ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

The outlook for the global economy remains of low growth, basically due to the prolongation of the European crisis, the economic slowdown in the emerging countries, including China, and a slower recovery in the United States. This deterioration in the economic global scenario led to a decline in commodity prices and weaker international trade, resulting in higher financial market volatility worldwide and increased risk aversion.

The International Monetary Fund (IMF) expects global economic growth of 3.5% this year, less than the 3.9% recorded in 2011.

#### **USA**

U.S. GDP growth came to 1.5% in 2Q12, versus 1.9% in 1Q12, with a 1.5% increase in personal consumption expenses and a 5.3% upturn in exports.

According to the FED, industrial production climbed by 1.4% in the second quarter, led by vehicle and auto parts output, which increased by 18.2%. Manufacturing Purchasing Managers Index (PMI) reached 49.8 points in July, in line with the previous month.

The FED's Beige Book for July reported a level of activity between modest and moderate in all 12 districts. The country posted an external trade deficit of US\$48.7 billion in May, less than the US\$50.6 billion recorded in April.

FED's forecast for annual GDP has deteriorated since April and it now expects a growth ranging from 1.9% to 2.4%, versus the previous 2.4% to 2.9%, accompanied by inflation from 1.2% to 1.7% and an unemployment rate from 8.0% to 8.2%.

#### **Europe**

The European crisis is currently the biggest challenge for the global economy, with all the uncertainties regarding the situation in Greece and fears that Spain as whole, and not just its banking sector, will require assistance. Although the leading Eurozone countries have approved a rescue package of up to €100 billion for the Spanish banks, the prevailing worries have not dissipated. In addition to Valencia, another six autonomous regions should seek help from the central government to finance their debts and the Spanish Central Bank expects a further 0.4% decline in economic activity in 2Q12.

Moody's Investors Service downgraded Germany, the Netherlands and Luxemburg from a stable to a negative rating outlook due to growing uncertainty surrounding the debt crisis and increased fears of Greek insolvency and the country's possible exit from the Eurozone. The agency also stated that the German banking system is vulnerable to any worsening of the economic scenario in the Eurozone.

The measures announced at the European Summit can contribute towards the development of an independent banking union. The creation of single supervision system for Eurozone banks, called the European Stability Mechanism, will allow banks to be recapitalized directly.

Preliminary figures point to a 0.7% retraction in UK GDP in 2Q12, the third successive quarterly decline and the biggest retraction since 2009. The construction industry was chiefly responsible for this decline, although the production and services sectors also presented fragility. The Bank of England has cut its growth forecast to close to zero in 2012.

The Eurozone manufacturing PMI reached 44.0 points in July, less than the 45.1 recorded in June and the lowest figure for 37 months. The only country to record a modest upturn was Ireland, with 53.9 points. Nevertheless, industrial production fell by 0.6% in June over May.

Average unemployment in June remained at 11%, the same level recorded in May and equivalent to 17.8 million people out of work. Germany had one of the lowest rates (5.4%), while Spain was the most affected country in the region, with 24.8%. In June, annualized inflation reached 2.4%, flat when compared to May.

Economic Scenario 33

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

According to Eurostat, Eurozone GDP in 2Q12 fell by 0.2% over the previous quarter. For 2012, the European Central Bank forecasts a variation of Eurozone GDP between -0.5% to 0.3%.

#### Asia

The Chinese economy continues to present important expansion, although at lower rates. GDP growth was 7.6% in the second quarter, versus 8.1% in 1Q12, closing the first half at 7.8%. The Chinese Central Bank expects annual GDP growth of 7.5% in 2012, versus actual growth of 9.2% in 2011.

Manufacturing PMI in China reached 49.3 points in July, higher than the 48.2 recorded in June. Even though industrial production posted annualized growth of 10.5% in the first half of the year, there was a slowdown in 2Q12, whose 9.5% upturn was below the 11.4% recorded in 1Q12. Retail sales increased by 14.4% in the first six months of 2012.

Annualized inflation fell to 2.2% in June from 3.0% in May, giving a first-half average of 3.3%.

In Japan, the Central Bank's Regional Economic Report, published in July, pointed to an upturn in economic activity. For 2012, the IMF estimates Japanese GDP growth of 2.4%.

#### Brazil

The outlook for Brazil's economy is less positive than previously expected due to the deterioration of the global economy, which had a negative impact on business expectations, investments and credit. According to the Central Bank's latest FOCUS report, GDP should record growth of 1.81% in 2012, below the 3.3% expected at the beginning of the year, although the IMF is more optimistic, estimating a 2.5% growth.

According to the IBGE (Brazilian Institute of Geography and Statistics), 1Q12 GDP edged up by only 0.2% over 4Q11, chiefly due to weaker industrial activity and lower household consumption growth.

Industrial production fell by 3.8% year-on-year in the first half of the year, with all use categories recording negative performance. Following three successive months of decline, industrial production in June increased by 0.2% over May.

June's consumer confidence index (ICC) of 123.5 points, measured by the Getulio Vargas Foundation (FGV), fell by 2.8% in relation to the 127.1 points recorded in May.

On the other hand, first-half exports posted the second-best result for the period, reaching US\$117 billion, while imports also set a new record of US\$110 billion, 4.6% up year-on-year, giving a period trade surplus of US\$7.1 billion.

In June, inflation measured by the IPCA consumer price index edged up by 0.08%, impacted by the reduction in IPI (federal VAT) on vehicle prices as of May. In the first half, the index stood at 2.32%, below the 3.87% posted in the same period of 2011.

The Selic base rate, defined by the Monetary Policy Committee (COPOM), began 2012 at 11.00%, gradually being reduced until reaching 8.00% in mid-July, the lowest figure since 1997.

The banking system's stock of credit totaled R\$2.1 trillion in May, 1.7% up on the previous month and equivalent to 50.1% of GDP. Consumer default in the first semester of the year moved up by 19.1% year-on-year.

Also in the first half of 2012, the real depreciated by 7.2% against the U.S. dollar, reaching an exchange rate of R\$2.02 on June 29, while foreign reserves closed June at US\$373 billion.

Source: FOCUS BACEN Base: August 10, 2012

CSN recorded consolidated net revenue of R\$4,137 million in 2Q12, 6% up on 1Q12, chiefly due to the increase in revenue from the steel business through its German subsidiary, SWT, whose results were fully consolidated in the second quarter, therefore increasing sales volume.

In 2Q12, consolidated COGS reached R\$2,981 million, 8% up on the previous quarter, chiefly due to higher steel sales, partially offset by the lower volume sold in mining segment.

SG&A expenses totaled R\$327 million in the second quarter, 4% more than in 1Q12, chiefly due to higher administrative provisions.

The "Other Operating Expenses" line was negative by R\$2,283 million in 2Q12, versus a negative R\$112 million in 1Q12, essentially due to the reclassification of CSN's accumulated losses from its investments in Usiminas' common (USIM3) and preferred (USIM5) shares, which were previously booked under other comprehensive income line in Shareholders' Equity, in the total of R\$1,599 million net of taxes, to the income statement, with the amount of R\$2,023 million being booked under other operating expenses and R\$423 million under deferred taxes.

Based on the prevailing legal and accounting rules, as well as on the Company's investment policy, management perceived evidence of significant reduction in its investment in Usiminas' shares on June 30, 2012 and consequently decided on its accounting reclassification.

This reclassification had no impact on the Company's cash flow.

Adjusted EBITDA comprises net income before the financial result, income and social contribution taxes, depreciation and amortization and other operating revenue (expenses), the latter item being excluded due to its non-recurring nature.

Adjusted EBITDA totaled R\$1,120 million in 2Q12, 1% up on the R\$1,113 million recorded in 1Q12, while the adjusted EBITDA margin reached 27%, down by 2 p.p. over 1Q12.

Page 21 of 117

EBITDA 38

#### (CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

The 2Q12 net financial result was negative by R\$318 million, chiefly due to the following factors:

- § Interest on loans and financing totaling R\$581 million;
- § Expenses of R\$43 million with monetary restatement of tax installments;
- § Other financial expenses totaling R\$28 million.

These negative effects were partially offset by:

- § Monetary and exchange variations totaling R\$269 million;
- § Returns on financial investments of R\$65 million.

On June 30, 2012, consolidated net debt stood at R\$15.6 billion, R\$1.3 billion more than the R\$14.3 billion recorded on March 31, 2012, essentially due to the following factors:

- § Payment of R\$1.2 billion in dividends;
- § Investments of R\$0.7 billion in fixed assets;
- § A R\$0.6 billion effect from disbursements related to debt charges;
- § Other effects which increased net debt by R\$0.1 billion.

These effects were partially offset by 2Q12 adjusted EBITDA of R\$1.1 billion and the R\$0.2 billion reduction in working capital.

Version: 1

| The net debt/EBITDA ratio closed the second quarter at 2.89x, based on LTM adjusted EBITDA.   |
|---|
| CSN posted a consolidated net loss of R\$1.0 billion in 2Q12, basically due to the accounting reclassification described under "Other Operating Expenses". Excluding these effects, which had no cash impact, the Company would have recorded net income of R\$551 million. |
| CSN invested R\$775 million in 2Q12, R\$365 million of which in subsidiaries or joint subsidiaries, allocated as follows:   |
| ü Transnordestina Logística: R\$259 million;  |
| ü MRS Logística: R\$65 million.   |
|   |

### (CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

The remaining R\$410 million went to the parent company, mostly in the following projects:

- ü Expansion of the Casa de Pedra mine and Itaguaí Port: R\$97 million;
- ü Construction of the long steel plant: R\$137 million;
- ü Current investments: R\$53 million.

Working capital closed 2Q12 at R\$2,301 million, R\$195 million down on the end-of-March balance, chiefly reflecting the improved management of the Company's receivables and payables. Comparing to the close of 1Q12, the average receivables period narrowed by three days, while the average supplier payment period increased by four days and the average inventory turnover period fell by three days, improving the cash conversion cycle by 10 days.

# **Scenario**

According to the World Steel Association (WSA), global crude steel production totaled 767 million tonnes in the first half, 1% up on the same period last year, with China, responsible for 356 million tonnes, recording a similar growth rate. Existing global capacity use also increased slightly, inching up from 79.7% in May to 80.4% in June.

The WSA expects apparent steel consumption to increase by 3.6% in 2012, to 1.4 billion tonnes. For China, it expects growth of 4%, with apparent consumption of 649 million tonnes.

According to the Brazilian Steel Institute (IABr), domestic production in 2Q12 totaled 8.7 million tonnes of crude steel, stable over the previous quarter, and 3.9 million tonnes of rolled flat steel, up by 18% in the same period. Crude steel output reached 17.4 million tonnes in the first half, a reduction of 2.5% year-on-year.

The institute has lowered its annual forecast for 2012 and now expects crude steel output of around 36 million tonnes, versus its end-of-2011 estimate of 37.5 million, equivalent to annual growth of 2.2%.

Second-quarter domestic flat steel sales totaled 2.9 million tonnes, 4% more than in 1Q12, while exports totaled 0.5 million tonnes, up by 68%. First-half domestic sales of flat steel amounted to 5.7 million tonnes, with exports of 0.8 million tonnes, 3% and 36% down, respectively, on 1H11.

Apparent consumption of flat steel totaled 3.3 million tonnes in the second quarter, virtually flat over the 1Q12 figure, and 6.8 million tonnes in the first half, 1% down year-on-year.

Second-quarter flat steel imports came to 0.5 million tonnes, 19% less than in 1Q12, while first-half imports totaled 1.1 million tonnes.

Steel 46

# **Automotive**

According to ANFAVEA (the Auto Manufacturers' Association), vehicle production totaled 815,000 units in 2Q12, 10% up on 1Q12, and 1.55 million in the first half of the year, 9.4% less than in 1H11.

Page 25 of 117

Steel 47

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

Vehicle sales totaled 898 thousand units in 2Q12, 10% more than in the previous quarter, and 1.72 million units in the first half, 1.2% down year-on-year. Exports fell by 9% in 2Q12 over 1Q12, to 111 thousand units, leading to a reduction of 12.2% in 1H12 over 1H11.

Given prospects of reduced GDP growth in 2012, FENABRAVE (the Vehicle Distributors' Association) has revised its auto market estimates and now expects annual sales of around 3.6 million units, including cars, light commercial vehicles, trucks and buses, a slight 0.5% reduction over 2011.

ANFAVEA, on the other hand, is maintaining its annual vehicle licensing growth estimate at between 4% and 5%, based on increased sales in June, influenced by the IPI tax reduction.

# **Construction**

According to ABRAMAT (the Construction Material Manufacturers' Association), domestic sales of construction materials increased by 2.6% year-on-year in the first half of the year.

The annual real construction material revenue growth forecast was revised downwards in June, from 4.5% to 3.4%, while sales of materials such as cement and rebars are expected to grow by 3.0%, less than the previous 4.0% estimate, due to weaker retail sales and the construction segment slowdown in 1Q12. Retail sales were impacted by the postponement of purchases by final consumers in the expectation of lower interest rates. Despite the reduced forecasts, however, revenue should still exceed the R\$112 billion recorded in 2011.

### **Home Appliances**

The federal government has extended the reduction in IPI (federal VAT) on white goods (refrigerators, washing machines and stoves) announced in December until the end of August, in order to encourage the national industry.

According to Eletros (the Home Appliance and Consumer Electronics Manufacturers' Association), appliance sales recorded a year-on-year upturn in 1H12, with refrigerator, washing machine and stove sales climbing by 12%, 10% and 13%, respectively.

Also according to Eletros, the sector should post annual growth of between 10% and 15%.

### **Distribution**

According to INDA (the Brazilian Steel Distributors' Association), domestic flat steel sales by distributors totaled approximately 2.2 million tonnes in 1H12, 2.8% more than in 1H11, while purchases by the associated network totaled 2.13 million tonnes, 1.1% more than in 1H11. As a result, inventories at the end of 1H12 were 19.7% lower than in 1H11, while inventory turnover was 2.8 months of sales, within normal historical parameters.

For 2012, INDA estimates annual growth of around 6% in distributors' sales over the 4.3 million tonnes sold in 2011.

### **Consolidated Sales Volume**

CSN sold 1.4 million tonnes of steel products in 2Q12, 7% more than in 1Q12. Of this total, 74% was sold in the domestic market, 23% by overseas subsidiaries and 3% went to direct exports.

# **Domestic Sales Volume**

Domestic sales totaled 1.0 million tonnes, in line with the 1Q12 figure.

# **Foreign Sales Volume**

Foreign steel product sales totaled 372 thousand tonnes in 2Q12, 30% up on the previous quarter. Of this total, the Company's overseas subsidiaries sold 327 thousand tonnes, with SWT alone accounting for 210 thousand tonnes. On the other hand, direct exports totaled 45 thousand tonnes.

#### **Prices**

Net revenue per tonne averaged R\$1,814 in 2Q12, stable when compared to the R\$1,806 recorded in 1Q12.

Page 26 of 117

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

### **Consolidated Net Revenue**

Net revenue from steel operations totaled R\$2,652 million in the second quarter, an 11% improvement over 1Q12, chiefly due to SWT, whose results were fully consolidated in 2Q12, pushing up sales volume.

# **Consolidated cost of goods sold (COGS)**

Steel segment COGS was R\$2,234 million in 2Q12, 11% up on the 1Q12 figure, mainly because of the upturn in sales volume.

# **Consolidated Adjusted EBITDA**

Adjusted steel segment EBITDA totaled R\$471 million in 2Q12, 1% up on the R\$466 million recorded in 1Q12, basically due to the effects described above, accompanied by an adjusted EBITDA margin of 18%.

# **Production**

The Presidente Vargas Steelworks (UPV) produced 1.2 million tonnes of crude steel in 2Q12, the same volume produced in 1Q12, while rolled flat steel production totaled 1.2 million tonnes, up by 4%.

|                                   |      |      |      | Change |        |
|-----------------------------------|------|------|------|--------|--------|
| <b>Production</b> (in thousand t) | 2Q11 | 1Q12 | 2Q12 | 2Q12 x | 2Q12 x |
|                                   |      |      |      | 2Q11   | 1Q12   |

| Crude Steel           | 1,243 | 1,200 | 1,213 | -2% | 1% |
|-----------------------|-------|-------|-------|-----|----|
| Total Rolled Products | 1.212 | 1.114 | 1,164 | -4% | 4% |

# **Production Costs (Parent Company)**

In 2Q12, the Presidente Vargas Steelworks' total production costs came to R\$1,559 million, 2% less than the R\$1,597 million reported in 1Q12, due to:

**Raw Materials:** reduction of R\$60 million, primarily related to the following inputs:

- **Coal:** decline of R\$55 million due to lower acquisition costs.
  - Other raw materials: reduction of R\$5 million.

**Labor:** increase of R\$7 million.

Other production costs: upturn of R\$11 million.

**Depreciation:** increase of R\$4 million.

Page 27 of 117

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

# **Scenario**

Global industrial production increased at a reduced pace throughout 2Q12, with emphasis on Chinese GDP growth slowdown which reached 7.6%. Global steel output began to decline as of March, but remained at high levels.

First-half Chinese iron ore imports increased by 10% over 1H11 to 367 million tonnes, since high-cost Chinese producers were keeping output low.

As a result, iron ore prices and the product quality premium have been declining gradually. The 62% CFR China iron ore price has fallen by 22% since March, closing July at US\$117.50/dmt. The 1% Fe quality premium ended the same month at US\$2.60/t, down from high levels of US\$5.50/6.00/t in 2011.

Current prices should be tested as minimum levels, given that they make most Chinese production impractical.

The Chinese authorities have been introducing various measures to stimulate the economy, especially in regard to credit, and the first positive results are becoming apparent in the infrastructure and low-cost housing sectors.

