This Annual Report on Form 10-K and the documents incorporated herein by reference contain forward-looking statements based on our current expectations, estimates and projections about our industry, beliefs, and certain assumptions made by us. Words such as "believes," "anticipates," "estimates," "expects," "projections," "may," "potential," "plan," "continue" and words of similar import are intended to identify forward-looking statements. The forward-looking statements contained in this report involve known and unknown risks, uncertainties and other factors that may cause our actual results to be materially different from those expressed or implied by these statements. These factors include those listed under "Risk Factors," "Business," "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in this Form 10-K, and the other documents we file with the Securities and Exchange Commission ("SEC"), including our reports on Form 8-K and Form 10-Q, and any amendments thereto. Other unknown or unpredictable factors also could have material adverse effects on our future results. The forward-looking statements included in this Annual Report on Form 10-K are made only as of the date of this Annual Report. We cannot guarantee future results, levels of activity, performance or achievements. Accordingly, you should not place undue reliance on these forward-looking statements. Finally, we expressly disclaim any intent or obligation to update any forward-looking statements to reflect subsequent events or circumstances.

PART I

Item 1. *Business.*

OVERVIEW

With REALTOR.com as our flagship web site and brand, Move, Inc. (Move , we , our or us) is the leading real estate information marketplace connecting consumers with the information and the expertise they need to make informed home buying, selling, financing and renting decisions. Move's purpose is to empower people to love where they live. By connecting consumers and real estate professionals in order to facilitate transactions, we aim to realize our purpose and win the hearts and minds of our consumers, customers and business partners in the process.

Through the collection of assets we have developed over 15 years in this business, Move is positioned to address the needs and wants of both consumers and real estate professionals throughout the process of home ownership. Although the real estate marketplace has been unquestionably changed by the Internet, and likely will continue to evolve through the growth of mobile devices and social networking, our business continues to be about empowering consumers with timely and reliable information and connecting them to the real estate professionals who have the expertise to help them better understand and succeed in that marketplace.

We provide consumers with a powerful combination of breadth, depth and accuracy of information about homes for sale, new construction, homes for rent, multi-family rental properties, senior living communities, home financing, home improvement and moving resources. Through REALTOR.com, consumers have access to over 100 million properties across the United States (U.S.) as well as properties for sale from another 13 countries worldwide. Our for sale listing content, comprising nearly 4 million properties as of December 31, 2011, and accessible in 11 different languages, represents the most comprehensive, accurate and up to date collection of its kind, online or offline. Through REALTOR.com and our mobile applications, we display approximately 98% of all for sale properties listed in the U.S. We source this content directly from our relationships with approximately 900 Multiple Listing Services (MLSs) across the country, with approximately 85% of those listings updated every 15 minutes and the remaining listings updated daily.

REALTOR.com's substantial content advantage has earned us trust with both consumers and real estate professionals. We attract a highly engaged consumer audience and have developed an exceptionally large number of relationships with real estate professionals across the country. Approximately 20 million users each month, representing a 30% year-over-year increase (comparing the average monthly number of users visiting REALTOR.com in 2011 and 2010), viewing an average of over 400 million pages each month in 2011 and spending an average of over 300 million minutes on the web site each month in 2011, interact with nearly 400,000 real estate professionals on REALTOR.com and our mobile applications. In 2011, we delivered 60% more connections between our consumers and real estate professionals than the prior year. This illustrates the success of our continued commitment to not only deliver valuable information to our consumers, but more importantly, to connect them with real estate professionals who can provide the local expertise consumers want when making home-related decisions.

In addition to providing an industry-leading content mix, Move facilitates connections and transactions between consumers and real estate professionals. Although attracting and engaging a large consumer audience is an important part of our business, to succeed we must also focus on winning the hearts and minds of real estate professionals who are both customers of our business and suppliers of much of our property content. We believe this starts with our commitment to respecting the listing and content rights of the real estate agents, brokers, MLSs and others who work hard to help generate these important data resources. Through REALTOR.com and our ListHub business described below, we aggregate, syndicate and display real estate listings across the web, accounting for an estimated 60% of all for sale listing detail page views online or on mobile applications through third party property listing businesses in the U.S. Part of the reason we have become the leading source for real estate listing content is that we work closely with and respect the rights of real estate professionals while still maintaining a balance that allows consumers to obtain the information and expertise they expect and need.

At the same time, we are committed to delivering valuable connections, advertising systems and productivity tools to real estate professionals, with the goal of helping to make them more successful. By combining REALTOR.com advertising systems with the productivity tools offered through our Top Producer product line, we are able to help grow and enrich connections between our customers and consumers, and to help our customers better manage those connections in an effort to facilitate transactions and grow their business.

Our dual focus on both the consumer and the real estate professional has helped us create and maintain REALTOR.com as a distinct advantage in the online real estate space. For over 15 years, we have provided consumers with access to a highly accurate and comprehensive set of real estate listing data and have built relationships within the real estate industry that are both broad and deep as a result. We expect this industry to continue to progress as new technologies are embraced and as consumers' needs and wants evolve. We also expect that real estate professionals, to stay relevant, will likewise need to evolve along with technology, consumers and the market. We aim to keep REALTOR.com positioned to lead this transformation with our consumers and real estate professionals at the forefront, and expect to leverage our collection of

advertising systems, productivity tools and other assets to do so.

We believe our competitive advantages include the following:

- An unusually large and engaged consumer audience in the online real estate marketplace across multiple consumer platforms, including web, mobile and social;
- Real estate listing content that is deep, broad, accurate and current;
- Leadership with respect to the volume and depth of industry relationships with brokers, agents, MLSs and other real estate professionals;
- National scope with local expertise;
- An exceptionally high number of connections facilitated between consumers and real estate professionals;
- A substantial revenue base; and
- An entirely online mortgage prequalification process for consumers.

We were incorporated in the State of Delaware in 1993 under the name InfoTouch Corporation. In February 1999, we changed our corporate name to Homestore.com, Inc. In May 2002, we changed our name to Homestore, Inc. In June 2006, we changed our name to Move, Inc. See Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations for a further description of our history. Our corporate headquarters are located in Campbell, California. Our phone number is (805) 557-2300.

PRODUCTS AND SERVICES

REALTOR.com®

REALTOR.com is the official web site of the National Association of Realtors (NAR), the largest trade association in the U.S. that represents residential and commercial real estate professionals, including brokers, agents, property managers, appraisers, counselors and others engaged in all aspects of the real estate industry. NAR had approximately 1.0 million members as of December 31, 2011. Under our agreement with NAR, we operate REALTOR.com, and, as such, we present basic MLS property listings to consumers on our web site and our mobile applications at no charge to real estate professionals.

Through our REALTOR.com web site, mobile applications and business operations, we offer a number of services to real estate franchises, brokers and agents, as well as non-real estate related advertisers in an effort to connect those advertisers with our consumer audience. The collection of services offered through the REALTOR.com business represented approximately 74%, 70% and 66% of our overall revenues from continuing operations for fiscal years 2011, 2010 and 2009, respectively. We categorize the products and services available through the REALTOR.com business as listing advertisements, non-listing advertisements or ListHub syndication and reporting, as follows.

Edgar Filing: MOVE INC - Form 10-K

Listing Advertisements - Showcase Listing Enhancements, Co-Broke and Featured Homes

Our listing advertisements product line allows real estate agents, brokers and franchises to enhance, prioritize and connect with consumers of for sale property listings within the REALTOR.com web site and mobile applications. Enhancements may include more prominent featuring and prioritization on the search results page, additional photos, virtual tours and video, personalization and branding for the listing agent or broker, and an ability to connect with consumers through web site transfers and phone or email communication. Listing advertisements are typically priced based on the geographic market, the size and engagement of our consumer audience in that market and/or the historical listing count for the past twelve months an agent or broker may have, and are typically sold on a subscription basis.

Non-Listing Advertisements - Display Advertising, Featured AgentTM, Featured Competitive Market Analysis (Featured CMATM), Search Assist and PreQualplus

Our non-listing advertisements product line allows real estate agents, brokers and franchises, as well as non-real estate related advertisers (such as personal banking and mortgage companies, insurance providers, home improvement retailers, moving service providers and other consumer product and service companies) to connect with our highly engaged and valuable consumer audience in the real estate search process. We offer these advertisers a variety of products and services including sponsorships, graphical display advertisements, text links, directories, Featured AgentTM, Featured CMATM, Search Assist and our PreQual^{plus} online mortgage prequalification offering. Pricing models include cost per thousand (CPM), cost per click (CPC), cost per unique user and subscription based sponsorships of specific content areas or specific targeted geographies.

ListHub - Listing syndication and reporting

In the third quarter of 2010, we acquired all of the outstanding shares of Threewide Corporation (Threewide) and its associated products marketed under the trademark ListHub . ListHub syndicates for sale listing information from MLSs or other reliable data sources, such as real estate brokerages, and distributes that content to an array of online web sites. Our ListHub product line allows participating web sites to display real property listings, and provides agents, brokers, franchises and MLSs the ability to obtain advanced performance reporting about their listings on the participating web sites. Listing syndication pricing includes fixed or variable pricing models based on listing counts. Advanced reporting products are sold on a monthly subscription basis.

Top Producer®

Top Producer is our software-as-a-service (SaaS) business providing productivity tools tailored to real estate agents. The Top Producer business complements REALTOR.com and our mission of connecting consumers and real estate professionals to facilitate transactions by empowering real estate professionals' ability to connect with, cultivate and ultimately convert their relationships with home buyers and sellers into transactions. The Top Producer product suite represented approximately 16%, 19% and 19% of our overall revenues from continuing operations for fiscal years 2011, 2010 and 2009, respectively.

Top Producer Customer Relationship Management (CRM), Market Snapshot® and Web sites

The Top Producer® product line allows real estate agents to efficiently manage relationships with home buyers and sellers. Our CRM solution is the leading customer relationship management application designed specifically for real estate agents. CRM is a web and mobile-based application featuring client management, appointment and task management, internet lead distribution and follow-up, prospecting automation, comparative market analysis, customer presentations and mobile data synchronization. The Top Producer® CRM product is provided as a SaaS model that is sold on a subscription basis and is available on a standalone basis, or bundled with our REALTOR.com listing advertisements.

We also offer our Market Snapshot® product and a series of template web site products within our Top Producer® product line. The Market Snapshot® product allows real estate professionals to provide real-time market updates and trend analysis to their prospects and clients. Our template web sites are designed specifically for agents and brokers, and can display listings for an agent's or broker's local market using Internet Data Exchange (IDX) protocols and technology. Both the Market Snapshot® product and template web sites offerings are sold on a subscription basis and are available on a standalone basis, or bundled with the CRM solution.

Move Rentals, Senior Housing and Moving.com

We separately operate several other web sites providing multi-family rental, senior housing and moving related content and services for our consumer audience. Through our Move Rentals and Senior Housing businesses, we aggregate and display rental listings nationwide. We offer a variety of listing-related advertisements that allow rental property owners and managers to promote their listings and connect with consumers through our web sites. Pricing models include monthly subscriptions and CPC. Through our Moving.com business we provide consumers with quotes from moving companies and truck rental companies. The majority of revenue from Moving.com is derived from cost per lead (CPL) pricing models. Our Move Rentals, Senior Housing and Moving.com product lines collectively represented approximately 10%, 11% and 11% of our overall revenues from continuing operations for fiscal years 2011, 2010 and 2009, respectively.

BUSINESSES EXITED OR PLACED INTO JOINT VENTURE

In the third quarter of 2009, we sold certain products previously produced through our Enterprise business. In the fourth quarter of 2009, we entered into an agreement with Builders Homesite, Inc., to create Builders Digital Experience LLC (BDx), a joint venture into which we contributed our new construction web site and related business, and that is dedicated to helping new home builders reach buyers with innovative online marketing solutions. These products collectively represented approximately 4% of our overall revenue from continuing operations for fiscal year 2009.

In the second quarter of 2009, we sold our Welcome Wagon business and in the second quarter of 2008, we sold our Homeplans business, both of which are classified as discontinued operations for all periods presented.

COMPETITION

Edgar Filing: MOVE INC - Form 10-K

Through our REALTOR.com business, we compete in a highly fragmented and highly complex local real estate marketplace. We believe the winner in this market will effectively balance the needs and wants of both consumers and real estate professionals, which we believe REALTOR.com is uniquely positioned to do. Further, as consumers increasingly rely on the Internet and mobile devices for real estate information, we believe that advertising dollars in this marketplace will continue to move online and that we will benefit from this trend. We compete to attract a sizable and engaged consumer audience interested in the real estate content and information provided through our web site and mobile applications, and we compete to attract real estate professionals and non-real estate related advertisers interested in connecting with those consumers. There are a variety of national and local companies, including both online and offline offerings, that compete for a consumer audience and for advertising spend within the real estate value chain.

Edgar Filing: MOVE INC - Form 10-K

Our primary competition within the REALTOR.com business falls into two general categories: (1) online real estate media companies; and (2) offline advertising offerings including newspaper classifieds, direct mail and other traditional offline media. While we do not provide significant offline advertising offerings, we view the companies in this space as competitors for available advertising spend by real estate professionals and non-real estate-related advertisers. Competitors in the online space include Classified Ventures, LLC (operator of HomeGain.com), Dominion Enterprises (operator of Homes.com), Google Inc., Market Leader Inc. (formerly House Values Inc.), Redfin, Homefinder.com LLC, ZipRealty Inc., Trulia Inc., Yahoo!-Zillow Real Estate Network and others. Competitors in the offline space include major local newspapers such as the Tribune Company and the Gannett Company, as well as a multitude of local print, direct mail, radio and other traditional offline media.

The barriers to entry for web-based services and businesses are low. Although we believe we would have a distinctive advantage for some time over merging or growing online businesses, given the breadth, depth and accuracy of our content, and given the resulting consumer audience we attract and real estate professional relationships we have built, we may not be able to maintain that advantage, and existing or future competitors could create other products and services that could be more attractive to consumers and real estate professionals than our products and services.

Our Top Producer business faces competition from Market Leader Inc., CoreLogic's Residential Real Estate productivity tools, Real Estate Digital (RED), ALA Mode, Inc. and Fidelity National Information Solutions, Inc. which offers competing solutions to real estate professionals. Top Producer also competes with horizontal customer relationship management offerings such as Microsoft Corporation's Outlook solution, Best Software Inc.'s ACT! solution, FrontRange Solution, Inc.'s Goldmine product, and Salesforce.com. Certain online media companies such as Classified Ventures, LLC (operator of Homegain.com) and Market Leader, Inc. (formerly House Values) are providing drip marketing solutions that incorporate aspects of lead management, which over time could pose a competitive threat to Top Producer.

Our Move Rentals business competes with Classified Ventures LLC (operator of Apartments.com and ApartmentHomeLiving.com), Dominion Enterprises (operator of ForRent.com), Network Communications Inc. (operator of ApartmentFinder.com), Primedia Inc. (operator of ApartmentGuide.com, Rentals.com and RentalHouses.com) and Viva Group, Inc. (an eBay company and operator of Rent.com). Move Rentals also competes with offline apartment guide publishers such as Classified Ventures, Inc., PRIMEDIA, Inc. and Network Communications, Inc.

Our Senior Housing business competes with other web sites that offer comparable products, such as A Place for Mom, Inc. and Dominion Enterprises (operator of SeniorOutlook.com).

Our Moving.com business competes with other web sites that offer comparable products, such as Movingquotes.com, USAmovingcompanies.com, movingestimates.com, 123movers.com and VanLines.com.

See **Risk Factors - Risks Related to our Business** for additional discussion of factors relating to our competition.

SEASONALITY

Our traffic generally declines on all our web sites during the fourth quarter due to weather and the holiday season when consumers are less likely to search for real estate. This seasonal decline in traffic can negatively impact revenue from our Media business in the fourth quarter, as this business includes revenue models that are directly tied to traffic levels. This seasonal decline in traffic can also negatively impact the revenue from our Featured Listings products in Rentals as that revenue is generated on a CPC basis.

GEOGRAPHIC REGIONS

We derive all of our revenue from our operations in North America.

INFRASTRUCTURE AND TECHNOLOGY

We seek to maintain and enhance our market position with consumers and real estate professionals by building system functionality for, and consumer features into, our web sites, such as search engines for real estate listings and the technologies used to aggregate real estate content. We regard many elements of our web sites and underlying technologies as proprietary, and we attempt to protect these elements and underlying technologies by relying on trademark, service mark, patent, copyright and trade secret laws, restrictions on disclosure and other methods. See **Intellectual Property** below.

Edgar Filing: MOVE INC - Form 10-K

Our web sites are designed to provide fast, secure and reliable high-quality access to our services, while minimizing the capital investment needed for our computer systems. We have made, and expect to continue to make, technological improvements designed to reduce costs and increase the attractiveness to the consumer and the efficiency of our systems. We expect that enhancements to our web sites, products and services will come from internally and externally developed technologies.

Our systems supporting our web sites must accommodate a high volume of user traffic, store a large number of listings and related data, process a significant number of user searches and deliver frequently updated information. Significant increases in utilization of these services could potentially strain the capacity of our computers, causing slower response times or outages. Our systems have been able to respond to increased content and more frequent updates to the content on the sites as well as higher consumer demand. We host all of our web sites, as well as custom broker web pages and the on-line subscription product for Top Producer® in Phoenix, Arizona. See **Risk Factors** **Internet Industry Risks** for a more complete description of the risks related to our computer infrastructure and technology.

INTELLECTUAL PROPERTY

We regard substantial elements of our web sites and underlying technology as proprietary. We attempt to protect our intellectual property by relying on trademark, service mark, patent, copyright and trade secret laws, restrictions on disclosure, and other methods.

Despite our precautions, our intellectual property is subject to a number of risks that may materially adversely affect our business, including, but not limited to, the following:

- it may be possible for a third party to copy or otherwise obtain, access or use our proprietary information or technology without authorization, or to develop or obtain similar technology and information independently;
- we could lose the use of the REALTOR.com® trademark or domain name, or be unable to protect the other trademarks or web site addresses that are important to our business, and therefore would need to devote substantial resources toward developing an independent brand identity and domain name set;
- we could be subject to litigation with respect to our intellectual property rights or those of third parties providing us with content or other licensed material;
- we may be required to license additional technology and information from others, which could require substantial expenditures by us; and
- legal standards relating to the validity, enforceability and scope of protection of proprietary rights in Internet-related businesses are uncertain and continue to evolve, and we can give no assurance regarding our ability to protect our intellectual property and other proprietary rights.

See **Risk Factors** **Risks Related to Our Business** for a more complete description of the risks related to our intellectual property.

EMPLOYEES

As of December 31, 2011, we had 889 active full-time equivalent employees. We consider our relations with our employees to be good. No employee is represented by a collective bargaining agreement and we have never had a work stoppage. We believe that our future success will depend in part on our ability to attract, integrate, retain and motivate highly qualified personnel and upon the continued service of our senior management and key technical personnel.

See **Risk Factors** **Risks Related to Our Business**.

AVAILABLE INFORMATION

We file with the U.S. Securities and Exchange Commission (SEC) annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports, as well as our proxy statements and other information. In most cases, those documents are available, without charge, on our web site at <http://investor.move.com> as soon as reasonably practicable after they are filed electronically with the SEC. Copies are also available, without charge, from Move, Inc., Investor Relations, 910 E. Hamilton Ave, Campbell, CA 95008. You may also read and copy these documents at the SEC's public reference room located at 100 F Street, N.E., Washington, D.C. 20549 under our SEC file number (000-26659), and you may obtain information on the operation of the public reference room by calling the SEC at

Edgar Filing: MOVE INC - Form 10-K

1-800-SEC-0330. In most cases, these documents are available over the Internet from the SEC's web site at <http://www.sec.gov>.

Item 1A. Risk Factors.

Our business, financial condition, operating results and cash flows may be impacted by a number of factors. A discussion of the risks associated with these factors is included below. You should consider carefully the following risk factors, which are the material risks currently known by us, and other information included or incorporated by reference in this Form 10-K. If any of the following risks actually occur, our business, financial condition and operating results could be materially adversely affected.

Risks Related to Our Business

We have had a history of net losses and could incur net losses in the future.

Except for net income of \$7.3 million in 2011, \$20.9 million in 2006, and \$0.5 million in 2005, we have incurred net losses every year since 1993, including net losses of \$15.5 million and \$6.9 million for the years ended December 31, 2010 and 2009, respectively. We have an accumulated deficit of approximately \$2.0 billion. Current market conditions around residential real estate make it difficult to project if we will become consistently profitable in the future. Furthermore, we have been making significant changes to our organizational structure and our business models. While these changes are being implemented with the belief that they will strengthen our business and our market position in the long run, there can be no assurance that these changes will generate additional revenue or a more efficient cost structure, which will be needed to sustain profitability.

Competition for our services might adversely impact our business.

Our existing and potential competitors include web sites offering real estate related content and services as well as general purpose online services, and traditional media such as newspapers, magazines and television that compete for advertising dollars. The real estate search services market, which is the primary market in which we operate, is becoming increasingly competitive. A number of competitors have emerged or intensified their focus on the real estate market. These competitors include Classified Ventures, LLC (operator of HomeGain.com), Dominion Enterprises (operator of Homes.com), Google Inc., Market Leader, Inc. (operator of RealEstate.com, and formerly HouseValues Inc.), Redfin, Homefinder.com LLC, ZipRealty Inc., Trulia, Inc., Yahoo!-Zillow Real Estate Network and others. In the rentals market these competitors include Classified Ventures, LLC (operator of Apartments.com and ApartmentHomeLiving.com), Dominion Enterprises (operator of ForRent.com), Network Communications Inc. (operator of ApartmentFinder.com), Primedia Inc. (operator of ApartmentGuide.com, Rentals.com and RentalHouses.com) and Viva Group, Inc. (an eBay company and operator of Rent.com). Additional competitors operate general interest consumer web sites that offer home, moving and finance content and include Living Choices (a division of Network Communications, Inc.) and ServiceMagic, Inc. (a division of InterActive Corp).

The barriers to entry for web-based services and businesses are low. In addition, parties with whom we have listing and marketing agreements could choose to develop their own Internet strategies or competing real estate sites. Furthermore, real estate brokers or other web site operators, due to evolving policies, rules, regulatory initiatives, conventions and strategies, might be able to aggregate listing data for display over the Internet in ways comparable to, or more effective than, the REALTOR.com® web site. Developments such as these could impact how consumers and customers value our content and product offerings on the REALTOR.com® web site. Also, developments in the real estate search services market might also encourage additional competitors to enter that market. Some of our existing and potential competitors have longer operating histories in the Internet market, greater name recognition, larger consumer bases and significantly greater financial, technical and marketing resources than we do. The rapid pace of technological change constantly creates new opportunities for existing and new competitors and it can quickly render our existing technologies less valuable.

We cannot predict how, if at all, our competitors or others might respond to our initiatives. We also cannot provide assurance that our offerings will be able to compete successfully against our competitors or new competitors that enter our markets.

We might not be able to obtain more, or more current, listings from MLSs and real estate brokers than other web site operators, and we might not be able to successfully syndicate listings content beyond our own web sites.

