Companhia Brasileira de Distribuição

São Paulo – SP – Brazil

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Companhia Brasileira de Distribuição ("Company"), included in the Quarterly Information Form (ITR) for the quarter ended June 30, 2017, which comprise the balance sheet as of June 30, 2017 and the related statements of income and comprehensive income for the three and six-months periods then ended, and the statements of changes in equity and cash flows for the six-month period then ended, including other explanatory information.

Management is responsible for the preparation of individual and consolidated interim financial information in accordance with Accounting Pronouncement CPC 21 (R1) --*Demonstração Intermediária ("CPC 21 (R1)")* and International Accounting Standard IAS 34 - Interim Financial Reporting ("IAS 34"), issued by the International Accounting Standards Board (IASB), as well as for the presentation of this information in a manner consistent with the standards issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the preparation of the Quarterly Information Form (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of the review

We conducted our review in accordance with Brazilian and International Standards on Review Engagements (NBC TR 2410 *Revisão de Informações Intermediárias Executada pelo Auditor da Entidade*) and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the individual and consolidated interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual and consolidated interim financial information included in the quarterly information referred to above is not prepared, in all material respects, in accordance with CPC 21 (R1) and IAS 34, applicable to the preparation of Quarterly Information Form (ITR), consistently with the rules issued by the CVM.

Other matters

Statements of value added

We have also reviewed the individual and consolidated statements of value added for the six-month period ended June 30, 2017, prepared under the responsibility of the Company's management, the presentation of which in the interim financial information is required by the rules issued by the CVM applicable to preparation of Quarterly Information Form (ITR), and considered as supplementary information under IFRS – International Financial Reporting Standards, which does not require the presentation of the statement of value added. These statements have been subject to the same review procedures previously described and, based on our review, nothing has come to our attention that causes us to believe that they are not prepared, in all material respects, in a manner consistent with the overall individual and consolidated interim financial information.

Audit of prior year financial statements and review of prior year interim financial information by other independent auditors

The audit of the individual and consolidated balance sheet as of December 31, 2016 and the review of individual and consolidated financial information for the three and six-month periods ended June 30, 2016, presented for comparison purposes, were conducted by other independent auditors, who issued an unqualified opinion and review thereon dated February 23, 2017 and July 27, 2016, respectively. As part of our review of individual and consolidated interim financial information for the period ended June 30, 2017, we have reviewed the adjustments to the corresponding prior year figures in the individual and consolidated statements of income and cash flows for the three and six-months periods ended June 30, 2016 made for presentation of discontinued operations, as disclosed in Note 31, and nothing has come to our attention that would lead us to believe that such adjustments have not been made fairly, in all material respects. We have not been engaged to audit, review or apply any other procedures to the information referring to the individual and consolidated balance sheet as of December 31, 2016 and to any other individual and consolidated interim financial information for the three and six-month periods ended June 30, 2016. Accordingly, we do not express an opinion or any other form of assurance on the referred to balance sheet or quarterly financial information taken as a whole.

São Paulo, Brazil, July 25, 2017 - GPA [BM&FBOVESPA: PCAR4 (PN); NYSE: CBD] announces its results for the 2nd Quarter of 2017. The comments refer to the consolidated results of the Group or of its business units. All comparisons are with the same period in 2016, except where stated otherwise. In the quarterly financial statements of GPA as of June 30, 2017, due to the ongoing divestment of the interest held by GPA in Via Varejo S.A., as announced in the material fact notice of November 23, 2016, the operations of Via Varejo are treated as discontinued operations, with a retrospective adjustment of net sales and other profit or loss accounts, as required under IFRS 5/CPC 31, approved by CVM Resolution 598/09 – Sale of non-current assets and discontinued operations.

2Q17 RESULTS

Net sales up 9.0%⁽¹⁾, driven by 29.2%⁽¹⁾ growth at Assaí and continued recovery at Extra banner.

Food Segment Adjusted EBITDA of R\$551 million⁽²⁾, growing 104.3% from 2Q16⁽²⁾

Net income attributable to controlling shareholders improved to R\$165 million, with margin of 1.5%

Operating Highlights

Multivarejo:

- Continued market share gains in 2017 and accelerated growth at Extra Hiper, driven by commercial actions and sequential growth in the non-food segment;
- Reduction of 3.0% in SG&A expenses supported by efficiency and productivity projects;
- Adjusted EBITDA margin reached 4.9%⁽²⁾, up 220 bps from 2Q16⁽²⁾;
- Launch of the My Discount program, with over one million downloads in the first ten days.

