INDEPENDENT ACCOUNTANTS REVIEW REPORT

To the Shareholders and Management of
Companhia de Saneamento Básico do Estado de São Paulo - SABESP
São Paulo - SP

1. We have performed a special review of the accompanying interim financial statements of Companhia de Saneamento Básico do Estado de São Paulo - SABESP (the Company), consisting of the balance sheet as of March 31, 2004, and the related statement of income for the quarter then ended and the performance report, all expressed in Brazilian reais and prepared in accordance with Brazilian accounting practices under the responsibility of the Company's management.
2. We conducted our review in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON), together with the Federal Accounting Council, which consisted principally of: (a) inquiries of and discussions with persons responsible for the accounting, financial and operating areas as to the criteria adopted in preparing the quarterly financial statements, and (b) review of the information and subsequent events that had or might have had material effects on the financial position and operations of the Company.
3. Based on our review, we are not aware of any material modifications that should be made to the financial statements referred to in paragraph 1 for them to be in conformity with Brazilian accounting practices and standards established by the Brazilian Securities Commission (CVM), specifically applicable to the preparation of mandatory interim financial statements.
4. The supplementary information for the quarter ended March 31, 2004, consisting of the financial statements in constant purchasing power, and the statement of cash flows are presented for purposes of permitting additional analyses and are not a required part of the basic financial statements. This supplementary information was reviewed by us in accordance with the auditing procedures mentioned in paragraph 2 and, based on our review, we are not aware of any material modifications that should be made for them to be fairly presented, in all material respects, in relation to the financial statements taken as a whole.
5. We had previously audited the balance sheet as of December 31, 2003, presented for comparative purposes, and issued an unqualified opinion thereon, dated March 25, 2004. The statement of income for the quarter ended March 31, 2003, the supplementary information in constant purchasing power, and the statement of cash flows for the quarter then ended, presented for comparative purposes, were reviewed by other independent accountants, whose special review report thereon, dated May 9, 2003, was unqualified.
6. The accompanying interim financial statements have been translated into English for the convenience of readers outside Brazil.

1. OPERATIONS

Companhia de Saneamento Básico do Estado de São Paulo - SABESP is engaged in the operation of public water and sewage systems in the State of São Paulo, Brazil, providing water and sewage services to a broad range of residential, commercial, industrial and public-sector customers. The Company also provides water on a bulk basis to certain municipalities in the São Paulo Metropolitan Region that do not have water production systems.

The Company provides water and sewage services in 368 municipalities in the State of São Paulo, nearly all of which are through concessions granted by the municipalities. Most of these concessions have 30-year terms, one of which expires in 2004 and the rest between 2005 and 2034. Each of these concessions is automatically renewable for a period equal to its initial term, unless the municipality or SABESP exercises the right to terminate the concession, through notification by either party at least six months prior to its expiration date.

The Company does not have a formal concession to provide water and sewage services in the City of São Paulo, which accounts for a substantial portion of the sales and services rendered. In Santos, a municipality in the Santos Coastal Area which also has a large population, SABESP operates based on a public authorization, like in some other municipalities in the Santos Coastal Area and the Ribeira Valley, where the Company started operating after the merger of the companies that formed SABESP.

2. PRESENTATION OF FINANCIAL STATEMENTS

The interim financial statements have been prepared in accordance with Brazilian accounting practices and standards of the Brazilian Securities Commission - CVM.

3. SIGNIFICANT ACCOUNTING PRACTICES

a) Determination of results of operations

(i) Revenues from sales and services

Revenues are recorded as the services are provided. Unbilled revenue from water supply and sewage collection and treatment services are measured and recorded in accounts receivable, so that costs can be matched against revenues for the period.

(ii) Financial income and expenses

Represented mainly by interest, monetary and exchange variations on loans and financing and investments, calculated and recorded on the accrual basis of accounting.

(iii) Income and social contribution taxes

Recorded on the accrual basis of accounting.

The provisions for income tax and deferred income tax on tax losses and temporary differences are calculated at the base rate of 15%, plus a 10% surtax. Provisions for social contribution tax and deferred social contribution tax on tax losses and on temporary differences are calculated at the rate of 9%.