We believe that part of the success of REALTOR.com® depends on displaying a larger and more current database of existing homes for sale than other web sites. We obtain these listings through agreements with MLSs and real estate brokers; these agreements normally have fixed terms, typically 12 to 36 months. At the end of the term of each agreement, the MLS or broker could choose not to renew the agreement with us. There are no assurances the MLSs and brokers will continue to renew their agreements to provide listing data to us. If they choose not to renew their relationship with us, then REALTOR.com® could become less attractive to consumers, and thus less attractive to our advertising customers. Furthermore, due to available technology and evolving policies, rules, regulatory initiatives, conventions and strategies in the real estate industry

Edgar Filing: MOVE INC - Form 10-K

(as mentioned above), web site operators might be able to aggregate, and keep current, listing data for display over the Internet in ways comparable to, or more effective than, the REALTOR.com® web site.

As we invest time, effort and resources toward developing syndication models for disseminating listing content beyond REALTOR.com[®] and our other web sites, MLSs, brokers and others could choose to withhold or withdraw listings or cooperation from those initiatives. This could cause us to fail to realize fee, advertising and other revenue from these efforts, or to sufficiently do so, could cause us to fail to realize a return, or an adequate return, on those investments and could prevent us from being able to develop and grow our syndication business.

Poor execution could harm our business, reputation, profitability and growth.

We might fail to, or fail to properly or adequately, identify, plan, integrate, manage, leverage and otherwise execute on new systems developments, new product launches, new web site features, our partnering ventures (such as in the mortgage and new construction areas), newly-acquired businesses and assets, the building and nurturing of our brands, brand awareness and our general reputation, new resource allocations and other current and new operational initiatives in a savvy, timely, efficient and cost-effective manner. For example, we might fail to achieve effective coordination of various functions and teams within the Company so that projects and initiatives are executed effectively and timely, or we might experience unsatisfactory working relations, early or undesirable agreement terminations, poor performance or business disputes with companies with whom we establish strategic or other business ventures or alliances so that our revenue, strategies and reputation are adversely affected or so that operations, efficiencies and business opportunities are impaired, disrupted, lost or never realized. Failures such as these could harm our competitive position, increase our costs, cause us losses, cause us to fail to realize a return, or a sufficient return, on our investment outlays, cause operational disruptions and difficulties, damage or limit profitability and growth prospects, limit our ability to make needed investments in our business, harm our reputation, limit our ability to attract consumers and customers and limit our ability to sustain and increase revenue.

We might be unable to interest a sufficient number of new advertisers to purchase advertising presence on our web sites, or we might fail to retain advertisers who do purchase advertising from us. These circumstances could adversely affect revenue, growth and profitability, could prevent us from effectively monetizing the advertising potential of our web sites, and could limit our ability to make additional investments in our business.

We might make errors in executing, or fail to effectively manage, our customer support function. This could result in negative publicity, damage our reputation, harm customer relationships and diminish interest in, loyalty to and use of our web sites, products and services.

Our quarterly financial results are subject to significant fluctuations.

Our quarterly results of operations have varied in the past and might vary significantly in the future. We have made significant investments in our businesses and incurred restructuring charges as we have made adjustments to our business model. As we modify our business models, we could experience a decline in quarterly revenue. If revenue from our initiatives falls below our expectations, we might not be able to reduce our spending, change our pricing models or modify our initiatives rapidly in response to the shortfall. Fluctuations in our quarterly results could also adversely affect the price of our common stock.

Other factors that could affect our quarterly operating results include those described elsewhere in this Form 10-K, and include:

- the level at which real estate agents, brokers and rental owners renew the arrangements through which they obtain our services;
- a continued, or renewed, downturn in, or a slow (rather than speedy) recovery of, the residential real estate market and the consequent impact on advertising;
- the amount of advertising sold on our web sites and the timing of payments for this advertising; and
- the costs from litigation, including the cost of settlements and any damages awarded against us.

The mortgage, real estate, financial and credit markets have been in, and continue to experience, severe disruption, which have had, and are expected to continue to have, an adverse effect on our business, financial condition and results of operations.

The continuing sluggishness of and challenges occurring in both the U.S. and global economies have resulted in a severe tightening in the credit markets, a low level of strength and liquidity in many financial markets, and volatility in credit and equity markets. Such economic

difficulties and weakness could adversely impact our business in a number of ways.

In addition, changes in governmental participation in the mortgage market could adversely impact the residential real estate industry, which could negatively impact our business.

The U.S. residential real estate market has been in, and remains under, a significant downturn due to downward pressure on housing prices, credit constraints inhibiting home buyers, foreclosures, and an exceptionally large inventory of unsold homes. We cannot predict when the market and related economic forces will return the U.S. residential real estate industry to normal conditions.

Until market conditions improve significantly, our customers' ability and willingness to advertise, or to continue to advertise, on our web sites could be adversely impacted.

We are, and might continue to be, involved in litigation and other disputes.

Our business and operations might subject us to claims, litigation and other proceedings brought by private parties and governmental authorities. We are currently involved in several matters, which are described in Note 22, "Commitments and Contingencies - Legal Proceedings," to our Consolidated Financial Statements in Item 8 in this Form 10-K.

Litigation might also result from other companies owning or obtaining patents or other intellectual property rights that could prevent, limit or interfere with our ability to provide our products and services. In recent years, there has been significant litigation in the United States involving patents and other intellectual property rights, including in the Internet industry, and companies in the Internet market are increasingly making claims alleging infringement of their intellectual property rights. We have been in the past, and are currently, involved in intellectual property-related litigation, and we might be involved in these and other disputes in the future, whether to protect our own intellectual property or as a result of our alleged infringement of the intellectual property rights of others. Lawsuits or claims such as these, including those we are currently defending, might result in significant monetary damages against us that could have an adverse effect on our results of operations and our financial position. Moreover, even those disputes that are ultimately resolved in our favor are time-consuming and expensive to resolve and they divert management's time and attention. In addition to subjecting us to monetary damages, the threat, adjudication or settlement of any intellectual property dispute could force us to do one or more of the following:

- stop making, selling, incorporating or using goods, services or technology that are (or allegedly are) impacted by the relevant intellectual property rights threatening or asserted against us;
- pay significant sums to obtain a license to the relevant intellectual property rights; and
- redesign goods, services or technology that are (or allegedly are) impacted by the intellectual property rights threatening or asserted against us.

If we are forced to take any of the foregoing actions, such actions could have an adverse effect on our results of operations and our financial position. Pursuant to our operating agreement with NAR or to our agreements with others, we might also be required to indemnify NAR and other third parties for costs, damages and other liabilities arising from the infringement or alleged infringement of third parties' actual or asserted intellectual property rights, and these indemnification obligations could have an adverse effect on our results of operations and our financial position.

We rely on intellectual property and proprietary rights.

We regard substantial elements of our web sites and underlying technology as proprietary. Despite our precautionary measures, third parties might copy or otherwise obtain and use our proprietary information, web content or technology without authorization, or to develop similar material independently. Any legal action that we might bring or other steps we might take to protect this property could be unsuccessful, expensive and distract management from day-to-day operations.

Other companies might own, obtain or claim trademarks that could prevent or limit or interfere with use of the brands, names or trademarks we use. The REALTOR.com® web site address and trademark and the REALTOR® trademark are important to our business and are licensed to us by NAR. If we were to lose the REALTOR.com® domain name or the use of either of these trademarks, our business would be harmed and we might need to devote substantial resources toward developing an independent brand identity.

Edgar Filing: MOVE INC - Form 10-K

Legal standards relating to the validity, enforceability and scope of protection of intellectual property rights and other proprietary rights in Internet-related businesses and related technology and assets are uncertain and evolving, and we can give no assurance regarding the future strength, weakness, viability or value of any of these rights.

Our Series B Preferred Stock could make it more difficult for us to raise additional capital .

In November 2005, we sold to Elevation Partners, L.P. and Elevation Employee Side Fund, LLC (together, "Elevation") an aggregate of 100,000 shares of our Series B Convertible Participating Preferred Stock (the "Series B Preferred Stock") for an aggregate purchase price of \$100 million. For so long as the holders of Series B Preferred Stock hold at least one-sixth of these 100,000 shares of Series B Preferred Stock, we are generally not permitted, without obtaining the consent of holders representing at least a majority of the then outstanding shares of Series B Preferred Stock, to create or issue any equity securities that rank senior or on a parity with the Series B Preferred Stock with respect to dividend rights or rights upon our liquidation. In addition, our stockholders agreement with Elevation limits the amount of debt we can incur. If we need to raise additional capital through public or private financing, strategic relationships or other arrangements to execute our business plan, we would be restricted in the type of equity securities that we could offer and the amount of debt we can incur without the consent of Elevation. We cannot offer any assurances that we would be able to obtain that consent. If we were unable to obtain Elevation's consent, we might not be able to raise additional capital in the amounts needed to fund our business or on terms that are desirable. Although we redeemed a portion of the Series B Preferred Stock in February 2011 (see the disclosure regarding the redemption in Note 14, "Series B Convertible Preferred Stock" to our Consolidated Financial Statements contained in Item 8 of this Form 10-K), Elevation still holds sufficient shares to exercise veto rights.

Our relationship with the NAR is an important part of our business plan and our business could be harmed if we were to lose the benefits of this relationship.

The REALTOR.com® trademark and web site address and the REALTOR® trademark are owned by NAR. NAR licenses these trademarks to our subsidiary RealSelect under a license agreement, and RealSelect operates the REALTOR.com® web site under an operating agreement (including amendments) with NAR. Our operating agreement with NAR contains restrictions on how we can operate the REALTOR.com® web site. For example, we can only enter into agreements with entities that provide us with real estate listings, such as MLSs, on terms approved by NAR. In addition, NAR can require us to include on REALTOR.com® real estate related content that it has developed.

Our operating agreement with NAR also contains a number of provisions that restrict how we operate our business. For example:

- we are restricted in the type and subject matter of advertisements on the REALTOR.com® web site;
- NAR has the right to approve how we use its trademarks, and we must comply with its quality standards for the use of these marks; and
- we must meet performance standards relating to the availability time of the REALTOR.com® web site.

NAR also has significant influence over our corporate governance, including the right to have one representative as a member of our board of directors (out of a current total of eight) and two representatives as members of our RealSelect's subsidiary's board of directors (out of a current total of nine). RealSelect also cannot take certain actions, including amending its certificate of incorporation or bylaws, pledging its assets and making changes in its executive officers or board of directors, without the consent of at least one of NAR's representatives on its board of directors.

Although the REALTOR.com® operating agreement is a perpetual agreement, NAR might terminate it for a variety of reasons. These include:

- the acquisition of us or RealSelect by another party without NAR's consent;
- if traffic on the REALTOR.com® site falls below 500,000 unique users per month;
- a substantial decrease in the number of property listings on our REALTOR.com® site; and
- a breach of any of our other obligations under the agreement that we do not cure within 30 days of being notified by NAR of the breach.

If our operating agreement with NAR were terminated, we would be required to transfer a copy of the software that operates the REALTOR.com® web site and provide copies of our agreements with advertisers and data content providers, such as real estate brokers or MLSs, to NAR. NAR would then be able to operate the REALTOR.com® web site itself or with another third party.

In addition to limitations and risks of the kind set forth above, our business relationship with NAR could erode, become strained or otherwise develop adversely or non-amicably. This could arise from poor management of the relationship, existing or new areas of conflict or potential conflict between our interests and NAR's interests, changes in the real estate industry or from other causes. Adverse circumstances such as these could result in significant erosion of or damage to our business since, among other reasons, many of our customers and data providers are members of, have interests that are closely aligned with or are otherwise influenced by or inclined favorably toward the NAR.

We must dedicate significant resources to market our subscription products and services to real estate professionals.

Real estate agents are generally independent contractors rather than employees of brokerages. As a result, it is often necessary for us to communicate with agents on an individual basis when marketing our services which results in relatively high fixed costs associated with our inside and field-based sales activities. In addition, since we offer services to both real estate brokerages and agents, we are often required to

contact brokerages and agents separately when marketing our products and services.

Our future success depends largely on our ability to attract, retain and motivate qualified personnel.

Our future success depends on our ability to attract, retain and motivate highly skilled technical, managerial and sales personnel, senior management and other key personnel. The loss of the services of key employees would likely have a significantly detrimental effect on our business. Several of our key senior management have employment agreements that we believe will assist in our ability to retain them. However, many other key employees do not have employment agreements. Competition for qualified personnel in our industry and geographical locations can be intense. Attracting and retaining qualified personnel with experience in the real estate industry, a complex industry that requires a unique knowledge base, is an additional challenge for us. We can give no assurance that we will be successful in attracting, integrating, retaining and motivating a sufficient number of qualified employees to conduct our business in the future. The loss of services of any of our key personnel, excessive turnover of our work force, the inability to retain and attract qualified personnel in the future or delays in hiring required personnel might have an adverse effect on our business, operating results or financial condition.

Our net operating loss carry forwards could be substantially limited if we experience an ownership change as defined in the Internal Revenue Code.

At December 31, 2011, we had gross net operating losses carry forwards (NOLs) for federal and state income tax purposes of approximately \$923.9 million and \$321.7 million, respectively, and we could generate NOLs in future years. The federal NOLs will begin to expire in 2018. Approximately \$34.7 million of the state NOLs expired in 2011 and the state NOLs will continue to expire from 2012 to 2030. Gross net operating loss carry forwards for both federal and state tax purposes might be subject to an annual limitation under relevant tax laws. Currently, the NOLs have a full valuation allowance recorded against them.

Approximately \$150.1 million of the \$923.9 million federal NOLs may belong to members of our group that cannot be consolidated for federal income tax purposes. Consequently, those NOLs would not be available to us to offset taxable income in the future. The NOLs indicated above are subject to a full valuation allowance.

Utilization of the NOLs may also be subject to an annual limitation due to ownership change limitations that might have occurred, or that could occur in the future, as determined by Section 382 of the Internal Revenue Code of 1986, as amended (the Code), as well as similar state limitations. These ownership changes may limit the amount of NOLs that can be utilized annually to offset future federal taxable income. Section 382 of the Code contains rules that limit the ability of a company that undergoes an ownership change, which is generally any change in ownership of more than 50 percentage points of its stock over a three-year period, to utilize its NOLs and certain built-in losses recognized in years after the ownership change. These rules impact any ownership changes among stockholders owning directly or indirectly 5% or more of the stock of a company and any change in ownership arising from a new issuance of stock by the company.

If we undergo an ownership change for purposes of Section 382 of the Code as a result of future transactions involving our common stock, including purchases or sales of stock by 5% stockholders, our ability to use our NOLs and to recognize certain built-in losses would be subject to the limitations under Section 382. Depending on the resulting limitation, a significant portion of our NOLs could expire before we would be able to recognize the benefit of using them. Our inability to utilize our NOLs could have a negative impact on our results of operations.

Delaware law, our certificate of incorporation and bylaws, and other agreements contain provisions that could discourage a takeover.

Delaware law, our certificate of incorporation and bylaws, our operating agreement with NAR, other agreements with business partners, and our stockholders agreement with Elevation could have the effect of delaying or preventing a third party from acquiring us, even if a change in control would be beneficial to our stockholders. For example, our stockholders are unable to act by written consent or to fill any vacancy on the Board of Directors. Our stockholders cannot call special meetings of stockholders for any purpose, including removing any director or the entire Board of Directors without cause. Certain terms of the Series B Preferred Stock could also discourage a third party from acquiring us. Upon a change in control, we would be required to make an offer to repurchase all of the outstanding shares of Series B Preferred Stock for total cash consideration generally equal to 101% of the liquidation preference plus, under certain circumstances, 101% of a portion of the dividends which would have accrued had the Series B Preferred Stock remained outstanding. In addition, NAR could terminate the REALTOR.com® operating agreement if we are acquired and they do not consent to the acquisition.

Real Estate Industry Risks

Our business is dependent on the strength of the real estate industry, which is both cyclical and seasonal and is affected by general economic conditions.

The real estate industry traditionally has been cyclical. Economic swings in the real estate industry might be caused by various factors. When interest rates are high or general national and global economic conditions are or are perceived to be weak, there is typically less sales activity in real estate. A decrease in the current level of sales of real estate and products and services related to real estate could adversely affect demand for our products and services. In addition, reduced traffic on our web sites could cause our subscription and advertising revenue to decline, which would adversely affect our business.

During recessionary periods, there tends to be a corresponding decline in demand for real estate, generally and regionally, that could adversely affect certain segments of our business. Such adverse effects often include a general decline in rents and home values (and thus sales prices), a decline in leasing activity, a decline in the level of investments in, and the value of, real estate, and an increase in defaults by tenants under their respective leases and home-owners on their respective mortgage loans. All of these adverse effects, in turn, adversely affect our customers' revenue from rents, property management fees, brokerage commissions and other fees; and these adverse effects on our customers' revenue can influence our customers to reduce, suspend or stop their purchases of advertising and other products and services from us.

Purchases of real property and related products and services are particularly affected by negative trends in the general economy. The success of our operations depends to a significant extent upon a number of factors relating to discretionary consumer and business spending, and the overall economy, as well as regional and local economic conditions in markets where we operate, including interest rates, taxation policies, governmental programs, availability of credit, employment levels, wage and salary levels and fears of terrorist attacks or threats of war.

We could also experience seasonality in our business as we offer new products and new pricing models. The real estate industry, in most areas of the United States, generally experiences a decrease in activity during the winter months and traffic on our web sites generally declines during the fourth quarter, which can negatively affect revenue from our products that are directly tied to such traffic.

We have risks associated with changing legislation, including in the real estate industry.

Real estate is a heavily regulated industry in the U.S., with applicable regulations including the Fair Housing Act, the Real Estate Settlement Procedures Act and federal and state advertising laws. In addition, federal and State laws and regulation in areas such as privacy, data protection and systems security are already in place and may expand. Furthermore, Congress and the States could enact legislation or regulatory policies in other relevant areas in the future. Any or all of these laws and regulations could require us to expend significant resources to comply. In addition, these laws and related regulations might limit or restrict our activities. As the real estate industry evolves in the Internet environment, legislators, regulators and industry participants might advocate additional legislative or regulatory initiatives. Should existing laws or regulations be amended or new laws or regulations be adopted, we might need to comply with additional legal requirements and incur resulting costs, or we might be precluded from certain activities. For instance, our rentals business required us to qualify and register as a real estate agent/broker in the State of California. To date, we have not spent significant resources on lobbying or related government issues. Any need to significantly increase our lobbying or related activities could substantially increase our operating costs.

Internet Industry Risks

Systems or security attacks or failures could harm our business.

We might sustain temporary or permanent outages of our computers or software equipment, which could have an adverse effect on our business. We currently do not have fully redundant systems for our web sites and other services at an alternate site. Therefore, our systems are vulnerable to damage from break-ins, unauthorized access, vandalism, fire, earthquakes, power loss, telecommunications failures and similar events. Although we maintain insurance against fires, earthquakes and general business interruptions, the amount of coverage, while adequate to replace assets and compensate for losses incurred, might not be adequate to compensate for the disruption it causes our customers and consumers, which could affect our future revenues and traffic. We also might have instances of single points of failure in our networks, processes and systems, and this could result in our sustaining outages, or outages of excessive duration, as well as other disruptions in our web sites or to our business.

Experienced computer programmers seeking to intrude or cause harm, or hackers, might attempt to penetrate our network security from time to time, or lapses on the part of our contractors or ourselves in using safeguards and proper processes relating to security could occur. If a hacker

Edgar Filing: MOVE INC - Form 10-K

were to penetrate our network or systems security, they could destroy, damage or misappropriate credit card, financial, personal, confidential and proprietary content and information, cause interruptions in our services, dilute the value of our offerings to customers and damage our reputation, our customer relationships and the confidence we need customers and consumers to have in us and in our systems. We might be required to expend significant capital and resources to protect against, to respond to, or to alleviate, problems caused by hackers. We also might not have a timely remedy against a hacker who is able to penetrate our network security. In addition to purposeful security breaches, the inadvertent transmission of computer viruses or other harmful code or files could expose us to system damage, operational disruption, loss of data, regulatory action, litigation and other risks of loss or harm. In addition, insurance might not exist or be adequate to compensate for these circumstances, and they could continue for extended periods of time before being detected or remedied.

We depend on continued performance of and improvements to our computer network.

We could sustain failures of our computer systems. Such failures could cause interruption or slower response time of our web sites or services and could therefore result in a smaller number of users of our web sites or the web sites that we host for real estate professionals. If sustained or repeated, these performance issues could reduce the attractiveness of our web sites to consumers and our subscription products and services to real estate professionals, providers of real estate-related products and services and other Internet advertisers. Increases in the volume of our web site traffic could also strain the capacity of our existing computer systems, which could lead to slower response times or system failures. This would cause the number of real property search inquiries, advertising impressions, other revenue producing offerings and our informational offerings to decline, any of which could hurt our revenue growth and our brand loyalty. We might need to incur additional costs to upgrade our computer systems in order to accommodate increased demand if our systems cannot handle current or higher volumes of traffic. We might not be able to project accurately the rate, timing or cost of any increases in our business, or to expand and upgrade our systems and infrastructure to accommodate any increases in a timely manner.

We could face liability for information on our web sites and for products and services sold over the Internet.

We provide third-party content on our web sites, particularly real estate listings. We could be exposed to liability with respect to this third-party content. Persons might assert, among other things, that by directly or indirectly carrying such content or providing a link to web sites operated by third parties, we should be liable for patent, copyright or trademark infringement, misappropriation, defamation, fair-housing law violations or other violations of laws, harms or wrongful actions resulting from or associated with such third-party content, links or web sites. They could also assert that such third-party content, links or web sites lack needed disclosures or contain false statements, misrepresentations, errors or omissions. Consumers or others could seek damages and other recourse for losses incurred if they rely upon or are injured by such third-party content or web sites, and regulators or others could seek fines and other recourse against us.

We enter into agreements with other companies under which we share with them revenue resulting from activities such as advertising or the purchase of services through direct links to or from our web sites. These arrangements might expose us to additional legal risks and uncertainties, including local, state, federal and foreign government regulation and potential liabilities to actual or potential consumers of these activities and services, even if we do not ourselves perform the activities or provide the services. We cannot offer any assurance that any indemnification or other recourse promised to us in our agreements with these parties will be available or adequate.

Even if claims against us arising from or relating to these agreements do not result in liability to us, we could incur significant costs in investigating and defending against these claims. Our general liability insurance might not cover all potential claims to which we are exposed and might not be adequate to indemnify us for all costs and liability that might be imposed or incurred.

Item 1B. Unresolved Staff Comments.

None.

Item 2. Properties:

We maintain the following principal facilities:

	Location	Square Feet	Lease Expiration
Principal executive and corporate office, product development and marketing	Campbell, CA	29,767	2013
Sales, engineering, finance, legal and human resources	Westlake Village, CA	76,048	2016
Sales, engineering, product development and marketing	Richmond, Canada	67,229	2014
Operations and customer service center	Scottsdale, AZ	46,182	2013
Datacenter	Phoenix, AZ	8,114	2017
Sales office	Manhattan, NY	700	2013
Sales and engineering	Morgantown, WV	3,704	2016
Sales office	Alexandria, VA	2,250	2012

We believe that our existing facilities and office space are adequate to meet current requirements. Subsequent to December 31, 2011, we entered into an amendment to our existing Scottsdale facility lease to extend the lease expiration to 2019.

