the Securities Exchange Act of 1934.

Yes No

If "Yes" is marked, indicated below the file number assigned to the
registrant in connection with Rule 12g3-2(b):

GOL Signs an Agreement with Travelport

GOL expands its international electronic distribution capacity through airline alliances and the main global distribution systems (GDS) Sabre, Amadeus and Travelport

São Paulo, November 26, 2009 GOL Linhas Aéreas Inteligentes S.A. (BM&FBOVESPA: GOLL4 and NYSE: GOL), Latin America's largest low-cost and low-fare airline, announces the adoption of Travelport's Interline E-ticket Interchange, a technological platform which facilitates the control and operational functioning of its airline agreements. Additionally, the company extended its agreements with the main global distribution systems (GDS): Sabre, Amadeus and, also, Travelport.

The technology used by Travelport's Interline E-ticket Interchange, allows the Company to issue tickets globally, even if the partner airline employs the traditional e-ticket model. Another product from this technology provider, ETDBase, allows GOL to build a latest-generation e-ticket database, allowing it to store and control e-tickets issued by its partners. Sales of itineraries comprising GOL flights only retain the current ticketless model, one of the Company's low-cost management pillars.

With this technological products, the Company has the advantages of additional sales channels, through airline alliances, while at the same time allowing us to retain efficient cost controls, explained Marcelo Bento Ribeiro, GOL's Head of Yield Management and Alliances.

GOL has 5 ongoing codeshare agreements - AirFrance/KLM, American Airlines, Iberia, Aeromexico and Copa Airlines - and 60 interline agreements. These strategic partnerships will account for an increasing share of our ticket sales, added Ribeiro.

With this technological products the Company has the advantages of additional sales channels, through airline alliances, while at the same time allowing us to retain efficient cost controls controls.

The Company has also expanded the reach and connectivity of its distribution network by joining or geographically expanding the main global distribution systems (Sabre, Amadeus and Travelport), with products and distribution systems that keep sales expenses down and improve connectivity with the Company's reservation system.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