(iv) Other income and expenses

Recognized on the accrual basis.

b) Temporary cash investments

Substantially represented by Financial Investment Fund (FIF) and Bank Deposit Certificates (CDB), stated at invested amounts plus income earned (on a pro rata basis) to the balance sheet date.

c) Allowance for doubtful accounts

Recognized in an amount considered sufficient to cover probable losses on the realization of receivables. The allowance is recorded in the statement of operations under the caption selling expenses .

d) Inventories

Inventories of materials used in operations and in the maintenance of the water and sewage systems are stated at average cost or realizable value, and are classified in current assets.

Inventories for capital projects are classified under property, plant and equipment and recorded at average cost.

e) Other current and long-term assets

Stated at cost or realizable value plus income earned, when applicable.

f) Permanent assets

Stated at cost, monetarily restated through December 31, 1995, together with the following:

Depreciation of property, plant, and equipment is calculated under the straight-line method at the annual rates indicated in Note 6.

The revaluation of property items, carried out in two stages in 1990 and 1991, was based on an appraisal report issued by independent appraisers and is realized through depreciation, sale, and disposal of the respective assets, with an offsetting credit to Retained earnings .

Financial charges on loans, obtained from third parties, for construction in progress are allocated to the costs of the assets.

Amortization of deferred charges is calculated on the straight-line basis over a period of five years from the date benefits start to be generated.

g) Loans and financing

Restated based on monetary and exchange variations, plus the respective charges incurred to the balance sheet date.

h) Accrued vacations

Accrued vacations and the related charges are recognized as incurred.

i) Reserve for contingencies

Recorded to cover losses on labor, tax, civil, and commercial lawsuits, at administrative and judicial levels, which are considered by legal counsel to be probable and estimable as of March 31, 2004.

j) Environmental costs

Costs relating to ongoing environmental programs are expensed as incurred. Ongoing programs are designed and conducted to minimize the environmental impact of the operations and to manage the environmental risks inherent in the activities. Accruals for these costs are recorded when they are considered to be probable and reasonably estimable.

k) Actuarial liability

The Company sponsors a private defined benefit pension plan. CVM Resolution No. 371 of December 13, 2000 requires the recognition of actuarial liabilities in excess of plan assets. As permitted by this regulation, these liabilities are being recognized over a period of five years starting in 2002.

l) Other current and long-term liabilities

Stated at their known or payable amounts, including, when applicable, charges and monetary variations.

m) Interest on capital

Edgar Filing: COMPANHIA DE SANEAMENTO BASICO DO ESTADO DE SAO PAULO-SABESP - Form 6-K

This interest has been recorded in accordance with Law No. 9249/95 for tax deductibility purposes, calculated on a daily pro rata basis based on the Long-term Interest Rate (TJLP), and recorded in conformity with CVM Resolution No. 207/96.

n) Earnings per thousand shares

Calculated based on the number of shares outstanding at the balance sheet date.

o) Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenues and expenses for the reporting periods. Actual results may differ from those estimates.

4. ACCOUNTS RECEIVABLE

Amounts receivable, except for agreements to refinance past-due accounts receivable, do not include interest, fines or any other charges on past-due bills, summarized as follows:

(i) First Amendment to the Agreement for Debt Acknowledgement, Payment Commitment and Other Clauses

The first Amendment, signed on March 22, 2004, consolidates the State's debt to SABESP, which covers water supply and sewage collection services accounts due to February 2004, in the amount of R\$581,779, monetarily restated based on the Referential Rate (TR) at the end of each year to February 2004. This amount will be audited by the State within 180 days.

SABESP acknowledged a debt to the State for interest on capital related to results for years prior to 2003 in the amount of R\$158,065, restated based on the annual change in the Consumer Price Index (IPC/FIPE) to December each year in which the interest on capital became due, and to February 2004, and of the portion related to results for 2003 in the amount of R\$360,667, which becomes due after the next Annual Shareholders Meeting, totaling R\$518,732.

The State and SABESP will provide reciprocal offset of their receivables up to the limit of R\$360,667, by means of monthly and consecutive installments from June to December 2004. The remaining balance of R\$221,111 of the State's consolidated debt will be paid in 60 equal and consecutive monthly installments, the first of which falling due on May 30, 2004. Part of the interest on capital for the years prior to 2003 will be offset against the first 12 installments, at the nominal amount of R\$44,222. The remaining portion of this amount will be subject to monetary restatement based on the monthly Expanded Consumer Price Index (IPCA-IBGE) plus 0.5% per month, starting in March 2004 and until the month when the respective payment is made or offset, and will be used for settling the water supply and sewage collection bills.