Item 3. Legal Proceedings.

From time to time, we are party to various litigation and administrative proceedings relating to claims arising from our operations in the ordinary course of business. As of the date of this Form 10-K, and except as set forth herein, we are not a party to any other litigation or administrative proceedings that management believes will have a material adverse effect on our business, results of operations, financial condition or cash flows.

On February 28, 2007, in a patent infringement action against a real estate agent, Diane Sarkisian, pending in the U.S. District Court for the Eastern District of Pennsylvania (the Sarkisian case), Real Estate Alliance, Limited (REAL), moved to certify two classes of defendants: subscribers and members of the MLS of which Sarkisian was a member, and customers of ours who had purchased enhanced listings from us. The U.S. District Court in the Sarkisian case denied REAL's motion to certify the classes on September 24, 2007. On March 25, 2008, the U.S. District Court in the Sarkisian case stayed that case, and denied without prejudice all pending motions, pending the U.S. District Court of California's determination in the Move California Action (see below) of whether our web sites infringe the REAL patents.

On April 3, 2007, in response to REAL's attempt to certify our customers as a class of defendants in the Sarkisian case, we filed a complaint in the U.S. District Court for the Central District of California (District Court) against REAL, and its licensing agent, Equis Technology Development, LLC, and its principal, Scott Tatro (the Move California Action) seeking a declaratory judgment that we do not infringe U.S. Patent Nos. 4,870,576 and 5,032,989 (the REAL patents), that the REAL patents are invalid and/or unenforceable, and alleging several business torts and unfair competition. On August 8, 2007, REAL denied our allegations, and asserted counterclaims against us for infringement of the REAL patents seeking compensatory damages, punitive damages, treble damages, costs, expenses, reasonable attorneys' fees and pre- and post-judgment interest. On February 28, 2008, REAL filed a motion for leave to amend its counter-claims, and to include NAR and the NAHB as individual defendants, as well as various brokers including RE/Max International (RE/Max), agents, MLSs, new home builders, rental property owners, and technology providers and indicated that it intended to seek to certify certain defendant classes. On March 11, 2008, REAL filed a separate suit in the District Court (the REAL California Action) alleging infringement of the REAL patents against the same defendants it sought to include in its proposed amended counter-claims in the Move California Action, and also indicated that it intended to seek to certify the same defendant classes. We are not named as a defendant in the REAL California Action; however, we are defending NAR, NAHB and RE/Max in the REAL California Action. In September, 2008, the court coordinated both cases and issued an order dividing the issues into two phases. Phase 1 addresses issues of patent validity and enforceability, whether Move web sites infringe the REAL patents, damages, and liability of Move, NAR and NAHB. Phase 2 will address REAL's infringement claims related to the web sites owned or operated by the remaining defendants and whether those defendants infringe the Real patents by using the Move web sites. The District Court has stayed Phase 2 pending resolution of the issues in Phase 1.

On November 25, 2009, the court entered its claim construction order in the Move California Action. On January 27, 2010, upon joint request of the parties, the District Court entered a final judgment of non-infringement. In July 2010, REAL filed its brief appealing the District Court's claim construction with the Circuit Court, and in October 2010, we filed its opposition. On March 22, 2011, the Circuit Court concluded

Edgar Filing: MOVE INC - Form 10-K

that the District Court erred in certain of its claim construction and vacated and remanded the case for further proceedings. On October 18, 2011, the parties filed a Joint Brief on Summary Judgment Motions, each side putting forth its arguments requesting the District Court to enter summary judgment in its favor. On January 26, 2012, the District Court entered an order granting our motion for summary judgment of non-infringement of the patent. We intend to vigorously defend all claims. At this time, however, we are unable to express an opinion on the outcome of these cases.

In March 2010, Smarter Agent, LLC (Smarter Agent) filed suit against Move, Inc., against our affiliate, RealSelect, Inc. (RealSelect), and also against other co-defendants Boopsie, Inc., Classified Ventures, LLC, Hotpads, Inc., IDX, Inc., Multifamily Technology Solutions, Inc., D/B/A MyNewPlace, Primedia, Inc., Consumer Source, Inc., Trsoft, Inc., D/B/A PlanetRE, Trulia, Inc., Zillow, Inc., and ZipRealty, Inc. in the United States District Court for the District of Delaware. The complaint alleges that we and RealSelect, Inc. infringe U.S. Patents 6,385,541; 6,496,776; and 7,072,665 (Patents in Suit) by offering an iPhone application for the REALTOR.com® web site and requested an unspecified amount of damages (including enhanced damages for willful infringement and attorneys' fees) and an injunction. On August 31, 2010, co-defendants Boopsie, Inc., Classified Ventures, LLC, Hotpads, Inc., IDX, Inc., Multifamily Technology Solutions, Inc., Primedia, Inc., Consumer Source, Inc., Trsoft, Inc., Trulia, Inc., Zillow, Inc., and ZipRealty, Inc., filed requests for inter partes reexamination of the Patents in Suit with the U.S. Patent and Trademark Office (PTO). On September 30, 2010, we filed an answer and counter claims on behalf of Move and RealSelect. On October 22, 2010, SmarterAgent filed its answer to such counter claims. The PTO accepted the Patents in Suit for re-examination and on December 21, 2010, issued an office action rejecting all claims in the Patents in Suit. On March 2, 2011, all parties agreed to stipulate to stay the lawsuit pending the completion of all re-examination proceedings at the USPTO and on March 7, 2011, the court so ordered the stay as requested. We intend to vigorously defend all claims. At this time, however, we are unable to express an opinion on the outcome of this case.

Item 4. Mine Safety Disclosures.

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Market Information

Our common stock, \$0.001 par value, is traded on the NASDAQ Global Select Market under the symbol MOVE. At the close of business on November 18, 2011, we effected a 1-for-4 reverse split of our common stock, which was previously approved by our stockholders. The following table shows the high and low sale prices of the common stock as reported by NASDAQ for the periods indicated. All amounts in the table have been adjusted to give effect to the reverse stock split.

	High	Low

2012		
First Quarter (up until February 10, 2012)	9.37	6.36

As of February 10, 2012, there were approximately 2,902 record holders of our common stock. Because many of these shares are held by brokers and other institutions on behalf of stockholders, we are unable to estimate the total number of stockholders represented by these record holders.

Dividends

We have never declared or paid any cash dividends on our common stock and do not anticipate paying any cash dividends in the foreseeable future, except with respect to our Series A and Series B preferred stock. We are obligated to pay an annual dividend of \$0.08 on the one share of our Series A preferred stock held by NAR. Effective November 29, 2010, we are obligated to pay cash dividends on our Series B Preferred Stock of 3.5% per year of the original price per share, paid quarterly. For the first five years the Series B Preferred Stock was outstanding, the dividend was paid in-kind in shares of Series B Preferred Stock. See Note 14, Series B Convertible Preferred Stock, to our Consolidated Financial Statements contained in Item 8 of this Form 10-K for information regarding restrictions on our ability to pay dividends.

Stock Repurchases

In February 2011, our Board of Directors authorized a stock repurchase program. The program authorizes, in one or more transactions taking place during a two year period, the repurchase of our outstanding common stock utilizing surplus cash in the amount of up to \$25 million. Under the program, we can repurchase shares of common stock in the open market or in privately negotiated transactions. The timing and amount of any repurchase transactions under this program will depend upon market conditions, corporate considerations, and regulatory requirements. Shares repurchased under the program shall be retired to constitute authorized but unissued shares of our common stock. As of December 31, 2011, we had purchased 1,483,169 shares which were immediately retired for a total expenditure of \$9.6 million.

The following table provides information regarding our purchases of our common stock during the year ended December 31, 2011.

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that may yet be Purchased Under the Plans or Programs (In thousands)
08/1/2011 08/31/2011	318,049	\$ 6.60	318,049	\$ 22,899

Equity compensation plans not approved by security holders	2,733	\$ 10.07	
Total	8,830	\$ 10.21	4,453

-
- (1) Includes shares to be issued pursuant to the exercise or settlement of awards granted under the Move, Inc. 1999 Stock Incentive Plan (which plan expired on July 6, 2009) and the Move, Inc. 2011 Incentive Plan.

Non-Shareholder Approved Plans

The Move, Inc. 2002 Stock Incentive Plan is a non-shareholder approved plan established in January 2002 that permits stock option grants intended to attract and retain qualified personnel. No more than 40% of the available securities granted under this plan may be awarded to our directors or executive officers. Option grants under this plan are non-qualified stock options and generally have a four-year vesting schedule and a 10-year life. We renounced the granting of further awards under this 2002 plan as part of our proposal of the Move, Inc. 2011 Incentive Plan for shareholder approval, which 2011 plan was approved by our shareholders at our Annual Meeting on June 15, 2011.

In July 2009, we established, in reliance on NASDAQ Listing Rule 5635(c)(4), a reserve of 656,250 shares of common stock for future grants of equity awards as inducement to certain individuals entering into employment with us. This was superseded by the Move, Inc. 2011 Incentive Plan. We renounced the granting of further awards under this inducement plan as part of our proposal of the Move, Inc. 2011 Incentive Plan for shareholder approval, which 2011 plan was approved by our shareholders at our Annual Meeting on June 15, 2011.

Other non-shareholder approved plans include the following plans assumed in connection with prior acquisitions: The 1997-1998 Stock Incentive Plan of Cendant Corporation, the Cendant Corporation Move.com Group 1999 Stock Option Plan, as amended and restated effective as of March 21, 2000, the Move.com, Inc. 2000 Stock Incentive Plan, the HomeWrite Incorporated 2000 Equity Incentive Plan, the ConsumerInfo.com, Inc. 1999 Stock Option Plan, the iPlace 2000 Stock Option Plan, the eNeighborhoods, Inc. 1998 Stock Option Plan, the Qspace, Inc. 1999 Stock Option Plan, the iPlace, Inc. 2001 Equity Incentive Plan and The Hessel Group, Inc. 2000 Stock Option Plan. Each of these plans (i) is intended to attract, retain and motivate employees, (ii) is administered by the Board of Directors or by a committee of the Board of Directors of such entities, and (iii) provides that options granted thereunder are exercisable as determined by such Board of Directors or committee, provided that no option would be exercisable after the expiration of 10 years after the grant date. As of December 31, 2011, all of the compensation plans assumed in connection with prior acquisitions had expired. In addition, we renounced the granting of further awards under these plans as part of our proposal of the Move, Inc. 2011 Incentive Plan for shareholder approval, which 2011 plan was approved by our shareholders at our Annual Meeting on June 15, 2011. We granted 148,500 and 261,500 options under these plans in 2010 and 2009, respectively, but we did not grant any options under these plans in 2011 or 2008. Options outstanding as of December 31, 2011 pursuant to compensation plans assumed in connection with prior acquisitions, in the aggregate, total 654,328 and the weighted average exercise price of those option shares was \$14.41.

For additional information regarding our equity compensation plans, see Note 13, *Stock Plans*, to our Consolidated Financial Statements contained in Item 8 of this Form 10-K.

Stockholder Return Performance Graph

The following graph compares, for the period beginning December 31, 2006 through December 31, 2011, during which our common stock has been registered under Section 12 of the Exchange Act, the cumulative total stockholder return for our common stock, the NASDAQ Composite Index and the Morningstar Group Index (Internet Content and Information). The results reflected in the graph assume the investment of \$100 on December 31, 2006 in our common stock and those indices and reinvestments of dividends by those companies that paid dividends. The information contained in this graph was prepared by Zacks Investment Research, Inc.

	12/31/2006	12/31/2007	12/31/2008	12/31/2009	12/31/2010	12/31/2011

Item 6. Selected Financial Data

Information that has been previously filed or otherwise reported for the periods presented in this Item 6 is superseded by the information in this report, and the previously filed financial statements and related financial information and opinions of our independent registered public accounting firm contained in such reports should no longer be relied upon.

You should read the following selected consolidated financial data together with the Consolidated Financial Statements and related notes included in Part II Item 8. Financial Statements and Supplementary Data and Part II Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations of this Form 10-K.

The consolidated statement of operations data for the years ended December 31, 2011, 2010 and 2009 and the consolidated balance sheet data as of December 31, 2011 and 2010 are derived from our audited Consolidated Financial Statements included in Part II Item 8. Financial Statements and Supplementary Data of this Form 10-K. The consolidated statement of operations data for the years ended December 31, 2008 and 2007 and the consolidated balance sheet data as of December 31, 2009, 2008 and 2007 have been derived from audited Consolidated Financial Statements not included in this Form 10-K. Our Consolidated Financial Statements for all periods presented reflects the classification of our Welcome Wagon and Homeplans divisions as discontinued operations.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion in conjunction with our audited Consolidated Financial Statements for the years ended December 31, 2011, 2010 and 2009 and related notes included in Part II Item 8. Financial Statements and Supplementary Data of this Form 10-K.

Overview

Our History

We were incorporated in 1993 under the name of InfoTouch Corporation with the objective of establishing an interactive network of real estate kiosks for consumers to search for homes. In 1996, we began to develop the technology to build and operate real estate related Internet sites. In 1996, we entered into a series of agreements with NAR and several investors and transferred technology and assets to a newly-formed subsidiary, which ultimately became RealSelect, Inc. RealSelect, Inc. in turn entered into a number of formation agreements with, and issued cash and common stock representing a 15% ownership interest in RealSelect, Inc. to, NAR in exchange for the rights to operate the REALTOR.com® web site and pursue commercial opportunities relating to the listing of real estate on the Internet. Substantially all of NAR's ownership interest in RealSelect, Inc. was exchanged for stock in a new parent company, Homestore.com, Inc., in August 1999. Our initial operating activities primarily consisted of recruiting personnel, developing our web site content and raising our initial capital and we began actively marketing our advertising products and services to real estate professionals in January 1997. We changed our name to Homestore, Inc. in May 2002 and to Move, Inc. in June 2006.

Our Business

Move, Inc. and its subsidiaries (Move, we, our or us) operate an online network of web sites for real estate search, finance, moving and home enthusiasts and provide a comprehensive resource for consumers seeking the online information and connections they need regarding real estate. Our consumer web sites are REALTOR.com®, Move.com and Moving.com. Through our ListHub business, we are also an online real estate listing syndicator and provider of advanced performance reporting solutions for the purpose of helping to drive an effective online advertising program for brokers, real estate franchises, and individual agents. We also provide lead management software for real estate agents and brokers through our Top Producer® business.

Edgar Filing: MOVE INC - Form 10-K

With REALTOR.com as our flagship web site and brand, we are the leading real estate information marketplace connecting consumers with the information and the expertise they need to make informed home buying, selling, financing and renting decisions. Move's purpose is to empower people to love where they live. By connecting consumers and real estate professionals in order to facilitate transactions, we aim to realize our purpose and win the hearts and minds of our consumers, customers and business partners in the process.

Through the collection of assets we have developed over 15 years in this business, Move is positioned to address the needs and wants of both consumers and real estate professionals throughout the process of home ownership. Although the real estate marketplace has been unquestionably changed by the web, and likely will continue to evolve through the growth of mobile devices and social networking, our business continues to be about empowering consumers with timely and reliable information and connecting them to the real estate professionals who have the expertise to help them better understand and succeed in that marketplace.

We provide consumers with a powerful combination of breadth, depth and accuracy of information about homes for sale, new construction, homes for rent, multi-family rental properties, senior living communities, home financing, home improvement and moving resources. Through REALTOR.com, consumers have access to over 100 million properties across the United States (U.S.) as well as properties for sale from another 13 countries worldwide. Our for sale listing content, comprising nearly 4 million properties as of December 31, 2011, and accessible in 11 different languages, represents the most comprehensive, accurate and up to date collection of its kind, online or offline. Through REALTOR.com and our mobile applications, we display approximately 98% of all for sale properties listed in the U.S. We source this content directly from our relationships with approximately 900 Multiple Listing Services (MLS) across the country, with approximately 85% of those listings updated every 15 minutes and the remaining listings updated daily.

REALTOR.com's substantial content advantage has earned us trust with both consumers and real estate professionals. We attract a highly engaged consumer audience and have developed an exceptionally large number of relationships with real estate professionals across the country. Approximately 20 million users each month, representing a 30% year-over-year increase (comparing the average monthly number of users visiting REALTOR.com in 2011 and 2010), viewing an average of over 400 million pages each month in 2011 and spending an average of over 300 million minutes on the web site each month in 2011, interact with nearly 400,000 real estate professionals on REALTOR.com and our mobile applications. In 2011, we delivered 60% more connections between our consumers and real estate professionals than the prior year. This illustrates the success of our continued commitment to not only deliver valuable information to our consumers, but more importantly, to connect them with real estate professionals who can provide the local expertise consumers want when making home-related decisions.

In addition to providing an industry-leading content mix, Move facilitates connections and transactions between consumers and real estate professionals. Although attracting and engaging a large consumer audience is an important part of our business, to succeed we must also focus on winning the hearts and minds of real estate professionals who are both customers of our business and suppliers of much of our property content. We believe this starts with our commitment to respecting the listing and content rights of the real estate agents, brokers, MLSs and others who work hard to help generate these important data resources. Through REALTOR.com and our ListHub business, we aggregate, syndicate and display real estate listings across the web, accounting for an estimated 60% of all for sale listing detail page views online or on mobile applications through third party property listing businesses in the U.S. Part of the reason we have become the leading source for real estate listing content is that we work closely with and respect the rights of real estate professionals while still maintaining a balance that allows consumers to obtain the information and expertise they expect and need.

At the same time, we are committed to delivering valuable connections, advertising systems and productivity tools to real estate professionals, with the goal of helping to make them more successful. By combining REALTOR.com advertising systems with the productivity tools offered through our Top Producer product line, we are able to help grow and enrich connections between our customers and consumers, and to help our customers better manage those connections in an effort to facilitate transactions and grow their business.

Our dual focus on both the consumer and the real estate professional has helped us create and maintain REALTOR.com as a distinct advantage in the online real estate space. For over 15 years, we have provided consumers with access to a highly accurate and comprehensive set of real estate listing data and have built relationships within the real estate industry that are both broad and deep as a result. We expect this industry to continue to progress as new technologies are embraced and as consumers' needs and wants evolve. We also expect that real estate professionals, to stay relevant, will likewise need to evolve along with technology, consumers and the market. We aim to keep REALTOR.com positioned to lead this transformation with our consumers and real estate professionals at the forefront, and expect to leverage our collection of advertising systems, productivity tools and other assets to do so.

Products and Services

Through our REALTOR.com web site, mobile applications and business operations, we offer a number of services to real estate franchises, brokers and agents, as well as non-real estate related advertisers in an effort to connect those advertisers with our consumer audience. We categorize the products and services available through the REALTOR.com business as listing advertisements, non-listing advertisements or ListHub syndication and reporting. The collection of services offered through the REALTOR.com business represented approximately 74%, 70% and 66% of our overall revenues from continuing operations for fiscal years 2011, 2010 and 2009, respectively.

Top Producer is our software-as-a-service (SaaS) business providing productivity tools tailored to real estate agents. The Top Producer business complements REALTOR.com and our mission of connecting consumers and real estate professionals to facilitate transactions by empowering real estate professionals' ability to connect with, cultivate and ultimately convert their relationships with home buyers and sellers into transactions. Our Top Producer product offerings include a web and mobile-based customer relationship management (CRM) solution, our Market Snapshot® product and a series of template web site products. The Top Producer product suite represented approximately 16%, 19% and 19% of our overall revenues from continuing operations for fiscal years 2011, 2010 and 2009, respectively.

We separately operate several other web sites providing multi-family rental, senior housing and moving related content and services for our consumer audience. Through our Move Rentals and Senior Housing businesses, we aggregate and display rental listings nationwide. We offer a variety of listing-related advertisements that allow rental property owners and managers to promote their listings and connect with consumers through our web sites. Pricing models include monthly subscriptions and cost per click (CPC). Through our Moving.com business we provide consumers with quotes from moving companies and truck rental companies. The majority of revenue from Moving.com is derived from cost per lead (CPL) pricing models. Our Move Rentals, Senior Housing and Moving.com product lines collectively represented approximately 10%, 11% and 11% of our overall revenues from continuing operations for fiscal years 2011, 2010 and 2009, respectively.

In the third quarter of 2009, we sold certain products previously produced through our Enterprise business. In the fourth quarter of 2009, we entered into an agreement with Builders Homesite, Inc., to create Builders Digital Experience LLC (BDx), a joint venture into which we contributed our new construction web site and related business, and that is dedicated to helping new home builders reach buyers with innovative online marketing solutions. These products collectively represented approximately 4% of our overall revenue from continuing operations for fiscal year 2009.

Market and Economic Conditions

In recent years, our business has been, and we expect may continue to be, influenced by a number of macroeconomic, industry-wide and product-specific trends and conditions. For a number of years prior to 2006, the U.S. residential real estate market experienced a period of hyper-sales rates and home price appreciation, fueled by the availability of low interest rates and flexible mortgage options for many consumers. During the latter half of 2006 and through 2008 lending standards were tightened, equity markets declined substantially, liquidity in general was impacted, unemployment rates rose and consumer spending declined. The combination of these factors materially impacted the U.S. housing market in the form of lower home sales, lower home prices and accelerating delinquencies and foreclosures, all of which created a vicious cycle that further exacerbated the housing market downturn. The effects on the housing market have persisted for several years and were felt in 2011 and continue to be felt into 2012. While some markets are seeing signs of a housing recovery, in general the U.S. residential real estate market is still challenged.

As a result of the factors discussed above, the real estate market has been difficult over the past several years and is not expected to improve in the near future. Entering 2012, delinquencies are expected to continue to be double that of foreclosures, causing uncertainty in the price floor within many markets. This coupled with the fact that banks continue to have significantly tighter credit standards for mortgage loans have made home purchases that much more difficult. We believe these market conditions will continue to place pressure on spending by real estate professionals in the near term.

This environment has had a direct impact on our primary customers, the real estate professionals. Fewer home sales and lower home prices have substantially impacted commission income, which has caused real estate professionals to either reduce their marketing spend or exit the market altogether. The prolonged housing market downturn and resulting impact on our customers has caused us to experience a decline in revenue over the past three years.

Acquisitions and Dispositions

In the third quarter of 2011, we acquired the assets of Peep.ly, LLC (Social Bios). The Social Bios assets include social media products that can compile and integrate a user's social networking profiles from various social media properties to build a web site landing page that provides a profile of the user and allows the user to conduct a directory search for others whereby the user's social profile is matched against the social profiles of others to determine social overlaps or commonalities. The acquisition did not have a material impact on our consolidated financial position, results of operation or cash flows.

In the third quarter of 2010, we acquired all of the outstanding shares of Threewide Corporation (Threewide) for approximately \$13.1 million in cash. Threewide was the operator of ListHub, an online real estate listing syndicator and provider of advanced performance reporting solutions for the purpose of helping to drive an effective online advertising program for brokers, real estate franchises and individual agents. The

total purchase price has been allocated to the assets acquired, including intangible assets and liabilities assumed based on their respective fair values.

