Yes No

Authorization for new drilling in the pre-salt region

Rio de Janeiro, December 2 2009. – PETRÓLEO BRASILEIRO S/A - PETROBRAS, announces that it was granted authorization by the board of the National Petroleum Agency (ANP), yesterday, to drill a well in the northern area of the Santos Basin's pre-salt, outside of the boundaries of the blocks that have already been bid for in the region. The region is eligible to compose the areas that will be the object of the Onerous Transfer, as detailed in an Announcement the Company made on 11/19/2009, once Draft Bill No. 5941/09 has been approved.

The purpose of the operation is to gather information about the region, which has yet to be assessed. Drilling is expected to reach a depth of 6,425 meters. The data and studies that are collected will be delivered to the ANP and become public at the end of the process.

Petrobras intends to send the SS-53 drilling rig to the region, which is expected to kick-off the activities by mid December. The Company will be in charge of the operation and bear the costs of the drilling, since the intent is for the area to be developed in the future by Petrobras itself, after the signing of an Onerous Transfer agreement.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
