†Non income producing security.

‡Variable rate security. The rate shown is the rate as of May 31, 2010. Interest rates reset periodically.

§Non income producing security. Security is currently in default.

¶The rate shown is the effective yield at the time of purchase.

@Illiquid security. At May 31, 2010, the aggregate amount of illiquid securities was \$86,808, which represented 0.13% of the Fund's net assets. See Note 10 in "Notes to financial statements."

Restricted Security. These investments are in securities not registered under the Securities Act of 1933, as amended, and have certain restrictions on resale which may limit their liquidity. At May 31, 2010, the aggregate amount of the restricted securities was \$67,454 or 0.10% of the Fund's net assets. See Note 10 in "Notes to financial statements."

=Security is being fair valued in accordance with the Fund's fair valuation policy. At May 31, 2010, the aggregate amount of fair valued securities was \$74,384, which represented 0.11% of the Fund's net assets. See Note 1 in "Notes to financial statements."

#Security exempt from registration under Rule 144A of the Securities Act of 1933, as amended. At May 31, 2010, the aggregate amount of Rule 144A securities was \$17,073,446, which represented 25.44% of the Fund's net assets. See Note 10 in "Notes to financial statements."

«Senior Secured Loans generally pay interest at rates which are periodically redetermined by reference to a base lending rate plus a premium. These base lending rates are generally: (i) the prime rate offered by one or more United States banks, (ii) the lending rate offered by one or more European banks such as the London Inter-Bank Offered Rate (LIBOR), and (iii) the certificate of deposit rate. Senior Secured Loans may be subject to restrictions on resale. Stated rate in effect at May 31, 2010.

WStep coupon bond. Indicates security that has a zero coupon that remains in effect until a predetermined date at which time the stated interest rate becomes effective.

Step coupon bond. Coupon increases/decreases periodically based on a predetermined schedule. Stated rate in effect at May 31, 2010.

*Fully or partially on loan.

**See Note 9 in "Notes to financial statements."

©Includes \$7,797,376 of securities loaned.

1 Ratios and portfolio turnover have been annualized and total return has not been annualized.

2 The average shares outstanding method has been applied for per share information.

3 Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for the purpose of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND, INC - Form N-CSR

there is an increase in the discount or decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.

4 Adjusted average net assets excludes debt outstanding.

Notes to financial statements

Delaware Investments® Dividend and Income Fund, Inc.
May 31, 2010 (Unaudited)

Delaware Investments Dividend and Income Fund, Inc. (Fund) is organized as a Maryland corporation and is a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The Fund's shares trade on the New York Stock Exchange (NYSE) under the symbol DDF.

The investment objective of the Fund is to seek high current income. Capital appreciation is a secondary objective.

1. Significant Accounting Policies

The following accounting policies are in accordance with U.S. generally accepted accounting principles (U.S. GAAP) and are consistently followed by the Fund.

Security Valuation – Equity securities, except those traded on the Nasdaq Stock Market, Inc. (Nasdaq), are valued at the last quoted sales price as of the time of the regular close of the NYSE on the valuation date. Securities traded on the Nasdaq are valued in accordance with the Nasdaq Official Closing Price, which may not be the last sales price. If on a particular day an equity security does not trade, then the mean between the bid and ask prices will be used. Securities listed on a foreign exchange are valued at the last quoted sales price on the valuation date. Short-term debt securities are valued at market value. U.S. government and agency securities are valued at the mean between the bid and ask prices. Other debt securities, credit default swap (CDS) contracts and interest rate swap contracts are valued by an independent pricing service or broker. To the extent current market prices are not available, the pricing service may take into account developments related to the specific security, as well as transactions in comparable securities. Investment companies are valued at net asset value per share. Foreign currency exchange contracts are valued at the mean between the bid and ask prices. Interpolated values are derived when the settlement date of the contract is an interim date for which quotations are not available. Generally, other securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith under the direction of the Fund's Board of Directors (Board). In determining whether market quotations are readily available or fair valuation will be used, various factors will be taken into consideration, such as market closures or suspension of trading in a security. The Fund may use fair value pricing more frequently for securities traded primarily in non-U.S. markets because, among other things, most foreign markets close well before the Fund values its securities at 4:00 p.m. Eastern time. The earlier close of these foreign markets gives rise to the possibility that significant events, including broad market moves, government actions or pronouncements, aftermarket trading, or news events may have occurred in the interim. To account for this, the Fund may frequently value foreign securities using fair value prices based on third-party vendor modeling tools (international fair value pricing).

Federal Income Taxes – No provision for federal income taxes has been made as the Fund intends to continue to qualify for federal income tax purposes as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended, and make the requisite distributions to shareholders. The Fund evaluates tax positions taken or expected to be taken in the course of preparing the Fund's tax return to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current year. Management has analyzed the Fund's tax positions taken on federal income tax returns for all open tax years (November 30, 2006 – November 30, 2009), and has concluded that no provision for federal income tax is required in the Fund's financial statements.

