KIMCO REALTY CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED

CONSOLIDATED FINANCIAL STATEMENTS

1. Interim Financial Statements

Principles of Consolidation -

The accompanying Condensed Consolidated Financial Statements include the accounts of Kimco Realty Corporation and Subsidiaries, (the Company). The Company's Subsidiaries includes subsidiaries which are wholly-owned, and all entities in which the Company has a controlling financial interest, including where the Company has been determined to be a primary beneficiary of a variable interest entity (VIE) or meets certain criteria of a sole general partner or managing member in accordance with the Consolidation guidance of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC). All inter-company balances and transactions have been eliminated in consolidation. The information furnished in the accompanying Condensed Consolidated Financial Statements is unaudited and reflects all adjustments which are, in the opinion of management, necessary to reflect a fair statement of the results for the interim periods presented, and all such adjustments are of a normal recurring nature. These Condensed Consolidated Financial Statements should be read in conjunction with the Company's 2010 Annual Report on Form 10-K for the year ended December 31, 2010 ("10-K"), as certain disclosures in the Quarterly Report on Form 10-Q that would duplicate those included in the 10-K are not included in these Condensed Consolidated Financial Statements.

Subsequent Events -

The Company has evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements.

Income Taxes -

The Company has made an election to qualify, and believes it is operating so as to qualify, as a Real Estate Investment Trust (a REIT) for federal income tax purposes. Accordingly, the Company generally will not be subject to federal income tax, provided that distributions to its stockholders equal at least the amount of its REIT taxable income as defined under Sections 856 through 860 of the Internal Revenue Code, as amended (the Code). However, in connection with the Tax Relief Extension Act of 1999, which became effective January 1, 2001, the Company is permitted to participate in certain activities from which it was previously precluded and maintain its qualification as a REIT, so long as these activities are conducted in entities which elect to be treated as taxable REIT subsidiaries under the Code. As such, the Company will be subject to federal and state income taxes on the income from these activities. The Company is also subject to income taxes on certain non-U.S. investments in jurisdictions outside the U.S.

Earnings Per Share -

The following table sets forth the reconciliation of earnings and the weighted average number of shares used in the calculation of basic and diluted earnings per share (amounts presented in thousands except per share data):

For the three and six months ended June 30, 2011 and 2010, the effect of certain convertible units would have an anti-dilutive effect upon the calculation of Income from continuing operations per share. Accordingly, the impact of such conversion has not been included in the determination of diluted earnings per share calculations.

The Company's unvested restricted share awards contain non-forfeitable rights to distributions or distribution equivalents. The impact of the unvested restricted share awards on earnings per share has been calculated using the

two-class method whereby earnings are allocated to the unvested restricted share awards based on dividends declared and the unvested restricted shares' participation rights in undistributed earnings.

There were approximately 13,663,959 and 15,888,776 stock options that were not dilutive at June 30, 2011 and 2010, respectively.

New Accounting Pronouncements -

In May 2011, the FASB issued ASU 2011-04 Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS. ASU 2011-04 is intended to improve comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and International Financial Reporting Standards (IFRS). The amendments are of two types: (i) those that clarify the Board's intent about the application of existing fair value measurement and disclosure requirements and (ii) those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The update is effective for annual periods beginning after December 15, 2011. The Company does not believe the adoption of this update will have a material impact on the Company's financial statements.

In June 2011, the FASB issued ASU No. 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income, or ASU 2011-05. The amendments in this ASU require an entity to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. ASU 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of equity. ASU 2011-05 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2011, with early adoption permitted. The Company does not expect the adoption of ASU 2011-05 to have a material effect on the Company's financial position or results of operations.

Reclassifications

The Company made the following reclassifications to the Company's 2010 Consolidated Statements of Income to conform to the 2011 presentation: (i) a reclassification of the income from the Company's investment in the Albertson's joint venture from equity in income/(loss) of joint ventures, net to equity in income of other real estate investments, net, (ii) a reclassification of equity investments from income from other real estate investments to equity in income from other real estate investments, net, and (iii) a reclassification of foreign taxes from other income/(expense), net to the provision for income taxes, net.

2. Operating Property Activities

Acquisitions -

During the six months ended June 30, 2011, the Company acquired five operating properties, in separate transactions as follows (in thousands):

Property Name	Location	Month Acquired	Purchase Price			GLA*
			Cash	Assumed Debt	Total	
Columbia Crossing	Columbia, MD	Jan-11	\$ 4,100	\$ -	\$ 4,100	31
Turnpike Plaza	Huntington Station, NY	Feb-11	7,920	-	7,920	53

	Cherry Hill, NJ	June-11	18,250	-	18,250	257
		Total	\$ 44,652	\$ 24,718	\$ 69,370	540

* Gross leasable area ("GLA")

Upon acquisition of real estate operating properties, the Company estimates the fair value of acquired tangible assets (consisting of land, building, building improvements and tenant improvements) and identified intangible assets and liabilities (consisting of above and below-market leases, in-place leases and tenant relationships), assumed debt and redeemable units issued at the date of acquisition, based on evaluation of information and estimates available at that date. Based on these estimates, the Company allocates the estimated fair value to the applicable assets and liabilities.

Fair value is determined based on an exit price approach, which contemplates the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

If, up to one year from the acquisition date, information regarding fair value of the assets acquired and liabilities assumed is received and estimates are refined, appropriate adjustments are made to the purchase price allocation on a retrospective basis. The Company expenses transaction costs associated with business combinations in the period incurred.

In allocating the purchase price to identified intangible assets and liabilities of an acquired property, the value of above-market and below-market leases is estimated based on the present value of the difference between the contractual amounts, including fixed rate renewal options, to be paid pursuant to the leases and management's estimate of the market lease rates and other lease provisions (i.e., expense recapture, base rental changes, etc.) measured over a period equal to the estimated remaining term of the lease. The capitalized above-market or below-market intangible is amortized to rental income over the estimated remaining term of the respective leases, which includes the expected renewal option period. Mortgage debt discounts or premiums are amortized into interest expense over the remaining term of the related debt instrument. Unit discounts and premiums are amortized into noncontrolling interest in income, net over the period from the date of issuance to the earliest redemption date of the units.

The aggregate purchase price of the properties acquired during the six months ended June 30, 2011 has been allocated as follows (in thousands):

Land	\$ 22,240
Buildings	30,011
Above Market Rents	2,513
Below Market Rents	(3,315)
In-Place Leases	3,407
Building Improvements	14,252
Tenant Improvements	2,154
Mortgage Fair Value Adjustment	(1,892)
	\$ 69,370

During February 2011, the Company acquired an additional 9.9% interest in FNC Realty Corporation (FNC) for \$9.6 million, which increased the Company's total controlling ownership interest to approximately 66.51%. The Company had previously and continues to consolidate FNC. Since there was no change in control from this transaction, the purchase of the additional partnership interest resulted in an increase to the Company's Paid-in capital of approximately \$1.0 million.

Dispositions

During the six months ended June 30, 2011, the Company disposed of nine operating properties and one development property, in separate transactions, for an aggregate sales price of approximately \$48.1 million. These transactions, which are included in Discontinued Operations, resulted in an aggregate gain of approximately \$4.2 million and impairment charges of approximately \$8.2 million. Additionally, the Company disposed of a portion of an operating property for approximately \$1.8 million. This transaction resulted in an impairment of approximately \$0.6 million which is included in Impairment of property carrying values, on the Company's Condensed Consolidated Statements of Income.

Impairment of Property Carrying Value -

During the six months ended June 30, 2011, the Company recognized an impairment charge of approximately \$0.5 million relating to its investment in an operating property. The aggregate book value of this property was approximately \$3.0 million. The estimated fair value of the property is based upon a purchase price offer of approximately \$2.5 million.

3. Discontinued Operations

The Company reports as discontinued operations, properties held-for-sale and operating properties sold in the current period. The results of these discontinued operations are included in a separate component of income on the Condensed Consolidated Statements of Income under the caption Discontinued operations. This reporting has resulted in certain reclassifications of 2010 financial statement amounts.

