**1. OPERATIONS**

Companhia de Saneamento Básico do Estado de São Paulo - SABESP (the Company) is engaged in the operation of public water and sewage systems in the State of São Paulo, providing water and sewage services to a broad range of residential, commercial, industrial and government customers. The Company also provides water on a wholesale basis to certain municipalities in the São Paulo Metropolitan Region that do not have water production systems.

With the enactment of Law 12292 on March 2nd, 2006, the Company was authorized to provide water and sewage services outside the State of São Paulo, including in other countries, either directly or through national or international consortia, being also able to have equity interest in other State owned or mixed capital companies, as well as to set up subsidiaries.

The Company's shares are listed on the São Paulo Stock Exchange (BOVESPA) in the New Market segment since April, 2002, and on the New York Stock Exchange - NYSE, in the form of ADRs (American Depositary Receipts) since May, 2002.

The Company provides water and sewage services in 366 municipalities in the State of São Paulo, mostly through concession contracts valid for a period of 30 years. Of 174 concessions expired and to expire up to December 31, 2007, 50 concessions were renewed for additional 30 years. Under the same contractual conditions, 2 concessions expiring up to December, 2007 and 14 expiring between 2008 and 2030 were renewed before their expiration date, totaling 66 new contracts. There still are contracts under negotiation with 122 municipalities. Between 2008 and 2037, 136 concessions will expire and 42 juridical relations with municipalities where the Company operates without a determinate period of time. Management expects that all these juridical relations will result in new contracts or extensions, ruling out the risk of discontinuity of municipal water and sewage service provision. As of September 30, 2007 the book value of the property, plant and equipment used in the 122 municipalities under negotiation was R\$1.76 billion, and the revenue from these concessions for the period ended September 30, 2007 was R\$652 million.

The Company does not hold a formal concession to provide water and sewage services in the City of São Paulo, which accounts for 56.4% of the sales and services rendered. In Santos, a municipality located in the Santos Coastal Area, which also has a large population, the Company operates under a public deed of authorization, like in some other municipalities in the Santos Coastal Area and in the Ribeira Valley, where the Company started operating after the merger of companies that formed SABESP.

On January 5, 2007 the Law nr. 11,445 was enacted establishing the regulatory framework of basic sanitation with the national guidelines and the fundamental principles to the rendering of services, like the social control, the

transparency, the integration command of the sanitation infrastructure, the management of hydro resources, as well as the command for the articulation of the industry with the public policies of urban and regional development, housing, combat and eradication of poverty, health promotion and environmental protection, among other related ones. The regulatory mark seeks also the improvement to the quality of life with efficiency and the economic sustainability, making possible the adoption of gradual and progressive solutions coherent to the user's payment capability.

As benefits to the Company, the law:

- Clarifies the conditions for the transitory of the services, changing article 42 of the Concessions Act to determine to the Conceding Power to perform evaluations, surveys and payment of indemnification previously to the reversal of assets, as validation condition to the subsequent municipal acts;
- Significantly reduces the possibility of success in the judicial measures adopted for the resume of services in a sudden way and without indemnification;
- Aims the improvement of the achievement of public interests related to the environment and it favors the state planning of the services without disregarding the local peculiarities, considering the need of the Municipalities to present sanitation plans, compatible with the plans of the hydrographic basins; and
- Imposes the indication of the regulating entity and the publishing of regulatory norms that allow more clarity and efficiency in the inspection of services, as well as the providing itself, safeguarding and compatibilizing the different interests of the consumer and the contracting parties.

The information about area of concession, number of municipalities, volume of water and other related data disclosed in this report that do not arise from the accounting and/or financial statements are not revised by the independent auditors.

## **2. PRESENTATION OF FINANCIAL STATEMENTS**

The Company's financial statements, which are used as the basis for determining income taxes and mandatory minimum dividends calculations, have been prepared in accordance with accounting practices adopted in Brazil, which are based on the Brazilian Corporate Law (Law No. 6,404/76 and amendments), the rules and regulations of the Brazilian Securities Commission - CVM and the accounting standards issued by the Brazilian Institute of Independent Auditors - IBRACON.

The Quarterly Information (ITR) were prepared according to principles, practices and criteria consistent with those adopted in the preparation of financial statements of December 31, 2006 and must be read together with them.

The financial statements for the third quarter and from January to September, 2006 were reclassified for purposes of better presentation and maintenance of comparison as described below:

- Expenses on water meter reading and delivery of bills, collection of water bills and indemnification for damages to third parties, in the amount of R\$12,013 in the third quarter of 2006 (R\$31,029 from January to September 2006) have been reclassified from costs of sales and services to selling expenses in the amount of R\$2,721 in the third quarter of 2006 (R\$7,667 from January to September 2006) and to administrative expenses in the amount of R\$9,292 in the third quarter of 2006 (R\$23,362 from January to September 2006).

