RLJ Lodging Trust
Notes to the Consolidated Financial Statements
(unaudited)

1. Organization

RLJ Lodging Trust (the "Company") was formed as a Maryland real estate investment trust ("REIT") on January 31, 2011. The Company is a self-advised and self-administered REIT that acquires primarily premium-branded, focused-service and compact full-service hotels. The Company qualified and elected to be taxed as a REIT, for U.S. federal income tax purposes, commencing with the portion of its taxable year ended December 31, 2011.

Substantially all of the Company's assets and liabilities are held by, and all of its operations are conducted through RLJ Lodging Trust, L.P. (the "Operating Partnership"). The Company is the sole general partner of the Operating Partnership. As of June 30, 2016, there were 124,887,396 units of limited partnership interest in the Operating Partnership ("OP units") outstanding and the Company owned, through a combination of direct and indirect interests, 99.6% of the outstanding OP units.

As of June 30, 2016, the Company owned 125 hotel properties with approximately 20,800 rooms, located in 21 states and the District of Columbia, and an interest in one mortgage loan secured by a hotel. The Company, through wholly-owned subsidiaries, owned a 100% interest in all of its hotel properties, with the exception of the DoubleTree Metropolitan Hotel New York City, in which the Company, through wholly-owned subsidiaries, owned a 98.3% controlling interest in a joint venture, DBT Met Hotel Venture, LP, which was formed to engage in the hotel operations related to this hotel. An independent operator manages the operations of each hotel property.

2. Summary of Significant Accounting Policies

The Company's Annual Report on Form 10-K for the year ended December 31, 2015 contains a discussion of the significant accounting policies. Other than the disclosure of the deferred financing costs accounting policy in this section, there have been no other significant changes to the Company's significant accounting policies since December 31, 2015.

Basis of Presentation and Principles of Consolidation

The unaudited consolidated financial statements and related notes have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP") and in conformity with the rules and regulations of the Securities and Exchange Commission ("SEC") applicable to financial information. The unaudited financial statements include all adjustments that are necessary, in the opinion of management, to fairly present the consolidated balance sheets, statements of operations and comprehensive income, statements of changes in equity and statements of cash flows.

The unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto as of and for the year ended December 31, 2015, included in the Company's Annual Report on Form 10-K filed with the SEC on February 25, 2016.

The consolidated financial statements include all subsidiaries controlled by the Company. For the controlled subsidiaries that are not wholly-owned, the noncontrolling interests in these subsidiaries are presented separately in the consolidated financial statements.

In February 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-02, Consolidation (Topic 810): Amendments to the Consolidation Analysis. The new guidance modifies the analysis an entity must perform to determine whether it should consolidate certain legal entities. The Company adopted the new guidance on January 1, 2016 and the adoption did not have an impact on the Company's consolidated financial statements as there were no changes to the subsidiaries consolidated by the Company. Upon adopting the new guidance, the Operating Partnership and certain subsidiaries of the Operating Partnership became variable interest entities. The Company continues to consolidate the Operating Partnership and the Operating Partnership continues to consolidate the other subsidiary variable interest entities.

Reclassifications

Certain prior year amounts in these financial statements have been reclassified to conform to the current year presentation with no impact to net income, shareholders' equity or cash flows.

Table of Contents

Use of Estimates

The preparation of the Company's financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and the amounts of contingent assets and liabilities at the balance sheet date and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Deferred Financing Costs

Deferred financing costs are the costs incurred to obtain long-term financing. The deferred financing costs are recorded at cost and are amortized using the straight-line method, which approximates the effective interest method, over the respective term of the financing agreement and are included as a component of interest expense. The Company expenses unamortized deferred financing costs when the associated financing agreement is refinanced or repaid before maturity unless certain criteria are met that would allow for the carryover of such costs to the refinanced agreement.

In April 2015, the FASB issued ASU 2015-03, Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. This guidance requires an entity to present the debt issuance costs in the balance sheet as a direct deduction from the carrying amount of that debt liability, rather than as an asset. In August 2015, the FASB issued ASU 2015-15, Interest - Imputation of Interest (Subtopic 835-30): Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements. This guidance allows the debt issuance costs on line-of-credit arrangements to be presented in the balance sheet as an asset and amortized ratably over the term of the line-of-credit arrangement, regardless of whether there are any outstanding borrowings on the line-of-credit arrangement. The Company adopted both ASU 2015-03 and ASU 2015-15 during the quarter ended March 31, 2016. The adoption of this guidance changed the balance sheet classification of the Company's deferred financing costs but it did not otherwise affect the consolidated financial statements. Upon adoption of the new guidance, the Company retrospectively reclassified deferred financing costs of \$8.1 million in the consolidated balance sheet as of December 31, 2015. The carrying amount of debt as of December 31, 2015 is presented net of deferred financing costs of \$7.3 million. The carrying amount of prepaid expense and other assets as of December 31, 2015 includes deferred financing costs of \$0.8 million related to the Revolver (as defined below).

Recently Issued Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which supersedes or replaces nearly all GAAP revenue recognition guidance. The new guidance establishes a new control-based revenue recognition model that changes the basis for deciding when revenue is recognized over time or at a point in time and expands disclosures about revenue. The guidance is effective for annual reporting periods beginning after December 15, 2017, and interim periods within those annual periods. Early adoption is permitted for annual reporting periods beginning after December 15, 2016. The Company is currently evaluating whether this ASU will have a material impact on its financial position, results of operations or cash flows.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). This guidance will require lessees to recognize a right-of-use asset and a lease liability for most of their leases on the balance sheet, and an entity will need to classify its leases as either an operating or finance lease in order to determine the income statement presentation. Lessors will classify their leases as either operating, direct financing, or sales-type leases, and leveraged leases have been eliminated in the new guidance. The guidance is effective for annual reporting periods beginning after December 15, 2018, and the interim periods within those annual periods, with early adoption permitted. The Company is currently evaluating whether this ASU will have a material impact on its financial position, results of operations or cash flows.

In March 2016, the FASB issued ASU 2016-09, Improvements to Employee Share-Based Payment Accounting, which amends ASC Topic 718, Compensation - Stock Compensation. ASU 2016-09 includes provisions that are intended to simplify various aspects related to how share-based payments are accounted for and presented in the financial statements. The guidance is effective for annual reporting periods beginning after December 15, 2016, and interim periods within those annual periods. Early adoption is permitted in any interim or annual period, with any adjustments reflected as of the beginning of the fiscal year of adoption. The Company early adopted this guidance for the quarterly period ended March 31, 2016, and the adoption had no effect on its financial position, results of operations or cash flows.

Table of Contents

At June 30, 2016 and December 31, 2015, the aggregate fair value of the interest rate swap liabilities of \$42.2 million and \$17.1 million, respectively, was included in accounts payable and other liabilities in the accompanying consolidated balance sheets. At December 31, 2015, the aggregate fair value of the interest rate swap assets of \$0.5 million was included in prepaid expense and other assets in the accompanying consolidated balance sheets.

