Yes No

Revision of the Business Plan

Rio de Janeiro, December 19 de 2008 PETRÓLEO BRASILEIRO S/A - PETROBRAS, [Bovespa: PETR3/PETR4, NYSE: PBR/PBRA, Latibex: XPBR/XPBRA, BCBA: APBR/APBRA], a Brazilian international energy company, announces that during a meeting held today, Petrobras Board of Directors analyzed the Company's 2009-2013 Business Plan and, due to markets' uncertainties and volatility, it was unable to complete its assessment.

The Board of Directors decided unanimously to resume the agenda in January when, depending on the final evaluations, it may approve the Plan. Additionally, the Board recommended the revision of the projects analysis based on new cost assumptions.

The Board of Directors reiterated the maintenance of Petrobras' investment policy and that the existing evaluations indicate the feasibility of the investments in the pre-salt area.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
