporate value of the Company and the investee company.

The Company does not make positive decision on the agenda which might damage the shareholders' value.

[Principle 1.7 Related Party Transactions]

The Rules for Board of Directors Meeting and Standards for the Discussions at Board of Directors Meetings require that conflict of interest transactions between the Company and any of its Directors be approved by the Board of Directors. The regulations of the Company also require the Board approval for conflict of interest transactions between the Company and any individual who, having been elected by a board resolution, accepts a position in charge of executing the business of the Company or a Group Company (Executive Officers; however, this does not include those serving concurrently as Directors). All important facts regarding such transactions are brought before the Board, and the Board then resolves on these transactions taking into due consideration the opinions of the independent Outside Directors, for whom there is no risk of any conflict of interest.

[Principle 3.1 Full Disclosure]

(1) Company objectives (e.g., business philosophy), business strategies and business plans

The Company conducts business activities aiming to contribute to the progress and development of society and the well-being of people worldwide under the business philosophy "Recognizing our responsibilities as industrialists, we will devote ourselves to the progress and development of society and the well-being of people through our business activities, thereby enhancing the quality of life throughout the world", formulated by Konosuke Matsushita, the founder. To implement this business philosophy, the Company established "Panasonic Code of Conduct" to share its vision of Panasonic brand and basic stance toward social requirement of corporate social responsibility, among all directors, executive officers and employees of the Company and its group companies, globally. Please refer to the following official corporate website for "Panasonic Code of Conduct"

<http://www.panasonic.com/global/corporate/management/code-of-conduct/list.html>

Currently, the Company aims to spread "a better life" for customers to all the spaces. The Company pursues "A Better Life, A Better World" for each individual customer to offer total solutions not only for hardware but also for software and services in the variety of spaces such as home, office, store, automobile, airplane and town where our customers go about their lives. To realize the vision, the Company aims to create new values which have not existed before by

"Cross-Value Innovation" which results by combining the strength that it has fostered as a consumer electronics manufacture with the strength of its business partners who have thoroughly understood each of the spaces.

Please refer to the following official corporate website for its management plan and business policy based on the philosophy.

1. Secures the rights and equal treatment of shareholders
2. Endeavors to appropriately cooperate with stakeholders such as employees, customers, business partners and local societies with the recognition that its sustainable growth is brought about as a result of the contributions made by such stakeholders.
3. Appropriately discloses corporate information and ensure transparency of the management.
4. Given its fiduciary responsibility and accountability to shareholders, the Board of Directors set the broad direction of corporate strategy, establish an environment where appropriate risk-taking is supported and carry out effective oversight of Directors and management from an independent and objective standpoint.
5. Engages in constructive dialogue with shareholders in order to contribute to the sustainable growth and the increase of corporate value over the mid- to long-term.

(3) Board policies and procedures in determining the compensation of the senior management and Directors

i) Policy

The Company's compensations system for Directors and Executive Officers comprises the basic compensation which is a fixed compensation, performance based compensation which is a short-term incentive and stock-type compensation stock options which is a long-term incentive based on the responsibilities of each of Directors and Executive Officers.

Performance based compensation is determined based on the single-year performance evaluation, using indicators, such as net sales, operating profit, free cash flow and CCM, of the Company as a whole and a specific business, of which a Director or an Executive Officer is in charge. Performance based compensation is designed in a way that the range of the variation is large enough to provide sound motivation to increase business performance.

Stock-type compensation stock option is allocated to share the same profit awareness with its shareholders and to engage in effort to boost corporate value from a long-term perspective. Stock-type compensation stock option is designed in a way that a Director or an Executive Officer in higher position receives higher portion of the stock option relative to the total compensation.

ii) Procedure

Compensations of Directors and Executive Officers are decided by Representative Directors, given the authority by the Board, based on the Company's Director and Executive Officer Compensation System. In November 2015, the Company has established an optional Nomination and Compensation Advisory Committee that includes at least one (1) independent Outside Director. In response to inquiries from the Board, this committee is to deliberate and to report on the appropriateness of the Company's Director and Executive Officer Compensation System.

Records of approval by the President are also retained permanently by the responsible department.