As of June 30, 2016 and December 31, 2015, there was approximately \$42.2 million and \$16.6 million, respectively, in unrealized losses included in accumulated other comprehensive loss related to interest rate hedges that are effective in offsetting the variable cash flows. There was no ineffectiveness recorded on the designated hedges during the three and six month periods ended June 30, 2016 and 2015. For the three and six months ended June 30, 2016, approximately \$4.1 million and \$8.3 million, respectively, of amounts included in accumulated other comprehensive loss were reclassified into interest expense. For the three and six months ended June 30, 2015, approximately \$4.2 million and \$8.3 million, respectively, of amounts included in accumulated other comprehensive loss were reclassified into interest expense. Approximately \$15.7 million of the net unrealized losses included in accumulated other comprehensive loss at June 30, 2016 is expected to be reclassified into interest expense within the next 12 months.

7. Fair Value

Fair Value Measurement

Fair value is defined as the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or most advantageous market. The fair value hierarchy has three levels of inputs, both observable and unobservable:

Level 1 — Inputs include quoted market prices in an active market for identical assets or liabilities.

Level 2 — Inputs are market data, other than Level 1, that are observable either directly or indirectly. Level 2 inputs include quoted market prices for similar assets or liabilities, quoted market prices in an inactive market, and other observable information that can be corroborated by market data.

Level 3 — Inputs are unobservable and corroborated by little or no market data.

Fair Value of Financial Instruments

The Company used the following market assumptions and/or estimation methods:

Cash and cash equivalents, restricted cash reserves, hotel and other receivables, accounts payable and other liabilities — The carrying amounts reported in the consolidated balance sheets for these financial instruments approximate fair value because of their short term maturities.

Variable rate mortgage loans and borrowings under the Revolver and Term Loans — The carrying amounts reported in the consolidated balance sheets for these financial instruments approximate fair value as they bear interest at market rates. The Company determined that its variable rate mortgage loans and borrowings under the Revolver and Term Loans are classified in Level 3 of the fair value hierarchy.

Fixed rate mortgage loans — The estimated fair value of the fixed rate mortgage loans was \$34.7 million and \$34.7 million at June 30, 2016 and December 31, 2015, respectively. The fair value was calculated based on the net present value of the payments over the term of the loans using estimated market rates for similar mortgage loans with similar terms and loan-to-value ratios. As a result, the Company determined that its fixed rate mortgage loans in their entirety are classified in Level 3 of the fair value hierarchy. The carrying value of the fixed rate mortgage loans was \$34.0

million and \$34.5 million at June 30, 2016 and December 31, 2015, respectively.

Table of Contents

Recurring Fair Value Measurements

The following table presents the Company's fair value hierarchy for those financial assets and liabilities measured at fair value on a recurring basis as of June 30, 2016 (in thousands):

Fair Value at June 30, 2016			
	Level 1	Level 2	Level 3 Total
Interest rate swap liability	\$—	\$(42,216)	\$—\$(42,216)
Total	\$—	\$(42,216)	\$—\$(42,216)

The following table presents the Company's fair value hierarchy for those financial assets and liabilities measured at fair value on a recurring basis as of December 31, 2015 (in thousands):

Fair Value at December 31, 2015			
	Level 1	Level 2	Level 3 Total
Interest rate swap asset	\$—	\$506	\$—\$506
Interest rate swap liability	\$—	\$(17,108)	\$—\$(17,108)
Total	\$—	\$(16,602)	\$—\$(16,602)

The fair values of the derivative financial instruments are determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. The Company determined that the significant inputs, such as interest yield curves and discount rates, used to value its derivatives fall within Level 2 of the fair value hierarchy and that the credit valuation adjustments associated with the Company's counterparties and its own credit risk utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself and its counterparties. As of June 30, 2016, the Company assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and determined that the credit valuation adjustments were not significant to the overall valuation of its derivatives. As a result, the Company determined that its derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy.

8. Income Taxes

The Company elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code, as amended, commencing with the taxable year ended December 31, 2011. To qualify as a REIT, the Company must meet a number of organizational and operational requirements, including a requirement that it distribute at least 90% of its REIT taxable income to its shareholders, subject to certain adjustments and excluding any net capital gain. The Company's intention is to adhere to these requirements and maintain the qualification for taxation as a REIT. As a REIT, the Company is not subject to federal corporate income tax on that portion of net income that is distributed to its shareholders. However, the Company's taxable REIT subsidiaries ("TRS") will generally be subject to federal, state, and local income taxes at the applicable rates.

The Company accounts for deferred income taxes using the asset and liability method. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to the differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities from a change in tax rates is recognized in earnings in the period when the new rate is enacted.

The Company had no accruals for tax uncertainties as of June 30, 2016 and December 31, 2015.

9. Commitments and Contingencies

Restricted Cash Reserves

The Company is obligated to maintain cash reserve funds for future capital expenditures at the hotels (including the periodic replacement or refurbishment of furniture, fixtures and equipment ("FF&E")) as determined pursuant to the management agreements, franchise agreements and/or mortgage loan documents. The management agreements, franchise agreements and/or mortgage loan documents require the Company to reserve cash ranging typically from 3.0% to 5.0% of the

Table of Contents

individual hotel's revenues and maintain the reserves in restricted cash reserve escrows. Any unexpended amounts will remain the property of the Company upon termination of the management agreements, franchise agreements or mortgage loan documents. As of June 30, 2016 and December 31, 2015, approximately \$61.3 million and \$55.5 million, respectively, was available in restricted cash reserves for future capital expenditures, real estate taxes and insurance.

Litigation

Neither the Company nor any of its subsidiaries are currently involved in any regulatory or legal proceedings that management believes will have a material adverse effect on the financial position, results of operations or cash flows of the Company.

Management Agreements

As of June 30, 2016, 125 of the Company's hotel properties were operated pursuant to long-term management agreements with initial terms ranging from 3 to 25 years. This number includes five and ten hotels that receive the benefits of a franchise agreement pursuant to management agreements with Marriott and Hyatt, respectively. Each management company receives a base management fee generally between 3.0% and 3.5% of hotel revenues. Management agreements that include the benefits of a franchise agreement incur a base management fee generally equal to 7.0% of hotel revenues. The management companies are also eligible to receive an incentive management fee if hotel operating income, as defined in the management agreements, exceeds certain thresholds. The incentive management fee is generally calculated as a percentage of hotel operating income after the Company has received a priority return on its investment in the hotel. Management fees are included in management and franchise fee expense in the accompanying consolidated statements of operations. For the three and six months ended June 30, 2016, the Company incurred management fee expense, including amortization of deferred management fees, of approximately \$12.6 million and \$23.7 million, respectively. For the three and six months ended June 30, 2015, the Company incurred management fee expense, including amortization of deferred management fees, of approximately \$12.5 million and \$23.4 million, respectively.

Franchise Agreements

As of June 30, 2016, 110 of the Company's hotel properties were operated under franchise agreements with initial terms ranging from 10 to 30 years. This number excludes five and ten hotels that receive the benefits of a franchise agreement pursuant to management agreements with Marriott and Hyatt, respectively. Franchise agreements allow the properties to operate under the respective brands. Pursuant to the franchise agreements, the Company pays a royalty fee, generally between 4.0% and 6.0% of room revenue, plus additional fees for marketing, central reservation systems and other franchisor costs generally between 1.0% and 4.3% of room revenue. Certain hotels are also charged a royalty fee generally between 1.0% and 3.0% of food and beverage revenues. Franchise fees are included in management and franchise fee expense in the accompanying consolidated statements of operations. For the three and six months ended June 30, 2016, the Company incurred franchise fee expense of approximately \$20.2 million and \$37.6 million, respectively. For the three and six months ended June 30, 2015, the Company incurred franchise fee expense of approximately \$19.2 million and \$36.3 million, respectively.