### **Iron ore sales**

In 2Q12, sales of finished iron ore products totaled 6.1 million tonnes<sup>1</sup>, 9% less than in 1Q12. Of total sales, exports accounted for 5.9 million tonnes, with 3.8 million tonnes sold by Namisa . The Company's own consumption totaled 1.5 million tonnes.

Considering CSN's 60% interest in Namisa, sales reached 4.5 million tonnes in 2Q12, 13% down on 1Q12.

<sup>1</sup> Sales volumes include 100% of the stake in NAMISA.

#### **Net Revenue**

Net revenue from mining operations totaled R\$1,143 million in 2Q12, 4% less than in 1Q12, due to the reduction in sales volume.

### Cost of goods sold (COGS)

Mining COGS came to R\$535 million in 2Q12, 7% down on 1Q12, also chiefly due to the reduction in sales volume.

# **Adjusted EBITDA**

In 2Q12, adjusted EBITDA from mining operations totaled R\$607 million, 3% more than in 1Q12, accompanied by an adjusted EBITDA margin of 53%, up by 4 p.p. on 1Q12.

### **Scenario**

# **Railway logistics**

Cargo transport by rail continues to consolidate itself in Brazil, having grown by around 88% in the last 15 years, according to the ANTF (National Rail Transport Association), from 253 million tonnes in 1997 to 475 million tonnes in 2011. Iron ore and coal had the best performances, with period growth of 88% each, followed by general cargo, which increased by 76%. Container transported by rail totaled 287 TEUs¹ in 2011, 24% up on the previous year, with further growth of 15% expected in 2012.

The rail concessionaires invested R\$4.6 billion in 2011, 56% more than in 2010.

<sup>1</sup>TEU (Twenty-Foot Equivalent Unit) – transportation unit equivalent to a standard 20-feet intermodal container

Page 28 of 117

Mining 54

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

# **Port Logistics**

According to ANTAQ (National Waterway Transport Agency), Brazil's port installations (considering organized ports and private terminals) handled around 205 million gross tonnes in the first quarter of 2012, 2.2% up year-on-year, with organized ports accounting for 34% of the total handled.

Bulk solids handling totaled 116 million tonnes in 1Q12, 2.6% down on 1Q11, while bulk liquids totaled 55 million tonnes, up by 8.5%. Container handling amounted to 1.9 million TEUs, 8.0% more than in the same period last year.

The private terminals are expected to increase their handling leadership in Brazil's port sector, given that they will be responsible for R\$21 billion of total sector investments of R\$30 billion scheduled for the coming years.

The Brazilian ports are expected to be handling 2.2 billion tonnes of cargo per year by 2030.

# **Analysis of Results**

### **Railway logistics**

MRS and Transnordestina's individual second-quarter results had not yet been announced up to the publication of this release.

In 2Q12, net revenue from railway logistics totaled R\$263 million, COGS stood at R\$183 million and adjusted EBITDA amounted to R\$88 million, accompanied by an EBITDA margin of 34%.

### **Port logistics**

In 2Q12, net revenue from port logistics amounted to R\$35 million, COGS totaled R\$20 million and adjusted EBITDA stood at R\$12 million, with an adjusted EBITDA margin of 33%.

Logistics 55

### **Scenario**

Preliminary figures from SNIC (the Cement Industry Association) indicate domestic cement sales of 33 million tonnes in the first half of 2012, 9.3% more than in the same period last year. LTM sales through June totaled 66.7 million tonnes, 8.4% up on the previous 12-month period.

Even though Brazilian economic growth has slowed, the outlook for the construction sector remains positive. The FGV is forecasting a 5.0% upturn in 2012, versus 3.6% in 2011, mainly due to the reduction in interest rates and the extension of mortgage payment periods to 35 years.

# **Analysis of Results**

Cement sales totaled 465 thousand tonnes in 2Q12, net revenue reached R\$94 million, COGS amounted to R\$79 million and adjusted EBITDA was R\$6 million, with an adjusted EBITDA margin of 6%.

# Scenario

Brazilian electricity consumption increased by 4.2% year-on-year in the first half of 2012, led by the commercial and residential segments which recorded respective growth of 7.4% and 5.0%. The slowdown in industrial activity resulted in industrial energy consumption moving up by a modest 1.4% in the semester, while in the second quarter consumption only edged up 0.4% over 1Q12.

Given the current economic scenario and the high level of hydro plant reservoirs, an energy surplus is expected in the coming months, which could reduce contract renewal prices and

result in the postponement of new generation projects.

Page 29 of 117

Energy 57

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

# **Analysis of Results**

In 2Q12, net revenue from the energy segment amounted to R\$57 million, COGS totaled R\$33 million and adjusted EBITDA reached R\$23 million, with an adjusted EBITDA margin of 40%.

In 1H12, CSN's shares presented a devaluation of 20%, versus the 4% downturn recorded by the IBOVESPA in the same period. On the NYSE, CSN's ADRs fell by 27%, versus the Dow Jones' 5% appreciation in the semester.

Daily traded volume of CSN's shares on the BM&FBovespa averaged R\$62.6 million in 1H12. On the NYSE, daily traded volume of CSN's ADRs averaged US\$46.2 million.

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

(Expressed In thousands of reais – R\$, unless otherwise stated)

#### 1. DESCRIPTION OF BUSINESS

Companhia Siderúrgica Nacional is a publicly-held company incorporated on April 9, 1941, under the laws of the Federative Republic of Brazil (Companhia Siderúrgica Nacional, its subsidiaries, associates and jointly controlled entities collectively referred to herein as "CSN" or the "Company"). The Company's registered office social is located at Avenida Brigadeiro Faria Lima, 3400 – São Paulo, SP.

CSN has shares listed on the São Paulo Stock Exchange (BOVESPA) and the New York Stock Exchange (NYSE). Accordingly, it reports its information to the Brazilian Securities Commission (CVM) and the U.S. Securities and Exchange Commission (SEC).

The Company's main operating activities are divided into 5 (five) segments as follows:

#### Steel:

The Company's main industrial facility is the Presidente Vargas Steel Mill ("UPV"), located in the city of Volta Redonda, State of Rio de Janeiro. This segment consolidates the operations related to the production, distribution and sale of flat steel, long steel, metallic packaging and galvanized steel. In addition to the facilities in Brazil, CSN has operations in the United States, Portugal and Germany aimed at gaining markets and performing excellent services for final consumers. Its steels are used in the home appliances, civil construction and automobile industries.

### Mining:

The production of iron ore is developed in the city of Congonhas, in the State of Minas Gerais. It further mines tin in the State of Rondônia to supply the needs of UPV, with the excess of these raw materials being sold to subsidiaries and third parties. CSN holds the concession to operate TECAR, a solid bulk terminal, one of the 4 (four) terminals that comprise the Itaguaí Port, in Rio de Janeiro. Importations of coal and coke are carried out through this terminal.

### Cement:

The Company entered the cement market boosted by the synergy between this new activity and its already existing businesses. Next to the Presidente Vargas Steel Mill in Volta Redonda (RJ), it installed a new business unit: CSN Cimentos, which produces CP-III type cement by using slag produced by the UPV blast furnaces in Volta Redonda. It also explores limestone and dolomite at the Arches drive in the State of Minas Gerais, to supply the needs of UPV and of the cement plant.

# Logistics

Railroads:

CSN has equity interests in two railroad companies: MRS Logística, which manages the former Southeast Network of Rede Ferroviária Federal S.A. (RFFSA), and Transnordestina Logística, which operates the former Northeast Network of the RFFSA in the states of Maranhão, Piauí, Ceará, Rio Grande do Norte, Paraíba, Pernambuco and Alagoas.

Page 31 of 117

#### (CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

Ports:

In the State of Rio de Janeiro, the Company operates the Container Terminal known as Sepetiba Tecon at the Itaguaí Port. Located in the Bay of Sepetiba, this port has privileged highway, railroad and maritime access.

Tecon handles the shipments of CSN steel products, movement of containers, as well as storage, consolidation and deconsolidation of cargo.

# • Energy:

As energy is fundamental in its production process, the Company has invested in assets for generation of electric power to guarantee its self-sufficiency.

For further details on the Company's strategic investments and segments, see Note 26 - Business Segment Reporting.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

# (a) Basis of preparation

The consolidated interim financial statements have been prepared and are being presented in accordance with International Financial Reporting Standards (IFRS) issued by the International Accounting Standards

Board (IASB) and the corresponding standards issued by the CPC (Accounting Pronouncements Committee) and the CVM (Brazilian Securities Commission) applicable to the preparation of the financial statements.

The individual interim financial statements have been prepared in accordance with the standards issued by the CPC (Accounting Pronouncements Committee) and the CVM (Brazilian Securities Commission) applicable to the preparation of the financial statements.

The preparation of interim financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated interim financial statements, are disclosed in the notes to this report and refer to the allowance for doubtful debts, provision for inventory losses, provision for labor, civil, tax, environmental and social security risks, depreciation, amortization, depletion, provision for impairment, deferred taxes, financial instruments and employee benefits. Actual results may differ from these estimates.

#### (CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 - CIA **Version: 1** SIDERURGICA NACIONAL

The interim financial statements are presented in thousands of reais (R\$). Depending on the applicable IFRS standard, the measurement criterion used in preparing the interim financial statements considers the historical cost, net realizable value, fair value or recoverable amount. When both IFRSs and CPCs include the option between acquisition cost and any other measurement criterion (for example, systematic remeasurement), we used the cost criterion.

The individual and consolidated interim financial statements were approved by the Board of Directors and authorized for issue on August 14, 2012.

# (b) Consolidated interim financial statements

The accounting policies have been consistently applied to all consolidated companies.

The consolidated interim financial statements for the period ended June 30, 2012 and the year ended December 31, 2011 include the following direct and indirect subsidiaries and jointly controlled entities, as well as the exclusive funds Diplic and Mugen:

#### Exclusive funds

### Equity interests (%)

| Exclusive funds                     | 6/30/2012 | 12/31/2011 | Main activities |
|-------------------------------------|-----------|------------|-----------------|
| Direct interest: full consolidation |           |            |                 |
| DIPLIC - Balanced mutual fund       | 100.00    | 100.00     | Investment fund |
| Mugen -Balanced mutual fund         | 100.00    | 100.00     | Investment fund |

In preparing the consolidated interim financial statements the following consolidation procedures have been applied:

Unrealized gains on transactions with subsidiaries and jointly controlled entities are eliminated to the extent of CSN's equity interests in the related entity in the consolidation process. Unrealized losses are eliminated in the same manner as unrealized gains, although only to the extent that there are indications of impairment. The base date of the interim financial statements of the subsidiaries and jointly controlled entities is the same as that of the Company, and their accounting policies are in line with the policies adopted by the Company.

### Subsidiaries

Subsidiaries are all entities (including special purpose entities) over which the Company has the power to determine the financial and operating policies, generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are actually exercisable or convertible are taken into consideration when assessing whether the Company controls another entity. Subsidiaries are fully consolidated from the date when control is transferred to the Company and are deconsolidated from the date when such control ceases.

### Joint controlled entities

The financial statements of jointly controlled entities are included in the consolidated financial statements from the date when shared control starts through the date when shared control ceases to exist. Jointly controlled entities are proportionately consolidated.

# Transactions and non-controlling interests

The Company treats transactions with non-controlling interests as transactions with owners of Company equity. For purchases from non-controlling interests, the difference between any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains and losses on disposals to non-controlling interests are also recognized directly in equity, in line item "Valuation adjustments to equity".

When the Company no longer holds control, any retained interest in the entity is remeasured to its fair value, with the change in the carrying amount recognized in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest in an associate, joint venture or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the Company had directly disposed of the related assets or liabilities. This may mean that amounts previously recognized in other comprehensive income are reclassified to profit or loss.

Page 35 of 117

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

# (c) Individual interim financial statements

In the individual interim financial statements, interests in subsidiaries and jointly controlled entities are accounted for by the equity method of accounting. The same adjustments are made both to the individual financial statements and the consolidated interim financial statements. In the case of CSN, the accounting practices adopted in Brazil, applied to the individual interim financial statements, differ from IFRS applicable to the separate financial statements only with respect to the measurement of investments in subsidiaries and associates by the equity method of accounting, which under IFRSs must be measured at cost or fair value.

# (d) Foreign currencies

### i. Functional and presentation currency

Items included in the interim financial statements of each one of the Company's subsidiaries are measured using the currency of the primary economic environment in which the subsidiary operates ("functional currency"). The consolidated interim financial statements are presented in Brazilian reais (R\$), which is the Company's functional currency and the Group's presentation currency.

# ii. Balances and transactions

Transactions in foreign currencies are translated into the functional currency using the exchange rates in effect at the dates of the transactions or valuation on which items are remeasured. Foreign exchange gains and losses resulting from the settlement of these transactions and from the translation at exchange rates in effect as of June 30, 2012 of monetary assets and liabilities denominated in foreign currencies are

recognized in the income statement, except when they are recognized in equity as qualifying cash flow hedges and qualifying net investment hedges.

The asset and liability balances are translated at the exchange rate in effect at the end of the reporting period. As of June 30, 2012, US\$1 is equivalent to R\$2.0213 (R\$1.8758 as of December 31, 2011), EUR 1 is equivalent to R\$2.5606 (R\$2.4342 as of December 31, 2011), and JPY 1 is equivalent R\$0.02533 (R\$0.02431 as of December 31, 2011).

All other foreign exchange gains and losses, including foreign exchange gains and losses related to loans and cash and cash equivalents, are presented in the income statement as finance income or costs.

Changes in the fair value of monetary securities denominated in foreign currency, classified as available-for-sale, are segregated into translation differences resulting from changes in the amortized cost of the security and other changes in the carrying amount of the security. Exchange differences related to changes in amortized cost are recognized in profit or loss, and other changes in the carrying amount are recognized in equity.

Exchange differences on non-monetary financial assets and liabilities classified as measured at fair value through profit or loss are recognized in profit or loss as part of the gain or loss on the fair value. Exchange differences on non-monetary financial assets, such as investments in shares classified as available-for-sale, are included in comprehensive income in equity.

Starting 2012, in view of the changes in operations of the subsidiary Namisa Europe, its functional currency changed from the US dollar to the Brazilian real.

Page 36 of 117

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

# iii. Group companies

The results and financial position of all the Group's entities (none of which has the currency of a hyper-inflationary economy) that have a functional currency different from the reporting currency are translated into the reporting currency as follows:

- Assets and liabilities in each balance sheet presented have been translated at the exchange rate prevailing at the end of the reporting period.
- Income and expenses of each income statement are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates in effect at the transaction dates, in which case income and expenses are translated at the rate in effect at the transaction dates); and
- All resulting exchange differences are recognized as a separate component in other comprehensive income.

On consolidation, exchange differences resulting from the translation of monetary items with characteristics of net investment in foreign operations are recognized in equity. When a foreign operation is partly disposed of or sold, exchange differences previously recorded in other comprehensive income are recognized in the income statement as part of the gain or loss on sale.

# (e) Cash and cash equivalents

Cash and cash equivalents include cash on hand and in banks and other short-term highly liquid investments redeemable within 90 days from the end of the reporting period, readily convertible into a known amount of cash and subject to an insignificant risk of change in value. Certificates of deposit that can be redeemed at any time without penalties are considered as cash equivalents.

#### (f) Trade receivables

Trade receivables are initially recognized at fair value, including the related taxes and expenses. Foreign currency-denominated trade receivables are adjusted at the exchange rate in effect at the end of the reporting period. The allowance for doubtful debts was recognized in an amount considered sufficient to cover any losses. Management's assessment takes into consideration the customer's history and financial position, as well as the opinion of our legal counsel regarding the collection of these receivables for recognizing the allowance.

## (g) Inventories

Inventories are carried at the lower of cost and net realizable value. Cost is determined using the weighted average cost method on the acquisition of raw materials. The costs of finished products and work in process comprise raw materials, labor and other direct costs (based on the normal production capacity). Net realizable value represents the estimated selling price in the normal course of business, less estimated costs of completion and costs necessary to make the sale. Losses for slow-moving or obsolete inventories are recognized when considered appropriate.

Stockpiled inventories are accounted for as processed when removed from the mine. The cost of finished products comprises all direct costs necessary to transform stockpiled inventories into finished products.

Page 37 of 117

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 - CIA **Version: 1** SIDERURGICA NACIONAL

#### (h) Investments

Investments in subsidiaries, jointly controlled entities and associates are accounted for by the equity method of accounting and are initially recognized at cost. The gains or losses are recognized in profit or loss as operating revenue (or expenses) in the individual interim financial statements. In the case of foreign exchange differences arising on translating foreign investments that have a functional currency different from the Company's, changes in investments due exclusively to foreign exchange differences, as well as adjustments to pension plans and available-for-sale investments that impact the subsidiaries' equity, are recognized in line item "Cumulative translation adjustments", in the Company's equity, and are only recognized in profit or loss when the investment is disposed of or written off due to impairment loss. Other investments are recognized and maintained at cost or fair value.

When necessary, the accounting policies of subsidiaries and jointly controlled entities are changed to ensure consistency and uniformity of criteria with the policies adopted by the Company.

#### (i) Business combination

The acquisition method is used to account for each business combination conducted by the Company. The consideration transferred for acquiring a subsidiary is the fair value of the assets transferred, liabilities incurred and equity instruments issued by the Company. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement, where applicable. Acquisition-related costs are recognized in profit or loss, as incurred. Identifiable assets acquired and liabilities assumed in a business combination are initially measured at their fair values at the acquisition date. The Company recognizes non-controlling interests in the acquiree according to the proportional non-controlling interest held in the fair value of the acquiree's new assets (see note 3).