### (i) Water and sewage services

The Company provides water and sewage services to the State of São Paulo Government and its related agencies under terms and conditions that management believes are equal to those with third parties, except for the settlement of amounts outstanding, as described further below in items (iii) and (iv).

### (ii) Reimbursement for pension and benefits paid.

Reimbursement for pension and benefits paid represents supplementary pension and leave benefit paid by the Company to former employees of State Government-owned companies which merged to form SABESP. These amounts should be reimbursed to the Company by the State Government, as the primary obligor, in conformity with

Law No. 200/74. At September 30 and June 30, 2007, 2,651 and 2,666 retirees, respectively, received supplementary pension payments, being that in the quarters ended on September 30 and June 30, 2007 the Company paid R\$ 24,300 and R\$ 24,407, respectively. On September 30 and June 30, 2007 there were 144 active employees that will be allowed to these benefits at occasion of their retirement.

(iii) GESP Agreement

On December 11, 2001, the Company entered into an agreement with the State of São Paulo Government, through the State Department of Finance and the State Department of Water and Energy - DAEE, having the State Department of Water Resources, Sanitation and Works as intervening party, under which the State Government, by force of Law no 200/74, acknowledged to be responsible for the benefit arising out of supplementation of retirement and pension payments and agreed to pay amounts it owed to the Company in respect of water and sewage services. The value to date of the Agreement was R\$678,830, of which R\$320,623 refer to supplemental retirement and pension benefits in the period from March 1986 until November 2001, and R\$358,207 refer to water supply and sewage collection services invoiced and due from 1985 until December 1, 2001.

Considering the strategic importance of Taiapuêba, Jundiá, Biritiba, Paraitinga and Ponte Nova reservoirs, for ensuring the volume of water of the Alto Tietê System to be maintained, the Water and Electric Power Department - DAEE intends to transfer these properties to the Company to reduce the amounts owed to the Company. The reservoirs evaluation works has been completed and approved by the Board of Directors of the Company, which works indicated an amount of R\$300,880 (base date - June, 2002), as shown in the respective report. There is a public civil action at the Court of Justice of the State of São Paulo involving the transfer of these reservoirs. The Company's legal counsels assess the risk of loss from the lawsuit as probable, which would prevent the transfer of the respective reservoirs as partial amortization of the balance receivable.

Based on official notice no. 53/2005 of the State Capital Defense Council - CODEC, dated March 21, 2005, negotiations have restarted between the Company and the State Government with a view to restate the debt for supplementary retirement and pension benefits, under the terms defined in the GESP agreement, including amounts due after November, 2001. These negotiations shall result in a second amendment to the Agreement between the State Government and Sabesp. The Company shall retain Fundação Instituto de Pesquisas Contábeis, Atuariais e Financeiras, USP - FIPECAFI to validate the actual values to be reimbursed by the State Government, taking into account the legal advice provided by the General Office of the State Attorney.

Once the amounts and any monetary adjustment criterion are established, SABESP will be able to take applicable actions in order to start the process of receiving of the amounts due by the Government of the State of São Paulo.

It is not possible to determine the net effects on the balance sheet resulting from such negotiation. Management does not expect to incur significant net losses relating to any differences between the amounts recorded as due from the State Government and the amounts actually paid by Sabesp.

The balances for water and sewage services were included in the 1<sup>st</sup> amendment, as described below (iv).

(iv) First Amendment to GESP Agreement

On March 22, 2004, the Company and the State Government amended the terms of the original GESP Agreement, thereby (1) consolidating and acknowledging amounts due from the State Government for water and sewage services through, monetarily adjusted through February 2004; (2) formally providing for the offset of amounts due from the State Government against interest on shareholders' equity declared by the Company and any other debt owed to the State Government at December 31, 2003, which were monetarily adjusted through February 2004; and (3) defining the payment terms of the remaining obligations of the State Government for water and sewage services.

Under the terms of the Amendment, the State Government acknowledged amounts due to the Company for water and sewage services provided through February 2004, in the amount of R\$581,779, including monetary adjustments based on the Reference Rate ( TR ) at the end of each fiscal year through February 2004. The Company acknowledged amounts due to the State Government with respect to interest on shareholders' equity of R\$518,732, including (1) amounts declared and paid relating to years prior to 2003 (R\$126,967), (2) monetary adjustments on these amounts based on the annual change in the Consumer Prices Index (IPC/FIPE) through February 2004 (R\$31,098); and (3) amounts declared and paid relating to 2003 (R\$360,667).

The Company and the State Government have agreed to the reciprocal offset of R\$ 404,889 (monetarily adjusted through February 2004). The remaining balance of R\$ 176,890 as of February 29, 2004 will be payable in monthly installments from May 2005 through April 2009, which will be subject to monthly monetary adjustment at the Expanded Consumer Price Index (IPCA/IBGE), plus interest of 0.5% .