Edgar Filing: COMPANHIA DE SANEAMENTO BASICO DO ESTADO DE SAO PAULO-SABESP - Form 6-K

The debt in the amount of R\$320,623, which refers to the reimbursement for supplementary retirement and pension benefits in the period from March 1986 to November 2001, as established in State Law No. 200/74, is under discussion as set forth in the agreement and will be partially resolved by the transfer of the Alto Tietê Reservoir System, in the amount of R\$300,880, as part of the payment.

The amounts stated in the balance sheet consider the accounts due and monetary restatement up to December 2003.

(ii) Receivables from shareholder

These receivables refer to supplementary pensions and paid leave benefits paid by the Company to former employees of the state-owned companies which were merged to form SABESP. These amounts should be reimbursed by the State Government, which is responsible for fulfilling these obligations, established by State Law No. 200/74. These receivables amounted to R\$185,973 as of March 31, 2004. As of December 31, 2003, these receivables amounted to R\$170,363. They are classified in long-term assets.

(iii) Agreement with the Department of Water and Electric Power (DAEE)

This agreement, signed on April 24, 1997, between DAEE and SABESP has the purpose of establishing joint operations for interconnecting the Tietê River with the Britiba Reservoir and the interconnection of this Reservoir to the Jundiá Reservoir, for optimizing the Alto Tietê Basin by adding 5.0 m3/s of water. DAEE grants a concession to SABESP for the use of the water for a 30-year period.

a) Depreciation

Depreciation is calculated at the following annual rates: buildings 4%; connections 5%; water meters 10%; networks 2%; transportation equipment 20%; furniture, fixtures and equipment 10 to 20%, and other 2 to 20%.

b) Construction in progress

Estimated disbursement for the period from April 2004 to 2009, related to construction works already contracted, is approximately R\$648,000 (unaudited).

c) Disposals of property, plant, and equipment:

In the first quarter of 2004, the Company wrote off property, plant and equipment items in the amount of R\$3,142, which resulted in a loss of R\$2,966 (2003 - R\$31,196), related to items in use, due to obsolescence, theft and sale.

d) Expropriations

As a result of the construction of priority projects related to water and sewage systems, the Company was required to expropriate or establish rights of way in third-party properties, in conformity with the related legislation. The owners of these properties will be compensated either amicably or through the courts. The amount of compensation to be paid starting in the second quarter of 2004, without estimated date for actual disbursement, is estimated at approximately R\$230,000 which will be paid with internal funds. The assets to be received as a result of these negotiations will be recorded as property, plant, and equipment after the transaction is completed. In the first quarter of 2004, the total recorded as property, plant and equipment from expropriations was R\$325 (2003 - R\$976).

e) Tax effects on the revaluation of assets

As permitted by CVM Instruction No. 197/93, the Company did not record accruals for the tax effects (deferred taxes) on the revaluation write-up recorded as a result of the revaluations of property, plant, and equipment carried out in 1990 and 1991. Had this effect been accounted for, the unrealized amount as of March 31, 2004 would be R\$519,201 (2003 - R\$526,900). In the period from January to March 2004, the realization of the revaluation reserve amounted to R\$23,006 (January to March 2003 - R\$52,936).

f) Intangible assets

Starting in 1999, negotiations for new concessions are made on the basis of the economic and financial results of the transaction determined in appraisal reports issued by independent experts.

Edgar Filing: COMPANHIA DE SANEAMENTO BASICO DO ESTADO DE SAO PAULO-SABESP - Form 6-K

The amount defined in the respective contract, after the transaction is closed with the municipal authorities, with payment through Company shares or in cash, is recorded in this account and amortized over the concession period.

b) Deferred Taxes

(i) In current assets

Edgar Filing: COMPANHIA DE SANEAMENTO BASICO DO ESTADO DE SAO PAULO-SABESP - Form 6-K

Mainly calculated on temporary differences totaling R\$11,481 (2003 - R\$11,395). As of March 31, 2004, social contribution tax loss carryforwards are R\$286,776 (2003 - R\$286,776).

(ii) In long-term assets

Mainly calculated on temporary differences totaling R\$572,820 (2003 - R\$533,417) related to income tax, and R\$584,742 (2003 - R\$545,340) related to social contribution tax.

The Company is claiming in court the right to fully offset the tax loss carryforwards without the 30% annual limitation imposed by Law No. 8,981/95; however, the portion offset in the year was within the limitation established in this law. As of March 31, 2004, social contribution tax loss carryforwards total R\$393,884 (2003 - R\$448,548).