(3) Rules and other measures for financial risk management

Based on Basic Risk Management Regulations, the Company identifies material risks by collecting and assessing information on risks in an integrated and comprehensive fashion through the Global and Group (G&G) Risk Management Committee, and takes countermeasures proportionate to the materiality of each risk.

(4) System for ensuring efficiency of the performance of Directors' duties

The Company expedites decision-making through Rules of Approval for Decision-making in Important Matters, a clear separation of roles between Directors and Executive Officers, the delegation of authority to entities such as Divisional Companies and business divisions, the holding of Group Strategy Meetings, and the implementation of an IT system that ensures the rapid and accurate collection and transmission of important management information.

Table of Contents

- 36 -

The Company creates the mid-term management plan, the business plan, and other measures, and implements these measures by confirming and examining the status of progress at the time of monthly settlement of accounts.

(5) System for ensuring compliance with applicable laws in the performance of employees' duties

The Company has established internal rules such as the Panasonic Code of Conduct and implements various awareness-building activities such as its Compliance Awareness Month on a Company-wide basis as well as training tailored to specific employee levels and e-learning.

The Company seeks to detect improper acts at an early stage through operational audits and internal control audits, operating various types of hotlines in addition to other measures.

The Company aims to resolutely prevent any association with anti-social forces (such as organized criminal networks) by assigning an employee in the division overseeing such preventative measures specifically to the task of blocking any relations with such forces.

(6) System for Ensuring the Propriety of Operations across the Panasonic Group

The Company ensures that basic policy for internal control systems is fully implemented by Group companies, and disseminates relevant information among Group companies. Initiatives to that end include: implementing the Panasonic Code of Conduct and the Rules of Approval for Decision-Making in Important Matters; implementing group-wide regulations respecting individual professional functions; dispatching Directors and A&SB Members to Group companies and exercising the Company's shareholder rights thereof; conducting regular operational audits and internal control audits of Group companies through the internal auditing group, and; sharing and disseminating information on business objectives through business policy announcements.

For publicly listed subsidiaries, the Company puts into effect those measures described above while taking into consideration the nature of such entities as publicly listed companies.

The framework described above ensures the propriety of operations, thereby enabling the Panasonic Group to establish the internal controls necessary for financial reporting based on the Financial Instruments and Exchange Act.

(7) Employees who assist A&SB Members in auditing, and such employees' independence from Directors. The Company has established the Audit & Supervisory Board Members' Office, whose dedicated staff is under the direct control of the A&SB and separate from any operating function of the Company's business. The Company assigns A&SB Member assistant staff members who possess appropriate capabilities and knowledge as required by the A&SB Members.

Table of Contents

- 37 -

- (8) Ensuring effectiveness of instructions given by A&SB Members to employees who assist A&SB Members

Respective A&SB Members issue instructions to their staff members, and those staff members accordingly assist the A&SB Members in performing their duties.

The Company consults with A&SB Members in advance of undertaking personnel related matters including employee transfers and other affairs involving staff members who assist the A&SB Members.

- (9) System for Directors, employees and other staffs of the Company and its subsidiaries to report to the Company's A&SB Members

Directors, employees and other staffs of the Company and Group companies report on business operations and other issues at respective regular meetings held by A&SB Members and other such occasions, and also report as necessary at other important meetings with A&SB Members, where their attendance has been requested. Moreover, A&SB Members of Group companies report as necessary to the Company's A&SB Members regarding content of reports at respective Group companies. Audit & supervisory officers conduct inquiries at respective Divisional Companies regarding business operations and issues at such Divisional Companies, and report such matters as necessary to the Company's A&SB Members.

The Company has established an Audit Report System by which employees of the Company and Group companies directly report to the Company's A&SB about irregularities or concerns in regards to accounting or auditing.

- (10) System for ensuring that parties who have reported to A&SB Members do not incur unfavorable treatment as a consequence of such reporting

The Company calls on departments associated with reported matters not to act unfavorably toward parties who have reported as a consequence of such reporting. Moreover, the Company enables parties to report matters anonymously under the Audit Report System, and prohibits unfavorable treatment of such parties as a consequence of such reporting.