Distributions – The Fund has implemented a managed distribution policy. Under the policy, the Fund is managed with a goal of generating as much of the distribution as possible from net investment income and short-term capital gains. The balance of the distribution will then come from long-term capital gains to the extent permitted, and if necessary, a return of capital. Even though the Fund may realize current year capital gains, such gains may be offset, in whole or in part, by the Fund's capital loss carryovers from prior years. For federal income tax purposes, the effect of such capital loss carryovers may be to convert (to the extent of such current year gains) what would otherwise be returns of capital into distributions taxable as ordinary income. This tax effect can occur during times of extended market volatility. The actual determination of the source of the Fund's distributions can be made only at year-end. Shareholders should receive written notification regarding the actual components and tax treatments of all Fund distributions for the calendar year 2010 in early 2011.

Repurchase Agreements – The Fund may invest in a pooled cash account along with other members of the Delaware Investments Family of Funds pursuant to an exemptive order issued by the Securities and Exchange Commission. The aggregate daily balance of the pooled cash account is invested in repurchase agreements secured by obligations of the U.S. government. The respective collateral is held by the Fund's custodian bank until the maturity of the respective repurchase agreements. Each repurchase agreement is at least 102% collateralized. However, in the event of default or bankruptcy by the counterparty to the agreement, realization of the collateral may be subject to legal proceedings. At May 31, 2010, the Fund held no investments in repurchase agreements.

Foreign Currency Transactions – Transactions denominated in foreign currencies are recorded at the prevailing exchange rates on the valuation date. The value of all assets and liabilities denominated in foreign currencies is translated into U.S. dollars at the exchange rate of such currencies against the U.S. dollar daily. Transaction gains or losses resulting from changes in exchange rates during the reporting period or upon settlement of the foreign currency transaction are reported in operations for the current period. The Fund isolates that portion of realized gains and losses on investments in debt securities, which is due to changes in the foreign exchange rates from that which is due to changes in market prices of debt securities. For foreign equity securities, these changes are included in realized gains (losses) on investments. The Fund reports certain foreign currency related transactions as components of realized gains (losses) for financial reporting purposes, whereas such components are treated as ordinary income (loss) for federal income tax purposes.

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND, INC - Form N-CSR

Use of Estimates –The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(continues) 15

Notes to financial statements

Delaware Investments® Dividend and Income Fund, Inc.

1. Significant Accounting Policies (continued)

Other –Expenses directly attributable to the Fund are charged directly to the Fund. Other expenses common to various funds within the Delaware Investments Family of Funds are generally allocated amongst such funds on the basis of average net assets. Management fees and some other expenses are paid monthly. Security transactions are recorded on the date the securities are purchased or sold (trade date) for financial reporting purposes. Costs used in calculating realized gains and losses on the sale of investment securities are those of the specific securities sold. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis. Discounts and premiums on non-convertible bonds are amortized to interest income over the lives of the respective securities. Distributions received from investments in Real Estate Investment Trusts (REITs) are recorded as dividend income on the ex-dividend date, subject to reclassification upon notice of the character of such distribution by the issuer.

Subject to seeking best execution, the Fund may direct certain security trades to brokers who have agreed to rebate a portion of the related brokerage commission to the Fund in cash. Such commission rebates are included in realized gain on investments in the accompanying financial statements and totaled \$1,613 for the six months ended May 31, 2010. In general, best execution refers to many factors, including the price paid or received for a security, the commission charged, the promptness and reliability of execution, the confidentiality and placement accorded the order, and other factors affecting the overall benefit obtained by the Fund on the transaction. DMC, as defined below, and its affiliates have previously and may in the future act as an investment advisor to mutual funds or separate accounts affiliated with the administrator of the commission recapture program described above. In addition, affiliates of the administrator act as consultants in helping institutional clients choose investment advisors and may also participate in other types of business and provide other services in the investment management industry.

The Fund may receive earnings credits from its custodian when positive cash balances are maintained, which are used to offset custody fees. There were no earnings credits for the period ended May 31, 2010.

2. Investment Management, Administration Agreements and Other Transactions with Affiliates

In accordance with the terms of its investment management agreement, the Fund pays Delaware Management Company (DMC), a series of Delaware Management Business Trust and the investment manager, an annual fee of 0.55%, (calculated daily) of the adjusted average weekly net assets of the Fund. For purposes of the calculation of investment management fee, adjusted average weekly net assets excludes line of credit liability.

Delaware Service Company, Inc. (DSC), an affiliate of DMC, provides fund accounting and financial administration oversight services to the Fund. For these services, the Fund pays DSC fees based on the aggregate daily net assets of the Delaware Investments Family of Funds at the following annual rate: 0.0050% of the first \$30 billion; and 0.0045% of the next \$10 billion; 0.0040% of the next \$10 billion; and 0.0025% of aggregate average daily net assets in excess of \$50 billion. The fees payable to DSC under the service agreement described above are allocated among all Funds in the Delaware Investments Family of Funds on a relative net asset value basis. For the six months ended May 31, 2010, the Fund was charged \$2,227 for these services.

At May 31, 2010, the Fund had liabilities payable to affiliates as follows:

Investment management fee payable to DMC	\$41,647
Fees and expenses payable to DSC	379
Other expenses payable to DMC and affiliates*	4,095

*DMC, as part of its administrative services, pays operating expenses on behalf of the Fund and is reimbursed on a periodic basis. Such expenses include items such as printing of shareholder reports, fees for audit, legal and tax services, stock exchange fees, custodian fees and Directors' fees.