10. Equity

In 2015, the Company's board of trustees authorized a share repurchase program to acquire up to \$400.0 million of the Company's common shares through December 31, 2016. During the six months ended June 30, 2016, the Company repurchased and retired 610,607 of its common shares for approximately \$13.3 million. As of June 30, 2016, the share repurchase program had a remaining capacity of \$161.5 million.

The Company consolidates its Operating Partnership, a majority-owned limited partnership that has a noncontrolling interest. The outstanding units held by the limited partners are redeemable for cash, or at the option of the Company, for a like number of common shares of beneficial interest of the Company. During the six months ended June 30, 2016, the Company issued 335,250 common shares of beneficial interest in exchange for redeemed units. After the redemption, 558,750 operating partnership units remain outstanding.

11. Equity Incentive Plan

The Company may issue equity-based awards to officers, employees, non-employee trustees and other eligible persons under the RLJ Lodging Trust 2015 Equity Incentive Plan (the "2015 Plan"). The 2015 Plan provides for a maximum of 7,500,000 common shares of beneficial interest to be issued in the form of share options, share appreciation rights, restricted

Table of Contents

share awards, unrestricted share awards, share units, dividend equivalent rights, long-term incentive units, other equity-based awards and cash bonus awards.

Share Awards

From time to time, the Company may award unvested restricted shares under the 2015 Plan as compensation to officers, employees and non-employee trustees. The issued shares vest over a period of time as determined by the board of trustees at the date of grant. The Company recognizes compensation expense for time-based unvested restricted shares on a straight-line basis over the vesting period based upon the fair market value of the shares on the date of issuance, adjusted for forfeitures.

Non-employee trustees may also elect to receive unrestricted shares under the 2015 Plan as compensation that would otherwise be paid in cash. The shares issued to non-employee trustees in lieu of cash compensation are unrestricted and include no vesting conditions. The Company recognizes compensation expense for the unrestricted shares issued in lieu of cash compensation on the date of issuance based upon the fair market value of the shares on that date.

A summary of the unvested restricted shares as of June 30, 2016 is as follows:

	2016	
	Number of Shares	Weighted-Average Grant Date Fair Value
Unvested at January 1,	540,885	\$ 26.73
Granted (1)	442,550	19.89
Vested (1)	(153,754)	23.69
Forfeited (2)	(286,189)	23.73
Unvested at June 30,	543,492	\$ 23.60

- (1) Includes 2,554 unrestricted shares that were issued in lieu of cash compensation to non-employee trustees at a weighted-average grant date fair value of \$22.26.
- (2) Includes the forfeiture of 285,926 unvested restricted shares upon the resignation of the Company's President and Chief Executive Officer in May 2016.

For the three and six months ended June 30, 2016, the Company recognized approximately \$1.3 million and \$3.4 million, respectively, of share-based compensation expense related to restricted share awards, which includes a benefit of \$0.5 million as a result of the forfeiture of unvested restricted shares upon the resignation of the Company's President and Chief Executive Officer in May 2016. For the three and six months ended June 30, 2015, the Company recognized approximately \$2.6 million and \$5.6 million, respectively, of share-based compensation expense related to restricted share awards. As of June 30, 2016, there was \$12.1 million of total unrecognized compensation costs related to unvested restricted share awards and these costs are expected to be recognized over a weighted-average period of 2.7 years. The total fair value of the shares vested (calculated as the number of shares multiplied by the vesting date share price) during the six months ended June 30, 2016 was approximately \$3.1 million.

Performance Units

In July 2012, the Company awarded performance units to certain employees. The performance units vested over a four-year period, including three years of performance-based vesting (the "2012 performance units measurement period") plus an additional one year of time-based vesting. In July 2015, following the end of the 2012 performance units measurement period, the Company issued 838,934 restricted shares upon conversion of the performance units. Half of the restricted shares vested immediately and the remaining half vested in July 2016. In May 2016, 133,467

unvested restricted shares related to the conversion of the performance units were forfeited upon the resignation of the Company's President and Chief Executive Officer. As of June 30, 2016, there were 286,000 unvested restricted shares related to the conversion of the performance units.

Table of Contents

In May 2016, the Company awarded 280,000 performance units with a grant date fair value of \$10.31 per unit to certain employees. The performance units vest over a four-year period, including three years of performance-based vesting (the “2016 performance units measurement period”) plus an additional one year of time-based vesting. The performance units may convert into restricted shares at a range of 25% to 150% of the number of performance units granted contingent upon the Company achieving an absolute total shareholder return and a relative total shareholder return over the measurement period at specified percentiles of the peer group, as defined by the award. If at the end of the 2016 performance units measurement period the target criterion is met, then 50% of the restricted shares will vest immediately. The remaining 50% will vest one year later. The award recipients will not be entitled to receive any dividends prior to the date of conversion. For any restricted shares issued upon conversion, the award recipient will be entitled to receive payment of an amount equal to all dividends that would have been paid if such restricted shares had been issued at the beginning of the 2016 performance units measurement period. The fair value of the performance units is determined using a Monte Carlo simulation with the following assumptions: a risk-free interest rate of 1.05%, volatility of 23.82%, and an expected term equal to the requisite service period for the awards. The Company estimated the compensation expense for the performance units on a straight line basis using a calculation that recognizes 50% of the grant date fair value over three years and 50% of the grant date fair value over four years.

For the three and six months ended June 30, 2016, the Company recognized a benefit of \$1.9 million and \$1.4 million, respectively, of share-based compensation expense related to the performance unit awards, which includes a benefit of \$2.3 million as a result of the forfeiture of unvested restricted shares related to the conversion of the performance units upon the resignation of the Company's President and Chief Executive Officer in May 2016. For the three and six months ended June 30, 2015, the Company recognized \$1.1 million and \$2.2 million, respectively, of share-based compensation expense related to the performance unit awards. As of June 30, 2016, there was \$2.9 million of total unrecognized compensation cost related to the performance unit awards and these costs are expected to be recognized over a weighted-average period of 3.3 years.

As of June 30, 2016, there were 4,099,523 common shares available for future grant under the 2015 Plan.

12. Earnings per Common Share

Basic earnings per common share is calculated by dividing net income attributable to common shareholders by the weighted-average number of common shares outstanding during the period excluding the weighted-average number of unvested restricted shares outstanding during the period. Diluted earnings per common share is calculated by dividing net income attributable to common shareholders by the weighted-average number of common shares outstanding during the period, plus any shares that could potentially be outstanding during the period. The potential shares consist of the unvested restricted share grants and unvested performance units, calculated using the treasury stock method. Any anti-dilutive shares have been excluded from the diluted earnings per share calculation.

Unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating shares and are considered in the computation of earnings per share pursuant to the two-class method. If there were any undistributed earnings allocable to participating shares, they would be deducted from net income attributable to common shareholders used in the basic and diluted earnings per share calculations.

For the three months ended June 30, 2016, approximately \$0.1 million represented the undistributed earnings that were allocable to participating shares. For the six months ended June 30, 2016, there was an insignificant amount of undistributed earnings that were allocable to participating shares. For the three and six months ended June 30, 2015, approximately \$0.1 million and \$0.1 million, respectively, represented the undistributed earnings that were allocable to participating shares.