The components of income and expense relating to discontinued operations for the three and six months ended June 30, 2011 and 2010 are shown below. These include the results of operations through the date of each respective sale for properties sold during 2011 and 2010 and the operations for the applicable period for those assets classified as held-for-sale as of June 30, 2011 (in thousands):

(Loss)/income from discontinued operations attributable to the Company	\$ (3,615)	\$ (1,608)	\$ (4,313)	\$ 176

During 2011, the Company classified as held-for-sale three operating properties comprising approximately 0.1 million square feet of GLA. The book value of each of these properties aggregated approximately \$2.6 million, net of accumulated depreciation of \$2.4 million. The individual book value of the three properties did not exceed each of their estimated fair values less costs to sell. The Company's determination of the fair value of the three properties, aggregating approximately \$7.2 million, was based upon executed contracts of sale with third parties. During 2011, the Company reclassified one property previously classified as held-for-sale into held-for-use.

4. Ground-Up Development

The Company is engaged in ground-up development projects which will be held as long-term investments by the Company. The ground-up development projects generally have significant pre-leasing prior to the commencement of construction. As of June 30, 2011, the Company had in progress a total of four ground-up development projects, consisting of (i) two ground-up development projects located in the U.S., (ii) one ground-up development projects located in Mexico and (iii) one ground-up development project located in Chile.

5. Investments and Advances in Real Estate Joint Ventures

The Company and its subsidiaries have investments in and advances to various real estate joint ventures. These joint ventures are engaged primarily in the operation of shopping centers which are either owned or held under long-term operating leases. The Company and the joint venture partners have joint approval rights for major decisions, including those regarding property operations. As such, the Company holds noncontrolling interests in these joint ventures and accounts for them under the equity method of accounting. The table below presents joint venture investments for which the Company held an ownership interest at June 30, 2011 and December 31, 2010 and the Company's share of income/(loss) for the six months ended June 30, 2011 and 2010 (in millions, except number of properties):

(1) This venture represents four separate joint ventures, with four separate accounts managed by Prudential Real Estate Investors (PREI), three of these ventures are collectively referred to as KimPru and the remaining venture is referred to as KimPru II.

(2) The Company manages these joint venture investments and, where applicable, earns acquisition fees, leasing commissions, property management fees, assets management fees and construction management fees.

(3) The Company's share of this investment is subject to fluctuation and is dependent upon property cash flows.

(4) CPP acquired an unencumbered operating property in Quakertown, PA for a purchase price of approximately \$52.0 million, during the six months ended June 30, 2011.

(5) BIG Shopping Centers acquired an operating property in Selden, NY for a purchase price of approximately \$43.5 million including the assumption of approximately \$34.1 million in nonrecourse mortgage debt, during the six months ended June 30, 2011.

(6) During the six months ended June 30, 2011, the Company amended two of its preferred equity investment agreements to restructure the investments as pari passu joint ventures in which the Company holds noncontrolling interests. As a result of these transactions, the Company continues to account for its aggregate net investment in these joint ventures under the equity method of accounting and includes these investments in Investments and advances to real estate joint ventures within the Company's Condensed Consolidated Balance Sheets.

Prudential Investment Program -

During the six months ended June 30, 2011, KimPru recognized an impairment charge of approximately \$40.1 million relating to one property which defaulted on its non-recourse mortgage. This property was unable to generate sufficient cash flows to cover the debt service and negotiations with the lender had not produced a suitable loan modification. As such, this property was foreclosed on by the third party lender. The Company had previously taken other-than-temporary impairment charges on its investment in KimPru and had allocated these impairment charges to the underlying assets of the KimPru joint ventures including a portion to this operating property. As such, the Company's share of the \$40.1 million impairment loss was approximately \$4.5 million which is included in Equity in income/(loss) of joint ventures, net on the Company's Condensed Consolidated Statements of Income. Additionally, during the six months ended June 30, 2011, a third party mortgage lender foreclosed on an operating property for which KimPru had previously taken an impairment charge on during 2010. As a result of these foreclosures, KimPru recognized a gain on early extinguishment of debt of approximately \$30.1 million. The Company's share of this gain was approximately \$4.5 million, before income taxes, which is included in Equity in income/(loss) of joint ventures, net on the Company's Condensed Consolidated Statements of Income.

KimPru's estimated fair value relating to the impairment assessment above was based upon a discounted cash flow model that included all estimated cash inflows and outflows over a specified holding period. Capitalization rates and discount rates utilized in this model were based upon rates that the Company believed to be within a reasonable range of current market rates for the respective property.

During the six months ended June 30, 2011, KimPru II recognized an impairment charge of approximately \$7.3 million related to a property which defaulted on its non-recourse mortgage. This property was unable to generate sufficient cash flows to cover the debt service due to tenant vacancies. Negotiations with the lender had not produced a suitable loan modification and as such, the property was foreclosed on by the third party lender. The Company had previously taken other-than-temporary impairment charges on its investment in KimPru II and had allocated these impairment charges to the underlying assets of the KimPru II joint ventures including a portion to this operating property. As such, the Company's share of the \$7.3 million impairment loss was approximately \$1.0 million which is included in Equity in income/(loss) of joint ventures, net on the Company's Condensed Consolidated Statements of Income.

Other Joint Venture Programs

During the six months ended June 30, 2011, the Company entered into negotiations with its partners to exit its investment in a redevelopment property in Harlem, NY. As a result, the Company recognized a full impairment charge of approximately \$3.1 million against its investment.

6. Other Real Estate Investments

Preferred Equity Capital -

The Company previously provided capital to owners and developers of real estate properties through its Preferred Equity program. As of June 30, 2011, the Company's net investment under the Preferred Equity program was approximately \$369.9 million relating to 558 properties, including 398 net leased properties. During the six months ended June 30, 2011, the Company earned approximately \$9.1 million from its preferred equity investments, including \$0.9 million in profit participation earned from four capital transactions. During the six months ended June 30, 2010, the Company earned approximately \$14.8 million from its preferred equity investments, including \$0.4 million in profit participation earned from three capital transactions.

7. Variable Interest Entities

Consolidated Operating Properties

Included within the Company's consolidated operating properties at June 30, 2011 are four consolidated entities that are VIEs and for which the Company is the primary beneficiary. All of these entities have been established to own and operate real estate property. The Company's involvement with these entities is through its majority ownership and management of the properties. These entities were deemed VIEs primarily based on the fact that the voting rights of the equity investors is not proportional to their obligation to absorb expected losses or receive the expected residual returns of the entity and substantially all of the entity's activities are conducted on behalf of the investor which has disproportionately fewer voting rights. The Company determined that it was the primary beneficiary of these VIEs as a result of its controlling financial interest.

At June 30, 2011, total assets of these VIEs were approximately \$109.7 million and total liabilities were approximately \$7.7 million. The classification of these assets is primarily within real estate and the classification of liabilities are primarily within accounts payable and accrued expenses, which is included in other liabilities in the Company's Condensed Consolidated Balance Sheets.

The majority of the operations of these VIEs are funded with cash flows generated from the properties. The Company has not provided financial support to any of these VIEs that it was not previously contractually required to provide, which consists primarily of funding any capital expenditures, including tenant improvements, which are deemed necessary to continue to operate the entity and any operating cash shortfalls that the entity may experience.

Consolidated Ground-Up Development Projects

Included within the Company's ground-up development projects at June 30, 2011 are three consolidated entities that are VIEs, which the Company is the primary beneficiary. These entities were established to develop real estate property to hold as long-term investments. The Company's involvement with these entities is through its majority ownership and management of the properties. These entities were deemed VIEs primarily based on the fact that the equity investment at risk is not sufficient to permit the entity to finance its activities without additional financial support. The initial equity contributed to these entities was not sufficient to fully finance the real estate construction as development costs are funded by the partners throughout the construction period. The Company determined that it was the primary beneficiary of these VIEs as a result of its controlling financial interest.

At June 30, 2011, total assets of these ground-up development VIEs were approximately \$214.2 million and total liabilities were approximately \$2.2 million. The classification of these assets is primarily within real estate under development and the classification of liabilities are primarily within accounts payable and accrued expenses, which is included in other liabilities in the Company's Condensed Consolidated Balance Sheets.

