2Q12 Earnings

Consolidated net income reaches R\$ 253 million in the quarter

São Paulo, Brazil, July 23, 2012 - Grupo Pão de Açúcar[BM&FBOVESPA: PCAR4 (PN); NYSE: CBD] and **Via Varejo S.A.**[BM&FBOVESPA: VVAR3] announce their results for the second quarter of 2012 (2Q12). The results are presented in the segments as follows: **GPA Food**, which comprises supermarkets (Pão de Açúcar, Extra Supermercado and PA Delivery), hypermarkets (Extra Hiper), neighborhood stores (Minimercado Extra), cash-and-carry stores (Assaí), gas stations and drugstores; and **GPA Consolidated**, comprised by GPA Food and Viavarejo (Casas Bahia and Ponto Frio's bricks-and-mortar stores and Nova Pontocom's e-commerce: Extra.com.br, PontoFrio.com.br and Casasbahia.com.br).

GPA Food

Gross sales revenue up 7.3% in 2Q12

GPA Food's EBITDA margin at 8.5% in 2Q12

§ Gross sales revenue at R\$ 7.437 billion, up 7.3% over 2Q11

§ Gross profit at R\$ 1.801 billion, up 14.8% over 2Q11

§ EBITDA at R\$ 574 million, up 37.0% over 2Q11, with margin at 8.5%

§ Net income at R\$ 253 million, up 171.3% over 2Q11

§ Impact on results of R\$ 98 million related to real estate projects (more on page 8). Results excluding the real estate projects are presented as from page 2.

GPA Consolidated

EBITDA totaled R\$ 787 million in 2Q12, up 22.8% over 2Q11, and EBITDA margin at 6.5%

Net income totaled R\$ 255 million, up 179.7% over 2Q11

§ Gross sales revenue totaled R\$ 13.512 billion, up 7.2% over 2Q11

§ Gross profit at R\$ 3.241 billion, up 8.5%

§ EBITDA at R\$ 787 million, up 22.8%

§ Net income at R\$ 255 million, up 179.7% over 2Q11

(2) Earnings before Interest, Taxes, Depreciation, Amortization and Net Financial Revenue (Expenses)

(3) Net Income after noncontrolling shareholders

PERFORMANCE BY SEGMENT

The Company's operations are integrated into two business segments, as shown below:

In order to enable comparison of the Company's figures, the tables and explanations about the 2Q12 earnings will be presented excluding revenue from the Company's real estate projects (see page 8).

SALES PERFORMANCE

(R\$ million)	GPA Food <i>ex real estate projects</i>			GPA Food (<i>ex real estate projects</i>)					
	2Q12	2Q11	Δ	Retail			Cash and Carry		
				2Q12	2Q11	Δ	2Q12	2Q11	Δ
Gross Sales Revenue	7,339	6,928	5.9%	6,196	5,900	5.0%	1,142	1,028	11.1%
Net Sales Revenue	6,621	6,229	6.3%	5,579	5,296	5.3%	1,043	933	11.7%
Gross 'Same Store' Sales Revenue	4.7%	9.1%							
Food	4.8%	10.0%							
Non food	4.3%	5.9%							

GPA Food 2Q12 x 2Q11 (*excludes real estate projects*)

GPA Food's gross sales revenue increased 5.9% in 2Q12 over 2Q11, due, among other factors, to the opening of 14 stores in the past 12 months and to the conclusion of the conversion process for banners CompreBem and Sendas into Extra Supermercado and banner Extra Fácil into Minimercado Extra.

Gross same-store sales growth was 4.7%, or -0.2% in real terms, when deflated by the IPCA benchmark inflation index for the period. It is worth noting that, differently from 2Q11, the shopping period ahead of Easter Day also impacted the first quarter of 2012. The Company's sales performance was also impacted by the retail sales in the beginning of the second quarter, in line with the performance released by the Brazilian Geography and Statistics Institute (IBGE), which showed the slowest growth pace since March 2009.

4 Retail: Gross sales revenue up 5.0% over 2Q11, mainly due to:

§ Differentiated performance in some segments, mainly of the general merchandise segment, which posted higher sales revenue due to the introduction of a broader assortment for such products, and of the home and personal care segment, for which several initiatives were developed jointly with suppliers. The trend was offset by a decline in the fish segment's sales revenue, due to the Easter effect and to a lower average price per kilo;

§ Faster sales pace in the neighborhood and supermarket formats. The first format saw the conversion of 66 Extra Fácil stores into Minimercado Extra. Minimercado's value proposition is different from Extra Fácil's, once the first offers a broader assortment of perishables and services, in addition to assortment adjusted to each microregion. In 2Q12, the conversion process of banner Extra Fácil into Minimercado Extra was concluded. As for the second format, Extra Supermercado also posted growth above the Group's average in gross same-store sales.

4 Cash and carry: Gross sales revenue up 11.1%, mainly due to:

§ Brand repositioning, with assortment changes, a process which began in the second half of 2011, focusing on the assortment to the target publics - processors, distributors and users, which favors an increase in the average ticket.

(R\$ million)	GPA Food <i>ex real estate projects</i>			GPA Consolidated <i>ex real estate projects</i>					
	1H12	1H11	Δ	2Q12	2Q11	Δ	1H12	1H11	Δ
Gross Sales Revenue	14,709	13,569	8.4%	13,414	12,605	6.4%	27,073	24,978	8.4%
Net Sales Revenue	13,278	12,213	8.7%	11,939	11,270	5.9%	24,087	22,139	8.8%
Gross 'Same Store' Sales Revenue	7.0%	7.4%		5.6%	10.1%		7.6%	8.5%	

Food	7.0%	7.4%
Non food	6.7%	7.3%

GPA Food 1H12 x 1H11 *(excludes real estate projects)*

In the first half of 2012, gross sales revenue increased 8.4%. The 7.0% same-store sales growth, or 2.0% in real terms, is due to the successful conversions into Extra Supermercado and Minimercado Extra, as these banners' stores posted improved performance compared with the ones in operation before the conversion, and to the opening of 10 stores in the past 12 months (for further information, see page 10, on the CAPEX section).

GPA Consolidated 2Q12 x 2Q11

Gross sales revenue totaled R\$ 13.414 billion in 2Q12, up 6.4%. In addition to GPA Food's growth, as explained above, sales increase at Viavarejo stood out. The operation posted sales growth in two of the industry's main shopping dates for the home appliances segment: Mothers' Day, in May, and Valentines' Day, commemorated in June in Brazil, and were also benefitted by an extension of the reduction on the IPI tax on some white-line products and relaxation in the tax on furniture.

GPA Consolidated 1H12 x 1H11

Gross sales revenue totaled R\$ 27.073 billion, up 8.4%. Same-store sales growth was 7.6%.

Operating Performance

(R\$ million)	GPA Food ex real estate projects			GPA Food (ex real estate projects)				
	2Q12	2Q11	Δ	Retail			Cash and Carry	
				2Q12	2Q11	Δ	2Q12	2Q11
Net Sales Revenue	6,621	6,229	6.3%	5,579	5,296	5.3%	1,043	933
Gross Profit	1,703	1,569	8.5%	1,550	1,454	6.6%	153	115
Gross Margin	25.7%	25.2%	50 bps	27.8%	27.5%	30 bps	14.6%	12.3%
Selling Expenses	(1,049)	(988)	6.2%	(947)	(892)	6.1%	(102)	(96)
General and Administrative Expenses	(175)	(162)	8.2%	(165)	(156)	5.4%	(10)	(5)
Total Operating Expenses	(1,224)	(1,150)	6.5%	(1,112)	(1,048)	6.0%	(113)	(102)
% of Net Sales Revenue	18.5%	18.5%	0 bps	20.0%	19.8%	20 bps	10.8%	10.9%
EBITDA	479	419	14.2%	439	406	8.2%	40	14
EBITDA Margin	7.2%	6.7%	50 bps	7.9%	7.7%	20 bps	3.8%	1.5%

GPA Food 2Q12 x 2Q11 (excludes real estate projects)

In 2Q12, EBITDA totaled R\$ 479 million, up 14.2%, and margin was up 50 basis points, to 7.2%. EBITDA of the retail segment increased 8.2%, while EBITDA of the cash-and-carry segment increased 192.3%. In 2Q11, the cash-and-carry segment accounted for 14.8% in GPA Food's gross sales revenue, and increased to 15.6% in 2Q12. This segment's participation on GPA Food's EBITDA accounted for 8.3% in 2Q12, up from 3.3% in 2Q11.

4 Retail: EBITDA margin reached 7.9%, a 20-basis-point gain, due to:

§ 30-basis-point gain in gross margin, following a sales mix with higher value-added products, such as perishables and general merchandise, which were also favored by the conversions into Minimercado Extra and Extra Supermercado, once these categories' presence is higher on those formats. Such performance was in line with the trend in the previous quarters;

§ Increase of 20 basis points in total operating expenses as percentage of net sales revenue due to an increase in personnel and marketing expenses.

4 Cash and carry: the segment posted EBITDA margin at 3.8%, up 230 basis points over 2Q11, due to:

§ 230 basis-point increase in gross margin, to 14.6%, following maturation of stores opened in the past 2 years; new positioning in assortment for the target public, which privileges more profitable items;

§ Reduction in sales expenses due to productivity gains in stores and adjustment of services rendered at the stores. The sales area reformatting, for inventory optimization, and the logistics model review benefit expense control;

GPA Food 1H12 x 1H11 (excludes real estate projects)

EBITDA increased 16.2%, due to a 10.4% increase in gross profit and maintenance of operating expenses as percentage of gross sales revenue at 18.5%.

EBITDA Margin	7.4%	6.9%	50 bps	5.8%	5.7%	10 bps	6.0%	5.5%

GPA Consolidated 2Q12 x 2Q11

Gross margin declined 20 basis points, due to fiercer competition in the segments in which Viavarejo operates; the increase in participation of white-line products sales, which carry lower margins compared with those of other categories; and increase in participation of the cash-and-carry segment in GPA Food's sales, as mentioned above.

In 2Q12, EBITDA totaled R\$ 692 million, up 7.9%, with margin at 5.8%, up 10 basis points over 2Q11, due to operation improvement in GPA Food, as mentioned above, through maintenance in operating expenses as percentage of net sales revenue.

GPA Consolidated 1H12 x 1H11

EBITDA increased 19.0% to R\$ 1.456 billion, with margin at 6.0%, up 50 basis points over 1H11.

GPA Food 2Q12 x 2Q11 *(excludes real estate projects)*

The net financial expense was R\$ 121 million, and accounted for 1.8% of net sales revenue, down 90 basis points from that in 2Q11. Such reduction is due to the effects from the decline in the base interest rate, notably as from September 2011, which impacts the Company as explained below:

§ R\$ 64 million in charges on the net bank debt, which accounted for 1.0% of net sales volume, down 40 basis points from 2Q11. The interest rate decline in the period benefitted this reduction;

§ R\$ 26 million in discounted credit card receivables cost, which accounted for 0.4% of net sales revenue. The 20 basis-point reduction, as compared with 2Q11, is directly impacted by a maintenance in the Company's commercial policy coupled with an interest rate decline;

§ R\$ 32 million in restatement of other assets and liabilities, which accounted for 0.5% of net sales revenue in the quarter, down 20 basis points from 2Q11.

GPA Food 1H12 x 1H11 *(excludes real estate projects)*

The net financial result was an expense of R\$ 264 million, down 19.6%, despite the 8.4% increase in gross sales revenue. The result was impacted by a decline in interest rates and control in payment conditions.

GPA Consolidated 2Q12 x 2Q11

The net financial result was an expense of R\$ 285 million and accounted for 2.4% of net sales revenue, down 60 basis points from 2Q11.

GPA Consolidated 1H12 x 1H11

In the first half of 2012, the net financial result was an expense of R\$ 621 million and accounted for 2.6% of net sales revenue, down 40 basis points from 1H11.

⁽¹⁾ EBITDA for the last 12 months. Does not include real estate projects

GPA Food *(excludes real estate projects)*

On 06/30/2012, GPA Food's net debt totaled R\$ 2.630 billion, down R\$ 120 million from 03/31/2012, mainly due to the cash generation in the period. The net-debt-to-EBITDA ratio was at 1.26 x at the end of June.

GPA Consolidated

Net debt totaled R\$ 2.557 billion as of 06/30/2012, up R\$ 34 million in comparison with 03/31/2012. The net-debt-to-EBITDA ratio was at 0.78x.

The Company issued three new series of debentures in the quarter and will use the proceeds to lengthen its debt profile:

§ 11th simple debenture issue of Companhia Brasileira de Distribuição (CBD) - R\$ 1.200 billion, with yield of 100% of the CDI + spread of 1% and to mature in 42 months;

§ 1st simple debenture issue of Nova Pontocom (NPC) - R\$ 100 million, with yield at 105.35% of the CDI and to mature in 12 months; and

§ 1st simple debenture issue of Nova Casa Bahia (NCB) - R\$ 400 million, with yield at 100% of the CDI + spread of 0.72% and to mature in 31 months.

The Company endorsed both debenture issues.

GPA Malls & Properties

The opening of stores at Grupo Pão de Açúcar is the result of a planned expansion process. The Company uses its market intelligence to promote synergies between its retail strength and its real estate assets, which are managed by its real estate unit, GPA Malls & Properties (GPA M&P). GPA M&P manages and explores the Company's real estate assets, and looks at unlocking value in this market.

In the second quarter, a R\$ 98 million gross sales revenue was recognized. It is related to a land swap with Cyrela and with Pitangueiras Desenvolvimento Imobiliário of Company's pieces of land for the development and construction of projects, among them Thera Faria Lima Pinheiros, launched in October 2011, and Figue, respectively. The swap revenue is net of the accounting cost of the piece of land.

It is worth noting that the operational cycle at the real estate industry is different from that at the retail industry, for it is longer, generally exceeds the fiscal year period in which the project started and relies on real estate launches and their pace.

For further information on the recognition of such revenue, see explanatory notes number 3.b. and 26, on the Financial Statements.

GPA Food 2Q12 x 2Q11 (excludes real estate projects)

Operating income before income tax totaled R\$ 208 million, up 124,8% over 2Q11. The increase reflects the operational improvement in all formats and strict control over operating and financial expenses. Net income increased 68.6%, to R\$ 157 million, with net margin at 2.4%, up 90 basis points.

Net income for GPA Food including the real estate projects totaled R\$ 253 million in 2Q12, up 171.3% over the same year-ago period. In 1H12, net income totaled R\$ 414 million, up 73.5% over 1H11.

GPA Food 1H12 x 1H11 *(excludes real estate projects)*

In the first half, the operating income before income tax totaled R\$ 412 million, up 78.7% over the same period last year;

GPA Consolidated 2Q12 x 2Q11

Net income totaled R\$ 159 million, up 74.5% over 2Q11, reflecting the operational improvements in GPA Food. The net margin increased 50 basis points in 2Q12 to 1.3%.

GPA Consolidated 1H12 x 1H11

In the first half, net income, including Malls & Properties operations, totaled R\$ 421 million, up 88.5% over the same period last year.

GPA Food 2Q12 x 2Q11 (excludes real estate projects)

At the end of 2Q12, GPA Food's cash flow was positive by R\$ 4.221 billion, up R\$ 1.645 billion over 2Q11, mostly due to the net proceeds and operating cash generation in the period. In May, the Company concluded its 11st debentures issue in the amount of R\$ 1.200 billion.

GPA Consolidated 2Q12 x 2Q11

Cash flow in 2Q12 stood at R\$ 5.473 billion, a R\$ 1.510 billion change in the period.