As provided in the investment management agreement, the Fund bears the cost of certain legal and tax services, including internal legal and tax services provided to the Fund by DMC and/or its affiliates' employees. For the six months ended May 31, 2010, the Fund was charged \$754 for internal legal and tax services provided by DMC and/or its affiliates' employees.

Directors' fees include expenses accrued by the Fund for each Director's retainer and meeting fees. Certain officers of DMC and DSC are officers and/or directors of the Fund. These officers and directors are paid no compensation by the Fund.

3. Investments

For the six months ended May 31, 2010, the Fund made purchases of \$30,165,111 and sales of \$31,114,102 of investment securities other than short-term investments.

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND, INC - Form N-CSR

At May 31, 2010, the cost of investments for federal income tax purposes has been estimated since final tax characteristics cannot be determined until fiscal year end. At May 31, 2010, the cost of investments was \$97,659,325. At May 31, 2010, net unrealized depreciation was \$3,315,346, of which \$5,350,549 related to unrealized appreciation of investments and \$8,665,895 related to unrealized depreciation of investments.

U.S. GAAP defines fair value as the price that the Fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. A three level hierarchy for fair value measurements has been established based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available under the circumstances. The Fund's investment in its entirety is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three level hierarchy of inputs is summarized below.

Level 1 – Inputs are quoted prices in active markets

Level 2 – Inputs are observable, directly or indirectly

Level 3 – Inputs are unobservable and reflect assumptions on the part of the reporting entity

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND, INC - Form N-CSR

The following table summarizes the valuation of the Fund's investments by fair value hierarchy levels as of May 31, 2010:

	Level 1	Level 2	Level 3	Total
Corporate Debt	\$ 165,392	\$ 39,835,800	\$ 198,722	\$ 40,199,914
Common Stock	44,941,642	—	4	44,941,646
Short-Term Investments	—	1,312,010	—	1,312,010
Securities Lending Collateral	6,933,281	820,701	6,938	7,760,920
Other	119,168	—	10,321	129,489
Total	\$ 52,159,483	\$ 41,968,511	\$ 215,985	\$ 94,343,979

The following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining fair value:

	Corporate Debt	Common Stock	Securities Lending Collateral	Other	Total Fund
Balance as of 11/30/09	\$ 74,379	\$ 43	\$ 6,938	\$ 20,641	\$ 102,001
Purchases	120,000	—	—	—	120,000
Net change in unrealized appreciation/depreciation	4,343	(39)	—	(10,320)	(6,016)
Balance as of 5/31/10	\$ 198,722	\$ 4	\$ 6,938	\$ 10,321	\$ 215,985
Net change in unrealized appreciation/depreciation from investments still held as of 5/31/10	\$ 4,343	\$ —	\$ —	\$ (10,320)	\$ (5,977)

In January 2010, the Financial Accounting Standards Board issued an Accounting Standards Update, Improving Disclosures about Fair Value Measurements, which introduces new disclosure requirements and clarifies certain existing disclosure requirements around fair value measurements currently presented above. The new disclosures and clarifications of existing disclosures are generally effective for the Fund's year ending November 30, 2011 and interim periods therein. Management is evaluating the impact of this update on its current disclosures.

4. Dividend and Distribution Information

Income and long-term capital gain distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP. Additionally, distributions from net gains on foreign currency transactions and net short-term gains on sales of investment securities are treated as ordinary income for federal income tax purposes. The tax character of dividends and distributions paid during the six months ended May 31, 2010 and the year ended November 30, 2009 was as follows:

	Six Months Ended 5/31/10* (Unaudited)	Year Ended 11/30/09
Ordinary income	\$ 3,256,470	\$ 3,988,862
Return of capital	—	2,947,565
Total	\$ 3,256,470	\$ 6,936,427

*Tax information for the six months ended May 31, 2010 is an estimate and the tax character of dividends and distributions may be redesignated at fiscal year end.

5. Components of Net Assets on a Tax Basis

The components of net assets are estimated since final tax characteristics cannot be determined until fiscal year end. As of May 31, 2010, the components of net assets on a tax basis were as follows:

Shares of beneficial interest	\$ 96,038,160
-------------------------------	---------------

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND, INC - Form N-CSR

Realized gains 12/1/09 – 5/31/10	1,893,004
Capital loss carryforwards as of 11/30/09	(27,438,402)
Unrealized depreciation of investments	(3,315,346)
Other temporary differences	(66,931)
Net assets	\$ 67,110,485

The differences between book basis and tax basis components of net assets are primarily attributable to tax deferral of losses on wash sales, contingent payment debt instruments, tax treatment of partnership income and market discount and premium on debt instruments.

For financial reporting purposes, capital accounts are adjusted to reflect the tax character of permanent book/tax differences. Reclassifications are primarily due to tax treatment of dividends and distributions and market discount and premium on certain debt instruments. Results of operations and net assets were not affected by these reclassifications. For the six months ended May 31, 2010, the Fund recorded an estimate of these differences since the final tax characteristics cannot be determined until fiscal year end.