Substantially all of the projected development costs to be funded for these ground-up development VIEs, aggregating approximately \$5.8 million, will be funded with capital contributions from the Company and by the outside partners, when contractually obligated. The Company has not provided financial support to the VIE that it was not previously contractually required to provide.

Unconsolidated Ground-Up Development

Also included within the Company's ground-up development projects at June 30, 2011, is an unconsolidated joint venture, which is a VIE for which the Company is not the primary beneficiary. This joint venture was primarily established to develop real estate property for long-term investment and was deemed a VIE primarily based on the fact that the equity investment at risk was not sufficient to permit the entity to finance its activities without additional financial support. The initial equity contributed to this entity was not sufficient to fully finance the real estate construction as development costs are funded by the partners throughout the construction period. The Company determined that it was not the primary beneficiary of this VIE based on the fact that Company has shared control of this entity along with the entity's partners and therefore does not have a controlling financial interest in this VIE.

The Company's aggregate investment in this VIE was approximately \$33.4 million as of June 30, 2011, which is included in Real estate under development in the Company's Condensed Consolidated Balance Sheets. The Company's maximum exposure to loss as a result of its involvement with this VIE is estimated to be \$51.9 million, which primarily represents the Company's current investment and estimated future funding commitments of approximately \$18.5 million. The Company has not provided financial support to this VIE that it was not previously contractually required to provide. All future costs of development will be funded with capital contributions from the Company and the outside partner in accordance with their respective ownership percentages.

Unconsolidated Redevelopment Investment

As of June 30, 2011, the Company has a redevelopment project through an unconsolidated joint venture, that is a VIE for which the Company is not the primary beneficiary. This joint venture was primarily established to own and operate real estate property. The entity was deemed a VIE primarily based on the fact that the equity investment at risk was not sufficient to permit the entity to finance its redevelopment activities without additional financial support from its partners. As a result the partners are required to fund the entity's redevelopment costs throughout the redevelopment period. The Company determined that it was not the primary beneficiary of this VIE based on the fact that the

Company has shared control of this entity along with the entity's partners and therefore does not have a controlling financial interest in this VIE.

During the six months ended June 30, 2011, the Company recorded a full impairment against its investment in this joint venture due to the Company's anticipated exit from the partnership. This entity is encumbered by third party debt of approximately \$24.8 million, for which the Company has provided an interest only guarantee that is fully back-stopped by the outside partners. The Company has not provided financial support to this VIE that it was not previously contractually required to provide. All future costs of re-development will be funded with capital contributions by the outside partners.

Preferred Equity Investments

Included in the Company's preferred equity investments are two unconsolidated investments that are VIEs for which the Company is not the primary beneficiary. These joint ventures were primarily established to develop real estate property for long-term investment and were deemed VIEs primarily based on the fact that the equity investment at risk was not sufficient to permit the entity to finance its activities without additional financial support. The initial equity contributed to these entities was not sufficient to fully finance the real estate construction as development costs are funded by the partners throughout the construction period. The Company determined that it was not the primary beneficiary of these VIEs based on the fact that the Company has shared control of these entities along with the entity's other partners and therefore does not have a controlling financial interest in these VIEs.

The Company's aggregate investment in these preferred equity VIEs was approximately \$6.6 million as of June 30, 2011, which is included in Other real estate investments in the Company's Condensed Consolidated Balance Sheets. The Company's maximum exposure to loss as a result of its involvement with these VIEs is estimated to be \$9.1 million, which primarily represents the Company's current investment and estimated future funding commitments. The Company has not provided financial support to these VIEs that it was not previously contractually required to provide. All future costs of development will be funded with capital contributions from the Company and the outside partners in accordance with their respective ownership percentages.

8. Marketable Securities and Other Investments

At June 30, 2011, the Company's investment in marketable securities was approximately \$44.9 million which includes an aggregate unrealized gain of approximately \$18.1 million relating to marketable equity security investments.

During the six months ended June 30, 2011, the Company received a principal payment of approximately \$7.0 million Australian dollars (AUD) (approximately USD \$6.9 million) relating to the convertible notes issued by a subsidiary of Valad Property Group (Valad). Also during the six months ended June 30, 2011, the Company sold its remaining Valad convertible notes for a sales price of approximately AUD \$165.0 million, plus unpaid accrued interest. In connection with the anticipation of this sale, the Company entered into a foreign currency forward contract to mitigate the foreign exchange risk resulting from fluctuations in currency exchange rates (see Note 13). The Company recorded an adjustment to the carrying value of the Valad notes of approximately USD \$0.9 million based upon the agreed sales price. This adjustment is recorded in Other expense/(income), net on the Company's Condensed Consolidated Statements of Income.

9. Mortgages Payable

During the six months ended June 30, 2011, the Company assumed approximately \$26.6 million of individual non-recourse mortgage debt relating to the acquisition of two operating properties, including an increase of approximately \$1.9 million associated with fair value debt adjustments.

Mortgages payable, collateralized by certain shopping center properties and related tenants' leases, are generally due in monthly installments of principal and/or interest, which mature at various dates through 2031. Interest rates range from LIBOR (approximately 0.19% as of June 30, 2011) to 9.75% (weighted-average interest rate of 6.21% as of June 30, 2011). The scheduled principal payments (excluding any extension options available to the Company) of all mortgages payable, excluding unamortized fair value debt adjustments of approximately \$3.4 million, as of June 30, 2011, were approximately as follows (in millions): 2011, \$12.9; 2012, \$218.1; 2013, \$102.0; 2014, \$225.1; 2015, \$60.9; and thereafter, \$418.7.

10. Construction Loans

As of June 30, 2011, the Company had three construction loans with total loan commitments aggregating approximately \$82.5 million, of which approximately \$40.2 million has been funded. These loans are scheduled to mature in 2012 and 2035 and bear interest at rates of LIBOR plus 1.90% (2.09% at June 30, 2011) to 5.80%. These construction loans are collateralized by the respective projects and associated tenants' leases.

11. Noncontrolling Interests

Noncontrolling interests represent the portion of equity that the Company does not own in those entities it consolidates as a result of having a controlling financial interest in accordance with the provisions of the FASB's Consolidation guidance.

The Company identifies its noncontrolling interests separately within the equity section on the Company's Condensed Consolidated Balance Sheets. Noncontrolling interests also includes amounts related to partnership units issued by consolidated subsidiaries of the Company in connection with certain property acquisitions. Partnership units which embody an unconditional obligation requiring the Company to redeem the units for cash at a specified or determinable date (or dates) or upon an event that is certain to occur are determined to be mandatorily redeemable under the FASB's Distinguishing Liabilities from Equity guidance and are classified as Redeemable noncontrolling interests and presented in the mezzanine section between Total liabilities and Stockholder's equity on the Company's Condensed Consolidated Balance Sheets. The amounts of consolidated net income attributable to the Company and to the noncontrolling interests are presented on the Company's Condensed Consolidated Statements of Income.

The following table presents the change in the redemption value of the Redeemable noncontrolling interests for the six months ended June 30, 2011 and June 30, 2010 (amounts in thousands):

	2011	2010
Balance at January 1,	\$ 95,060	\$ 100,304
Unit redemptions	-	(1,300)
Fair market value amortization	15	(12)
Other	(16)	(47)
Balance at June 30,	\$ 95,059	\$ 98,945

12. Fair Value Measurements

All financial instruments of the Company are reflected in the accompanying Condensed Consolidated Balance Sheets at amounts which, in management's estimation based upon an interpretation of available market information and valuation methodologies, reasonably approximate their fair values except those listed below, for which fair values are reflected. The valuation method used to estimate fair value for fixed-rate and variable-rate debt and noncontrolling interests relating to mandatorily redeemable noncontrolling interests associated with finite-lived subsidiaries of the Company is based on discounted cash flow analyses, with assumptions that include credit spreads, loan amounts and debt maturities. The fair values for marketable securities are based on published or securities dealers' estimated market values. Such fair value estimates are not necessarily indicative of the amounts that would be realized upon disposition. The following are financial instruments for which the Company's estimate of fair value differs from the carrying amounts (in thousands):

	June 30, 2011		December 31, 2010	
	Carrying Amounts	Estimated Fair Value	Carrying Amounts	Estimated Fair Value
Marketable Securities	\$ 44,898	\$ 45,704	\$ 223,991	\$ 224,451
Notes Payable	\$ 2,899,069	\$ 3,113,509	\$ 2,982,421	\$ 3,162,183
Mortgages Payable	\$ 1,041,082	\$ 1,125,140	\$ 1,046,313	\$ 1,120,797
Construction Loans Payable Mandatorily Redeemable Noncontrolling Interests (termination dates ranging from 2019 2027)	\$ 40,218 \$ 2,581	\$ 43,756 \$ 5,044	\$ 30,253 \$ 2,697	\$ 32,192 \$ 5,462

The Company has certain financial instruments that must be measured under the FASB's Fair Value Measurements and Disclosures guidance, including available for sale securities and derivatives. The Company currently does not have non-financial assets and non-financial liabilities that are required to be measured at fair value on a recurring basis.