#### (j) Property, plant and equipment

Property, plant and equipment are carried at cost of acquisition, formation or construction, less accumulated depreciation or depletion and any impairment loss. Depreciation is calculated under the straight-line method based on the remaining economic useful economic lives of assets, as mentioned in note 12. The depletion of mines is calculated based on the quantity of ore mined. Land is not depreciated since their useful life is considered indefinite. However, if the tangible assets are mine-specific, they are depreciated over the economic useful lives for such assets. The Company recognizes in the carrying amount of property, plant and equipment the cost of replacement, reducing the carrying amount of the part that it is replacing if it is probable that future economic benefits embodied therein will revert to the Company, and if the cost of the asset can be reliably measured. All other disbursements are expensed as incurred. Borrowing costs related to funds obtained for construction in progress are capitalized until these projects are completed.

If some components of property, plant and equipment have different useful lives, these components are separately recognized as property, plant and equipment items.

Gains and losses on disposal are determined by comparing the sale value less the residual value and are recognized in 'Other operating income (expenses)'.

Mineral rights acquired are classified as other assets in property, plant and equipment.

Exploration expenditures are recognized as expenses until the viability of mining activities is established; after this period subsequent development costs are capitalized. Exploration and valuation expenditures include:

- Research and analysis of exploration area historical data;
- Topographic, geological, geochemical and geophysical studies;
- Determine the mineral asset's volume and quality/grade of deposits;
- Examine and test the extraction processes and methods;

Page 38 of 117

#### (CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

- Topographic surveys of transportation and infrastructure needs;
- Market studies and financial studies.

The costs for the development of new mineral deposits or capacity expansion in mines in operations are capitalized and amortized using the produced (extracted) units method based on the probable and proven ore quantities.

The development stage includes:

- Drillings to define the ore body;
- Access and draining plans;
- Advance removal of overburden (top soil and waste material removed prior to initial mining of the ore body) and waste material (non-economic material that is intermingled with the ore body).

Stripping costs (the costs associated with the removal of overburdened and other waste materials) incurred during the development of a mine, before production commences, are capitalized as part of the depreciable cost of developing the property. Such costs are subsequently amortized over the useful life of the mine based on proven and probable reserves.

Post-production stripping costs are included in the cost of the inventory produced (that is extracted), at each mine individually during the period that stripping costs are incurred.

The Company holds spare parts that will be used to replace parts of property, plant and equipment and that will increase the asset's useful life and the useful life of which exceeds 12 months. These parts are classified in property, plant and equipment and not in inventories.

## (k) Intangible assets

Intangible assets comprise assets acquired from third parties, including through business combinations and/or those internally generated.

These assets are recognized at cost of acquisition or formation, less amortization calculated on a straight-line basis based on the exploration or recovery periods.

Intangible assets with indefinite useful lives and goodwill based on expected future profitability are not amortized.

#### Goodwill

Goodwill represents the positive difference between the amount paid and/or payable for the acquisition of a business and the net fair values of the assets and liabilities of the acquiree. Goodwill on acquisitions of subsidiaries is recognized as 'Intangible assets' in the consolidated financial statements. In the individual balance sheet, goodwill is included in investments. Negative goodwill is recognized as a gain in profit for the period at the acquisition date. Goodwill is annually tested for impairment. Impairment losses on goodwill are not reversed. Gains and losses on the disposal of a Cash-Generating Unit (CGU) include the carrying amount of goodwill related to the CGU sold.

Goodwill is allocated to CGUs for impairment testing purposes. The allocation is made to Cash-Generating Units or groups of Cash-Generating Units that are expected to benefit from the business combination from which the goodwill arose, and the unit is not greater than the operating segment.

Page 39 of 117

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

#### Software

Software licenses purchased are capitalized based on the costs incurred to purchase the software and make it ready for use. These costs are amortized on a straight-line basis over the estimated economic useful lives of 1 to 5 years.

#### (I) Impairment of non-financial assets

Assets with infinite useful lives, such as goodwill, are not subject to amortization and are annually tested for impairment. Assets subject to amortization are tested for impairment when whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. An impairment loss is recognized at the amount by which the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the higher of the fair value of an asset less costs to sell and its value in use. For impairment testing purposes, assets are grouped at their lowest levels for which there are separately identifiable cash flows (Cash Generating Units, or CGUs). Non-financial assets, except goodwill, that are considered impaired are subsequently reviewed for possible reversal of the impairment at the reporting date.

#### (m) Employee benefits

#### i. Employee benefits

#### **Defined contribution plans**

A defined contribution plan is as a post-employment benefit plan whereby an entity pays fixed contributions to a separate entity (pension fund) and will not have any legal or constructive obligation to pay additional amounts. Obligations for contributions to defined contribution pension plans are recognized as employee

benefit expenses in the income statement for the periods during which services are provided by employees. Contributions paid in advance are recognized as an asset on condition that either cash reimbursement or reduction in future payments is available. Contributions to a defined contribution plan that is expected to mature twelve (12) months after the end of the period in which the employee provides services are discounted to their present values.

#### **Defined benefit plans**

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation regarding defined pension benefit plans is calculated individually for each plan by estimating the value of the future benefit that the employees accrue as return for services provided in the current period and in prior periods; such benefit is discounted to its present value. Any unrecognized costs of past services and the fair values of any plan assets are deducted. The discount rate is the yield presented at the end of the reporting period for top line debt securities whose maturity dates approximate the terms and conditions of the Company's obligations and which are denominated in the same currency as the one in which it is expected that the benefits will be paid. The calculation is made annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit for the Company, the asset to be recognized is limited to the total amount of any unrecognized costs of past services and the present value of the economic benefits available in the form of future plan reimbursements or reduction in future contributions to the plan. In calculating the present value of economic benefits, consideration is given to any minimum funding requirements that apply to any Company plan. An economic benefit is available to the Company if it is realizable during the life of the plan or upon settlement of the plan's liabilities.

The Company and some of its subsidiaries entities offered a postretirement healthcare benefit to its employees. The right to these benefits is usually contingent to their remaining in employment until the retirement age and the completion of the minimum length of service. The expected costs of these benefits are accumulated during the employment period, and were calculated using the same accounting method used for defined benefit pension plans. These obligations are annually evaluated by qualified independent actuaries.

Page 40 of 117

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

When the benefits of a plan are increased, the portion of the increased benefit related to past services of employees is recognized on a straight-line basis over the average period until the benefits become vested. When the benefits become immediately vested, the expense is recognized in profit or loss.

The Company has chosen to recognize all the actuarial gains and losses resulting from defined benefit plans immediately in other comprehensive income and only registered in the income statements if the plan is extinguished.

#### ii. Profit sharing and bonus

Employee profit sharing and executives' variable compensation are linked to the achievement of operating and financial targets. The Company recognizes a liability and an expense substantially allocated to production cost and, where applicable, to general and administrative expenses when such goals are met.

#### (n) Provisions

Provisions are recognized when: (i) the Company has a present legal or constructive obligation as a result of past events, (ii) it is probable that an outflow of resources will be required to settle a present obligation, and (iii) the amount can be reliably measured. Provisions are determined discounting the expected future cash flows based on a pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the specific risks of the liability.

#### (o) Concessions

The Company has government concessions and their payments are classified as operating leases.

#### (p) Share capital

Common shares are classified in equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction from the proceeds, net of taxes.

When any Group company buys Company shares (treasury shares), the amount paid, including any directly attributable additional costs (net of income tax), is deducted from equity attributable to owners of the Company until the shares are canceled or reissued. When these shares are subsequently reissued, any amount received, net of any directly attributable additional transaction costs and the related income tax and social contribution effects, is included in equity attributable to owners of the Company.

## (q) Revenue recognition

Operating revenue from the sale of goods in the normal course of business is measured at the fair value of the consideration received or receivable. Revenue is recognized when there is convincing evidence that the most significant risks and rewards of ownership of goods have been transferred to the buyer, it is probable that future economic benefits will flow to the entity, the associated costs and possible return of goods can be reliably estimated, there is no continued involvement with the goods sold, and the amount of the operating revenue can be reliably measured. If it is probable that discounts will be granted and the value thereof can be reliably measured, then the discount is recognized as a reduction of the operating revenue as sales are recognized. Revenue from services provided is recognized as it is realized.

Page 41 of 117

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

The appropriate timing for transfer of risks and rewards varies depending on the individual terms and conditions of the sales contract. For international sales, this timing depends on the type of term of the contract.

#### (r) Finance income and finance costs

Finance income includes interest income from funds invested (including available-for-sale financial assets), dividend income (except for dividends received from investees accounted for under the equity method in Company), gains on disposal of available-for-sale financial assets, changes in the fair value of financial assets measured at fair value through profit or loss, and gains on hedging instruments that are recognized in profit or loss. Interest income is recognized in profit or loss under the effective interest method. Dividend income is recognized in profit or loss when the Company's right to receive payment has been established. Distributions received from investees accounted for by the equity method reduce the investment value.

Finance costs comprise interest expenses on borrowings, net of the discount to present value of the provisions, dividends on preferred shares classified as liabilities, losses in the fair value of financial instruments measured at fair value through profit or loss, impairment losses recognized in financial assets, and losses on hedging instruments that are recognized in profit or loss. Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are measured through profit or loss under the effective interest method.

Foreign exchange gains and losses are reported on a net basis.

#### (s) Income tax and social contribution

Current and deferred income tax and social contribution are calculated based on the tax law enacted or substantially enacted by the end of the reporting period, including in the countries where the Group entities operate and generate taxable profit. Management periodically assesses the positions assumed in the tax

calculations with respect to situations where applicable tax regulations are open to interpretations. The Company recognizes provisions, when appropriate, based on the estimated payments to tax authorities.

The income tax and social contribution expense comprises current and deferred taxes. The current and deferred taxes are recognized in profit or loss unless they are related to business combinations or items directly recognized in equity.

Current tax is the expected tax payable or receivable on taxable profit or loss for the period at tax rates that have been enacted or substantially enacted by the end of the reporting period and any adjustment to taxes payable in relation to prior years.

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax is not recognized for the following temporary differences: initial recognition of assets and liabilities in a transaction that is not a business combination and does not affect either the accounting or taxable profit or loss, and differences associated with investments in subsidiaries and controlled entities when it is probable that they will not reverse in the foreseeable future. Moreover, a deferred tax liability is not recognized for taxable temporary differences resulting in the initial recognition of goodwill. The deferred tax is measured at the rates that are expected to be applied on temporary differences when they reverse, based on the laws that have been enacted or substantially enacted by the end of the reporting period.

Page 42 of 117

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

Current income tax and social contribution are carried at their net amounts by the taxpayer, in liabilities when there are amounts payable or in assets when prepaid amounts exceed the total amount due at the end of the reporting period.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority on the same entity subject to taxation.

A deferred income tax and social contribution asset is recognized for all tax losses, tax credits, and deductible temporary differences to the extent that it is probable that taxable profits will be available against which those tax losses, tax credits, and deductible temporary differences can be utilized.

Deferred income tax and social contribution assets are reviewed at the end of each reporting period and reduced to the extent that their realization is no longer probable.

#### (t) Earnings per share

Basic earnings per share are calculated by means of the profit for the period attributable to owners of the Company and the weighted average number of common shares outstanding in the related period. Diluted earnings per share are calculated by means of the average number of shares outstanding, adjusted by instruments potentially convertible into shares, with diluting effect, in the reported periods. The Company does not have any instruments potentially convertible into shares and, accordingly, diluted earnings per share are equal to basic earnings per share.

#### (u) Environmental and restoration costs

The Company recognizes a provision for the costs of recovery of areas and fines when a loss is probable and the amounts of the related costs can be reliably measured. Generally, the period for providing for the

amount to be used in recovery coincides with the end of a feasibility study or the commitment to adopt a formal action plan.

Expenses related to compliance with environmental regulations are charged to profit or loss or capitalized, as appropriate. Capitalization is considered appropriate when the expenses refer to items that will continue to benefit the Company and that are basically related to the acquisition and installation of equipment to control and/or prevent pollution.

## (v) Research and development

All these costs are recognized in the income statement when incurred, except when they meet the criteria for capitalization. Expenditures on research and development of new products for the period ended June 30, 2012 amounted to R\$2,861 (R\$3,130 for the period ended June 30, 2011).

#### (w) Financial instruments

#### i) Financial assets

Financial assets are classified into following categories: measured at fair value through profit or loss, loans and receivables, held-to-maturity, and available-for- sale. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets of the time of initial recognition.

Page 43 of 117

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

#### Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held for active and frequent trading. Derivatives are also categorized as held for trading and, accordingly, are classified in this category unless they have been designated as cash flow hedging instruments. Assets in this category are classified in current assets.

#### Loans and receivables

This category includes loans and receivables that are non-derivative financial assets with fixed or determinable payments not quoted in an active market. They are included in current assets, except those with maturity of more than 12 months after the end of the reporting period (which are classified as non-current assets). Loans and receivables include loans to associates, trade receivables and cash and cash equivalents, except short-term investments. Cash and cash equivalents are recognized at fair value. Loans and receivables are carried at amortized cost using the effective interest method.

#### Held-to-maturity assets

These are basically financial assets acquired with the positive intent and ability to hold to maturity. Held-to-maturity investments are initially recognized at their value plus any directly attributable transaction costs. Subsequent to initial recognition, they are measured at amortized cost using the effective interest method, less any impairment loss.

#### Available-for-sale financial assets

These are non-derivative financial assets, designated as available-for-sale, that are not classified in any other category. They are included in non-current assets when they are strategic investments of the Company, unless Management intends to dispose of the investment within up to 12 months from the end of the reporting period. Available-for-sale financial assets are recognized at fair value.

#### Recognition and measurement

Regular purchases and sales of financial assets are recognized at the trading date - the date on which the Company undertakes to buy or sell the asset. Investments are initially recognized at their fair value, plus transaction costs for all financial assets not classified as at fair value through profit or loss. Financial assets at fair value through profit or loss are initially recognized at their fair value and the transaction costs are charged to the income statement. Financial assets are derecognized when the rights to receive cash flows from the investments have expired or have been transferred, in the latter case, provided that the Company has transferred significantly all risks and rewards of ownership. Available-for-sale financial assets and financial assets at fair value through profit or loss are subsequently carried at fair value. Loans and receivables are carried at amortized cost using the effective interest method.

Gains or losses resulting from changes in the fair value of financial assets at fair value through profit or loss are presented in the income statement under "finance income" in the period in which they arise. Dividend income from financial assets at fair value through profit or loss is recognized in the income statement as part of other finance income when the Company's right to receive the dividends has been established.

Changes in the fair value of monetary securities denominated in a foreign currency and classified as available-for-sale are segregated into translation differences resulting from changes in the amortized cost of the security and other changes in the carrying amount of the security. Exchange differences on monetary securities are recognized in profit or loss, while exchange differences on non-monetary securities are recognized in equity. Changes in the fair value of monetary and non-monetary securities classified as available-for-sale are recognized in other comprehensive income and are only recognized in profit or loss when the investment is sold or written off as a loss.

Page 44 of 117

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

Interest on available-for-sale securities, calculated under the effective interest method, is recognized in the income statement as part of other income. Dividends from available-for-sale equity instruments, such as shares, are recognized in the income statement as part of other finance income when the Company's right to receive payments has been established.

The fair values of publicly quoted investments are based on current purchase prices. If the market for a financial asset (and for instruments not listed on a stock exchange) is not active, the Company establishes the fair value by using valuation techniques. These techniques include the use of recent transactions contracted with third parties, reference to other instruments that are substantially similar, analysis of discounted cash flows, and pricing models that make maximum use of market inputs and relies as little as possible on entity-specific inputs.

#### ii) Impairment of financial assets

The Company assesses of the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired.

#### Assets measured at amortized cost

A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a "loss event") and such loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

The criteria used by CSN to determine whether there is objective evidence of an impairment loss include:

- significant financial difficulty of the issuer or counterparty;
- a breach of contract, such as default or delinquency in interest or principal payments;
- the issuer, for economic or legal reasons relating to the borrower's financial difficulty, grants to the borrower a concession that the lender would not otherwise consider:
- it becoming probable that the borrower will enter bankruptcy or other financial reorganization;
- the disappearance of an active market for that financial asset because of financial difficulties; or
- observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of financial assets since the initial recognition of such assets, although the decrease cannot yet be identified with the individual financial assets in the portfolio, including:
- adverse changes in the payment status of borrowers in the portfolio;
- national or local economic conditions that correlate with defaults on the assets in the portfolio.

The amount of the loss is measured as the difference between the carrying amount of the asset and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the original effective interest rate of the financial asset. The carrying amount of the asset is reduced and the amount of the loss is recognized in the income statement. If a loan or held-to-maturity investment has a variable interest rate, the discount rate to measure an impairment loss is the current effective interest rate determined pursuant to the contract. As a practical expedient, the Company may measure impairment on the basis of an instrument's fair value using an observable market price.

Page 45 of 117

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as an improvement in the debtor's credit rating), the previously recognized impairment loss is reversed and recognized in the consolidated income statement.

#### Assets classified as available-for-sale

In the case of equity securities classified as available-for-sale, a significant or prolonged decline in the fair value of an investment in an equity instrument below its cost is also objective evidence of impairment. Determining what is considered a "significant" or "prolonged" decline requires judgment. For this judgment we assess, among other factors, the historical changes in the equity prices, the duration and proportion in which the fair value of the investment is lower than its cost, and the financial health and short-term prospects of the business for the investee, including factors such as: industry and segment performance, changes in technology, and operating and financial cash flows. If there is any of this evidence of impairment of available-for-sale financial assets, the cumulative loss—measured as the difference between the acquisition cost and the current fair value, less any impairment loss on the financial asset previously recorded in profit or loss—is reclassified from equity and recognized in the income statement. Impairment losses recognized in the income statement as available-for-sale instruments are not reversed through the income statement.