CAPEX

(R\$ million)	GPA Food						GPA Consolidated

GPA Food 2Q12 x 2Q11 *(excludes real estate projects)*

In 2Q12, GPA Food invested R\$ 318 million, allocated as follows:

§ R\$ 119 million to store renovations and conversions. In 2Q12, the Company opened one Pão de Açúcar store, one Extra Hiper, one Minimercado Extra, and five drugstores.

§ R\$ 98 million to store openings, construction and land acquisitions. In 2Q12, the conversion process of Extra Fácil to Minimercado Extra stores was concluded;

§ R\$ 102 million to infrastructure (technology and logistics) and others;

GPA Food 1H12 x 1H11

In the first half, GPA Food invested R\$ 508 million, most of which, 72.0%, were aimed to land acquisitions and store openings and to renovations and conversions. GPA Food's sales area, which totaled 1,887 thousand square meters mil at the end of the period, should increase between 6.0% and 6.7% in 2012, as per the guidance released by the Company on 05/08/12.

GPA Consolidated 2Q12 x 2Q11

Investments totaled R\$ 391 million, representing 62% of total invested in the first half of the year, which include R\$ 73 million invested in Viavarejo and R\$ 318 million from GPA Food, as

detailed above.

In addition to the GPA Food stores mentioned above, another three Ponto Frio and three Casas Bahia stores were opened in the period. Another 14 GPA Food stores and 18 Viavarejo are currently being built.

Investments in the period are in line with the Company's annual business plan. The Company reaffirm the guidance of approximately R\$ 1.8 billion in investments for this year, of which R\$ 1.4 billion to GPA Food and R\$ 400 million to GPA Non Food.

"The financial information contained in the financial statements are presented in accordance with accounting practices adopted in Brazil and refer to the second quarter of 2012 (2Q12), except where otherwise noted, with comparisons made over the same period last year."

"Any and all information derived from non-accounting or not accounting numbers has not been reviewed by independent auditors."

"For the calculation of " EBITDA" Earnings Before Interest, Taxes, Depreciation and Amortization, According to the table on page 6.

The basis for calculating same-store sales is defined by the sales registered in stores open for at least 12 consecutive months and were not closed for 7 consecutive days or more in this period. Acquisitions are not included in the same-store calculation base in the first 12 months of operation.

Grupo Pão de Açúcar adopts the IPCA consumer price index as its benchmark inflation index, which is also used by the Brazilian Supermarkets Association (ABRAS), since it more accurately reflects the mix of products and brands sold by the Company. The IPCA in the 12 months ended June 2012 was 4.92%

Disclaimer: Statements contained in this release relating to the business outlook of the Company, projections of operating/financial results, the growth potential of the Company and the market and macroeconomic estimates are mere forecasts and were based on the expectations of Management in relation to the Company's future. These expectations are highly dependent on changes in the market, Brazil's general economic performance, the industry and international markets, and are therefore subject to change.

About Grupo Pão de Açúcar and Viavarejo: Grupo Pão de Açúcar is Brazil's largest retailer, with a distribution network comprising approximately 1,810 points of sale and electronic channels. The Group's multiformat structure consists of GPA Food and Viavarejo. GPA Food's operations comprise supermarkets (Pão de Açúcar and Extra Supermercado), hypermarkets (Extra), neighborhood stores (Minimercado Extra), cash-and-carry stores (Assaí), gas stations and drugstores. GPA Food's business is classified as Food and Non-Food (electronics/home appliances, clothing, general merchandise, drugstore and gas stations). Viavarejo's operations consist of bricks-and-mortar stores selling electronics/home appliances and furniture (Ponto Frio and Casas Bahia) and online stores (Nova Pontocom: Extra.com.br, PontoFrio.com.br, Casasbahia.com.br). Founded in 1948 in São Paulo, the Group is present in 20 of the 27 Brazilian states, which jointly account for 94.1% of the country's GDP.

Companhia Brasileira de Distribuição

Notes to the interim financial statements -- Continued

June 30, 2012

(In thousands of Brazilian reais, except when otherwise stated)

1. Corporate information

Companhia Brasileira de Distribuição ("Company" or "GPA"), directly or through its subsidiaries ("Group") operates in the food retailer, clothing, home appliances and other products segment through its chain of hypermarkets, supermarkets, specialized and department stores principally under the trade names "Pão de Açúcar", "Extra Hiper", "Extra Super", "Mini-mercado Extra", "Assai", "Ponto Frio" and "Casas Bahia", apart from e-commerce platforms "Casas Bahia.com," "Extra.com" and "Ponto Frio.Com". The registered office is located at São Paulo, SP, Brazil.

Founded in 1948, the Company has 149 thousand employees, 1,810 stores in 20 Brazilian states and in the Federal District and a logistics infrastructure comprised of 52 warehouses located in 14 states at June 30, 2012. The Company's shares are traded on the Level 1 Corporate Governance segment of the São Paulo Stock Exchange and its shares are listed at the São Paulo ("BM&FBovespa") and New York Stock Exchanges (ADR level III).

The Company is controlled by Wilkes Participações S.A. ("Wilkes").

Casino Arbitration

On May 30, 2011, and July 1, 2011 Casino filed two arbitration requests in accordance with the rules set forth by the International Arbitration Court of the International Chamber of Commerce against Abilio dos Santos Diniz, Ana Maria Falleiros dos Santos Diniz D'Avila, Adriana Falleiros dos Santos Diniz, João Paulo Falleiros dos Santos Diniz, Pedro Paulo Falleiros dos Santos Diniz and Península Participações S.A . ("Península")

On October 5, 2011, Abilio dos Santos Diniz, Ana Maria Falleiros dos Santos Diniz D'Avila, Adriana Falleiros dos Santos Diniz, João Paulo Falleiros dos Santos Diniz, Pedro Paulo Falleiros dos Santos Diniz and Península presented their responses to both arbitration requests and filed counterclaims.

The arbitrations were unified into one single proceeding and an arbitration court composed of three members, was established to settle the dispute. This first hearing of the aforementioned arbitration proceeding, was held in São Paulo on May 9, 2012. The arbitration process is subject to a confidentiality clause and aims to ensure the observation of the Wilkes shareholders' agreement and the law. On June 21, 2012 the Company raised an objection claiming that the Company should not be part in this arbitration, as it is not a part of Wilkes's Shareholders' Agreement.

Corporate events Wilkes

At Extraordinary General Meeting held on June 22, 2012, the following members appointed and approved by shareholders: Mr. Eleazar de Carvalho Filho, Mr. Luiz Augusto de Castro Neves and Mr. Roberto Oliveira de Lima, remaining Mr. Abilio dos Santos Diniz as the Company's chairman of the Board of Directors. Following the changes approved in this meeting, the new composition of the Company's Board of Directors will be as follows: Abilio dos Santos Diniz (chairman), Antoine Marie Remi Lazars Giscard D'Estaing, Arnaud Strasser, Candido Botelho Bracher, Eleazar de Carvalho Filho, Fábio Schvartsman, Geyze Marchesi Diniz, Guilherme Affonso Ferreira, Jean Louis Bourcier, Jean-Charles Henri Naouri, Luiz Augusto de Castro Neves, Pedro Henrique Chermont de Miranda, Pedro Paulo Falleiros dos Santos Diniz, Roberto Oliveira de Lima and Ulisses Kameyama. Mrs. Ana Maria Falleiros dos Santos Diniz D'Avila and Mr. João Paulo Falleiros dos Santos Diniz will no longer be members of the Company's Board of Directors.

On the same date, was also held the Extraordinary General Meeting' for Wilkes, which resolved on replacing the chairman of Wilkes's Board of Directors. Mr. Jean-Charles Henri Naouri, Casino's CEO, was appointed as Chairman of the aforementioned Board, a position previously occupied by Mr. Abilio dos Santos Diniz.

On July 02, 2012, was held another Extraordinary General Meeting' for Wilkes, which informed the composition of the Company's Board of Directors that will be as, follows: Jean-Charles Henri Naouri (chairman), Abilio dos Santos Diniz, Marcelo Fernandez Trindade and Arnaud Strasser. After these events Casino become the sole controlling shareholder of the Company.

Arbitration request by Morzan

Pursuant to the Material Fact released on June 15, 2012, the Company hereby announces that it has received a letter from the International Chamber of Commerce ("ICC") notifying about the request for the filing of an arbitration proceedings ("Proceedings") submitted by Morzan Empreendimentos e Participações Ltda. ("Morzan"), former controlling shareholders of Globex Utilidades S.A. (Ponto Frio network).

The Proceedings are associated with issues originating from the Share Purchase Agreement executed between the subsidiary Mandala Empreendimentos e Participações S.A. on June 8, 2009 (the "Agreement") for acquisition of 86,962,965 registered common shares with no par value, which then represented 70.2421% of the total and voting capital of Globex Utilidades S.A., previous corporate name of Via Varejo S.A. ("Via Varejo"), subject matter of the Material Fact disclosed by the Company on June 8, 2009. The arbitration terms are subject to confidentiality requirements.

On July 11, 2012, the Company exercised its right to appoint an arbitrator to compose the arbitration court responsible for conducting the Proceedings.

The Company understands that the request is unfounded, given that the Agreement was fully complied with, as it will be demonstrated during the Proceedings.

The Company will maintain its shareholders and the market informed of any material developments regarding the Proceedings.

1. Corporate information -- Continued

Restructuring of Via Varejo

On December 14, 2011 the Board of Directors of the Company approved a formal plan for the closure of 88 Ponto Frio stores. Such closings were approved by the Anti-Trust Agency (“CADE”) as required by Preserve Reversibility of Operation Agreement (“APRO”). On December 31, 2011, the Company communicated parties involved (employees, store owners, trade accounts payables and others) and recorded a provision for the closing the stores in the amount of R\$34,700, and R\$20,700 related to the net value of fixed assets and R\$14,000 to other expenses related to the closure.

As of June 30, 2012, 58 out of the 88 stores planned were closed and the Company decided to maintain 8 stores open. On June 30, 2012 the Company had a provision for the closure of R\$12,296, related to 22 stores scheduled to be closed, besides expenses that may be incurred from the shops already closed.

2. Basis of preparation

The Parent Company and Consolidated quarterly financial information were prepared and presented according to the technical pronouncement CPC 21 - Interim Financial Reporting, issued by the Brazilian Accounting Pronouncements Committee (CPC) and IAS 34 - Interim Financial Reporting issued by the International Accounting Standard Board - IASB, respectively, applicable to the preparation of quarterly financial information and presented in a manner consistent with the standards issued by the Brazilian Securities and Exchange Commission ("CVM").

The quarterly financial information for the six-month period ended June 30, 2012 was approved by the Board of Directors at July 23, 2012.

For a better presentation and comparability, certain balances of December 31, 2011 were reclassified.

ITR – Quarterly Financial Information – June 30, 2012 – COMPANHIA BRASILEIRA DE DISTRIBUIÇÃO

**Version:
1**

Companhia Brasileira de Distribuição

Notes to the interim financial statements -- Continued

June 30, 2012

(In thousands of Brazilian reais, except when otherwise stated)

3. Basis for consolidation -- Continued

a) Interest in subsidiaries, associates and joint ventures: -- Continued

All interest were calculated considering the percentage held by the GPA or its subsidiaries. The consolidation not necessarily reflect these percentages, as some companies have shareholders' agreement that the Company has control and, therefore allows the full consolidation.

b) Subsidiaries

The consolidated quarterly financial information includes the financial information of all subsidiaries over which the Parent Company exercises control directly or indirectly.

Subsidiaries are all entities (including special purpose entities) over which the Company has the power to govern the financial and operating policies and generally holds shares of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity. Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Company obtains control and they are excluded from consolidated, where applicable, considering the date that control ceases.

The quarterly financial information of the subsidiaries are prepared on the same closing date as those of the Company, using consistent accounting policies. All intragroup balances, including income and expenses, unrealized gains and losses and dividends resulting from intragroup transactions are eliminated in full.

Gains or losses resulting from changes in equity interest in subsidiaries, not resulting in loss of control are directly recorded in shareholders' equity.

Losses are attributed to the non-controlling interest, even if it results in a deficit balance.

The main direct or indirect subsidiaries, included in the consolidation and the percentage of the Company's interest comprise:

i. Novasoc

Although the Company's interest in Novasoc represents 10% of its shares, Novasoc is included in the consolidated quarterly financial information, as the Company controls 99.98% of the Novasoc's voting rights, pursuant to the shareholders' agreement. Moreover, under the Novasoc shareholders' agreement, the appropriation of its net income does not require to be proportional to the shares of interest held in the entity.

June 30, 2012

(In thousands of Brazilian reais, except when otherwise stated)

3. Basis for consolidation – Continued

b) Subsidiaries -- Continued

ii. PAFIDC and Globex FIDC

The Company consolidates the quarterly financial information of PAFIDC and Globex FIDC that represent investments funds established for the purpose of conducting the securitization of receivables of the Company and its subsidiaries. The consolidation is justified by the fact that the default risks, custody and administration expenses related to the fund are linked to subordinated shares owned by the Company and its subsidiaries.

iii. Via Varejo

The Company holds 52.41% of Via Varejo's capital, giving it control of this subsidiary by consolidating their full financial information. The Via Varejo concentrates activities of trade electronic products, operating under the brands "Ponto Frio" and "Casas Bahia". The Company also operates through its controlled entity Nova Pontocom, in e-commerce of any product for the consumer by the websites: www.extra.com.br, www.pontofrio.com.br and www.casabahia.com.br.

iv. Sendas

The Company directly or indirectly holds 94.37% of Sendas' capital, which operates in retail trade segment, mainly in the State of Rio de Janeiro. For further information on the acquisition of non-controlling interest, see note 14 (a ii).

v. GPA M&P

In 2011, the Company began organizing the GPA M&P, a subsidiary in order to develop its real estate assets.

Revenues are recognized: (i) at the time of barter of land owned by GPA M&P at the fair value of consideration received in barter date, (ii) at the delivery of the units sold by GPA M&P. The cost of units sold includes the cost of the barter initially performed.

3. Basis for consolidation –Continued

c) Associates – Ponto Frio Leasing S.A.

At an Extraordinary General Meeting BINV held on December 30, 2011, approved the merger of the Company based on the balance sheet of November 30, 2011. On April 13, 2012 the Central Bank of Brazil approved such merger. At present, the corporate actions are under registration in the Commercial Registry of the State of São Paulo.

d) BINV and FIC

The Company's investments in its associates Financeira Itaú CBD S.A. – Crédito, Financiamento e Investimento ("FIC") and Banco Investcred Unibanco S.A. ("BINV"), both entities that finance sales directly to GPA customers are result of an association between Banco Itaú Unibanco S.A. ("Itaú Unibanco") with GPA and Via Varejo. Such investments are accounted for using the equity method. An associate is an entity in which the Company has significant influence, but not the control.

Prevailing decisions related to the operational and financial management of BINV and FIC belongs to Itaú-Unibanco.

The income statement for the period reflects the share of the results of operations of the associate. Where there has been a change recognized directly in the shareholders' equity of the associate, the Company recognizes its share of any changes and discloses this, when applicable, in the statement of changes in shareholders' equity. Unrealized gains and losses resulting from transactions between the Company and the associate are eliminated to the extent of the interest in the associate.

The profit sharing of associates is shown on the income statement for the period as equity method results, corresponding to the income attributable to equity holders of the associate and, therefore, to the income after tax and non-controlling interests in the subsidiaries of the associates. The quarterly financial information of the associates are prepared for the same closing date as the Parent Company. Where necessary, adjustments are made to bring the accounting policies in line with those of the Company.

After application of the equity method, the Company determines whether it is necessary to recognize an additional loss due to non-recoverability on the Company's investment in its associates. The Company determines at each balance date whether there is any evidence that the investment in the associate will not be recoverable. If applicable, the Company calculates the impairment amount as the difference between the investment recoverable value of the associate and its carrying amount and recognizes the loss in the income statement for the period.