In compliance with CVM Resolution No. 273/98 and CVM Instruction No. 371/02, the realization of credits arising from tax loss carryforwards and temporary differences should occur by the end of 2006, based on budget projections, as follows:

Estimated realization

Year	2004	2005	2006	Total
Realization (iii) In long-term liabilities	40%	48%	12%	100%

Mainly calculated on temporary differences totaling R\$261,633 (2003 - R\$255,003) related to income tax and R\$211,527 (2003 - R\$204,897) related to social contribution tax.

c) Reconciliation of the effective tax rate

The amount recorded as income and social contribution tax expense in the financial statements is reconciled to the statutory rates, as shown below:

	1st quarter/2004	1st quarter/2003
Income before taxes on income	178,491	281,618
Cost at 34% statutory rate	(60,687)	(95,750)
Reconciliation:		
Additions:		
Nondeductible realization of the revaluation reserve	(7,822)	(17,998)
Exclusions:		
Interest on capital	13,362	13,653
Other differences	923	(869)
Income and social contribution taxes in the results of operations	(54,224)	(100,964)

The effective tax rate for the quarter was affected by contingent liabilities (customers and suppliers), actuarial liability and realization of the revaluation reserve.

9. PAES Special Installment Payment Plan

The Company applied for enrollment in PAES on July 15, 2003, in accordance with Law No. 10,684 of May 30, 2003, and included in its application the debts related to COFINS and PASEP which were involved in a legal action challenging application of Law No. 9718/98, and the outstanding balance under the Tax Recovery Program (REFIS), amounting to R\$316,953. The debt, which is pending confirmation by the Federal Revenue Authorities, plus interest based on the TJLP, will be paid in 120 months.

After enrolling in the PAES program, from July to March 2004, the Company paid R\$24,657 and accrued R\$22,147 for charges.

The assets pledged as guarantee under the REFIS program, in the amount of R\$249,034, remain as guarantee under the PAES program.

10. PROVISIONS AND CONTINGENCIES

a) Provisions in long-term liabilities

The Company, based on an analysis with its lawyers, recorded a reserve for contingencies in the amount of R\$409,850 (December 2003 - R\$384,571), considered sufficient to cover probable losses in legal actions.

(i) Labor claims - the Company is a defendant in various labor claims, and a significant portion of the involved amounts is under provisional or definitive execution. This amount is thus classified as a probable loss, and a reserve has been duly recorded. The reserve refers mainly to claims concerning overtime payment and health hazard premium, which are currently at various court levels.

(ii) Suppliers - refer to lawsuits filed by service providers arising from construction contracts, which have already been judged by lower courts and await decision on the appeals filed by SABESP.

(iii) Customers - these amounts refer to various lawsuits filed by customers seeking tariff parity, currently in trial or appellate courts, where decisions have been both favorable and unfavorable to the Company.

b) Lawsuits

The Company is a party to judicial and administrative lawsuits related to environmental, tax, civil and labor issues, whose chances of success/loss are considered by legal counsel as possible, and are not being recorded in the Company's accounting books. The amount involved in these lawsuits is approximately R\$572,800 as of March 31, 2004 (R\$459,700 in December 2003).

11. EMPLOYEE ASSISTANCE AND PENSION PLANS

The Company sponsors Fundação Sabesp de Seguridade Social - SABESPREV, established in August 1990 with the primary purpose of managing SABESP employees' supplementary pension plans and assistance plan.

Monthly contributions to the defined-benefit plan are as follows: 2.10% refer to Company's contributions, and 2.10% refer to participating employees' contributions.

The participating employees' contributions mentioned above is an average, since the discount amount varies according to the salary range, from 1% to 8.5%.

The assistance plan provides optional, freely-chosen health plans maintained by contributions from the Company and participants, which were as follows in period:

- Company: 6.21% of payroll, on average.
- Participating employees: 3.21% of base salary and premiums, equivalent to 2.25% of gross payroll, on average.

12. EMPLOYEES' BENEFITS

In order to comply with CVM Resolution No. 371 of December 13, 2000, the amounts of the pension plan benefits granted or to be granted, to which employees are entitled after retirement, are presented below.

As of December 31, 2003, based on the report of the independent actuary, SABESP had a net actuarial liability of R\$305,184 representing the difference between the present value of the Company's obligations to the participating employees, retired employees, and pensioners, and the value of the related assets.