- (11) Policy on management of expenses and debt incurred in execution of A&SB Member duties

To ensure effectiveness of audits, the Company calculates preliminary budgets with respect to anticipated expenses required by A&SB Members in executing their duties, in accordance with Audit & Supervisory Standards.

The Company also provides pre-payment or reimbursement for expenses paid under urgent or extraordinary circumstances in accordance with laws and regulations.

In making payment of audit expenses, A&SB Members are required to remain mindful of efficiency and appropriateness in that regard.

(12) Other systems for ensuring effective performance of audits by the A&SB Members

Audit & supervisory officers tasked with monthly reporting and implementing liaison meetings are assigned to Divisional Companies and other such entities. Any decisions on personnel-related matters involving the audit & supervisory officers require the agreement of A&SB Members.

The Company has established and operates the Panasonic Divisional Companies Audit & Supervisory Officers Meeting chaired by the Company's Senior A&SB Member, and the Panasonic Group Audit & Supervisory Board Members Meeting, in order to facilitate cooperation among the A&SB Members of the Company, the audit & supervisory officers of Divisional Companies and other such entities, and the A&SB Members of Group companies.

Respective departments cooperate in implementing visiting audits of business offices inside and outside Japan conducted by A&SB Members. Internal auditing groups also cooperate to enhance the effectiveness of audits carried out by A&SB Members through collaboration with A&SB Members, including reporting as appropriate to the A&SB Members.

Notes: Group companies means subsidiaries as stipulated in the Companies Act.

2. Basic Policy on Eliminating Anti-Social Forces

The Company considers compliance with laws and ordinances as well as corporate ethics, to be the foundation of its business, and has described this principle in the Panasonic Code of Conduct. The Company also established the rule of the prevention of relationships with antisocial forces, and developed a management system, as described below.

Status of the development of the policy to antisocial force are also described in above 2. Status of Basic Policy Implementation in the Company (5) System for ensuring compliance with applicable laws in the performance of employees' duties of IV Matters Related to Internal Control System:

- (1) Status of establishment of the department overseeing measures against antisocial forces and the persons-in-charge for preventing undue claims

The Company thoroughly prevents any relationships with antisocial forces by developing a management system across the Group, mainly through the Business Conduct Committee, by establishing the department overseeing measures against antisocial forces to take measures against antisocial forces and by assigning persons-in-charge for preventing undue claims.

- (2) Status of cooperation with external professional organizations

In order to promptly take measures against antisocial forces, the Company, on a daily basis, cooperates closely with the National Center for the Elimination of Boryokudan, the police station under its jurisdiction, the association for corporate defense, attorneys and other people, mainly through the department overseeing measures against antisocial forces.

(3) Status of collection and management of information on antisocial forces

The Company developed a system to enable relevant information to be concentrated at the department overseeing measures against antisocial forces. Also, the Company endeavors to collect information from the external professional organizations and to keep every Group company informed of the information. The information is properly managed in accordance with laws and ordinances as well as the Company's internal regulations.

(4) Status of development of manual for countermeasures

The Company developed a manual for countermeasures to eliminate antisocial forces and delivered it to the Group companies. The Company endeavors to cause all Group companies to respond systematically, according to the procedures in the manual for countermeasures.

(5) Status of implementation of training activities

The Company, mainly through the department overseeing measures against antisocial forces, promotes awareness activities within the Group to prevent the formation of relationships with antisocial forces, illegal payoffs, any acts that violate the principle of equality among customers and any other improper acts, by inviting outside instructors and regularly holding training workshops on the elimination of antisocial forces against corporations.

Supplementary Explanation

(1) Basic Policy

Since the Company's foundation, Panasonic has operated its businesses under its business philosophy, which sets forth that Panasonic's mission as a business enterprise is to contribute to the progress and development of society and the well-being of people through its business activities, thereby enhancing the quality of life throughout the world. While offering and pursuing a better life for an even wider range of customers, Panasonic will also work to sustainably grow its corporate value to satisfy its shareholders, investors, customers, business partners, employees and all other stakeholders.

Panasonic has a basic policy that shareholders should make final decision in the event that a large-scale purchase of the Company's shares is offered, regarding whether or not the offer should be accepted. However, in such cases, there is a possibility that shareholders might not be provided with sufficient information required to make appropriate decisions, and a concern that corporate value and shareholder interest might be significantly damaged. In this event, the Company considers it necessary to be able to take appropriate countermeasures in order to protect the interests of the shareholders as a group.