Upon loss of significant influence over the associate, the Company measures and recognizes any remaining investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the remaining investment and proceeds from write-off are recognized in the income statement for the period.

e) Interest in joint venture – Bartira

The Company maintains an indirect interest joint venture named Bartira, in which GPA holds through its subsidiary NCB 25% and Klein Family through Casa Bahia Comercial Ltda. (“Casa Bahia”), holds 75% which entered into a partnership agreement setting forth the joint control over the entity’s operational activities.

The partnership agreement requires the unanimous resolution of participants in the financial and operational decision-making process. The Company recognizes its interest in the joint venture using the proportional consolidation method. In addition, it combines the proportional amount of each asset, liabilities, income and expenses of joint venture with similar items line by line in its consolidated quarterly financial information. The joint venture quarterly financial information are prepared for the same period and under the same accounting criteria adopted by the Company.

Below the main lines of condensed quarterly financial information of the Bartira:

	06.30.2012	12.31.2011
<u>Current assets</u>	122,282	130,564

Noncurrent assets	61,494	60,258
Total assets	183,776	190,822
<u>Current liabilities</u>	71,692	87,216
Noncurrent liabilities	830	1,177
Shareholders' equity	111,254	102,429
Total liabilities and shareholders' equity	183,776	190,822
	06.30.2012	06.30.2011
<u>Income:</u>		
Net revenue from sales and/or services	230,390	232,224
Net before income tax	11,466	5,494
Net income for the period	8,825	3,481

4. Significant accounting policies

a) Financial instruments

Financial instruments are recognized on trade date and recorded at their fair value plus the transaction costs that are directly attributable to their acquisition or issue. Their subsequent measurement occurs every balance sheet date according to the rules established for each category of financial asset and liability.

Note 19 contains an analysis of the fair value of financial instruments and additional details about how it is measured

a) Financial instruments – Continued

(i) Financial assets

Initial recognition and measurement

Financial assets held by the Company and its subsidiaries within the scope of CPC 38 (IAS 39), are classified as financial assets measured at their fair value through income statement, loans and receivables, derivatives financial instruments designated as hedge instruments and investments held to maturity. The Company and its subsidiaries determine the classification of its financial assets at initial recognition.

Financial assets are initially recognized and measured at fair value through income and transaction costs, expensed in the period. Loans and receivables are carried at amortized cost.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market (negotiations under regular conditions) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

The financial assets of the Company and its subsidiaries include cash and cash equivalents, trade accounts receivables, related party receivables, restricted deposits from legal proceedings and derivative financial instruments.

Subsequent measurement

- Financial assets at fair value through income: are measured at their fair value at each balance sheet date. Interest rates, monetary restatement, exchange variation and variations deriving from the valuation at fair value are recognized in the income statement for the period as financial revenue or expenses when incurred. Financial assets are classified as held for trade if acquired for the purpose of selling or repurchasing in the near term.

4. Significant accounting policies -- Continued

a) Financial instruments -- Continued

(i) Financial assets -- Continued

Subsequent measurement -- Continued

- Loans and receivables: are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After the initial recognition, these are measured using amortized cost through the effective interest rate method. Interest income, monetary restatement and exchange variation, less impairment losses, where applicable, are recognized in the income statement as financial revenue or expenses when incurred.

- Assets and liabilities held to maturity: are financial assets and liabilities which cannot be classified as loans and receivables, for being marketable in the active market. In this case, are acquired with the intention and financial capacity to their maintenance in the Company portfolio until maturity. They are measured at acquisition cost, plus monetary restatement through income, using the effective interest rate.

Derecognition of financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- The rights to receive cash flows from the asset have expired; and
- The Company and its subsidiaries has transferred its rights to receive cash flows from an asset or assume an obligation to pay the received cash flows in full to a third party under a “pass-through” arrangement; and either (a) the Company has transferred nor retained all the risks and benefits related to the asset; or (b) the Company has neither transferred nor retained substantially all the risks and benefits related to the asset, but has transferred its control.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement and has neither transferred nor retained substantially all the risks and benefits related to the asset nor transferred control of the asset, the asset is held and recognized a correspondent liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations retained by the Company and its subsidiaries.

4. Significant accounting policies -- Continued

a) Financial instruments -- Continued

(i) Financial assets -- Continued

Impairment of financial assets

On the balance sheets dates, the Company and its subsidiaries assesses if there is any objective evidence of impairment of a financial asset or a group of financial assets. A impairment of a financial asset or group of financial assets is deemed to be impaired, if and only if, there is objective evidence resulting from one or more events occurred after the asset initial recognition (“loss event”), and in case the event has an impact in estimated future cash flows of financial asset or group of financial assets, which can be reliably estimated. The evidence of impairment may include signs that debtors (or group of debtors) are going through relevant financial constraints, delinquency or default in the amortization of interest or principal, probability of filing for bankruptcy or another type of financial reorganization and when these data indicate a measurable decrease in estimated future cash flows, such as, default interest variations or economic conditions related to defaults.

The loss amount is measured as the difference between the carrying amount of asset and the present value of the estimated future cash flows (excluding future credit losses not incurred) discounted by the

original effective interest rate of the financial asset. The asset's carrying amount decreases when provision is used and the loss is recognized in the income statement for the period. Interest income is recorded in the quarterly financial information as part of the financial revenue.

If, in subsequent period, the impairment decreases and this reduction can be objectively associated with an event occurred after the recognition of the provision (such as an improved debtor's credit rating), the reversal of impairment previously recognized is recorded in the consolidated income statement for the period. If the write-off is later recovered, this recovery is also recorded in the income statement for the period.

ITR – Quarterly Financial Information – June 30, 2012 – COMPANHIA BRASILEIRA DE DISTRIBUIÇÃO

**Version:
1**

Companhia Brasileira de Distribuição

Notes to the interim financial statements -- Continued

June 30, 2012

(In thousands of Brazilian reais, except when otherwise stated)

4. Significant accounting policies -- Continued

a) Financial instruments -- Continued

(i) Financial assets -- Continued

Held-to-maturity financial assets

Referring to the held-to-maturity financial assets, the Company and its subsidiaries firstly verify if there are objective evidence of impairment individually for the significant financial assets or group of assets, which, are not significant individually. If the Company and its subsidiaries determine the nonexistence of objective evidence of impairment of a financial asset evaluated on an individual basis, whether or not this loss is material, the Company classifies it into a group of financial assets with similar credit risk characteristics, which are evaluated collectively. The assets evaluated on an individual basis as to impairment or to which the impairment is (or still is) recognized are not included in the overall losses evaluation.

In the event of objective evidence of impairment, the corresponding loss amount is calculated as the difference between the carrying amount of assets and the present value of estimated cash flows (excluding estimated credit losses and not incurred yet). The present value of estimated cash flows is discounted at

the financial assets original interest rate. If a financial asset bears variable interest rates, the discount to measure eventual impairment will be the interest rate effective at the present date.

The asset's carrying amount is reduced through an allowance account and the amount of the loss is recognized in the income statement for the period. The financial income is still accumulated over the carrying amount less the interest rate used to discount the future cash flows in order to measure the impairment. In addition, the interest income is recorded as part of the financial revenue (expense) in the income statement for the period. Loans and receivables, together with respective allowance, are written off when there is no real prospect of future recovery and all guarantees have been realized or transferred to the Company. If in the subsequent year, the amount of estimated loss of recoverable value suffers any variation due to an event occurred after its recognition, an adjustment is made in the allowance account. If a write-off is later recovered, it is recorded a credit to financial expenses in the income statement for the period.

Notes to the interim financial statements -- Continued

June 30, 2012

(In thousands of Brazilian reais, except when otherwise stated)

4. Significant accounting policies -- Continued

a) Financial instruments -- Continued

(i) Financial assets -- Continued

Trade accounts receivable

Trade accounts receivable are non-derivative financial assets with fixed payments or that may be calculated, observation on the active market. After initial measurement, these financial assets are subsequently measured at the amortized cost according to the effective interest rate method, less impairment. The amortized cost is calculated taking into account eventual discounts or premiums over the acquisition and costs composing the interest rate method. The interest rate method amortization is included in the net financial revenue (expense) under the income statement for the period. Impairment expenses are recognized in the income statement for the period.

Accounts receivable from vendors are related to bonus and discount granted from vendors, contractually established and calculated over purchase volumes, marketing actions and freight cost reimbursements, among other types.

(ii) Financial liabilities

The financial liabilities within the scope of CPC 38 (IAS 39) are classified as loans, financings or derivatives financial instruments designated as hedge instruments in an effective hedge structure, where applicable. The entity defines the classification of the financial assets and liabilities in the initial recognition.

All financial liabilities are recognized initially at fair value, and in the case of loans and financings, plus transaction costs.

The Company's financial liabilities include loans and financings, debentures and derivative financial instruments.

4. Significant accounting policies -- Continued

a) Financial instruments -- Continued

(ii) Financial liabilities -- Continued

Subsequent measurement

After initial recognition, interest bearing loans and financings are subsequently measured at amortized cost using the effective interest rate method. Gains and losses are recognized in the income statement for the period when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is paid, cancelled or expired.

When an existing financial liability is replaced by another from the same creditor on substantially different terms, or if the terms of an existing liability are substantially modified, such exchange, or modification, is treated as a derecognition of the original liability and a recognition of a new liability, and the difference in the respective carrying amounts is recognized in the income statement for the period.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and presented net in the quarterly financial information only if recognized amounts can be offset and if there is an intention of settling them on a net basis, or realize the assets and settle the liabilities simultaneously.

b) Hedge accounting

The Company uses derivative financial instruments such as, interest rate swaps and exchange variation. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently measured at fair value in each balance sheet date. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in fair value on derivatives are taken directly to income statement for the period.

ITR – Quarterly Financial Information – June 30, 2012 – COMPANHIA BRASILEIRA DE DISTRIBUIÇÃO

**Version:
1**

Companhia Brasileira de Distribuição

Notes to the interim financial statements -- Continued

June 30, 2012

(In thousands of Brazilian reais, except when otherwise stated)

4. Significant accounting policies -- Continued

b) Hedge accounting -- Continued

At the inception of a hedge relationship, the Company formally designates and documents the hedge structure to which the Company wishes to apply hedge accounting, as well as the risk management objective and strategy for undertaking the hedge. The documentation includes identification of the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how the entity will assess the effectiveness of changes in the hedging instrument's fair value, in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine if they actually have been highly effective throughout the periods of the financial reports for which they were designated.

For the purposes of hedge accounting, hedges are classified as fair value hedges when hedging the exposure to changes in the fair value of a recognized asset or liability.

Hedges which meet the criteria for hedge accounting are accounted as as fair value hedges, adopting the following procedures:

- The change in the fair value of a derivative financial instrument classified as interest rate hedge is recognized as financial revenue (expense). The change in the fair value of the hedged item is recorded as a part of the carrying amount of the hedged item and is recognized in the income statement for the period.
- For fair value hedges relating to items carried at amortized cost, the adjustment to carrying amount is amortized in the income statement over the remaining term to maturity. Effective interest rate amortization may begin as soon as an adjustment exists, and shall begin no later than when the hedged item no longer adjusted for the changes in its fair value, attributable to the hedged risk.
- If the hedge item is derecognized, the unamortized fair value is recognized immediately in the income statement for the period.
- In calculating fair value, debts and swaps are measured using rates available in the financial market and projected to the date of maturity. The discount rate used to calculate the interpolation method of foreign currency loans, is developed through curves DDI, Clean Coupon and DI x Yen, indexes disclosed by BM&F Bovespa and loans in national currency, the curve is used DI index, published by CETIP and calculated by the method of exponential interpolation.

June 30, 2012

(In thousands of Brazilian reais, except when otherwise stated)

4. Significant accounting policies -- Continued

c) Cash and cash equivalents

In accordance with CPC 03 (IAS 7), cash and cash equivalents consist of cash, investments that are short term, highly liquid, readily convertible to known amounts of cash and subject to an insignificant risk of changes in value with intention and possibility of rescued in short term. Bank overdrafts are included in current liabilities in the quarterly financial information.

d) Trade accounts receivables

_Are recorded and kept in the balance sheet by the nominal values of sales, less the allowance for doubtful accounts, which is established based on risk analysis of the whole portfolio of clients and probability of receiving.

e) Inventories

Inventories are carried at the lower of cost or market. The cost of inventories purchased is recorded at average cost, including warehouse and handling costs, to the extent these costs are necessary to bring inventories available for sale in the stores, net of considerations received from vendors.

Market is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale.

Inventories are reduced by a provision for losses and breakage, which are periodically reviewed and evaluated as to its adequacy.

f) Bonus

Considerations received from vendors are measured and recognized based on contracts and agreements signed with vendors and encompasses agreements by purchase volume, provision of logistics services and one-off negotiations for margin recovery or marketing agreements.

g) Present value adjustment of assets and liabilities

Current monetary assets and liabilities, when relevant, and noncurrent assets and liabilities, are adjusted to their present value. The present value adjustment is calculated considering contractual cash flows and the respective explicit or implied interest rates.

Embedded interest rates on revenues, expenses and costs associated referred to assets and liabilities are adjusted to the appropriate recognition in accordance with the accrual basis of accounting. The present value adjustment is recorded in those items, subject to the application of rule and has a counterpart in the line "financial revenue (expense)".

h) Impairment of non-financial assets

The impairment test intends to provide the actual net realizable value of an asset. This recovery test can be done directly or indirectly, respectively, by sale or by the cash generation through the asset's use in the activities of the Company and its subsidiaries.

Annually, the Company and its subsidiaries, assesses the impairment test in their tangible or intangible assets, or when there is any internal or external evidence that the asset may have a loss of recoverable amount.

An asset's recoverable amount is the highest between the asset's fair value or the value in use of its cash-generating units (CGU), unless the asset does not generate cash inflows that are largely independent from cash inflows of other assets or groups of assets.

If the carrying amount of an asset, or CGU, exceeds its recoverable amount, the asset is considered non-recoverable and is written down to its recoverable amount. In assessing the recoverable amount, the estimated future cash flows are discounted to their present value, using a pre-tax discount rate, which

represents the Company's cost of capital ("WACC"), before taxes, that reflects current market assessments of the time value of the money and the risks related to the asset.

Impairment losses are recognized in the income statement for the year in those expense categories consistent with the function of the impaired asset. A previously recognized impairment loss is reversed, if has been a change in the assumptions used to determine the asset's recoverable amount, except to the goodwill that cannot be reverted in future periods.

4. Significant accounting policies -- Continuedi) Property and equipment

Property and equipment is stated at cost, net of accumulated depreciation and/or impairment losses, if any. Such cost includes the amount of acquisition of the equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant components of property and equipment are replaced, such components are recognized as individual assets with specific useful lives and depreciation. Likewise, when a major replacement is performed, its cost is recognized in the carrying amount of the equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the income statement as incurred.

Assets category	Annual average depreciation rate %
Buildings	2.50%
Improvements	4.20%
Data processing equipment	10.00 to 50.00%
Facilities	4.20 to 10.00%
Furniture and fixtures	8.30 to 33.30%
Vehicles	20.00%
Machinery and equipment	2.80 to 50.00%
Decoration	20.00%

Items of property and equipment and any significant parts are derecognized when no future economic benefits are expected from its use or sale. Any gain or loss arising on derecognition of the assets is included in the income statement for the period.

j) Borrowing costs

In accordance with “CPC20 (R1) - Borrowing Costs”, borrowing costs directly attributable to the acquisition, construction or production of an asset that takes a substantial period of time to get ready for its intended use or sale (qualifying asset) are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the year that they occur. Borrowing costs consist of interest and other costs that the Company and its subsidiaries incur in connection with the funding.

k) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and any accumulated impairment losses. Intangible assets internally generated, excluding capitalized software development costs, are not capitalized and the expenditure is reflected in the income statement for the period when incurred.