The Company opted to record the liability over a five-year period starting in 2002. The actuarial liability as of March 31, 2004, in the amount of R\$164,649 (2003 - R\$145,540), is recorded in long-term liabilities.

1st quarter 2004

Repass to Sabesprev	3,291
Recorded actuarial liability	19,109
Total recorded	22,400

The amount related to cost of past service is recorded as an Extraordinary item net of taxes.

13. PROFIT SHARING

As a result of negotiations held by the Company with entities representing the employees, a Profit Sharing Program was implemented for the period from July 2003 to June 2004, with the payment of an amount corresponding to up to one month's payroll, depending on achievement of targets.

In December 2003, the Company paid an advance of R\$20,382, equivalent to 50% of one month's payroll. The Company accrued the amount of R\$10,192 for the quarter, recorded in current liabilities, with additional payment scheduled for the end of August 2004.

14. FINANCIAL INSTRUMENTS

(a) Market value of financial instruments

The Company's management calculates the market value of these financial instruments on an annual basis.

(b) Credit risk concentration

A substantial part of sales is dispersed among a large number of customers. In the case of these customers, the credit risk is minimum due to the large portfolio and control procedures, which monitor this risk. Doubtful receivables are properly covered by a provision for loss on their realization.

(c) Foreign currency

Foreign currency operations comprise financing for specific works related to improvement and expansion of the water supply and sewage systems.

16. INDEMNITIES RECEIVABLE

The Municipalities of Diadema and Mauá terminated the concessions for water supply and sewage collection at the beginning of 1995.

In December 1996, the Company filed claims to seek compensation for investments made during the terms of the concession agreements.

Although the Company has not yet been compensated for these investments, water is still supplied on a bulk basis to these municipalities, which currently operate their own water distribution and sewage collection systems.

The net book value of property, plant, and equipment relating to the Municipality of Diadema, written off in December 1996, amounted to R\$75,231, and the claim balance and other receivables from the municipality amounting to R\$62,876 are recorded under long-term receivables as Indemnities receivable .

The net book value of property, plant and equipment relating to the Municipality of Mauá, written off in December in 1999, amounted to R\$103,763, and the claim balance of R\$85,918 is recorded under long-term receivables as Indemnities receivable .

Both claims are pending court decisions, although the legal counsel conducting the litigation expects a favorable outcome for the Company.

As regards the Municipality of Mauá, in February 2003 an examining trial was held. Presently, the case is awaiting the judge's decision as to the significance of the queries resulting from the examining trial.

After this phase, the usual procedure is that the parties manifest their intent, and subsequently the case is sent for judgment. In June 2003, the records were taken away by the judicial expert, who still holds them.

As regards the Municipality of Diadema, there are various claims challenging the settlement reached by the parties, including a class action and an action for annulment, both of which were judged in favor of SABESP.

17. SHAREHOLDERS EQUITY

a) Authorized capital

The Company is authorized to increase its capital up to a maximum of R\$4,100,000, corresponding to 40,000,000,000 registered common shares without par value.

b) Subscribed and paid-up capital

Subscribed and paid-up capital is represented by 28,479,577,827 registered common shares without par value, held as follows:

Shareholders	March 2004		December 2003	
	Number of shares	%	Number of shares	%

c) Remuneration of shareholders

Shareholders are entitled to a mandatory minimum dividend distribution of 25% of adjusted net income, calculated in conformity with Brazilian corporate law.

Interest declared in 2004 will be paid up to 60 days after the Annual Shareholders Meeting that approves the balance sheet.

d) Capital reserve

Comprises tax incentives and donations from government entities.

e) Revaluation reserve

As permitted by CVM Instruction No. 197/93, the Company opted not to recognize income and social contribution taxes on the revaluation reserve for property, plant and equipment items recorded up to 1991.

The revaluation reserve is transferred to retained earnings in proportion to the depreciation and disposal of the respective assets.

18. INCENTIVE PROGRAM FOR WATER CONSUMPTION REDUCTION

SABESP has implemented the Incentive Program for Water Consumption Reduction, the purpose of which is to encourage the population of the São Paulo Metropolitan Area to reduce water use, in order to help face the water shortage caused by the low rainfall levels and the resulting low water levels in the reservoirs that supply the region.

The program will encompass the municipalities of the Metropolitan Region supplied by the metropolitan aqueduct system and will be effective for six months starting March 15, 2004.