CSN tested for impairment its available-for-sale investment in Usiminas shares (see note 15).

#### iii) Financial liabilities

Financial liabilities are classified into the following categories: measured at fair value through profit or loss and other financial liabilities. Management determines the classification of its financial liabilities of the time of initial recognition.

#### Financial liabilities measured at fair value through profit or loss

Financial liabilities at fair value through profit or loss are financial liabilities held for trading or designated as at fair value through profit or loss.

Derivatives are also classified as trading securities, unless they have been designated as effective hedging instruments.

#### Other financial liabilities

Other financial liabilities are measured at amortized cost using the effective interest method.

The Company holds the following non-derivative financial liabilities: borrowings, financing and debentures, and trade payables.

#### Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet when there is a legally enforceable right to set off recognized amounts and the intention to either settle them on a net basis or to realize the asset and settle the liability simultaneously.

Page 46 of 117

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

#### iv) Derivative instruments and hedging activities

#### Derivatives measured at fair value through profit or loss

Certain derivative instruments do not qualify for hedge accounting. Changes in the fair value of any of these derivative instruments are immediately recognized in the income statement under "Other gains (losses), net". Even though the Company uses derivatives for hedging purposes, it does not apply hedge accounting.

#### Foreign exchange gains or losses on foreign operations

Any gain or loss on the instrument related to the effective portion is recognized in equity. The gain or loss related to the ineffective portion is immediately recognized in the income statement under "Other gains (losses), net".

Gains and losses accumulated in equity are included in the income statement when the foreign operation is partially disposed of or sold.

#### (x) Segment information

An operating segment is a component of the Group committed to the business activities from which it can obtain revenues and incur expenses, including revenues and expenses related to transactions with any other components of the Group. All the operating results of operating segments are reviewed regularly by the Executive Officers of CSN to make decisions regarding funds to be allocated to the segment and assessment of its performance, and for which there is distinct financial information available (see Note 26).

## (y) Government grants

Government grants are not recognized until there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants will be received, when they will be recognized in profit or loss on a systematic basis over the periods in which the Company recognizes as expenses the related costs the grants are intended to compensate.

The Company has state tax incentives in the North and Northeast regions that are recognized in profit or loss as a reduction of the corresponding costs, expenses and taxes.

#### (z) New standards and interpretations issued and not yet adopted

The information on the recently issued accounting standards and interpretations did not change significantly as compared to the one disclosed in note 2 to the financial statements for the year ended December 31, 2011.

#### 3. BUSINESS COMBINATION

#### • Companhia Brasileira de Latas ("CBL")

On July 12, 2011, CSN conducted, through its wholly-owned subsidiary "Prada", a capital increase in Companhia Brasileira de Latas ("CBL") through the capitalization of receivables. As a result, the Company became the holder of CBL's control, with an equity interest equivalent to 59.17% of its voting capital, represented by 784,055,451 common shares ("Acquisition").

Page 47 of 117

#### (CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

The acquisition of CBL's control will generate operating and administrative synergies that will result in a decrease in production costs, logistics costs, and administrative costs.

As mentioned in note 2(i), the acquisition method was used to account for identifiable assets acquired, liabilities assumed, and non-controlling interests. Non-controlling interests in CBL equivalent to 40.83% were proportionately determined, based on the fair value of identifiable assets acquired and liabilities assumed. Some of the non-controlling shareholders are in the corporate structure of CSN's parent group.

The purchase price of R\$43,316 was allocated between identified assets acquired and liabilities assumed, measured at fair value. The asset and liability identification process considered the intangible assets that were not recognized in the acquirees' books. The transaction costs are represented by consulting services and lawyers' fees totaling R\$485, which have been allocated to profit or loss as incurred.

The tables below show the allocation of identifiable assets acquired and liabilities assumed recognized at the acquisition date, the purchase price considered on the acquisition of CBL's control, and the calculation of the resulting goodwill.

| Assets acquired and liabilities assumed       | Carrying amounts | Fair value adjustments | Total fair value |
|---|------------------|------------------------|------------------|
| Current assets                                | 62,182           | (7,465)                | 54,717           |
| Non-current assets (*)                        | 44,718           | 89,449                 | 134,167          |
| Current liabilities                           | (144,225)        | 10,522                 | (133,703)        |
| Non-current liabilities (**)                  | (567,469)        | 351,035                | (216,434)        |
| Total assets acquired and liabilities assumed | (604,794)        | 443,541                | (161,253)        |

- (\*) Comprising mainly the fair value adjustment to property, plant and equipment amounting to R\$90,572. Total fair value of property, plant and equipment was measured at R\$123,518.
- (\*) Comprising mainly the fair value adjustment to receivables from CSN amounting to R\$388,640.

The fair value adjustments made based on the corporate balance sheet to prepare the opening balance sheet were adjusted after the completion of the valuation report in December 2011.

#### Goodwill arising on acquisition

| (-) Book value of CBL   | (604,794) |
|---|-----------|
| .,  | , ,       |
| (+) Fair value of assets acquired and liabilities assumed       | 443,541   |
| (=) Total fair value of assets acquired and liabilities assumed | (161,253) |
|   |           |
| Purchase price considered                                       | 43,316    |
|   | -7        |
|   |           |
| Goodwill arising on acquisition                                 | 204,569   |

Goodwill arising on the acquisition comprises mainly the expected synergies generated by the business combination of Prada Embalagens with CBL.

The business combination with Companhia Brasileira de Latas, which took place on July 12, 2011, is under review of Conselho Administrativo de Defesa Econômica, or CADE, (Brazilian antitrust agency).

Page 48 of 117

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

## Stahlwerk Thüringen GmbH ("SWT") and Gallardo Sections

On January 31, 2012, through its wholly-owned subsidiary CSN Steel S.L., CSN completed the acquisition of all the shares ("Shares") of the Spanish companies (a) Dankerena Guipúzcoa, S.L. (currently named CSN Steel Holdings 2, S.L.U.) and Grupo Alfonso Gallardo Thüringen, S.L.U. (currently named CSN Steel Holdings 1, S.L.U.), holding companies that together hold 100% of the capital of the German company Stahlwerk Thüringen GmbH ("SWT"), a producer of long steel located in Unterwellenborn, Germany, specialized in the production of shapes and with installed capacity of 1.1 million metric tons of steel/year; and (b) Gallardo Sections S.L.U. (currently named CSN Steel Comercializadora, S.L.U.), a trader of SWT products, all previously held by Grupo Alfonso Gallardo, S.L.U. ("AG Group").

This acquisition helps CSN to strengthen its role in the long steel segment, by strengthening its portfolio of world class assets.

As mentioned in Note 2(i), the acquisition method was used to account for identifiable assets acquired and liabilities assumed.

The purchase price of R\$300,545 (€130,939) was allocated between identified assets acquired and liabilities assumed, measured at fair value. In the purchase price identification process, the Company considered the adjustments presented below and the starting point was the transaction amount of R\$1,107,482 (€482,500):

|                               | Amounts in R\$ |
|-------------------------------|----------------|
| Transaction price             | 1,107,482      |
| Net debt                      | (860,743)      |
| Provisions                    | (11,833)       |
| Tax credits                   | 13,555         |
| Working capital               | 52,084         |
| (=) Purchase price considered | 300,545        |

The purchase price adjustments considered are preliminary and can be changed after the completion of the final price adjustment.

The transaction costs are represented by consulting services and lawyers' fees totaling R\$18,895, which have been included in the income statement, in general and administrative expenses, as incurred.

The tables below show the allocation of identifiable assets acquired and liabilities assumed recognized at the acquisition date, the purchase price considered in the acquisition of SWT and Gallardo Sections, and the calculation of the resulting goodwill.

| Assets acquired              | Carrying amounts | Fair value adjustments | Total<br>fair value |
|------------------------------|------------------|------------------------|---------------------|
| Current assets               | 402,121          | 2,536                  | 404,657             |
| Non-current assets (*)       | 192,788          | 731,161                | 923,949             |
| Current liabilities          | (263,338)        |                        | (263,338)           |
| Non-current liabilities (**) | (846,175)        | (110,055)              | (956,230)           |
| Total assets acquired        | (514,604)        | 623,642                | 109,038             |

- (\*) Comprising mainly the fair value adjustment to property, plant and equipment.
- (\*\*) Refers to the deferred income tax on the fair value adjustments.

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

The fair value adjustments made based on the corporate balance sheet to prepare the opening balance sheet are preliminary and can be changed after the completion of the valuation report estimated for the second half of 2012.

#### Goodwill arising on acquisition

| (+) Purchase price considered                             | 300,545 |
|---|---------|
| (-) Fair value of assets acquired and liabilities assumed | 109,038 |
| (=) Goodwill arising on acquisition                       | 191,507 |

Goodwill arising on the acquisition was mainly based on expected future earnings, as described in note 13.

#### 4. RELATED-PARTY BALANCES AND TRANSACTIONS

## a) Transactions with Holding Company

Vicunha Siderurgia S.A. is a holding company set up for the purpose of holding equity interests in other companies and is the Company's main shareholder, with 47.86% of the voting shares.

Rio Iaco Participações S.A. holds 3.99% of CSN.

#### Liabilities

The main transactions carried out by the Company with its jointly controlled entities are sales and purchases of products and services, which include the supply of iron ore, the provision of port services and railroad transportation, as well as the supply of electric power for operations.

## d) Other consolidated related parties

#### CBS Previdência

The Company is the main sponsor of this non-profit entity established in July 1960, primarily engaged in the payment of benefits that supplement the official government Social Security benefits to participants. In its capacity as sponsor, CSN carries out transactions involving the payment of contributions and recognition of actuarial liabilities calculated in defined benefit plans, as detailed in note 28.

#### Fundação CSN

#### Banco Fibra

Banco Fibra is under the control structure of Vicunha Siderurgia and the financial transactions carried out with this bank are limited to current account operations and investments in fixed-income securities.

## • Ibis Participações e Serviços

Ibis Participações e Serviços is under the control of a Board member of the Company.

#### Companhia de Gás do Ceará

A natural gas distributor under the control structure of Vicunha Siderurgia.

The balances and transactions between the Company and these entities are as follows:

The funds available in the Company and subsidiaries set up in Brazil are basically invested in exclusive investment funds, with repurchase agreements backed by Brazilian government bonds with immediate liquidity. In addition, a significant part of the funds of the Company and its foreign subsidiaries is invested in time deposits with leading banks.

The exclusive funds managed by BTG Pactual Serviços Financeiros S.A. DTVM and their assets collateralize possible losses on investments and transactions carried out. The funds' unit holders also guarantee the funds' equity in the event of losses arising from changes in interest and exchange rates, or other financial assets.

- (\*) Investment funds: the "Vértice" investment fund's portfolio is administered and managed by Caixa Econômica Federal (CEF).
- (\*\*) **Private securities:** short–term investments in consolidated amounting to R\$1,251,135as of June 30, 2012 (R\$1,952,274 as of December 31, 2011) and in Company amounting to R\$64,919 and R\$60,363, respectively, backed by Bank Certificates of Deposit, which yield pegged to the Interbank Certificates of Deposit rate (CDI).

**Debentures**: investments in consolidated amounting to R\$56,252 as of June 30, 2012 (R\$64,745 as of December 31, 2011), of jointly controlled entity MRS, which yield pegged to the Interbank Certificates of Deposit rate (CDI).

| Other receivables                            |              |            |                |            |
| Dividends receivable (Note 4 - b and c)      |              |            | 714,567        | 676,242    |
| Loans to subsidiaries and jointly controlled |              |            |                |            |
| entities                                     | 87,330       | 1,557      | 4,452          | 163,248    |
| Other receivables                            | 134,884      | 55,652     | 32,662         | 33,384     |
|  | 222,214      | 57,209     | 751,681        | 872,874    |
|  | 1,878,754    | 1,616,206  | 1,841,469      | 3,516,800  |

In order to meet the needs of some customers in the domestic market, related to the extension of the payment term for billing of steel, in common agreement with CSN's internal commercial policy and maintenance of its very short-term receipts (up to 14 days), at the request of the customer, transactions are carried out for assignment of receivables without co-obligation negotiated between the customer and banks with common relationship, where CSN assigns the trade notes/bills that it issues to the banks with common relationship.

Due to the characteristics of the transactions for assignment of receivables without co-obligation, after assignment of the customer's trade notes/bills and receipt of the funds from the closing of each transaction, CSN settles the trade receivables and becomes entirely free of the credit risk on the transaction. This transaction totals R\$353,096 as of June 30, 2012 (R\$262,367 as of December 31, 2011), less the trade receivables.

The changes in the Company's allowance for doubtful debts are as follows:

|   | Consolidated |            | Parent Company |            |
|---|--------------|------------|----------------|------------|
|   | 6/30/2012    | 12/31/2011 | 6/30/2012      | 12/31/2011 |
| Opening balance                           | (124,939)    | (117,402)  | (101,407)      | (99,023)   |
| Allowance for losses on trade receivables | (7,970)      | (20,005)   | (3,062)        | (11,628)   |
| Recovery of receivables                   | 12,252       | 12,468     | 9,780          | 9,244      |
| Closing balance                           | (120,657)    | (124,939)  | (94,689)       | (101,407)  |

## 7. INVENTORIES

|                    | Cor       | Consolidated |           | Company    |  |  |
|--------------------|-----------|--------------|-----------|------------|--|--|
|                    | 6/30/2012 | 12/31/2011   | 6/30/2012 | 12/31/2011 |  |  |
| Finished products  | 1,125,940 | 997,128      | 862,952   | 714,688    |  |  |
| Work in process    | 725,351   | 776,918      | 620,073   | 680,997    |  |  |
| Raw materials      | 754,275   | 847,598      | 570,261   | 693,155    |  |  |
| Storeroom supplies | 945,118   | 897,940      | 761,462   | 724,529    |  |  |
| Iron ore           | 142,586   | 215,400      | 21,204    | 72,248     |  |  |
|                    | 3,693,270 | 3,734,984    | 2,835,952 | 2,885,617  |  |  |

Changes in the allowance for inventory losses are as follows:

|                                       | Consolidated |            | Parent Company |            |
|---------------------------------------|--------------|------------|----------------|------------|
|                                       | 6/30/2012    | 12/31/2011 | 6/30/2012      | 12/31/2011 |
| Opening balance                       | (83,145)     | (64,115)   | (77,814)       | (61,702)   |
| Allowance for obsolete or slow-moving |              |            |                |            |
| inventories                           | (17,283)     | (19,030)   | (16,110)       | (16,112)   |
| Closing balance                       | (100,428)    | (83,145)   | (93,924)       | (77,814)   |

Allowances for certain items considered obsolete or slow-moving were recognized.

As of June 30, 2012, the Company has long-term iron ore inventories amounting to R\$144,483, classified in other non-current assets (R\$144,483 as of December 31, 2011), as described in note 10.

#### 8. OTHER CURRENT ASSETS

The group of other current assets is comprised as follows:

|   | Consolidated |            | Parent Company |            |
|---|--------------|------------|----------------|------------|
|   | 6/30/2012    | 12/31/2011 | 6/30/2012      | 12/31/2011 |
| Unrealized gains on derivatives (Note 15 I) | 8,747        | 55,115     |                |            |
| Guarantee margin on derivatives (Note 15 V) | 387,567      | 407,467    |                |            |
| Prepaid expenses                            | 50,088       | 24,135     | 28,082         | 10,834     |
| Recoverable taxes (*)                       | 656,382      | 689,006    | 393,824        | 400,458    |
|   | 1,102,784    | 1,175,723  | 421,906        | 411,292    |

<sup>(\*)</sup> Refer mainly to income tax and social contribution for offset, State VAT (ICMS), Federal VAT (IPI), Social security funding tax on revenue (COFINS) and social integration program tax on revenue (PIS).

## (b) Deferred income tax and social contribution:

The deferred income tax and social contribution are calculated on income tax and social contribution loss carryforwards and related temporary differences between the tax bases of assets and liabilities and the accounting balances of the interim financial statements.

(\*) In 2012, the Company opted for taxing foreign exchange differences on a cash basis to calculate income tax and social contribution.

Related to a sole jurisdiction, thus presented at net amounts.

Some Group companies recognized tax credits on income tax and social contribution loss carryforwards not subject to statute of limitations and based on the history of profitability and expected future taxable profits determined in technical studies approved by Management.

Since they are subject to significant factors that may change the projections for realization, the carrying amounts of deferred tax assets are reviewed quarterly and projections are reviewed annually. These studies indicate the realization of these tax assets within the term stipulated by the mentioned instruction and the limit of 30% of the taxable profit.

Certain CSN subsidiaries have tax assets amounting to R\$727,249 and R\$180,276, related to income tax and social contribution loss carryforwards, for which no deferred taxes were set up, of which R\$10,231 expire in 2013, R\$732 in 2014, R\$29,429 in 2015, R\$11,151 in 2022, R\$33,061 in 2023, R\$39,151 in 2024, R\$95,148 in 2025, R\$16,299 in 2026, and R\$1,928 in 2027. The remaining tax assets refer to domestic companies and, therefore, are not subject to statute of limitations.

The tax benefit of goodwill of Nacional Minérios S.A., which arose on the merger of Big Jump in July 2009, amounted to R\$1,391,858. Up to June 30, 2012 a total amount of R\$811,918 (R\$672,732 up to 2011) had been realized, leaving a remaining amount of R\$579,940, which will be realized through 2014. The realization will amount to R\$139,186 from July to December 2012, R\$278,372 in 2013 and R\$162,382 in 2014.