As a basis for considering market participant assumptions in fair value measurements, the FASB's Fair Value Measurements and Disclosures guidance establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

Edgar Filing: KIMCO REALTY CORP - Form 10-Q

The table below presents the Company's financial assets and liabilities measured at fair value on a recurring basis as of June 30, 2011 and December 31, 2010, aggregated by the level in the fair value hierarchy within which those measurements fall (in thousands):

Mortgage and other financing receivables	\$ 1,405	\$ -	\$ -	\$ 1,405

During the six months ended June 30, 2011, the Company recognized impairment charges of approximately \$12.4 million relating to adjustments to property carrying values and investment in real estate joint ventures. The Company's estimated fair values relating to these impairment assessments were primarily based upon estimated sales prices. Based on these inputs the Company determined that its valuation in these investments was classified within Level 3 of the fair value hierarchy.

During the six months ended June 30, 2010, the Company recognized impairment charges of approximately \$11.8 million relating to adjustments to property carrying values, investments in other real estate investments and marketable securities and other investments. The Company's estimated fair values relating to these impairment assessments were based upon estimated sales prices. Based on these inputs the Company determined that its valuation in these investments was classified within Level 3 of the fair value hierarchy.

13. Financial Instruments — Derivatives and Hedging

The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company principally manages its exposures to a wide variety of business and operational risk through management of its core business activities. The Company manages economic risks, including foreign currency exposure, interest rate, liquidity, and credit risk primarily by managing the amount, sources, and duration of its debt funding and the use of derivative financial instruments. Specifically, the Company may use derivatives to manage exposures that arise from changes in interest rates, foreign currency exchange rate fluctuations and market value fluctuations of equity

securities. The Company limits these risks by following established risk management policies and procedures including the use of derivatives.

Cash Flow Hedges of Foreign Currency Risk -

During the six months ended June 30, 2011, the Company entered into a foreign currency forward contract to sell AUD \$165.0 million and buy USD \$169.1 million. The Company is a USD functional currency entity and had agreed to sell its AUD-denominated Valad convertible notes. Because of the fluctuations in the AUD-USD exchange rate, the Company was exposed to foreign exchange gains and losses, specifically the risk of incurring a lower USD cash equivalent amount of the anticipated AUD proceeds collected in the future. The Company's objective and strategy was to mitigate this risk and the associated foreign exchange gains and losses, and lock-in the future exchange rate when AUD proceeds were converted to USD. The Company designated the AUD-USD foreign exchange risk as the risk being hedged.

The effective portion of the changes in fair value of derivatives designated and that qualify as cash flow hedges is recorded in Accumulated other comprehensive income and is subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. Any ineffective portion of the change in fair value of the derivatives is recognized directly in earnings. During the six months ended June 30, 2011, the Company had no hedge ineffectiveness.

During April 2011, the Company received AUD \$170.2 million (approximately USD \$174.7 million) from the sale of the Valad convertible notes representing the principal and unpaid interest and settled its foreign currency forward contract. Upon settling the foreign currency forward contract, the Company recorded a reclass of \$10.0 million from Accumulated other comprehensive income to Other income/(expense), net, which was fully offset by a foreign currency gain on sale of the Valad notes. As a result there was no net gain or loss recognized.

Cash Flow Hedges of Interest Rate Risk -

The Company, from time to time, hedges the future cash flows of its floating-rate debt instruments to reduce exposure to interest rate risk principally through interest rate swaps and interest rate caps with major financial institutions. The effective portion of the changes in fair value of derivatives designated and that qualify as cash flow hedges is recorded in Accumulated other comprehensive income and is subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. Any ineffective portion of the change in fair value of the derivatives is recognized directly in earnings. During the six months ended June 30, 2011 and 2010, the Company had no hedge ineffectiveness.

Amounts reported in accumulated other comprehensive income related to cash flow hedges of interest rate risk will be reclassified to interest expense as interest payments are made on the Company's variable-rate debt. During the remainder of 2011, the Company estimates that an additional \$0.2 million will be reclassified as an increase to interest expense.

As of June 30, 2011, the Company had the following outstanding interest rate derivatives that were designated as cash flow hedges of foreign currency and interest rate risk, respectively:

Derivatives Designated		
<u>As Hedging Instruments</u>	<u>Number of Instruments</u>	<u>Notional (in millions)</u>
Interest Rate Caps	2	\$ 81.3
Interest Rate Swaps	1	\$ 20.7

The fair value of these derivative financial instruments classified as liability derivatives was \$0.4 million and \$0.5 million as of June 30, 2011 and December 31, 2010, respectively.

14. Supplemental Schedule of Non-Cash Investing / Financing Activities

The following schedule summarizes the non-cash investing and financing activities of the Company for the six months ended June 30, 2011 and 2010 (in thousands):

	2011	2010
Acquisition of real estate interests by assumption of mortgage debt	\$ 24,718	\$ 13,170
Issuance of common stock	\$ 4,940	\$ 5,070
Surrender of common stock	\$ (244)	\$ (643)
Consolidation of Joint Ventures:		
Increase in real estate and other assets	\$ -	\$ 97,643
Increase in mortgage payables	\$ -	\$ 83,212
Declaration of dividends paid in succeeding period	\$ 88,093	\$ 76,775

15. Incentive Plans

The Company maintains two equity participation plans, the Second Amended and Restated 1998 Equity Participation Plan (the "Prior Plan") and the 2010 Equity Participation Plan (the "2010 Plan") (collectively, the "Plans"). The Prior Plan provides for a maximum of 47,000,000 shares of the Company's common stock to be issued for qualified and non-qualified options and restricted stock grants. The 2010 Plan provides for a maximum of 5,000,000 shares of the Company's common stock to be issued for qualified and non-qualified options and other awards, plus the number of shares of common stock which are or become available for issuance under the Prior Plan and which are not thereafter issued under the Prior Plan, subject to certain conditions. Unless otherwise determined by the Board of Directors at its sole discretion, options granted under the Plans generally vest ratably over a range of three

to five years, expire ten years from the date of grant and are exercisable at the market price on the date of grant. Restricted stock grants generally vest (i) 100% on the fourth or fifth anniversary of the grant, (ii) ratably over three or four years or (iii) over three years at 50% after two years and 50% after the third year. Performance share awards may provide a right to receive shares of restricted stock based on the Company's performance relative to its peers, as defined, or based on other performance criteria as determined by the Board of Directors. In addition, the Plans provide for the granting of certain options and restricted stock to each of the Company's non-employee directors (the Independent Directors) and permits such Independent Directors to elect to receive deferred stock awards in lieu of directors' fees.

The Company recognized expense associated with its equity awards of approximately \$9.6 million and \$7.8 million for the six months ended June 30, 2011 and 2010, respectively. As of June 30, 2011, the Company had approximately \$29.4 million of total unrecognized compensation cost related to unvested stock compensation granted under the Company's Plan. That cost is expected to be recognized over a weighted average period of approximately 2.0 years.

The Company, from time to time, repurchases shares of its common stock in amounts that offset new issuances of common shares in connection with the exercise of stock options or the issuance of restricted stock awards. These repurchases may occur in open market purchases, privately negotiated transactions or otherwise, subject to prevailing market conditions, the Company's liquidity requirements, contractual restrictions and other factors. As of June 30, 2011, the Company repurchased approximately \$1.4 million or 73,933 shares.

