Operating Performance

The numbers related to Grupo Pão de Açúcar's operating and financial performance commented on below are presented: (i) on a **consolidated basis**, which includes the full operating and financial results of Sendas Distribuidora (a joint venture with the Sendas chain in Rio de Janeiro), Assaí (Rede Atacadista Assaí) and, as of the third quarter of 2009, Globex Utilidades S.A. (Ponto Frio); and (ii) on a **comparable basis**, which entirely excludes the operating and financial results of Globex Utilidades S.A.

On December 4, 2009, Grupo Pão de Açúcar and Casas Bahia entered into an Joint Venture Agreement, which established the terms and conditions governing the association between Globex and Casas Bahia. **On February 3, 2010**, GPA and Casas Bahia informed their shareholders and the market in general of the main terms of the Provisional Transaction Reversal Agreement (APRO), entered into with CADE, the Brazilian antitrust authority. **On April 13, 2010**, GPA and Globex published a Material Fact in which clarified that Casa Bahia and its partners manifested their intention of reviewing the association that was the object of the Joint Venture Agreement. GPA and Globex believe said Joint Venture Agreement to be valid and effective for all intents and purposes and have manifested their intention of continuing the discussions in order to reach an understanding and ensure the implementation of the Joint Venture.

[Comparable-basis comments excluding Globex]

In the first quarter of 2010, Grupo Pão de Açúcar's gross sales increased by 19.9% over the same period last year to R\$ 6,343.0 million, while net sales moved up by 23.2% to R\$ 5,716.0 million.

In same-store terms (i.e. stores that have been operational for at least 12 months, therefore excluding Ponto Frio stores), gross sales grew by 15.0%, giving real growth of 9.6% when deflated by the General IPCA consumer price index⁽¹⁾, positively impacted by 180 bps due to the seasonal effect of Easter. Net sales recorded nominal growth of 18.1%.

Also on a same-store sales basis, gross food sales grew by 13.5%, with beverages and groceries doing particularly well. Non-food sales grew by 19.5%, led by the general merchandise, drugstore and electronics/household appliances categories, which posted higher increases than the non-food average.

The Group's best-performing formats were Extra Hipermercados, Extra Supermercados, Extra Eletro and Assaí, whose sales growth was higher than the Company average. The average ticket also moved up, as did customer traffic in all Group stores.

[Consolidated comments including Globex]

In the first quarter, Grupo Pão de Açúcar's consolidated gross sales increased by 47.1% year-on-year to R\$ 7,785.7 million, while net sales climbed by 50.2% to R\$ 6,973.5 million.

Globex's gross sales, including e-commerce operations, climbed by 49.6% over 1Q09 to R\$ 1,442.7 million, while net sales came to R\$ 1,257.5 million, up by 53.5%. In same-store terms⁽²⁾, sales moved up by 48.0% year-on-year. The Company's improved performance in comparison to 3Q09 and 4Q09 (+6.8% and +23.0%, respectively) indicated a positive trend and was better than the Company expected. As in the previous quarters, the main sales drivers were: (i) a focus on the stores, with differentiated customer service and the greater availability of products and credit, and (ii) an increased media presence.

Gross e-commerce sales, which include Extra.com.br, Pão de Açúcar Delivery, Pontofrio.com.br and Ponto Frio's Wholesale segment, jumped by 65.3% in the period.

(1) Like ABRAS (the Brazilian Supermarket Association), the Company has adopted the IPCA – General Consumer Price Index as its inflation indicator, since it gives a more accurate reflection of the Company's product and brand mix.

(2) Ponto Frio's same-store concept includes bricks & mortar and electronic/wholesale sales.

[Comparable-basis comments excluding Globex]

In the first quarter, gross profit totaled R\$ 1,406.5 million, 19.6% up year-on-year, with a gross margin of 24.6%, down by 70 bps. The main contributory factors were:

3

- (i) the expansion of the ICMS tax substitution regime, which had a negative impact of 70 bps; and
- (ii) the increased share of Assaí in the Group's sales, which had a negative impact of 20 bps.