The limited partners' outstanding limited partnership units in the Operating Partnership (which may be redeemed for common shares of beneficial interest under certain circumstances) have been excluded from the diluted earnings per share calculation as there was no effect on the amounts for the three and six months ended June 30, 2016 and 2015, since the limited partners' share of income would also be added back to net income attributable to common shareholders.

The following discussion and analysis should be read in conjunction with our consolidated financial statements and related notes included elsewhere in this report, as well as the information contained in our Annual Report on Form 10-K for the year ended December 31, 2015, filed with the SEC on February 25, 2016 (the "Annual Report"), which is accessible on the SEC's website at www.sec.gov.

Statement Regarding Forward-Looking Information

The following information contains certain statements, other than purely historical information, including estimates, projections, statements relating to our business plans, objectives and expected operating results, and the assumptions upon which those statements are based, that are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements generally are identified by the use of the words "believe," "project," "expect," "anticipate," "estimate," "plan," "may," "will," "will continue," "intend," "should," or similar expressions. Although we believe that the expectations reflected in such forward-looking statements are based upon reasonable assumptions, beliefs and expectations, such forward-looking statements are not predictions of future events or guarantees of future performance and our actual results could differ materially from those set forth in the forward-looking statements. Some factors that might cause such a difference include the following: the current global economic uncertainty, increased direct competition, changes in government regulations or accounting rules, changes in local, national and global real estate conditions, declines in the lodging industry, seasonality of the lodging industry, risks related to natural disasters, such as earthquakes and hurricanes, hostilities, including future terrorist attacks or fear of hostilities that affect travel, our ability to obtain lines of credit or permanent financing on satisfactory terms, changes in interest rates, access to capital through offerings of our common and preferred shares of beneficial interest, or debt, our ability to identify suitable acquisitions, our ability to close on identified acquisitions and integrate those businesses and inaccuracies of our accounting estimates. Given these uncertainties, undue reliance should not be placed on such statements.

Except as required by law, we undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise. We caution investors not to place undue reliance on these forward-looking statements and urge investors to carefully review the disclosures we make concerning risks and uncertainties in the sections entitled "Risk Factors," "Forward-Looking Statements," and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report, as well as risks, uncertainties and other factors discussed in this Quarterly Report on Form 10-Q and identified in other documents filed by us with the SEC.

Overview

We are a self-advised and self-administered Maryland real estate investment trust ("REIT") that acquires primarily premium-branded, focused-service and compact full-service hotels. We are one of the largest U.S. publicly-traded lodging REITs in terms of both number of hotels and number of rooms. Our hotels are concentrated in markets that we believe exhibit multiple demand generators and high barriers to entry. We believe premium-branded, focused-service and compact full-service hotels with these characteristics generate high levels of Revenue per Available Room ("RevPAR"), strong operating margins and attractive returns.

Our strategy is to acquire primarily premium-branded, focused-service and compact full-service hotels. Focused-service and compact full-service hotels typically generate most of their revenue from room rentals, have limited food and beverage outlets and meeting space, and require fewer employees than traditional full-service hotels. We believe premium-branded, focused-service and compact full-service hotels have the potential to generate attractive returns relative to other types of hotels due to their ability to achieve RevPAR levels at or close to those achieved by traditional full-service hotels while achieving higher profit margins due to their more efficient operating model and less volatile cash flows.

As we look at economic factors that could impact our business, we are seeing healthy consumer confidence despite soft corporate profits. The uncertain outlook for global economic growth and the strong dollar are expected to remain as macro headwinds. However, job creation has been positive since the beginning of the year and oil prices are beginning to show signs of stabilization. We remain hopeful that positive employment trends and an improving consumer balance sheet will continue to drive economic expansion in the U.S.

We are cautiously optimistic that the U.S. economy will continue to grow at a moderate rate and support positive RevPAR growth. Lodging demand remains close to record levels and while select markets are seeing new rooms supply, in aggregate, supply growth remains below historical averages. Accordingly, we remain cautiously optimistic that we will continue to see modest RevPAR growth in the upcoming quarters.

The increased macro uncertainty has affected the acquisition landscape. Since the beginning of the year, we have seen fewer acquisition opportunities that meet our investment profile. We will continue to be prudent and disciplined capital allocators and weigh all possible investment decisions against the highest and best returns for our shareholders long term. We believe that our cash on hand and expected access to capital (including availability under our Revolver) along with our senior management team's experience, extensive industry relationships and asset management expertise, will enable us to pursue investment opportunities that generate additional internal and external growth.

As of June 30, 2016, we owned 125 hotels with approximately 20,800 rooms, located in 21 states and the District of Columbia, and an interest in a mortgage loan secured by a hotel. We own, through wholly-owned subsidiaries, 100% of the interests in all properties, with the exception of one property in which we own a 98.3% controlling interest in a joint venture.

For U.S. federal income tax purposes, we elected to be taxed as a REIT commencing with our taxable year ended December 31, 2011. Substantially all of our assets are held by, and all of our operations are conducted through, our operating partnership RLJ Lodging Trust, L.P. (the "Operating Partnership"). We are the sole general partner of the Operating Partnership. As of June 30, 2016, we owned, through a combination of direct and indirect interests, 99.6% of the units of limited partnership in the Operating Partnership ("OP units").

Recent Significant Activities

Edgar Filing: RLJ Lodging Trust - Form 10-Q

Our recent significant activities reflect our commitment to creating long-term shareholder value through enhancing our portfolio's quality, recycling capital and maintaining a prudent capital structure. During the six months ended June 30, 2016, the following significant activities took place:

¶ In February 2016, we sold one hotel for a sale price of \$2.9 million;

¶ We refinanced over \$1.0 billion of debt as follows:

In March 2016, we refinanced our \$74.0 million secured loan from PNC Bank maturing in 2017. We took advantage of the improved performance of the underlying assets and upsized this loan to \$85.0 million. We also extended the maturity of this loan by six years and improved the overall pricing;

Table of Contents

In March 2016, we refinanced three Wells Fargo secured loans for a total of \$148.5 million. We extended the final maturities on these loans from 2020 to 2022 and improved the overall pricing;

In April 2016, we modified our \$400.0 million term loan initially due in 2018 and our Revolver by improving the financial covenants, extending the final maturities to 2021, and improving the overall pricing. We also lowered the unused commitment fee and we increased the borrowing capacity on the Revolver by \$100.0 million to \$400.0 million;

- We repurchased 0.6 million common shares for approximately \$13.3 million at an average per share price of \$21.73. Since we announced our share buyback program in 2015, we have repurchased approximately 8.7 million shares for nearly \$238.5 million. As of June 30, 2016, we had \$161.5 million of remaining capacity under the share buyback program; and

• We declared a cash dividend of \$0.33 per share for both the first and second quarters of 2016.

Our Customers

Substantially all of our hotels consist of premium-branded, focused-service and compact full-service hotels. As a result of this property profile, the majority of our customers are transient in nature. Transient business typically represents individual business or leisure travelers. The majority of our hotels are located in business districts within major metropolitan areas. Accordingly, business travelers represent the majority of the transient demand at our hotels. As a result, macroeconomic factors impacting business travel have a greater effect on our business than factors impacting leisure travel.