16. Taxable REIT Subsidiaries (TRS)

The Company is subject to federal, state and local income taxes on the income from its TRS activities, which include Kimco Realty Services ("KRS"), a wholly owned subsidiary of the Company, the consolidated entities of FNC Realty Corporation (FNC) and Blue Ridge Real Estate Company/Big Boulder Corporation. The Company is also subject to local taxes on certain Non-U.S. investments.

Income taxes have been provided for on the asset and liability method as required by the FASB's Income Taxes guidance. Under the asset and liability method, deferred income taxes are recognized for the temporary differences between the financial reporting basis and the tax basis of the taxable assets and liabilities.

The Company's deferred tax assets and liabilities, which are included in the caption Other assets and Other liabilities on the accompanying Condensed Consolidated Balance Sheets, at June 30, 2011 and December 31, 2010, were as follows (in thousands):

	June 30, 2011		December 31, 2010
Deferred tax assets:			
Tax/GAAP basis differences	\$ 81,672	\$	80,539
Operating losses	42,912		43,700
Related party deferred loss	7,276		7,275
Tax credit carryforwards	4,016		5,240
Non-U.S. tax/GAAP basis differences	24,101		25,375
Valuation allowance	(33,783)		(33,783)
Total deferred tax assets	126,194		128,346
Deferred tax liabilities-U.S.	(10,790)		(10,108)
Deferred tax liabilities-Non-U.S.	(18,632)		(15,619)
Net deferred tax assets	\$ 96,772	\$	102,619

As of June 30, 2011, the Company had net deferred tax assets of approximately \$96.8 million. This net deferred tax asset includes approximately \$9.1 million for the tax effect of net operating losses, (NOL) after the impact of a valuation allowance of \$33.8 million, primarily relating to FNC. The partial valuation allowance on the FNC deferred tax asset reduces the deferred tax asset related to NOLs to the amount that is more likely than not realizable. The Company based the valuation allowance related to FNC on projected taxable income and the expected utilization of remaining net operating loss carryforwards. Additionally, FNC has approximately \$3.0 million of deferred tax assets relating to differences in GAAP book basis and tax basis of accounting. The Company has foreign net deferred tax assets of \$5.5 million, relating to its operations in Canada and Mexico due to differences in GAAP book basis and the basis of accounting applicable to the jurisdictions in which the Company is subject to tax. The Company's remaining net deferred tax asset of approximately \$79.2 million primarily relates to KRS and consists of (i) \$10.8 million in deferred tax liabilities, (ii) \$7.3 million related to partially deferred losses, (iii) \$4.0 million in tax credit carryforwards, \$2.9 million of which expire from 2027 through 2030 and \$1.1 million that do not expire, and (iv) \$78.7 million primarily relating to differences in GAAP

book basis and tax basis of accounting for (i) real estate assets, (ii) real estate joint ventures, (iii) other real estate investments, (iv) asset impairments charges that have been recorded for book purposes but not yet recognized for tax purposes and (v) other miscellaneous deductible temporary differences.

As of June 30, 2011, the Company determined that no valuation allowance was needed against the \$79.2 million net deferred tax asset within KRS. This determination was based upon the Company's analysis of both positive evidence, which includes future projected income for KRS and negative evidence, which consists of a three year cumulative pre-tax book loss for KRS. The cumulative loss was primarily the result of significant impairment charges taken by KRS during 2010 and 2009. As a result of this analysis the Company has determined it is more likely than not that KRS's net deferred tax asset of \$79.2 million will be realized and therefore, no valuation allowance is needed at June 30, 2011. If future income projections do not occur as forecasted or the Company incurs additional impairment losses within KRS, the Company will reevaluate the need for a valuation allowance.

17. Pro Forma Financial Information

As discussed in Note 2, the Company and certain of its affiliates acquired and disposed of interests in certain operating properties during the six months ended June 30, 2011. The pro forma financial information set forth below is based upon the Company's historical Condensed Consolidated Statements of Income for the six months ended June 30, 2011 and 2010, adjusted to give effect to these transactions at the beginning of 2010.

The pro forma financial information is presented for informational purposes only and may not be indicative of what actual results of operations would have been had the transactions occurred at the beginning of each year, nor does it purport to represent the results of future operations. Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

This Quarterly Report on Form 10-Q, together with other statements and information publicly disseminated by the Company contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Company intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and includes this statement for purposes of complying with these safe harbor provisions. Forward-looking statements, which are based on certain assumptions and describe the Company's future plans, strategies and expectations, are generally identifiable by use of the words "believe," "expect," "intend," "anticipate," "estimate," "project" or similar expressions. You should not rely on forward-looking statements since they involve known and unknown risks, uncertainties and other factors which are, in some cases, beyond the Company's control and which could materially affect actual results, performances or achievements. Factors which may cause actual results to differ materially from current expectations include, but are not limited to, the risk factors discussed in Part II, Item 1A. included in this Form 10-Q and in our Annual Report on Form 10-K for the year ended December 31, 2010, and (i) general adverse economic and local real estate conditions, (ii) the inability of major tenants to continue paying their rent obligations due to bankruptcy, insolvency or general downturn in their business, (iii) financing risks, such as the inability to obtain equity, debt or other sources of financing or refinancing on favorable terms, (iv) the Company's ability to raise capital by selling its assets, (v) changes in governmental laws and regulations, (vi) the level and volatility of interest rates and foreign currency exchange rates, (vii) the availability of suitable acquisition opportunities, (viii) valuation of joint venture investments, (ix) valuation of marketable securities and other investments, (x) increases in operating costs, (xi) changes in the dividend policy for the Company's common stock, (xii) the reduction in the Company's income in the event of multiple lease terminations by tenants or a failure by multiple tenants to occupy their premises in a shopping center, (xiii) impairment charges and (xiv) unanticipated changes in the Company's intention or ability to prepay certain debt prior to maturity and/or hold certain securities until maturity. Accordingly, there is no assurance that the Company's expectations will be realized.

The following discussion should be read in conjunction with the accompanying Condensed Consolidated Financial Statements and Notes thereto. These unaudited financial statements include all adjustments which are, in the opinion of management, necessary to reflect a fair statement of the results for the interim periods presented, and all such adjustments are of a normal recurring nature.

Executive Summary

Kimco Realty Corporation is one of the nation's largest publicly-traded owners and operators of neighborhood and community shopping centers. As of June 30, 2011, the Company had interests in 946 shopping center properties (the Combined Shopping Center Portfolio) aggregating 137.8 million square feet of gross leasable area (GLA) and 892 other property interests, primarily through the Company's preferred equity investments, other real estate investments

and non-retail properties, totaling approximately 33.7 million square feet of GLA, for a grand total of 1,838 properties aggregating 171.5 million square feet of GLA, located in 44 states, Puerto Rico, Canada, Mexico, Chile, Brazil and Peru.

The Company is self-administered and self-managed through present management, which has owned and managed neighborhood and community shopping centers for over 50 years. The executive officers are engaged in the day-to-day management and operation of real estate exclusively with the Company, with nearly all operating functions, including leasing, asset management, maintenance, construction, legal, finance and accounting administered by the Company.

The Company's vision is to be the premier owner and operator of shopping centers with its core business operations focusing on owning and operating neighborhood and community shopping centers through investments in North America. This vision will entail a shift away from non-retail assets that the Company currently holds. These investments include non-retail preferred equity investments, marketable securities, mortgages on non-retail properties and several urban mixed-use properties. The Company's plan is to sell certain non-retail assets and investments. In addition, the Company continues to be committed to broadening its institutional management business by forming joint ventures with high quality domestic and foreign institutional partners for the purpose of investing in neighborhood and community shopping centers.