(2) Measures to Realize Basic Policy

1) Specific measures to realize basic policy

Having its DNA of consumer electronics tailored to customer lifestyles, Panasonic aims to contribute to better livings of customers by collaborating with a variety of partners. Specifically, to achieve net sales of 10 trillion yen in fiscal 2019, we are focusing on the 5 business areas: consumer electronics, housing, automotive, BtoB solutions and devices.

Today, we are drawing growth strategies and carrying out specific initiatives by clarifying business fields on which we focus our managerial resources, based on the 5x3 matrix combining the 5 business areas mentioned above with the 3 global regions of Japan, the Americas/Europe (including Latin Americas), and the Strategic Regions (including China, Asia, the Middle East and Africa).

And in key business areas with huge growth potential, Panasonic intends to make 1 trillion yen-scale strategic investments toward fiscal 2019 and we will accelerate our efforts to achieve 10 trillion yen in sales.

2) Measures based on the basic policy to prevent control by inappropriate parties

On April 28, 2005, the Board of Directors resolved to adopt a policy related to a Large-scale Purchase of the Company's shares (the Large-scale Purchase Rule) called the Enhancement of Shareholder Value Plan (the ESV Plan). The ESV Plan has been approved at Board of Directors' meetings annually. On April 28, 2014, the Board resolved to continue the ESV plan. At the April 2015 meeting of the Board, the ESV Plan was approved again.

With respect to a Large-scale Purchaser (a Large-scale Purchaser) who intends to acquire 20% or more of all voting rights of the Company (the Large-scale Purchase), this policy requires that (i) the Large-scale Purchaser provide sufficient information, such as its outline, purposes or conditions, the basis for determination of the purchase price and funds for purchase, and management policies and business plans which the Large-scale Purchaser intends to adopt after the completion of the Large-scale Purchase, to the Board before the Large-scale Purchase is to be conducted and (ii) after all required information is provided, the Board should be allowed a sufficient period of time (a sixty (60)-day period or a ninety (90)-day period) for consideration. The Board intends to assess and examine any proposed Large-scale Purchase from the perspective of the interests of shareholders as a whole after the information on such purchase is provided, and subsequently to disclose the opinion of the Board and any other information needed to assist shareholders in making their decisions. The Board may negotiate with the Large-scale Purchaser regarding purchase conditions or suggest alternative plans to shareholders, if it is deemed necessary.

Table of Contents

- 41 -

If a Large-scale Purchaser does not comply with the rules laid out in the Large-scale Purchase Rule, the Company's Board of Directors may take countermeasures against the Large-scale Purchase to protect the interests of all shareholders. Countermeasures include the implementation of stock splits, issuance of stock acquisition rights (including allotment of share options without contribution) or any other measures that the Board is permitted to take under the Company Law of Japan, other laws and the Company's Articles of Incorporation. If a Large-scale Purchaser complies with the Large-scale Purchase Rule, the Board does not intend to prevent the Large-scale Purchase at its own discretion, unless it is clear that such Large-scale Purchase will cause irreparable damage or loss to the Company.

The Board will make decisions relating to countermeasures by referring to advice from outside experts, such as lawyers and financial advisers, and fully respect the opinions of Outside Directors and A&SB Members.

When invoking the aforementioned countermeasures, if the Company's Board of Directors decides that it is appropriate to confirm the will of shareholders from the perspective of the interest of all shareholders, a general meeting of shareholders will be held. If the Company's Board of Directors decides to hold a general meeting of shareholders, it will give notice to that effect as well as the reasons for such a meeting at that time.

The Board will adopt specific countermeasures which it deems appropriate at that time. If the Board elects to make a stock split for shareholders as of a certain record date, the maximum ratio of the stock split shall be five-for-one. If the Board elects to issue stock acquisition rights to shareholders, the Company will issue one (1) stock acquisition right for every share held by shareholders on a specified record date. One (1) share shall be issued on the exercise of each stock acquisition right. If the Board elects to issue stock acquisition rights as a countermeasure, it may determine the exercise period and exercise conditions of the stock acquisition rights, such as the conditions that shareholders who belong to a specific group of shareholders including a Large-scale Purchaser may not exercise stock acquisition rights in consideration of the effectiveness thereof as a countermeasure, as well as the conditions that allow the Company to acquire share options by swapping the Company stock with a party other than the Large-scale Purchaser.

