Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

Notification of new discover in the Santos Basin pre-salt layer

(Rio de Janeiro, April 14 2009). PETRÓLEO BRASILEIRO S/A - PETROBRAS, [Bovespa: PETR3/PETR4, NYSE: PBR/PBRA, Latibex: XPBR/XPBRA, BCBA: APBR/APBRA], a Brazilian international energy company, announces that the consortium formed by Petrobras (45% - Operator), BG Group (30%), and Repsol (25%), to explore block BM-S-9, in ultra deep Santos Basin waters, notified today the National Petroleum Agency (ANP) the discover of light oil in the pre-salt reservoirs, after the drilling of a new well in the area.

The BM-S-9 is composed of two evaluation areas: the area of well 1-BRSA-491-SPS (1-SPS-50), known as Carioca, and the area of well 1-BRSA-594-SPS (1-SPS-55), called Guará.

The new well, 4-BRSA-709 (4-SPS-60), denominated as Iguaçu, is located in the evaluation area of 1-SPS-50 (Carioca), some 340 km off the coast of the State of São Paulo (see the figure below), at 2,140 meters from the water line.

The discovery was proved by means of an oil sampling made via a cable test in reservoirs located at a depth of 4900 m.

The Consortium will give continuity to the activities and investments that are required to evaluate the fields discovered in this area pursuant to the Evaluation Plan approved by the ANP. A new well is foreseen to start being drilled in this area in the upcoming days.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