Intangible assets consist mainly of purchased software acquired from third parties, software developed for internal use and commercial rights (stores' right to use), list of customers, in case of business combination, advantageous lease agreements, advantageous supply agreements of furniture and tradenames.

Intangible assets with definite useful lives are amortized by the straight-line method. Intangible assets with definite useful lives represented by advantageous lease agreement and advantageous supply agreement of furniture, are amortized according to the economic benefits included in the agreements and tested for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and method are reviewed, at least, at the end of each year. Changes in the expected useful life or

the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing in the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expenses on intangible assets with definite useful lives are recognized in the income statement for the period in the corresponding category consistent with the function of the intangible asset.

Software development costs recognized as assets are amortized over their estimated useful lives, which is 10 (ten) years.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment at each year-end or whenever there is an indication that their carrying amount cannot be recovered, either individually or at the cash generating unit level. The assessment is reviewed annually to determine whether the indefinite useful life continues to be valid. If not, the change in useful life from the indefinite to definite is made on a prospective basis.

Gains or losses when applicable, arising from derecognition of an intangible asset are measured as the difference between the net sales proceeds and the carrying amount of the asset, being recognized in the income statement for the period when the assets are disposed.

4. Significant accounting policies -- Continued

l) Classification of assets and liabilities as current and non-current

Assets (excluding deferred income and social contribution tax) that are expected to be realized, or are intended for sale or consumption, within 12 (twelve) months after the balance sheet date, are classified as current assets. Liabilities (excluding deferred income and social contribution tax) that are expected to be settled within 12 (twelve) months as of the balance sheet date are classified as current.

The deferred tax assets and liabilities are classified as noncurrent, net by consolidated entity.

m) Leasing

The determination of whether an arrangement, or containing leasing, is based on the substance of the arrangement at inception date, i.e., whether fulfillment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset.

Company as a lessee

Financial lease agreements, which transfer to the Company substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the commencement of the lease at the fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are allocated between finance charges and reduction of leasing liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized in the income statement for the period.

Leased assets are depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shortest of the estimated useful life of the asset and the lease term.

Lease agreements are classified as operating leasing when there is no transfer of risk and benefits incidental to ownership of the leased item.

Companhia Brasileira de Distribuição

Notes to the interim financial statements -- Continued

June 30, 2012

(In thousands of Brazilian reais, except when otherwise stated)

4. Significant accounting policies -- Continued

m) Leasing – Continued

Company as a lessee - Continued

The installment payments of leasing (excluding costs of services, such as insurance and maintenance) classified as operating lease agreements are recognized as expenses, according to their accrual basis, during the lease term.

Contingent rents are recognized as expenses in the periods that they are earned.

Company as a lessor

Lease agreements where the Company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating lease. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized over the agreement

term on the same bases as rental income.

Contingent rents are recognized as revenue in the period in which they are earned.

n) Provisions

Provisions are recognized when the Company and its subsidiaries have a present obligation (legal or not formalized) as a result of a past event, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Company and its subsidiaries expect some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the income statement, net of any reimbursement.

o) Dividend distribution

Dividend distribution to the Company's shareholders is recognized as a liability at the end of the year, based on the minimum mandatory dividends established by the bylaws. Any amount above of that amount is only recorded at the date on which such incremental dividends are approved by the Company's shareholders.

(In thousands of Brazilian reais, except when otherwise stated)

4. Significant accounting policies -- Continued

p) Deferred revenue

The deferred revenue are recognized by the Company and its subsidiaries through the advance of amounts received from business partners for exclusivity intermediation service of additional or extended guarantees and recognized in income by the evidence service in the sale of these guarantees with the business partners.

q) Shareholders' equity

Common and preferred shares are classified as shareholders' equity.

When any related party purchases the Company's equity share capital (treasury shares), the consideration paid, including any directly attributable incremental costs is deducted from shareholders' equity until the shares are cancelled or reissued. When such shares are subsequently reissued, any consideration received, net of any directly attributable incremental transaction costs, is included in shareholders' equity. No gain or loss is recognized on the purchase, sale, issuance or cancellation of the Company's own equity instruments. Any difference between the carrying amount and the consideration is recognized in other

capital reserves.

r) Share-based payment

Employees (including senior executives of the Company and its subsidiaries) receive remuneration in the form of share-based payment, whereby employees render services as consideration for equity instruments ("equity-settled transactions").

Equity-settled transactions

The cost of equity-settled transactions is recognized as expense in the period, together with a corresponding increase in shareholders' equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognized for equity instruments at each reporting date until the vesting date, reflects the extent to which the vesting period has expired and the best estimate of the Company and its subsidiaries of the number of equity instruments to be acquired.

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR – Quarterly Financial Information – June 30, 2012 – COMPANHIA BRASILEIRA DE DISTRIBUIÇÃO

**Version:
1**

Companhia Brasileira de Distribuição

Notes to the interim financial statements -- Continued

June 30, 2012

(In thousands of Brazilian reais, except when otherwise stated)

4. Significant accounting policies -- Continued

r) Share-based payment -- Continued

Equity-settled transactions -- Continued

The expense or income for each period represents the change in cumulative expense recognized at the beginning and end of period. No expense is recognized for services that will not complete its acquisition period, except for equity-settled transactions where vesting is conditional upon a market or non-vesting condition, which are treated as vesting irrespective of whether or not the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where an equity instrument is modified, the minimum expense recognized is the expense as if the terms had not been modified. An additional expense is recognized for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification.

In case of cancellation of an equity instrument, it is treated as if it totally vested on the date of cancellation, and any expense not yet recognized for the award, recognized immediately in the income statement. This includes any award where non-vesting conditions within the control of either the Company or the employee are not met. However, if the cancelled plan is replaced by another plan and designated as a replacement grants on the date that it is granted, the cancelled grant and new plan are treated as if they were a modification of the original grant, as described in the previous paragraph. All cancellations of equity-settled transaction are treated equally.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share (see note 25).

s) Earnings per share

Basic earnings per share are calculated based on the weighted average number of shares of each category outstanding during the period, excluding shares issued in payment of dividends and treasury shares.

Diluted earnings per share are calculated as follows:

- *numerator*: earnings for the period; and
- *denominator*: the number of shares of each category is adjusted to include potential shares corresponding to dilutive instruments (stock options), less the number of shares that could be bought back at market, if applicable.

Equity instruments that will or may be settled in Company's shares are included in the calculation only when their settlement would have a dilutive impact on earnings per share.

t) Determination of net income

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and its subsidiaries and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates, and sales taxes or duty. The Company assesses its revenue arrangements against specific criteria in order to determine if it is acting as principal or agent. The Company has concluded that it is acting as a principal in all of its revenue arrangements, except for those referring to extended warranty and insurance policy brokerage. Specifically in this case, the Company operates as an agent, and revenue is recognized on a net basis, which reflects the commission received from insurance companies. The following specific recognition criteria must also be met before revenue is recognized:

(i) Revenue

a) Sales of goods

Revenues from the sale of products are recognized by the fair value and when all risks and benefits inherent to the product are transferred to the buyer, the Company and its subsidiaries no longer has the control or responsibility over the goods sold and the economic benefits generated to the Company and its subsidiaries are probable. Revenues are not recognized if their realization is uncertain.

b) Interest income

For all financial instruments measured at amortized cost, interest income or expense is recorded using the effective interest rate, which is the rate that discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or liability. Interest income is included in the financial income (loss) under the income statement for the period.

t) Determination of net income -- Continued

(ii) Cost of goods sold

The cost of goods sold comprises the cost of purchases net of discounts and bonuses received from trade accounts payables, changes in inventory and logistics costs.

Bonus received from trade accounts payables is measured based on contracts and agreements signed with trade accounts payables.

The cost of sales includes the cost of logistics operations managed or outsourced by the Company, comprising warehousing, handling and freight costs incurred until the availability of goods for sale. The transport costs are included in the acquisition costs.

(iii) Selling expenses

The selling expenses consist of all store expenses, such as salaries, marketing, occupancy, maintenance, etc.

(iv) General and administrative expenses

The general and administrative expenses correspond to overheads and the cost of corporate units, including the purchasing and procurement, IT and finance functions.

(v) Other operating expenses, net

The other operating income and expense correspond to the effects of major events occurring during the period that do not meet the Company's definition for the other income statement line items.

t) Determination of net income -- Continued

(vi) Financial Expenses

Finance expenses include, substantially, all expenses generated by net debt and the receivables securitization during the period offset by capitalized interest, losses related to the measurement of derivatives at fair value, losses on disposals of financial assets, finance charges on lawsuits and taxes interest charges on financial lease, as well as discounting adjustments.

Finance income includes income generated by cash and cash equivalents and escrow deposits, gains related to the measurement of derivatives at fair value, purchase discounts obtained from trade accounts payables, and others discounts obtained.

u) Taxation

Current income and social contribution taxes

Current income and social contribution tax assets and liabilities, for the current and prior periods, are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the tax are those that are enacted or substantially enacted, at the balance sheet dates.

The taxation on income comprises the Corporate Income Tax (“IRPJ”) and Social Contribution on Net Income (“CSLL”), being calculated based on taxable income (adjusted income), at rates applicable in the prevailing laws – 15% over taxable income and 10% surcharge over the amount exceeding R\$ 240 in taxable income yearly for IRPJ and 9% for CSLL.

Deferred income and social contribution taxes

Deferred income and social contribution taxes are generated by temporary differences at the balance sheet date, between the tax basis of assets and liabilities and their carrying amounts.

Deferred income and social contribution tax assets are recognized for all deductible temporary differences, and tax losses carry forward, to the extent that it is probable that taxable profit will be available against which to deduct the temporary differences and unused tax credits and losses except where the deferred income and social contribution tax assets relating to the deductible temporary difference arise from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor tax profit or loss.

Companhia Brasileira de Distribuição

Notes to the interim financial statements -- Continued

June 30, 2012

(In thousands of Brazilian reais, except when otherwise stated)

4. Significant accounting policies -Continued

u) Taxation - Continued

Deferred income and social contribution taxes - Continued

Deferred income and social contribution taxes liabilities referring to all temporary taxable differences, except when the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in an operation, rather than a business combination and, at the time of the operation, affects neither the accounting net profit nor taxable loss.

With respect to deductible temporary differences associated with investments in subsidiaries and associates, deferred income and social contribution taxes are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred income and social contribution tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income and social contribution taxes to be utilized.

Unrecognized deferred income and social contribution tax assets are reassessed at each balance sheet date and are recognized to the extent that it has become probable that future taxable profits will allow these assets to be recovered.

Deferred income and social contribution tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet dates.

Deferred taxes related to items directly recognized in shareholders' equity are also recognized in shareholders' equity and not in the income statement.

Deferred income and social contribution tax assets and liabilities are offset if there is a legal or contractual right to offset the tax assets against the income tax liabilities and deferred taxes refer to the same taxpayer entity and to the same tax authority.

u) Taxation - Continued

Other taxes

Revenues from sales and services are subject to taxation by State Value-Added Tax (“ICMS”), Services Tax (“ISS”), calculated on the basis rates prevailing in each region, and Social Contribution Tax on Gross Revenue for the Social Integration Program (“PIS”) and Social Contribution Tax on Gross Revenue for Social Security Financing (“COFINS”) and are presented net of sales revenue,

Sales taxes

Revenues and expenses are recognized net of the amount of tax, except:

- Where the sales tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in this case, the sales tax is recognized as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- Receivables and payables that are stated with the amount of sales tax included. The net amount of sales tax recoverable from, or payable to, the tax authority is included as part of receivables or payables in the balance sheets.
- Recoverable taxes or taxes paid in advance are recorded as current and noncurrent, according to the expected time of realization.

v) Business combinations and goodwill

Business combinations are recorded using the acquisition method. The cost of an acquisition is measured as the sum between the consideration transferred, measured at fair value on the acquisition date and the remaining amount of noncontrolling interest in the acquired company. For each business combination, the acquirer measures the non-controlling interest in the acquired company at fair value or through the proportional interest in acquired company's identifiable net assets. The acquisition costs incurred are treated as expense and included in the administrative expenses.

4. Significant accounting policies ~~Continued~~

v) Business combinations and goodwill - Continued

When the Company acquires a business, it assesses financial assets and liabilities to the appropriate classification and designation according to contractual terms, economic circumstances and relevant conditions on the acquisition date. This includes the separation of derivatives embedded in agreements by the acquired company.

If the business combination occur in phases, the fair value on the acquisition date of interest previously held by acquirer in acquired company is adjusted to fair value on the acquisition date through income statement.

Any contingent payment to be transferred by acquirer will be recognized at fair value on the acquisition date. Subsequent changes in fair value of contingent payment considered as an asset or liability will be recognized under CPC 38 (IAS 39) through income statement or as change in other comprehensive income. If the contingent payment is classified as equity, it will not be adjusted until it is finally settled under shareholders' equity.

Goodwill is initially measured at cost and the excess between the consideration transferred and the amount recognized for non-controlling interest over assets acquired and liabilities assumed. If this payment is lower than the fair value of net assets of acquired subsidiary, the difference is recognized in the income statement as gain due to bargain gain.

After initial recognition, the goodwill is measured at cost, less eventual impairment losses. For the purposes of impairment test, the goodwill acquired in a business combination is, as of the acquisition date, allocated to each one of the Company's cash generating units which shall benefit from the business combination, regardless if other assets or liabilities of the acquired company will be assigned to these units.

In cases the goodwill composes a cash generating unit and part of the operation at this unit is disposed, the goodwill related to the disposed operation is included in the carrying amount of the operation when gain or loss or disposal of the operation is calculated. This goodwill is then measured based on the disposed operation-related amounts and the portion of the cash generating unit retained.

w) Pension plan

The pension plan is funded through payments to insurance companies, which are classified as defined contribution plan according to CPC 33 (IAS 19). A defined contribution plan is a pension plan through which the Company pays fixed contributions to a separate legal entity. The Company has no legal or constructive obligation to pay additional contributions related with the balance of plan assets.

x) Customer loyalty programs

These are used by the Company to provide incentives to its customers in the sale of products or services. If customer buys products or services, the Company grants them credits. Customer may redeem the credits free of charge as a discount in the amount of products or services.

The Company estimates the fair value of scores granted according to the customer loyalty program, applying statistical techniques, considering the maturity of the plan defined in the rules of the programs.

y) Statement of value added

This statement aims to highlight the value added created by the Company and its distribution during specific period and it is presented as required by Brazilian corporate law, as part of the individual and consolidated quarterly financial information, as it is not a mandatory statement according to IFRS.

This statement was prepared based on information obtained from accounting records, that are the basis of preparation of financial statements, and in accordance with the provisions of technical pronouncement CPC 09 - Statement of Value Added. The first part introduces the wealth created by the Company, represented by the proceeds (gross proceeds of sales, including taxes, other revenues and the effects of allowance for doubtful accounts), by the merchandise purchased from third parties (cost of sales and purchases of materials, energy and services from third parties, including the taxes included in the time of acquisition, the effects of loss and recovery of assets and depreciation and amortization) and the added value received from third parties (pick up, financial revenue and other revenue). The second part of the statement shows the distribution of value added between personnel, taxes and contributions, return on third-party capital and equity.

5. Standards issued but not yet effective

There are no CPCs issued which are not effective yet, but there are IFRS issued to which there is no change in CPCs in force, but it is expected that the Brazilian standards will be in conformity with the international standards until the start date thereof. Below a summary of the IFRS issued but not effective yet:

IFRS 9 – Financial Instruments - Classification and Measurement - IFRS 9 concludes the first part of the replacement project of “IAS 39 Financial Instruments: Recognition and Measurement”. IFRS 9 uses a simple approach to determine if a financial asset is measured at the amortized cost or fair value, based on the way how an entity administers its financial instruments (its business model) and the contractual cash flow, which is a characteristic of the financial assets. The standard also requires the adoption of only one method to determinate asset impairment. The standard will be effective for annual periods beginning on January 1, 2015.