The Company recognizes that the aforementioned countermeasures may cause damage or loss, economic or otherwise, to a prospective Large-scale Purchaser who does not comply with the Large-scale Purchase Rule. The Company does not anticipate that taking such countermeasures will cause shareholders, other than the Large-scale Purchaser, economic damage or loss of any rights. However, in the event that the Board determines to take a specific countermeasure, the Board will disclose such countermeasure in a timely and appropriate manner, pursuant to relevant laws and stock exchange regulations.

The term of office for all Directors is one (1) year, and Directors are elected at the Ordinary General Meeting of Shareholders held in June every year. The Company's Board of Directors intends to review the ESV Plan, as necessary, for reasons including amendments to applicable legislation. Any such review would be conducted in the interests of all shareholders.

For further details about the ESV Plan, please see the press release "Panasonic Announces Continuation of Policy toward Large-scale Purchases of Company's Shares [ESV plan]" issued on April 28, 2015 at the Company's Web site:

(3) Evaluation of Measures by the Board of Directors and Rationale for Evaluation

The Company's mid-term management plan was formulated as a specific measure to increase the Company's corporate value in a sustained manner. The ESV Plan was formulated from the perspective of protecting the interest of shareholders as a whole, and is aimed at ensuring shareholders receive sufficient information to make decisions on share purchase proposals by allowing those responsible for the management of the Company, the Board, to provide their evaluation of any proposed Large-scale Purchase, and providing the opportunity for alternative proposals to be submitted.

Consequently, these measures are intended to protect the interests of all the Company's shareholders in accordance with (1) Basic policy and their purpose is not to maintain the positions of the Company's Directors and A&SB Members.

(Reference) **Outline of issuance of stock acquisition rights (In case the Board of Directors elects to issue stock acquisition rights in a rights offering)**

1. Shareholders who are entitled to receive stock acquisition rights and conditions of issuance thereof:
One (1) stock acquisition right shall be granted to a shareholder, per one (1) share held by such shareholder (excluding the shares held by Panasonic as treasury stock), whose name is recorded in the register of shareholders as of the record date to be specified and published by the Board. In this regard, Panasonic may either (i) grant to each of the shareholders holding a share of common stock a right to subscribe for a stock acquisition right and to make an offering for subscription of the offered stock acquisition rights, or (ii) distribute stock acquisition rights to the shareholders without consideration.

2. Type and number of shares to be acquired upon exercise of stock acquisition rights:
The type of shares to be acquired upon exercise of stock acquisition rights shall be the Company's common stock, and the number of shares to be acquired upon exercise of one (1) stock acquisition right shall be one (1) share.

3. Total number of stock acquisition rights to be issued:
The total number of stock acquisition rights to be issued shall be determined by the Board up to five (5) billion stock acquisition rights. The Board may issue stock acquisition rights more than once within the maximum number of five (5) billion stock acquisition rights to be issued in total.

4. Payment amount of each stock acquisition right in the case of item 1, (i) above:
No payment is required.

5. Price of assets to be invested upon exercise of each stock acquisition right:

The price of assets to be invested upon exercise of a stock acquisition right shall be one (1) Japanese yen or more to be determined by the Board.

6. Restriction on transfer of stock acquisition rights:

Acquisition of stock acquisition rights by way of assignment thereof requires the approval of the Board.

7. Conditions of exercise of stock acquisition rights:

The Board of Directors may prohibit a person or company belonging to a group of shareholders (tokutei-kabunushi group) including a Large-scale Purchaser (excluding the case where the Board approves that an acquisition or shareholding of shares and other securities of the Company by the person or the company does not conflict with the benefit of all shareholders of the Company) from exercising stock acquisition rights. The details shall be otherwise determined by the Board.