Depreciation and amortization (3)	\$ 126.9	\$ 113.5	\$ 13.4	11.8%

(1) Revenues from rental property increased primarily from the combined effect of (i) the acquisition of operating properties during 2011 and 2010, providing incremental revenues for the three and six months ended June 30, 2011 of \$4.7 million and \$8.2 million, respectively, as compared to the corresponding periods in 2010 and (ii) an overall increase in the consolidated shopping center portfolio occupancy to 92.0% at June 30, 2011, as compared to 91.7% at June 30, 2010 and the completion of certain development and redevelopment projects and tenant buyouts providing

incremental revenues of approximately \$6.4 million and \$14.5 million for the three and six months ended June 30, 2011, respectively, as compared to the corresponding periods in 2010, which was partially offset by (iii) a decrease in revenues of approximately \$0.2 million and \$1.3 million for the three and six months ended June 30, 2011, respectively, as compared to the corresponding periods in 2010, primarily resulting from the partial sale of certain properties during 2011 and 2010.

(2) Rental property expenses increased for the six months ended June 30, 2011, as compared to the corresponding period in 2010, primarily due to (i) the placement of certain development properties into service, which resulted in lower capitalization of carry costs, (ii) increased snow removal costs and (iii) operating property acquisitions during 2011 and 2010.

(3) Depreciation and amortization increased for the three and six months ended June 30, 2011, as compared to the corresponding periods in 2010, primarily due to (i) operating property acquisitions during 2011 and 2010, (ii) the placement of certain development properties into service and (iii) tenant vacancies, partially offset by operating property dispositions during 2011 and 2010.

Mortgage and other financing income decreased approximately \$1.3 million for the six months ended June 30, 2011, as compared to the corresponding period in 2010. This decrease is primarily due to a decrease in interest income as a result of repayments during 2011 and 2010.

Management and other fee income decreased approximately \$3.0 million and \$3.2 million for the three and six months ended June 30, 2011, respectively, as compared to the corresponding periods in 2010. These decreases are primarily due to a decrease in transaction related fees of approximately \$2.7 million and \$2.2 million, recognized during the three and six months ended June 30, 2011, respectively, as compared to 2010, and a decrease in property management fees of approximately \$0.3 million and \$1.0 million recognized during the three and six months ended 2011, respectively, as compared to 2010.

General and administrative expense increased approximately \$3.2 million and \$4.8 million for the three and six months ended June 30, 2011, respectively, as compared to the corresponding periods in 2010. These increases are primarily due to an increase in equity awards expense related to grants issued during 2011 and 2010 and an increase in personnel related costs during the three and six months ended June 30, 2011, as compared to the corresponding periods in 2010.

Interest, dividends and other investment income increased approximately \$3.8 million and \$2.5 million for the three and six months ended June 30, 2011, respectively, as compared to the corresponding periods in 2010. These increases are primarily due to an increase in other investment income during 2011 relating to the receipt of a cash distribution of approximately \$6.9 million in excess of the Company's carrying value of a cost method investment, partially offset by a decrease in interest income on debt securities of approximately \$3.2 million and \$4.0 million for the three and six months ended June 30, 2011, respectively, as compared to 2010, primarily relating to the sale of the Valad notes.

Other income/(expense), net changed approximately \$1.9 million to \$0.7 million of income for the three months ended June 30, 2011, as compared to \$1.1 million of expense for the three months ended June 30, 2010. This change is primarily due to a decrease in foreign conversion adjustments of approximately \$1.8 million relating to various foreign investments which have US dollar functional currency. Other income/(expense), net changed \$1.9 million to \$0.4 million of income for the six months ended June 30, 2011, as compared to \$1.4 million of expense for the six months ended June 30, 2010. This change is primarily due to (i) a decrease in foreign conversion adjustments of approximately \$2.7 million relating to various foreign investments which have US dollar functional currency and (ii) a decrease in franchise taxes, partially offset by approximately \$2.0 million in lower gains on land sales during 2011, as compared to the corresponding periods in 2010.

Interest expense decreased approximately \$2.4 million and \$2.3 million for the three and six months ended June 30, 2011, respectively, as compared to the corresponding periods in 2010. These decreases are primarily due to lower outstanding levels of debt during the three and six months ended June 30, 2011, as compared to the corresponding periods in 2010.

During the six months ended June 30, 2011, the Company recognized impairment charges of approximately \$12.4 million (approximately \$8.2 million of which is included in discontinued operations) relating to adjustments to property carrying values and investments in real estate joint ventures based on their respective estimated sales prices.

Based on these inputs the Company determined that its valuation in these investments was classified within Level 3 of the FASB's fair value hierarchy.

During the six months ended June 30, 2010, the Company recognized impairment charges of approximately \$11.3 million (approximately \$3.4 million of which is included in discontinued operations) relating to adjustments to property carrying values and investments in other real estate investments. The Company's estimated fair values relating to these impairment assessments were based upon estimated sales prices. Based on these inputs, the Company determined that its valuation in these investments was classified within Level 3 of the fair value hierarchy.

Additionally, during the six months ended June 30, 2010, the Company recorded an impairment charge of approximately \$0.5 million due to the decline in value of one marketable security that was deemed to be other-than-temporary.

Provision for income taxes increased approximately \$5.7 million for the three months ended June 30, 2011, as compared to the corresponding period in 2010. This increase is primarily due to (i) a tax provision of approximately \$2.7 million resulting from the receipt of a cash distribution in excess of the Company's carrying value of a cost method investment, (ii) a decrease in income tax benefit of approximately \$1.7 million related to impairments taken during the three months ended June 30, 2010, as compared to the corresponding period in 2011, (iii) a decrease in tax benefit of approximately \$1.7 million as a result of reduced interest expense, (iv) a tax provision of approximately \$0.6 million related to a gain on foreign currency, partially offset by (v) an overall decrease in foreign taxes of approximately \$1.2 million for the three months ended June 30, 2011, as compared to the corresponding period in 2010. Provision for income taxes increased approximately \$8.8 million for the six months ended June 30, 2011 as compared to the corresponding

period in 2010. This increase is primarily due to (i) a tax provision of approximately \$2.7 million resulting from the receipt of a cash distribution in excess of the Company's carrying value of a cost method investment, (ii) a decrease in income tax benefit of approximately \$3.0 million related to impairments taken during the six months ended June 30, 2010, as compared to the corresponding period in 2011, (iii) a decrease in tax benefit of approximately \$3.8 million as a result of reduced interest expense, (iv) a tax provision of approximately \$0.6 million related to a gain on foreign currency, partially offset by (v) a decrease of approximately \$0.8 million in provision related to lower gains on land sales during the six months ended June 30, 2011, as compared to the corresponding period in 2010.

Equity in income/(loss) of joint ventures, net increased approximately \$18.1 million to income of \$17.8 million for the three months ended June 30, 2011, as compared to a loss of approximately \$0.3 million for the corresponding period in 2010. This increase is primarily the result of a decrease in impairment charges of approximately \$16.2 million resulting from fewer impairment charges recognized against certain joint venture properties during the three months ended June 30, 2011, as compared to the corresponding period in 2010, and an increase in equity in income of approximately \$1.3 million from the Company's InTown Suites investment primarily resulting from increased operating profitability. Equity in income/(loss) of real estate joint ventures, net increased approximately \$15.6 million to approximately \$30.2 million for the six months ended June 30, 2011, as compared to \$14.6 million for the corresponding period in 2010. This change is primarily the result of (i) a decrease in impairment charges of approximately \$15.9 million resulting from fewer impairment charges recognized against certain joint venture properties during the six months ended June 30, 2011 as compared to the corresponding period in 2010, (ii) an increase in equity in income of approximately \$3.3 million from the Company's InTown Suites investment primarily resulting from increased operating profitability and (iii) an increase in equity in income of approximately \$1.8 million from the Company's joint venture investments in Canada, partially offset by (v) the recognition of approximately \$8.0 million in income resulting from cash distributions received in excess of the Company's carrying value of its investment in an unconsolidated limited liability partnership during the six months ended June 30, 2010, as compared to the corresponding period in 2011.