It is worth noting that these impacts were partially offset thanks to more advantageous negotiations with suppliers and a more profitable product mix.

[Consolidated comments including Globex]

In the first quarter, consolidated gross profit came to R\$ 1,671.8 million with a gross margin of 24.0%, less than the comparable-basis margin, chiefly due to the upturn in electronics / household appliances sales, whose margins are lower than those of food products.

Total Operating Expenses

[Comparable-basis comments excluding Globex]

In the first quarter, total operating expenses (including selling, general and administrative expenses) increased by 19.1% year-on-year to R\$ 1,029.3 million, due to: (i) the impact of the upturn in the social benefit rate on personnel expenses; (ii) higher marketing and IT expenses; and (iii) the 34 stores opened in the last twelve months. Operating expenses represented 18.0% of net sales, 60 bps less than in 1Q09, thanks to the continuing efforts to control expenses, allowing the Group to invest in price competitiveness without losing profitability.

[Consolidated comments including Globex]

In the first quarter, consolidated operating expenses totaled R\$ 1,261.4 million, equivalent to 18.1% of net sales, less than the 18.6% recorded in 1Q09.

In the first quarter, EBITDA came to R\$ 377.2 million in absolute terms, 20.8% up year-on-year, while the EBITDA margin stood at 6.6%, virtually identical to the 6.7% posted in 1Q09.

EBITDA growth and the stability of the EBITDA margin are a result of substantial sales growth, more advantageous negotiations with suppliers, price competitiveness and the rationalization of expenses.

[Consolidated comments including Globex]

In the first quarter, EBITDA stood at R\$ 410.4 million, 31.4% growth on 1Q09, with a margin of 5.9%. It is also worth noting that Globex performance showed significant improvements since its acquisition in July, 2009.

(1) Totals may not tally as the figures are rounded off

[Comparable-basis comments excluding Globex]

In the first quarter, the net financial result increased by 8.7% to a negative R\$ 77.4 million, fueled by the impact of the mark-to-market of the debt, whose gains exceeded those from the period's lower CDI interbank rate. In addition, net cash at the close of 1Q10 was lower than in 4Q09 due to working capital seasonality in the first quarter, a period when the Group disburses large volumes of cash as a result of end-of-year purchases. This trend will be reversed over the coming months and the Group's cash position should gradually return to the levels recorded in the second half of 2009.

5

[Consolidated comments including Globex]

In the first quarter, the net financial result was negative by R\$ 104.5 million, while the net debt/EBITDA ratio stood at 1.0x.

Equity Income

FIC's result moves up by R\$ 9.6 million in the quarter

With the incorporation of Investcred by FIC (Financeira Itaú CBD), and given their respective shareholders' equities, GPA now retains a 36% direct interest in FIC, while Globex retains a 14% stake. The Group's consolidated interest in FIC remains at 50%.

In the first quarter, FIC accounted for 14% of the Group's total sales, closing the period with 7.1 million clients and a receivables portfolio of R\$ 2.9 billion.

FIC's equity income totaled R\$ 9.6 million, R\$ 6.3 million of which went to GPA and R\$ 3.3 million to Globex.

This result was fueled by a meticulous credit granting policy and the acceptance of Ponto Frio cards in the GPA stores and vice-versa.

[Consolidated comments including Globex]

In the first quarter, consolidated net income came to R\$ 126.2 million, growth of 33.0%, with a net margin of 1.8%.

Investments

The Group invested R\$ 207.1 million in 1Q10

In the first quarter, investments totaled R\$ 207.1 million, versus R\$ 100.3 million in 1Q09.

The Group opened 11 new stores in the period: one Extra Hipermercado combined with one Assaí store under the power center concept (which serves retail and wholesale customers in adjacent stores) in Palmas (TO); and nine Extra Fácil convenience stores in São Paulo (SP).

In addition, one CompreBem store in Caruaru (PE) was converted into the Assaí format.

The main highlights of the quarter were:

R\$ 30.8 million in the opening and construction of new stores and the acquisition of strategic sites;

R\$ 92.4 million in store renovations and conversions;

R\$ 83.9 million in infrastructure (technology and logistics) and others.