Group business is typically defined as a minimum of 10 guestrooms booked together as part of the same piece of business. Group business may or may not use the meeting space at any given hotel. Given the limited meeting space at the majority of our hotels, group business that utilizes meeting space represents a small component of our customer base.

A number of our hotels are affiliated with brands marketed toward extended-stay customers. Extended-stay customers are generally defined as those staying five nights or longer. Reasons for extended stays may include, but are not limited to, training and/or special project business, relocation, litigation and insurance claims.

Our Revenues and Expenses

Our revenue is primarily derived from hotel operations, including the sale of rooms, food and beverage revenue and other operating department revenue, which consists of telephone, parking and other guest services.

Our operating costs and expenses consist of the costs to provide hotel services, including room expense, food and beverage expense, management and franchise fees and other operating expenses. Room expense includes housekeeping and front office wages and payroll taxes, reservation systems, room supplies, laundry services and other costs. Food and beverage expense primarily includes the cost of food, the cost of beverages and associated labor costs. Other operating expenses include labor and other costs associated with the other operating department revenue, as well as labor and other costs associated with administrative departments, sales and marketing, repairs and maintenance and utility costs. Our hotels that are subject to franchise agreements are charged a royalty fee, plus additional fees for marketing, central reservation systems and other franchisor costs, in order for the properties to operate under the respective brands. Franchise fees are based on a percentage of room revenue and for certain hotels additional franchise fees are charged for food and beverage revenue. Our hotels are managed by independent, third-party management companies under long-term agreements under which the management companies typically earn base and incentive management fees based on the levels of revenues and profitability of each individual hotel. We generally receive a cash distribution from the hotel management companies on a monthly basis, which reflects hotel-level sales less hotel-level operating expenses.

Key Indicators of Financial Performance

We use a variety of operating, financial and other information to evaluate the operating performance of our business. These key indicators include financial information that is prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") as well as other financial measures that are non-GAAP measures. In addition, we use other information that may not be financial in nature, including industry standard statistical information and comparative data. We use this information to measure the operating performance of our individual hotels, groups of hotels and/or business as a whole. We also use these metrics to evaluate the hotels in our portfolio and potential acquisition opportunities to determine each hotel's contribution to cash flow and its potential to provide attractive long-term total returns. These key indicators include:

Occupancy

Average Daily Rate ("ADR")

RevPAR

Occupancy, ADR and RevPAR are commonly used measures within the lodging industry to evaluate operating performance. RevPAR is an important statistic for monitoring operating performance at the individual hotel level and across our entire business. We evaluate individual hotel RevPAR performance on an absolute basis with comparisons to budget and prior periods, as well as on a regional and company-wide basis. ADR and RevPAR include only room revenue.

We also use non-GAAP measures such as FFO, Adjusted FFO, EBITDA and Adjusted EBITDA to evaluate the operating performance of our business. See "Non-GAAP Financial Measures."

Critical Accounting Policies

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of our financial statements and the reported amounts of revenues and expenses during the reporting period. It is possible that the actual amounts may differ significantly from these estimates and assumptions. We evaluate our estimates, assumptions and judgments on an ongoing basis, based on information that is available to us, our business and industry experience, and various other matters that we believe are reasonable and appropriate for consideration under the circumstances. Our Annual Report on Form 10-K for the year ended December 31, 2015 contains a discussion of our critical accounting policies. There have been no significant changes to our critical accounting policies since December 31, 2015.

Results of Operations

At each of June 30, 2016 and 2015, we owned 125 hotel properties. Based on when a hotel property is acquired, sold or closed for renovation, the operating results for certain hotel properties are not comparable for the three and six months ended June 30, 2016 and 2015. The non-comparable hotel properties include three acquisitions that were completed between January 1, 2015 and June 30, 2016, 24 dispositions that were completed between January 1, 2015 and June 30, 2016, and two hotel properties that were closed for renovations during all or a portion of the period between January 1, 2015 and June 30, 2016.

Revenue

Total revenue increased \$15.9 million, or 5.3%, to \$317.1 million for the three months ended June 30, 2016 from \$301.3 million for the three months ended June 30, 2015. The increase was the result of a \$14.8 million increase in room revenue, a \$0.5 million increase in food and beverage revenue and a \$0.6 million increase in other operating department revenue.

Room Revenue

Our portfolio consists primarily of focused-service and compact full-service hotels that generate the majority of their revenues through room sales. Room revenue increased \$14.8 million, or 5.6%, to \$277.0 million for the three months ended June 30, 2016 from \$262.2 million for the three months ended June 30, 2015. The increase was the result of a \$9.6 million increase in room revenue attributable to the non-comparable properties and a \$5.2 million increase in room revenue attributable to the comparable properties. The increase in room revenue from the comparable properties was attributable to a 2.0% increase in RevPAR, led by RevPAR increases in our Northern California, Louisville and Southern California markets of 9.6%, 7.8%, and 7.2%, respectively, which were partially offset by RevPAR decreases in our Houston and Chicago markets of 10.5% and 7.0%, respectively.

The following are the quarter-to-date key hotel operating statistics for the comparable properties owned at June 30, 2016 and 2015, respectively:

	For the three months ended June 30,				% Change	
	2016		2015			
Number of comparable properties (at end of period)	120		120		—	
Occupancy	83.2	%	83.0	%	0.2	%
ADR	\$174.30		\$171.35		1.7	%
RevPAR	\$145.03		\$142.20		2.0	%

Food and Beverage Revenue

Food and beverage revenue increased \$0.5 million, or 1.6%, to \$30.0 million for the three months ended June 30, 2016 from \$29.6 million for the three months ended June 30, 2015. The increase was a result of a \$0.5 million increase in food and beverage revenue attributable to the comparable properties.

Other Operating Department Revenue

Other operating department revenue, which includes revenue derived from ancillary sources such as telephone charges and parking fees, increased \$0.6 million, or 6.4%, to \$10.0 million for the three months ended June 30, 2016 from \$9.4 million for the three months ended June 30, 2015. The increase was due to a \$0.4 million increase in other operating department revenue attributable to the non-comparable properties and a \$0.2 million increase in other operating department revenue attributable to the comparable properties.

Property Operating Expense

Property operating expense increased \$7.7 million, or 4.6%, to \$174.3 million for the three months ended June 30, 2016 from \$166.6 million for the three months ended June 30, 2015. The increase includes a \$3.7 million increase in property operating expense attributable to the non-comparable properties and a \$4.0 million increase in property operating expense attributable to the comparable properties. The increase in property operating expense attributable to

comparable properties was related to higher room expense, other operating department costs, and management and franchise fees. Room expense, food and beverage expense and other operating department costs fluctuate based on various factors, including changes in occupancy, labor costs, utilities and insurance costs. Management fees and franchise fees, which are computed as a percentage of gross revenue and room revenue, respectively, increased as a result of higher revenues.

Depreciation and Amortization

Depreciation and amortization expense increased \$3.0 million, or 8.1%, to \$40.8 million for the three months ended June 30, 2016 from \$37.8 million for the three months ended June 30, 2015. The increase includes a \$2.3 million increase in

Table of Contents

depreciation and amortization expense attributable to the non-comparable properties and additional depreciation expense of \$0.7 million as a result of capital expenditures to improve our comparable properties.