A 20% discount on the water bill, or on the water and sewage bill, will be granted in the months when consumption is reduced by 20% in relation to the average consumption calculated by SABESP, based on the consumption in the same period of the previous year.

05.01. Comment on the Company's Performance in the Quarter

1. Sabesp had a 9.5% increase in revenue while EBITDA remained unchanged.

(R\$ million)			
Main indicators	1Q03	1Q04	Variation
Net operating revenue	993.5	1,087.4	9.5%

(*) Earnings before interest, taxes, depreciation and amortization.

Sabesp had a net revenue of R\$1,087.4 million, and EBITDA of R\$525.3 million in 1Q04. Net income for the period, of R\$115.5 million, was mainly due to increase in operating revenue.

2. Operating revenue 9.5% growth

Net operating revenue increased by R\$93.9 million or 9.5%, as a result of the 18.95% tariff adjustment starting August 29, 2003.

The volumes of retail water and sewage billed decreased 2.6%, influenced by the strong campaign for rational use of water, in order to face the low levels of the reservoirs that feed the São Paulo Metropolitan Region.

The tables below show the volume of retail water and sewage billed according to the user category and region, in the first quarters of 2003 and 2004:

3. Costs, Administrative and Selling Expenses

Costs, Administrative and Selling Expenses increased R\$104.0 million or 17.3%. The main differences were as follows:

(R\$ million)

	1Q03	1Q04	Difference	%
Payroll and related charges	215.3	253.3	38.0	17.7
General supplies	19.3	20.2	0.9	4.7

Tax expenses	6.4	6.8	0.4	6.3
Costs, administrative and selling expenses	601.6	705.6	104.0	17.3

3.1. Payroll and related charges

Payroll and related charges increased by R\$38.0 million or 17.7%. This growth was mainly due to the following factors:

- a) A 14.5% increase in salaries, benefits and payroll charges after May 2003, as a result of the collective labor agreement;
- b) Allocation of 2% of payroll to employees' salary adjustment (starting September 2003), related to the Competency-Based Management Plan.

3.2. General supplies

General supplies increased by R\$0.9 million or 4.7%, mainly in relation to maintenance of residential connections and Company's networks.

3.3. Outside services

Services increased by R\$10.0 million or 12.7%, as a result of increases in advertising and publicity, and professional technical services.

3.4. Electric power

Electric power increased by R\$21.6 million or 28.7%, due to the following factors:

- a) Consumption growth from 509,233 MWh (1Q03) to 513,928 MWh (1Q04), or 0.9 %;
- b) A 0.45% growth due to collection of the Emergency Capacity Charge (ECE), resulting in an increase from R\$5.7 /MWh to R\$8.5 /MWh;
- c) Adjustments authorized by ANEEL for several electric energy concessionaires that provide services to Sabesp, with a weighted average increase in electric energy tariffs of 15.69% between April 2003 and March 2004.
- d) Estimated consumption, based on water meter reading by the concessionaires.

3.5. General expenses

General expenses increased by R\$7.4 million or 33.9%, mainly as a result of reserves for environmental contingencies.

3.6. Depreciation and amortization

Depreciation and amortization increased by R\$9.9 million or 7.4%, due to the addition, to the Company's property, plant and equipment in use, of construction in progress, mostly in the first quarter of 2004.

4. Financial Expenses and Monetary Variations on Liabilities

a) Financial Expenses

Financial expenses decreased by R\$40.3 million or 17.1%, due to:

- Interest, fines and late payment charges on loans and financing in local currency, with a R\$22.2 million decrease, originated from a decrease in the CDI rate, used in the calculation of debenture remuneration.
- Interest, fines and late payment charges on loans and financing in foreign currency, with a R\$8.9 million decrease, originated from a decrease in interest, explained by a reduction of the debt balance, in view of the US dollar exchange rate at the comparative quarters.
- Income tax on remittances abroad, with a R\$6.7 million decrease, originated from payment of interest on Eurobonds in January 2003.

b) Exchange and Monetary Variations on Liabilities

Exchange and monetary variations on liabilities decreased by R\$148.0 million, due to the 5.1% appreciation of the Brazilian real against the US dollar in 1Q03 when compared to the 0.67% devaluation in 1Q04, which affected loans denominated in foreign currency.

5. Operating indicators

As shown in the table below, the Company is still expanding its services. The inclusion of the municipality of São Bernardo do Campo generated a significant increase in the number of water and sewage connections when compared to the prior year.