The State Government did not pay the installments due from April to September, 2007.

The Amendment to the GESP Agreement does not provide for amounts owed by the State Government for supplementary retirement and pension plan benefits, paid by the Company on behalf of the State Government. Such amounts continue to be subject to the terms of the original GESP Agreement.

Management believes that the amounts owed by the State Government shall be received and it is not estimated that losses will be incurred with such accounts receivable.

(b) Cash and cash equivalents

The Company's balance of cash and short-term investments accounts with financial institutions controlled by the State Government was R\$404,143 and R\$478,863 at September 30 and June 30, 2007, respectively. The financial income from such investments was R\$39,643 and R\$39,628 in the periods ended September 30, 2007 and 2006, respectively. The Company must, by force of State Decree, invest its excess resources together with financial institutions controlled by the State.

(c) Arrangements to use certain reservoirs

The Company uses the Guarapiranga and Billings reservoirs and a portion of some of the reservoirs of the Alto Tietê System, which are owned by the State Department of Water and Energy - DAEE; in case these reservoirs were not available for the Company's use, there could have been the need to obtain water in more distant locations. The Company does not pay any fees with respect to the use of these reservoirs, but is responsible for maintaining and funding the operating costs of these reservoirs.

(d) Contracts with reduced Fare for State and Municipal Public Entities that adhere to the Program of Rational Use of Water

The Company has entered into contracts with public entities related to the Government of the State and to the municipalities involving approximately 7,100 real estates that are benefited with a 25% tariff reduction for water and sewage services. The contract provides for the implantation of the program of rational use of water, which considers the reduction in water consumption.

(e) Guarantees

The Government of the State of São Paulo extends guarantees for some loans and financings of the Company and it does not charge any fee related to them.

(f) Transaction between the parties

Management is doing its best efforts to keep in permanent basis the payments of the State with regards to transactions between the parties.

## **5. INDEMNIFICATIONS RECEIVABLE**

Indemnifications receivable is a non-current asset represented by amounts receivable from the municipalities of Diadema and Maua as indemnification for the unilateral withdrawal of the concessions of water and sewage services from the Company in 1995. On September 30 and June 30, 2007, this asset amounted to R\$148,794.

In view of these concession contracts, the Company invested in the construction of water and sewage systems in those municipalities to meet their commitments of concession service. Due to the unilateral breach of the concessions of Maua and Diadema, the municipalities assumed the responsibility to provide water and sewage services in those areas. At that moment, the Company reclassified the balances of property, plant and equipment related to the assets used in those municipalities to non-current assets (indemnifications receivable), and recorded non indemnification costs to reflect the assets at their estimated recoverable amounts, contractually agreed upon as indemnification by the Company before the relevant authorities. The residual value of the property, plant and equipment items related to the municipality of Diadema, written-off for accounting purposes in December 1996 was R\$75,231, and the balance of indemnification and other credits receivable from the municipality was R\$62,876 on September 30, 2007. The residual value of the property, plant and equipment items related to the Municipality of Maua, written off in the fiscal year of 1999 was R\$103,763 and the balance of indemnification receivable from the municipality was R\$85,918 on September 30, 2007.

The Company's rights to the recovery of these amounts are being disputed by the municipalities and no amount has been received up to the date.

Sabesp filed judicial demands to collect the amounts due by the municipalities. With regards to Diadema, the first court level judge decided against Sabesp, against which there was an appeal in November 2000. On December 1, 2005 a partial acceptance to Sabesp's appeal was granted to declare the validity of the agreement entered into with the municipality of Diadema. On October 11, 2006 the City Hall filed special and extraordinary appeals, and on November 21, 2006 the decision allowing the Company to present its responses to the referred appeals was published, which has been done on December 6, 2006. The appeals were rejected by the President of the Court of Justice on March 27, 2007 and against this decision the municipality filed new interlocutory appeal. The appeal of the Municipality to the STF was accepted only with the purpose to determine the judgment of the extraordinary appeal that had been rejected.

With regards to Mauá, a first court level decision was given requiring that the Municipality pay an amount of R\$ 153.2 million as compensation for the loss of profits. This decision was appealed by Mauá on April 15, 2005 and it is still pending a decision by the Court of Justice. On July 4, 2006, the sentence was converted into a diligence comprised by an expert clarification about the amount attributed for indemnification purposes, which has not yet been provided by the expert.

Based on the legal counsel opinion, Management continues to affirm that the Company has legal right to receive the amounts corresponding to the indemnification and it continues to monitor the situation of the legal proceedings. However, the ultimate amounts to be received, if any, will most likely be subject to a final court decision.

