Drilling of well in transfer of rights area concluded

Rio de Janeiro, August 3, 2012 – Petróleo Brasileiro S.A. – Petrobras hereby announces that it has concluded drilling its third well in the transfer of rights area. Called 1-BRSA-1045-SPS (1-SPS-96), the well is located in the south of Guar region of the Santos Basin pre-salt area. The discovery was announced on June 11, 2012, when the well was being drilled.

The discovery well 1-BRSA-1045-SPS (1-SPS-96) is located south of the Sapinho field at a depth of 2,202 meters, 320 km off the coast of So Paulo state. It was reached a final depth of 5,760 meters.

Analyses of samples taken from carbonate reservoirs located below the salt layer indicate good quality oil with an API gravity of around 27^o. A column of light crude of around 93 meters was identified, with good levels of reservoir permo-porosity (porosity and permeability). The oil/water contact ascertained by the well shows that this accumulation is separate from the Sapinho field.

This well is part of the Mandatory Exploration Program. Petrobras is currently evaluating the results and should conclude this stage by September 2014.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