IFRS 10 - Consolidate Financial Statements - IFRS 10 replaces of SIC 12 and IAS 27 and applies to consolidated financial statements when an entity controls one or more other entities. The standard include a new definition of control that represents three elements: a) power over the investee; b) exposure, or rights, to variable returns from its involvement with the investee; and c) the ability to use its power over the investee to affect the amount of the investor's returns. The standard is effective for annual periods beginning on or after January 1^o, 2013.

IFRS 11 - Joint Arrangements - IFRS 11 replaces of SIC 13 and IAS 31 and applies to joint-controlled entities. In accordance with the standard, the participation agreements are classified as joint operations or joint ventures, as the rights and obligations of these agreements. Joint ventures should be accounted by the equity method, while the joint-controlled entities may be accounted by the equity method or by the proportionate accounting method. The standard is effective for annual periods beginning on or after January 1^o, 2013.

IFRS 12 - Disclosure of Interests in Other Entities - IFRS 12 applies to Disclosure of interests in other entities, which is intended to enable users to know the risks, the nature, and the effects in the financial statements of the interest in other entities. The standard is effective for annual periods beginning on or after January 1^o, 2013.

IFRS 13 - Fair Value Measurements - IFRS 13 applies when another IFRS requires or permits fair value measurements or disclosures about fair value measurements (and measurements, such as fair value less costs to sell, based on fair value or disclosures about those measurements). The standard is effective for annual periods beginning on or after January 1^o, 2013.

5. Standards issued but not yet effective - Continued

IASB issued clarifications on the IFRS rules and amendments. Below, the main amendments:

- IAS 1 – Presentation of Financial Statement: Presentation of items under Other Comprehensive Income, whose change is effective for annual periods beginning on or after July 1, 2012;
- IAS 19 – Employee Benefits: It includes from substantial amendments, such as the removal of corridor mechanism and the concept of expected return on plan assets until simple clarifications on valuations, devaluations and reformulation, whose change is effective for annual periods beginning on or after July 1, 2013;
- IAS 27 – Consolidated and Separate Financial Statement: As a result of future application of IFRS 10 and 12, what remains in this standard is restricted to the accounting for subsidiaries, jointly-controlled entities and associates in separate financial statements, whose change is effective for annual periods beginning on or after January 1, 2013; and

- IAS 28 – Investments in Associates: As a result of future application of IFRS 11 and 12, current standard now is IAS 28 – Investment in associates and Joint Ventures and describes the application of equity method for investments in joint ventures, in addition to investments in associates, whose change is effective for annual periods beginning on or after January 1, 2013.

The Company will deepen its studies on the adoption of these pronouncements and interpretations in its individual and consolidated quarterly financial information.

There are no other rules or interpretations issued that have not been adopted yet that according to the Management's opinion, may adversely affect the Company's income (loss) or shareholders' equity.

6. Significant accounting judgments, estimates and assumptions

Judgments, estimates and assumptions

The preparation of the Company's individual and consolidated quarterly financial information requires Management to make judgments, estimates and assumptions that impact the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability impacted in future periods. In the process of applying the Company's accounting policies, Management has made the following judgments, which have the most significant impact in the amounts recognized in the individual and consolidated quarterly financial information:

a) Financial lease commitments – Company as lessee

The Company has entered into commercial property leasing agreements in its leased property portfolio and, based on an evaluation of the terms and conditions of the arrangements, that it retains all the significant risks and rewards of ownership of these properties and recorded the agreements as financial lease.

b) Impairment

According to the policies disclosed in note 4 (h) the Company assessed if there was an objective evidence of assets impairment and in the year ended December 31, 2011, no signs or facts were identified that would require a new assessment.

c) Income taxes

Given the nature and complexity of Company's business, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could result in future adjustments to income tax and expense already recorded. The Company and its subsidiaries establish provisions, based on reasonable estimates, for eventual consequences of audits by the tax authorities for respective countries in which it operates. The amount of such provisions is based on various factors, such as experience of previous tax audits and different interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective entity's domicile.

6. Significant accounting judgments, estimates and assumptions -- Continued

Judgments, estimates and assumptions -- Continued

c) Income taxes -- Continued

Deferred income and social contribution tax assets are recognized for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant Management judgment is required to determine the amount of deferred income and social contribution tax assets that can be recognized, based upon the profit estimates and the level of future taxable profits, based on the business plan approved by the Board of Directors.

The Company and its subsidiaries have tax losses amounting to a tax benefit of R\$869,684 at June 30, 2012 (R\$764,524 in December 31, 2011). These losses do not have limitation periods and relate to the Company and its subsidiaries that have tax planning opportunities available to support these balances.

Further details on taxes are disclosed in the Note 21.

d) Fair value of derivatives and other financial instruments

Where the fair value of financial assets and financial liabilities recorded in the quarterly financial information cannot be derived from active markets, it is determined according to the hierarchy set by CPC 38 (IAS39), to which certain valuation techniques are determined, including the discounted cash flow model. The inputs to these models are taken, where possible, from observable markets or information about comparable operations and transactions on the market. The judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

The fair value of financial instruments that are actively traded on organized markets is determined based on the market quotes, on the balance sheet dates, without any deduction for transaction costs. For financial instruments that are not actively traded, the fair value is based on valuation techniques defined by the Company and compatible with usual practices on the market. These techniques include the use of recent market arm's length transactions, notional to the fair value of similar financial instruments, analysis of discounted cash flows or other valuation models.

6. Significant accounting judgments, estimates and assumptions -- Continued

Judgments, estimates and assumptions -- Continued

d) Fair value of derivatives and other financial instruments -- Continued

When the fair value of financial assets and liabilities recorded in the balance sheet cannot be observed in active markets, it is determined by valuation techniques, including the discounted cash flow method. These methods inputs are collected from the market, where applicable. When these observations are not possible, judgment is required to determine the fair value. This judgment includes considerations of inputs, such as: liquidity risk, credit risk and volatility. Changes in these factors assumptions may affect the fair value of the financial instruments.

e) Share-based payments

The Company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. Estimating fair value for share-based

payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the stock option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in the Note 25.

a) Credit card companies

Credit card sales are receivable from the credit card companies. In the subsidiaries Via Varejo, NCB and Nova Pontocom, credit card receivables, related to the sale of home appliances, are receivable in installments not exceeding 24 months, and such credit card receivables are sold to banks or credit card companies, in order to obtain working capital.

b) Debit card companies

Debit card receivable are related to sale of home appliances and furniture in stores of Via Varejo and its subsidiary NCB, debit card companies pay these receivables on the day after (D+1) the completion of the sale.

c) Consumer credit

Refer to consumer direct credit through dealer (CDCI) which can be paid in 24 installments, mainly in subsidiary NCB.

The Company maintains agreements with financial institutions where it is referred to as intervening party of these operations. (see note 18).

d) Accounts receivable - FIDCs

The Company and Subsidiaries carry out securitization operations of their receivables, mainly represented by credit card company receivables and food voucher, with the PAFIDC and Globex FIDC. The volume of operations was R\$5,017,267 as of June 30, 2012 (R\$4,744,820 as of June 30, 2011) for PAFIDC, R\$1,175,148 as of June 30, 2012 (R\$1,715,242 as of June 30, 2011) for Globex FIDC, in which the responsibilities for services rendered and subordinated interests were retained. The consolidated securitization costs of such receivables amounted to R\$45,752 in June 30, 2012 (R\$69,346 as of June 30, 2011) for PAFIDC and R\$59,339 (R\$64,431 as of June 30, 2011) for Globex FIDC, recognized as financial expenses in the statement of income for the period.

Services rendered, which are not remunerated, include credit analysis and the assistance by the collection department to the fund's manager.

The outstanding balances of these receivables in PAFIDC and Globex FIDC as of June 30, 2012 were R\$2,380,895 (R\$2,558,726 as of December 31, 2011), net of allowance.

e) Adjustment to present value

The discount rate used by subsidiary NCB considers current market valuations as to the cash value over time and asset's specific risks. Credit sales with the same cash value were carried to their present value on the date of the operation, in view of their terms, adopting the monthly average rate of receivables anticipation with credit card companies. In the six-month ended June 30, 2012 these rates were in average 0.81% (0.97% as of December 31, 2011).

f) Allowance for doubtful accounts

The allowance for doubtful accounts is based on average historical losses complemented by Company's estimates of probable future losses:

g) Accounts receivable – Paes Mendonça

The accounts receivable from Paes Mendonça relate to amounts deriving from the payment of third party liabilities by the subsidiaries Novasoc and Sendas. Pursuant to contractual provisions, these accounts receivable are monetarily restated (IGPM) and guaranteed by commercial leasing rights of certain stores currently operated by the Company, Novasoc and Sendas. Maturity of accounts receivable is linked to the lease agreements, which mature in 2014.

h) Accounts receivable from vendors

Accounts receivable from vendors includes rebates and discounts obtained from suppliers. These amounts are established contractually and include amounts for volume purchase discounts, joint marketing programs, freight reimbursements, and other similar programs.

10. Receivables Securitization Fund --Continued

a) Receivables Securitization Fund - Pão de Açúcar --Continued

The capital structure of the fund, at June 30, 2012, is composed by 10,295 senior shares held by third parties in the amount of R\$1,193,791 (R\$1,235,901 as of December 31, 2011), which represent 89.33% of the fund's equity (89.90% as of December 31, 2011) and 2,864 subordinated quotas (the same as of December 31, 2011), held by the Company and subsidiaries in the amount of R\$142,587, which represent 10.67% of the fund's equity (10.10% as of December 31, 2011).

The subordinated shares belong to the Company and are recorded as noncurrent assets, as interest in the fund, with a balance of R\$127,651 as of June 30, 2012 (R\$124,276 in December 31, 2011). The interest held in subordinated shares represents the maximum exposure to the securitization operations.

The interest rates of senior shares are shown below:

	06.30.2012	12.31.2011
	Balance	Balance
Shareholders	Amount	CDI Rate
	redeemable	redeemable

Senior A	5,826	108.0%	692,794	108.0%	758,660
Senior B	4,300	108.0%	217,949	108.0%	207,614
Senior C	169	108.0%	283,048	108.0%	269,627
			1,193,791		1,235,901

Subordinated shares are registered and non-transferable, and were issued in a single series. The Company will redeem the subordinated quotas only after the redemption of senior quotas or at the end of the fund's term. Once the senior quotas have been remunerated, the subordinated quotas will receive the balance of the fund's net assets after absorbing any losses on receivables transferred and any losses attributed to the fund. Their redemption value is subject to credit, prepayment, and interest rate risks on the transferred financial assets.

The holders of senior shares have no recourse against the other assets of the Company in the event customers' delinquency. As contractually agreement between the Company and PAFIDC, the transfer of receivables is irrevocable, irreversible and definitive.

b) Receivables Securitization Fund – Globex FIDC

Globex FIDC is a receivables securitization fund created to acquire the trade accounts receivable of Via Varejo and its subsidiaries, NCB and Nova Pontocom (mainly credit card), originated from the sale of products and services to its customers. This fund was created at November 11, 2010 with determinate, ending on November 11, 2013.

(ii) Sendas

Acquisition of non-controlling interest in Sendas Distribuidora

Sendas S.A. and Barcelona entered into a Purchase and Sale of Shares Agreement and Other Covenants, whereby Sendas's shares held by Sendas S.A. were transferred to Barcelona. The acquisition of this non-controlling interest was approved by the Board of Directors at February 23, 2011 and by Company's General Meeting at March 14, 2011. Sendas S.A. transferred to Barcelona the totality of this interest in Sendas, corresponding to 42.57% of the capital for R\$377,000 to be paid as follows: R\$59,000 upon the transfer of shares and the remaining amount of R\$318,000 in 6 (six) annual and consecutive installments of R\$53,000, the first installment maturing in July 2011, restated by IPCA (Consumer Price Index) as of the fourth installment, being July 2010 the reference basis. This present value of obligation assumed at June 30, 2012 is R\$251,807 (R\$238,863 at December 31, 2011).

Payables for acquisition of non-controlling shareholders

Consolidated

	06.30.2012	12.31.2011
Interest acquisition in Assai (i)	4,773	4,568
Interest acquisition in Sendas (ii)	251,807	238,863
	256,580	243,431
Current liabilities	57,758	54,829
Noncurrent liabilities	198,822	188,602

i. Accounts payable due to the acquisition of non-controlling interest in Assai, subsidiary that operates in the “cash and carry” segment for the Group.

ii. Accounts payable due to the acquisition of non-controlling interest in Sendas, which will be settled in 5 (five) annual installments, and the last amortization will take place in December 2017.

15. Business combinations and acquisition of non-controlling interest

a) Association with Nova Casa Bahia

Context of the partnership

On December 4, 2009, Casa Bahia and GPA entered into a Partnership Agreement (“Partnership Agreement”) aiming at merging their retail trade of durable goods and electronic commerce of durable goods businesses.

On February 3, 2010 the parties signed a Provisional Agreement for the Maintenance of Operation Reversibility (“APRO”) with the Administrative Council for Economic Defense (“CADE”), which determined that the following actions to be taken: (i) maintenance of “Casa Bahia” and “Ponto Frio” brands, as well as separate advertising campaigns, ensuring investments in propaganda and marketing at levels compatible with previous fiscal years, except for the assumptions resulting from the economic scenario; (ii) the maintenance of stores existing in 146 cities where both “Casa Bahia” and “Ponto Frio” are located; (iii) maintenance of respective warehouses and the Bartira’s furniture plant; (iv) maintenance of respective loan policies; and (v) maintenance of separate procurement structures and their commercial contractual instruments, even though they may jointly operate in this segment. Except for these specific conditions, both Via Varejo and

NCB may adopt the measures necessary to merge their activities and capture the synergies resulting from this operation. This present operation is pending approval from CADE.

On July 1, 2010, the parties entered into an addendum to the Partnership Agreement, in which the parties reviewed certain conditions of the partnership, as well as defined the actions required for their implementation.

As a preliminary phase of this businesses merger, at October 1, 2010, the operating assets of Casa Bahia were transferred to NCB through a partial spin-off. This transfer included an equity interest of 25% in Bartira (remainder 75% still owned by CB).

Thus, as of October 1, 2010, NCB operates under "Casas Bahia" brand, which was present at that time in 11 Brazilian states and in the Federal District, represented by 526 stores and 8 warehouses, selling a wide range of electronic products, home appliances and devices, such as furniture, electronic toys, office supplies, mobile phones, computers and accessories.

On November 9, 2010, as a preparatory phase of the process to merge NCB shares into Via Varejo, CDB centralized the retail trade and the electronic commerce of durable goods in Via Varejo. Thus, the Company injected capital into its subsidiary Via Varejo, used in this specific transaction as intervening party and of the consideration transferred to the acquisition, in the following amount: (i) net assets from the Company's electronic products operations, established by the "Extra-Eletrô" brand, in the amount of R\$89,826; (ii) financial investments of R\$290,143; and (iii) receivables between the Company's subsidiaries, in the amount of R\$375,550. On the same date, Via Varejo shareholders' approved the NCB's shares incorporation. Via Varejo started to operate with "Ponto Frio" and "Casas Bahia" brands.

Notes to the interim financial statements -- Continued

June 30, 2012

(In thousands of Brazilian reais, except when otherwise stated)

15. Business combinations and acquisition of non-controlling interest

a) Association with Nova Casa Bahia

Determination of the consideration transferred due to the acquisition of NCB

GPA transferred approximately 47.08% of its entire investment in Via Varejo to partners of CB, which is determined as total consideration transferred for the takeover of NCB (“total consideration transferred”).