In the second quarter of 2008, we decided to divest our Welcome Wagon® business. In the second quarter of 2009, we closed the sale of the business for a sales price of \$2.0 million. We received \$1.0 million in cash and a \$1.0 million promissory note. The principal balance of the note, which was originally due on or before October 1, 2010, was paid in full in July 2010. The outstanding principal bore an interest rate of 7% per annum, with quarterly interest payments due commencing on October 1, 2009. The transaction resulted in a gain on disposition of discontinued operations of \$1.2 million for the year ended December 31, 2009.

As part of the sale in 2002 of our ConsumerInfo division to Experian Holding, Inc. (Experian), \$10.0 million of the purchase price was put in escrow to secure our indemnification obligations (the Indemnity Escrow). Under the terms of the stock purchase agreement, our maximum potential liability for claims by Experian was capped at \$29.3 million less the balance in the Indemnity Escrow, which amount was approximately \$8.5 million. During 2008, Experian demanded \$29.3 million in indemnity payments. We denied liability and a bifurcated arbitration proceeding ensued to resolve the dispute. Subsequent to the completion of the first phase of the arbitration proceedings, in April 2009, the parties settled the dispute and entered into a full release of all claims under which Experian received \$7.4 million from the Indemnity Escrow and we received the balance of the escrow of \$1.1 million, which is included in gain on disposition of discontinued operations for the year ended December 31, 2009.

Our Consolidated Financial Statements for all periods presented reflects the classification of our Welcome Wagon® division as discontinued operations. Accordingly, the revenue, operating expenses, and cash flows of this division have been excluded from the respective captions in the Consolidated Statements of Operations and Consolidated Statements of Cash Flows and have been reported as Loss from discontinued operations, net of applicable income taxes of zero; and as Net cash provided by (used in) discontinued operations. Total revenue and loss from discontinued operations for the year ended December 31, 2009 were as follows (in thousands):

Revenue	\$ 9,609
Total operating expenses	(9,050)
Restructuring charges	(1,045)
Loss from discontinued operations	\$ (486)
Gain on disposition of discontinued operations	\$ 2,303

In the third quarter of 2009, we sold certain product lines associated with the Enterprise business for a sale price of approximately \$1.4 million in cash. The transaction resulted in a gain on sale of assets of \$1.3 million which is reflected in other income, net in our Consolidated Statements of Operations for the year ended December 31, 2009.

Investment in Joint Ventures

In August 2010, we entered into a joint venture agreement with a national mortgage banker d/b/a Mortgage Match and contributed an initial investment of \$0.5 million in exchange for a 49.9% ownership in the joint venture. We recorded our initial investment in the joint venture at \$0.5 million, reflecting such cash payment. In addition, we entered into an Interim Services Agreement in August 2010 with our joint venture partner, under which we hosted and operated the MortgageMatch.com web site, performed various supporting services and received a fixed monthly fee. In December 2010, the MortgageMatch.com web site was launched. MortgageMatch.com leveraged an online consumer-facing decision and pricing engine designed to allow potential buyers to explore their mortgage options in real time, and provided qualified buyers with an electronic pre-qualification letter. At December 31, 2010, our carrying value of the joint venture investment was equal to our proportionate share in the underlying assets of the joint venture.

In July 2011, we and our joint venture partner decided to dissolve the joint venture. As a result of that dissolution, we received a distribution of \$0.5 million which represented a refund of our initial investment. In addition, we incurred \$0.6 million in costs related to the dissolution of the joint venture which are included in general and administrative expenses for the year ended December 31, 2011.

In October 2009, we entered into an agreement with Builder Homesite, Inc. (BHI) to create Builders Digital Experience LLC (BDX), a joint venture dedicated to helping new home builders reach buyers with innovative online marketing solutions. Through this joint venture, and in part through operation of a new web site, www.theBDX.com, BDX operates the Move.com New Homes Channel, the NewHomeSource.com web site and other web sites focused on the new homes market. The BDX joint venture is located in Austin, Texas. Move made cash payments of \$6.5 million, and contributed customer lists and other business assets in exchange for a 50% ownership in the joint venture. We recorded our initial investment in the joint venture at \$6.5 million, reflecting such cash payments and the carrying value of the business assets contributed. Our carrying value of the investment in the joint venture exceeded our proportionate share in the underlying assets of the joint venture by \$2.5 million. This excess primarily related to differences in the cash payments and carrying value of the net assets contributed by us and BHI upon the formation of the joint venture and represents goodwill.

We account for our investment in BDX under the equity method of accounting. Under this method, we record our proportionate share of the joint venture's net income or loss based on the monthly financial statements of the joint venture. We record our proportionate share of net income or loss one month in arrears. We recorded \$1.0 million, \$1.0 million and \$0.1 million in undistributed earnings which is included in earnings of unconsolidated joint venture in the Consolidated Statements of Operations for the years ended December 31, 2011, 2010 and 2009, respectively. We received cash distributions of \$1.9 million and \$1.0 million from BDX during the years ended December 31, 2011 and 2010, respectively.

Critical Accounting Policies, Estimates and Assumptions

Our discussion and analysis of our financial condition and results of operations is based upon our Consolidated Financial Statements, which have been prepared in accordance with U.S. generally accepted accounting principles (GAAP). The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to revenue recognition, uncollectible receivables, valuation of investments, intangibles and other long-lived assets, stock-based compensation and contingencies. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our Consolidated Financial Statements: revenue recognition; valuation allowances, specifically the allowance for doubtful accounts; valuation of investments; valuation of goodwill, identified intangibles and other long-lived assets; stock-based compensation; segment reporting; and legal contingencies.

Management has discussed the development and selection of the following critical accounting policies, estimates and assumptions with the Audit Committee of our Board of Directors and the Audit Committee has reviewed these disclosures.

Revenue Recognition

Revenues are recognized from services rendered when the following four revenue recognition criteria are met: persuasive evidence of an arrangement exists, services have been rendered, the selling price is fixed or determinable, and collectability is reasonably assured. When a revenue agreement involves multiple elements, such as sales of various services in one arrangement or potentially multiple arrangements, the entire fee from the arrangement is allocated to each respective element based on its relative fair value and recognized when the revenue recognition criteria for each element is met. We determine the selling price of our deliverables based on the following hierarchy: (1) vendor-specific objective evidence ("VSOE") if available; (2) third-party evidence ("TPE") if VSOE is not available; and (3) best estimated selling price ("BESP") if neither VSOE nor TPE is available. Where the fair value for an undelivered element cannot be determined, we defer revenue recognition for the delivered elements until the undelivered elements are delivered or the fair value is determinable. We evaluate whether payments made to customers or revenues earned from vendors have a separate identifiable benefit and whether they are fairly valued in determining the appropriate classification of the related revenues and expense.

We assess collection based on a number of factors, including past transaction history with the customer and the credit worthiness of the customer. We do not request collateral from our customers. If we determine that collection of a fee is not reasonably assured, we defer the fee and recognize revenue at the time collection becomes reasonably assured, which is generally upon receipt of cash. Cash received in advance is recorded as deferred revenue until earned.

We derive our revenue primarily from two sources: (i) advertising revenue for running online advertising on our web sites and (ii) software revenue, which represents software licenses. We derive all of our revenue from our operations in North America. As described below, significant management judgments and estimates must be made and used in connection with the revenue recognized in any accounting period.

Advertising Revenue We primarily sell online advertising. Online advertising revenue includes three revenue streams: (i) impression based, (ii) fixed fee subscriptions and (iii) variable, performance based agreements. The impressions based agreements range from spot purchases to 12 month contracts. The impression based revenue is recognized based upon actual impressions delivered and viewed by a user in a period. The fixed fee subscription revenue is recognized ratably over the period in which the services are provided. We measure performance related to advertising obligations on a monthly basis prior to the recording of revenue.

Software Revenue We generally license our software products on a monthly subscription basis. Our hosting arrangements require customers to pay a fixed fee and receive service over a period of time, generally one year. Revenue is recognized ratably over the service period.

Allowance for Doubtful Accounts

Our estimate for the allowance for doubtful accounts related to trade receivables is based on two methods. The amounts calculated from each of these methods are combined to determine the total amount to be reserved. First, we evaluate specific accounts where we have information that the customer may have an inability to meet its financial obligations. In these cases, we use our judgment, based on the best available facts and circumstances, and record a specific reserve for that customer against amounts due to reduce the receivable to the amount that is expected to be collected. These specific reserves are reevaluated and adjusted as additional information is received that impacts the amount reserved. Second, an additional reserve is established for all customers based on a range of percentages applied to aging categories. These percentages are based on historical collection and write-off experience. If circumstances change (i.e., higher than expected defaults or an unexpected material adverse change in a major customer's ability to meet its financial obligation to us) our estimates of the recoverability of amounts due to us could be reduced or increased by a material amount. Actual results have historically been consistent with management's estimates.

Valuation of Goodwill, Identified Intangibles and Other Long-lived Assets

Goodwill represents the excess of the purchase price over the fair value of the net tangible and identifiable intangible assets acquired in a business combination. Goodwill is not amortized, but is tested for impairment on an annual basis during our fourth fiscal quarter and whenever an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value amount. Events and circumstances that may indicate that an asset is impaired may include significant decreases in the market value of an asset, a significant decline in actual and projected advertising and software license revenue, loss of key customer relationships or renegotiation of existing arrangements, a change in the extent or manner in which an asset is used, shifts in technology, loss of key management or personnel, changes in the Company's operating model or strategy and competitive forces as well as other factors.

Impairment of goodwill is required to be tested at the reporting unit level which is determined through the use of the management approach. The management approach considers the internal organizational structure used by our chief operating decision maker for making operating decisions and assessing performance. We do not provide the chief operating decision maker with disaggregated data for decision making purposes and report the company's profitability only on a consolidated basis. Therefore, we test goodwill for impairment on a consolidated entity basis.

In testing for a potential impairment of goodwill, we first compare the estimated fair value of the consolidated entity with book value, including goodwill. If the estimated fair value exceeds book value, goodwill is considered not to be impaired and no additional steps are necessary. If, however, the fair value of the consolidated entity is less than book value, then we are required to compare the carrying amount of the goodwill with its implied fair value. The estimate of implied fair value of goodwill may require independent valuations of certain internally generated and unrecognized intangible assets such as our subscriber base, software and technology and patents and trademarks. If the carrying amount of our goodwill exceeds the implied fair value of that goodwill, an impairment loss would be recognized in an amount equal to the excess.

The process of evaluating the potential impairment of goodwill is highly subjective and requires significant judgment. We determined the estimated fair value of the consolidated entity based on the use of a combination of the income approach, based on the present value of estimated future cash flows, and the market approach, using comparable publically traded business interests. The results of our test for goodwill impairment, as of November 30, 2011, showed that the estimated fair value of the consolidated entity exceeded the carrying value by \$138 million, or 86%. The discount rate utilized in performing the analysis was 12% while the terminal growth rate used was 4%. There were no impairment charges recorded for the years ended December 31, 2011, 2010 or 2009.

Stock-Based Compensation

We recognize stock-based compensation at an amount equal to the fair value of share-based payments granted under compensation arrangements. We calculate the fair value of stock options by using the Black-Scholes option-pricing model. The determination of the fair value of share-based awards at the grant date requires judgment in developing assumptions, which involve a number of variables. These variables include, but are not limited to, the expected stock-price volatility over the term of the awards, the expected dividend yield and the expected stock option exercise behavior. Additionally, judgment is also required in estimating the number of share-based awards that are expected to forfeit. Our computation of expected volatility is based on a combination of historical and market-based implied volatility. The expected term of options granted was derived from an analysis of optionees' historical post-vest exercise behavior.

If any of the assumptions used in the Black-Scholes model change significantly, stock-based compensation expense may differ materially in the future from that recorded in the current period. We believe the accounting for stock-based compensation is a critical accounting policy because it requires the use of complex judgment in its application.

Segment Reporting

Segment reporting requires the use of the management approach in determining reportable operating segments. The management approach considers the internal organization and reporting used by our chief operating decision maker for making operating decisions and assessing performance. Our organizational structure is aligned functionally with the management team focused and incentivized around the total company performance. We do not provide the chief operating decision maker with disaggregated data for decision making purposes and, as such, we have determined that only one segment exists.

Legal Contingencies

We are currently involved in certain legal proceedings, as discussed in Note 22, *Commitments and Contingencies* *Legal Proceedings* to our Consolidated Financial Statements in Item 8 of this Form 10-K. For those matters where we have reached agreed-upon settlements, we have estimated the amount of those settlements and accrued the amount of the settlement in our financial statements. Because of the uncertainties related to both the amount and range of loss on the remaining pending litigation, we are unable to make a reasonable estimate of the liability that could result from an unfavorable outcome. As additional information becomes available, we will assess the potential liability related to our pending litigation and revise our estimates. Such revisions in our estimates of the potential liability could materially impact our results of operations and financial position.

Results of Operations

We have continued to modify our business model over the past three years. Our prospects should be considered in light of the risks, uncertainties, expenses and difficulties frequently encountered by companies in rapidly evolving markets such as the Internet. To address these risks, we must, among other things, be able to continue to:

- execute our business model, including changes to that model;
- respond to highly competitive developments;
- attract, retain and motivate qualified personnel;
- implement and successfully execute our marketing plans;
- continue to upgrade our technologies;
- develop new distribution channels; and
- improve our operational and financial systems.

Our revenue has declined in the last three years. We achieved positive net income and significant growth in our operating income for the year ended December 31, 2011 compared to the year ended December 31, 2010 and have achieved net income in a few quarters in 2010 and 2009, but we may not be able to do so in the future. A more complete description of other risks relating to our business is set forth in *Part I* *Item 1A. Risk Factors* of this Form 10-K. Our Consolidated Financial Statements for all periods presented reflects the classification of our Welcome Wagon® division as discontinued operations.

For the Years Ended December 31, 2011 and 2010

Revenue

Revenue decreased \$5.8 million, or 3%, to \$191.7 million for the year ended December 31, 2011, compared to \$197.5 million for the year ended December 31, 2010. The decrease in revenue was primarily due to a decline in our Top Producer® product suite due to a decline in our CRM subscriber base, which was due to reduced spending by real estate professionals along with declines in our Rental products. These declines were partially offset by increased revenues in our REALTOR.COM® product lines primarily due to new product introductions, including ListHub and our PreQualplus online mortgage prequalification offering.

Cost of Revenue

Cost of revenue decreased \$2.7 million, or 6%, to \$40.4 million for the year ended December 31, 2011, compared to \$43.1 million for the year ended December 31, 2010. The decrease was primarily due to decreased production and fulfillment costs associated with our featured products of \$1.3 million resulting from improved self-service templates for our customers, a decrease in personnel related costs of \$1.0 million, a decrease in royalties of \$0.7 million and credit card processing fees of \$0.5 million due to reduced revenues and a decrease in depreciation expense of \$0.7 million, partially offset by a \$1.3 million increase in technology licensing fees related to new on-line functionality and other cost increases of \$0.2 million.

Gross margin percentage increased to 79% for the year ended December 31, 2011, compared to 78% for the year ended December 31, 2010 due to the decreased costs described above.

Operating Expenses

Sales and Marketing. Sales and marketing expenses decreased \$5.1 million, or 7%, to \$68.6 million for the year ended December 31, 2011, compared to \$73.7 million for the year ended December 31, 2010. The decrease was primarily due to a \$4.1 million decrease in personnel related costs directly related to reduced revenues, a \$1.4 million decrease in marketing and tradeshow expenses and a decrease in online distribution costs of \$0.7 million, partially offset by a \$0.6 million increase in software license costs, a \$0.3 million increase in consulting costs and other cost increases of \$0.2 million.

Edgar Filing: MOVE INC - Form 10-K

Product and Web Site Development. Product and web site development expenses increased \$0.4 million, or 1%, to \$34.7 million for the year ended December 31, 2011, compared to \$34.3 million for the year ended December 31, 2010. The increase was primarily due to an increase in personnel related costs of \$2.3 million partially offset by decreased consulting costs of \$1.9 million. The continued increase in product and web site development cost is a result of incremental investments in our new technology platforms and mobile applications.

General and Administrative. General and administrative expenses decreased \$2.2 million, or 5%, to \$40.5 million for the year ended December 31, 2011, compared to \$42.7 million for the year ended December 31, 2010. The decrease was primarily due to reduced personnel related costs of \$1.9 million, reduced facilities related costs of \$0.7 million, reduced training costs of \$0.3 million and other cost reductions of \$0.3 million, partially offset by an increase due to joint venture dissolution costs of \$0.6 million and increased legal costs of \$0.4 million.

Amortization of Intangible Assets. Amortization of intangible assets was approximately \$1.5 million and \$0.7 million for the years ended December 31, 2011 and 2010, respectively. The increase was due to the amortization of intangible assets that were newly acquired in the fourth quarter of 2010 and during the year ended December 31, 2011.

Stock-based Compensation and Charges. The following chart summarizes the stock-based compensation and charges that have been included in the following captions for each of the periods presented (in thousands):

	Year Ended December 31,	
	2011	2010
Cost of revenue	\$ 221	\$ 175
Sales and marketing	1,351	1,598
Product and web site development	1,176	1,616
General and administrative	3,159	3,901
Total	\$ 5,907	\$ 7,290

Stock-based compensation and charges decreased \$1.4 million for the year ended December 31, 2011, compared to the year ended December 31, 2010, mainly due to the reversal of expense recognized for restricted stock awards and restricted stock units forfeited or not expected to vest during the year ended December 31, 2011 and fewer options being granted. As of December 31, 2011, there was \$8.3 million of unrecognized compensation cost related to non-vested stock option awards granted under our plans. Substantially all of that cost is expected to be recognized over a weighted average period of 2.5 years.

Interest Income, Net

Interest income, net, decreased \$0.9 million to less than \$0.1 million for the year ended December 31, 2011, compared to \$1.0 million for the year ended December 31, 2010, primarily due to reductions in our cash and cash equivalent balances as well as higher interest rates that were earned on our auction rate securities (ARS) prior to selling the portfolio in April 2010.

Impairment of Auction Rate Securities

In April 2010, we completed the sale of our entire portfolio of ARS for \$109.8 million (par value \$129.4 million) to a broker in the secondary market. As a result of the sale, an other-than-temporary loss of \$19.6 million was recorded for the year ended December 31, 2010.

Other Income (Expense), Net

Other income, net of \$0.5 million for the year ended December 31, 2011, consisted primarily of gains on sale of certain investments. Other expense, net, of \$1.0 million for the year ended December 31, 2010, consisted primarily of the transaction fees associated with the sale of our portfolio of ARS.

Income Taxes

We recorded an income tax expense of \$0.3 million for the year ended December 31, 2011 and we recorded a tax benefit of \$0.2 million for the year ended December 31, 2010. For the year ended December 31, 2011, we recorded a deferred tax provision of \$0.2 million related to

Edgar Filing: MOVE INC - Form 10-K

amortization of certain indefinite lived intangible assets and a current state tax expense of \$0.1 million. For the year ended December 31, 2010, the Company recorded an income tax benefit of \$0.3 million as a result of a change in the valuation allowance resulting from the deferred tax liability established for the amortizable intangible assets acquired as part of a business combination, partially offset by \$0.1 million of state income tax expenses and a deferred tax provision related to amortization of certain indefinite lived intangible assets.

For the Years Ended December 31, 2010 and 2009

Revenue

Revenue decreased \$14.5 million, or 7%, to \$197.5 million for the year ended December 31, 2010, compared to \$212.0 million for the year ended December 31, 2009. The decrease in revenue was primarily due to a decrease in our New Homes and REALTOR.com® products. Our New Homes revenues were transferred to our unconsolidated joint venture in the fourth quarter of 2009 and therefore are not included in revenue for the year ended December 31, 2010. Our Top Producer® CRM subscriber base and associated revenues decreased over the prior year due to reduced spending by real estate professionals but was offset by improved revenues from our Market Snapshot™ product. We also experienced declines in the Rentals and Moving.com products. Revenue was also impacted by a decrease of \$2.4 million associated with providing product development services to the NAR in the year ended December 31, 2009 which did not recur in the year ended December 31, 2010.

Cost of Revenue

Cost of revenue decreased \$5.4 million, or 11%, to \$43.1 million for the year ended December 31, 2010, compared to \$48.5 million for the year ended December 31, 2009. The decrease was primarily due to decreased personnel related costs of \$1.6 million, a decrease of \$1.5 million associated with development services provided to NAR, decreased product and fulfillment costs of \$1.3 million associated with our featured products, decreased depreciation expense of \$0.8 million and other cost decreases of \$0.2 million.

Gross margin percentage increased to 78% for the year ended December 31, 2010, compared to 77% for the year ended December 31, 2009. The increase is due to the decreased costs described above.

Operating Expenses

Sales and Marketing. Sales and marketing expenses decreased \$4.4 million, or 6%, to \$73.7 million for the year ended December 31, 2010, compared to \$78.1 million for the year ended December 31, 2009. The decrease was primarily due to a decrease in online distribution costs of \$3.0 million, a decrease in personnel related costs of \$1.1 million and other cost decreases of \$0.3 million.

Product and Web Site Development. Product and web site development expenses increased \$6.5 million, or 23%, to \$34.3 million for the year ended December 31, 2010, compared to \$27.8 million for the year ended December 31, 2009. The increase was primarily due to an increase in consulting and personnel related costs as a result of incremental investments in our new product and technology platforms.

General and Administrative. General and administrative expenses decreased \$22.2 million, or 34%, to \$42.7 million for the year ended December 31, 2010, compared to \$64.9 million for the year ended December 31, 2009. The decrease was primarily due to a \$11.1 million decrease in non-cash stock based compensation primarily due to the acceleration and modification of options upon the termination of three executive officers and restricted stock awards and options granted to our Chief Executive Officer that were immediately vested during the year ended December 31, 2009. Additionally, there was a \$5.8 million decrease in legal fees, a \$4.7 million decrease in personnel related costs, excluding non-cash stock based compensation, a \$1.2 million decrease in bad debt expense, a \$0.6 million decrease in facilities costs due to the new lease in Westlake Village, California and other cost decreases of \$0.1 million. These cost decreases were partially offset by an increase in consulting costs of \$1.3 million.

Amortization of Intangible Assets. Amortization of intangible assets was approximately \$0.7 million and \$0.5 million for the years ended December 31, 2010 and 2009, respectively. The increase was due to the amortization of newly acquired intangible assets during the year ended December 31, 2010.

Restructuring Charges. During the year ended December 31, 2008, our Board of Directors approved restructuring and integration plans with the objective of eliminating duplicate resources and redundancies and implementing a new operating structure to lower total operating expenses. As a result of these plans, we incurred a restructuring charge from continuing operations of \$4.4 million for the year ended December 31, 2008. Included in these charges were lease charges of \$3.0 million related to the consolidation of our operations in Westlake Village, California and the vacancy of a portion of the leased facility. In addition, the charge included severance and other personnel related costs of \$1.4 million associated with a reduction in workforce.

During the year ended December 31, 2009, we entered into a new lease agreement for our Westlake Village facility. Under the terms of the lease, we leased only a portion of the facility but continued to occupy the current space in that facility until construction was completed on the

Edgar Filing: MOVE INC - Form 10-K

new space. Our obligation under the old lease was terminated and, as a result, the remaining restructuring reserve was reversed resulting in a \$1.2 million reduction to restructuring charges for the year ended December 31, 2009. There were no restructuring charges during the year ended December 31, 2010.