---------------	------------	-------------	------------	------------

The property, plant and equipment in operation represents the items involved in the service rendering of water supply and sewage collection in 350 municipalities. In the other municipalities (those negotiated by financial-economic appraisal), Sabesp holds the possession of the items.

(a) Depreciations

The depreciation is calculated at the following annual rates:

Structures (buildings and structures) - 4% connections (residential connections) - 5%; networks (interceptors and networks) - 2%; equipment (information technology - 20%; machinery and other equipment - 10%); hydrometers - 10%; transportation equipment - 20%, furniture, fixtures and equipment - 10% and other fixed assets - between 2% and 20%. When applicable, the depreciation rates are adjusted to take into consideration the change in the remaining estimated economic life of the assets to the extent they are replaced.

(b) Disposals of property, plant and equipment

The Company has written-off, in the third quarter, 2007 and from January to September, 2007, items of fixed assets in the amount of R\$4,057 and R\$8,448, respectively (in the third quarter and from January to September, 2006 - R\$4,470 and R\$7,972, respectively), resulting in total loss the amount of R\$3,838 and R\$8,229 (in the third quarter and from January to September, 2006 - R\$3,192 and R\$5,513), related to the group of operating fixed assets, caused by obsolescence, thefts and disposal.

(c) Capitalization of interests and financial charges

The Company capitalized interests and monetary variation, including foreign currency exchange variation, to property, plant and equipment in the amount of (R\$2,222) in the third quarter of 2007 (in the third quarter of 2006 - R\$ 9,211), during the period in which the related assets were under construction.

(d) Construction in progress

Disbursements from the fourth quarter of 2007 to 2012, related to construction works already contracted are estimated to be approximately R\$1,470,000 (unaudited).

(e) Expropriations

As a result of the implementation of priority projects related to the water and sewage systems it was necessary to expropriate or establish rights of way through third-party properties, all in conformity with the relevant legislation. The owners of these properties will be compensated either through negotiated settlements or judicial arbitration. Disbursements to be effected as from the fourth quarter of 2007 are estimated to be approximately R\$472,000 (unaudited). The related assets acquired as a result of these negotiations are recorded as property, plant and equipment when the expropriation is complete. The total amount paid relating to expropriations of property, plant and equipment in the third quarter of 2007 was R\$780 (R\$663 - in the third quarter of 2006).

(f) Assets in guarantee

At September 30, 2007, the Company had assets in the amount of R\$249,034 provided as guarantee under the Special Tax Debt Refinancing Program - PAES (Note 10).

Additionally, three of the Company's real estates, in the amount of R\$ 60,539 have been pledged as guarantee for financing together with the International Bank for Reconstruction and Development - Bird.

(g) Non-operating assets

The Company had R\$26,478 at September 30 and June 30, 2007 referring to other non-operating assets given as free leases, comprised primarily of lands surrounding reservoirs.

(h) Revaluation

Property, plant and equipment items were revaluated in 1990 and 1991 and have been depreciated at annual rates which take into consideration the estimated remaining economic useful lives of the assets as determined in the respective valuation reports that, as a rule, fall within the ranges of the above presented rates.

As permitted by CVM Instruction 197/93, the Company did not record a provision for the tax effects (deferred taxes) on the surplus of the revaluation of property, plant and equipment carried out in 1990 and 1991. Had the income tax and social contribution on the revaluation reserve been accounted for, the unrealized amount at September 30, 2007 would be R\$408,052 (R\$438,042 in September 30, 2006). The amount of R\$65,785 was realized in the period from January to September, 2007 (January to September, 2006 - R\$70,070).

(i) Totally depreciated assets

On September 30 and June 30, 2007 the gross accounting value of the totally depreciated assets which are still in use is R\$594,196 and R\$585,829, respectively.

## 7. INTANGIBLE ASSETS

As of the year 1999, the negotiations related to new concessions started to become operational, considering the financial and economic result of the business, defined in appraisal report issued by independent experts.

The amount defined in the respective contracting instrument, after the celebration of the deal together with the municipality, with the realization by means of underwriting stock of the Company or in cash, it is registered under this line item and amortized over the concession period (normally on a 30-year term). On September 30 and June 30, 2007 there was no pending amount related to these payments to the municipalities.

The net disclosed amount refers to the assumption of the following municipalities:

Management, based on an analysis conducted together with its legal counsel, recorded a provision considered sufficient to cover probable losses on lawsuits. Amounts related to lawsuits in the stage of judgment execution include R\$62,386 (June 2007 - R\$39,568), net of escrow deposits in the amount of R\$5,966 (June 2007 - R\$ 7,781), in current liabilities, under the caption Provisions , and R\$586,328 (June 2007 - R\$627,866), net of escrow deposits in the amount of R\$10,742 (June 2007 - R\$4,146), in noncurrent liabilities under the caption Provisions .