Since Via Varejo is a publicly held company, with its shares listed on stock exchanges, carried out by independent purchasers and sellers, for accounting purposes, the fair value of the consideration transferred was determined by the final price of Via Varejo’s common share traded on Bovespa at November 9, 2010, as follows:

	12.31.2010
Number of common shares held by CBD, corresponding to the 98.77% interest	168,927,975

Via Varejo common share quote at November 9, 2010 - R\$	15.00
<u>Market value (Bovespa) of investment in Via Varejo– 98.77%</u>	2,533,920
47.08% of market value of investment in Via Varejo assigned to CB’s shareholders	1,193,082
Fixed mandatory dividends to Bartira’s shareholders (i)	6,069
<i>Assets received from CB considered as consideration transferred:</i>	
Additional payment (ii)	95,084
Call option for controlling interest in Bartira, net of income and social contribution taxes(iii)	(200,864)
Noncontrolling interest over assets received	95,523
Value of total consideration transferred	1,188,894

(i) According to the Partnership Agreement, Bartira will disproportionately distribute mandatory dividends to its shareholders, in order to ensure that CB receives a total of R\$12 million as dividends in the next three years. This mandatory minimum dividend that Bartira shall pay as a disproportional sharing was considered according to CPC 15 and IFRS 3R, as part of the total consideration transferred for the acquisition of control of NCB;

(ii) Additional payment pursuant to indemnization clause 6.3 of the shareholder’s agreement between GPA and CB.

Determination of the consideration transferred due to the takeover of NCB -- Continued

(iii) Fair value of Bartira's call option: the parties granted through the Partnership Agreement, call and put options for the interests held by NCB and CB in Bartira. The conditions are defined as follows:

- During the lock-up period defined in the Partnership Agreement as 36 months, NCB is eligible to sell its 25% interest in Bartira's capital stock for one real (R\$1.00);
- During the period from the end of the lock-up period and the end of the 6th year of the agreement, NCB may acquire the remaining 75% interest in the capital stock of Bartira, currently held by CB, for a total of R\$175,000, adjusted by IPCA (Extended Consumer Index Price); and

- Should NCB do not exercise the aforementioned call option at the end of the 6th year, CB shall have to acquire the 25% interest from NCB for a total of R\$58,500, adjusted by IPCA.

ITR – Quarterly Financial Information – June 30, 2012 – COMPANHIA BRASILEIRA DE DISTRIBUIÇÃO

**Version:
1**

Companhia Brasileira de Distribuição

Notes to the interim financial statements -- Continued

June 30, 2012

(In thousands of Brazilian reais, except when otherwise stated)

15. Business combinations and acquisition of non-controlling interest -- Continued

b) Association with Nova Casa Bahia -- Continued

Fair values of acquired identifiable assets and liabilities -- Continued

(iv) Fair value of investment held in Bartira (25%): it refers to the measurement of fair value of the investment currently held by NCB of 25% of Bartira's capital stock. It was measured by the "Income Approach" method, considering the present value of future benefits generated directly or indirectly measured, through discounted cash flow;

(v) "Casas Bahia" tradename: it is a traditional and well recognized brand in the Brazilian retail trade and is considered one of the most valuable brands, according to specialized brand valuation companies. Considering the strength and recognition of this brand, a market participant should not discontinue it. Its measurement was based on the royalties relief methodology, which represents the remuneration practiced by the market for using the brand, if it were not acquired;

(vi) Commercial rights "Fundo de Comércio": points-of-sale, many of them are located in very busy and large shopping centers. Usually, shopping centers and street stores charge fees related to the assignment

for the right to use the point-of-sale when this asset is transferred. These are measured according to information on comparable transactions in the market by the “Market Approach” method;

(vii) Fair value of property and equipment: calculated using the “Market Approach” method to determine the value of an asset through an analysis of transaction involving comparable assets, with a discount of 10%;

(viii) Advantageous supply agreement with Bartira: NCB has an exclusive supply agreement with Bartira. This agreement holds profitable conditions to NCB in the acquisition of furniture compared to the margins established in the sector. The amount was defined using information on comparable transactions in the market, based on “Income Approach” method; and

(ix) Advantageous stores lease agreement signed with CB: this refers to CBs properties, which include stores, warehouses and buildings which are purposes of operating lease by NCB. This was measured according to information on comparable transactions in the market, based on “Income Approach” method;

No contingent liabilities or assets were identified and recognized on the acquisition date, and even if there were, this would be indemnifiable by CB or GPA, where applicable.

The fair value of the non-controlling interest was measured by applying their interest, through the fair value of identifiable net assets of NCB on the business combination date, as follows:

	12.31.2010
Fair value of acquired net assets	2,937,632
Non-controlling interest	47.56%
Non-controlling interest – measured by the proportional amount method at fair value of acquired net assets	1,397,020

Notes to the interim financial statements -- Continued

June 30, 2012

(In thousands of Brazilian reais, except when otherwise stated)

15. Business combinations and acquisition of non-controlling interest -Continued

a) Association with Nova Casa Bahia - Continued

Gain from a bargain purchase

As a result of: (i) measurement of the total consideration transferred due to takeover of NCB; (ii) measurement of non-controlling interest; and (iii) measurement of identifiable assets and liabilities at their fair value, the Company verified on an accounting basis a gain due to bargain price acquisition, in the amount of R\$351,718, recognized in the statement of income for the fiscal year ended December 31, 2010, under Other operating expenses as follows:

	12.31.2010
Total consideration transferred due to takeover of NCB	(1,188,894)
Non-controlling interest – measured by the proportional amount method at fair value of acquired net assets	(1,397,020)
Fair value of acquired net assets	2,937,632

Bargain purchase resulting from takeover of NCB

351,718

Subsequent measurement –allocation of purchase price

The NCB takeover was accounted for according to the method of acquisition, pursuant to IFRS 3R and CPC 15.

The provisional location of the purchase price was R\$ 453,569 as of December 31, 2010 which was reduced to R\$ 351,718 because of the review intangibles Bartira methodology, surplus of trucks, and other contingent consideration. The measurement period ended on November 08, 2011.

Final allocation of the purchase price has generated the following difference related with allocation provisional released in December 31, 2010.

Gain from a bargain purchase provisional in December 31,2010		453,569
<u>Final valorization of the consideration paid:</u>		(133,851)
Option to purchase - Bartira (ii)	(111,665)	
Additional payment for indemnification (iv)	(95,084)	
Income and social contribution on the variations in the consideration paid	37,849	
Effect of non-controlling interest on the variations in the consideration paid	35,048	
<u>Final identification of intangible assets:</u>		32,000
Supply contract Bartira (ii)	80,121	
Capital gain investment Bartira (ii)	(50,688)	
Capital gain trucks NCB (iii)	92,281	
Other (i)	(29,263)	
Income and social contribution on the variations of intangible assets identified	(31,433)	
Effect of non-controlling interest on the variance of intangible assets identified	(29,018)	
Gain from a final bargain purchase in December 31,2010		351,718

Companhia Brasileira de Distribuição

Notes to the interim financial statements -- Continued

June 30, 2012

(In thousands of Brazilian reais, except when otherwise stated)

15. Business combinations and acquisition of non-controlling interest ~~Continued~~

a) Association with Nova Casa Bahia - Continued

Subsequent measurement –allocation of purchase price Continued

- (i) Adjustments in assets not recoverable from NCB;
- (ii) Value of intangible assets related to Bartira supply agreement, purchase call option and investment of NCB in Bartira, using discounted cash flow;
- (iii) Fair Value of NCB truck fleet;
- (iv) Expenses incurred at Via Varejo related to periods before the business combination, which must be reimbursed to Klein family in proportion to their losses.

That gain is justified mainly due to the extremely positive future developments arising from this partnership. This partnership will allow to NCB better access to financing and synergies in all areas such as trade, logistics, administrative and financial, among others.

Additionally, the partnership with Casa Bahia will put Via Varejo a new level of business, allowing greater national coverage, economies of scale and other benefits to be converted for the benefit of customers and employees that will result in a potentially better profitability, with the consequent valuation of the shares belonging to Casa Bahia. With participation of 47% on Via Varejo, Casa Bahia will continue to actively participate in the operation, either directly or through the Board of Directors.

The costs of the transactions, totaling R\$100,100 were treated as expense and included in other operating expenses in the statement of income for the year ended December 31, 2010.

b) eHUB Business Combination

On November 8, 2010, Via Varejo and the subsidiary Nova Pontocom entered into an agreement for the acquisition of the remaining interest of 55% in E-Hub (an e-commerce service provider). E-Hub was a joint venture booked under investments in affiliated companies. E-Hub's former owners gave 55% of their interest in this company, in addition to R\$20,000 payable on January 8, 2013, in exchange for 6% of the subsidiary Nova Pontocom.

The parties have entered into a shareholders' agreement, with a 7-year duration and mutual guarantee of preemptive rights in any offering related to this interest, always at market values.

The assets received refer to E-Hub's net assets of liabilities at book value, totaling R\$2,200, in addition the return of R\$20,000, while the consideration paid was equivalent to 5.56% of Nova Pontocom, estimated at the fair value of R\$31,530, including the book value. The transaction generated goodwill of R\$9,230.

c) Acquisition of Rede Duque

Context of the operation

In 2009, the Company signed an Agreement for Management Outsourcing (“Management Agreement”) with Rede Duque for a 20-year term, whereby Company conducted the operational and financial management of 39 of the Rede Duque's gas stations through its subsidiary Vancouver Empreendimentos e Participações Ltda. (“Vancouver”) in exchange for a remuneration based on these gas stations’ profitability.

On May 28, 2012, Management Agreement was terminated. As part of the termination agreement, and pursuant to the Agreement for Share Purchase and Other Covenants, Vancouver acquired all the shares of five gas stations (“Acquired Gas Stations”) and established a partnership with Rede Duque in three other gas stations, through the acquisition of shares representing 95% of its capital stock (“Partnership’s Gas Stations”), with the subsequent call option to be exercised by Rede Duque (“Call and Put Option Agreement”).

i) Acquisition of five gas stations

Through the Share Purchase Agreement, Company acquired all the shares of six companies that were part of Rede Duque, operating five gas stations (one of the companies operates the convenience store in one of the acquired gas stations), with average, monthly sales of R\$3.000.

Determination of the compensation transferred for the acquisition of five of gas stations

Under the Management Agreement, the Company and Vancouver had advanced in 2009 R\$30,000 due to the use of GPA tradename in the gas station and exclusive management. The amount of R\$30,000 was conditional on certain events. This amount now reverts to the acquisition of the Acquired Gas Stations, plus an additional payment of R\$10,000, for a total purchase price of R\$40,000.

Provisional identification of fair values of identifiable acquired assets and liabilities

The Company provisionally identified the fair values of identifiable assets and liabilities acquired from Rede Duque, on the business combination date, the net assets of the acquired entities totals R\$3,129.

Goodwill resulting from the acquisition

As a result of: (i) measuring the total compensation transferred due to the acquisition of control of the Acquired Gas Stations, and (ii) provisional measurement the identifiable assets and liabilities at fair value, the Company obtained goodwill in the amount of R\$37,270. The Company will complete the allocation of the purchase price by identifying the intangible assets acquired by December 31, 2012.

ii) Partnership related to three gas stations

Through the Debt Assumption Agreement, executed on the same date between Company, Vancouver and Rede Duque, Vancouver assumed Rede Duque's financing debts in the amount of R\$50,000. On the same date, the parties entered into a Purchase and Sale of Shares and Other Covenants, by which Vancouver acquired approximately 95% of the shares of the Gas Stations, which operated three gas stations with net revenues of approximately R\$3,500. The management of the partnership gas station will remain with Rede Duke, and the Company will have protective vetoes.

Also through the agreement, a Call Option Agreement was executed whereby Vancouver granted Rede Duque an option to purchase its shares representing the capital of the Partnership's Gas Stations, vesting in one year, for R\$50,000, monetarily restated, by 110% of the CDI Interbank Rate, and to be paid in 240 monthly installments. The Company also has a put option that may demand that Rede Duque purchase its shares under the same terms above, in case the call option is not exercised.

Should the call and put options expire unexercised, Vancouver may acquire the shares representing the interest in the Partnership's Gas Stations owned by Rede Duque for one Real (R\$1) plus dividends, related to the one-year partnership period.

The amount of R\$50,000 is recorded as a financial instrument for its exit amount, which is the fair value of the partnership's gas station.

b) Impairment testing of goodwill and intangible assets -- Continued

The goodwill and intangible assets are annually tested for impairment as of December 31, 2011 and 2010 according to the method described in note 4 - Significant accounting policies.

As a result of the impairment tests conducted in 2011, and because no evidence of non-recovery in June 30, 2012, the Company does not recognize losses for impairment.

For the year ending December 31, 2012, Company's Management will perform impairment tests for all goodwill and intangible assets recognized until this date.

d) Tradename

The value was subject to impairment tests through the income approach methodology - Relief Royalty, which consists in determining the value of an asset by measuring the present value of future benefits. Given the indefinite life of the tradename, it was considered to prepare the discounted cash flow the perpetual growth of 2.5%. The royalty rate used was 0.9%

e) Right of use "Fundo de Comércio"

The funds were allocated to the CGU. The CGUs were tested with assets recoverability through the discounted cash flow as of December 31, 2011 and adjustments have not been indentified.

Companhia Brasileira de Distribuição

Notes to the interim financial statements -- Continued

June 30, 2012

(In thousands of Brazilian reais, except when otherwise stated)

18. Loans and financings -- Continued

c) Financing of working capital, swap and funding for consumer intervention -- Continued

The funds to finance working capital are raised with local financial institutions, denominated in local or foreign currencies. Main operations classified into this item are working capital financing.

d) Consumer finance - CDCI

The operations of consumer finance correspond to the financing of credit sales to customers of subsidiary NCB, through a financial institution. Sales can be paid in up to 24 months and the average financial costs are charged 110.91% of CDI. For such contracts, NCB retains substantially all the risks and benefits linked to loans financed with financial institutions secured by promissory notes issued by subsidiary and by assignment of receivables

e) BNDES

The line of credit agreements denominated in Brazilian reais, with the Brazilian Development Bank (BNDES), are subject to the indexation based on the TJLP rate (long-term rate), increased rates of pay and cost of funding, to reflect it in the BNDES' funding portfolio. Financing is paid in monthly installments after a grace period, as mentioned in the table below.

The Company cannot offer any assets as collateral for loans to other parties without the prior authorization of BNDES and it must comply with certain financial ratios, calculated based on the consolidated balance sheet, as follows: (i) maintenance of a capitalization ratio (shareholders' equity/total assets) equal to or in excess of 0.30 and (ii) EBITDA/Net debt equal to or greater than 0.35. The Company controls and monitors these indexes.

As of June 30, 2012, the Company was in compliant with the aforementioned clauses.

f) Guarantees

The Company signed promissory notes and letters of guarantee in the loans and financings took out with BNDES and IBM.

g) Swap contracts

The Company uses swap operations to exchange liabilities denominated in U.S. dollars and fixed interest rates with Real pegged to CDI floating interest rates. The Company contracts swap operations with the same counterparty, currency and interest rates. All these transactions are classified as hedge accounting, as disclosed in note 19. The CDI annual benchmark rate at June 30, 2012 was 10.61% (11.60% as of December 31, 2011).

h) Redeemable PAFIDC and Globex FIDC quotas

As per CPC 38 (IAS 39), the Company records the amounts related to the senior quotas as "Loans and financing".

19. Financial instruments

The Company uses financial instruments only for protection limited to 100% of the risk. The derivative transactions have the exclusively objective of reducing the exposure to the foreign currency fluctuation and interest rate, and to maintain a balanced capital structure.