Edgar Filing: MOVE INC - Form 10-K

Litigation Settlement. We recorded a litigation settlement charge of approximately \$4.9 million for the year ended December 31, 2009. There were no litigation settlement charges for the year ended December 31, 2010.

Stock-based Compensation and Charges. The following chart summarizes the stock-based compensation and charges that have been included in the following captions for each of the periods presented (in thousands):

	Year Ended December 31,	
	2010	2009
Cost of revenue	\$ 175	\$ 181
Sales and marketing	1,598	1,736
Product and web site development	1,616	687
General and administrative	3,901	14,998
Total from continuing operations	\$ 7,290	\$ 17,602

Stock-based compensation and charges decreased \$10.3 million for the year ended December 31, 2010, compared to the year ended December 31, 2009, primarily due to the acceleration and modification of options upon termination of former executive officers and restricted stock awards and options granted to our new Chief Executive Officer that were immediately vested during the year ended December 31, 2009.

Interest Income, Net

Interest income, net, remained relatively constant for the years ended December 31, 2010 and 2009, respectively.

Impairment of Auction Rate Securities

In April 2010, we completed the sale of our entire portfolio of ARS for \$109.8 million (par value \$129.4 million) to a broker in the secondary market. As a result of the sale, an other-than-temporary loss of \$19.6 million was recorded for the year ended December 31, 2010.

Other Income (Expense), Net

Other expense, net of \$1.0 million for the year ended December 31, 2010, consisted primarily of the transaction fees associated with the sale of our portfolio of ARS. Other income, net, of \$1.7 million for the year ended December 31, 2009, primarily resulted from a \$1.3 million gain on the sale of assets and \$0.6 million in other income related to the revaluation of an embedded derivative liability resulting from the issuance of convertible preferred stock in December 2005, partially offset by other expenses of \$0.2 million.

Income Taxes

We recorded an income tax benefit of \$0.2 million for the year ended December 31, 2010 and income tax expense of less than \$0.1 million for the year ended December 31, 2009. For the year ended December 31, 2010, the Company recorded an income tax benefit of \$0.3 million as a result of a change in the valuation allowance resulting from the deferred tax liability established for the amortizable intangible assets acquired as part of a business combination, partially offset by \$0.1 million of state income tax expenses and a deferred tax provision related to amortization of certain indefinite lived intangible assets. For the year ended December 31, 2009, we recorded a deferred tax provision of \$0.2 million related to amortization of certain indefinite lived intangible assets partially offset by a current tax benefit of \$0.1 million for a federal alternative minimum tax refund resulting from a net operating loss carryback available under new tax laws.

Liquidity and Capital Resources

Net cash provided by operating activities of \$16.4 million for the year ended December 31, 2011 was attributable to the net income of \$7.3 million plus non-cash expenses including depreciation, amortization of intangible assets, provision for doubtful accounts, loss on sales and disposals of assets, stock-based compensation and charges, earnings of unconsolidated joint venture and other non-cash items, aggregating to \$16.0 million, partially offset by changes in operating assets and liabilities of approximately \$6.9 million.

Net cash provided by operating activities of \$22.7 million for the year ended December 31, 2010 was attributable to the net loss of \$15.5 million plus non-cash expenses including depreciation, amortization of intangible assets, provision for doubtful accounts, impairment of auction

Edgar Filing: MOVE INC - Form 10-K

rate securities, stock-based compensation and charges, earnings of unconsolidated joint venture and other non-cash items, aggregating to \$36.5 million, along with changes in operating assets and liabilities of approximately \$1.7 million.

Edgar Filing: MOVE INC - Form 10-K

Net cash used in investing activities of \$6.2 million for the year ended December 31, 2011 was primarily attributable to capital expenditures of \$8.1 million and acquisitions, net of cash acquired, of \$0.5 million partially offset by distributions of earnings from unconsolidated joint ventures of \$1.9 million and proceeds from the dissolution of one of our joint ventures of \$0.5 million.

Net cash provided by investing activities of continuing operations of \$88.2 million for the year ended December 31, 2010 was primarily attributable to proceeds from the sale of auction rate securities of \$109.8 million, payments received on a note for the sale of business of \$1.0 million, and distributions of earnings from an unconsolidated joint venture of \$1.0 million, partially offset by acquisitions, net of cash acquired of \$12.4 million, capital expenditures of \$10.7 million and an investment in joint ventures of \$0.5 million.

Net cash used in financing activities of \$81.2 million for the year ended December 31, 2011 was primarily attributable to the redemption of a portion of the Series B convertible preferred stock of \$70.0 million, repurchases of the Company's common stock of \$9.6 million, payments of dividends on our Series B convertible preferred stock of \$2.0 million, tax withholdings related to net share settlements of restricted stock of \$0.3 million and principal payments on loan payable of \$0.1 million, partially offset by cash proceeds from the exercise of stock options of \$0.8 million.

Net cash used in financing activities of \$59.3 million for the year ended December 31, 2010 was primarily attributable to principal payments on our line of credit of \$129.3 million and other cash uses of \$0.2 million offset by proceeds from our line of credit of \$64.7 million. There were cash proceeds from the exercise of stock options of \$4.7 million, reductions in restricted cash balances of \$0.5 million and proceeds from loans payable of \$0.3 million.

We have generated positive operating cash flows in each of the last three years. Our material financial commitments consist of those under operating lease agreements, our operating agreement with NAR and various web services and content agreements. In addition, under our Series B Preferred Stock Agreement, in November 2012, we are obligated to redeem the remaining outstanding shares of 49,044 at a total redemption price of \$49 million. Until the redemption date, we continue to be obligated to pay quarterly cash dividends of 3.5% per annum of the original price per share, or \$0.4 million per quarter.

In February 2011, our Board of Directors authorized a stock repurchase program. The program authorizes, in one or more transactions taking place during a two year period, the repurchase of our outstanding common stock utilizing surplus cash in the amount of up to \$25 million. Under the program, we may repurchase shares of common stock in the open market or in privately negotiated transactions. The timing and amount of any repurchase transactions under this program will depend upon market conditions, corporate considerations and regulatory requirements. Shares repurchased under the program shall be retired to constitute authorized but unissued shares of our common stock. As of December 31, 2011, we had repurchased 1,483,169 shares of our common stock for a total price of \$9.6 million.

On September 20, 2011, we entered into a revolving line of credit with a major financial institution, providing for borrowings of up to \$20.0 million, available until August 31, 2013. At December 31, 2011, we had no borrowings outstanding under the revolving line of credit. The revolving line of credit requires interest payments based on the BBA LIBOR Rate, plus 2.5%. There is an unused commitment fee of 0.2% on any unused portion of the revolving line of credit, payable quarterly. Additionally, there is a 0.5% annual fee payable if our average aggregate monthly deposit and investment balances with the financial institution fall below \$35.0 million. Among other financial and other covenants, the line of credit provides that we must maintain net tangible worth of \$50.0 million, a quick ratio of 1.50 to 1.0, and adjusted EBITDA of \$17.0 million on a twelve month rolling basis. We were in compliance with these covenants as of December 31, 2011. The revolving line of credit is collateralized by our cash deposits, accounts receivable, investments, inventory, property and equipment and general intangibles we now or subsequently own. In addition, we have pledged the capital stock in our current and future subsidiaries as further collateral for the revolving line of credit.

We believe that our existing cash and any cash generated from operations will be sufficient to fund our working capital requirements, capital expenditures and other obligations for the foreseeable future.

Our contractual obligations as of December 31, 2011 are as follows (in thousands):

	Payments Due by Period				
	Total Payments Due	Due in One Year or Less	Due in One to Three Years	Due in Three to Five Years	Over Five Years
Operating lease obligations	\$ 16,499	\$ 5,356	\$ 7,436	\$ 3,691	\$ 16
Other purchase obligations	12,795	4,267	4,264	4,264	

Edgar Filing: MOVE INC - Form 10-K

Total	\$ 29,294	\$ 9,623	\$ 11,700	\$ 7,955	\$ 16
-------	-----------	----------	-----------	----------	-------

Other purchase obligations represent payments required under our operating agreement with NAR and agreements with various other web service and content providers. Obligations for the years ending 2012 and beyond under the NAR operating agreement are calculated based on amounts paid in 2011 adjusted for the Annual Consumer Price Index for the period ending December 2011. Obligations disclosed above for the NAR operating agreement and one of the content agreements only include estimated payments over the next five years as these agreements have an indefinite term. In addition, we have commitments of \$0.3 million to purchase property, plant and equipment and software maintenance as of December 31, 2011.

Subsequent to December 31, 2011, we entered into an amendment to our existing Scottsdale facility lease which extends the lease expiration to March 2019 in exchange for a reduction in the monthly rental costs. The amendment increases our operating lease obligations by \$5.5 million over the lease term.

Off-Balance Sheet Arrangements

We have not entered into any transactions with unconsolidated entities whereby we have financial guarantees, subordinated retained interests, derivative instruments or other contingent arrangements that expose us to material continuing risks, contingent liabilities, or any other obligation under a variable interest in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to us.

Recent Accounting Developments

See Note 2 Summary of Significant Accounting Policies to our consolidated financial statements, regarding the impact of certain recent accounting pronouncements on our consolidated financial statements.

Item 7A. *Quantitative and Qualitative Disclosures About Market Risk*

Market risk represents the risk of loss that may impact our financial position, results of operations or cash flows due to adverse changes in financial and commodity market prices and rates. We do not have any material foreign currency or other derivative financial instruments. At this time we have not withdrawn any funds under our revolving line of credit and therefore do not have any material interest rate risk. Under our current policies, we do not use interest rate derivative instruments to manage exposure to interest rate changes. We attempt to increase the safety and preservation of our invested principal funds by limiting default risk, market risk and reinvestment risk. We mitigate default risk by investing our cash only in government treasury bills.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders of Move, Inc.

We have audited the accompanying consolidated balance sheets of Move, Inc. as of December 31, 2011 and 2010, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2011. Our audits also included the financial statement schedule listed in the Index at Item 15(a)(2). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Move, Inc. at December 31, 2011 and 2010, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2011, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Move, Inc.'s internal control over financial reporting as of December 31, 2011, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 17, 2012 expressed an unqualified opinion thereon.

MOVE, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Business

Move, Inc. and its subsidiaries (the Company) operate an online network of web sites for real estate search, finance, moving and home enthusiasts and provide a comprehensive resource for consumers seeking the online information and connections they need regarding real estate. The Company's flagship consumer web sites are REALTOR.com®, Move.com and Moving.com. Through its ListHub business, the Company is also an online real estate listing syndicator and provider of advanced performance reporting solutions for the purpose of helping to drive an effective online advertising program for brokers, real estate franchises, and individual agents. The Company also provides lead management software for real estate agents and brokers through its Top Producer® business.

2. Summary of Significant Accounting Policies

Principles of Consolidation and Basis of Presentation The accompanying financial statements are consolidated and include the financial statements of Move, Inc. and its majority-owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation. The Company has evaluated all subsequent events through the date the financial statements were issued.

Investments in private entities where the Company holds a 50% or less ownership interest and does not exercise control are accounted for using the equity method of accounting. The investment balance is included in investment in unconsolidated joint venture and the Company's share of the investees' results of operations is included in earnings of unconsolidated joint venture.

Use of Estimates The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. On an ongoing basis, the Company evaluates its estimates, including those related to provisions for doubtful accounts, legal contingencies, income taxes, revenue recognition, stock-based compensation, fair value of investments and the recoverability of goodwill and intangible assets. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results could differ from those estimates.

Cash and Cash Equivalents All highly liquid instruments with an original maturity of three months or less are considered cash and cash equivalents, those with original maturities greater than three months and current maturities less than 12 months from the balance sheet date are considered short-term investments. The Company invests its excess cash in liquid money market and treasury bill investments.

Concentration of Credit Risk Financial instruments that potentially subject the Company to a concentration of credit risk consist of cash and cash equivalents and accounts receivable. The Company's accounts receivable are derived primarily from revenue earned from customers located in the United States. The Company maintains an allowance for doubtful accounts based upon the expected collectability of accounts receivable.

Fair Value The Company defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the reporting date. The methodology establishes consistency and comparability by providing a fair value hierarchy that prioritizes the inputs to valuation techniques into three broad levels, which are described below:

- Level 1 inputs are quoted market prices in active markets for identical assets or liabilities (these are observable market inputs).
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability (includes quoted market prices for similar assets or identical or similar assets in markets in which there are few transactions, prices that are not current or prices that vary substantially).
- Level 3 inputs are unobservable inputs that reflect the entity's own assumptions in pricing the asset or liability (used when little or no market data is available).

Edgar Filing: MOVE INC - Form 10-K

The Company's financial instruments, including cash and cash equivalents, accounts receivable, accounts payable, and line of credit are carried at cost, which approximates their fair value due to the short-term maturity of these instruments.

Prepaid Commissions The Company prepays commissions to certain of its salespersons on the contract sale date and expenses the commission consistent with the revenue recognition term.

Property and Equipment Property and equipment are stated at historical cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, which is generally three to five years for computer software and equipment and five years for furniture, fixtures and office equipment. Leasehold improvements are amortized over the shorter of the lease term or the estimated useful lives. Construction in progress is primarily related to computer hardware, software licenses and capitalized costs not yet deployed. Depreciation for these assets commences once they are placed in service. Upon the sale or retirement of property or equipment, the cost and related accumulated depreciation and amortization are removed from the Company's financial statements with the resulting gain or loss reflected in the Company's results of operations.

Product and Web Site Development Costs The Company capitalizes direct costs incurred in the development phase of software developed for internal use, web site development costs, and costs to develop its monthly subscription software products (capitalized software costs). The Company only capitalizes direct costs if there is new functionality being developed and the expected life is greater than one year. As the Company is constantly enhancing its products and adding new functionality, a significant portion of its product and web site development costs are expensed as incurred. Additionally, costs related to design or maintenance is expensed as incurred. The Company had \$16.5 million and \$14.7 million of capitalized software costs and \$12.4 million and \$10.6 million of accumulated amortization included in computer software and equipment and construction in progress which is included in Property and Equipment, net, at December 31, 2011 and 2010, respectively.

Identifiable Intangibles, Goodwill and other Long-Lived Assets The Company has both indefinite and definite lived intangibles. Definite lived identifiable intangible assets are amortized on a straight-line basis over their estimated useful lives, ranging from 3.0 to 15.5 years. The Company assesses the impairment of long-lived assets, which include property and equipment and identifiable intangible assets, on an annual basis or whenever events or changes in circumstances indicate that such assets might be impaired and the carrying value may not be recoverable. Events and circumstances that may indicate that an asset is impaired may include significant decreases in the market value of an asset, a significant decline in actual and projected advertising and software license revenue, loss of key customer relationships or renegotiation of existing arrangements, a change in the extent or manner in which an asset is used, shifts in technology, loss of key management or personnel, changes in the Company's operating model or strategy and competitive forces as well as other factors.

Impairment of goodwill is required to be tested at the reporting unit level which is determined through the use of the management approach. The management approach considers the internal organizational structure used by the Company's chief operating decision maker for making operating decisions and assessing performance. The Company is aligned functionally with the management team focused and incentivized around the total company performance. The chief operating decision maker is provided with reports that show the company's results on a consolidated basis with additional expenditure information by functional area, but there is no additional financial information provided at any further reporting unit level. Therefore the Company tests goodwill for impairment on a consolidated entity basis.

If events and circumstances indicate that the carrying amount of an asset may not be recoverable and the expected undiscounted future cash flows attributable to the asset are less than the carrying amount of the asset, an impairment loss equal to the excess of the asset's carrying value over its fair value is recorded. Fair value is determined based on the present value of estimated expected future cash flows using a discount rate commensurate with the risk involved, quoted market prices or appraised values, depending on the nature of the assets. Goodwill has been recorded in connection with the Company's various acquisitions. In testing for a potential impairment of goodwill, the Company will first compare the estimated fair value of the consolidated entity with book value, including goodwill. If the estimated fair value exceeds book value, goodwill is considered not to be impaired and no additional steps are necessary. If, however, the fair value is less than book value, then the Company is required to compare the carrying amount of the goodwill with its implied fair value. The estimate of implied fair value of goodwill may require independent valuations of certain internally generated and unrecognized intangible assets such as its subscriber base, software and technology and patents and trademarks. If the carrying amount of the goodwill exceeds the implied fair value of that goodwill, an impairment loss would be recognized in an amount equal to the excess.

The following table summarizes the Company's useful lives for significant intangible and long-lived assets:

Type	Weighted Average Amortization Period (In Years)
Purchased technology	6.0
Content syndication agreements	5.0
Other	8.7

Revenue Recognition Revenues are recognized from services rendered when the following four revenue recognition criteria are met: persuasive evidence of an arrangement exists, services have been rendered, the selling price is fixed or determinable, and collectability is reasonably assured. When a revenue agreement involves multiple elements, such as sales of various services in one arrangement or potentially multiple arrangements, the entire fee from the arrangement is allocated to each respective element based on its relative fair value and recognized when the revenue recognition criteria for each element is met. The Company determines the selling price of its deliverables based on the following hierarchy: (1) vendor-specific objective evidence ("VSOE") if available; (2) third-party evidence ("TPE") if VSOE is not available; and (3) best estimated selling price ("BESP") if neither VSOE nor TPE is available. The Company evaluates whether payments made to customers or revenues earned from vendors have a separate identifiable benefit and whether they are fairly valued in determining the appropriate classification of the related revenues and expense.

The Company assesses collection based on a number of factors, including past transaction history with the customer and the credit worthiness of the customer. The Company does not request collateral from its customers. If the Company determines that collection of a fee is not reasonably assured, the Company defers the fee and recognizes revenue at the time collection becomes reasonably assured, which is generally upon receipt of cash. Cash received in advance is recorded as deferred revenue until earned.

The Company derives its revenue primarily from two sources (i) advertising revenue for running online advertising on the Company's web sites and (ii) software revenue, which represents software licenses. The Company derives all of its revenue from its operations in North America. As described below, significant management judgments and estimates must be made and used in connection with the revenue recognized in any accounting period.

Advertising Revenue The Company primarily sells online advertising. Online advertising revenue includes three revenue streams: (i) impression based, (ii) fixed fee subscriptions, and (iii) variable, performance based agreements. The impression based agreements range from spot purchases to twelve month contracts. The impression based revenue is recognized based upon actual impressions delivered and viewed by a user in a period. The fixed fee subscription revenue is recognized ratably over the period in which the services are provided. The Company measures performance related to advertising obligations on a monthly basis prior to the recording of revenue.

Software Revenue The Company licenses its software on a monthly subscription basis. The Company's hosting arrangements require customers to pay a fixed fee and receive service over a period of time, generally one year. Revenue is recognized ratably over the service period.

Taxes Collected from Customers The Company reports taxes collected from customers on a net presentation basis.

Advertising Expense Advertising costs from continuing operations, which consist primarily of online advertising, portal fees, keyword buys, e-mail campaigns, and other trade advertising, are expensed as incurred and totaled \$13.1 million, \$13.7 million, and \$16.5 million during the years ended December 31, 2011, 2010 and 2009, respectively.

Stock-Based Compensation The Company typically issues two types of stock-based awards to employees: restricted stock and stock options. Compensation expense associated with restricted stock is based on the fair value of the common stock on the date of grant. Compensation expense associated with stock options granted to employees is based on the estimated grant date fair value method using the Black-Scholes valuation model. Compensation expense is recognized using a straight-line amortization method over the respective vesting period for awards that are ultimately expected to vest. Accordingly, stock-based compensation has been reduced for estimated forfeitures. When estimating forfeitures, the Company considers voluntary termination behaviors as well as trends of actual option forfeitures.

For stock options granted to non-employees, compensation expense is generally recognized over the vesting period of the award. At the end of each financial reporting period prior to vesting, the value of these options (as calculated using the Black-Scholes valuation model) is re-measured using the then-current fair value of the Company's common stock. Stock options granted by the Company to non-employees vest over a four-year service period. The Company accounts for non-employee grants as an expense over the vesting period of the underlying options.

Income Taxes Income taxes are accounted for using the asset and liability method. Under this method, deferred tax assets and liabilities are determined based on differences between the financial reporting and tax basis of assets and liabilities, and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. Valuation allowances are established when necessary to reduce deferred taxes to the amount expected to be realized.

The Company reports a liability, if applicable, for unrecognized tax benefits resulting from uncertain tax positions taken or expected to be taken in a tax return. Interest and penalties, if any, related to unrecognized tax benefits are recognized in income tax expense.

Net Income (Loss) Per Share Net income (loss) per share is computed by dividing the net income (loss) applicable to common stockholders for the period by the weighted average number of common shares outstanding. Shares associated with stock options and convertible preferred stock are not included to the extent they are anti-dilutive.

Foreign Currency Translation The financial statements of the Company's foreign subsidiary are measured using the local currency as the functional currency. Assets and liabilities of the subsidiary are translated at the rate of exchange at the balance sheet date. Income and expense items are translated at average monthly rates of exchange prevailing during the year. The resulting translation adjustments are included in accumulated other comprehensive income as a separate component of stockholders' equity.

Comprehensive Income Comprehensive income is defined as the change in equity of a business enterprise during a period from transactions and other events and circumstances from non-owner sources. For the Company, comprehensive income consists of its reported net income or loss, the change in the foreign currency translation adjustments during a period and the net unrealized gains or losses on short-term and long-term investments and marketable equity securities.

Segments Segment reporting requires the use of the management approach in determining reportable operating segments. The management approach considers the internal organization and reporting used by the Company's chief operating decision maker for making operating decisions and assessing performance. The Company is aligned functionally with the management team focused and incentivized around the total company performance. The chief operating decision maker is provided with reports that show the company's results on a consolidated basis with additional expenditure information by functional area, but there is no additional financial information provided at any further segment level. Based on this, the Company has determined that only one segment exists.

Recent Accounting Developments In September 2009, the Financial Accounting Standards Board (FASB) issued new accounting guidance related to the revenue recognition of multiple element arrangements. The new guidance states that if vendor specific objective evidence or third party evidence for deliverables in an arrangement cannot be determined, companies will be required to develop a best estimate of the selling price to separate deliverables and allocate arrangement consideration using the relative selling price method. The accounting guidance will be applied prospectively and became effective during the first quarter of 2011. The adoption of this guidance did not have a material impact on the Company's consolidated financial statements.

In June 2011, the FASB issued an accounting standards update which amends current comprehensive income guidance. This accounting update eliminates the option to present the components of other comprehensive income as part of the statement of shareholders' equity. Instead, the Company must report comprehensive income in either a single continuous statement of comprehensive income which contains two sections, net income and other comprehensive income, or in two separate, but consecutive statements. This update will be effective for public companies during interim and annual periods beginning after December 15, 2011 with early adoption permitted. The adoption of this standards update will not have an impact on the Company's consolidated financial statements as it only requires a change in the format of the current presentation.