(i) Customer claims - approximately 1,130 claims from customers have been filed by commercial customers claiming that their tariffs should be equal to those of other categories of consumers and, consequently, claim the refund of amounts imposed and charged by the Company. The Company has obtained final decisions, both favorable and adverse, in several different court levels, and has recorded provisions for cases whose risk of loss has been assessed as probable.

(ii) Contractor claims - Filed by certain construction service contractors alleging underpayment of monetary adjustments, withholding of amounts relating to the effects of the Real Plan and monetary losses from economic-financial unbalance in the applicable contract. These lawsuits are in progress in several different court levels, and provisions are recorded for cases with probable chance of loss.

(iii) Other civil claims - Refer to claims for indemnifications for material damages, pain and suffering and loss of profits caused to third parties, in several different court levels, provisioned when classified as of probable loss.

(iv) Tax claims - the provisions for contingencies of tax nature refer mainly to questions related to the collection of taxes, questioned by reason of divergence of interpretation of the legislation by the legal counsels of the Company.

(v) Labor claims - the Company is party to several labor claims, related to overtime pay, health hazard and risk, prior notice period, job deviation, salary parity and others, most of the amounts involved being under provisional or definite execution, in several court levels, thus being classified as of probable loss and, consequently, duly provisioned.

(vi) Environmental claims - refer to various administrative and judicial processes filed by public entities, including by the Companhia de Tecnologia de Saneamento Ambiental - Cetesb, the General Attorney's Office of the State of Sao Paulo and others, seeking to impose fines and penalties for environmental damages allegedly caused by the Company.

The Company entered into an agreement with the Public Prosecution Office of the State of Sao Paulo, referring to the public environmental civil action involving the Municipality of Paraguaçu Paulista as to (a) the fulfillment of the obligation of not doing, which consists of not discharging or not permitting the sewage to be discharged without proper treatment into River Alegre or any other river in the Municipality of Paraguaçu Paulista; (b) the fulfillment of the obligation of doing, which consists of implementing a sewage treatment system by doing the necessary works for the proper sewage treatment and, further, (c) the payment of an indemnification for damages already caused to the environment, in the estimated amount of R\$34.1 million beginning on January 2008. The payment will be in the form of works for the municipality, such as works to stop erosive processes, implementation of the Complexo do Grande Lago and Pequeno Lago projects, implementation of the Municipal Water Park, among others. As of September 30, 2007 the amount of R\$34.1 million referring to this indemnification was reclassified to the caption Indemnifications, with R\$1.2 million in current liabilities and R\$32.9 million in noncurrent liabilities.

*Lawsuits with possible risk of loss*

The Company is a party to lawsuits and administrative proceedings relating to environmental, tax, civil and labor matters, which are assessed by its legal advisors to be of possible likelihood of loss and which are not provisioned. The aggregate amount referring to such proceedings is approximately R\$2,030,100 as of September 30, 2007 (Jun/2007 - R\$2,032,500).

**14. SHAREHOLDERS EQUITY****(a) Authorized Capital**

The Company is authorized to increase its capital stock up to the limit of R\$ 4,100,000, divided into common shares, all recorded with no par value.

**Shares Grouping**

The Shareholders Meeting held on April 30, 2007 approved the proposal to effectuate the reverse share split. The shares started being grouped in the proportion of 125 (one hundred and twenty-five) shares for 1 (one) share, and, as of June 4, 2007 they started to be negotiated in Reais per share. The capital stock started being represented by 227,836,623 registered common book-entry shares, with no par value, remaining unchanged the amount of Sabesp's capital stock.

Simultaneously to the reverse share split, the American Depositary Receipts (ADRs) started being negotiated in the proportion of 1 (one) ADR per each 2 (two) shares.

**(b) Subscribed and paid-up capital**

Shareholders are entitled to a mandatory minimum dividend distribution of 25% of adjusted net income, calculated in conformity with Brazilian Corporate Law.

Interests on shareholders' equity declared in 2006, in the amount of R\$270,841, were paid on June 29, 2007, net of withholding income tax.

On October 18, 2007, the Board of Directors approved the proposal for interest on capital payment for the period from January to September 2007, in the amount of R\$268,847, which will be paid up to 60 days after the Annual Shareholders Meeting of 2008, net of withholding income tax.

(d) Capital reserve

Capital reserve comprises fiscal incentives and donations from governmental entities and private entities.

(e) Revaluation reserve

As provided by CVM Instruction No. 197/93, the Company elected not to recognize income tax and social contribution on the revaluation reserve of property, plant and equipment carried out until 1991.

The reserve has been realized with a corresponding entry to retained earnings, to the same proportion of the depreciation and write-off of the assets to which it is related.