Paid-in capital	\$(1,148,144)
Distributions in excess of net investment income	1,187,796
Accumulated net realized gain	(39,652)

For federal income tax purposes, capital loss carryforwards may be carried forward and applied against future capital gains. Capital loss carryforwards remaining at November 30, 2009 will expire as follows: \$16,115,503 expires in 2016 and \$11,322,899 expires in 2017.

For the six months ended May 31, 2010, the Fund had capital gains of \$1,893,004, which may reduce the capital loss carryforwards.

(continues) 17

Notes to financial statements

Delaware Investments® Dividend and Income Fund, Inc.

6. Capital Stock

Shares obtained under the Fund's dividend reinvestment plan are purchased by the Fund's transfer agent, The Bank of New York Mellon (BNY Mellon) Shareowner Services, in the open market. There were no shares issued under the Fund's dividend reinvestment plan for the six months ended May 31, 2010 and the year ended November 30, 2009.

On May 21, 2009, the Fund's Board approved a tender offer for shares of the Fund's common stock. The tender offer authorized the Fund to purchase up to 5% of its issued and outstanding shares at a price equal to the Fund's net asset value at the close of business on the NYSE on June 29, 2009, the first business day following the expiration of the offer. The tender offer commenced on June 1, 2009 and expired on June 26, 2009.

In connection with the tender offer, the Fund purchased 496,792 shares of capital stock at a total cost of approximately \$2,916,169. The tender offer was oversubscribed, and all tenders of shares were subject to proration (at a ratio of approximately 0.879434237) in accordance with the terms of the tender offer.

The Fund did not repurchase shares under the Share Repurchase Program during the six months ended May 31, 2010 and the year ended November 30, 2009.

7. Line of Credit

For the six months ended May 31, 2010, the Fund borrowed money pursuant to a \$30,000,000 Credit Agreement with BNY Mellon that expires on November 15, 2010. Depending on market conditions, the amount borrowed by the Fund pursuant to the Credit Agreement may be reduced or possibly increased in the future.

At May 31, 2010, the par value of loans outstanding was \$20,225,000 at a variable interest rate of 1.40%. During the six months ended May 31, 2010, the average daily balance of loans outstanding was \$20,225,000 at a weighted average interest rate of approximately 1.46%. Interest on borrowing is based on a variable short-term rate plus an applicable margin. The commitment fee is computed at a rate of 0.25% per annum on the unused balance. The loan is collateralized by the Fund's portfolio.

8. Derivatives

U.S. GAAP requires enhanced disclosures that enable investors to understand: 1) how and why an entity uses derivatives, 2) how they are accounted for, and 3) how they affect an entity's results of operations and financial position.

Swap Contracts –The Fund may enter into interest rate swap contracts, index swap contracts and credit default swap (CDS) contracts in the normal course of pursuing its investment objectives. The Fund may use interest rate swaps to adjust the Fund's sensitivity to interest rates or to hedge against changes in interest rates. Index swaps may be used to gain exposure to markets that the Fund invests in, such as the corporate bond market. The Fund may also use index swaps as a substitute for futures or options contracts if such contracts are not directly available to the Fund on favorable terms. The Fund may enter into CDS contracts in order to hedge against a credit event, to enhance total return or to gain exposure to certain securities or markets.

Interest Rate Swaps. An interest rate swap contract is an exchange of interest rates between counterparties. In one instance, an interest rate swap involves payments received by the Fund from another party based on a variable or floating interest rate, in return for making payments based on a fixed interest rate. An interest rate swap can also work in reverse with the Fund receiving payments based on a fixed interest rate and making payments based on a variable or floating interest rate. Interest rate swaps may be used to adjust the Fund's sensitivity to interest rates or to hedge against changes in interest rates. Periodic payments on such contracts are accrued daily and recorded as unrealized appreciation/ depreciation on swap contracts. Upon periodic payment/receipt or termination of the contract, such amounts are recorded as realized gains or losses on swap contracts. The Fund's maximum risk of loss from counterparty credit risk is the discounted net value of the cash flows to be received from/paid to the counterparty over the interest rate swap contract's remaining life, to the extent that the amount is positive. This risk is mitigated by having a netting arrangement between the Fund and the counterparty and by the posting of collateral by the counterparty to the Fund to cover the Fund's exposure to the counterparty.

Index Swaps. Index swaps involve commitments to pay interest in exchange for a market linked return based on a notional amount. To the extent the total return of the security, instrument or basket of instruments underlying the transaction exceeds the offsetting interest obligation, the Fund will receive a payment from the counterparty. To the extent the total return of the security, instrument or basket of instruments underlying the transaction falls short of the offsetting interest obligation, the Fund will make a payment to the counterparty. The change in value of swap contracts outstanding, if any, is recorded as unrealized appreciation or depreciation daily. A realized gain or loss is recorded on maturity or termination of the swap contract. The Fund's maximum risk of loss from counterparty credit risk is the discounted net value of the cash flows to be received from/paid to the counterparty over the index swap contract's remaining life, to the extent that the amount is positive. This risk is mitigated by having a netting arrangement between the Fund and the counterparty and by the posting of collateral by the counterparty to the Fund to cover the Fund's exposure to the counterparty.