Equity in income from other real estate investments, net decreased approximately \$2.9 million to \$4.8 million for the three months ended June 30, 2011, as compared to \$7.7 million for the corresponding period in 2010. This decrease is primarily due to a decrease of approximately \$2.1 million in connection with the amendment and restructuring of two Canadian retail property preferred equity investments into two pari passu joint venture investments during 2010 (the results for these investments are now reflected in Equity in income/(loss) of joint ventures, net). Equity in income from other real estate investments, net decreased \$11.5 million to \$10.3 million for the six months ended June 30, 2011, as compared to \$21.8 million for the corresponding period in 2010. This decrease is primarily due to (i) a decrease of approximately \$4.2 million in connection with the amendment and restructuring of two Canadian retail property preferred equity investments into two pari passu joint venture investments during 2010 (the results for these investments are now reflected in Equity in income/(loss) of joint ventures, net) and (ii) a decrease of approximately \$6.0 million in equity in income from the Albertson's joint venture during the six months ended June 30, 2011, as compared to the corresponding period in 2010.

Net income attributable to the Company for the three and six months ended June 30, 2011 was \$38.7 million and \$67.7 million, respectively. Net income attributable to the Company for the three and six months ended June 30, 2010 was \$24.6 million and \$75.4 million, respectively. On a diluted per share basis, net income attributable to the Company was \$0.06 and \$0.09 for the three and six month period ended June 30, 2011, respectively, as compared to

\$0.03 and \$0.13 for the three and six month period ended June 30, 2010, respectively. This change is primarily attributable to (i) a decrease of approximately \$11.9 million and \$12.3 million in impairment charges recognized during the three and six months ended June 30, 2011, as compared to the corresponding periods in 2010 and (ii) additional incremental earnings due to increased profitability from the Company's operating properties and the acquisition of operating properties during 2011 and 2010, partially offset by (iii) a reduction in equity in income from other real estate investments, primarily due to a decrease in income from the Albertson's investment and (iv) an increase in provision for income taxes.

Tenant Concentration

The Company seeks to reduce its operating and leasing risks through diversification achieved by the geographic distribution of its properties, avoiding dependence on any single property, and a large tenant base. At June 30, 2011, the Company's five largest tenants were The Home Depot, TJX Companies, Wal-Mart, Sears Holdings and Best Buy, which represented approximately 3.1%, 2.8%, 2.5%, 2.2% and 1.6%, respectively, of the Company's annualized base rental revenues including the proportionate share of base rental revenues from properties in which the Company has less than a 100% economic interest.

Liquidity and Capital Resources

The Company's capital resources include accessing the public debt and equity capital markets, mortgage and construction loan financing and immediate access to unsecured revolving credit facilities with aggregate bank commitments of approximately \$1.7 billion.

The Company's cash flow activities are summarized as follows (in millions):

	Six Months Ended June 30,	
	2011	2010
Net cash flow provided by operating activities	\$ 215.8	\$ 229.7
Net cash flow provided by investing activities	\$ 113.6	\$ 105.0
Net cash flow used for financing activities	\$ (310.5)	\$ (321.5)

Operating Activities

The Company anticipates that cash on hand, borrowings under its revolving credit facilities, issuance of equity and public debt, as well as other debt and equity alternatives, will provide the necessary capital required by the Company. Net cash flow provided by operating activities for the six months ended June 30, 2011, was primarily attributable to (i) cash flow from the diverse portfolio of rental properties, (ii) the acquisition of operating properties during 2011 and 2010, (iii) new leasing, expansion and re-tenanting of core portfolio properties and (iv) distributions from the Company's joint venture programs.

Cash flows provided by operating activities for the six months ended June 30, 2011, were approximately \$215.8 million, as compared to approximately \$229.7 million for the comparable period in 2010. The change of approximately \$13.9 million is primarily attributable to a decrease in distributions from joint ventures and other real estate investments and a decrease in transactional fee income from joint ventures.

Investing Activities

Cash flows provided by investing activities for the six months ended June 30 2011, were approximately \$113.6 million, as compared to approximately \$105.0 million for the comparable period in 2010. This change of approximately \$8.6 million resulted primarily from (i) an increase in proceeds from the sale/repayments of marketable securities of approximately \$172.6 million, primarily resulting from the sale of the Valad notes, (ii) an increase in reimbursements of advances to other real estate investments of approximately \$14.5 million, (iii) and an increase in reimbursements of other investments of approximately \$10.8 million primarily resulting from the sale of the Valad embedded conversion feature, partially offset by (iv) a decrease in proceeds from the sale of operating properties of approximately \$135.8 million, (v) a decrease in the collection of mortgage loan receivables of approximately \$22.6 million, (vi) an increase in investments and advances to real estate joint ventures of approximately \$20.8 million and (vii) an increase in the acquisition of and improvements to operating real estate of approximately \$27.1 million.

Acquisitions of and Improvements to Operating Real Estate -

During the six months ended June 30, 2011, the Company expended approximately \$79.4 million towards acquisition of and improvements to operating real estate including \$33.3 million expended in connection with redevelopments and re-tenanting projects as described below.

The Company has an ongoing program to reformat and re-tenant its properties to maintain or enhance its competitive position in the marketplace. The Company anticipates its total capital commitment toward these and other redevelopment projects during 2011 will be approximately \$60 million to \$70 million. The funding of these capital requirements will be provided by cash flow from operating activities and availability under the Company's revolving lines of credit.

Investments and Advances to Joint Ventures -

During the six months ended June 30, 2011, the Company expended approximately \$71.2 million for investments and advances to real estate joint ventures, which is primarily related to the acquisition of and improvements to properties within the joint ventures, and received approximately \$25.5 million from reimbursements of advances to real estate joint ventures.

Acquisitions of and Improvements to Real Estate Under Development

The Company is engaged in ground-up development projects which will be held as long-term investments by the Company. The ground-up development projects generally have significant pre-leasing prior to the commencement of construction. As of June 30, 2011, the Company had in progress a total of four ground-up development projects, consisting of (i) two ground-up development projects located in the U.S., (ii) one ground-up development projects located in Mexico and (iii) one ground-up development project located in Chile.

During the six months ended June 30, 2011, the Company expended approximately \$16.7 million in connection with construction costs relating to its ground-up development projects. The Company anticipates its total capital commitment during 2011 toward these and other development projects will be approximately \$25 million to \$35 million. The proceeds from unfunded construction loan commitments and availability under the Company's revolving lines of credit are expected to be sufficient to fund these anticipated capital requirements.

Financing Activities

Cash flows used for financing activities for the six months ended June 30, 2011, were approximately \$310.5 million, as compared to cash flows used for financing activities of approximately \$321.5 million for the comparable period in 2010. This change of approximately \$11.0 million resulted primarily from (i) a decrease of approximately \$196.7 million in repayments of unsecured term loans/notes, (ii) a decrease in principal payments of approximately \$57.4 million, (iii) a decrease in redemption of noncontrolling interests of approximately \$54.0 million and (iv) increase in proceeds from mortgage/construction loan financing of approximately \$6.7 million, partially offset by (v) \$132.2 million in net repayments of borrowings under the Company's unsecured revolving credit facilities, (vi) a decrease of approximately \$149.7 million in proceeds from issuance of unsecured term loans/notes and (vii) an increase in dividends paid of approximately \$24.1 million.

Debt maturities for the remainder of 2011 consist of: \$91.8 million of consolidated debt; \$367.2 million of unconsolidated joint venture debt and \$135.3 million of debt on properties included in the Company's preferred equity program, assuming the utilization of extension options where available. The 2011 consolidated debt maturities are anticipated to be repaid with operating cash flows, borrowings from the Company's credit facilities (which at June 30, 2011 had approximately \$1.7 billion available) and debt refinancing. The 2011 unconsolidated joint venture and preferred equity debt maturities are anticipated to be repaid through debt refinancing and partner capital contributions, as deemed appropriate.