(g) Reserve for Investments

The reserve for investments has been specifically set up from the portion corresponding to own resources that will be intended to the enhancement of the water supply and sewage sanitation systems,

## 15. FINANCIAL INSTRUMENTS

### (a) Market value of financial instruments

The determination of the market value of financial instruments is performed on an annual by basis Company Management.

### (b) Credit risk concentration

A significant portion of sales is made to a geographically dispersed customer base. In relation to those clients, credit risk is mitigated due to the large portfolio and to the control procedures which monitor this risk.

The doubtful account are properly covered by provision to face eventual losses in their realization

### (c) Foreign Currency

Transactions in foreign currency consist of borrowings to specific improvement works and expansion of the Company's water supply and sewage collection and treatment services.

## 19. SUBSEQUENT EVENTS

### • Agreement with the Municipality of Sao Paulo

On November 14, 2007, the Company and the Municipality of Sao Paulo (the Parties) entered into an Agreement to establish conditions to ensure the stability of public basic and environmental sanitation services in the City of Sao Paulo. The main points of this Agreement are:

1. The Parties agree to establish basic and environmental sanitation measures that supplement the actions of the Municipality of Sao Paulo, investing in the implementation and continuity of programs, such as *Programa Corrego Limpo* and *Programa de Uso Racional de Agua - PURA*, whose objective is to ensure water consumption reduction in public units, thus ensuring water supply and quality of life for the population.
2. From the date of signing of the Agreement, the total amounts paid by the Municipality of Sao Paulo to SABESP, referring to direct administration entities, independent government agencies and foundations, net of taxes, will be allocated to fund investments in basic and environmental sanitation of the Municipality;
3. The Municipality agrees to resume the payment of the bills and invoices for current consumption issued by Sabesp, from the date of signing of this Agreement;
4. The Parties will conclude in up to 90 days the necessary understanding to resolve their financial matters and prepare the drafts of the Cooperation Agreement, Metropolitan Program Contract and Bill in order to obtain legislative authorization for the execution of said documents;
5. The Parties and the State shall conclude in up to 90 days, from the execution of the Agreement, the terms and conditions of the Cooperation Agreement and the Metropolitan Program Contract, aiming at the stability of the provision by Sabesp of basic and environmental sanitation services in the Municipality;
6. After the Bill is submitted to the House of Representatives, the Parties will sign the document for resolution of their financial matters. A discount of R\$120 million on the debts owed by the Municipality can be granted, subject to negotiation. These debts will be paid without financial charges arising from interest, fine and monetary adjustment.
7. The Parties will require the discontinuation of the collection lawsuits filed by Sabesp, with court costs being borne by Sabesp, and each Party being liable for its attorneys' fees.

The approval of the Municipal Bill, which is an essential condition for the execution of the Cooperation Agreement to be signed between the Municipality and the State, and the Metropolitan Program Contract to be signed between Sabesp and the Municipality, is not totally under control of the Parties.

The effects of the Agreement signed hereunder on the Interim Financial Statements of the Company are not fully quantified at this time and shall be determined by the end of 2007.

- **Sanitation and Energy Regulatory Agency of the State of Sao Paulo - Arsesp**

On November 13, 2007, the State Legislature approved Supplementary Bill No. 48/2007, which is pending Governor's sanction to be signed into law. This bill provides for the creation of the Sanitation and Energy Regulatory Agency of the State of Sao Paulo (Arsesp) that shall be responsible for regulating energy, gas and sanitation services under the responsibility of the State or that have been transferred to the State by municipalities or the federal government.

millions of R\$

The main variances identified in the period were:

#### **4.1. Salaries and Payroll Charges**

In the 3Q07 the connections per employee ration improved 5.2% going from 667 in the 3Q06 to 702 in the 3Q07 and the number of employees from 17,303 to 16,880.

Comparing 3Q07 to 3Q06 there was an increase of R\$22.6 million or 7.5% in salaries and payroll charges, going from R\$229.6 million in the 3Q06 to R\$322.2 million in the 3Q07, as a result of the following factors:

- Increase caused by the impact of the 3.37% salary adjustment as of May, 2007, affecting salaries, payroll charges and benefits; and
- Increase in the social security provisions pursuant Resolution CVM 371 with increase in the amount of R\$13.0 million mainly due to the adoption of a new mortality table, recurring as of January, 2007.

#### **4.2. General Materials**

In the 3Q07 there was an increase of R\$0.9 million or 3.0% when compared with the same period year, going from R\$30.3 million to R\$31.2 million, mainly related to the maintenance of water residential connections.

#### **4.3. Treatment Materials**

Increase of R\$1.4 million or 5.7%, going from R\$24.5 million in the 3Q06 to R\$25.9 million in the 3Q07.