8. Exercise period and other conditions of stock acquisition rights:

Exercise period, conditions of acquisitions and other conditions of stock acquisition rights shall be determined by the Board of Directors. The Board may determine that the Company may repurchase stock acquisition rights (Qualified Stock Acquisition Rights) that are not held by a holder of a stock acquisition right who is prohibited from exercising stock acquisition rights due to the exercise conditions mentioned in item 7 above, and deliver one (1) share of common stock to be determined by the Board per one Qualified Stock Acquisition Right to each of the holders thereof.

2. Other Matters Concerning to Corporate Governance System

The Company's structure for timely disclosure of corporate information is as follows.

Under its business philosophy, "A company is a public entity of society," the Company has been committed to highly transparent business activities and endeavored to be accountable its accountability to its stakeholders. The Company's basic policy concerning information disclosure is set forth in the "Panasonic Code of Conduct," which prescribes specific items to be complied with in order to put the Group's business philosophy into practice, and is published on the Company's website and elsewhere. The Company's basic policy concerning information disclosure is to provide the Company's fair and accurate financial information and corporate information, including management policies, business activities and corporate social responsibility (CSR) activities, in a timely, appropriate and easily understandable manner.

In accordance with this basic policy, important matters concerning the management of the Group are resolved or reported at the Board of Directors pursuant to the Regulations of the Board of Directors. These important matters and other matters, which are required to be disclosed under relevant laws and ordinances in Japan and overseas and the rules of financial instruments exchanges or any other regulations, are timely and accurately reported from each relevant department, that has the important internal information, to the department that handles relevant information under the monitoring of the Director in charge of Accounting and Finance, so that important information is gathered.

Also, if any of the matters which are required to be disclosed under relevant laws and ordinances in Japan and overseas, and the rules of financial instruments exchanges or any other regulations occur with respect to the Company's business divisions including subsidiaries, such matter is required to be immediately reported to the Financial & Accounting Department or the Disclosure & Investor Relations Office, depending upon the nature thereof; Thus, the Company has established a structure whereby these matters can be identified within the Company.

With respect to the information gathered or identified, the Company determines the necessity of disclosure thereof in accordance with relevant laws and ordinances in Japan and overseas, and the rules of financial instruments exchanges or any other regulations, and makes efforts to conduct the disclosure at the time that the organization, which substantially decides on executions of business of the Company, makes a resolution or determination, or becomes aware of the occurrence of the relevant matter.

In addition, the Company endeavors to confirm the details and expressions of the disclosure with the relevant departments within the Company and outside legal counsel to ensure the accuracy, fairness and adequacy of the disclosure.

Moreover, the Company has established disclosure control procedures in order to comply with relevant laws and ordinances in Japan and overseas, the rules of financial instruments exchanges and any other regulations, and to implement the fair, accurate and timely disclosure of information about the Company Group, etc. In the process of preparation and confirmation of annual securities reports, quarterly reports and annual reports, the Disclosure Committee, which is comprised of managers from principal departments that handle relevant information, confirms the validity of the content of the descriptions and the appropriateness of the procedures concerning the disclosure under the supervision of the President and the Director in charge of Accounting and Finance, who are responsible for establishing, maintaining and ensuring the effectiveness of the internal control and disclosure control of the Company. The chairman of the Disclosure Committee is appointed by the President and the Director in charge of Accounting and Finance, and the members of the Disclosure Committee are appointed by the chairman of the Disclosure Committee. The Disclosure Committee also develops, maintains, improves and evaluates the internal control procedures concerning disclosure.

The Company has documented the actual status of its internal control system, with integrated control provided by the Internal Control Promotion Office, in order to ensure reliability in the financial reporting of the Panasonic Group including its subsidiaries, ranging from the control infrastructure to actual internal control activities. Specifically, the Company has reinforced its internal controls by implementing self-checks and self-assessment programs at each of the Divisional Companies and business divisions, etc. Then, Internal Auditing Managers of the Divisional Companies appointed by the Company at each of the Divisional Companies, etc. conduct audits. Basing on the audits, the Internal Control Promotion Office supervises the whole-group internal control audits in order to confirm the effectiveness of each company's financial reporting. With the aim of further enhancing the Group's internal control system, in fiscal 2015 Panasonic had approximately 400 personnel assigned to conduct internal audits in the Internal Auditing Group.