Page 61 of 117

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

The undistributed profits of the Company's foreign subsidiaries have been invested and will continue to be indefinitely invested in their operations. These undistributed profits of the Company's foreign subsidiaries amounted to R\$7,813,301 as of June 30, 2012 (R\$8,033,902 as of December 31, 2011).

## (c) Income tax and social contribution recognized in equity:

The income tax and social contribution recognized directly in equity are as follows:

|   | Conso     | lidated    | Parent Company |            |  |
|---|-----------|------------|----------------|------------|--|
|   | 6/30/2012 | 12/31/2011 | 6/30/2012      | 12/31/2011 |  |
| Income tax and social contribution              |           |            |                |            |  |
| Actuarial gains on defined benefit pension plan | 54,714    | 54,714     | 54,651         | 54,651     |  |

| Exchange differences on translating foreign     |           |            |                |            |  |
| operations                                      | (425,510) | (425,510)  | (425,510)      | (425,510)  |  |

#### (d) Tax incentives

The Company enjoys Income Tax incentives based on the legislation in effect, such as: Worker Food Program, the Rouanet Law (tax incentives related to cultural activities), Tax Incentives for Audiovisual Activities, and Funds for the Rights of Children and Adolescents. As of June 30, 2012, these tax incentives total R\$848 (R\$1,914 as of December 31, 2011).

## 10. OTHER NON-CURRENT ASSETS

The group of other non-current assets is comprised as follows:

|   | Consoli   | dated      | Parent Company |            |  |
|---|-----------|------------|----------------|------------|--|
|   | 6/30/2012 | 12/31/2011 | 6/30/2012      | 12/31/2011 |  |
| Judicial deposits                           | 988,705   | 954,711    | 898,250        | 877,672    |  |
| Credits with the PGFN (*)                   | 820,023   | 806,103    | 820,023        | 806,103    |  |
| Recoverable taxes (**)                      | 275,809   | 257,977    | 117,037        | 101,859    |  |
| Prepaid expenses                            | 103,102   | 115,853    | 23,070         | 24,560     |  |
| Unrealized gains on derivatives (Note 15 I) | 363,851   | 376,344    | 357,327        | 374,455    |  |

## c) Additional information on the main operating subsidiaries

#### SEPETIBA TECON

It is engaged in operating Container Terminal No. 1 of the Itaguaí Port, located in Itaguaí, State of Rio de Janeiro. The terminal is connected to UPV by the Southeast railroad network, the concession of which is granted to MRS Logística. The services provided are handling and storage of containers, steel products and cargo in general, among other products and services related to container washing, maintenance and

## ESTANHO DE RONDÔNIA - ERSA

Headquartered in the State of Rondônia, this subsidiary operates two units, one in the city of Itapuã do Oeste and the other one in the city of Ariquemes. In Itapuã do Oeste, where the mining business unit is based, it mines cassiterite (tin ore) while in Ariquemes it operates a foundry to obtain metallic tin, the raw material used by UPV for the production of tin plates.

#### CIA. METALIC NORDESTE

Headquartered in Maracanaú, State of Ceará, it is engaged in manufacturing metal containers basically sold to beverage industry. Its production is mainly sold in Brazil's North and Northeastern market, and the lid surplus is sold in the foreign market.

Its operating unit has two different production lines: Cans, using as raw material tine-coated steel supplied by the parent company and Lids, using as raw material aluminum.

## COMPANHIA METALÚRGICA PRADA

Steel containers

Companhia Metalúrgica Prada is engaged in the manufacture and sale of steel containers, producing the best and safest cans, pails and spray cans. It supplies containers and lithography services to the main companies in the chemical and food industries.

On July 12, 2011, Companhia Metalúrgica Prada conducted a capital increase in Companhia Brasileira de Latas ("CBL") through the capitalization of debentures and other receivables. As a result, Companhia Metalúrgica Prada became the holder of CBL's control, with an equity interest equivalent to 59.17% of its voting capital.

Companhia Brasileira de Latas is engaged in the manufacturing of steel containers supplied to the main companies in the chemical and food industries.

#### Distribution

The Distribution unit is engaged in the processing and distribution of steel sheet and plates and has a diversified product line. It supplies spools, rolls, plates, stripes, blanks, metal sheets, shapes, tubes, tiles, and other products to different manufacturing industries, from automotive to construction. It is also specialized in providing steel processing services, meeting the demand from nationwide companies.

#### CSN CIMENTOS

Headquartered in Volta Redonda, State of Rio de Janeiro, it is engaged in the production and sale of cement and uses as one of its raw materials the blast furnace slag from the pig iron production of UPV.

CSN Cimentos started to operate on May 14, 2009.

At the beginning of 2011, CSN Cimentos started manufacturing clinker in its Arcos plant, in Minas Gerais. In January 2012, CSN acquired the trading unit of CSN Cimentos in Arcos, MG. As a result, the clinker plant is now a branch of CSN.

#### CSN ENERGIA

It is primarily engaged in the distribution and sale of electric power surpluses generated by CSN and companies, consortiums or other ventures in which the Company holds equity interests.

## TRANSNORDESTINA LOGÍSTICA

It is primarily engaged in the operation and development of the railroad freight transportation public service in the Northeast of Brazil network.

As of June 30, 2012, CSN held 73.70% of the Company's share capital.

## d) Investments in jointly controlled entities

The balances of the balance sheets and income statements of the companies under shared control are stated below and have been consolidated into the Company's financial statements according to the percentage equity interests described in item (b) of note 2.

<sup>(\*)</sup> Refer to the consolidated balances and profit or loss of Nacional Minérios S. A.

## • NACIONAL MINÉRIOS – NAMISA

Headquartered in Congonhas, State of Minas Gerais, this company is primarily engaged in the production, purchase and sale of iron ore and is mainly focused on foreign markets for sale of its products. Its major operations are carried out in the cities of Congonhas, Ouro Preto, Itabirito and Rio Acima, in the State of Minas Gerais, and in Itaguaí, in the State of Rio de Janeiro.

CSN holds and consolidates proportionately 60% of Namisa.

## • ITÁ ENERGÉTICA S.A. - ITASA

Itasa is a corporation originally created to carry out the construction of the Itá hydroelectric power plant: contracting for the supply of goods and services necessary to carry out the project and raising funds, including posting the corresponding guarantees.

CSN holds 48.75% of Itasa's share capital.

#### MRS LOGÍSTICA

This subsidiary is engaged in providing public railroad freight transportation services, on the basis of an onerous concession agreement, on the tracks of the Southeast Network, located between the cities of Rio de Janeiro, São Paulo and Belo Horizonte, previously belonging to Rede Ferroviária Federal S.A.- RFFSA, which was privatized on September 20, 1996.

Page 66 of 117

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

In 2008 CSN transferred to Nacional Minérios S.A. ("Namisa") in the form of a capital contribution a 10% equity interest of MRS. With this, its direct interest in MRS's share capital previously of 32.93% decreased to 22.93% plus a 6% indirect interest held through Namisa, a proportionately consolidated subsidiary.

In addition to this direct interest, in 2010 CSN held an indirect interest of 4.34% through International Investment Fund (IIF). In December 2011, the Company acquired all the shares held by IIF.

As of March 31, 2012 the Company held a 27.27% direct interest and a 6% indirect interest in MRS's share capital.

## CONSÓRCIO DA USINA HIDRELÉTRICA DE IGARAPAVA

Igarapava Hydroelectric Power Plant is located in Rio Grande, in the city of Conquista, MG, with installed capacity of 210 MW. It consists of 5 bulb type generating units and is considered a major mark for power generation in Brazil.

CSN holds 17.92% of investment in the consortium, whose specific purpose is the distribution of electric power, which is made according to the percentage equity interest of each company.

The balance of property, plant and equipment less depreciation as of June 30, 2012 is R\$30,584 (R\$31,751 as of December 31, 2011) and the amount of the expense attributable to CSN is RR\$2,880 (R\$3,378 as of June 30, 2011).

## COMPANHIA BRASILEIRA DE SERVIÇOS DE INFRAESTRUTURA

In December 2011, CSN subscribed to 1,876,146 common shares, corresponding to 50% of the capital of CBSI - Companhia Brasileira de Serviços de Infraestrutura ("CBSI")The investment is the result of a joint venture between CSN and CKLS Serviços Ltda. Based in the city of Araucária, PR, CBSI is primarily engaged in providing services to subsidiaries, associates, controlling companies and third-party entities, and can operate activities related to the refurbishment and maintenance of industrial machinery and equipment, construction maintenance, industrial cleaning, logistic preparation of products, among other activities.

## e) Additional information on indirect interests held abroad

COMPANHIA SIDERURGICA NACIONAL – LLC ("CSN LLC")

Incorporated in 2001 with the assets and liabilities of the liquidated Heartland Steel Inc., headquartered in Wilmington, State of Delaware, USA, it has an industrial plant in Terre Haute, State of Indiana, USA, where there is a complex comprising a cold rolling line, a hot pickling line for spools and a galvanization line. CSN LLC is a wholly-owned indirect subsidiary of CSN Americas, a subsidiary of CSN.

#### LUSOSIDER

Incorporated in 1996 in succession to Siderurgia Nacional - a company privatized by the Portuguese government that year, Lusosider is the only Portuguese steel company to produce cold-re-rolled flat steel, with a corrosion-resistant coating. The company provides in Paio Pires an installed capacity of around 550,000 metric tons per year to produce four large groups of steel products: galvanized plate, cold-rolled plate, pickled and oiled plate. Products manufactured by Lusosider may be used in the packaging industry, civil construction (pipes and metallic structures), and in home appliance components.

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

STAHLWERK THÜRINGEN GMBH (SWT)

On January 31, 2012, through its wholly-owned subsidiary CSN Steel S.L.U., CSN acquired the company Stahlwerk Thüringen Gmbh, as mentioned in note 3.

Stahlwerk Thüringen Gmbh was incorporated in 1992, from the discontinued Maxhütte steel industrial complex, in Unterwellenborn, Germany, and produces steel shapes for construction, in accordance with international quality standards. It main raw material is steel scrap and its installed capacity is 1.1 million metric tons of steel/year.

#### f) Other investments

• RIVERSDALE MINING LIMITED - Riversdale

On April 20, 2011, the Company adhered to the tender offer of Riversdale Mining Limited ("Riversdale") shares conducted by Rio Tinto. Therefore, the Company sold 100% of its equity interest held in Riversdale's share capital, corresponding to 47,291,891 shares of the price of A\$16.50 per share, totaling A\$780,316.

## PANATLÂNTICA

On January 5, 2010, the Company's Board of Directors approved the acquisition of common shares representing 9.39% of the capital stock of Panatlântica S.A., a publicly-held company, headquartered in the city of Gravataí, State of Rio Grande do Sul, engaged in the manufacturing, trade, import, export and processing of steel and ferrous or non-ferrous metals, coated or not. This investment is carried at fair value.

CSN currently holds 9.40% of Panatlântica's total share capital.

#### USIMINAS

Usinas Siderúrgicas de Minas Gerais S.A. – USIMINAS ("USIMINAS"), headquartered in Belo Horizonte, State of Minas Gerais, is engaged in steel and related operations. USIMINAS produces flat rolled steel in the Intendente Câmara and José Bonifácio de Andrada e Silva plants, located in Ipatinga, Minas Gerais, and Cubatão, São Paulo, respectively, to be sold in the domestic market and also for exports. It also exploits iron ore mines located in Itaúna, Minas Gerais, to meet its verticalization and production cost optimization strategies. USIMINAS also has service and distribution centers located in several regions of Brazil, and the Cubatão, São Paulo, and Praia Mole, Espírito Santo, ports, as well as in locations strategic for the shipment of its production.

As of December 31, 2011, the Company reached holdings of 11.97% in common shares and 20.14% in preferred shares of Usiminas' share capital.

USIMINAS is listed on the São Paulo Stock Exchange ("Bovespa": USIM3 and USIM5).

The breakdown of consolidated investments is as follows:

- (1) Expected date for completion of the 40 Mtpa and 42 Mtpa Stages
- (2) Expected date for completion of the Rio de Janeiro unit
- (3) Expected date for completion of new grinding in Arcos MG
- (4) Start-up in March 2011, expected date for completion of construction works: second half of 2012.

The costs classified in construction in progress comprise basically the acquisition of services, purchase of parts to be used as investments for improvement of performance, upgrading of technology, enlargement, expansion and acquisition of assets that will be transferred to the relevant line items and depreciated as from the time they are available for use.

The costs incurred to refurbish and replace property, plant and equipment items totaled R\$126,099 as of June 30, 2012 (R\$247,495 as of June 30, 2011), which were capitalized and will be depreciated over the period until the next maintenance event.

Other repair and maintenance expenses are charged to operating costs and expenses when incurred.

In view of the need to review the useful lives of least every financial year, in 2011 management performed the review for all the Company's units. As a result, the estimated useful lives for the current year are as follows:

|                                     | Consolidated | Parent Company |
|-------------------------------------|--------------|----------------|
| Buildings                           | 46           | 44             |
| Machinery, equipment and facilities | 13           | 13             |
| Furniture and fixtures              | 10           | 10             |
| Other                               | 34           | 13             |

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

a) As of June 30, 2012, the Company capitalized borrowing costs amounting to R\$202,807 (R\$143,069 as of June 30, 2011) in consolidated and R\$135,711 (R\$95,025 as of June 30, 2011) in Company. These costs are basically estimated for mining, cement, long steel and Transnordestina projects, mainly relating to: (i) Casa de Pedra Mine expansion; (ii) construction of the cement plant in Volta Redonda, RJ, and the clinker plant in the city of Arcos, MG; (iii) construction of the long steel mill in the city of Volta Redonda, RJ; and (iv) extension of Transnordestina railroad, which will connect the countryside of the northeast region to the Suape, State of Pernambuco, and Pecém, State of Ceará, ports.

The rates used to capitalize borrowing costs are as follows:

|                     | 6/30/2012             | 6/30/20             |                       |  |  |

(\*) Goodwill based on expected future earnings, arising on the business combination of CSN Steel S. L. with the companies Stahlwerk Thüringen Gmbh (SWT) and Gallardo Sections on January 31, 2012.

The useful life of software is one to five years.

**Goodwill**: The economic basis of goodwill is the expected future earnings and, in accordance with the new pronouncements, these amounts are not amortized since January 1, 2009, when they became subject only to impairment testing.

| Closing balance | 29,295,105  | 27,888,588   | 23,680,766  | 23,421,418  |  |

(\*) Includes foreign exchange differences and inflation adjustments.

Loan and financing contracts with certain financial institutions contain some covenants that are usual in financial agreements in general and the Company is compliant with them as of June 30, 2012.

In January 2012, the Company secured a financing facility contracted by its subsidiary CSN Steel S.L., amounting to €120 million, to partially finance the acquisition of all the shares held by Grupo Alfonso Gallardo, S.L.U. ("Gallardo Group") in the companies Stahlwerk Thüringen GmbH ("SWT") and Gallardo Sections S.L.U.

In January 2012, the Company priced, through its wholly-owned subsidiary CSN Resources S.A., an additional bond issue amounting to US\$200 million, by reopening the US\$1 billion bonds, maturing in July 2020.

In March 2012, the Company conducted the first issue of commercial promissory notes ("Promissory Notes") for public distribution with restricted efforts. The Issue comprised 40 promissory notes with unit face value of R\$20,000, totaling R\$800,000, which were fully subscribed and paid in.

## i. Companhia Siderúrgica Nacional

# 4th issue

In February 2012, the Company settled the fourth issue debentures amounting to R\$600,000 in principal and R\$35,285 in interest).

# 5<sup>th</sup> issue

As approved at the Board of Directors' meeting held on July 12, 2011, the Company issued on July 20, 2011, 115 nonconvertible, unsecured debentures, in single series, with a unit face value of R\$10,000. These debentures were issued in the total amount of R\$1,150,000 and the proceeds from their trading with financial institutions were received on August 23, 2011.

The face value of these debentures earns interest equivalent to 110.8% of CDI, as released by Cetip, per year, and maturity of the face value is scheduled for July 20, 2019, with an early redemption option.

15,944

106,933

(\*) In March 2012 the Company settled the loan guaranteed by a collateral transfer and paid R\$89,438.

## 15. FINANCIAL INSTRUMENTS

## I - Identification and measurement of financial instruments

The Company enters into transactions involving various financial instruments, mainly cash and cash equivalents, including short-term investments, marketable securities, trade receivables, trade payables, and borrowings and financing. Additionally, it also carries out transactions involving derivative financial instruments, especially exchange and interest rate swaps.

Considering the nature of these instruments, their fair value is basically determined by the use of Brazil's money market and mercantile and futures exchange quotations. The amounts recorded in current assets and current liabilities have immediate liquidity or short-term maturity, mostly less than three months. Considering the maturities and features of such instruments, their carrying amounts approximate their fair values.

## Fair value measurement

The financial instruments recognized at fair value require the disclosure of fair value measurements of three hierarchy levels.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: other available inputs, except those of Level 1 that are observable for the asset or liability, whether directly (i.e., prices) or indirectly (i.e., derived from prices)
- Level 3: inputs unavailable due to slight or no market activity and which is significant for the definition of the fair value of assets.