Assaí:

- Strong net sales growth, as a result of the good performance of the new stores, and acceleration of same-store sales which grew 13.5%⁽¹⁾, with volume growth offsetting the effect from slower inflation;
- Adjusted EBITDA margin reached 5.6%, up 260 bps from 2Q16⁽²⁾

Financial Highlights

- Significant growth in net income attributable to controlling shareholders, to R\$165 million, with margin of 1.5%, compared to R\$125 million in 1Q17;
- Stronger financial capacity: Net debt⁽³⁾ fell R\$888 million from 2Q16. Net debt⁽³⁾/Adjusted EBITDA ratio declined to 0.9x, from 1.4x a year earlier;
- Financial result stood at 1.8% of net sales, down 20.7% from 2Q16.

Outlook

- **Strategic priorities:** (i) Focus on and strengthening of Food segment; (ii) Outperforming the market in sales growth, supporting market share gains; (iii) Continually expanding the Assaí format; and (iv) Optimizing the store portfolio;
- **Economic environment and business evolution:** High unemployment and weak consumption in Brazil pose a challenge to the recovery of the retail sector. However, in the last 12 months, GPA's sales outperformed the market (ABRAS⁽⁴⁾ and IBGE⁽⁵⁾), confirming the continuous market share gains posted by Extra Hiper and Assaí and the stability in the other segments.
- **Guidance for 2017:** (i) Sales: continued market share gains at both Multivarejo and Assaí; (ii) EBITDA Margin⁽⁶⁾: around 5.5% in the Food segment, supported by higher profitability at Assaí and stability at Multivarejo; (iii) CAPEX: approximately R\$1.2 billion; and (iv) Goal of capturing US\$50 million in LATAM synergies

(1) Net revenue adjusted for the calendar effect. (2) Excluding non-recurring tax credits of R\$447 million in 2Q17 (exclusively at Multivarejo) and R\$288 million in 2Q16 (R\$219 million at Multivarejo and R\$69 million at Assaí). (3) Includes not discounted credit card receivables of R\$329 million in 2Q17 and R\$820 million in 2Q16. (4) Brazilian Supermarkets Association. (5) Monthly Retail Survey (PMC) conducted by IBGE. (6) EBITDA adjusted by Other Operating Income and Expenses.

“GPA’s 2Q17 results show our operational, commercial and financial progress across the Company’s businesses, despite a still highly challenging macroeconomic scenario. To cite a few examples, the five initial conversions of hypermarkets to Assaí stores have resulted in higher sales multiples per square meter than our expectations, at Multivarejo we have been increasingly surgical and efficient in our communication with customers through initiatives such as “My Discount”, and in ViaVarejo we have reaped the fruits of integrating e-commerce with brick and mortar stores. We remain confident and focused on implementing our strategic priorities for the second half of the year”.

SALES PERFORMANCE

Net Sales totaled R\$10.7 billion, up 9.5%, or 9.0% if adjusted for the calendar effect, driven by:

- Consistent growth by Assaí, of 27.7% (or 29.2% if adjusted for the calendar effect), with volume growth neutralizing the effect of lower inflation;
- Acceleration of the Extra banner, especially Hiper (same-store sales growth of 7.6%, compared to 5.4% in 1Q17, adjusted for the calendar effect);
- Multivarejo and Assaí continued to gain market share in the quarter .

At **Multivarejo**, net sales in the quarter amounted to R\$6.4 billion, with same-store sales growth of 1.2%, adjusted for the calendar effect. The highlights were the continuous market share gain in 2017 compared to 2016, and accelerated growth of Extra Hiper, driven by the sequential improvement of non-food categories.

In the total-store concept, performance was negatively impacted by the closure of Extra Hiper stores, which will be converted into Assaí stores and also by the sharp decline in food inflation. Some food categories, such as vegetables, registered deflation in June, which affected the performance of the Pão de Açúcar and Extra Super banners, whose share of these categories is higher.

The end of the quarter saw the launch of the **“My Discount” Program**, which consists of personalized offers through a mobile app targeted at around 12 million customers of the loyalty program. Other initiatives were also implemented or are under implementation to increase customer traffic and sales:

- Strengthening of commercial campaigns at regional units;
- Cell phone bonus: promotional discounts obtained at the store may be converted into prepaid bonus;
- Pão de Açúcar store renovations: target of renewing approximately 15-20 stores in the coming quarters.

