1. To amend the Bylaws to Sole Paragraph of Article 24, in view of the change in the names of the Codes of Ethics, which are now called Bradesco Organization's Codes of Ethical Conduct, both corporate and by sector.
2. To reverse split the common and preferred shares at the ratio of 50 (fifty) to 1 (one), with the simultaneous stock split of each share submitted to reverse split at the ratio of 1 (one) to 50 (fifty), pursuant to the respective types, considering:

Reverse Stock Split

Purpose

To adjust the shareholding structure, considering that there is a great quantity of shareholders with interest lower than 50 shares, and most of them are under the condition of inactive, with the consequent decrease in operating controls/costs to the Company and its shareholders, providing greater efficiency to the operational system of book-entry shares and disclosure of information to shareholders.

Term for a Possible Adjustment to the Positions by Shareholders

It will be given a term of not less than 60 days for the adjustment of the shareholding position, after the operation ratification by the Brazilian Central Bank.

The shareholders may adjust their position through the Brokerage firm of their free choice. The Company and the Controlling Shareholders, exclusively for this operation, undertake to:

The Company

- a) exempt shareholders who wish to complement the multiple of 50 shares, immediately higher, by type, from the brokerage fee and other fees, exclusively when carried out by means of Bradesco S.A. Corretora de Títulos e Valores Mobiliários and Ágora Corretora de Títulos e Valores Mobiliários S.A., Bradesco Organization's companies; and
- b) open a specific credit line, in the period of adjustment of the shareholding positions by the shareholders.

Controlling Shareholders:

In the event of a possible lack of liquidity in the market for acquisition of shares, and, if shareholders are interested in selling, at market prices, the number of shares needed to the rounding of their share positions to a multiple of 50 shares, immediately higher, by type, (in this case, the shareholder shall go to a Bradesco Branch).

Stock Split

Purpose

To keep the share quotation value in the market at an attractive level for trading, providing better liquidity to the shares in the domestic market and to DRs - Depositary Receipts in the foreign market.

The stock split shall be implemented on the same day of the reverse split (simultaneously).

Additional Procedures Fractions of Shares

After the term set forth for the adjustment by shareholders, the possible fractions of shares will be sold in an auction to be held on BM&FBOVESPA S.A. The result of the operation will be credited to the shareholders or shall be at the disposal of shareholders entitled to them.

Holders of Depositary Receipts (DRs), Traded in the United States and Spain

Simultaneously to the operation in the Brazilian Market, also in compliance with the term set forth for adjustment to positions, will be processed in the Foreign Market the reverse stock split and stock split in the same proportion.

After the term, the resulting fractions of DRs - Depositary Receipts shall be sold on the respective Stock Exchanges, and the amounts will be credited to the holders of fractions.

Considering that the reverse split and the stock split shall be processed in the same proportion, this operation shall not change:

- a) the number of shares comprising the Capital Stock and, consequently, the caput of Article 6 of Banco Bradesco S.A.'s Bylaws; and
- b) the amount of Monthly Dividends of R\$0.013219250 per common shares and R\$0.014541175 per preferred share.

Sincerely,