The Company has a \$1.5 billion unsecured U.S. revolving credit facility (the "U.S. Credit Facility") with a group of banks, which is scheduled to expire in October 2012. This credit facility has made available funds to finance general corporate purposes, including (i) property acquisitions, (ii) investments in the Company's institutional real estate management programs, (iii) development and redevelopment costs, and (iv) any short-term working capital requirements, including managing the Company's debt maturities. Interest on borrowings under the U.S. Credit Facility accrues at LIBOR plus 0.425% and fluctuates in accordance with changes in the Company's senior debt ratings. As part of this U.S. Credit Facility, the Company has a competitive bid option whereby the Company may auction up to \$750.0 million of its requested borrowings to the bank group. This competitive bid option provides the Company the opportunity to obtain pricing below the currently stated spread. A facility fee of 0.15% per annum is payable quarterly in arrears. As part of the U.S. Credit Facility, the Company has a \$200.0 million sub-limit which provides the opportunity to borrow in alternative currencies such as Pounds Sterling, Japanese Yen or Euros. As of June 30, 2011, there was approximately \$23.5 million outstanding balance under this credit facility and approximately \$24.3 million appropriated for letters of credit.

Pursuant to the terms of the U.S. Credit Facility, the Company, among other things, is subject to maintenance of various covenants. The Company is currently not in violation of these covenants. The financial covenants for the U.S. Credit Facility are as follows:

Covenant	Must Be	As of 6/30/11
Total Indebtedness to Gross Asset Value (GAV)	<60%	42%
Total Priority Indebtedness to GAV	<35%	11%
Unencumbered Asset Net Operating Income to Total Unsecured Interest Expense	>1.75x	3.10x
Fixed Charge Total Adjusted EBITDA to Total Debt Service	>1.50x	2.11x
Limitation of Investments, Loans and Advances	<30% of GAV	19% of GAV

For a full description of the U.S. Credit Facility's covenants refer to the Credit Agreement dated as of October 25, 2007 filed in the Company's Current Report on Form 8-K dated October 25, 2007.

The Company also has a Canadian denominated (CAD) \$250.0 million unsecured credit facility with a group of banks. This facility bears interest at the CDOR Rate, as defined, plus 0.425%, subject to change in accordance with the Company's senior debt ratings and is scheduled to expire in March 2012. A facility fee of 0.15% per annum is payable quarterly in arrears. This facility also permits U.S. dollar denominated borrowings. Proceeds from this facility are used for general corporate purposes, including the funding of Canadian denominated investments. As of June 30, 2011, there was no outstanding balance under this credit facility. There is approximately CAD \$0.5 million (approximately USD \$0.5 million) appropriated for letters of credit at June 30, 2011. The Canadian facility covenants are the same as the U.S. Credit Facility covenants described above.

During March 2008, the Company obtained a MXP 1.0 billion term loan, which bears interest at a fixed rate of 8.58%, subject to change in accordance with the Company's senior debt ratings and is scheduled to mature in March 2013.

The Company utilized proceeds from this term loan to fully repay the outstanding balance of its MXP 500.0 million unsecured revolving credit facility, which was terminated by the Company. Remaining proceeds from this term loan were used for funding MXP denominated investments. As of June 30, 2011, the outstanding balance on this term loan was MXP 1.0 billion (approximately USD \$84.9 million). The Mexican term loan covenants are the same as the U.S. and Canadian Credit Facilities covenants described above.

The Company has a Medium Term Notes (MTN) program pursuant to which it may, from time-to-time, offer for sale its senior unsecured debt for any general corporate purposes, including (i) funding specific liquidity requirements in its business, including property acquisitions, development and redevelopment costs and (ii) managing the Company's debt maturities.

The Company's supplemental indenture governing its MTN program and senior notes contains the following covenants, all of which the Company is compliant with:

Covenant	Must Be	As of 6/30/11
Consolidated Indebtedness to Total Assets	<60%	37%
Consolidated Secured Indebtedness to Total Assets	<40%	10%
Consolidated Income Available for Debt Service to Maximum Annual Service Charge	>1.50x	3.4x
Unencumbered Total Asset Value to Consolidated Unsecured Indebtedness	>1.50x	3.0x

For a full description of the various indenture covenants refer to the Indenture dated September 1, 1993, First Supplemental Indenture dated August 4, 1994; the Second Supplemental Indenture dated April 7, 1995; the Third Supplemental Indenture dated June 2, 2006; the Fifth Supplemental Indenture dated as of September 24, 2009; the Fifth Supplemental Indenture dated as of October 31, 2006; and First Supplemental Indenture dated October 31, 2006, as filed with the U.S. Securities and Exchange Commission.

During April 2009, the Company filed a shelf registration statement on Form S-3ASR, which is effective for a term of three years, for the future unlimited offerings, from time-to-time, of debt securities, preferred stock, depositary shares, common stock and common stock warrants.

The Company, from time to time, repurchases shares of its common stock in amounts that offset new issuances of common shares in connection with the exercise of stock options or the issuance of restricted stock awards. These repurchases may occur in open market purchases, privately negotiated transactions or otherwise, subject to prevailing market conditions, the Company's liquidity requirements, contractual restrictions and other factors.

In addition to the public equity and debt markets as capital sources, the Company may, from time-to-time, obtain mortgage financing on selected properties and construction loans to partially fund the capital needs of its ground-up development projects. As of June 30, 2011, the Company had over 425 unencumbered property interests in its portfolio.

In connection with its intention to continue to qualify as a REIT for federal income tax purposes, the Company expects to continue paying regular dividends to its stockholders. These dividends will be paid from operating cash flows. The Company's Board of Directors will continue to evaluate the Company's dividend policy on a quarterly basis as they monitor sources of capital and evaluate the impact of the economy and capital markets availability on operating fundamentals. Since cash used to pay dividends reduces amounts available for capital investment, the Company generally intends to maintain a conservative dividend payout ratio, reserving such amounts as it considers necessary for the expansion and renovation of shopping centers in its portfolio, debt reduction, the acquisition of interests in new properties and other investments as suitable opportunities arise and such other factors as the Board of Directors considers appropriate. Cash dividends paid for the six months ended June 30, 2011 and 2010 were \$177.6 million and \$153.4 million, respectively.

Although the Company receives substantially all of its rental payments on a monthly basis, it generally intends to continue paying dividends quarterly. Amounts accumulated in advance of each quarterly distribution will be invested by the Company in short-term money market or other suitable instruments. The Company's Board of Directors declared a quarterly cash dividend of \$0.18 per common share which was paid on July 15, 2011 to shareholders of record on July 6, 2011. On July 26, 2011, the Company's Board of Directors declared a quarterly cash dividend of \$0.18 per common share payable to shareholders of record on October 5, 2011. This dividend will be paid on October 17, 2011.

Effects of Inflation

Many of the Company's leases contain provisions designed to mitigate the adverse impact of inflation. Such provisions include clauses enabling the Company to receive payment of additional rent calculated as a percentage of tenants' gross sales above pre-determined thresholds, which generally increase as prices rise, and/or escalation clauses, which generally increase rental rates during the terms of the leases. Such escalation clauses often include increases based upon changes in the consumer price index or similar inflation indices. In addition, many of the Company's leases are for terms of less than 10 years, which permits the Company to seek to increase rents to market rates upon renewal. Most of the Company's leases require the tenant to pay an allocable share of operating expenses, including common area maintenance costs, real estate taxes and insurance, thereby reducing the Company's exposure to increases in costs and operating expenses resulting from inflation. The Company periodically evaluates its exposure to short-term interest rates and foreign currency exchange rates and will, from time-to-time, enter into interest rate protection agreements and/or foreign currency hedge agreements which mitigate, but do not eliminate, the effect of changes in interest rates on its floating-rate debt and fluctuations in foreign currency exchange rates.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company's primary market risk exposure is interest rate risk and fluctuations in foreign currency exchange rate risk. The following table presents the Company's aggregate fixed rate and variable rate domestic and foreign debt obligations outstanding as of June 30, 2011, with corresponding weighted-average interest rates sorted by maturity date. The table does not include extension options where available. The information is presented in U.S. dollar equivalents, which is the Company's reporting currency. The instruments' actual cash flows are denominated in U.S. dollars, Canadian dollars (CAD), Mexican pesos (MXP) and Chilean pesos (CLP) as indicated by geographic description (\$ in USD equivalent in millions).

The Company has not, and does not plan to, enter into any derivative financial instruments for trading or speculative purposes. As of June 30, 2011, the Company has no other material exposure to market risk.

Item 4.

Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective.

There have not been any changes in the Company's internal control over financial reporting during the fiscal quarter to which this report relates that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