At Assaí, net sales totaled R\$4.3 billion, growing 27.7% from 2Q16 (or 29.2% adjusted for the calendar effect). Same-store sales growth accelerated to 13.5% adjusted for the calendar effect, driven by strong growth in customer traffic and volumes in the quarter, which offset

the decline in food inflation. Important to highlight the acceleration of real growth compared to the previous quarter.

With Carapicuíba store conversion on June, Assaí totaled 110 stores and already accounts for 40.1% of Food Business' net sales, compared to 34.4% last year. The format continued to gain market share in the quarter, of around 400 bps compared to the same period last year, in an expanding market segment.

In 1H17, the converted stores maintained a high sales multiple of around 2.5 times and their profitability was similar to the total profitability of the format, which is already higher than it was prior to their conversion.

OPERATING PERFORMANCE BY BUSINESS

Multivarejo

Gross profit came to R\$2,198 million, with margin of 34.4%. The period was impacted by the recognition of non-recurring tax credits related to the restitution of ICMS ST (Tax Substitution), which generated a positive impact of R\$447 million on gross margin. Excluding the effects from these tax credits, **gross margin was 27.4%**, virtually stable in relation to 1Q17. Compared to the margin of 25.8%^(*) in 2Q16, the expansion was 160 bps. The main impacts were:

- Improved shrinkage levels due to higher logistics efficiency;
- More successful investments in promotions;
- Closure of Extra Hiper stores, whose gross margin is lower than the average of Multivarejo;
- New tax framework for ICMS ST (Tax Substitution), whose positive impact was mostly offset by Easter.

Selling, general and administrative expenses came to R\$ 1,468 million, down 3.0% from 2Q16, chiefly due to:

- Reduction in electricity consumption as a result of the efficiency projects;
- Optimization of headcount due to productivity gains in the operations at stores and DCs.

Other Operating Income and Expenses were an expense of R\$272 million and mainly related to the following: (i) inclusion of federal taxes of R\$183 million in the Special Tax Regularization Program (PERT); and (ii) restructuring expenses related to stores under conversion process to Assaí and property, plant and equipment results which totaled R \$ 80 million.

Adjusted EBITDA, excluding tax credits, amounted to **R\$311 million in the quarter**, growing 82.3% from 2Q16^(*). **Adjusted EBITDA margin reached 4.9%**, up 220 bps from 2Q16^(*).

Assaí

Gross margin reached 15.8%, higher than in 2Q16^(*), mainly due to:

- Higher-than-expected maturation of stores opened in the last two years;
- Higher share of individuals;
- Optimization of commercial actions.
- Improvement in shrinkage;
- New tax framework related to ICMS ST (Tax Substitution);

Operating expenses reached 10.2%, down 20 bps from 2Q16, despite the format's strong growth pace. The maturity of stores led to lower operating expenses due to the higher efficiency of the new format and to the greater dilution of administrative expenses.

Adjusted EBITDA amounted to R\$239 million, with margin of 5.6%, up 260 bps from 2Q16^(*), reflecting the improvement in gross margin and the higher dilution of expenses, driven by the strong pace of sales growth.

() Excluding non-recurring tax credits in 2Q16 of R\$219 million at Multivarejo and of R\$69 million at Assaí.*

FINANCIAL PERFORMANCE

Financial Result

Financial result came to R\$188 million, or 1.8% of net sales, down 20.7% from 2Q16.

The improvement is explained mainly by the gross debt reduction of R\$440 million, as well as by the lower interest rate (14.1% in 2Q16 vs. 10.9% in 2Q17). Cost of receivables discount remained stable at 0.3% of net sales.

Net Income

Net income attributable to controlling shareholders, considering both continuing and discontinued operations, amounted to R\$165 million, with margin of 1.5%, driven by the better business performance.

In the food segment, net income attributable to controlling shareholders, considering continuing operations and adjusted for other operational income and expenses, came to R\$443 million, or R\$343 million more than in 2Q16, led by the significant growth posted by Assaí.

Earnings per Share (EPS)

Diluted EPS was 0.58212 per common share and 0.64033 per preferred share.

Net Debt

Net debt, adjusted for not discounted receivables, amounted to R\$2,380 million, improving R\$888 million from 2Q16. The Company continues to strengthen its financial position, with the net debt / Adjusted EBITDA ratio reaching 0.9x in 2Q17, compared to 1.4x last year.

Gross debt stood at R\$5,075 million, down R\$440 million from 2Q16.