Property Tax, Insurance and Other

Property tax, insurance and other expense increased \$1.0 million, or 5.6%, to \$19.3 million for the three months ended June 30, 2016 from \$18.3 million for the three months ended June 30, 2015. The increase includes a \$0.6 million increase in property tax, insurance and other expense attributable to the non-comparable properties and a \$0.4 million increase in property tax, insurance and other expense attributable to the comparable properties.

General and Administrative

General and administrative expense decreased \$3.7 million, or 35.9%, to \$6.7 million for the three months ended June 30, 2016 from \$10.4 million for the three months ended June 30, 2015. The decrease in general and administrative expense is primarily attributable to a decrease in the amortization of restricted share awards and performance units of \$4.3 million, partially offset by a net increase of \$0.6 million in other general and administrative costs, including legal fees and other professional fees and costs. The decrease in the amortization of restricted share awards and performance units was attributable to the forfeiture of restricted shares upon the resignation of the Company's President and Chief Executive Officer in May 2016.

Interest Expense

The components of our interest expense for the three months ended June 30, 2016 and 2015 were as follows (in thousands):

	For the three months ended June 30,		\$	%	
	2016	2015	Change	Change	
Mortgage indebtedness	\$3,963	\$3,673	\$ 290	7.9	%
Revolver and Term Loans	9,617	8,294	1,323	16.0	%
Amortization of deferred financing costs	1,209	1,024	185	18.1	%
Capitalized interest	—	(656)) 656	(100.0)	%
Total interest expense	\$14,789	\$12,335	\$ 2,454	19.9	%

Interest expense increased \$2.5 million, or 19.9%, to \$14.8 million for the three months ended June 30, 2016 from \$12.3 million for the three months ended June 30, 2015. The increase in interest expense from mortgage indebtedness was due to an increase in the aggregate principal balance outstanding as a result of additional borrowing, partially offset by principal payments on the mortgage loans. The increase in interest expense from the Revolver and Term Loans was due to the entry into new interest rate swaps and additional borrowings on the Revolver and Term Loans. The increase in amortization of deferred financing costs was related to the accelerated amortization from debt refinancing transactions and additional amortization from the capitalized costs associated with those transactions. The decrease in capitalized interest was due to two major redevelopment projects that were in process during the second quarter of 2015 and were completed in the third quarter of 2015. There were no major redevelopment projects underway during the three months ended June 30, 2016.

Income Taxes

As part of our structure, we own taxable REIT subsidiaries ("TRS") that are subject to federal and state income taxes. The effective tax rates were 4.1% and 0.2% for the three months ended June 30, 2016 and 2015, respectively. Our tax expense increased \$2.4 million to \$2.5 million for the three months ended June 30, 2016 from \$0.1 million for the three months ended June 30, 2015. The increase was due to deferred tax expense arising from the utilization of net operating losses ("NOL") carryforwards during the three months ended June 30, 2016. For the three months ended June 30, 2015, the utilization of NOLs was offset by a release of the corresponding valuation allowance, resulting in no net deferred tax expense. During the fourth quarter of 2015, we fully released the remaining valuation allowance against the NOLs. As a result of the full valuation allowance release, the utilization of the NOLs without an offsetting release of the valuation allowance during the three months ended June 30, 2016 resulted in deferred tax expense of \$1.9 million during the period.

Revenue

Total revenue increased \$20.6 million, or 3.6%, to \$592.3 million for the six months ended June 30, 2016 from \$571.7 million for the six months ended June 30, 2015. The increase was a result of a \$21.8 million increase in room revenue and a \$0.8 million increase in other operating department revenue, partially offset by a \$2.0 million decrease in food and beverage revenue.

Room Revenue

Room revenue increased \$21.8 million, or 4.4%, to \$516.6 million for the six months ended June 30, 2016 from \$494.8 million for the six months ended June 30, 2015. This increase was the result of a \$11.5 million increase in room revenue attributable to the comparable properties and a \$10.3 million increase in room revenue attributable to the non-comparable properties. The increase in room revenue from the comparable properties was attributable to a 1.8% increase in RevPAR, led by RevPAR increases in our Northern California, Southern California and Louisville markets of 17.8%, 9.4% and 6.1%, respectively, which were partially offset by RevPAR decreases in our Chicago and Houston markets of 9.2% and 9.0%, respectively.

The following are the year-to-date key hotel operating statistics for the comparable properties owned at June 30, 2016 and 2015, respectively:

	For the six months ended June 30,		% Change	
	2016	2015	—	—
Number of comparable properties (at end of period)	120	120	—	—
Occupancy	79.5 %	79.5 %	—	—
ADR	\$169.96	\$166.95	1.8	%
RevPAR	\$135.09	\$132.67	1.8	%

Food and Beverage Revenue

Food and beverage revenue decreased \$2.0 million, or 3.4%, to \$56.6 million for the six months ended June 30, 2016 from \$58.6 million for the six months ended June 30, 2015. The decrease was a result of a \$1.1 million decrease in food and beverage revenue attributable to the comparable properties and a \$0.9 million decrease in food and beverage revenue attributable to the non-comparable properties.

Other Operating Department Revenue

Other operating department revenue, which includes revenue derived from ancillary sources such as telephone charges and parking fees, increased \$0.8 million, or 4.7%, to \$19.1 million for the six months ended June 30, 2016 from \$18.3 million for the six months ended June 30, 2015. The increase was due to a \$0.6 million increase in other operating department revenue attributable to the non-comparable properties and a \$0.2 million increase in other operating department revenue attributable to the comparable properties.

Property Operating Expense

Property operating expense increased \$7.6 million, or 2.3%, to \$337.7 million for the six months ended June 30, 2016 from \$330.1 million for the six months ended June 30, 2015. The increase includes a \$7.0 million increase in property operating expense attributable to the comparable properties and a \$0.6 million increase in property operating expense attributable to the non-comparable properties. The increase in property operating expense attributable to the

comparable properties was related to higher room expense, food and beverage expense, other operating department costs, and management and franchise fees. Room expense, food and beverage expense and other operating department costs fluctuate based on various factors, including changes in occupancy, labor costs, utilities and insurance costs. Management fees and franchise fees, which are computed as a percentage of gross revenue and room revenue, respectively, increased as a result of higher revenues.

Depreciation and Amortization

Depreciation and amortization expense increased \$6.6 million, or 8.8%, to \$81.6 million for the six months ended June 30, 2016 from \$75.0 million for the six months ended June 30, 2015. The increase includes a \$4.6 million increase in

Table of Contents

depreciation and amortization expense attributable to the non-comparable properties and additional depreciation expense of \$2.0 million as a result of capital expenditures to improve our comparable properties.

Property Tax, Insurance and Other

Property tax, insurance and other expense increased \$1.1 million, or 3.0%, to \$39.5 million for the six months ended June 30, 2016 from \$38.3 million for the six months ended June 30, 2015. The increase includes a \$0.7 million increase in property tax, insurance and other expense attributable to the non-comparable properties and a \$0.5 million increase in property tax, insurance and other expense attributable to the comparable properties.

General and Administrative

General and administrative expense decreased \$4.5 million, or 21.6%, to \$16.3 million for the six months ended June 30, 2016 from \$20.8 million for the six months ended June 30, 2015. The decrease in general and administrative expense is primarily attributable to a decrease in the amortization of restricted share awards and performance units of \$5.8 million, partially offset by a net increase of \$1.3 million in other general and administrative costs, including legal fees and other professional fees and costs. The decrease in the amortization of restricted share awards and performance units was attributable to the forfeiture of restricted shares upon the resignation of the Company's President and Chief Executive Officer in May 2016.