Main Operating Indicators	1Q03	1Q04	%
Water connections (1)	5,935	6,231	5.0
Sewage connections (1)	4,349	4,621	6.3

6. Funding operations

Sanitation Program

- Severance Pay Fund (FGTS) - 2003

In 2003, SABESP signed 16 financing agreements for water and sewage construction work with FGTS funds, whose financial agent is the federal savings bank - Caixa Econômica Federal, subject to interest of 8.0% p.a. + Reference Rate (TR) for water, and 6.5% p.a. + TR for sewage, plus management fee of 2% p.a. and credit risk rate from 2 to 2.5% p.a., with a maximum grace period of 36 months and an amortization period of 180 months. Funds in the amount of R\$ 324.5 million were financed for a R\$ 361 million investment, of which R\$ 36.5 million was provided from the Company's own funds.

Sanitation Program - 2004

SABESP has filed with the Ministry of Cities, through Caixa Econômica Federal - financial agent of the FGTS, a request to obtain financing for 40 new projects in the amount of R\$ 714.2 million (total investment of R\$ 794.6 million), under the Water and Institutional Development formats. The consultation letters referring to the 40 projects are with the Ministry of Cities (FGTS fund management body) for first selection, seeking to contract the credit operation by the end of May 2004, in accordance with National Monetary Council Resolution No. 3,191 of April 29, 2004.

BNDES

SABESP is concluding all the procedures for the signing, in the second half of 2004, of a R\$ 300 million new financing, of which R\$ 140 million is for payment of the federal government's contribution to the Environmental Recovery Program of the Santos Metropolitan Region,

Edgar Filing: COMPANHIA DE SANEAMENTO BASICO DO ESTADO DE SAO PAULO-SABESP - Form 6-K

which will be financed by the JBIC for sewage projects, and R\$ 160 million to finance water projects contractually agreed upon by the JBIC for the Santos Metropolitan Region. The payment conditions will be 4.5% p.a. (3% p.a. + 1.5% p.a. of credit risk rate) + TJLP (Long-Term Interest Rate) for water, and 2.5% p.a. (1% p.a. + 1.5% p.a. of credit risk rate) + TJLP for sewage, with a 10-year term, including a 3-year grace period.

Japan Bank for International Cooperation (JBIC)

SABESP concluded negotiations with the JBIC to obtain financing in the amount of ¥ 21,320 million, equivalent to R\$ 571.5 million, for the Environmental Recovery Program of the Santos Metropolitan Region, a project involving ¥ 39,221 million, equivalent to R\$ 1,051.4 million, with SABESP contributing ¥ 17,901 million, equivalent to R\$ 479.9 million.

The Legislature of the State of São Paulo passed Law No. 10,820/01, granting a counter-guarantee to the Federal Government's guarantee. The financing has already been approved by COFIEEX (Foreign Financing Commission), the Federal Government body that reviews and approves credit operations with foreign government agencies.

In August 2003, the Agreement based on Exchange of Diplomatic Notes was signed between the representatives of the governments of Brazil and Japan. This agreement was sent to the National Congress and was approved by the Chamber of Deputies, and is currently pending approval in the Federal Senate (Presidential Message No. 700/2003).

The operation's financial conditions have already been duly approved by the Company's Executive Board and Board of Directors.

The process related to the granting of the guarantee by the Federal Government to the JBIC will be submitted for approval by the Federal Senate. The respective process is undergoing final analysis in the National Treasury Secretariat (STN) and the Attorney General of the National Treasury (PGFN).

The program was included in the State's budget for fiscal year 2004, Law No. 11,607, of December 29, 2003, and the Budget Guidelines Law, for fiscal year 2004, Law No. 11,437, of July 16, 2003.

The main future events are the signing of the financing agreement between SABESP and JBIC, scheduled for June 2004, following the finalization of the process of contracting the Program Manager.

7. Settlement of Loans and Financing

Total debts payable through the yearend amount to R\$883 million, of which only 26.5% are indexed to the US dollar.

2. SUPPLEMENTARY INFORMATION IN CONSTANT PURCHASING POWER

a) Restatement index

The restatement of permanent assets, shareholders equity, income and expense accounts, and the calculation of gains and losses on monetary items was based on the Accounting Monetary Unit (UMC), which considers as a basis the General Market Price Index (IGP-M), which was 2.72% for the quarter.

b) Balance sheet accounts

Monetary assets and liabilities shown in the financial statements in constant purchasing power are the same as those shown as under corporate law, except accounts receivable from customers, accounts payable to suppliers and contractors, and deferred income and social contribution taxes in long-term liabilities, which are adjusted to reflect the purchasing power or realization value in currency as of March 31, 2004, taking as a basis the rate disclosed by the National Association of Investment Banks and Securities Dealers (ANBID).