Dividend Policy

In accordance with the Company's Dividend Payment Policy approved at the Board of Directors Meeting of August 3, 2009, on April 8, 2010 the Board of Directors approved interim dividends of R\$ 0.08 per class A preferred share and R\$ 0.07272 per common share, which will be prepaid this year on a quarterly basis. As for the 4Q10, the Company will pay shareholders the minimum mandatory dividends, calculated in accordance with Corporate Law, less the amounts prepaid throughout 2010.

Dividends to be paid in relation to the first quarter of 2010 amount to R\$ 19.2 million, to be paid on May 31, 2010.

Shareholders registered as such on May 17, 2010, will be entitled to receive payment. Shares will be traded ex-dividend as of May 18, 2010, until the payment date.

Globex Utilidades S.A.

In the first quarter of 2010, gross sales climbed by 49.6% over 1Q09 to R\$ 1,442.7 million, while net sales came to R\$ 1,257.5 million, up by 67.4%.

In same-store terms, gross sales from merchandise, services and e-commerce operations moved up by 48.0% year-on-year. The Company's improved performance in comparison to 3Q09 and 4Q09 (+6.8% and +23.0%, respectively) indicates a positive trend and was better than the Company expected.

The main sales drivers were: (i) a focus on the stores, with differentiated customer service and the greater availability of products and credit; (ii) an increased media presence; and (iii) accelerated consumption due to the end of the IPI (federal VAT) reduction on white goods and furniture as of March 31, 2010.

Gross profit stood at R\$ 265.2 million, 74.1% up on the same period last year, with a gross margin of 21.1%, an 80 bps improvement. The increase was chiefly due to: (i) more advantageous negotiations with suppliers; and (ii) a more profitable product mix.

Total operating expenses (including selling, general and administrative expenses) came to R\$ 232.1 million, 29.2% up on 1Q09, substantially less than the 49.6% upturn in gross sales in the same period, reflecting gains in synergy with Grupo Pão de Açúcar, thanks to more streamlined back-office operations, which reduced these expenses by 550 bps as a percentage of net sales.

EBITDA was a positive R\$ 33.1 million (margin of 2.6%), versus a negative R\$ 27.3 million in 1Q09.

The EBITDA performance was chiefly the result of substantial sales growth, increased credit in the stores and the improvement in the gross margin, in turn due to advantageous negotiations with suppliers, a more appropriate product mix and greater control over expenses.

The **net financial result** was R\$ 27.1 million negative, versus a negative R\$ 10.0 million in 1Q09, primarily due to the interest on the increased volume of receivables in comparison to the same period last year.

Equity income, considering Globex's 14% interest in FIC and 50% interest in the remaining equity of BINV (Banco Investcred), was R\$ 3.3 million, thanks to rigorous credit granting criteria and the acceptance of Ponto Frio cards in Grupo Pão de Açúcar stores and vice-versa.

The Company declared a 1Q10 **net loss** of R\$ 3.7 million, a R\$ 31.8 million improvement over the loss recorded in 1Q09. The recovery was basically due to the operating improvements commented on previously.

Wholesale Segment: Assaí

EBITDA climbs 38.7% in the quarter, with a margin of 2.6%

In the first quarter, Assaí recorded gross sales of R\$ 670.0 million, including the stores in São Paulo, Ceará, Rio de Janeiro and Pernambuco, 52.0% up on 1Q09, fueled by the opening of new stores and the conversion of existing ones in the last 12 months. Net sales climbed by 55.1% to R\$ 608.7 million.

Gross profit totaled R\$ 91.2 million, with a margin of 15.0%, 150 bps more than in 1Q09, thanks to more advantageous negotiations with suppliers and gains in scale. Total operating expenses came to R\$ 75.2 million, 38.7% up year-on-year, due to the opening of 14 stores in the last twelve months. This figure was below the 55.1% increase in net sales in the same period.

EBITDA amounted to R\$ 16.0 million, with a margin of 2.6%, up by 290 bps, due to the maturation of a large number of stores in recent years. Net income stood at R\$ 4.7 million, versus a net loss of R\$ 3.2 million in 1Q09.