The main financial instruments and their amounts recorded in the quarterly financial information by category, are as follows:

	Parent Company			
	Carrying amount		Fair value	
	06.30.2012	12.31.2011	06.30.2012	12.31.2011

(In thousands of Brazilian reais, except when otherwise stated)

19. Financial instruments –Continued

The fair value of other financial instruments described in Note 19 (b) is a proxy of the book value based on the payments stream agreed. The classification of assets and liabilities at fair value are described in note 19 (c).

a) Considerations on risk factors that may affect the business of the Company and its subsidiaries

The Company adopts risk control policies and procedures, as outlined below:

(i) Credit risk

- Cash and cash equivalents: in order to minimize credit risk of these investments, the Company adopts policies restricting the marketable securities to be allocated in a single financial institutions, also taking into consideration monetary limits and financial institution evaluations, which are continuously updated (See Note 7).

- Accounts receivable: the Company sells directly to individual customers through post-dated checks, in a very small portion of sales, 0.07% as of June 30, 2012 (0.09% as of December 31, 2011).
- The Company also has counterparty risk related to the derivative instruments; such risk is mitigated by the Company's policy of carrying out transactions with major financial institutions.
- Credit card and/or meal ticket sales are substantially transferred to PAFIDC and Globex FIDC, the risk of which is related and limited to the amount of subordinated quotas held by the Company (See note 10).

(ii) Interest rate risk

The Company and its subsidiaries raise loans and financings with main financial institutions in order to deal with cash needs for investments and growth. As a result, the Company and its subsidiaries are exposed to relevant interest rates fluctuation risk, especially in view of derivatives liabilities (foreign currency exposure hedge) and CDI-pegged debt. The balance of cash and cash equivalents, indexed to CDI, partially offsets this effect.

19. Financial instruments –Continued

a) Considerations on risk factors that may affect the business of the Company and its subsidiaries - Continued

(iii) Exchange rate risk

The Company and its subsidiaries are exposed to exchange rate fluctuations, which may increase outstanding balances of foreign currency-denominated loans. The Company and its subsidiaries use derivatives, such as swaps, to hedge against the exchange variation deriving from foreign currency denominated loans..

(iv) Capital risk management

The main objective of the Company’s capital management is to ensure that the Company sustains its credit rating and a well-defined equity ratio, so that to support businesses and maximize shareholder value. The Company manages the capital structure and makes adjustments taking into account changes in the economic conditions.

There were no changes as to objectives, policies or processes during the period of six-month ended June 30, 2012.

	Parent Company		Consolidated

(vi) Derivative financial instruments

Few swap operations are classified as fair value hedge, whose objective is to hedge against foreign exchange exposure (U.S. dollars) and fixed interest rates, converting the debt into domestic interest rates and currency.

These contracts amount to R\$1,716,483 at June 30, 2012 (R\$2,057,826 in December 31, 2011). These operations are usually contracted under the same terms of amounts, maturities and fees, and preferably are carried out with the same financial institution, observing the limits set by Management.

(In thousands of Brazilian reais, except when otherwise stated)

19. Financial instruments –Continued

a) Considerations on risk factors that may affect the business of the Company and its subsidiaries - Continued

(vi) Derivative financial instruments – Continued

The Company's derivatives contracted before December 31, 2008, are measured at fair value through income statement, including: (i) swap agreements of foreign currency debts (U.S. dollars), to convert from fixed interest rates and foreign currencies to Brazilian Reais and domestic variable interest rates (CDI). These agreements amounted to a notional amount of R\$259,883 as of June 30, 2012 (R\$607,184 as of December 31, 2011) and (ii) The remaining swap agreements are primarily related to debentures and BNDES loans, exchanging variable domestic interest rates plus fixed interest rates with variable interest rates (CDI).

According to the Company's treasury policies, swap caps, margins, as well as return clauses, double index, flexible options or any other types of transactions different from traditional swap operations to hedge against debts, including for speculative purposes.

The Company's internal controls were designed so that to ensure that transactions are conducted in compliance with this treasury policy.

The Company calculates the effectiveness of debts designated as hedge accounting on inception date and on continuing basis. Hedges designated transactions contracted in the six- month period ended June 30, 2012 were effective in relation to the covered risk. For derivative transactions qualified as hedge accounting, according to CPC 38(IAS 39), the debt is also adjusted at fair value.

June 30, 2012

(In thousands of Brazilian reais, except when otherwise stated)

19. Financial instruments –Continued

a) Considerations on risk factors that may affect the business of the Company and its subsidiaries - Continued

(vi) Derivative financial instruments - Continued

Realized and unrealized gains and losses over these contracts during the period of six-month ended as of June 30, 2012 are recorded in the net financial result and balance payable by fair value is R\$108,848 (R\$28,894 as of December 31, 2011) and recorded under “Loans and financings”.

Fair value hedge effects in the income for the six-month period ended June 30, 2012 were R\$23,161 of loss, (R\$66,293 of loss as of June 31, 2011).

(vii) Fair values of derivative financial instruments

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Fair values are calculated by projecting the future cash flows of operations, using the curves of CDI and discounting them to present value, using CDI market rates for swaps both disclosed by BM&F Bovespa.

Fair values of swaps – the exchange of the dollar plus fixed coupon rate for a CDI rate was obtained by currency coupon curves. In order to calculate the coupon of foreign currency indexed-positions, the straight line convention - 360 consecutive days was adopted and to calculate the coupon of CDI indexed-positions the exponential convention - 252 business days was adopted.

b) Sensitivity analysis of financial instruments

Listed companies must disclose an illustrative chart of sensitivity analysis, for each type of market risk deemed as relevant by Management, to which the entity is exposed at the closing date of each period.

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR – Quarterly Financial Information – June 30, 2012 – COMPANHIA BRASILEIRA DE DISTRIBUIÇÃO

**Version:
1**

Companhia Brasileira de Distribuição

Notes to the interim financial statements -- Continued

June 30, 2012

(In thousands of Brazilian reais, except when otherwise stated)

19. Financial instruments –Continued

b) Sensitivity analysis of financial instruments - Continued

In compliance with the aforementioned paragraph, according to the Management's assessment the most probable scenario is what the market has been estimating through market curves (currency and interest rates) of BM&FBovespa, on the maturity dates of each operations. Therefore, in the probable scenario, there is no impact on the fair value of financial instruments already mentioned above. For scenarios II and III, for the sensitivity analysis effect, a deterioration of 25% and 50% was taken into account, respectively, on risk variables, up to the maturity date of financial instruments.

In order to calculate the fair value, debts and swaps are measured through rates disclosed in the financial market and projected up to their maturity date. The discount rate calculated through the interpolation method of foreign currency-denominated loans is developed through DDI curves, Clean Cupom and DI x Yen, indexes disclosed by BM&FBovespa (Securities, Commodities and Futures Exchange), and DI curve is used in domestic currency-denominated loans, an index published by CETIP and calculated through the exponential interpolation method.

In case of derivatives (aiming at hedging the financial debt), changes in scenarios are accompanied by respective hedges, indicating effects are not significant, see item b(ii).

The Company disclosed the net exposure of the derivatives financial instruments, corresponding financial instruments and certain financial instruments in the sensitivity analysis chart below, for each of the scenarios mentioned:

(i) Fair value hedge (at maturity dates)

Operations	Risk	Market projection		
		Scenario I	Scenario II	Scenario III
Debt at pre-fixed rate	Rate increase	(1,339,022)	(1,339,022)	(1,339,022)

Notes to the interim financial statements -- Continued

June 30, 2012

(In thousands of Brazilian reais, except when otherwise stated)

19. Financial instruments –Continued

b) Sensitivity analysis of financial instruments - Continued

Sensitivity assumptions

The Company's net exposure corresponds to the CDI-pegged debt and total net effect represents the deterioration of scenarios II and III in relation to scenario I, which is considered the most probable scenario by the Company.

The Company used projected future interest and U.S. dollar rates, obtained with BM&FBovespa on the maturity date of each agreement, considering an increment of 25% in scenario II and an increment of 50% for scenario III.

In order to calculate the net exposure, all derivatives were considered at their fair value on respective maturity dates, as well as their related debts (hedged items) and other Company's financial instruments.

c) Fair value measurements

Consolidated assets and liabilities measured at fair value are summarized below:

	06.30.2012	Quoted prices in active markets for identical instruments (level 1)	Significant other observable inputs(Level 2)	Other observable inputs(Level 3)
Cash and cash equivalents	5,473,383	5,473,383	-	-
Cross-currency interest rate swaps	42,103	-	42,103	-
Interest rate swaps	66,745	-	66,745	-
Loans and financings	(3,415,951)	-	(3,415,951)	-

(i) Tax loss carryforwards are related to the acquisition of Sé and Via Varejo and those generated by the subsidiary Sendas Distribuidora. The realization of these net assets from the valuation reserve is deemed

as probable according to Company's business plan.

Based on these studies, the Company estimates to recover these tax credits, as follows:

<u>Year</u>	Parent Company	Consolidated
2012	60,957	294,793
2013	48,478	201,673
2014	14,816	219,608
2015	14,816	237,111
2016	72,623	231,827
	211,690	1,185,012

Pursuant to CPC 32 (IAS 12) – Taxes on Income, the Company's Management prepared a technical feasibility study about the future realization of deferred tax asset, considering the Company's probable capacity of generating taxable income, according to the main variables of its businesses. This study was examined based on information extracted from the strategic planning report approved by the Board of Directors of the Company.

The balance of deferred income and social contribution assets and liabilities were reclassified as of June 30, 2012 and December 31, 2011 in order to present the net amount per entity, pursuant to CPC 32 (IAS 12).

22. Provision for contingencies

The provision for contingencies is estimated by the Company and corroborated by its legal counsels. The provision was set up in an amount considered sufficient to cover losses deemed as probable by the Company's legal counsel:

a) Parent Company

	Taxes and other	Social Security and Labor	Civil	Total
Balance at 12.31.2011	126,498	75,543	34,881	236,922
Additions	5,910	13,640	5,499	25,049
Payments	(11,594)	(8,942)	(4,945)	(25,481)
Monetary restatement	3,624	5,092	3,550	12,266
Balance at 06.30.2012	124,438	85,333	38,985	248,756

b) Consolidated

	COFINS/PIS	Taxes and other	Social Security and Labor	Civil	Total
Balance at 12.31.2011	78,050	346,129	132,853	123,091	680,123
Additions	2,301	25,234	35,932	38,861	102,328
Payments	(947)	(25,488)	(23,356)	(16,364)	(66,155)
Reversals	-	(21)	(2,446)	(33,116)	(35,583)
Monetary restatement	2,451	10,029	14,791	13,087	40,358
Balance 06.30.2012	81,855	355,883	157,774	125,559	721,071

c) Taxes

Tax claims are indexed by the Central Bank Overnight Rate ("SELIC"), 10.18% as of June 30, 2012 (11.04% as of December 31, 2011), and are subject, when applicable, to fines. In all cases, both interest charges and fines, when applicable, have been computed and fully accrued with respect to unpaid amounts.

Tax claims are subject to monthly adjustment to the amount of provisions for litigations according to the index rates used by each tax jurisdiction. The monetary restatement is required by laws for all tax amounts, including provision for contingencies.

The main provisioned tax claims are as follow:

COFINS and PIS

With the non-cumulativeness treatment when calculating PIS and COFINS, the Company and its subsidiaries started calling into question the right to exclude the ICMS from the calculation basis of these two contributions.

(In thousands of Brazilian reais, except when otherwise stated)

22. Provision for contingencies -- Continued

c) Taxes - Continued

COFINS and PIS -- Continued

In addition, the Company made a controlled compensation of tax debts of PIS and COFINS IPI credits - inputs subject to a zero rate or exempt - acquired from third parties (transferred on the basis of final decision). The claims amounts of PIS and COFINS in June 30, 2012 is R\$81,855 (R\$78,050 as of December 31, 2011).

Taxes and other

The Company and its subsidiaries have other tax claims, which after analysis of its legal counsels, were deemed as probable losses and accrued by the Company. These are: (i) tax assessment notices related to purchase, industrialization and sale of soybean and byproducts exports (PIS, COFINS and IRPJ); (ii) disagreement on the non-application of Accident Prevention Factor (FAP) for 2011; (iii) disagreement on the “Fundo de Combate à Pobreza” (State Government Fund Against Poverty), enacted by the Rio de Janeiro State government; (iv) question related to compensation of tax losses, as well as acquisition of

supplier considered disqualified before the registration of the Internal Revenue Service of State, error in application rate, ancillary obligations by state and treasury departments and (v) other less relevant issues. The amount recorded at June 30, 2012 is R\$158,647 (R\$161,460 in December 31, 2011).

In addition, the Company discusses in court the eligibility to not pay the contributions provided for by Supplementary Law 110/2001, referring to the FGTS (Government Severance Indemnity Fund for Employees) costs. The accrued amount at June 30, 2012 is R\$29,329 (R\$26,334 in December 31, 2011).

Tax provisions for tax contingencies were recorded in Via Varejo subsidiary, which upon business combination are recorded, according to CPC 15 (IFRS 3) requirements. At June 30, 2012 the amount registered was R\$167,907 (R\$158,335 in December 31, 2011) in tax contingent liabilities.

Main tax contingent liabilities recorded refer to administrative proceedings related to the offset of PIS contribution, under the protection of Decrees 2445/88 and 2449/88, generated in view of credits deriving from legal proceedings and the offset of tax debts with contribution credits incurring on coffee exports.

22. Provision for contingencies -- Continued

d) Labor

The Company is party to numerous lawsuits involving disputes with its employees, primarily arising from layoffs in the ordinary course of business. At June 30, 2012, the Company recorded a provision of R\$144,225 (R\$118,574 as of December 31, 2011) referring to lawsuits whose risk of loss was considered probable. Management, assisted by its legal counsels, evaluates these risks and provides for losses where reasonably estimable, bearing in mind previous experiences in relation to the amounts sought. Labor claims are indexed to the Referential Interest Rate (“TR”) 0.91% accumulated in the period of six months ended at June 30, 2012 (1.20% as of December 31, 2011) accrued of 1% monthly interest.

Labor provisions were recorded in Via Varejo subsidiary referring to contingencies recognized upon business combination amounting to R\$13,546 at June 30, 2012 (R\$14,279 as of December 31, 2011).

e) Civil and other

The Company is a defendant, at several judicial levels, in lawsuits of civil nature, among others. The Company's Management sets up provisions in amounts considered sufficient to cover unfavorable court decisions when its internal and external legal counsels consider losses to be probable.

Among these lawsuits, we point out the following:

- The Company files and answers various lawsuits in which it requests the review of lease amounts paid by the entity. . The Company recognizes a provision of the difference between the amount originally paid by the stores and the values pleaded by the opposite party in the lawsuit, when there is an understanding of internal and external legal advisers that there is likely to be changed the value of the rental paid by the company entity. At June 30, 2012, the accrual amount for these lawsuits is R\$29,327 (R\$21,853 in December 31, 2011), for which there are no escrow deposits;
- The subsidiary Via Varejo is party in lawsuits involving the consumer relations rights (civil claims and assessments from PROCON) and few lawsuits involving contracts terminated with trade accounts payables, and the amount referred to in said lawsuits totals R\$57,249 at June 30, 2012 (R\$62,965 in December 31, 2011); and
- Civil provisions were recorded in Via Varejo subsidiary referring to contingent liabilities recognized upon business combination amounting to R\$6,090 (R\$6,553 in December 31, 2011).