The following table shows the financial instruments recognized at fair value using a valuation method:

|  |           |         | Level | 6/30/2012 |           |         | Level | 12/31/2011 |
|--|-----------|---------|-------|-----------|-----------|---------|-------|------------|
| Consolidated   | Level 1   | Level 2 | 3     | Balances  | Level 1   | Level 2 | 3     | Balances   |
| Assets   |           |         |       |           |           |         |       |            |
| Current assets   |           |         |       |           |           |         |       |            |
| Financial assets at fair value through profit or loss      |           |         |       |           |           |         |       |            |

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

# II – investments in financial instruments classified as available for sale and measured at fair value through OCI

These consist mainly of investments in shares acquired in Brazil and abroad involving top ranked companies classified by international rating agencies as investment grade, which are recognized in non-current assets, and any gains or losses are recognized in equity, where they will remain until actual realization of the securities or when any loss is considered unrecoverable.

## Potential impairment of financial assets classified as available for sale

The Company has investments in common (USIM3) and preferred (USIM5) shares ("Usiminas Shares"), designated as available-for-sale financial assets as they do not meet the criteria to be classified within any of the other categories of financial instruments (loans and receivables, held-to-maturity investments or financial assets at fair value through profit or loss). The asset is classified as a non-current asset under line item "investments" and is carried at fair value based on the quoted price on the stock exchange (BM&FBOVESPA).

Considering the volatility of the quotations of the Usiminas shares through the end of the first half of 2012, the Company has evaluated whether, at the end of the reporting period, there is objective evidence of impairment of these financial assets, i.e., the Company's management evaluated if the decline in the market value of Usiminas shares should be considered either significant or prolonged. In turn, this valuation requires judgment based on CSN's policy, prepared according to practices used in the domestic and international markets, and consists of an instrument by instrument analysis based on quantitative and qualitative information available in the market, from the time an instrument shows a decline of 20% or more in its market value or from the time there is a significant decline in its market value as compared to its acquisition cost during more than twelve months.

As USIM3 and USIM5 shares are equity instruments of the same company and due to the different characteristics attached to Usiminas' equity instruments (common and preferred shares), CSN analyzed the decline in the market value by type of equity instrument. The individual monitoring allows a detailed analysis of the decline percentage and period and each equity instrument's characteristics, such as, asset risk, industry, and volatility.

To determine the period of decline in the market value of the Usiminas Shares below their cost, CSN compared their average cost of acquisition as of June 30, 2012 with the last date when the maximum quotation was above this weighted average (common share: 7 months, preferred share: 13 months). According to management, this analysis shows that neither USIM3 shares nor the USIM5 shares presented a prolonged decline in their quotations, based on the Company's policy.

To determine the decline percentage, we have analyzed volatility, which represents a dispersion measure of a share or market index returns. The more a share price varies over a short period of time, the higher is the risk of financial gain or loss if the share is traded and, therefore, volatility is a risk measure. The historical volatility of a share is calculated and taken into account to identify the expected fluctuation of the related instrument, measure the expected future volatility of the analyzed equity instrument, and conclude if the decline in the market value of an instrument below its cost should or not be considered significant.

The table below illustrates this index for a twelve-year period (as from December 31, 2011), a sufficiently long period to eliminate volatility peaks caused by domestic and international economic crises:

|                        | Volati | llity  |
|------------------------|--------|--------|
| Period                 |        |        |
|                        | USIM3  | USIM5  |
| 1/3/2000 to 12/31/2011 | 50.42% | 48.57% |

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

Based on this information, the criteria adopted by management, and the relevant accounting and legal rules, management concluded that the decline in the market value as compared to the acquisition cost of the USIM3 and USIM5 shares as of June 30, 2012, of 66.3% and 59.0%, respectively, should be considered a significant decline in the market value of these equity instruments.

Considering the quantitative and qualitative analyses above, management concluded, in its best judgment, that there is evidence of impairment of the investment in Usiminas Shares as of June 30, 2012, and, consequently, reclassified the accumulated losses recorded in other comprehensive income amounting to R\$1,599,485, net of income tax and social contribution, to profit/loss for the period, recognizing R\$2,022,793 in other operating expenses and R\$423,308 in deferred taxes.

The Company continues to evaluate strategic alternatives with respect to its investment in Usiminas. These initiatives can impact, among others, the way an investment is recorded in the Company's financial statements.

## III – Fair values of assets and liabilities as compared to their carrying amounts

Financial assets and liabilities at fair value through profit or loss are recognized in current and non-current assets and liabilities, and any gains and possible losses are recognized as finance income or finance costs, respectively.

The amounts are recognized in the interim financial statements of their carrying amounts, which are substantially similar to those that would be obtained if they were traded in the market. The fair values of other long-term assets and liabilities do not differ significantly from their carrying amounts, except the amounts below.

The estimated fair values of consolidated long-term borrowings and financing were calculated at prevailing market rates, taking into consideration the nature, terms and risks similar to those of the recorded contracts, as compared below:

|                  |           | 6/30/2012  |           |            |  |  |  |
|------------------|-----------|------------|-----------|------------|--|--|--|
|                  | Carrying  |            |           |            |  |  |  |
|                  | amount    | Fair value | amount    | Fair value |  |  |  |
| Perpetual bonds  | 2,024,051 | 2,016,403  | 1,878,353 | 1,819,903  |  |  |  |

# IV Financial risk management policy

The Company has and follows a policy of managing its risks, with guidelines regarding the risks incurred by the company. Pursuant to this policy, the nature and general position of financial risks are regularly monitored and managed in order to assess the results and the financial impact on cash flow. The credit limits and the quality of counterparties' hedge instruments are also periodically reviewed.

The risk management policy was established by the Board of Directors. Under this policy, market risks are hedged when it is considered necessary to support the corporate strategy or when it is necessary to maintain a level of financial flexibility.

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

Under the terms of the risk management policy, the Company manages some risks by using derivative financial instruments. The Company's risk policy prohibits any speculative deals or short sales.

# Liquidity risk

It is the risk that the Company may not have sufficient net funds to honor its financial commitments as a result of mismatching of terms or volumes between scheduled receipts and payments.

To manage cash liquidity in domestic and foreign currency, assumptions of future disbursements and receipts are established and daily monitored by the treasury area. The payment schedules for the long-term portions of borrowings, financing and debentures are shown in note 14.

The following table shows the contractual maturities of financial liabilities, including accrued interest.

|                           |           |             |           |            | Consolidated |  |  |  |  |  |

## Foreign exchange rate risk

The Company assesses its exchange exposure by subtracting its liabilities from its assets denominated in dollar and euro, thus arriving at its net exchange exposure, which is the foreign currency exposure risk. Therefore, besides the trade receivables arising from exports and investments overseas that in economic terms constitute natural hedges, the Company further considers and uses various financial instruments, such as derivative instruments (US\$ to real and euro to dollar swaps, and forward exchange contracts, etc.) to manage its risks of fluctuations in currencies other than the Brazilian real.

## Policies on the use of hedging derivatives

The Company's financial policy reflects the parameters of liquidity, credit and market risks approved by the Audit Committee and Board of Directors. The use of derivative instruments in order to prevent fluctuations in interest and exchange rates from having a negative impact on the company's balance sheet and income statement should consider the same parameters. As provided for in internal rules, this financial investment policy has been approved and is being managed by the finance officers.

At the meetings of the Executive Officers and Board of Directors, the officers and directors routinely present and discuss the Company's financial positions. Under the bylaws, transactions involving material amounts require the prior approval of management bodies. The use of other derivative instruments is contingent upon the express prior approval of the Board of Directors.

# ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

To finance its activities, the Company resorts to the capital markets, both locally and internationally, and based on the indebtedness profile it is seeking, part of the debt is pegged to foreign currency, basically to the US dollar, which causes Management to seek hedging for debt through derivative financial instruments.

To contract derivative financial instruments for hedging within the internal control structure, the following policies are adopted:

- ongoing calculation of exchange exposure that occurs by analyzing assets and liabilities exposed to foreign currency, under the following terms: (i) trade receivables and payables in foreign currency; (ii) cash and cash equivalents and debts in foreign currency considering the maturity of the assets and liabilities exposed to exchange fluctuations;
- presentation of the financial position and exchange exposure on a routine basis of meetings of the Executive Officers and Board of Directors that approve the hedging strategy;
- carrying out derivative hedging transactions only with leading banks, diluting the credit risk through diversification among these banks;

The consolidated net exposure as of June 30, 2012 is as follows:

|                                    |                            | 6/30/2012                  |
|------------------------------------|----------------------------|----------------------------|
| Foreign Exchange Exposure          | (Amounts in US\$ thousand) | (Amounts in<br>€ thousand) |
| Cash and cash equivalents overseas | 5,884,526                  | 13,933                     |
| Derivative guarantee margin        | 191,742                    |                            |
| Trade receivables - foreign market | 282,483                    | 63,142                     |
| Intercompany loans                 | 81,449                     |                            |
| Advances to suppliers              | 53,166                     | 501                        |
| Other assets                       | 561                        |                            |

Edgar Filing: NATIONAL STEEL CO - Form 6-K

| Total assets                              | 6,493,927   | 77,576   |
|---|-------------|----------|
| Borrowings and financing                  | (5,229,085) |          |
| Trade payables                            | (98,006)    | (1,102)  |
| Intercompany borrowings                   | (19,741)    |          |
| Other liabilities                         | (13,154)    |          |
| Total liabilities                         | (5,359,986) | (1,102)  |
| Gross exposure                            | 1,133,941   | 76,474   |
| Notional amount of derivatives contracted | 78,202      | (90,000) |
| Net exposure                              | 1,212,143   | (13,526) |

Gains and losses on these transactions are consistent with the policies and strategies defined by management.

## Exchange swap transactions

The Company carries out exchange swap transactions in order to hedge its assets and liabilities against any fluctuations in the US dollar-real parity. This hedge through exchange swaps provides the Company, through the long position of the contract, with a forward rate agreement (FRA) gain on the exchange coupon, which at the same time improves our investment rates and reduces the cost of our funding in the international market.

The position of outstanding transactions was recorded in the Company's assets and totals R\$11,929 as of June 30, 2012 (R\$37,020 in assets and R\$847 in liabilities as of December 31, 2011) and its effects are recognized in the Company's finance income (costs) as gain totaling R\$16,306 as of June 30, 2012 (loss of R\$212,129 as of June 30, 2011) (see note 25).

## • Euro-to-US dollar exchange swap

In addition to the swaps above, the Company also contracted NDFs (non-deliverable forwards) to hedge its euro-denominated assets. Basically the Company contracted financial derivatives for its euro-denominated assets, where it will receive the difference between the US dollar exchange rate change for the period, multiplied by the notional amount (long position) and pay the difference between the exchange rate change in euro for the period on the notional euro amount on the contract date (short position). In general, these are transactions conducted in the Brazilian over-the-counter market that have as counterparties prime financial institutions, contracted under the exclusive funds.

The position of outstanding transactions was recorded in the Company's assets and totals R\$3,342 as of June 30, 2012 (R\$6,734 in assets as of December 31, 2011).

Gains or losses on these transactions as of June 30, 2012 are consolidated into the Company's finance income (costs) as loss totaling R\$523 (loss of R\$9,629 as of June 30, 2011) (see note 25).

## Sensitivity analysis of the US dollar-to-real exchange swap

The sensitivity analysis is based on the assumption of maintaining, as a probable scenario, the fair values as of June 30, 2012 recognized in assets, amounting to R\$11,929. The Company considered the scenarios below for the real-dollar parity volatility.

- Scenario 1: (25% real appreciation) R\$-US\$ parity of 1.5160;
- Scenario 2: (50% real appreciation) R\$-US\$ parity of 1.0107;

- Scenario 3: (25% real depreciation) R\$-US\$ parity of 2.5266;
- Scenario 4: (50% real depreciation) R\$-US\$ parity of 3.0320.

(including exchange derivatives above)

## Interest rate risk

Short- and long-term liabilities to indexed to floating interest rate and inflation indices. Due to this exposure, the Company undertakes derivative transactions to better manage these risks.

## Interest rate swap transactions (LIBOR to CDI)

The objective of these transactions is to hedge transactions indexed to US dollar LIBOR against fluctuations in Brazilian interest rates. Basically, the Company carried out *swaps* of its obligations indexed to the LIBOR, in which it receives interest of 1.25% p.a. on the notional value of the dollar (long position) and pays 96% of the CDI on the notional amount in reais of the contract date (short position). The notional amount of this swap as of June 30, 2012 is US\$86,000,000, hedging an export prepayment transaction in the same amount. The gains and losses on these contracts are directly related to fluctuations in exchange rates (US\$) and interest rates (LIBOR and CDI). In general, these are transactions conducted in the Brazilian over-the-counter market that have as counterparty a prime financial institution.

|                |                         |  | 366,135                   | (372,899)                  | (6,764)         |  | 182,432                   | (184,556)                  | (2,124)                  | (4,640)                        |

The position of outstanding transactions was recorded in the Company's liabilities and totals R\$1,267 as of June 30, 2012 (R\$2,124 in liabilities as of December 31, 2011) and its effects are recognized in the Company's finance income (costs) as loss totaling R\$5,907 (loss of R\$10,871 as of June 30, 2011).

## Sensitivity analysis of interest rate swaps (LIBOR to CDI)

The sensitivity analysis is based on the assumption of maintaining, as a probable scenario, the fair values as of June 30, 2012 recognized in liabilities, amounting to R\$1,267. The Company considered the scenarios below for the LIBOR (US\$) and CDI interest rates volatility.

|                            | Notional<br>amount<br>(US\$<br>thousand) | Risk         | 25%      | 50%      | 25%    | 6/30/2012<br>50% |
|----------------------------|--|--------------|----------|----------|--------|------------------|
| LIBOR-to-CDI interest rate |  |              |          |          |        |                  |
| swap                       | 86,000                                   | (Libor) US\$ | (13,513) | (15,916) | 13,513 | 15,916           |

# Sensitivity analysis of changes in interest rates

The Company considers the effects of a 5% increase or decrease in interest rates on its outstanding borrowings, financing and debentures as of June 30, 2012 in the consolidated interim financial statements.

Page 87 of 117

#### Impact on profit or loss

| Changes in interest rates | % p.a. | 6/30/2012 | 6/30/2011 |
|---------------------------|--------|-----------|-----------|
| TJLP                      | 6.00   | 10,517    | 9,335     |
| Libor                     | 0.73   | 10,307    | 5,129     |
| CDI                       | 8.38   | 57,345    | 61,772    |

# Share market price risks

The Company is exposed to the risk of changes in equity prices due to the investments made and classified as available-for-sale. Equity investments refer to blue chips traded on BOVESPA.

The following table shows the impact of the net changes in the market value of financial instruments classified as available for sale on equity, in other comprehensive income.

#### Consolidated

#### Other comprehensive income

|  | O 1.1.01 O 0.1.1 | 310110110110 111001110 |
|--|------------------|------------------------|
|  | 6/30/2012        | 12/31/2011             |
| Net change in the fair value of financial instruments classified as available for sale | 424              | (767,015)              |

The Company considers as probable scenario the amounts recognized at market prices as of June 30, 2012. Sensitivity analysis is based on the assumption of maintaining as probable scenario the market values as of June 30, 2012. Therefore, there is no impact on the financial instruments classified as available for sale already presented above. The Company considered the scenarios below for volatility of the shares.

- Scenario 1: (25% appreciation of shares);

- Scenario 2: (50% appreciation of shares);
- Scenario 3: (25% devaluation of shares);
- Scenario 4: (50% devaluation of shares);

| Companies    | Impact on equity |       |       |         |         |

|              | 424              | 2,737 | 5,475 | (2,737) | (5,475) |

## Credit risks

The exposure to credit risks of financial institutions is in line with the parameters established in the financial policy. The Company adopts the practice of analyzing in detail the financial position of its customers and suppliers, establishing a credit limit and conducting ongoing monitoring of the outstanding balance.

As regards short-term investments, the Company only makes investments in institutions with low credit risk as rated by credit rating agencies. As part of the funds is invested in repos (repurchase agreements) backed by Brazilian government bonds, there is also exposure to Brazil's sovereign risk.

Page 88 of 117

Version: 1

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

## Capital management

The Company manages its capital structure to ensure that it will be capable of providing return to its shareholders and benefits to other stakeholders, and maintain an optimal capital structure to reduce this cost.

## V - Margin deposits

The Company holds margin deposits totaling R\$387,567 (R\$407,467 as of December 31, 2011); this amount is invested at Deutsche Bank as guarantee of the derivative financial instrument contracts, specifically swaps between CSN Islands VIII and CSN.

## 16. OTHER PAYABLES

The group of other payables classified in current and non-current liabilities is comprised as follows:

|   | Current   |            |           |            |           |            | Non-current |            |

(\*) The nature of transactions with related parties is described in note 4.

## 17. TAXES IN INSTALLMENTS

#### a) **Tax Recovery Program (REFIS)**

On November 26, 2009, the Company, its subsidiaries and jointly controlled entities joined the Tax Recovery Programs established by Law 11,941/09 and Provisional Measure 470/2009, aimed at settling tax liabilities through a special payment system and installment plan for the settlement of tax and social security obligations. Joining the special tax programs reduced the amount of fines, interest and legal charges previously due.

Management's decision took into consideration matters already judged by higher courts, as well as the assessment of outside legal counsel regarding the possibility of favorable outcomes in the contingencies in progress.

The tax debts enrolled under Provisional Measure 470/09 were payable in 12 installments, starting November 2009. In July 2010, the Company elected to offset income tax and social contribution carryforwards against the last four installments of the installment plan, as allowed by relevant legislation.

In November 2009 and February 2010, the debts payable enrolled in the installment plan under Law 11,941/09, already recognized through provisions, were reviewed based on the reductions in debits set forth in special programs, according to the waiver date of administrative appeals or legal proceedings.

In June 2011, the Group companies consolidated the debts enrolled in the tax program set forth by Law 11,941/09, payable in 180 SELIC-adjusted installments. As a result of the consolidation, there was an adjustment to the provision in the second quarter of 2011, recognized in Company in line item "Finance income (costs)" and other expenses, before income tax and social contribution.