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND, INC - Form N-CSR

Credit Default Swaps. A CDS contract is a risk-transfer instrument through which one party (purchaser of protection) transfers to another party (seller of protection) the financial risk of a credit event (as defined in the CDS agreement), as it relates to a particular reference security or basket of securities (such as an index). In exchange for the protection offered by the seller of protection, the purchaser of protection agrees to pay the seller of protection a periodic amount at a stated rate that is applied to the notional amount of the CDS contract. In addition, an upfront payment may be made or received by the Fund in connection with an unwinding or assignment of a CDS contract. Upon the occurrence of a credit event, the seller of protection would pay the par (or other agreed-upon) value of the reference security (or basket of securities) to the counterparty. Credit events generally include, among others, bankruptcy, failure to pay, and obligation default.

During the period ended May 31, 2010, the Fund did not enter into CDS contracts as a purchaser or seller of protection. Periodic payments (receipts) on such contracts are accrued daily and recorded as unrealized losses on swap contracts. Upon payment, such amounts are recorded

18

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND, INC - Form N-CSR

as realized losses (gains) on swap contracts. Upfront payments made or received in connection with CDS contracts are amortized over the expected life of the CDS contracts as unrealized losses (gains) on swap contracts. The change in value of CDS contracts is recorded as unrealized appreciation or depreciation daily. A realized gain or loss is recorded upon a credit event (as defined in the CDS agreement) or the maturity or termination of the agreement.

Credit default swaps may involve greater risks than when the Fund had invested in the reference obligation directly. Credit default swaps are subject to general market risk, liquidity risk, counterparty risk and credit risk. The Fund's maximum risk of loss from counterparty credit risk, either as the seller of protection or the buyer of protection, is the fair value of the contract. This risk is mitigated by having a netting arrangement between the Fund and the counterparty and by the posting of collateral by the counterparty to the Fund to cover the Fund's exposure to the counterparty.

Swaps Generally. Because there is no organized market for swap contracts, the value of open swaps may differ from that which would be realized in the event the Fund terminated its position in the agreement. Risks of entering into these contracts include the potential inability of the counterparty to meet the terms of the contracts. This type of risk is generally limited to the amount of favorable movement in the value of the underlying security, instrument or basket of instruments, if any, at the day of default. Risks also arise from potential losses from adverse market movements and such losses could exceed the unrealized amounts shown on the schedule of investments. There were no outstanding swap contracts at May 31, 2010.

9. Securities Lending

The Fund, along with other funds in the Delaware Investments® Family of Funds, may lend its securities pursuant to a security lending agreement (Lending Agreement) with BNY Mellon. With respect to each loan, if the aggregate market value of securities collateral held plus cash collateral received on any business day is less than the aggregate market value of the securities which are the subject of such loan, the borrower will be notified to provide additional collateral not less than the applicable collateral requirements. Cash collateral received is generally invested in the BNY Mellon Securities Lending Overnight Fund (Collective Trust) established by BNY Mellon for the purpose of investment on behalf of clients participating in its securities lending programs. The Collective Trust may only hold cash and high quality assets with a maturity of one business day or less (Cash/Overnight Assets). The Fund also has cash collateral invested in the BNY Mellon SL DBT II Liquidating Fund (Liquidating Fund), which generally holds the portfolio securities of the Fund's previous cash collateral pool other than its Cash/Overnight Assets. The Liquidating Fund invests in fixed income securities, with a weighted average maturity not to exceed 90 days, rated in one of the top three tiers by Standard & Poor's Ratings Group (S&P) or Moody's Investors Service, Inc. (Moody's) or repurchase agreements collateralized by such securities. The Fund will not make additional investments of cash collateral in the Liquidating Fund; the Fund's exposure to the Liquidating Fund is expected to decrease as the Liquidating Fund's assets mature or are sold. Both the Collective Trust and the Liquidating Fund seek to maintain a net asset value per unit of \$1.00, but there can be no assurance that they will always be able to do so. The Fund may incur investment losses as a result of investing securities lending collateral in the Collective Trust and the Liquidating Fund. This could occur if an investment in the Collective Trust or the Liquidating Fund defaulted or if it were necessary to liquidate assets in the Collective Trust or the Liquidating Fund to meet returns on outstanding security loans at a time when their net asset value per unit was less than \$1.00. Under those circumstances, the Fund may not receive an amount from the Collective Trust or the Liquidating Fund that is equal in amount to the collateral the Fund would be required to return to the borrower of the securities and the Fund would be required to make up for this shortfall. In October 2008, BNY Mellon transferred certain distressed securities from the Collective Trust into the Mellon GSL Reinvestment Trust II. The Fund can also accept U.S. government securities and letters of credit (non-cash collateral) in connection with securities loans. In the event of default or bankruptcy by the lending agent, realization and/or retention of the collateral may be subject to legal proceedings. In the event the borrower fails to return loaned securities and the collateral received is insufficient to cover the value of the loaned securities and provided such collateral shortfall is not the result of investment losses, the lending agent has agreed to pay the amount of the shortfall to the Fund, or at the discretion of the lending agent, replace the loaned securities. The Fund continues to record dividends or interest, as applicable, on the securities loaned and is subject to change in value of the securities loaned that may occur during the term of the loan. The Fund has the right under the Lending Agreement to recover the securities from the borrower on demand. With respect to security loans collateralized by non-cash collateral, the Fund receives loan premiums paid by the borrower. With respect to security loans collateralized by cash collateral, the earnings from the collateral investments are shared among the Fund, the security lending agent and the borrower. The Fund records security lending income net of allocations to the security lending agent and the borrower.