Total civil actions and other at June 30, 2012 is R\$125,568 (R\$123,092 in December 31, 2011).

f) Other non-accrued contingencies

The Company has other litigations which have been analyzed by the legal counsels and deemed as possible but not probable; therefore, they have not been accrued, amounting to R\$5,650,393 as of June 30, 2012 (R\$4,787,183 as of December 31, 2011), and are mainly related to:

- INSS (Social Security Tax) – The Company was served notice regarding the non-levy of payroll charges on benefits granted to its employees, and the loss, considered possible, corresponds to R\$268,784 as of June 30, 2012 (R\$252,599 as of December 31, 2011). The proceedings are under administrative and court discussion;
- IRPJ, IRRF, CSLL, IOF, and IPI – The Company has several assessment notices regarding offsetting proceedings, rules on the deductibility of provisions and payment discrepancies and overpayments; fine due to failure to comply with ancillary obligation, amongst other less significant taxes. These proceedings await decision in the administrative and court level. The amount of which corresponds to R\$446,859 as of

June 30, 2012 (R\$377,317 as of December 31, 2011);

- COFINS, PIS and CPMF – The Company has been challenged for offsetting, collection of taxes on soybean export operations, tax payment discrepancies and overpayments; fine due to failure to comply with ancillary obligation, among other less significant taxes. These proceedings await decision in the administrative and court level. The amount involved in these assessments is R\$1,062,198 as of June 30, 2012 (R\$861,096 as of December 31, 2011);
- ICMS – The Company was served notice by the state tax authorities regarding on the appropriate of credits: (i) electricity; (ii) acquisitions from vendors considered to be in arrears/default according to the Internal Revenue Service of State; (iii) refund of tax replacement without due compliance of ancillary obligations brought by CAT Ordinance 17 of the State of São Paulo; (iv) resulting from the sale of extended warranty, (v) financed from sales; (viii) among others, not relevant. The total amount of these assessments is R\$2,756,845 as of June 30, 2012 (R\$2,516,572 as of December 31, 2011), which await a final decision in the administrative and court levels;
- ISS, Municipal Real Estate Tax (“IPTU”), Property Transfer Tax (“ITBI”) and other – These are related to assessments on third parties retention, IPTU payment discrepancies, fines due to failure to comply with ancillary obligations and sundry taxes, the amount is R\$354,912 as of June 30, 2012 (R\$354,578 as of December 31, 2011) and await administrative and court decisions;

25. Shareholders' Equity

a) Capital stock

The subscribed and paid-up capital is represented by 263,048 as of June 30, 2012 (260,239 as of December 31, 2011) in thousands of registered shares with no par value, of which 99,680 in thousands of common shares as of June 30, 2012 and December 31, 2011, and 163,368 in thousands of preferred shares at June 30, 2012 (160,559 as of December 31, 2011).

The Company is authorized to increase its capital stock up to the limit of 400,000 (in thousands of shares), regardless of the amendment to the Company's Bylaws, by resolution of the Board of Directors, which will establish the issue conditions.

At the Board of Directors Meeting held at February 16, 2012, the capital was increased by R\$515 by means of the issue of 36 thousands preferred shares.

At the Board of Directors Meeting held at June 4, 2012, the capital was increased by R\$12,332 by means of the issue of 897 thousands preferred shares.

b) Share rights

Preferred shares ("PNA") are non-voting and entitle the following rights and advantages to its holders: (i) priority in the reimbursement of capital should the Company be liquidated; (ii) priority in the receipt of a non-cumulative annual minimum dividend of R\$0.08 per share; (iii) right to receive a dividend 10% greater than the dividend attributed to common shares, including the preferred dividend paid pursuant to item (ii) above for the purposes of calculating the respective amount.

c) Capital reserve – special goodwill reserve

At the Special Shareholders' Meeting held at March 31, 2011, the shareholders approved the capital increase in the amount of R\$105,675 through the capitalization of special goodwill reserve. Out of this total, R\$21,135 will be capitalized without the issue of new shares, to the benefit of all shareholders, and R\$84,540 will be capitalized to the benefit of the controlling shareholder Wilkes, pursuant to Article 7 of CVM Rule 319/99, by means of issue of 1,354 thousands new preferred shares.

This reserve was generated by the corporate restructuring realized in 2006, and consisted of merging the former holding company, resulting in deferred income tax assets savings of R\$103,398, and represents the future tax benefit through the amortization of incorporated goodwill. The special goodwill reserve corresponding to the benefit already received shall be capitalized at the end of each year to the benefit of controlling shareholders, with the issue of new shares.

c) Capital reserve – special goodwill reserve- Continued

The capital increase is subject to the preemptive right of non-controlling shareholders, according to each one's interest by type and class of share at the time of issue and the amounts paid by noncontrolling shareholders will be directly delivered to the controlling shareholder.

At the Extraordinary General Meeting held at April 27, 2012, the shareholders approved to increase the Company's capital, in the amount of R\$ 200,906, by capitalizing the special goodwill reserve. Out of this amount, R\$40,181 were capitalized without issuing new shares and R\$160,725 were capitalized to the benefit of Wilkes.

d) Granted options

The “options granted” account recognizes the effects of the Company's executives share-based payment under CPC 10 (IFRS 2).

e) Revenue reserve

(i) Legal reserve: is formed based on appropriations from retained earnings of 5% of net income of each year, limited to 20% of the capital.

(ii) Expansion reserve: is formed based on appropriations of the amount determined by shareholders to reserve funds to finance additional capital investments and working and current capital through the appropriation of up to 100% of the net income remaining after the appropriations determined by law and supported by capital budget, approved at meeting.

At the Extraordinary General Meeting held at April 27, 2011, the shareholders approved the Management proposal referring to the capital stock increase, in the amount of R\$358,414, without issuing new shares, by capitalizing the Expansion Reserve and the Profit Retention Reserve based on the Capital Budget, both of them created at the Annual General Meeting held at March 31, 2011.

f) Share-based payment plans _

(i) Stock option plan for preferred shares

Pursuant to the resolutions at the Special Shareholders' Meeting, held at December 20, 2006, the amendment to the Company's Stock Option Plan was approved, the original Plan was approved by the Special Shareholders' Meeting held at April 28, 1997.

25. Shareholders' Equity Continued

f) Share-based payment plans - Continued

(i) Stock option plan for preferred shares - Continued

Starting on 2007, the grants of stock options to Management and employees, will take place as following the rules below:

Shares will be classified as follows: Silver and Gold, and the quantity of Gold-type shares may be decreased and/or increased (reducer or accelerator), at the discretion of the Plan Management Committee, in the course of 35 months following the granting date.

The exercise price for the Silver-type share will correspond to the average of closing price of the Company preferred shares occurred over the last 20 trading sessions of BOVESPA, prior to the date on which the Committee resolves on the granting of option, with a 20% discount. The price for the Gold-type share will correspond to R\$0.01 and the granting of these options are additional to the Silver options, and the

granting or the exercise of Gold options is not possible separately. In both cases, the prices will not be restated.

The Silver and Gold options shall be effective as of the date of the respective agreement. The number of shares resulting from the Silver option is fixed (established in the agreement). The number of shares resulting from the Gold option is variable, establishing on the granting date a number of shares that may be increased or decreased, according to the Return on Invested Capital ("ROIC") verified at the end of the 36th month as of the granting date. In accordance with item 3.3 of the Plan, the Committee decided that, from the Series A6, including the reducing or increasing the amount of options such as "Gold" will be determined based on attendance of Return on Capital Employed (ROCE) of CBD.

As a general rule of the Stock Option Plan, which can be changed by the Committee of Stock Option in each series, the exercise of the option will be from the 36th month until the 48th months from the date of grant, the employee will be entitled to acquire 100% of the shares whose option was classified as "Silver". The exercise of options classified as "Gold" will occur in the same period, but the percentage of such options subject to performance is determined by the Stock Option Committee, on the 35th month following the date of grant.

The options granted under the Stock Option Plan may be exercised in whole or in part. It is worth noting that "Gold" are additional options to "Silver" and thus the options "Gold" may only be exercised in conjunction with the "Silver".

The price on the exercise of options granted under the Stock Option Plan shall be fully paid in local currency by the employee, and the exercise price must be paid in one installment, due after 30 days after the date of subscription of their shares.

At the Board of Directors Meeting held at May 7, 2010, the increase of the global limit of shares allocated to the Company's General Stock Option Plan was approved, from 10,118 thousand class A preferred shares to 11,618 thousand shares, an increase of 1,500 thousand new preferred shares.

f) Share-based payment plans - Continued

(ii) Consolidated information on the stock option plans – GPA

The chart below show the maximum percentage of interest dilution to which current shareholders will eventually be subject to in the event of exercise up to 2011 of all options granted:

	06.30.2012	12.31.2011
Number of shares	263,048	260,239
Balance of granted series in effect	2,081	1,963
Maximum percentage of dilution	0.79%	0.75%

The fair value of each option granted is estimated on the granting date, by using the options pricing model "Black&Scholes" taking into account the following assumptions: (a) expectation of dividends of 0.81 (1.09% as of December 31, 2011), (b) expectation of volatility of nearly 33.51% (25.14% as of December 31, 2011) and (c) the risk-free weighted average interest rate of 10.19% (12.43% as of December 31, 2011). The

expectation of average remaining of the series outstanding as of June 30, 2012 was 2.04 years (1.77 year as of December 31, 2011). The weighted average fair value of options granted in June 30, 2012 was R\$66.26 (R\$44.96 as of December 31, 2011).

	Shares	Weighted average of exercise price	Weighted average remaining contractual term	Intrinsic Value added
12.31.2011				
Outstanding at the beginning of the year	2,512	14.31

g) Dividends

The Board of Directors' Meeting held at May 07, 2012 approved the payment of interim dividends for the first quarter of 2012 in the amount of R\$27,814, being R\$0.11 per preferred share and R\$0.10 per common stock, previously approved at the Board of Directors Meeting at May 7, 2012, according to Company's dividend policy. The payment of dividend was held on June 20, 2012.

In Ordinary and Extraordinary General Meeting held on 27 April 2012 approved the payment of dividends for the fiscal year ended December 31, 2011, totaling R\$102,949, amounting to R\$0.37 per common share and R\$0.41 per preferred share. The total dividend for the fiscal year ended December 31, 2011, including the value of R\$ 67,628 already distributed related to interim dividends is R\$170,577, which corresponds to R\$0.62 per common share and R\$0.68 per preferred share. The proposed dividend will be paid in cash and within 60 (sixty) days from the date of the meeting.

26. Net revenue

	Parent company		Consolidated	
	06.30.2012	06.30.2011	06.30.2012	06.30.2011
<u>Gross revenue from goods and/or services</u>	10,038,602	9,387,839	27,171,747	24,977,380

Net Income	9,140,379	8,529,545	24,184,870	22,138,573

(i) Barter revenue refers to the transaction whereby GPA M&P gave land in exchange for the real estate units, of the projects Thera Faria Lima Pinheiros (“Thera”) and Figue, respectively, plus one store to be built on the ground floor of the Thera Faria Lima Pinheiros enterprise. Construction and development are being carried out by Cyrela Polinésia Empreendimentos Imobiliários Ltda. and Pitangueiras Desenvolvimento Imobiliário SPE Ltda., respectively. Barter revenue is net of the land’s carrying amount. The apartment units of the Thera project are scheduled to be delivered within 52 months as of December 18, 2011. For the Figue project the delivered will be 29 months from April 04, 2012.

Companhia Brasileira de Distribuição

Notes to the interim financial statements -- Continued

June 30, 2012

(In thousands of Brazilian reais, except when otherwise stated)

30. Earnings per share

Basic earnings per share are calculated based on the weighted average number of shares outstanding during the period, excluding shares issued in payment of dividends.

In Brazil, preferred and common shares confer different voting and liquidation rights.

The Company computes earnings per share by dividing the net income pertaining to each class of share by the weighted average of the respective class of shares outstanding during the period.

Equity instruments that will or may be settled in Company's shares are included in the calculation only when their settlement has a dilutive impact on earnings per share.

The Company granted a share-based compensation plan to its employees (See Note 25), whose dilutive effects are reflected in diluted earnings per share by applying the "treasury stock" method.

When the stock option exercise price is greater than the average market price of the preferred shares, diluted earnings per share are not affected by the stock options.

As of 2003, preferred shares are entitled to a dividend 10% greater than that distributed to the common shares. As such earnings may be capitalized or otherwise appropriated, there can be no assurance that preferred shareholders will receive the 10% premium referred to above, unless earnings are fully distributed, and, accordingly, earnings per share have been calculated for preferred shares.

The earnings per share are calculated as if options were exercised at the beginning of the period, or at time of issuance, if later, and as if the funds received were used to purchase the Company's own stock.

(In thousands of Brazilian reais, except when otherwise stated)

33. Segment information - Continued

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured consistently with operating profit or loss in the consolidated quarterly financial information. GPA financing (including financial costs and financial income) and income taxes are managed on a segment basis.

The Company is engaged in operations of retail stores located in 20 states and the Federal District of Brazil. Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker who has been identified as the Chief Executive Officer.

The chief operating decision-maker allocates resources and assesses performance by reviewing results and other information related to four segments. Operating segments have not been aggregated to form the reportable segments.

The Company measures the results of segments using the accounting practices adopted in Brazil and IFRS, among other measures, each segment's operating profit, which includes certain corporate overhead allocations. At times, the Company revises the measurement of each segment's operating profit, including

any corporate overhead allocations, as dictated by the information regularly reviewed by the chief operating decision-maker. When revisions are made, the results of operating for each segment affected by the revisions is restated for all periods presented to maintain comparability. Information for our segments is included in the following table:

Other Information Deemed as Relevant by the Company

(Convenience Translation into English from the Original Previously Issued in Portuguese)

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Shareholders, Board of Directors and Management of

Companhia Brasileira de Distribuição

São Paulo - SP

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Companhia Brasileira de Distribuição (the “Company”), included in the Interim Financial Information Form (ITR), for the quarter ended June 30, 2012, which comprises the balance sheet as of June 30, 2012 and the related statements of income for the three-month and six-month periods then ended, and changes in equity and cash flows for the six-month period then ended, including the footnotes.

The Company’s Management is responsible for the preparation of the individual interim financial information in accordance with technical pronouncement CPC 21 - Interim Financial Information and the consolidated interim financial information in accordance with technical pronouncement CPC 21 and the international standard IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board - IASB, as well as for the presentation of such information in accordance with the standards established by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of the Interim Financial Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with standards on auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on individual interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual interim financial information included in the Interim Financial Information (ITR) referred to above was not prepared, in all material respects, in accordance with CPC 21, applicable to the preparation of the Interim Financial Information (ITR), and presented in accordance with the standards established by the CVM.

Conclusion on consolidated interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information included in the Interim Financial Information (ITR) referred to above was not prepared, in all material respects, in accordance with CPC 21 and IAS 34, applicable to the preparation of Interim Financial Information (ITR), and presented in accordance with the standards established by the CVM.

Other Information Deemed as Relevant by the Company

Other matters

Statements of value added

We have also reviewed the individual and consolidated statements of value added, for the six-month period ended June 30, 2012, prepared under the responsibility of the Company's Management, the presentation of which is required by the standards issued by the CVM applicable to the preparation of Interim Financial Information (ITR) and considered as supplemental information for International Financial Reporting Standards - IFRS, that do not require the presentation of these statements. These statements were subject to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they were not prepared, in all material respects, in relation to the individual and consolidated interim financial information taken as a whole.

Review of individual and consolidated interim financial information for the quarter ended June 30, 2011 and audit of individual and consolidated financial statements for the year ended December 31, 2011

The information and amounts for the three-month and six-month periods ended June 30, 2011, presented for comparison purposes, were previously reviewed by other independent auditors, who issued an unqualified report dated July 25, 2011. The information and amounts for the year ended December 31, 2011, presented for comparison purposes, were previously audited by other independent auditors, who issued an unqualified report dated February 16, 2012.

The accompanying individual and consolidated interim financial information has been translated into English for the convenience of readers outside Brazil.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