Permanent assets and shareholders equity have been adjusted based on the monthly change in the UMC, which was restated based on the IGP-M index through March 31, 2004.

c) Income and expense accounts

All income and expense accounts were restated using the UMC from the month originally recorded, adjusted according to inflationary gains and losses calculated on the monthly beginning and ending balances of the monetary assets and liabilities generating financial income and expenses or nominal inflationary gains and losses which were considered as reductions of the income and expense accounts to which they are linked.

d) Deferred taxes

Deferred income and social contribution taxes were calculated based on the 15% tax rate plus surtaxes of 10% and 9%, respectively, on the increased value of the permanent asset items arising from their monetary restatement, in accordance with CVM instructions included in Pronouncement No. 99/006 from IBRACON (Brazilian Institute of Independent Auditors).

The amounts are in constant purchasing power as of March 31, 2004.

3. NATIONAL BANK FOR ECONOMIC AND SOCIAL DEVELOPMENT (BNDES)

SABESP is concluding all the procedures for the signing, in the second half of 2004, of R\$ 300 million in new financing, of which R\$ 140 million is allocated for payment of the federal government's contribution to the Environmental Recovery Program of the Santos Metropolitan Region, which will be financed by the JBIC for sewage projects, and R\$ 160 million to finance water projects contractually agreed upon by the JBIC for the Santos Metropolitan Region. The payment conditions will be 4.5% p.a. (3% p.a. + 1.5% p.a. of credit risk rate) + TJLP (Long-Term Interest Rate) for water, and 2.5% p.a. (1% p.a. + 1.5% p.a. of credit risk rate) + TJLP for sewage, with a 10-year term, including a 3-year grace period.

This agreement should comply with the same covenants applicable to current agreements, such as:

- Adjusted current liquidity: current assets on current liabilities, less the current portion of the long-term debt, should be higher than 1.0;
- EBITDA/net operating revenue: equal to or higher than 38%;
- Total water and sewage connections/own employees: equal to or higher than 520;
- EBITDA/adjusted debt service (interest and incurred financial expenses on financial debt): equal to or higher than 1.5;
- Shareholders' equity/total liabilities: equal to or higher than 0.8.

1. We have performed a special review of the accompanying interim financial statements of Companhia de Saneamento Básico do Estado de São Paulo - SABESP (the Company), consisting of the balance sheet as of March 31, 2004, and the related statement of income for the quarter then ended and the performance report, all expressed in Brazilian reais and prepared in accordance with Brazilian accounting practices under the responsibility of the Company's management.
2. We conducted our review in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON), together with the Federal Accounting Council, which consisted principally of: (a) inquiries of and discussions with persons responsible for the accounting, financial and operating areas as to the criteria adopted in preparing the quarterly financial statements, and (b) review of the information and subsequent events that had or might have had material effects on the financial position and operations of the Company.
3. Based on our review, we are not aware of any material modifications that should be made to the financial statements referred to in paragraph 1 for them to be in conformity with Brazilian accounting practices and standards established by the Brazilian Securities Commission (CVM), specifically applicable to the preparation of mandatory interim financial statements.
4. The supplementary information for the quarter ended March 31, 2004, consisting of the financial statements in constant purchasing power, and the statement of cash flows are presented for purposes of permitting additional analyses and are not a required part of the basic financial statements. This supplementary information was reviewed by us in accordance with the auditing procedures mentioned in paragraph 2 and, based on our review, we are not aware of any material modifications that should be made for them to be fairly presented, in all material respects, in relation to the financial statements taken as a whole.
5. We had previously audited the balance sheet as of December 31, 2003, presented for comparative purposes, and issued an unqualified opinion thereon, dated March 25, 2004. The statement of income for the quarter ended March 31, 2003, the supplementary information in constant purchasing power, and the statement of cash flows for the quarter then ended, presented for comparative purposes, were reviewed by other independent accountants, whose special review report thereon, dated May 9, 2003, was unqualified.
6. The accompanying interim financial statements have been translated into English for the convenience of readers outside Brazil.