Cash balance was R\$2,366 million and the balance of not discounted receivables was R\$329 million, bringing total cash and cash equivalents to R\$2.7 billion. Moreover, preapproved/confirmed credit lines amounted to R\$1.3 billion.

Capex

Capex in the Food segment came to R\$286 million, higher than in the same period last year, mainly due to the conversions of Extra Hiper stores into Assaí stores.

Three stores were converted in the quarter, besides 11 more that are undergoing conversion. By the end of 2017, the Company should conclude 16 conversions. Moreover, 3 stores were opened in the quarter, with 1 Assaí and 2 Minuto Pão de Açúcar. Assaí should close the year with 6 to 8 new stores, which includes entering two new states.

The lower maintenance and renovation capex in the quarter is due to the comparison base, since energy efficiency projects were implemented in several stores last year, resulting in fewer stores for 2017.

Continuation of the process to capture synergies in Latin America, with the following highlights:

- Textile project in execution, with store implementation by year-end estimated at over 30 stores;
- Joint negotiations in categories for indirect purchasing (shopping carts, baskets, plastic bags, etc.);
- Exchange of best practices to reduce shrinkage in perishables;
- Aliados Compre Bem Project, which already has 236 partners and aims to reach around 500 by year-end.
- Capture of synergies expected in the total of US\$ 50 million for Latin America. Attainment is progressing in line with the goal.

Strategic priorities:

1) Focus on Food segment: Continuous investments in higher-return formats, such as Assaí and Pão de Açúcar, and intensification of store renovations;

- 2) Optimization of portfolio:** Focus on conversions of Extra Hiper stores into Assaí;
- 3) Continuous expansion of Assaí:** Total of 16 conversions and 6 to 8 new stores, with an average return of over 20%.

Guidance for 2017:

- 1)** Sales: continued market share gains at both Multivarejo and Assaí;
- 2)** EBITDA Margin⁽¹⁾: around 5.5% in the Food segment, supported by higher profitability at Assaí and stability at Multivarejo;
- 3)** CAPEX: approximately R\$1.2 billion;

(1)EBITDA adjusted by Other Operating Income and Expenses.

Such activities are carried out both in physical and virtual establishments.

Growth and Changes: The growth and changes presented in this document refer to variations from the same period last year, except where stated otherwise.

EBITDA: EBITDA is calculated in accordance with Instruction 527 issued by the Securities and Exchange Commission of Brazil (CVM) on October 4, 2012.

Adjusted EBITDA: Measure of profitability calculated by excluding Other Operating Income and Expenses from EBITDA. Adjusted Net Income: Measure of profitability calculated as Net Income from continuing operations excluding Other Operating Income and Expenses and excluding the effects of

Income and Social Contribution Taxes. Also excluded are the effects of nonrecurring direct income tax. Management uses this metric in its analyses given its belief that it eliminates any nonrecurring expenses and revenues and other nonrecurring items that could compromise the comparability and analysis of results.

20.3. Tax

As per prevailing legislation, tax claims are subject to monetary indexation, which refers to an adjustment to the provision for tax risks according to the indexation rates used by each tax jurisdiction. Both the interest charges and fines, when applicable, were computed and provisioned with respect to unpaid amounts.

The main provisioned tax claims are as follows:

20.3.1. COFINS and PIS

Since the adoption of the noncumulative regime to calculate PIS and COFINS, Company and its subsidiaries have challenged the right to deduct ICMS from the calculation basis for both contributions. On March 15, 2017, STF ruled that ICMS should be excluded from the calculation basis of PIS/Cofins, in accordance to the thesis pleaded by the Company. Based on the judgement of the thesis by the STF (Federal Supreme court) and on the legal opinion of its advisors, the Company understood that it a disbursement of cash, related to the values not paid in previous periods, is not probable and reversed the provision of R\$117 on the first quarter.

This decision of the STF is still pending of the disclosure of the written sentence and analysis by this court of the potential recourses over the timing of application of the decision. The Company and its advisors estimate that the decision related to the application of the effects will not limit the right of the judicial claim proposed by the Company, nevertheless, the elements of the process still pendings of decision do not allow the recognition of the asset related to the credits to be measured since the Company started the claim in 2003. According to the preliminary evaluation, based on the available information on June 30, 2017, the Company estimates the potential tax credit for the retail activity in a range from R\$1,300 to R\$1,850. At this moment the calculation for the Cash & Carry activity is not completed.