In September 2011, the FASB issued an accounting standards update which allows entities to use a qualitative approach to test goodwill for impairment. This update permits an entity to first perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying value. If it is concluded that this is the case, it is necessary to perform the currently prescribed two-step goodwill impairment test. Otherwise, the two-step goodwill impairment test is not required. This update is effective for public companies during interim and annual periods beginning after December 15, 2011 with early adoption permitted. The adoption of this standards update will not have an impact on the Company's consolidated financial statements as it only requires a change in the possible approach taken to test goodwill for impairment.

A variety of proposed or otherwise potential accounting standards are currently under study by standard setting organizations and various regulatory agencies. Due to the tentative and preliminary nature of those proposed standards, management has not determined whether implementation of such proposed standards would be material to the Company's consolidated financial statements.

3. Acquisitions and Disposals

In the third quarter of 2011, the Company acquired the assets of Peep.ly, LLC (Social Bios). The Social Bios assets include social media products that can compile and integrate a user's social networking profiles from various social media properties to build a web site landing page that provides a profile of the user and allows the user to conduct a directory search for others whereby the user's social profile is matched against the social profiles of others to determine social overlaps or commonalities. The acquisition did not have a material impact on our consolidated financial position, results of operation or cash flows.

In the third quarter of 2010, the Company acquired all of the outstanding shares of Threewide Corporation (Threewide) for approximately \$13.1 million in cash. Threewide was the operator of ListHub, an online real estate listing syndicator and provider of advanced performance reporting solutions for the purpose of helping to drive an effective online advertising program for brokers, real estate franchises and individual agents. The total purchase price has been allocated to the assets acquired, including intangible assets and liabilities assumed, based on their respective fair values. The \$13.1 million purchase price was allocated \$0.5 million to net tangible assets (which included \$0.7 million of cash

Edgar Filing: MOVE INC - Form 10-K

acquired), \$5.1 million to intangible assets with estimated useful lives of five years, \$0.5 million to indefinite lived trade name and trademarks, and the remaining \$7.0 million was allocated to goodwill. In connection with the purchase accounting, the Company recorded a net deferred tax liability of \$0.2 million associated with the indefinite lived intangible and an income tax benefit of \$0.3 million (see Note 20), resulting in additional goodwill of \$0.5 million being recorded. As of December 31, 2011, the Company had goodwill of \$7.5 million and net intangible assets of \$4.3 million associated with the Threewide acquisition. The financial results of Threewide are included in the Company's Consolidated Financial Statements from the date of acquisition. Pro forma information for this acquisition has not been presented because the effects were not material to the Company's historical consolidated financial statements.

In the second quarter of 2008, the Company decided to divest its Welcome Wagon® business. In the second quarter of 2009, the Company closed the sale of the business for a sales price of \$2.0 million. The Company received \$1.0 million in cash and a \$1.0 million promissory note. The principal balance of the note, which was originally due on or before October 1, 2010, was paid in full in July 2010. The outstanding principal bore an interest rate of 7% per annum, with quarterly interest payments due commencing on October 1, 2009. The transaction resulted in a gain on disposition of discontinued operations of \$1.2 million for the year ended December 31, 2009.

As part of the sale in 2002 of the Company's ConsumerInfo division to Experian Holding, Inc. (Experian), \$10.0 million of the purchase price was put in escrow to secure the Company's indemnification obligations (the Indemnity Escrow). Under the terms of the stock purchase agreement, the Company's maximum potential liability for claims by Experian was capped at \$29.3 million less the balance in the Indemnity Escrow, which amount was approximately \$8.5 million. During 2008, Experian demanded \$29.3 million in indemnity payments. The Company denied liability and a bifurcated arbitration proceeding ensued to resolve the dispute. Subsequent to the completion of the first phase of the arbitration proceedings, on April 20, 2009, the parties settled the dispute and entered into a full release of all claims under which Experian received \$7.4 million from the Indemnity Escrow and the Company received the balance of the escrow of \$1.1 million, which is included in gain on disposition of discontinued operations for the year ended December 31, 2009.

Pursuant to ASC 205-20 Presentation of Financial Statements - Discontinued Operations (formerly SFAS No. 144), the consolidated financial statements of the Company for all periods presented reflect the classification of its Welcome Wagon® division as discontinued operations. Accordingly, the revenue, operating expenses, and cash flows of these divisions have been excluded from the respective captions in the Consolidated Statements of Operations and Consolidated Statements of Cash Flows and have been reported as Loss from discontinued operations, net of applicable income taxes of zero; and as Net cash provided by (used in) discontinued operations. Total revenue and loss from discontinued operations for the year ended December 31, 2009 are as follows (in thousands):

Revenue	\$ 9,609
Total operating expenses	(9,050)
Restructuring charges	(1,045)
Loss from discontinued operations	\$ (486)
Gain on disposition of discontinued operations	\$ 2,303

In the third quarter of 2009, the Company sold certain product lines associated with the Enterprise business for a sale price of approximately \$1.4 million in cash. The transaction resulted in a gain on sale of assets of \$1.3 million which is reflected in other income, net in the Company's Consolidated Statements of Operations for the year ended December 31, 2009.

4. Restructuring Charges

During the year ended December 31, 2008, the Company's Board of Directors approved restructuring and integration plans with the objective of eliminating duplicate resources and redundancies and implementing a new operating structure to lower total operating expenses. As a result of these plans, the Company incurred a restructuring charge from continuing operations of \$4.4 million for the year ended December 31, 2008 which included lease obligations and related charges of \$3.0 million for the consolidation of the Company's operations in Westlake Village, California and the vacancy of a portion of the leased facility. During the year ended December 31, 2009, the Company entered into a new lease agreement for its Westlake Village facility. The Company's obligation under the old lease was terminated and, as a result, the remaining restructuring reserve was reversed, resulting in a \$1.2 million credit to restructuring charges for the year ended December 31, 2009.

During the year ended December 31, 2009, the Company incurred an additional restructuring charge from discontinued operations of \$1.1 million associated with lease termination charges and additional employee termination costs.

5. Investments in Joint Ventures

In August 2010, the Company entered into a joint venture agreement with a national mortgage banker d/b/a Mortgage Match and contributed an initial investment of \$0.5 million in exchange for a 49.9% ownership in the joint venture. The Company recorded its initial investment in the joint venture at \$0.5 million, reflecting such cash payment. In addition, the Company entered into an Interim Services Agreement in August 2010 with the joint venture partner, under which the Company hosted and operated the MortgageMatch.com web site, performed various supporting services and received a fixed monthly fee. At December 31, 2010, the Company's carrying value of the joint venture investment was equal to its proportionate share in the underlying assets of the joint venture.

In July 2011, the Company and its joint venture partner decided to dissolve the joint venture and terminate the Interim Services Agreement. As a result of the dissolution, the Company received a distribution of \$0.5 million which represented the refund of its initial investment. In addition, the Company incurred \$0.6 million in costs related to the dissolution of the joint venture which are included in general and administrative expenses for the year ended December 31, 2011.

In October 2009, along with Builder Homesite, Inc. (BHI) the Company entered into an agreement to create Builders Digital Experience LLC (BDX), a joint venture dedicated to helping new home builders reach buyers with innovative online marketing solutions. Through this joint venture, and in part through operation of a new web site, www.theBDX.com, BDX operates the Move.com New Homes Channel, the NewHomeSource.com web site and other web sites focused on the new homes market. The BDX joint venture is located in Austin, Texas. The Company made cash payments of \$6.5 million and contributed customer lists and other business assets in exchange for a 50% ownership in the joint venture. The Company recorded its initial investment in the joint venture at \$6.5 million. The carrying value of the investment in BDX exceeds the Company's proportionate share in the underlying assets of the joint venture by \$2.5 million. This excess primarily related to differences in the cash payments and carrying value of the net assets contributed by the Company and BHI upon the formation of the joint venture and represented goodwill.

The Company accounts for its investments in the joint venture under the equity method of accounting. Under this method, the Company records its proportionate share of the joint venture's net income or loss based on the monthly financial statements of the joint venture. The Company records its proportionate share of net income or loss one month in arrears. The Company recorded \$1.0 million, \$1.0 million and \$0.1 million in undistributed earnings which is included in earnings of unconsolidated joint venture in the Consolidated Statements of Operations for the years ended December 31, 2011, 2010 and 2009, respectively. The Company received cash distributions of \$1.9 million and \$1.0 million from BDX during the years ended December 31, 2011 and 2010, respectively.

6. Impairment of Auction Rate Securities

Prior to April 2010, the Company had long-term investments which consisted of high-grade (primarily AAA rated) student loan auction rate securities issued by student loan funding organizations, which loans are 97% guaranteed under FFELP (Federal Family Education Loan Program). These auction rate securities (ARS) were intended to provide liquidity via an auction process that reset the interest rate, generally every 28 days, allowing investors to either roll over their holdings or sell them at par. In February 2008, auctions for the Company's investments in these securities failed to settle on their respective settlement dates. Consequently, the investments were not liquid and the Company was not going to be able to access these funds until a future auction of these investments was successful, the securities matured or a buyer was found outside of the auction process. Maturity dates for these ARS investments ranged from 2030 to 2047 with principal distributions occurring on certain securities prior to maturity.

As of December 31, 2009, the Company had recorded a temporary loss related to the ARS of \$17.6 million that was included in Other Comprehensive Income on the Company's Condensed Consolidated Balance Sheet. At a board meeting on March 24, 2010, the Board of Directors and Management discussed the recent passage of the Health Care Reform Bill that contained a provision eliminating FFELP, a significant change in student loan funding. In management's opinion, this change, along with other market factors, created additional uncertainty in the student loan auction rate securities market. As a result, the Board of Directors and Management changed its intent, which had been to hold these securities, and decided to sell the entire portfolio of ARS and, thereafter, the Company began to actively market the sale to third parties. The Company reviews its potential investment impairments in accordance with ASC 320 Investment Debt and Equity Securities and the related guidance issued by the FASB and SEC in order to determine the classification of the impairment as temporary or other-than-temporary. A temporary impairment charge results in an unrealized loss being recorded in the other comprehensive income (loss) component of stockholder's equity. An other-than-temporary impairment charge is recorded as a realized loss in the Consolidated Statement of Operations and reduces net income or increases net loss for the applicable accounting period. The differentiating factors between temporary and other-than-temporary impairment are primarily the length of the time and the extent to which the market value has been less than cost, the financial condition and near-term prospects of the issuer, and the ability and intent of the holder to hold the investment until maturity or its value recovers. Prior to March 24, 2010, the Company had not intended to sell, nor was it more likely than not that the Company would be required to sell before the recovery of its amortized cost basis and, as such, the loss was considered temporary. On March 24, 2010, as indicated above, the Company changed its intent to hold the ARS and, therefore, the impairment was reclassified to an other-than-temporary loss.

In April 2010, the Company completed a sale of the entire portfolio of ARS for \$109.8 million (par value of \$129.4 million) to a broker in a secondary market. As a result of the sale, an other-than-temporary loss of \$19.6 million was recorded as Impairment of Auction Rate Securities in the Company's Consolidated Statement of Operations for the year ended December 31, 2010. The transaction costs of approximately \$1.0 million associated with this transaction were recorded as other expenses for the year ended December 31, 2010.

7. Fair Value Measurements

The following table presents the assets and liabilities included in the Company's financial statements and measured at fair value on a recurring basis, all of which are classified as Level 1 in the fair value hierarchy:

	December 31, 2011	December 31, 2010
Assets:		
Cash and cash equivalents (1)	\$ 87,579	\$ 158,517
Total assets at fair value	\$ 87,579	\$ 158,517

- (1) Cash and cash equivalents consist primarily of treasury bills with original maturity dates of three months or less and money market funds for which the Company determines fair value through quoted market prices.

Certain assets and liabilities are measured at fair value on a non-recurring basis. That is, the assets and liabilities are not measured at fair value on an ongoing basis, but are subject to fair value adjustments in certain circumstances (e.g. when there is evidence of impairment). At December 31, 2011 and 2010, the Company had no significant non-financial assets or liabilities that had been adjusted to fair value subsequent to initial recognition.

8. Revolving Line of Credit

On September 20, 2011, the Company entered into a revolving line of credit with a major financial institution, providing for borrowings of up to \$20.0 million, available until August 31, 2013. At December 31, 2011, the Company had no borrowings outstanding under the revolving line of credit. The revolving line of credit requires interest payments based on the BBA LIBOR Rate plus 2.5%. There is an unused commitment fee of 0.2% on any unused portion of the line of credit, payable quarterly. Additionally, there is a 0.5% annual fee payable if the Company's average aggregate monthly deposit and investment balances with the financial institution fall below \$35.0 million. Among other financial and other covenants, the revolving line of credit provides that the Company must maintain tangible net worth of \$50.0 million, a quick ratio of 1.50 to 1.0, and adjusted EBITDA of \$17.0 million on a twelve month rolling basis. The Company was in compliance with these covenants as of December 31, 2011. The revolving line of credit is collateralized by the Company's cash deposits, accounts receivable, investments, inventory, property and equipment and general intangibles it now or subsequently owns. In addition, the Company has pledged the capital stock in its current and future subsidiaries as further collateral for the revolving line of credit.

9. Property and Equipment

Property and equipment consists of the following (in thousands):

	December 31, 2011	2010
Computer software and equipment	\$ 63,356	\$ 58,969
Furniture, fixtures and office equipment	2,602	3,247
Leasehold improvements	9,402	9,949
Construction in progress	1,516	1,368
Total	76,876	73,533
Less: accumulated depreciation and amortization	(56,389)	(51,599)
Property and equipment, net	\$ 20,487	\$ 21,934

Depreciation expense, excluding discontinued operations, was \$9.4 million, \$10.1 million and \$10.5 million for the years ended December 31, 2011, 2010 and 2009, respectively. The amounts include amortization of fixed assets acquired under capital lease obligations of \$0.3 million for the year ended December 31, 2009, and amortization of capitalized software costs of \$1.8 million, \$2.3 million and \$2.4 million for the years ended December 31, 2011, 2010 and 2009, respectively. As of December 31, 2011 and 2010, there were no assets purchased under capital leases.

10. Goodwill and Other Intangible Assets

The Company has goodwill of \$24.5 million and no accumulated impairment losses as of December 31, 2011 and 2010. The Company also has both indefinite and definite lived intangibles. Indefinite-lived intangibles consist of \$2.5 million of trade name and trademarks. Definite-lived intangible assets consist of certain trade names, trademarks, brand names, content syndication agreements, purchased technology, customer contracts and related customer relationships, non-contractual customer relationships, and other miscellaneous agreements. The definitive-lived intangibles are amortized over the expected period of benefit. There are no expected residual values related to these intangible assets. Intangible assets by category are as follows (in thousands):

	December 31, 2011		2010	
	Gross Amount	Accumulated Amortization	Gross Amount	Accumulated Amortization
Trade names, trademarks, brand names, and domain names	\$ 3,060	\$ 520	\$ 3,060	\$ 518
Content syndication agreements	3,800	971	3,800	211
Purchased technology	1,900	1,250	1,400	967
NAR operating agreement	1,578	1,503	1,578	1,352
Other	2,680	1,455	2,680	1,146
Total	\$ 13,018	\$ 5,699	\$ 12,518	\$ 4,194

Amortization expense, excluding discontinued operations, for intangible assets for the years ended December 31, 2011, 2010 and 2009 was \$1.5 million, \$0.7 million and \$0.5 million, respectively. Amortization expense for the next five years is estimated to be as follows (in thousands):

Year Ended December 31,	Amount
2012	\$ 1,513
2013	1,272
2014	1,155
2015	780
2016	18

11. Accrued Expenses

Accrued expenses consist of the following (in thousands):

	December 31,	
	2011	2010
Accrued payroll and related benefits	\$ 8,797	\$ 9,930
Other	5,985	6,351
Total	\$ 14,782	\$ 16,281

12. Related-party Transactions

The Company provided product development services to NAR and recognized \$0.8 million in revenues for the year ended December 31, 2011 and \$2.4 million in revenues for the year ended December 31, 2009. The Company also makes payments to NAR through its operating agreement and other advertising agreements. Total amounts paid under these agreements were \$2.0 million, \$1.9 million and \$1.9 million for each of the three years ended December 31, 2011, 2010, and 2009, respectively. As of December 31, 2011, the Company had a balance of \$0.5 million due to NAR under these agreements which is included in accounts payable. Additionally, future commitments to NAR are included within the commitment schedule in Note 22.

13. Stock Plans

Edgar Filing: MOVE INC - Form 10-K

In June 2011, the Board of Directors adopted, and the stockholders approved, the Move, Inc. 2011 Incentive Plan (2011 Plan). The 2011 Plan reserved 5,200,000 shares of common stock for future grants. The 2011 Plan contains a provision for an automatic increase in the number of shares available for grant, not to exceed 2,500,000, based on the number of shares underlying awards outstanding as of February 28, 2011 under prior plans that thereafter terminate or expire unexercised, or are cancelled, forfeited or lapse for any reason. We renounced the granting of further awards under all previous stock plans as part of our proposal of the Move, Inc. 2011 Incentive Plan for shareholder approval, which 2011 plan was approved by our shareholders at our Annual Meeting on June 15, 2011. As of December 31, 2011, common stock available for future issuance under equity compensation plans was 4.5 million shares.

In January 1999, the Board of Directors adopted, and in March 1999 the Company's stockholders approved, the 1999 Equity Incentive Plan (1999 Plan) to replace a pre-existing stock option plan (1996 Plan). The 1999 Plan provided for the issuance of both non-statutory and incentive stock options to employees, officers, directors and consultants of the Company. The initial number of shares of common stock reserved for issuance under the 1999 Plan was 2,500,000. In April 1999 and June 1999, the Board of Directors authorized, and the stockholders approved, an increase in the number of shares reserved for issuance under the 1999 Plan by an additional 750,000 shares and 156,250 shares, respectively. This plan expired in April 2009. In June 1999, the Board of Directors adopted, and the stockholders approved, the 1999 Stock Incentive Plan (SIP) which was combined with the previous 1999 Plan. The SIP reserved 1,225,000 shares of common stock for future grants. The SIP contained a provision for an automatic increase in the number of shares available for grant starting January 1, 2000 and each January thereafter by an amount equal to 4.5% of the outstanding shares as of the preceding December 31; provided, however, that the aggregate number of shares that qualify as Incentive Stock Options (as defined in the plan) must not exceed 20.0 million shares. In accordance with the provisions of the SIP, the number of options available for grant was increased by 1,722,171 shares in January 2009. Pursuant to the terms of the plan, no person was eligible to receive more than 500,000 shares in any calendar year under the plan. This plan expired in July 2009.

Edgar Filing: MOVE INC - Form 10-K

In connection with acquisitions prior to 2002, the Company assumed plans with authorized options of 2,003,285. Options outstanding pursuant to these plans were 654,328 and 838,114 as of December 31, 2011 and 2010, respectively, and the weighted average exercise price of those option shares was \$14.41 and \$14.32, respectively.

On January 15, 2002, the Board of Directors adopted the 2002 Stock Incentive Plan (2002 SIP). The 2002 SIP reserved 3,750,000 shares of common stock for future grants of nonqualified stock options to employees, consultants, contractors and advisors as to be determined by the Management Development and Compensation Committee of the Board of Directors. Pursuant to the terms of the plan, options granted to insiders (officers or directors of the Company who are subject to Section 16 of the Securities Exchange Act of 1934) may not exceed in the aggregate forty percent (40%) of all shares that are reserved for grant under the plan.

On July 20, 2009, the Company established, in reliance on NASDAQ Listing Rule 5635(c)(4), a reserve of 656,250 shares of common stock for future grants of equity awards as inducement to certain individuals entering into employment with the Company.

Stock-Based Compensation and Charges

The following chart summarizes the stock-based compensation and charges that have been included in the following financial statement captions for each of the periods presented (in thousands):

	For the Year Ended December 31,		
	2011	2010	2009
Cost of revenue	\$ 221	\$ 175	\$ 181
Sales and marketing	1,351	1,598	1,736
Product and web site development	1,176	1,616	687
General and administrative	3,159	3,901	14,998
Total from continuing operations	5,907	7,290	17,602
Total from discontinued operations			64
Total stock-based compensation and charges	\$ 5,907	\$ 7,290	\$ 17,666

Stock-based compensation and charges for the years ended December 31, 2011 and 2010 are comprised of employee-based and non-employee-based stock option expenses and restricted stock amortization. For the year ended December 31, 2009, stock-based compensation and charges are comprised of employee-based stock option expense and restricted stock amortization.

During the year ended December 31, 2009, the Company modified the vesting and extended the time to exercise certain option awards for several former executive employees. As a result, the Company recorded additional stock-based compensation expense of \$9.1 million. There were no such modifications for the year ended December 31, 2011 and 2010.

Option Awards

Effective January 1, 2006, the Company adopted the fair value recognition provisions of ASC 718 Compensation Stock Compensation (formerly SFAS 123R), using the modified-prospective transition method. Under that transition method, compensation cost recognized in 2006 includes: (a) compensation cost for all share-based payments granted prior to January 1, 2006, but not yet vested, based on the grant-date fair value estimated in accordance with the original provisions of SFAS 123; and (b) compensation cost for all share-based payments granted subsequent to December 31, 2005, based on the grant-date fair value estimated in accordance with the provisions of ASC 718. Compensation costs are recognized using a straight-line amortization method over the vesting period.

The fair value of each option award is estimated on the date of grant using a Black-Scholes option valuation model that uses the ranges of assumptions in the following table. Our computation of expected volatility is based on a combination of historical and market-based implied volatility. The expected term of stock options granted represents the weighted average period that the stock options are expected to remain outstanding. The risk-free interest rates are based on U.S. Treasury zero-coupon bonds for the periods in which the stock options were granted.

For the Year Ended December 31,		
2011	2010	2009

Edgar Filing: MOVE INC - Form 10-K

Risk-free interest rates	0.83-2.30%	1.13-2.43%	0.11-2.54%
Expected term (in years)	5.85	5.85	5.85
Dividend yield	0%	0%	0%
Expected volatility	75-80%	80-85%	85%

Edgar Filing: MOVE INC - Form 10-K

During the year ended December 31, 2009, the Company updated the estimated forfeiture rates it uses in the determination of its stock-based compensation expense; this change was the result of an assessment that included an analysis of the actual number of equity awards that had been forfeited to date compared to prior estimates and an evaluation of future estimated forfeitures. The Company periodically evaluates its forfeiture rates and updates the rates it uses in the determination of its stock-based compensation expense. The impact of the change to the forfeiture rates on non-cash compensation expense was immaterial for the year ended December 31, 2009. There were no changes to the forfeiture rate for the year ended December 31, 2011 and 2010. The following table summarizes the activities under the option plans for the three years ended December 31, 2011 and includes shares issued to non-employees as described below:

	Number of Shares (in thousands)	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value (in thousands)
Outstanding at December 31, 2008	8,824	\$ 12.68	5.31	\$ 2,328
Granted	1,791	7.68		
Exercised	(266)	7.08		
Forfeited	(773)	17.92		
Outstanding at December 31, 2009	9,576	11.48	4.54	\$ 2,797
Granted	506	7.12		
Exercised	(683)	6.96		
Forfeited	(908)	20.40		
Outstanding at December 31, 2010	8,491	10.63	4.37	\$ 18,595
Granted	1,232	8.04		
Exercised	(148)	5.64		
Forfeited	(745)	12.40		
Outstanding at December 31, 2011	8,830	\$ 10.21	3.86	\$ 1,913
Exercisable at December 31, 2011	7,035	\$ 10.91	2.68	\$ 1,389

Additional information with respect to the outstanding and exercisable options as of December 31, 2011 (shares in thousands):

Prices	Options Outstanding		Options Exercisable	
	Number Of Shares	Weighted Average Exercise Price	Number of Shares	Weighted Average Exercise Price
\$1.20 to 7.04	3,770	\$ 6.16	3,072	\$ 6.28
\$7.24 to 8.88	2,032	8.41	1,093	8.55
\$8.92 to 17.24	2,327	15.33	2,174	15.66
\$17.28 to 25.52	701	20.19	696	20.18
\$1.20 to 25.52	8,830	\$ 10.21	7,035	\$ 10.91

The weighted-average fair value of options granted during the years ended December 31, 2011, 2010, and 2009 was \$5.34, \$5.08, and \$5.48, respectively. The total intrinsic value of stock options exercised during the years ended December 31, 2011, 2010 and 2009 was \$0.4 million, \$1.1 million, and \$1.1 million, respectively. The intrinsic value of options exercisable as of December 31, 2011, 2010 and 2009 was \$1.4 million, \$12.4 million, and \$0.9 million, respectively. The intrinsic value of a stock option is the amount by which the market value of the underlying stock exceeds the exercise price of the option.