At May 31, 2010, the value of securities on loan was \$7,797,376, for which the Fund received collateral, comprised of non-cash collateral valued at \$119,881 and cash collateral of \$7,927,019. At May 31, 2010, the value of invested collateral was \$7,760,920. Investments purchased with cash collateral are presented on the statement of net assets under the caption "Securities Lending Collateral."

10. Credit and Market Risks

The Fund borrows through its line of credit for purposes of leveraging. Leveraging may result in higher degrees of volatility because the Fund's net asset value could be subject to fluctuations in short-term interest rates and changes in market value of portfolio securities attributable to the leverage.

The Fund invests a portion of its assets in high yield fixed income securities, which carry ratings of BB or lower by S&P and/or Ba or lower by Moody's. Investments in these higher yielding securities are generally accompanied by a greater degree of credit risk than higher rated securities. Additionally, lower rated securities may be more susceptible to adverse economic and competitive industry conditions than investment grade securities.

The Fund invests in REITs and is subject to some of the risks associated with that industry. If the Fund holds real estate directly as a result of defaults or receives rental income directly from real estate holdings, its tax status as a regulated investment company may be jeopardized. There were no direct real estate holdings during the six months ended May 31, 2010. The Fund's REITs holdings are also affected by interest rate changes, particularly if the REITs it holds use floating rate debt to finance their ongoing operations.

(continues) 19

Notes to financial statements

Delaware Investments® Dividend and Income Fund, Inc.

10. Credit and Market Risks (continued)

The Fund may invest up to 10% of its net assets in illiquid securities, which may include securities with contractual restrictions on resale, securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended, and other securities which may not be readily marketable. The relative illiquidity of these securities may impair the Fund from disposing of them in a timely manner and at a fair price when it is necessary or desirable to do so. While maintaining oversight, the Fund's Board has delegated to DMC the day-to-day functions of determining whether individual securities are liquid for purposes of the Fund's limitation on investments in illiquid assets. Securities eligible for resale pursuant to Rule 144A, which are determined to be liquid, are not subject to the 10% limit on investments in illiquid securities. Rule 144A and illiquid securities have been identified on the statement of net assets.

11. Contractual Obligations

The Fund enters into contracts in the normal course of business that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had any prior claims or losses pursuant to these contracts. Management has reviewed the Fund's existing contracts and expects the risk of loss to be remote.

12. Sale of Delaware Investments to Macquarie Group

On August 18, 2009, Lincoln National Corporation (former parent company of Delaware Investments) and Macquarie Group (Macquarie) entered into an agreement pursuant to which Delaware Investments, including DMC and DSC, would be acquired by Macquarie, an Australia-based global provider of banking, financial, advisory, investment and funds management services (Transaction). The Transaction was completed on January 4, 2010. DMC and DSC are now wholly owned subsidiaries of Macquarie.

The Transaction resulted in a change of control of DMC which, in turn, caused the termination of the investment management agreement between DMC and the Fund. On January 4, 2010, the new investment management agreement between DMC and the Fund that was approved by the shareholders became effective.

13. Subsequent Events

Management has determined no material events or transactions occurred subsequent to May 31, 2010 that would require recognition or disclosure in the Fund's financial statements.

Other Fund information (Unaudited)

Delaware Investments® Dividend and Income Fund, Inc.

Changes to Portfolio Management Team

Wayne A. Anglace was appointed co-portfolio manager of the Fund on March 30, 2010. Mr. Anglace joined Babak Zenouzi, Damon J. Andres, D. Tysen Nutt, Jr., Anthony A. Lombardi, Robert Vogel, Jr., Nikhil G. Lalvani, Nashira S. Wynn, Kristen F. Bartholdson, Thomas H. Chow, Roger A. Early, and Kevin P. Loomer in making day-to-day decisions for the Fund.

Fund management

Babak “Bob” Zenouzi
Senior Vice President, Chief Investment Officer — REIT Equity

Bob Zenouzi is the lead manager for the domestic and global REIT effort at Delaware Investments, which includes the team, its process, and its institutional and retail products, which he created during his prior time with the firm. He also focuses on opportunities in Japan, Singapore, and Malaysia for the firm’s global REIT product. Additionally, he serves as lead portfolio manager for the firm’s Dividend Income products, which he helped to create in the 1990s. He is also a member of the firm’s asset allocation committee, which is responsible for building and managing multi-asset-class portfolios. He rejoined Delaware Investments in May 2006 as senior portfolio manager and head of real estate securities. In his first term with the firm, he spent seven years as an analyst and portfolio manager, leaving in 1999 to work at Chartwell Investment Partners, where from 1999 to 2006 he was a partner and senior portfolio manager on Chartwell’s Small-Cap Value portfolio. He began his career with The Boston Company, where he held several positions in accounting and financial analysis. Zenouzi earned a master’s degree in finance from Boston College and a bachelor’s degree from Babson College. He is a member of the National Association of Real Estate Investment Trusts and the Urban Land Institute.