Interest Expense

The components of our interest expense for the six months ended June 30, 2016 and 2015 were as follows (in thousands):

	For the six months ended June 30,		\$	%	
	2016	2015	Change	Change	
Mortgage indebtedness	\$7,983	\$8,836	\$(853)	(9.7)	%
Revolver and Term Loans	19,476	16,183	3,293	20.4	%
Amortization of deferred financing costs	2,222	2,056	166	8.1	%
Capitalized interest	—	(1,232)	1,232	(100.0)	%
Total interest expense	\$29,681	\$25,843	\$3,838	14.9	%

Interest expense increased \$3.9 million, or 14.9%, to \$29.7 million for the six months ended June 30, 2016 from \$25.8 million for the six months ended June 30, 2015. The decrease in interest expense from mortgage indebtedness was due to a decrease in the principal balances outstanding as a result of principal payments on the mortgage loans. The increase in interest expense from the Revolver and Term Loans was due to the entry into new interest rate swaps and additional borrowings on the Revolver and Term Loans. The increase in amortization of deferred financing costs was related to accelerated amortization from debt refinancing transactions and additional amortization from the capitalized costs associated with those transactions. The decrease in capitalized interest was due to two major redevelopment projects that were in process during the six months ended June 30, 2015 and were completed in the third quarter of 2015. There were no major redevelopment projects underway during the six months ended June 30, 2016.

Income Taxes

The effective tax rates were 4.5% and 0.4% for the six months ended June 30, 2016 and 2015, respectively. Our tax expense increased \$3.5 million to \$4.0 million for the six months ended June 30, 2016 from \$0.5 million for the six months ended June 30, 2015. The increase was due to deferred tax expense arising from the utilization of NOL

carryforwards during the six months ended June 30, 2016. For the six months ended June 30, 2015, the utilization of NOLs was offset by a release of the corresponding valuation allowance, resulting in no net deferred tax expense. During the fourth quarter of 2015, we fully released the remaining valuation allowance against the NOLs. As a result of the full valuation allowance release, the utilization of the NOLs without an offsetting release of the valuation allowance during the six months ended June 30, 2016 resulted in deferred tax expense of \$3.0 million during the period.

Non-GAAP Financial Measures

We consider the following non-GAAP financial measures useful to investors as key supplemental measures of our performance: (1) FFO, (2) Adjusted FFO, (3) EBITDA, and (4) Adjusted EBITDA. These non-GAAP financial measures should be considered along with, but not as alternatives to, net income or loss as a measure of our operating performance. FFO, Adjusted FFO, EBITDA and Adjusted EBITDA, as calculated by us, may not be comparable to FFO, Adjusted FFO, EBITDA and Adjusted EBITDA as reported by other companies that do not define such terms exactly as we define such terms.

Funds From Operations

We calculate funds from operations ("FFO") in accordance with standards established by the National Association of Real Estate Investment Trusts ("NAREIT") which defines FFO as net income or loss (calculated in accordance with GAAP), excluding gains or losses from sales of real estate, impairment, the cumulative effect of changes in accounting principles, plus depreciation and amortization, and adjustments for unconsolidated partnerships and joint ventures. Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, most real estate industry investors consider FFO to be helpful in evaluating a real estate company's operations. We believe that the presentation of FFO provides useful information to investors regarding our operating performance and can facilitate comparisons of operating performance between periods and between REITs, even though FFO does not represent an amount that accrues directly to common shareholders. Our calculation of FFO may not be comparable to measures calculated by other companies who do not use the NAREIT definition of FFO or do not calculate FFO per diluted share in accordance with NAREIT guidance. Additionally, FFO may not be helpful when comparing us to non-REITs. We present FFO attributable to common shareholders, which includes our OP units, because our OP units may be redeemed for common shares. We believe it is meaningful for the investor to understand FFO attributable to all common shares and OP units.

We further adjust FFO for certain additional items that are not in NAREIT's definition of FFO, such as hotel transaction and pursuit costs, non-cash income tax expense or benefit, the amortization of share-based compensation, and certain other expenses that we consider outside the normal course of business. We believe that Adjusted FFO provides useful supplemental information to investors regarding our ongoing operating performance that, when considered with net income and FFO, is beneficial to an investor's understanding of our operating performance.

The following is a reconciliation of our GAAP net income to FFO attributable to common shareholders and unitholders and Adjusted FFO attributable to common shareholders and unitholders for the three and six months ended June 30, 2016 and 2015 (in thousands):

Earnings Before Interest, Taxes, Depreciation and Amortization

Earnings before interest, taxes, depreciation and amortization ("EBITDA") is defined as net income or loss excluding: (1) interest expense; (2) provision for income taxes, including income taxes applicable to sales of assets; and (3) depreciation and amortization. We consider EBITDA useful to an investor in evaluating and facilitating comparisons of our operating performance between periods and between REITs by removing the impact of our capital structure (primarily interest expense) and asset base (primarily depreciation and amortization) from our operating results. In addition, EBITDA is used as one measure in determining the value of hotel acquisitions and disposals. We present EBITDA attributable to common shareholders, which includes our OP units, because our OP units may be redeemed for common shares. We believe it is meaningful for the investor to understand EBITDA attributable to all common shares and OP units.

We further adjust EBITDA for certain additional items such as gains or losses on dispositions, hotel transaction and pursuit costs, impairment losses, the amortization of share-based compensation, and certain other expenses that we consider outside the normal course of business. We believe that Adjusted EBITDA provides useful supplemental information to investors regarding our ongoing operating performance that, when considered with net income and EBITDA, is beneficial to an investor's understanding of our operating performance.

The following is a reconciliation of our GAAP net income to EBITDA attributable to common shareholders and unitholders and Adjusted EBITDA attributable to common shareholders and unitholders for the three and six months ended June 30, 2016 and 2015 (in thousands):

Liquidity and Capital Resources

Edgar Filing: RLJ Lodging Trust - Form 10-Q

Our short-term liquidity requirements consist primarily of funds necessary to pay for operating expenses and other expenditures directly associated with our hotel properties, including:

- recurring maintenance and capital expenditures necessary to maintain our hotel properties in accordance with brand standards;

- interest expense and scheduled principal payments on outstanding indebtedness; and

Table of Contents

distributions necessary to qualify for taxation as a REIT.

We expect to meet our short-term liquidity requirements generally through net cash provided by operations, existing cash balances and, if necessary, short-term borrowings under our Revolver, of which \$400.0 million was available at June 30, 2016, or proceeds from public offerings of common shares.

Our long-term liquidity requirements consist primarily of funds necessary to pay for the costs of acquiring additional properties and redevelopments, renovations, expansions and other capital expenditures that need to be made periodically with respect to our hotel properties and scheduled debt payments, at maturity or otherwise. We expect to meet our long-term liquidity requirements through various sources of capital, including our Revolver and future equity (including OP units) or debt offerings, existing working capital, net cash provided by operations, long-term hotel mortgage indebtedness and other secured and unsecured borrowings.

Sources and Uses of Cash

As of June 30, 2016, we had \$160.1 million of cash and cash equivalents as compared to \$134.2 million at December 31, 2015.