A summary of the Company's non-vested stock options for the three years ended December 31, 2011 is as follows (shares in thousands):

	Number of Shares	Weighted Average Exercise Price
Non-vested options at December 31, 2008	2,318	\$ 12.09

Edgar Filing: MOVE INC - Form 10-K

Granted	1,791	7.66
Vested	(1,515)	13.31
Forfeited	(250)	9.20
Non-vested options at December 31, 2009	2,344	\$ 8.22
Granted	506	7.12
Vested	(879)	9.24
Forfeited	(96)	9.05
Non-vested options at December 31, 2010	1,875	\$ 7.40
Granted	1,232	8.04
Vested	(892)	7.53
Forfeited	(420)	8.77
Non-vested options at December 31, 2011	1,795	\$ 7.46

As of December 31, 2011, there was \$8.3 million of unrecognized compensation cost related to non-vested stock option awards granted under the Company's plans. Substantially all of that cost is expected to be recognized over a weighted average period of 2.5 years. Non-vested shares relating to non-employees reflected in the table above include 36,286 and 48,375 non-vested shares as of December 31, 2011 and 2010, respectively.

Options Granted to Non-employees

During the year ended December 31, 2010, the Company granted 48,375 stock options to non-employees. The options vest over four years with an exercise price equal to the market value of the Company's common stock on the grant date and expire after 10 years.

The Company used the Black-Sholes valuation model to estimate the fair value of the unvested shares of these options as of December 31, 2011 and 2010. The Company used a risk free interest rates of 0.83% and 1.13%, respectively, an expected life of 5.85 years, an annual volatilities of 75% and 80%, respectively, and no expected dividends to determine the fair value. The Company estimated the fair value of each option granted to be approximately \$3.57 and \$7.08 as of December 31, 2011 and 2010, respectively. The Company recorded stock-based charges in general and administrative expense of less than \$0.1 million with respect to these options for each of the years ended December 31, 2011 and 2010, respectively.

Restricted Stock Awards

The Company grants restricted stock awards to non-employee members of its Board of Directors as compensation (except any director who is entitled to a seat of the Board of Directors on a contractual basis or has waived such compensation). During the year ended December 31, 2011, the Company granted 7,500 shares of common stock to the Chairman of the Board of Directors which was vested immediately. Also, during the year ended December 31, 2009, the Company granted 15,000 shares of restricted stock to the members of the ad hoc Executive Committee of its Board of Directors. Half of these shares vested on the grant date and half of the shares vested one year from the grant date. Additionally, during the years ended December 31, 2011, 2010, and 2009, the Company issued 32,729, 34,775 and 43,855 shares of restricted stock, respectively, to all non-employee members of its Board of Directors (except any director who is entitled to a seat on the Board of Directors on a contractual basis or has waived such compensation). These shares, subject to certain terms and restrictions, will vest on the third anniversary of their issuance. The total intrinsic value associated with the issuance of these shares was approximately \$0.3 million, \$0.3 million, and \$0.4 million for the years ended December 31, 2011, 2010, and 2009, respectively, and is being recognized over their respective vesting period. During each of the years ended December 31, 2010 and 2009, a member of the Board of Directors resigned and forfeited 16,597 and 13,927 shares, respectively, of unvested restricted stock. Total cost recognized was approximately \$0.3 million, \$0.4 million and \$0.4 million for the years ended December 31, 2011, 2010, and 2009, respectively, and is included in stock-based compensation and charges.

The Company also grants restricted stock awards to certain executives and key employees. Generally, these shares, subject to certain terms and restrictions, vest in four annual installments over the four year period following the grant dates. During the year ended December 31, 2011, the Company granted 440,850 shares with a grant date fair value of \$3.4 million which is being amortized over the vesting periods. During the year ended December 31, 2009, the Company granted 537,500 shares of restricted stock with a grant date fair value of \$3.7 million. The Company did not grant any restricted stock awards during the year ended December 31, 2010. Total costs recognized during the years ended December 31, 2011, 2010 and 2009 was \$0.3 million, \$1.0 million and \$2.3 million, respectively, and is included in stock based compensation and charges.

Edgar Filing: MOVE INC - Form 10-K

A summary of the Company's non-vested restricted stock awards for the three years ended December 31, 2011 is as follows (shares in thousands):

	Number of Shares	Weighted Average Grant Date Fair Value
Non-vested restricted stock awards at December 31, 2008	100	\$ 14.30
Granted	596	6.91
Vested	(207)	7.59
Forfeited	(27)	10.51
Non-vested restricted stock awards at December 31, 2009	462	\$ 7.99
Granted	35	9.08
Vested	(182)	7.96
Forfeited	(17)	9.51
Non-vested restricted stock awards at December 31, 2010	298	\$ 8.04
Granted	481	7.64
Vested	(220)	7.59
Forfeited	(75)	8.83
Non-vested restricted stock awards at December 31, 2011	484	\$ 7.73

The total fair value of restricted stock awards vested during the years ended December 31, 2011, 2010 and 2009, was \$1.9 million, \$1.4 million and \$1.3 million, respectively. As of December 31, 2011, the weighted average recognition term for these awards is 3.16 years.

Performance Based Restricted Stock Units

The Company also grants performance-based restricted stock units to members of the management team. These awards are generally earned on the attainment of certain performance goals defined by the Management Development and Compensation Committee of the Board of Directors (the Compensation Committee) relating to the Company's earnings before interest, taxes, depreciation and amortization (EBITDA) for a specified fiscal year. The Board of Directors did not award any new performance-based restricted stock awards during the year ended December 31, 2011. During the year ended December 31, 2010, the Board of Directors awarded 187,500 shares of performance-based restricted stock units to be earned on the attainment of performance goals relating to the Company's EBITDA for the fiscal year ended December 31, 2011. The performance goals for these awards were not attained, therefore no stock-based compensation was recognized and the shares were forfeited as of December 31, 2011. During the year ended December 31, 2009, the Company awarded 268,750 shares of performance-based restricted stock units to be earned based on the attainment of certain performance goals relating to the Company's EBITDA for the fiscal years ended December 31, 2010 and 2011. Based on the attainment of the performance goals for the fiscal year ended December 31, 2010, a portion of these shares were vested and the Company recognized \$0.2 million in stock-based compensation costs during the year ended December 31, 2010. Based on the attainment of the performance goals for the fiscal year ended December 31, 2011, another portion of these shares were vested and the Company recognized \$0.7 million in stock-based compensation costs during the year ended December 31, 2011.

A summary of the Company's non-vested performance-based restricted stock units for the three years ended December 31, 2011 is as follows (shares in thousands):

	Number of Shares	Weighted Average Grant Date Fair Value
Non-vested stock units at December 31, 2008	507	\$ 18.15
Granted	269	7.48
Forfeited	(507)	18.15
Non-vested stock units at December 31, 2009	269	\$ 7.48
Granted	187	9.20
Vested	(24)	8.12
Forfeited	(7)	8.12

Edgar Filing: MOVE INC - Form 10-K

Non-vested stock units at December 31, 2010	425	\$	9.27
Vested	(81)		9.20
Forfeited	(344)		9.28
Non-vested stock units at December 31, 2011		\$	

The total fair value of performance-based restricted stock units vested during the year ended December 31, 2011 and 2010 was \$0.7 million and \$0.2 million, respectively. No performance-based restricted stock units vested during the year ended December 31, 2009.

14. Series B Convertible Preferred Stock

On November 6, 2005, the Company entered into a Preferred Stock Purchase Agreement (the "Agreement") with Elevation Partners, L.P. and such affiliates as Elevation designated (the "Purchasers") to sell to the Purchasers 100,000 shares of its Series B Convertible Participating Preferred Stock (the "Series B Preferred Stock") for an aggregate purchase price of \$100 million. The transaction was exempt from the registration requirements of the Securities Act of 1933, as amended. The transaction closed on November 29, 2005. The net proceeds of \$94.1 million from the issuance of the Series B Preferred Stock are net of issuance costs of \$5.9 million, and are classified as mezzanine equity due to certain change of control provisions which provide for redemption outside the control of the Company. The Company determined that due to those change of control provisions, the Series B Preferred Stock should be recorded on the Company's financial statements as though it consisted of two components: (i) convertible preferred stock (the "Host Contract") with a 3.5% annual dividend, and (ii) an embedded derivative (the "Embedded Derivative") which reflected the right of the holders of the Series B Preferred Stock to receive additional guaranteed dividends in the event of a change of control. The Series B Preferred Stock reported on the Company's consolidated balance sheet consists only of the value of the Host Contract (less issuance costs) plus the amount of accretion for issuance costs and accrued dividends. Such discount and issuance costs are being accreted over the life of the Series B Preferred Stock with such accretion being recorded as a reduction in retained earnings. During each of the three years ended December 31, 2011, the Company recorded accretion on the issuance costs of approximately \$2.0 million, \$1.3 million and \$1.3 million, respectively. Due to the expiration of the change of control provisions as of November 30, 2010, there was no fair value associated with the Embedded Derivative as of December 31, 2011 and 2010. As a result of a reduction in fair value of the embedded derivative for the year ended December 31, 2009, the Company recognized other income of \$0.6 million.

The Series B Preferred Stock had an original aggregate liquidation preference of \$100 million plus all accrued and unpaid dividends. The Series B Preferred Stock is convertible into the Company's common stock at a conversion price of \$16.80 per share, subject to certain adjustments upon certain events. In February 2011, the Company reached an agreement with the Purchasers to redeem 70,000 shares of the Company's Series B Preferred Stock, at a total redemption price of \$70.4 million, including approximately \$0.4 million in associated cash dividends accrued through the date immediately prior to the redemption. As a result of the redemption, the Company accelerated a proportionate share of the unamortized discount resulting in an additional charge of \$1.4 million for the year ended December 31, 2011. Immediately after the completion of the redemption, Elevation continued to be the sole holder of the Company's outstanding Series B Preferred Stock and holds approximately 49,044 shares of such stock as of December 31, 2011, which stock is held under the same terms as applied to the original purchase of Series B Preferred Stock. As a result of the redemption, Elevation's entitlement to representation on the Company's Board of Directors fell from two board seats to one. However, the Company's Board of Directors waived the obligation of one of the Elevation-appointed directors to resign as a result of the above-described (partial) redemption and both Elevation-appointed directors continued as directors through the date of the Company's Annual Meeting on June 15, 2011. The Company's Board of Directors, in the Company's Proxy Statement filed with the SEC on April 28, 2011, nominated for election to the Company's Board of Directors at the Company's 2011 Annual Meeting Roger B. McNamee, a prior Elevation-appointed director. The shareholders accepted the Board's recommendation that they elect Mr. McNamee as a director during the Company's 2011 Annual Meeting. The Purchasers are required to vote their shares in the manner recommended by the Board with respect to the election or removal of directors, other than any directors designated by the Purchasers.

The Series B Preferred Stock pays a quarterly dividend of 3.5% per annum of the original price per share, which were payable in additional Series B Preferred Stock until November 29, 2010, after which such dividends are paid only in cash. The dividend the Company is obligated to pay on the remaining unredeemed Series B Preferred Stock pursuant to the original purchase terms is \$0.4 million per quarter. As of December 31, 2011 and 2010, the Company had recorded a liability for dividends payable in cash of \$0.4 million which is included in accrued expenses on the Company's Consolidated Balance Sheet. Under the terms of the Agreement, in November 2012, the Company is obligated to redeem the remaining outstanding shares of 49,044 at a total redemption price of \$49 million. In the event of a change of control, the Company will be required to offer to repurchase all of the outstanding shares of Series B Preferred Stock for total cash equal to 101% of the liquidation preference. Based on the number of shares of common stock outstanding as of December 31, 2011, if all shares of Series B Preferred Stock were converted they would represent 7% of the Company's outstanding common stock.

The Series B Preferred Stock ranks senior to the common stock of the Company and junior to the Company's Series A Preferred Stock, and votes as a single class with the common stock on any matter to come before the stockholders of the Company, with each share of Series B Preferred Stock being entitled to cast a number of votes equal to the number of shares of Common Stock into which it is then convertible. The Agreement contains customary anti-dilution provisions.

Edgar Filing: MOVE INC - Form 10-K

The Stockholders Agreement dated November 29, 2005 between the Company and Elevation Partners, L.P. and Elevation Employee Side Fund, LLC ("Stockholders Agreement") requires the consent of the holders of the Series B Preferred Stock before the Company may engage in the following: (i) incurrence of certain additional indebtedness; (ii) certain divestitures, acquisitions or other business reorganizations; (iii) filing for bankruptcy protection; (iv) transactions with affiliates in excess of \$100,000; and (v) payment of any dividend on, or the redemption or repurchase of, common stock in aggregate amounts of \$10 million or more. The Stockholders Agreement also provides the Purchasers with certain rights to register shares of common stock upon conversion of the Series B Preferred Stock. The Purchasers are entitled to three demand registration rights, which may include shelf registration beginning two years from date of issuance, subject to certain dollar and share number thresholds. The Purchasers are also entitled to piggyback registration rights.

A summary of activity related to the Series B Preferred Stock is as follows (in thousands):

Gross Proceeds	\$ 100,000
Costs and expenses of issuance	(5,924)
Embedded derivative liability	(3,137)
Net convertible preferred stock at issuance	90,939
Accretion of discount	99
Dividends	311
Net convertible preferred stock at December 31, 2005	91,349
Accretion of discount	1,302
Dividends	3,557
Costs and expenses of issuance	4
Net convertible preferred stock at December 31, 2006	96,212
Accretion of discount	1,294
Dividends	3,683
Net convertible preferred stock at December 31, 2007	101,189
Accretion of discount	1,294
Dividends	3,814
Net convertible preferred stock at December 31, 2008	106,297
Accretion of discount	1,294

Net convertible preferred stock at December 31, 2009	111,541
Accretion of discount	1,294
Dividends	3,729
Net convertible preferred stock at December 31, 2010	116,564
Accretion of discount	1,991
Partial redemption of convertible preferred stock	(70,000)
Net convertible preferred stock at December 31, 2011	\$ 48,555

15. Capitalization

Reverse Stock Split

At the close of business on November 18, 2011, the Company effected a 1-for-4 reverse split of its common stock, which was previously authorized by its stockholders. All common stock share and per share information has been retroactively adjusted to reflect the reverse stock split for all periods presented, except for par value, which was not affected by the reverse stock split.

Series A Preferred Stock

As of December 31, 2004, the Company had authorized the issuance of one share of Series A Preferred Stock. As of December 31, 2011 and December 31, 2010, one share of Series A Preferred Stock was issued and outstanding and held by NAR. The holder of Series A Preferred Stock has the following rights:

Voting Except as provided in this paragraph, the Series A preferred stockholder is not entitled to notice of any stockholders' meetings and shall not be entitled to vote on any matters with respect to any question upon which holders of common stock or preferred stock have the right to vote, except as may be required by law (and, in any such case, the Series A Preferred Stock shall have one vote per share and shall vote together

Edgar Filing: MOVE INC - Form 10-K

with the common stock as a single class). The holder of Series A Preferred Stock is entitled to elect one director of the Company. If there is any vacancy in the office of a director elected by the holder of the Series A Preferred Stock, then a director to hold office for the unexpired term of such directorship may be elected by the vote or written consent of the holder of the Series A Preferred Stock. The provisions dealing with preferred stockholders rights included in the Certificate of Incorporation may not be amended without the approval of the holder of the Series A Preferred Stock.

Dividends In each calendar year, the holder of the Series A Preferred Stock is entitled to receive, when, as and if declared by the Board, non-cumulative dividends in an amount equal to \$0.08 per share (as appropriately adjusted for stock splits, stock dividends, recapitalizations and the like), prior and in preference to the payment of any dividend on the common stock in such calendar year. If, after dividends in the full preferential amounts specified in this section for the Series A Preferred Stock have been paid or declared and set apart in any calendar year of the Company, the holder of Series A Preferred Stock shall have no further rights to receive any further dividends that the Board may declare or pay in that calendar year.

Liquidation In the event of any liquidation, dissolution or winding up of the Company, whether voluntary or involuntary, the Series A Preferred Stockholder is entitled to receive, prior and in preference to any payment or distribution on any shares of common stock, an amount per share equal to \$1.00 per share of Series A Preferred Stock. After payment of such amount, any further amounts available for distribution shall be distributed among the holders of common stock and the holders of preferred stock other than Series A Preferred Stock, if any, entitled to receive such distributions.

Redemption Upon the earlier to occur of (i) termination of that certain operating agreement dated November 26, 1996, as the same may be amended from time to time (the "operating agreement"), or (ii) NAR ceases to own at least 37,445 shares of common stock of the Company, or (iii) the existence and continuance of a material breach by NAR of that certain Joint Ownership Agreement, dated as of November 26, 1996, between NAR, and subsidiaries of the Company, or the Trademark License dated as of November 26, 1996, by and between NAR and the Company, at any time thereafter the Company may, at the option of the Board, redeem the Series A Preferred Stock. The redemption price for each share of Series A Preferred Stock shall be \$1.00 per share.

Conversion Each share of Series A Preferred Stock shall automatically be converted into one share of common stock upon any sale, transfer, pledge, or other disposition of the share of Series A Preferred Stock to any person or entity other than the initial holder of such share of Series A Preferred Stock, or any successor by operation of law that functions as a non-profit trade association for REALTORS® under Section 501(c)(6) of Internal Revenue Code of 1986, as amended, that owns the REALTOR® trademark, or any wholly-owned affiliate of such holder as long as the holder continues to own such affiliate.

Issuance of Common Stock

The Company recognized \$0.3 million, \$0.4 million and \$0.4 million in stock-based charges in connection with the issuance of common stock to members of its Board of Directors for the years ended December 31, 2011, 2010 and 2009, respectively.

16. Common Stock Repurchases

In February 2011, the Company's Board of Directors authorized a stock repurchase program. The program authorizes, in one or more transactions taking place during a two year period, the repurchase of the Company's outstanding common stock utilizing surplus cash in the amount of up to \$25 million. Under the program, the Company may repurchase shares of common stock in the open market or in privately negotiated transactions. The timing and amount of any repurchase transaction under this program will depend upon market conditions, corporate considerations, and regulatory requirements. Shares repurchased under the program shall be retired to constitute authorized but unissued shares of the Company's common stock. As of December 31, 2011, the Company had repurchased 1,483,169 shares of its common stock for a total price of \$9.6 million.

17. Net Income (Loss) per Share

The following table sets forth the computation of basic and diluted net income (loss) per share applicable to common stockholders for the periods indicated (in thousands, except per share amounts):

	For The Year Ended December 31,		
	2011	2010	2009
Numerator:			
Income (loss) from continuing operations	\$ 7,260	\$ (15,472)	\$ (8,763)
Income from discontinued operations			1,817
Net income (loss)	7,260	(15,472)	(6,946)
Convertible preferred stock dividend and related accretion	(4,069)	(5,383)	(5,244)
Net income (loss) applicable to common stockholders	\$ 3,191	\$ (20,855)	\$ (12,190)
Net income (loss) applicable to common stockholders from continuing operations	\$ 3,191	\$ (20,855)	\$ (14,007)
Net income applicable to common stockholders from discontinued operations			1,817
Net income (loss) applicable to common stockholders	\$ 3,191	\$ (20,855)	\$ (12,190)
Denominator:			
Basic weighted average shares outstanding	39,114	38,880	38,342
Dilutive effect of options, warrants and restricted stock	814		
Fully diluted weighted average shares outstanding	39,928	38,880	38,342
Basic income (loss) applicable to common stockholders:			
Continuing operations	\$ 0.08	\$ (0.54)	\$ (0.37)
Discontinued operations			0.05
Net loss	\$ 0.08	\$ (0.54)	\$ (0.32)
Diluted income (loss) applicable to common stockholders:			
Continuing operations	\$ 0.08	\$ (0.54)	\$ (0.37)
Discontinued operations			0.05
Net loss	\$ 0.08	\$ (0.54)	\$ (0.32)

Because their effects would be anti-dilutive for the periods presented, the above computation of diluted income (loss) per share excludes preferred stock and options of 7,795,006, 15,874,090, and 16,925,436 for the years ended December 31, 2011, 2010, and 2009, respectively.

18. Supplemental Cash Flow Information

During the year ended December 31, 2011:

- The Company issued 24,219 shares of stock to two of its executive officers pursuant to the terms of their performance-based restricted stock unit agreements. The charge associated with these shares of \$0.2 million was recognized as stock-based compensation during the year ended December 31, 2010.
- The Company issued 32,729 shares of restricted common stock to the non-employee members of its Board of Directors which vest over three years. The charge associated with these shares was \$0.3 million and is being recognized over the three-year vesting period.
- The Company issued 7,500 shares of restricted common stock to the Chairman of the Board of Directors which was immediately vested. The charge associated with these shares of \$0.1 million was recognized as stock-based compensations for the year during the year ended December 31, 2011.
- The Company issued 388,500 shares of restricted common stock, net of forfeitures, to certain executive employees which vest over four years. The charge associated with these shares was \$2.9 million and is being recognized over the four-year vesting period.

Edgar Filing: MOVE INC - Form 10-K

During the year ended December 31, 2010:

- The Company received a trade-in allowance on the purchase of property and equipment of \$0.2 million
- The Company issued 34,775 shares of restricted common stock to the non-employee members of its Board of Directors which vest over three years. The charge associated with these shares was \$0.3 million and is being recognized over the three-year vesting period.
- The Company issued \$3.7 million in additional Series B Preferred Stock as in-kind dividends and declared and accrued \$0.4 million in cash dividends.