The main variance was in the consumption of copper sulfate, from 98 to 287 tons, due to the proliferation of weeds. The proliferation of weeds results from natural causes, as increase of insulation and some nutrients, which favor their growth. The weeds, if not combated in the source, may cause problem of taste and smell.

#### **4.4. Third Party Services**

In the 3Q07, this item presented an decrease of R\$11.2 million, or 9.4%, from R\$119.5 million in the 3Q06 to R\$108.3 million. The main factors that conditioned this performance were:

- Decrease of R\$ 17.7 million, as a result of the modification in the way of appropriating costs related to the license of use of software to the period of 36 months.

This decrease was partially offset by the following factors:

- Reading of hydrometers and delivery of bills in the amount of R\$2.0 million, mainly due to the contract adjustments of 5.6% as of May, 2007;
- Technical professional services with increase of R\$ 1.7 million, referring to the following services:

Development of methodology of calibration and gauging of equipment;

Expansion of the implantation of the Geographic Information System in municipalities of the country side; and

Audit for testing the internal controls for compliance to the requirements of the Sarbanes Oxley Act.

- Increase in costs with vigilance in the amount of R\$1.4 million due to new contracting with remote monitoring. Despite the reduction of the contracted personnel, there has been an increase of the areas benefited, which caused an increase in costs; and
- Increase in the paving and replacement of sidewalks account in the amount of R\$1.2 million, caused by the accumulation of services to be provided, during the period where some poles of maintenance of the Metropolitan Region of Sao Paulo remained without contract.

•

#### **4.5. Electric Power**

In the 3Q07 it presented an increase of R\$2.5 million or 2.2%, going from R\$115.5 million in the 3Q06 to R\$118.0 million in the 3Q07, associated to the increase of 0.2% in the average consumption increase in prices, of 4.3% tariff adjustment (3.1% in the captive market and 10.4% in the free market). This increase was substantially lower to the tariff in view of the positive results of the management actions of the contracts of electric energy supply in the last period.

#### **4.6. General Expenses**

In the 3Q07, this item presented an increase of R\$9.0 million or 16.8%, from R\$53.6 million in the 3Q06 to R\$62.6 million in the 3Q07, as described below:

- Financial and institutional support to several institutions in the amount of R\$3.1 million;
- Provisions for contingencies with R\$2.4 million increase;
- Collection for the use of water from the basins from Rio Parnaiba do Sul, Piracicaba and Jundiai in the amount of R\$1.2 million; and
- Increase in the amount of R\$1.2 million, arising from the acquisition of anti-virus for all the park of servers and stations, as well as specialized technical support.

**4.7. Depreciation and Amortization**

R\$4.3 million or 2.8% increase, from R\$ 151.5 million in the 3Q06 to R\$155.8 million in the 3Q07, related to the transfer from work in progress to property, plant and equipment in operation.

**4.8. Credits Write-off**

Decrease of R\$32.1 million or 28.1%, from R\$114.2 million in the 3Q06 to R\$82.1 million in the 3Q07, mainly due to the provisioning of invoices in the amount of R\$29.8 million in the 3Q06.

**4.9. Tax Expenses**

In the 3Q7, the tax expenses item presented a increase of R\$1.4 million or 19.2% in relation to the 3Q06, from R\$7.3 million to R\$8.7 million, mainly due to the payment of CPMF in the amount of R\$1.5 million in function of the payment of principal and interests of the 6<sup>th</sup> and 7<sup>th</sup> issued of debentures, 1<sup>st</sup> series in September, 2007.

**5. Financial Income and Expenses****5.1. Financial Expenses**

In the 3Q7, these presented a decrease of R\$6.1 million or 3.8%, according to the following table:

Financial	3 <sup>rd</sup> Qtr/06	3 <sup>rd</sup> Qtr/07	in millions of R\$ Variation

<b>Financial expenses, net of financial income</b>	<b>137.8</b>	<b>129.4</b>	<b>(8.4)</b>	<b>(6.1)</b>

With regards to the internal financings, the following factors may be highlighted:

- Decrease of R\$15.9 million in the provision for interests on internal financings due mainly to the amortization of the 5th issue of debentures, 2nd series, on March, 2007; amortization of the 6th issue of debentures, 1st series in September, 2007; payment of the principal of the Banco do Brasil contract which impacted the calculation of interests; drop in the DI rate which contributed for the reduction of the interests calculation and amortization of the FIDC started in October, 2006.

As to the external financings, it may be highlighted:

- R\$4.7 million reduction due to the early settlement, in November 2006, of part of the Eurobonds 2008. With the new funding, Eurobonds 2016, in replacement to the Eurobonds 2008, there was a reduction in the interest rate from 12% per year to 7.5% per year, which, coped with the drop in the dollar rate, contributed to the reduction of the outstanding balance (interest calculation basis) and
- R\$1.0 million decrease in the interests calculated due to the settlement of the contract BID nr. 229 in October, 2007 and BIRD nr. 3504, settled in April, 2007.