Damon J. Andres, CFA
Vice President, Senior Portfolio Manager

Damon J. Andres, who joined Delaware Investments in 1994 as an analyst, currently serves as a portfolio manager for REIT investments and convertibles. He also serves as a portfolio manager for the firm’s Dividend Income products. From 1991 to 1994, he performed investment-consulting services as a consulting associate with Cambridge Associates. Andres earned a bachelor’s degree in business administration with an emphasis in finance and accounting from the University of Richmond.

Wayne A. Anglace, CFA
Vice President, Portfolio Manager, Research Analyst, Convertible Bond Trader

Wayne A. Anglace currently serves as a portfolio manager and trader for the firm’s convertible bond strategies. He also serves as a research analyst on the firm’s taxable fixed income team with specific responsibilities for the healthcare and deathcare sectors. Prior to joining the firm in March 2007 as a research analyst and trader, he spent more than two years as a research analyst at Gartmore Global Investments for its convertible bond strategy. From 2000 to 2004, Anglace worked in private client research at Deutsche Bank Alex. Brown in Baltimore where he focused on equity research, and he started his financial services career with Ashbridge Investment Management in 1999. Prior to moving to the financial industry, Anglace worked as a professional civil engineer. He earned his bachelor’s degree in civil engineering from Villanova University and an MBA with a concentration in finance from Saint Joseph’s University, and he is a member of the CFA Society of Philadelphia.

Kristen E. Bartholdson
Vice President, Portfolio Manager

Kristen E. Bartholdson is a portfolio manager with the firm’s Large-Cap Value Focus team. Prior to joining the firm in 2006 as an associate portfolio manager, she worked at Susquehanna International Group from 2004 to 2006, where she was an equity research salesperson. From 2000 to 2004 she worked in equity research at Credit Suisse, most recently as an associate analyst in investment strategy. Bartholdson earned her bachelor’s degree in economics from Princeton University.

Other Fund information (Unaudited)

Delaware Investments® Dividend and Income Fund, Inc.

Fund management (continued)

Thomas H. Chow, CFA
Senior Vice President, Senior Portfolio Manager

Thomas H. Chow is a member of the firm's taxable fixed income portfolio management team, with primary responsibility for portfolio construction and strategic asset allocation in investment grade credit exposures. He is the lead portfolio manager for Delaware Corporate Bond Fund and Delaware Extended Duration Bond Fund, as well as several institutional mandates. His experience includes significant exposure to asset liability management strategies and credit risk opportunities. Prior to joining Delaware Investments in 2001 as a portfolio manager working on the Lincoln General Account, he was a trader of high grade and high yield securities, and was involved in the portfolio management of collateralized bond obligations (CBOs) and insurance portfolios at SunAmerica/AIG from 1997 to 2001. Before that, he was an analyst, trader, and portfolio manager at Conseco Capital Management from 1989 to 1997. Chow received a bachelor's degree in business analysis from Indiana University, and he is a Fellow of Life Management Institute.

Roger A. Early, CPA, CFA, CFP
Senior Vice President, Co-Chief Investment Officer — Total Return Fixed Income Strategy

Roger A. Early rejoined Delaware Investments in March 2007 as a member of the firm's taxable fixed income portfolio management team, with primary responsibility for portfolio construction and strategic asset allocation. During his previous time at the firm, from 1994 to 2001, he was a senior portfolio manager in the same area, and he left Delaware Investments as head of its U.S. investment grade fixed income group. In recent years, Early was a senior portfolio manager at Chartwell Investment Partners and Rittenhouse Financial and served as the chief investment officer for fixed income at Turner Investments. Prior to joining Delaware Investments in 1994, he worked for more than 10 years at Federated Investors where he managed more than \$25 billion in mutual fund and institutional portfolios in the short-term and investment grade markets. He left the firm as head of institutional fixed income management. Earlier in his career, he held management positions with the Federal Reserve Bank, PNC Financial, Touche Ross, and Rockwell International. Early earned his bachelor's degree in economics from The Wharton School of the University of Pennsylvania and an MBA with concentrations in finance and accounting from the University of Pittsburgh. He is a member of the CFA Society of Philadelphia.

Nikhil G. Lalvani, CFA
Vice President, Portfolio Manager

Nikhil G. Lalvani is a portfolio manager with the firm's Large-Cap Value Focus team. At Delaware Investments, Lalvani has served as both a fundamental and quantitative analyst. Prior to joining the firm in 1997 as an account analyst, he was a research associate with Bloomberg. Lalvani holds a bachelor's degree in finance from The Pennsylvania State University. He is a member of the CFA Institute and the CFA Society of Philadelphia.