Page 89 of 117

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

With respect to judicial deposits linked to REFIS proceedings, the Company obtained a favorable opinion from the National Treasury Attorney General's Office (PGFN) and the Federal Revenue Service (RFB) on the treatment given to the excess deposit generated after application of the reductions obtained for tax payment in cash. The balance of this excess deposit, which as of 30 June 30, 2012 was R\$820,023 (R\$806,103 as of December 31, 2011), is recognized in line item Credits with the PGFN, in other non-current assets.

Accordingly, the Company filed a request for offset the credits resulting from the offset against the debts backed by the related judicial deposits against the tax debts payable in installments under the REFIS program, Law 11,941/09, approved by the PGFN. (The Company awaits a reply to this request.)

The position of REFIS debts recorded in taxes in installments in current and non-current liabilities as of June 30, 2012 was R\$1,987,848 (R\$2,094,741 as of December 31, 2011) in consolidated and R\$1,809,840 (R\$1,928,872 as of December 31, 2011) in Company.

## b) Other tax installments (regular and other)

The Company and its subsidiaries also joined the Regular social security tax (INSS) installment plan and other plans.

The position of the debts arising from these tax installment plans, recorded in taxes in installments in current and non-current liabilities as of June 30, 2012, is R\$148,413 (R\$138,656 as of December 31, 2011) in consolidated and R\$128,210 (R\$138,360 as of December 31, 2011) in Company.

## 18. PROVISIONS FOR TAX, SOCIAL SECURITY, LABOR, CIVIL AND ENVIRONMENTAL RISKS AND JUDICIAL DEPOSITS

Claims of different nature are being challenged at the appropriate courts. Details of the accrued amounts and related judicial deposits are as follows:

|   |             |          |             | Consolidated |  |
|---|-------------|----------|-------------|--------------|--|

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

The Company and its subsidiaries are defendants in other administrative and judicial proceedings (tax, social security, labor, civil, and environmental), in the approximate amount of R\$7,840,161, of which R\$457,387 related to civil lawsuits, R\$45,789 related to environmental lawsuits, and R\$1,134,809 to labor and social security lawsuits. The assessments made by legal counsel define these administrative and judicial proceedings as entailing risk of possible loss and, therefore, no provision was recorded in conformity with Management's judgment and accounting practices adopted in Brazil.

As for the tax lawsuits these represent R\$6,202,176, and R\$1,757,520 from this total refers to the assessment notice issued against the Company for an alleged nonpayment of income tax (IRPJ) and social contribution on net income (CSLL) on profits recognized in the balance sheets of its foreign subsidiaries. In view of the recent changes in administrative and judicial decisions, our outside legal counsel classified the possibility of an unfavorable outcome as possible.

## a) Labor lawsuits

As of June 30, 2012, the Company and its subsidiaries are defendants in 12,452 labor lawsuits, for which a provision has been recorded in the amount of R\$217,356 (R\$223,020 as of December 31, 2011). Most of the claims relate to subsidiary and/or joint liability, salary equalization, health hazard premiums and hazardous duty premiums, overtime pay, difference in the 40% fine for the severance pay fund (FGTS) as a result of federal government economic plans, health care plan, indemnity contingencies resulting from alleged occupational diseases or on-the-job accidents, and differences in profit sharing from 1997 to 1999 and from 2001 to 2003.

## b) Civil lawsuits

Among the civil lawsuits in which the Company is a defendant are claims for compensation. Generally these lawsuits result from on-the-job accidents, occupational diseases and contractual litigation related to the industrial activities of the Company and its subsidiaries, real estate actions, healthcare plan, and reimbursement of costs incurred in labor courts. For lawsuits involving civil matters, a provision has been recognized in the amount of R\$113,311 as of June 30, 2012 (R\$102,486 as of December 31, 2011)

## c) Tax lawsuits

(i) "Verão" Plan - The Company is claiming the recognition of financial and tax effects on the calculation of income tax and social contribution, related to removal by the government of inflation measured according to the Consumer Price Index (IPC) in January and February 1989, involving a total percentage figure of 51.87% ('Summer Plan').

In 2004 the lawsuit was terminated with a final and unappealable decision that granted the right to apply the index of 42.72% (January 1989), with the 12.15% already applied to be deducted from this index. The final decision also granted application of the index of 10.14% (February 1989). The proceeding is currently at expert discovery stage.

As of June 30, 2012, there is an amount of R\$337,765 (R\$345,676 as of December 31, 2011) deposited in court, classified in a specific account of judicial deposits in long-term receivables, and a provision of R\$20,892 (R\$20,892 as of December 31, 2011), which represents the portion not recognized by the courts.

## § Salary premium for education - "Salário Educação"

The Company has filed a lawsuit challenging the constitutionality of the salary premium for education and for discussing the possibility of recovering the amounts paid in the period from January 5, 1989 to October 16, 1996. The lawsuit was unsuccessful, and the TRF upheld the decision unfavorable to CSN, a decision that is final and unappealable.

In view of the final and unappealable decision, CSN tried to make payment of the amount due, though the FNDE and INSS did not reach an agreement as to which agency should receive it. They also required that the amount should be paid along with a fine, with which the Company did not agree.

Lawsuits were then filed challenging the above events, with judicial deposit of the amounts involved in the lawsuits. In the first lawsuit, the lower court partly accepted the Company's request, with the judge deducting the fine, but upholding the SELIC rate, with counterarguments against the defendant's appeal against the SELIC rate.

As of June 30, 2012 the accrued totals R\$33,121 (R\$33,121 as of December 31, 2011) and the judicial deposit amounts to R\$36,189 (R\$36,189 as of December 31, 2011).

## § Other

The Company has also recognized provisions for lawsuits relating to INSS, FGTS Complementary Law 110, PIS Law 10,637/02 and PIS/COFINS - Manaus Free Trade Zone, totaling R\$96,039 as of June 30, 2012 (R\$102,965 as of December 31, 2011), which includes legal charges.

## d) Other

## § Competition

On June 14, 2010, the Regional Federal Court of Brasília rejected the annulment action filed by CSN against CADE, which aimed at annulling its fine for the alleged infringements laid down in Articles 20 and 21, I, of Law 8,884/1984. The Company filed appropriate appeals against this decision, which were dismissed, resulting in the filing of a Motion for clarification, which is pending judgment. The collection of the R\$65,292 fine is suspended by a Court decision, which stays the collection as from the date CSN issued a guarantee letter. This action is classified as risk of possible loss.

## § Environmental

The environmental administrative/judicial proceedings filed against the Company include mainly administrative proceedings for alleged environmental irregularities and the regularization of environmental permits; at the judicial level, the Company is a party to actions collecting the fines imposed for such alleged environmental irregularities, and public civil actions claim regularization coupled with compensation, in most cases claiming environmental recovery. In general these proceedings arise from alleged damages to the environment related to the Company's industrial activities. The environmental proceedings total R\$6,906 (R\$6,906 as of December 31, 2011).

### 19. PROVISIONS FOR ENVIRONMENTAL LIABILITIES AND ASSET DECOMMISSIONING

#### a) Environmental liabilities

As of June 30, 2012, a provision is recognized in the amount of R\$346,293 in consolidated and R\$339,577 in Company (R\$312,612 and R\$306,079 as of December 31, 2011, respectively) for expenditures relating to environmental investigation and recovery services for potentially contaminated areas surrounding establishments in the States of Rio de Janeiro, Minas Gerais and Santa Catarina. Estimated expenditures will be reviewed periodically and the amounts already recognized will be adjusted whenever needed. These are management's best estimates considering recovery studies in areas that have been degraded and are in the process of being used for activities. These provisions are recognized in operating expenses.

Page 93 of 117

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

The provisions are measured at the present value of the expenditures required to settle the obligation, using a pretax rate that reflects current market assessments of the time value of money and the specific risks of the obligation. The increase in the obligation due to passage of time is recognized as other operating expenses.

The long-term interest rate used to discount to present value and update the provision through June 30, 2012 was 11.00%. The liability recognized is periodically updated based on these discount rates plus the general market price index (IGPM) for the period.

## b) Decommissioning of Assets

Obligations on decommissioning of assets consist of estimated costs for decommissioning, retirement or restoration of areas upon the termination of activities related to mining resources. The initial measurement is recognized as a liability discounted to present value and subsequently through increase in expenses over time. The asset decommissioning cost equivalent to the initial liability is capitalized as part of the carrying amount of the asset, being depreciated over the useful life of the asset. The liability recognized as of June 30, 2012 is R\$25,815 in consolidated and R\$15,783 in Company (R\$24,327 and R\$15,148 as of December 31, 2011).

## 20. EQUITY

## i. Paid-in capital

Fully subscribed and paid-in capital as of June 30, 2012 is R\$4,540,000 (R\$1,680,947 as of December 31, 2011) represented by 1,457,970,108 (1,457,970,108 as of December 31, 2010) book-entry common shares without par value. Each common share entitles its holder to one vote in Shareholders' Meetings.

## ii. Authorized capital

The Company's bylaws in effect as of June 30, 2012 determine that the capital can be raised to up to 2,400,000,000 shares by decision of the Board of Directors.

## iii. Legal reserve

This reserve is recognized at the rate of 5% of the profit for each period, as provided for by Article 193 of Law 6,404/76, up to the ceiling of 20% of share capital.

## iv. Treasury shares

As of June 30, 2012, the Company did not have any treasury shares. On August 2, 2011, the Company approved the cancelation of 25,063,577 existing treasury shares without decreasing capital.

## v. Ownership structure

As of June 30, 2012, the Company's ownership structure was as follows:

(\*) Rio Iaco Participação S. A. is a company part of the control group.

### 21. INTEREST ON CAPITAL

The Company recorded interest on capital amounting to R\$237,978 as of June 30, 2012.

The calculation of interest on capital is based on the Long-Term Interest Rate (TJLP) fluctuation on equity, limited to 50% of pretax profit for the period or, according to prevailing legislation, the higher of 50% of retained earnings and profit reserves.

In compliance with CVM Resolution 207 of December 31, 1996 and tax regulations, the company elected to account for proposed interest on capital as a contra entry to finance costs and reverse it from the same line item. Therefore, interest on capital is not stated in the income statement and does not affect profit, except for the tax effects recognized in income tax and social contribution line items. Management will propose that the amount of interest on capital be attributed to the mandatory minimum dividends.

#### 26. SEGMENT INFORMATION

According to the Company's structure, its businesses are distributed into five (5) operating segments. Accordingly, we analyzed our information by segment as follows:

### Steel

The Steel Segment consolidates all the operations related to the production, distribution and sale of flat steel, long steel, metallic packaging and galvanized steel, with operations in Brazil, the United States, Portugal and Germany. This segment supplies the following markets: construction, steel packaging for the Brazilian chemical and food industries, home appliances, automobile and OEM (motors and compressors). The Company's steel units produce hot and cold rolled steel, galvanized and pre-painted steel of great durability. They also produce tinplate, a raw material used to produce metallic packaging.

Overseas, Lusosider, which is based in Portugal, also produces metal sheets, as well as galvanized steel. CSN LLC in the U.S.A. meets local market needs by supplying cold rolled and galvanized steel. In January 2012, CSN acquired Stahlwerk Thüringen, a manufacturer of long steel located in Unterwellenborn, Germany. SWT is specialized in the production of shapes used for construction and has an installed production capacity of 1.1 million metric tons of steel/year.

For 2013, it is slated to begin production of long steel products. The initial production slated, of 500,000 metric tons per year, will consolidate the company as a source of complete construction solutions, complementing its portfolio of products with high added value in the steel chain.

## Mining

This segment encompasses the activities of iron ore and tin mining. The high–quality iron ore operations are located in the Iron Quadrilateral in MG, the Casa de Pedra mine in Congonhas, MG, that produces high quality iron ore, as well as the Company's subsidiary Nacional Minérios S.A. (Namisa), which has its own

mines, also of excellent quality, and also sells third party iron ore. Furthermore, CSN also owns Estanho de Rondônia S.A. (ERSA), a company that has both tin mining and casting units.

CSN holds the concession to operate TECAR, a solid bulk terminal, one of the four terminals that comprise the Itaguaí Port, in Rio de Janeiro. Coal and coke imports are carried out through this terminal.

## Logistics

## i. Railroad

CSN has equity interests in two railroad companies: MRS Logística S.A., which manages the former Southeast Network of Rede Ferroviária Federal S.A. (RFFSA), and Transnordestina Logística S.A., which operates the former Northeast Network of RFFSA in the States of Maranhão, Piauí, Ceará, Rio Grande do Norte, Paraíba, Pernambuco and Alagoas.

## a) MRS

The railroad transportation services provided by MRS are based on the supply of raw materials and the shipment of final products. The total amount of iron ore, coal and coke consumed by the Presidente Vargas Mill is carried by MRS, as is part of the steel produced by CSN for the domestic market and for export.

The Southeast Brazilian railroad system, encompassing 1,674 kilometers of tracks, serves the tri-state industrial area of São Paulo-Rio de Janeiro-Minas Gerais, linking the mines located in Minas Gerais to the ports located in São Paulo and Rio de Janeiro, and the steel mills of CSN, Companhia Siderúrgica Paulista (or Cosipa) and Gerdau Açominas. Besides serving other customers, the railroad system carries iron ore from the Company's mines in Casa de Pedra, Minas Gerais, and coke and coal from the Itaguaí Port, in Rio de Janeiro, to Volta Redonda, and carries CSN's export products to theports of Itaguaí and Rio de Janeiro. Its volumes of cargo carried account for approximately 28% of the total volume carried by the Southeast railroad system.

Page 101 of 117

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

## b) Transnordestina Logística

Together, CSN and the federal government will be making investments for implementation of the Transnordestina Project for construction of around 1,728 km of new lines. The work on this project, slated for conclusion in 2013, further includes complementing and renewing part of the infrastructure (or lines) of the concession held by Transnordestina Logística, which will be expanded from the nearly 2,600 kilometers of track presently operating to around 4,300 kilometers.

Transnordestina Logística S.A. has a 30-year concession granted in 1998 to operate the Northeastern Brazil railroad system. This railway system covers 4,238 kilometers of railroads in the states of Maranhão, Piauí, Ceará, Paraíba, Pernambuco, Alagoas and Rio Grande do Norte. Moreover, it links up the main ports in the region, thus providing an important competitive advantage by means of opportunities for combined transportation solutions and logistics projects tailored to customer needs.

The project underway will increase the transportation capacity of Transnordestina Logística 20-fold, bringing it up the level of the most modern railroads in the entire world.

With its new configuration, Transnordestina will become the best logistics option for export of grains through the Pecém and Suape ports, as well as other solid bulk cargos such as iron ore from the Northeast Region, playing an important role in the region's development.

#### ii. Ports

The Port logistics segment consolidates the operation of the terminal built during the post-privatization period of the ports, Sepetiba Tecon. The Sepetiba terminal features complete infrastructure to meet all the needs of exporters, importers and ship-owners. Its installed capacity exceeds that of most other Brazilian terminals. It has excellent depths of 14.5 meters in the mooring berths and a huge storage area, as well as the most modern and appropriate equipment, systems and intermodal connections.

The Company's constant investment in projects in the terminals consolidates the Itaguaí Port Complex as one of the most modern in Brazil, at present with capacity for handling 480 thousand containers and 30 million metric tons per year of bulk cargo.

## Energy

CSN is one of the largest industrial consumers of electric power in Brazil. As energy is fundamental to its production process, the Company invests in assets for generation of electric power to guarantee its self-sufficiency. These assets are as follows: Itá hydroelectric power plant, in the State of Santa Catarina, with rated capacity of 1,450 MW, where CSN has a share of 29.5%; Igarapava hydroelectric power plant, Minas Gerais, with rated capacity of 210 MW, in which CSN holds of 17.9% of the capital; and a thermoelectric co-generation Central Unit with rated capacity of 238 MW, which has been operating at the UPV since 1999. For fuel the Central Unit uses the residual gases produced by the steel mill itself. Through these three power generation assets, CSN obtains total rated capacity of 430 MW.

### Cement

The cement division consolidates the Company's cement production, distribution and sales operations, which use the slag produced by the Volta Redonda plant's blast furnaces. In 2011, the clinker used in cement production was acquired from third parties; however, at the end of 2011, with the completion of the first stage of the Arcos Clinker plant, MG, this plant already supplied the milling needs of CSN Cimentos in Volta Redonda.

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

The information presented to Management regarding the performance of each business segment is generally derived directly from the accounting records, combined with some intercompany allocations.

## Sales by geographic area

Sales by geographic area are determined based on the customers' location. On a consolidated basis, domestic sales are represented by revenues from customers located in Brazil and export sales are represented by revenues from customers located abroad.

# ITR — Quarterly Financial Information - June 30, 2012 - CIA **Version: 1** SIDERURGICA NACIONAL

The adjusted EBITDA consists of profit for the year plus net finance income (costs), income tax and social contribution, depreciation and amortization, and other operating income (expenses), which are deducted because they mainly refer to non-recurring items of the operation.

The Company's executive officers use Adjusted EBITDA as a tool to measure the recurring operating cash generation capacity, as well as a means for allowing it to make comparisons with other companies.

#### 28. EMPLOYEE BENEFITS

The pension plans granted by the Company cover substantially all employees. The plans are administered by Caixa Beneficente dos Empregados da CSN ('CBS"), which is a private non-profit pension fund established in July 1960. The members of CBS are employees—and former employees—of the Company and some subsidiaries that joined the fund through an agreement, and the employees of CBS itself. The Executive Officers of CBS is comprised of a CEO and two other executive officers, all appointed by CSN, which is the main sponsor of CBS. The Decision-Making Board is the higher decision-making and guideline-setting body of CBS, presided over by the president of the pension fund and made up of ten members, six chosen by CSN in its capacity as main sponsor of CBS and four elected by the fund's participants.