Other financial expenses:

Decrease of R\$2.0 million caused mainly by the drop in the TJLP in the periods under analysis where interests are accrued on PAES, in the amount of R\$1.7 million..

Provisions:

R\$17.5 million increase referring to interests and monetary adjustments of the judicial legal proceedings.

## **5.2 Financial Income**

R\$2.3 million or 10.7% increase due to interests calculated on the installment agreements made.

**6.1. Monetary Variation Expenses**

In the 3Q07, they presented a decrease of R\$22.7 million due to:

- R\$32.9 million reduction in the foreign exchange variations on loans and financings, mainly in view of the significant drop in the dollar rate presenting a negative variation of 4.53% in the 3Q07, against a positive variation of 0.5% in the 3Q06, as demonstrated below:

√ R\$ 23.0 million related to the Eurobonds, and

√ R\$9.9 million in foreign exchange variations related to the contracts with BID, resulting from the variation of the dollar and of the amortizations made, highlighting the increase in the currency basket quotation, with positive variation of 3.06% in the 3Q07, against a negative variation of 1.14% in the 3Q06.

- R\$6.8 million reduction in the monetary adjustments of the contract with Federal Union / Banco do Brasil, caused mainly by the lower variation of the TR, 0.33% in the 3Q07 against 0.57% in the 3Q06, as well as by the reduction of the outstanding balance by the payments made of the installments maturing in the period;
- R\$14.3 million increase in the monetary variations calculated on the debentures, resulting mainly from the higher variation of the IGPM in the 3Q07, of 2.57% against 0.84% in the 3Q06; and
- R\$2.6 million in the monetary variations on indemnification of judicial proceedings.

**6.2. Monetary Variation Income**

R\$4.0 million or 88.9% increase, referring to the adjustment of the Company's payment renegotiation agreements.

**7. Non operating income**

The non operating income presented a decrease of R\$6.1 million, due mainly to the gain with the alienation of land in the amount of R\$4.4 million.

**INDEPENDENT ACCOUNTANTS REVIEW REPORT**

To the Management and Shareholders of  
Companhia de Saneamento Básico do Estado de São Paulo - SABESP  
São Paulo SP

1. We have performed a special review of the accompanying interim financial statements of Companhia de Saneamento Básico do Estado de São Paulo - SABESP (the Company), consisting of the balance sheet as of September 30, 2007, the related statements of income for the quarter and nine-month period then ended and the performance report, all expressed in Brazilian reais and prepared in accordance with Brazilian accounting practices under the responsibility of the Company's management.
2. Our review was conducted in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON), together with the Federal Accounting Council, and consisted principally of: (a) inquiries of and discussions with certain officials of the Company who have responsibility for accounting, financial and operating matters about the criteria adopted in the preparation of the interim financial statements; and (b) review of the information and subsequent events that had or might have had material effects on the financial position and results of operations of the Company.
3. Based on our special review, we are not aware of any material modifications that should be made to the interim financial statements referred to in paragraph 1 for them to be in conformity with Brazilian accounting practices and standards established by the Brazilian Securities Commission (CVM), specifically applicable to the preparation of mandatory interim financial statements.
4. Our review was conducted for the purpose of issuing a review report on the interim financial statements referred to in paragraph 1 taken as a whole. The accompanying statements of cash flows for the quarters and nine-month periods ended September 30, 2007 and 2006 are presented for purposes of additional analysis and are not a required part of the basic interim financial statements. Such information has been subjected to the review procedures described in paragraph 2 and, based on our special review, we are not aware of any material modifications that should be made for it to be fairly stated, in all material respects, in relation to the interim financial statements for the quarters and nine-month periods ended September 30, 2007 and 2006 taken as a whole.
5. As mentioned in note 5, the Company is negotiating with the State of São Paulo Government the reimbursement of the amounts paid by the Company for supplementary retirement and pension benefits and the future flow of these payments to be reimbursed by the State of São Paulo Government.

6. As mentioned in note 19, on November 14, 2007 the Company entered into an agreement with the São Paulo municipal government to establish basic and environmental sanitation measures that supplement the municipal government's actions. The effects of commitments arising out of the agreement have not been fully determined by the Company, which will be made and recorded as of December 31, 2007.

7. We had previously reviewed the balance sheet as of June 30, 2007 and the statements of income for the quarter and nine-month period ended September 30, 2006, presented for comparative purposes, and issued unqualified review reports thereon, dated August 9, 2007 and November 14, 2006, respectively, containing emphasis-of-matter paragraphs similar to the matter described in paragraph 5.

8. The accompanying interim financial statements have been translated into English for the convenience of readers outside Brazil.