Anthony A. Lombardi, CFA
Vice President, Senior Portfolio Manager

Anthony A. Lombardi is a senior portfolio manager for the firm's Large-Cap Value Focus strategy. Prior to joining the firm in 2004 in his current role, Lombardi was a director at Merrill Lynch Investment Managers. He joined Merrill Lynch Investment Managers' Capital Management Group in 1998 and last served as a portfolio manager for the U.S. Active Large-Cap Value team, managing mutual funds and separate accounts for institutions and private clients. From 1990 to 1997, he worked at Dean Witter Reynolds as a sell-side equity research analyst. He began his career as an investment analyst with Crossland Savings. Lombardi graduated from Hofstra University, receiving a bachelor's degree in finance and an MBA with a concentration in finance. He is a member of the New York Society of Security Analysts and the CFA Institute.

Kevin P. Loome, CFA
Senior Vice President, Senior Portfolio Manager, Head of High Yield Investments

Kevin P. Loomer is head of the High Yield fixed income team, responsible for portfolio construction and strategic asset allocation of all high yield fixed income assets. Prior to joining Delaware Investments in August 2007 in his current position,

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND, INC - Form N-CSR

Loome spent 11 years at T. Rowe Price, starting as an analyst and leaving the firm as a portfolio manager. He began his career with Morgan Stanley as a corporate finance analyst in the New York and London offices. Loome received his bachelor's degree in commerce from the University of Virginia and earned an MBA from the Tuck School of Business at Dartmouth.

D. Tysen Nutt Jr.

Senior Vice President, Senior Portfolio Manager, Team Leader — Large-Cap Value Focus Equity

D. Tysen Nutt Jr. joined Delaware Investments in 2004 as senior vice president and senior portfolio manager for the firm's Large-Cap Value Focus strategy. Before joining the firm, Nutt led the U.S. Active Large-Cap Value team within Merrill Lynch Investment Managers, where he managed mutual funds and separate accounts for institutions and private clients. He departed Merrill Lynch Investment Managers as a managing director. Prior to joining Merrill Lynch Investment Managers in 1994, Nutt was with Van Deventer & Hoch where he managed large-cap value portfolios for institutions and private clients. He began his investment career at Dean Witter Reynolds, where he eventually became vice president, investments. Nutt earned his bachelor's degree from Dartmouth College, and he is a member of the New York Society of Security Analysts and the CFA Institute.

Robert A. Vogel Jr., CFA

Vice President, Senior Portfolio Manager

Robert A. Vogel Jr. joined Delaware Investments in 2004 as a vice president, senior portfolio manager for the firm's Large-Cap Value Focus strategy. He previously worked at Merrill Lynch Investment Managers for more than seven years, where he rose to the position of director and portfolio manager within the U.S. Active Large-Cap Value team. He began his career in 1992 as a financial consultant at Merrill Lynch Investment Managers. Vogel graduated from Loyola College in Maryland, earning both bachelor's and master's degrees in finance. He also earned an MBA with a concentration in finance from The Wharton School of the University of Pennsylvania. Vogel is a member of the New York Society of Security Analysts, the CFA Institute, and the CFA Society of Philadelphia.

Nashira S. Wynn

Vice President, Portfolio Manager

Nashira S. Wynn is a portfolio manager with the firm's Large-Cap Value Focus team. Prior to joining Delaware Investments in 2004 as a senior equity analyst, she was an equity research analyst for Merrill Lynch Investment Managers, starting there in July 2001. Wynn earned a bachelor's degree in finance, with a minor in economics, from The College of New Jersey, and she attended England's Oxford University as a Presidential Scholar.

Change in Independent Registered Public Accounting Firm

Due to independence matters under the Securities and Exchange Commission's auditor independence rules relating to the January 4, 2010 acquisition of Delaware Investments (including DMC and DSC) by Macquarie Group, Ernst & Young LLP ("E&Y") has resigned as the independent registered public accounting firm for Delaware Investments® Dividend and Income Fund, Inc. (the "Fund") effective May 20, 2010. At a meeting held on May 20, 2010, the Board of Trustees of the Fund, upon recommendation of the Audit Committee, selected PricewaterhouseCoopers LLC ("PwC") to serve as the independent registered public accounting firm for the Fund for the fiscal year ending November 30, 2010. During the fiscal years ended November 30, 2009 and 2008, E&Y's audit reports on the financial statements of the Fund did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles. In addition, there were no disagreements between the Fund and E&Y on accounting principles, financial statements disclosures or audit scope, which, if not resolved to the satisfaction of E&Y, would have caused them to make reference to the disagreement in their reports. Neither the Fund nor anyone on its behalf has consulted with PwC at any time prior to their selection with respect to the application of accounting principles to a specified transaction, either completed or proposed or the type of audit opinion that might be rendered on the Fund's financial statements.

About the organization

This semiannual report is for the information of Delaware Investments® Dividend and Income Fund, Inc. shareholders. The figures in this report represent past results that are not a guarantee of future results. The return and principal value of an investment in the Fund will fluctuate so that shares, when sold, may be worth more or less than their original cost.

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Fund may, from time to time, purchase shares of its common stock on the open market at market prices. Your Fund's Board of Directors approved a share repurchase program in 1994 that authorizes the Fund to purchase up to 10% of its outstanding shares on the floor of the New York Stock Exchange.