During the year ended December 31, 2009:

- The Company paid \$1.9 million in interest.
- The Company issued 450,000 shares of restricted common stock to its new Chief Executive Officer with 175,000 shares vested immediately, and subject to certain terms and restrictions, 125,000 shares vesting one year from the grant date and 150,000 shares vesting two years from the grant date. The charge associated with these shares was \$2.7 million and is being recognized over the vesting periods.
- The Company issued 15,000 shares of restricted common stock to the members of the ad hoc Executive Committee of its Board of Directors. Half of the shares vested on the grant date and half of the shares will vest on year from the grant date. The charge associated with these shares was approximately \$0.1 million and is being recognized over the vesting period.
- The Company issued 43,855 shares of restricted common stock to certain members of its Board of Directors. These shares will vest on the third anniversary of their issuance. The charge associated with these shares was \$0.4 million and is being recognized over the three-year vesting period.
- The Company received a \$1.0 million promissory note in conjunction with the sale of its Welcome Wagon division. The principal balance of the note was paid during the year ended December 31, 2010.
- The Company issued 87,500 shares of restricted common stock to two of its new executive officers with shares vesting each year over the next three years on the anniversary of the grant date. The charge associated with these shares was \$0.9 million and is being recognized over the vesting period.
- The Company issued \$3.9 million in additional Series B Preferred Stock as in-kind dividends.

19. Defined Contribution Plan

The Company has a savings plan (Savings Plan) that qualifies as a defined contribution plan under Section 401(k) of the Internal Revenue Code. Under the Savings Plan, participating employees may defer a percentage (not to exceed 75%) of their eligible pretax earnings up to the Internal Revenue Service's annual contribution limit. All full-time employees on the payroll of the Company are eligible to participate in the Plan. The Company pays all general and administrative expenses of the plan and may make contributions to the plan. The Company made matching contributions of approximately \$1.2 million, \$1.1 million, and \$1.7 million for the years ended December 31, 2011, 2010 and 2009, respectively.

20. Income Taxes

For the year ended December 31, 2011, the Company recorded a deferred tax provision of \$0.2 million related to amortization of certain indefinite lived intangibles assets and a current state tax expense of \$0.1 million. For the year ended December 31, 2010, the Company recorded an income tax benefit of \$0.3 million as a result of a change in the valuation allowance resulting from the deferred tax liability established for the amortizable intangible assets acquired as part of a business combination, partially offset by \$0.1 million of state income tax expenses and a deferred tax provision related to amortization of certain indefinite lived intangible assets. For the year ended December 31, 2009, the Company recorded a deferred tax provision of \$0.2 million related to amortization of certain indefinite lived intangible assets partially offset by a current tax benefit of \$0.1 million for a federal alternative minimum tax refund resulting from a net operating loss carryback available under new tax laws.

Edgar Filing: MOVE INC - Form 10-K

Significant components of the provision for income taxes from continuing operations are as follows (in thousands):

	For the Year Ended December 31,		
	2011	2010	2009
Current:			
Federal	\$	\$	\$ (217)
State	114	67	83
Total current provision	114	67	(134)
Deferred:			
Federal	137	(98)	131
State	22	(122)	40
Total deferred provision	159	(220)	171
Income tax (benefit) expense	\$ 273	\$ (153)	\$ 37

The components of the deferred tax assets and liabilities and related valuation allowance are as follows (in thousands):

	For the Year Ended December 31,	
	2011	2010
Deferred tax assets:		
Net operating loss carryforwards	\$ 278,031	\$ 276,055
Other	44,364	44,443
	322,395	320,498
Valuation allowance	(322,395)	(320,498)
Net deferred tax assets	\$	\$
Deferred tax liabilities:		
Amortization of acquired intangible assets	(1,054)	(895)
Net deferred tax liability	\$ (1,054)	\$ (895)

Based on management's assessment, the Company has placed a valuation reserve against its otherwise recognizable deferred tax assets due to the likelihood that the Company may not generate sufficient taxable income during the carryforward period to utilize the net operating loss carryforwards. The deferred tax liability is included in other non-current liabilities on the Company's balance sheet.

The valuation reserve for net deferred taxes increased by \$1.9 million primarily as a result of adjusting net operating loss carryforwards associated with employee stock option exercises, partially offset by the utilization of net operating losses due to income generated for the current year, and the reduction of the deferred tax assets due to expiration of net operating loss carryovers.

The Company recognizes excess tax benefits associated with the exercise of stock options directly to stockholders' equity only when realized. Accordingly, deferred tax assets are not recognized for net operating loss carryforwards (NOL) resulting from excess tax benefits. As of December 31, 2011, deferred tax assets do not include \$52.3 million of these excess tax benefits from employee stock option exercises that are a component of the Company's net operating loss carry forwards. Additional paid in capital will be increased up to an additional \$52.3 million if and when such excess tax benefits are realized.

The reconciliation between the Company's effective tax rate and the federal statutory rate is as follows (in thousands):

	For the Year Ended December 31,		2010		2009	
	2011					
	Amount	Tax Rate	Amount	Tax Rate	Amount	Tax Rate
Statutory rate applied to income before income taxes	\$ 2,561	34%	\$ (5,313)	34%	\$ (2,967)	34%
State taxes, net of federal tax benefit	560	7	(1,025)	7	(514)	6

Edgar Filing: MOVE INC - Form 10-K

Permanent items	(4,256)	(56)	(1,146)	7	212	(2)
Change in state effective tax rate	(443)	(6)	3,811	(24)		
Canadian Tax Credit					(6,634)	76
Change in valuation allowance	1,851	25	3,520	(23)	9,940	(114)
Total tax provision (benefit)	\$ 273	4%	\$ (153)	1%	\$ 37	0%

At December 31, 2011, the Company had gross NOLs for federal and state income tax purposes of approximately \$923.9 million and \$321.7 million, respectively. The federal NOLs will begin to expire in 2018. Approximately \$34.7 million of the state NOLs expired in 2011 and the state NOLs will continue to expire from 2012 until 2030. Gross net operating loss carry forwards for both federal and state tax purposes may be subject to an annual limitation under relevant tax laws. Currently, the NOLs have a full valuation allowance recorded against them. At December 31, 2011, the Company had \$35.3 million of capital loss for federal and state income tax purposes, which will begin to expire in 2013. The Company also had approximately \$6.7 million of Canadian tax credit available to offset Canadian tax liabilities. The Canadian tax credit will begin to expire in 2015.

Approximately \$150.1 million of the \$923.9 million federal NOLs may belong to members of the Company's group that cannot be consolidated for federal income tax purposes. Consequently, those NOLs would not be available to the Company to offset taxable income in the future. The NOLs indicated above are subject to a full valuation allowance.

Utilization of the NOLs may be subject to a substantial annual limitation due to ownership change limitations that may have occurred or that could occur in the future, as required by Section 382 of the Internal Revenue Code of 1986, as amended (the Code), as well as similar state and foreign limitations. These ownership changes may limit the amount of NOLs that can be utilized annually to offset future taxable income and tax, respectively. In general, an ownership change as defined by Section 382 of the Code, results from a transaction or series of transactions over a three-year period resulting in an ownership change of more than 50 percentage points of the outstanding stock of a company by certain stockholders or public groups.

The Company has completed a significant portion of its study to assess whether an ownership change has occurred that would materially impact the utilization of NOLs. The work performed to date does not indicate a material limitation of any NOLs. There may also be additional ownership changes in the future, and any future change of its current market capitalization would severely limit the annual use of these NOLs going forward. Such limitation could also result in expiration of a portion of the NOLs before utilization. Further, until the study is completed and any limitations known, no amounts are being considered as an uncertain tax position or disclosed as an unrecognized tax benefit. Due to the existence of the valuation allowance, future changes in the Company's unrecognized tax benefits will not impact its effective tax rate. Any NOLs that expire prior to utilization as a result of such limitations will be removed from deferred tax assets with a corresponding reduction of the valuation allowance.

As of December 31, 2011 and 2010, the Company does not have any uncertain tax positions or accrued interest or penalties related to uncertain tax positions. The Company's policy is to recognize interest and penalties related to uncertain tax positions in provision for income tax. The Company does not have any interest or penalties related to uncertain tax positions in provision for income tax during the years ended December 31, 2011, 2010, and 2009. The tax years 1993-2011 remain open to examination by the major taxing jurisdictions to which the Company is subject.

21. Settlements of Disputes and Litigation

As part of the sale in 2002 of the Company's ConsumerInfo division to Experian Holdings, Inc. (Experian), \$10.0 million of the purchase price was put in escrow to secure the Company's indemnification obligations (the Indemnity Escrow). Prior to the termination of the Indemnity Escrow, Experian demanded indemnification from the Company for claims made against Experian or its subsidiaries by several parties in civil actions and by the Federal Trade Commission (FTC), including allegations of unfair and deceptive advertising in connection with ConsumerInfo's furnishing of credit reports and providing Advice for Improving Credit that appeared on its web site both before, during, and after the Company's ownership of ConsumerInfo. On April 20, 2009, the parties settled the dispute and entered into a full release of all claims under which Experian received \$7.4 million from the Indemnity Escrow and the Company received the balance of the escrow of \$1.1 million which was included in Gain on disposition of discontinued operations in the Consolidated Statement of Operations for the year ended December 31, 2009.

In June 2002, Tren Technologies Holdings LLC, (Tren) sued the Company, the National Association of REALTORS® (NAR) and the National Association of Home Builders (NAHB) in the United States District Court, Eastern District of Pennsylvania for patent infringement based on the Company's operation of the REALTOR.com® and HomeBuilder.com® web sites.

In October 2003, Kevin Keithley (Keithley) sued the Company, NAR and NAHB in the United States District Court for the Northern District of California (the District Court) asserting that he was the exclusive licensee of a patent involved in the case brought by Tren, and alleging the same infringement and seeking the same relief as in the Tren action. On May 24, 2006, the court in Pennsylvania dismissed the Tren case without prejudice. On November 19, 2008, the District Court judge issued an order granting the Company's motion for summary judgment and on March 4, 2009, the District Court entered final judgment in favor of the Company. Keithley and Tren appealed the District Court's judgment with the U.S. Court of Appeals for the Federal Circuit and the Company cross-appealed. On May 22, 2009, the parties entered into an agreement resolving the patent infringement claims brought against the Company, NAR and NAHB. Pursuant to the agreement, the Company received a paid up worldwide license to the patent at issue in the case for consideration as recorded in the Consolidated Statements of Operations for the year ended December 31, 2009. The District Court dismissed with prejudice all claims against the Company, NAR and NAHB.

In December 2005, CIVIX-DDI, LLC (CIVIX) filed suit against NAR, the Company, Hotels.com, L.P. and Hotels.com GP LLC in the United States District Court for the Northern District of Illinois, Eastern Division. The complaint alleged that the Company and NAR infringed U.S. Patents 6,385,622; 6,408,307; 6,415,291; and 6,473,692 by offering, providing, using and operating location-based searching services through the REALTOR.com® web site and requested an unspecified amount of damages (including treble damages for willful infringement and

Edgar Filing: MOVE INC - Form 10-K

attorneys' fees) and an injunction. On December 30, 2009, CIVIX and the Company entered into an agreement resolving the patent infringement claims brought against the Company and NAR. Pursuant to the agreement, the Company received a paid up worldwide license to the patents at issue in the case, and NAR received a sublicense for use of the patents at issue in the case on web sites operated by the Company, for consideration as recorded in the Consolidated Statements of Operations for the year ended December 31, 2009. The District Court dismissed with prejudice all claims against the Company and NAR.

On November 12, 2008, Patricia Ramirez on behalf of herself and all other similarly situated California account executives filed a purported class action lawsuit in the Los Angeles Superior Court against Move, Inc., and its subsidiary Move Sales, Inc. asserting failure to fully reimburse business expenses, unlawful wage deductions, failure to timely pay wages due at termination, failure to timely furnish accurate itemized wage statements, unfair business practices and declaratory relief. Subsequent to December 31, 2009, the Company and plaintiff's attorneys agreed to a tentative settlement of all claims brought by Ramirez on behalf of herself and all others in the purported class action. The amount of the settlement was accrued as of December 31, 2009 and was recorded in the Consolidated Statements of Operations for the year ended December 31, 2009. On August 24, 2010, the court entered Judgment of Final Approval of Settlement of Class Action Settlement. The settlement did not have a material effect on the Company's results of operations or cash flows for the year ended December 31, 2009.

22. Commitments and Contingencies

Operating and Capital Leases

The Company leases certain facilities and equipment under non-cancelable operating leases with various expiration dates through 2016. The leases generally contain renewal options and payments that may be adjusted for increases in operating expenses. Leasehold improvement incentives are recorded as deferred obligations and amortized as a reduction in rent expense through the life of the lease. As of December 31, 2011 and 2010, there were no assets or liabilities arising from capital leases obligations. Future minimum lease payments under operating leases as of December 31, 2011 are as follows (in thousands):

Year Ended December 31,	Operating Leases
2012	\$ 5,356
2013	4,251
2014	3,185
2015	2,138
2016 and thereafter	1,569
Total	\$ 16,499

Rental expense from continuing operations for the Company for operating leases was \$4.5 million, \$5.1 million, and \$5.3 million for the years ended December 31, 2011, 2010 and 2009, respectively. Rental expense from discontinued operations was \$0.2 million for the year ended December 31, 2009.

Subsequent to December 31, 2011, the Company entered into an amendment to its existing Scottsdale facility lease which extends the lease expiration to March 2019 in exchange for a reduction in the monthly rental costs. The amendment increases the operating lease obligations by \$5.5 million over the lease term.

Other Commitments

Under the Company's operating agreement with NAR, the Company has an exclusive arrangement to operate REALTOR.com® as well as a license to use the REALTOR.com® domain name and trademark and the REALTORS® trademark in exchange for minimum annual royalty payments. Commitments for the years ending 2012 and beyond will be calculated based on amounts paid in the prior year adjusted for the Annual Consumer Price Index for the period ending in the prior calendar year.

The Company also has a data access agreement with Real Estate Business Services, Inc. (REBS), which provides the Company with a perpetual license to use data related to California real property included in REBS's database on the Company's web sites. In addition, the Company also has various other web services and content agreements providing data for the Company's web sites.

The following presents the Company's future minimum commitments under the above agreements (in thousands):

Year Ending December 31,	
2012	\$ 4,267
2013	2,132
2014	2,132

Edgar Filing: MOVE INC - Form 10-K

2015	2,132
2016	2,132
Total	\$ 12,795

Commitments for the purchase of property, plant and equipment and software maintenance were approximately \$0.3 million as of December 31, 2011.

Legal Proceedings

On February 28, 2007, in a patent infringement action against a real estate agent, Diane Sarkisian, pending in the U.S. District Court for the Eastern District of Pennsylvania (the Sarkisian case), Real Estate Alliance, Limited (REAL), moved to certify two classes of defendants: subscribers and members of the MLS of which Sarkisian was a member, and customers of the Company who had purchased enhanced listings from us. The U.S. District Court in the Sarkisian case denied REAL's motion to certify the classes on September 24, 2007. On March 25, 2008, the U.S. District Court in the Sarkisian case stayed that case, and denied without prejudice all pending motions, pending the U.S. District Court of California's determination in the Move California Action (see below) of whether the Company's web sites infringe the REAL patents.

On April 3, 2007, in response to REAL's attempt to certify the Company's customers as a class of defendants in the Sarkisian case, the Company filed a complaint in the U.S. District Court for the Central District of California (District Court) against REAL, and its licensing agent, Equis Technology Development, LLC, and its principal, Scott Tatro (the Move California Action) seeking a declaratory judgment that the Company does not infringe U.S. Patent Nos. 4,870,576 and 5,032,989 (the REAL patents), that the REAL patents are invalid and/or unenforceable, and alleging several business torts and unfair competition. On August 8, 2007, REAL denied the Company's allegations, and asserted counterclaims against the Company for infringement of the REAL patents seeking compensatory damages, punitive damages, treble damages, costs, expenses, reasonable attorneys' fees and pre- and post-judgment interest. On February 28, 2008, REAL filed a motion for leave to amend its counter-claims, and to include NAR and the NAHB as individual defendants, as well as various brokers including RE/Max International (RE/Max), agents, MLSs, new home builders, rental property owners, and technology providers and indicated that it intended to seek to certify certain defendant classes. On March 11, 2008, REAL filed a separate suit in the District Court (the REAL California Action) alleging infringement of the REAL patents against the same defendants it sought to include in its proposed amended counter-claims in the Move California Action, and also indicated that it intended to seek to certify the same defendant classes. The Company is not named as a defendant in the REAL California Action; however, the Company is defending NAR, NAHB and RE/Max in the REAL California Action. In September, 2008, the court coordinated both cases and issued an order dividing the issues into two phases. Phase 1 addresses issues of patent validity and enforceability, whether Move web sites infringe the REAL patents, damages, and liability of Move, NAR and NAHB. Phase 2 will address REAL's infringement claims related to the web sites owned or operated by the remaining defendants and whether those defendants infringe the Real patents by using the Move web sites. The District Court has stayed Phase 2 pending resolution of the issues in Phase 1.

On November 25, 2009, the court entered its claim construction order in the Move California Action. On January 27, 2010, upon joint request of the parties, the District Court entered a final judgment of non-infringement. In July 2010, REAL filed its brief appealing the District Court's claim construction with the Circuit Court, and in October 2010, the Company filed its opposition. On March 22, 2011, the Circuit Court concluded that the District Court erred in certain of its claim construction and vacated and remanded the case for further proceedings. On October 18, 2011, the parties filed a Joint Brief on Summary Judgment Motions, each side putting forth its arguments requesting the District Court to enter summary judgment in its favor. On January 26, 2012, the District Court entered an order granting the Company's motion for summary judgment of non-infringement of the patent. The Company intends to vigorously defend all claims. At this time, however, the Company is unable to express an opinion on the outcome of these cases.

In March 2010, Smarter Agent, LLC (Smarter Agent) filed suit against Move, Inc., against our affiliate, RealSelect, Inc. (RealSelect), and also against other co-defendants Boopsie, Inc., Classified Ventures, LLC, Hotpads, Inc., IDX, Inc., Multifamily Technology Solutions, Inc., D/B/A MyNewPlace, Primedia, Inc., Consumer Source, Inc., Trsoft, Inc., D/B/A PlanetRE, Trulia, Inc., Zillow, Inc., and ZipRealty, Inc. in the United States District Court for the District of Delaware. The complaint alleges that the Company and RealSelect, Inc. infringe U.S. Patents 6,385,541; 6,496,776; and 7,072,665 (Patents in Suit) by offering an iPhone application for the REALTOR.com® web site and requested an unspecified amount of damages (including enhanced damages for willful infringement and attorneys' fees) and an injunction. On August 31, 2010, co-defendants Boopsie, Inc., Classified Ventures, LLC, Hotpads, Inc., IDX, Inc., Multifamily Technology Solutions, Inc., Primedia, Inc., Consumer Source, Inc., Trsoft, Inc., Trulia, Inc., Zillow, Inc., and ZipRealty, Inc., filed requests for inter partes reexamination of the Patents in Suit with the U.S. Patent and Trademark Office (PTO). On September 30, 2010, the Company filed an answer and counter claims on behalf of Move and RealSelect. On October 22, 2010, SmarterAgent filed its answer to such counter claims. The PTO accepted the Patents in Suit for reexamination and on December 21, 2010, issued an office action rejecting all claims in the Patents in Suit. On March 2, 2011, all parties agreed to stipulate to stay the lawsuit pending the completion of all re-examination proceedings at the USPTO and on March 7, 2011, the court so ordered the stay as requested. The Company intends to vigorously defend all claims. At this time, however, the Company is unable to express an opinion on the outcome of this case.

Contingencies

From time to time, the Company is party to various other litigation and administrative proceedings relating to claims arising from its operations in the ordinary course of business. As of the date of this Form 10-K and except as set forth herein, the Company is not a party to any other litigation or administrative proceedings that management believes would have a material adverse effect on the Company's business, results of operations, financial condition or cash flows.

23. Quarterly Financial Data (unaudited)

Item 9. Changes In and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of December 31, 2011. The term disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Our disclosure controls and procedures are designed to provide reasonable assurance that the controls and procedures will meet their objectives.

Our management, with the participation of the Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this annual report on Form 10-K. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of December 31, 2011, our disclosure controls and procedures were effective at the reasonable assurance level.

Management's Annual Report on Internal Control over Financial Reporting

The management of Move, Inc. (the Company) is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended.

Internal control over financial reporting is a process designed by, or under the supervision of, the Company's Chief Executive Officer and Chief Financial Officer and effected by the Company's Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles. Internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect all misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may change over time.

Move's management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2011. In making this assessment, the Company's management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control-Integrated Framework. Based on our assessment, management believes that, as of December 31, 2011, the Company's internal control over financial reporting is effective based on those criteria.

Move's independent registered public accounting firm has issued an attestation report on the Company's internal control over financial reporting. This report appears below.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM
ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

The Board of Directors and Shareholders of Move, Inc.

We have audited Move, Inc.'s internal control over financial reporting as of December 31, 2011, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Move, Inc.'s management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Move, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2011, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Move, Inc. as of December 31, 2011 and 2010, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2011 and our report dated February 17, 2012 expressed an unqualified opinion thereon.

Item 9B. Other Information

None.

PART III

Information required by Items 10, 11, 12, 13 and 14 of Part III is omitted from this Annual Report and will be filed in a definitive proxy statement or by an amendment to this Annual Report not later than 120 days after the end of the fiscal year covered by this Annual Report.

Item 10. Directors and Executive Officers and Corporate Governance

We will provide information that is responsive to this item not later than 120 days after the end of the fiscal year covered by this Annual Report, in an amendment to this Annual Report, or in our definitive proxy statement under the captions Management, Meetings and Committees of the Board of Directors, Section 16(a) Beneficial Ownership Reporting Compliance, Code of Conduct and Business Ethics and possibly elsewhere therein. That information is incorporated in this item by reference.

Item 11. Executive Compensation

We will provide information that is responsive to this item not later than 120 days after the end of the fiscal year covered by this Annual Report, in an amendment to this Annual Report, or in our definitive proxy statement under the captions Compensation Discussion and Analysis, Executive Compensation, Director Compensation, Compensation Committee Interlocks and Insider Participation, Compensation Committee Report, and possibly elsewhere therein. That information is incorporated in this item by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information under the caption Securities Authorized for Issuance Under Equity Compensation Plans in Item 5 of this Annual Report is incorporated in this item by reference. We will provide information that is responsive to this item not later than 120 days after the end of the fiscal year covered by this Annual Report, in an amendment to this Annual Report, or in our definitive proxy statement under the caption Security Ownership of Certain Beneficial Owners and Management and possibly elsewhere therein. That information is incorporated in this item by reference.

Item 13. Certain Relationships and Related Transactions, and Director Independence

We will provide information that is responsive to this item not later than 120 days after the end of the fiscal year covered by this Annual Report, in an amendment to this Annual Report, or in our definitive proxy statement under the captions Certain Relationships and Related Transactions, Meetings and Committees of the Board of Directors, and possibly elsewhere therein. That information is incorporated in this item by reference.

Item 14. Principal Accounting Fees and Services

We will provide information that is responsive to this item not later than 120 days after the end of the fiscal year covered by this Annual Report, in an amendment to this Annual Report, or in our definitive proxy statement under the caption Fees Billed for Services Rendered by Independent Auditors, and possibly elsewhere therein. That information is incorporated in this item by reference.

PART IV

Item 15. Exhibits and Financial Statement Schedules