Until December 1995, CBS Previdência administered two defined benefit plans based on years of service, salary and Social Security benefits. On December 27, 1995 the then Private Pension Secretariat ("SPC") approved the implementation of a new benefit plan, effective beginning that date, called Mixed Supplementary Benefit Plan ('Mixed Plan"), structured in the form of a variable contribution plan. Employees hired after that date were only entitled to join the new Mixed Plan. In addition, all active employees who were participants of the old defined benefits plans had the opportunity to switch to the new Mixed Plan.

As of June 30, 2012 CBS had 33,061 participants (31,482 as of December 31, 2011), of whom 18,256 were active contributors (16,603 as of December 31, 2011), 9,634 were retired employees (9,705 as of December 31, 2011), and 5,171 were related beneficiaries (5,174 as of December 31, 2011). Out of the total participants as of June 30, 2012, 13,561 belonged to the defined benefit plan and 19,500 to the mixed plan.

The plan assets of CBS are primarily invested in repurchase agreements (backed by federal government bonds), federal securities indexed to inflation, shares, loans and real estate. As of June 30, 2012 CBS held 12,788,231 common shares of CSN (12,788,231 common shares as of December 31, 2011). The total plan assets of the entity amounted to R\$3.9 billion as of June 30, 2012 (R\$3.8 billion as of December 31, 2011). The administrators of the CBS funds seek to match plan assets with benefit obligations payable on a long-term basis. Pension funds in Brazil are subject to certain restrictions regarding their capacity for investment in foreign assets and, therefore, these funds invest mainly in Brazilian securities.

Plan Assets are all available assets and the benefit plans' investments, not including the amounts of debts to sponsors.

#### a. Description of the pension plans

### Plan covering 35% of average salary

This plan began on February 1, 1966 and is a defined benefit plan aimed at paying pensions (for length of service, special situations, disability or old age) on a lifetime basis, equivalent to 35% of the adjusted average of the participant's salary for the last 12 months. The plan also guarantees sick pay to participants on Official Social Security leaves of absence and further ensures payments of savings fund, funeral allowance and pecuniary aid. This plan was discontinued on October 31, 1977 when the new supplementary plan based on average salary took effect.

#### Supplementary average salary plan

This plan began on November 1, 1977 and is a defined benefit plan, aimed at complementing the difference between the adjusted average of the participant's salary for the last 12 months and the Official Social Security benefit for retirement, also on a lifetime basis. As in the 35% plan, there is coverage for the benefits of sick pay, death and pension. This plan was discontinued on December 26, 1995 with the creation of the mixed supplementary benefit plan.

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL Version 1

#### Mixed supplementary benefit plan

This plan began on December 27, 1995 and is a variable contribution plan. Besides the scheduled retirement benefit, it also covers the payment of risk benefits (pension paid while the participant is still working, disability compensation and sick/accident pay). Under this plan, the retirement benefit is calculated based on the amount accumulated by the monthly contributions of the participants and sponsors, as well as on each participant's option for the manner in which they receive them, which can be lifetime (with or without continuity of pension for death) or through a percentage applied to the balance of the fund generating the benefit (loss for indefinite period). After retirement is granted, the plan takes on the characteristics of a defined benefit plan.

## **CBSPrev Namisa plan**

This plan began on January 6, 2012 and is a defined contribution plan, with a small portion of defined benefit. Besides the scheduled retirement benefit, it also covers the payment of risk benefits (pension paid while the participant is still working, disability compensation and sick/accident pay). Under this plan, the retirement benefit is determined based on the accumulated amount by monthly contributions of participants and sponsors. To receive the benefit, each participant can opt for: (a) a percentage of up to 25% in a bullet payment and the remaining balance through a monthly income through a percentage applied to the fund generating the benefit, or (b) receive only a monthly income through a percentage applied to the fund generating the benefit.

#### b. Investment policy

The investment policy establishes the principles and guidelines that will govern the investments of funds entrusted to the entity, in order to foster the security, liquidity and profitability required to ensure equilibrium between the plan's assets and liabilities, based on an ALM (Asset Liability Management) study that takes into consideration the benefits of participants and beneficiaries for each plan.

The investment plan is reviewed annually and approved by the Decision-Making Board considering a 5-year horizon, as established by resolution CGPC 7 of December 4, 2003. The investment limits and criteria established in the policy are based on Resolution 3,792/09 published by the National Monetary Council ("CMN").

# c. Employee benefits

The actuarial calculations are updated at the end of each annual reporting period by outside actuaries and presented in the financial statements pursuant to CPC 33 and IAS 19 *Employee Benefits*.

# ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

The amounts recognized in the income statement for the year ended December 31, 2011 are comprised as follows:

|   | 12/31/2011 |
|---|------------|
| Cost of current services                                | (5,579)    |
| Interest cost   | (202,242)  |
| Expected return on plan assets                          | 260,163    |
| Sponsors' contributions transferred in prior year       | 67,710     |
|   | 120,052    |
| Total unrecognized revenue (*)                          | 103,678    |
| Total (cost)/revenue recognized in the income statement | 16,374     |
| Total (costs)/revenues, net                             | 120,052    |

(\*) The Company did not recognize in its balance sheet the asset and the balancing items thereto resulting from the actuarial valuation of surplus plans because there is no clear evidence of its realization, in accordance with paragraph 59 (c) of CPC 33 and IAS 19 *Employee Benefits*.

The (cost)/income is recognized in the income statement in other operating expenses.

Changes in actuarial gains and losses in 2011 are as follows:

|   | 12/31/2011 |
|---|------------|
| Actuarial gains and (losses)  | (222,712)  |
| Restriction due to recovery limitation                                | 105,655    |
|   | (117,057)  |
| Actuarial gains and (losses) recognized in other comprehensive income | (28,048)   |
| Unrecognized actuarial gains/(losses) (*)                             | (89,009)   |
| Total cost of actuarial (gains) and losses                            | (117,057)  |

(\*) The actuarial loss results from the fluctuation in the investments that form CBS's asset portfolio.

The history of actuarial gains and losses is as follows:

|  | 12/31/2011  | 12/31/2010  | 12/31/2009  | 01/01/2009 (**) |
|--|-------------|-------------|-------------|-----------------|
| Present value of defined benefit obligations | (2,153,649) | (1,982,556) | (1,731,767) | (1,415,029)     |
| Fair value of plan assets                    | 2,384,450   | 2,316,018   | 2,160,158   | 1,396,350       |
| Surplus                                      | 230,801     | 333,462     | 428,391     | (18,679)        |
| Experience adjustments to plan obligations   | 141,675     | 225,341     | 287,146     |                 |
| Experience adjustments to plan assets        | (81,038)    | 40,669      | 664,341     |                 |

The main actuarial assumptions used were as follows:

#### 12/31/2011

| Actuarial financing method                               | Projected unit credit  |
|--|--|
| Functional currency                                      | Real (R\$)   |
| Recognition of plan assets                               | Fair value   |
| Amount used as estimate of equity at the end of the year | Best estimate for equity at the end of the fiscal year, obtained based on a projection of October amounts recorded |
| Discount rate  | 10.46%   |
| Inflation rate   | 4.6%   |
| Nominal salary increase rate                             | 5.65%  |
| Nominal benefit increase rate                            | 4.6%   |
| Rate of return on investments                            | 11.52% - 12.24%  |
| General mortality table                                  | AT 2000 segregated by gender   |
| Disability table   | Mercer Disability with probabilities multiplied by 2   |
| Disability mortality table                               | Winklevoss - 1%  |
| Turnover table   | Millennium plan 2% p.a., nil for DB plans  |
| Retirement age   | 100% on first date he/she becomes eligible for programmed retirement benefit under plan                            |
|  | 95% will be married at the time of retirement, with the wife being 4 years younger than                            |
| Household of active participants                         | the husband  |

#### (CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

# ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

The assumptions related to the mortality table are based on published statistics and mortality tables. These tables represent an average life expectancy in years of employees retiring at the age of 65, as shown below:

12/31/2011

| Longevity at age of 65 for current participants |       |
|---|-------|
| Male  | 19.55 |
| Female  | 22.17 |

#### Allocation of plan assets:

|                 |           | 12/31/2011 |
|-----------------|-----------|------------|
| Variable income | 360,958   | 15.14%     |
| Fixed income    | 1,756,831 | 73.68%     |
| Real estate     | 190,756   | 8.00%      |
| Other           | 75,905    | 3.18%      |
| Total           | 2,384,450 | 100.00%    |

# Expected long-term return on plan assets:

|                 | 12/31/2011 |
|-----------------|------------|
| Variable income | 18.05%     |
| Fixed income    | 10.53%     |
| Real estate     | 10.34%     |
| Other           | 10.34%     |
| Total           | 11.78%     |

The actual return on plan assets was R\$179,126 as of December 31, 2011.

Variable-income assets comprise mainly CSN shares.

Fixed-income assets comprise mostly debentures, Certificates of Interbank Deposit ("CDI") and National Treasury Notes ("NTN-B").

Real estate refers to buildings appraised by a specialized asset appraisal firm. There are no assets in use by CSN and its subsidiaries.

For the defined benefit plans, the expense as of June 30, 2012 was R\$5,256 (R\$33,192 as of June 30, 2011).

For the mixed plan, which has defined contribution components, the expense as of June 30, 2012 was R\$16,387 (R\$12,171 as of June 30, 2011).

## d. Expected contributions

Expected contributions of R\$69,244 will be paid to defined benefits plans in 2012.

For the mixed supplementary benefit plan, which includes defined contribution components, expected contributions of R\$27,500 will be paid in 2012.

#### POST-EMPLOYMENT HEALTH CARE PLAN

Refer to a healthcare plan created on December 1, 1996 exclusively for retired former employees, pensioners, those who received an amnesty, war veterans, widows of employees who died as a result of on-the-job accidents and former employees who retired on or before March 20, 1997 and their related dependents. Since then, the health care plan has not permitted the inclusion of new beneficiaries. The plan is sponsored by CSN and administered by Caixa Beneficente dos Empregados da Cia. Siderúrgica Nacional – CBS.

#### (CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

# ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

The amounts recognized in the balance sheet were determined as follows:

|                              | 6/30/2012 | 12/31/2011 |
|------------------------------|-----------|------------|
| Present value of obligations | 457,377   | 457,377    |
| Liabilities                  | 457,377   | 457,377    |

The reconciliation of liabilities for healthcare benefits is as follows:

|  | 12/31/2011 |
|--|------------|
| Actuarial liabilities at the beginning of the year | 367,839    |
| Interest on actuarial obligation                   | 39,616     |
| Sponsors' contributions transferred in prior year  | (34,653)   |
| Recognition of (gain)/loss for the year            | 84,575     |
| Actuarial liabilities at the end of the year       | 457,377    |

For the post-employment healthcare benefit plan, the expense as of June 30, 2012 was R\$17,054 (R\$17,671 as of June 30, 2011).

The actuarial gains and losses recognized in equity are as follows:

|                              | 12/31/2011 |
|------------------------------|------------|
| Actuarial loss on obligation | 84,575     |
| Loss recognized in equity    | 84,575     |

The history of actuarial gains and losses is as follows:

|   | 12/31/2011 | 12/31/2010 | 12/31/2009 | 01/01/2009 (**) |
|---|------------|------------|------------|-----------------|
| Present value of defined benefit obligation | (457,377)  | (367,839)  | (317,145)  | (296,608)       |
| (Deficit)/surplus                           | (457,377)  | (367,839)  | (317,145)  | (296,608)       |
| Experience adjustments to plan obligations  | 84,575     | 48,301     | 17,232     | 9,023           |

(\*\*) IAS 19/CPC33 requires disclosure of the history for five (5) years, although this does not have to be retrospectively applied for a first-time adopter of IFRS/CPC.

The impact on a one-percent change in the assumed trend rate of the healthcare cost is as follows:

#### 12/31/2011

|  | Increase | Decrease |
|--|----------|----------|
| Effect on total cost of current service and finance cost |          |          |
| Effect on defined benefit obligation                     | 42,032   | (35,916) |

Page 112 of 117

#### (CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

# ITR — Quarterly Financial Information - June 30, 2012 – CIA **Version: 1** SIDERURGICA NACIONAL

The actuarial assumptions used for calculating postemployment healthcare benefits were:

| 12/01/201 | 1 | 2 | 31 | /2 | 0. | 1 |
|-----------|---|---|----|----|----|---|
|-----------|---|---|----|----|----|---|

| Biometrics              |                              |
|-------------------------|------------------------------|
| General mortality table | AT 2000 segregated by gender |
| Turnover                | N/A                          |
| Household               | Actual household             |

| Financial                             | 12/31/2011 |
|---------------------------------------|------------|
| Actuarial nominal discount rate       | 10.46%     |
| Inflation                             | 4.6%       |
| Increase in medical cost based on age | 4.6%       |
| Nominal medical costs growth rate     | 2.31%      |
| Average medical cost                  | 299.69     |

### 29. GUARANTEES

The Company is liable for guarantees for its subsidiaries and jointly controlled entities, as follows:

|                     | Currency | Maturities                 | Borro     | wings      | Tax for   | eclosure   | Oth       |
|---------------------|----------|----------------------------|-----------|------------|-----------|------------|-----------|

#### 31. INSURANCE

Aiming to properly mitigate risk and in view of the nature of its operations, the Company and its subsidiaries have taken out several different types of insurance policies. Such policies are contracted in line with the CSN Risk Management policy and are similar to the insurance taken out by other companies operating in the same lines of business as CSN and its subsidiaries. The risks covered under such policies include the following: Domestic Transportation, International Transportation, Carrier's Civil Liability, Importation, Exportation, Life and Casualty, Health Coverage, Fleet Vehicles, D&O (Civil Liability Insurance for Directors and Officers), General Civil Liability, Engineering Risks, Sundry Risks, Export Credit, Performance Bond and Port Operator's Civil Liability.

In 2012, after negotiation with insurers and reinsurers in Brazil and abroad, an Insurance Issue Certificate was issued for the contracting of a policy of Operational Risk of Property Damages and Loss of Profits, with effect from June 30, 2012 to June 30, 2013. Under the insurance policy, the LMI (Maximum Limit of Indemnity) is US\$200,000,000 and covers the following units and subsidiaries of the Company: Usina Presidente Vargas, Mineração Casa de Pedra, Mineração Arcos, CSN Paraná, CSN Porto Real, Terminal de Cargas TECAR, Terminal TECON, NAMISA and CSN Cimentos. CSN takes responsibility for a range of retention of US\$300,000,000 in excess of the deductibles for property damages and loss of profits.

In view of their nature, the risk assumptions adopted are not part of the scope of a review of interim financial statements and, accordingly, were not reviewed by our independent auditors.

#### 33. EVENTS AFTER THE REPORTING PERIOD

• The subsidiary Namisa will file an objection to the tax assessment of R\$236 million, issued in July 2012, for allegedly not having paid income tax (IRPJ) and social contribution on net income (CSLL) on the profits disclosed in the balance sheets of its foreign subsidiaries. In light of the recent changes in administrative and court jurisprudence, our outside legal counsel classified the likelihood of an unfavorable outcome in similar cases as possible. The potential effect on the Parent Company and consolidated is approximately R\$141.6 million.

#### REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Board of Directors and Shareholders of

Companhia Siderúrgica Nacional

São Paulo - SP

#### Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Companhia Siderúrgica Nacional (the "Company"), included in the Interim Financial Information Form (ITR), for the quarter ended June 30, 2012, which comprises the balance sheet as of June 30, 2012 and the related income statement and statement of comprehensive income for the three and six-months period then ended and the statement of changes in equity and statement of cash flows for the six-month period then ended, including the explanatory notes.

Management is responsible for the preparation of the individual interim financial information in accordance with CPC 21 – Interim Financial Reporting and the consolidated interim financial information in accordance with CPC 21 and IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), as well as for the presentation of such information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of Interim Financial Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

#### Scope of review

We conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the standards on auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion on the individual interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual interim financial information included in the ITR referred to above is not prepared, in all material respects, in accordance with CPC 21 applicable to the preparation of Interim Financial Information (ITR) and presented in accordance with the standards issued by the Brazilian Securities Commission.

#### Conclusion on the consolidated interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information included in the ITR referred to above is not prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of Interim Financial Information (ITR) and presented in accordance with the standards issued by the Brazilian Securities Commission.

#### Other matters

#### Statements of value added

We have also reviewed the individual and consolidated interim statements of value added ("DVA"), for the six-month period ended June 30, 2012, prepared under the responsibility of the Company's management, the presentation of which is required by the standards issued by the Brazilian Securities Commission (CVM) applicable to the preparation of Interim Financial Information (ITR), and considered as supplemental information for IFRS that does not require the presentation of DVA. These statements were subject to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they are not prepared, in all material respects, in relation to the individual and consolidated interim financial information taken as a whole.

Review of individual and consolidated interim financial information for the three months ended June 30, 2011 and audit of individual and consolidated financial statements for the year ended December 31, 2011

The information and amounts for the three and six period months ended June 30, 2011, presented for comparison purposes, were previously reviewed by other independent auditors, whose report, without qualification, was issued and dated on August 2, 2011. The information and amounts for the year ended December 31, 2011, presented for comparison purposes, were previously audited by other independent auditors, whose report, without qualification, was issued and dated on March 26, 2012.

The accompanying interim financial information has been translated into English for the convenience of readers outside Brazil.

#### FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