Cash flows from Operating Activities

Net cash flow provided by operating activities totaled \$164.2 million and \$145.9 million for the six months ended June 30, 2016 and 2015, respectively. Our cash flows provided by operating activities generally consist of the net cash generated by our hotel operations, partially offset by the cash paid for corporate expenses and other working capital changes. Refer to the "Results of Operations" for further discussion of our operating results for the six months ended June 30, 2016.

Cash flows from Investing Activities

Net cash flow used in investing activities totaled \$44.7 million for the six months ended June 30, 2016 primarily due to \$41.3 million in routine capital improvements and additions to hotel properties and the net funding of the restricted cash reserves of \$5.8 million. The net cash flow used in investing activities was partially offset by \$2.6 million of net proceeds from the sale of one property.

Net cash flow provided by investing activities totaled \$159.0 million for the six months ended June 30, 2015 primarily due to \$227.8 million of net proceeds from the sale of 21 properties and a net decrease in the restricted cash reserves of \$3.1 million. The net cash flow provided by investing activities was partially offset by \$47.3 million in routine capital improvements and additions to the hotel properties, \$17.4 million related to two major redevelopment projects and \$7.0 million of purchase deposits paid.

Cash flows from Financing Activities

Net cash flow used in financing activities totaled \$93.6 million for the six months ended June 30, 2016 primarily due to \$82.8 million in distributions to shareholders and unitholders, \$13.3 million paid to repurchase common shares under a share repurchase program, and \$5.3 million in deferred financing cost payments. The net cash flow used in financing activities was partially offset by \$11.0 million in additional mortgage loan debt.

Net cash flow used in financing activities totaled \$303.5 million for the six months ended June 30, 2015 primarily due to \$155.8 million in payments of mortgage loans principal, \$83.8 million in distributions to shareholders and unitholders, \$59.8 million paid to repurchase common shares under a share repurchase program, and \$3.8 million paid

to repurchase common shares to satisfy employee statutory minimum federal and state tax obligations of certain employees in connection with the vesting of restricted common shares issued to such employees under our 2015 Equity Incentive Plan.

Capital Expenditures and Reserve Funds

We maintain each of our hotel properties in good repair and condition and in conformity with applicable laws and regulations, franchise agreements and management agreements. The cost of all such routine improvements and alterations are paid out of furniture, fixtures and equipment ("FF&E") reserves, which are funded by a portion of each property's gross revenues. Routine capital expenditures are administered by the property management companies. However, we have approval rights over the capital expenditures as part of the annual budget process for each of our hotel properties.

Table of Contents

From time to time, certain of our hotels may undergo renovations as a result of our decision to upgrade portions of the hotels, such as guestrooms, public space, meeting space, and/or restaurants, in order to better compete with other hotels and alternative lodging options in our markets. In addition, upon acquisition of a hotel we often are required to complete a property improvement plan in order to bring the hotel up to the respective franchisor's standards. If permitted by the terms of the management agreement, funding for a renovation will first come from the FF&E reserves. To the extent that the FF&E reserves are not available or sufficient to cover the cost of the renovation, we will fund all or the remaining portion of the renovation with cash and cash equivalents on hand, our Revolver, and/or other sources of available liquidity.

With respect to some of our hotels that are operated under franchise agreements with major national hotel brands and for some of our hotels subject to first mortgage liens, we are obligated to maintain FF&E reserve accounts for future capital expenditures at these hotels. The amount funded into each of these reserve accounts is generally determined pursuant to the management agreements, franchise agreements and/or mortgage loan documents for each of the respective hotels, and typically ranges between 3.0% and 5.0% of the respective hotel's total gross revenue. As of June 30, 2016, approximately \$61.1 million was held in FF&E reserve accounts for future capital expenditures.

Off-Balance Sheet Arrangements

As of June 30, 2016, we had no off-balance sheet arrangements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Market risk includes the risks that arise from changes in interest rates, equity prices and other market changes that affect market sensitive instruments. Our primary market risk exposure is to changes in interest rates on our variable rate debt. As of June 30, 2016, we had approximately \$1.6 billion of total variable rate debt outstanding (or 97.9% of total indebtedness) with a weighted-average interest rate of 3.26% per annum. After taking into consideration the effect of interest rate swaps, \$142.0 million (or 8.9% of total indebtedness) was subject to variable rates. If market interest rates on our variable rate debt outstanding as of June 30, 2016 were to increase by 1.00%, or 100 basis points, interest expense would decrease future earnings and cash flows by approximately \$1.4 million annually, taking into account our existing contractual hedging arrangements.

Our interest rate risk objectives are to limit the impact of interest rate fluctuations on earnings and cash flows and to lower our overall borrowing costs. To achieve these objectives, we manage our exposure to fluctuations in market interest rates through the use of fixed rate debt instruments to the extent that reasonably favorable rates are obtainable. We have entered into derivative financial instruments such as interest rate swaps to mitigate our interest rate risk or to effectively lock the interest rate on a portion of our variable rate debt. We do not enter into derivative or interest rate transactions for speculative purposes.

The following table provides information about our financial instruments that are sensitive to changes in interest rates. For debt obligations outstanding as of June 30, 2016, the following table presents principal repayments and related weighted-average interest rates by contractual maturity dates (in thousands):

	2016	2017	2018	2019	2020	Thereafter	Total
Fixed rate debt (1)(2)	\$234	\$594	\$626	\$660	\$691	\$30,123	\$32,928
Weighted-average interest rate	5.25 %	5.25 %	5.25 %	5.25 %	5.25 %	5.25 %	5.25 %
Variable rate debt (2)	\$1,500	\$153,000	\$143,250	\$625,000	\$—	\$635,000	\$1,557,750
Weighted-average interest rate (3)	4.04 %	4.00 %	4.04 %	3.19 %	— %	2.98 %	3.26 %
Total	\$1,734	\$153,594	\$143,876	\$625,660	\$691	\$665,123	\$1,590,678

Edgar Filing: RLJ Lodging Trust - Form 10-Q

- (1) Excludes \$1.1 million related to a fair value adjustment of \$1.3 million on mortgage debt assumed in conjunction with an acquisition, net of accumulated amortization of \$0.2 million.
- (2) Excludes \$6.6 million and \$2.0 million of net deferred financing costs on the Term Loans and mortgage loans, respectively.
- (3) The weighted-average interest rate gives effect to interest rate swaps, as applicable.

Our ultimate realized gain or loss with respect to interest rate fluctuations will depend on the exposures that arise during future periods, prevailing interest rates, and our hedging strategies at that time.

Table of Contents

Changes in market interest rates on our fixed rate debt impact the fair value of our debt, but such changes have no impact on our consolidated financial statements. As of June 30, 2016, the estimated fair value of our fixed rate debt was \$34.7 million, which is based on having the same debt service requirements that could have been borrowed at the date presented, at prevailing current market interest rates. If interest rates were to rise by 1.00%, or 100 basis points, and our fixed rate debt balance remains constant, we expect the fair value of our debt to decrease by approximately \$1.7 million.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

In accordance with Rule 13a-15(b) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the Company's management, under the supervision and participation of the Company's Chief Executive Officer and the Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of the end of the period covered by this report. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of June 30, 2016.

Changes in Internal Control over Financial Reporting

There have been no changes in the Company's internal control over financial reporting (as defined in Rule 13a-15 and 15d-15 of the Exchange Act) during the period ended June 30, 2016 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

The nature of the operations of our hotels exposes our hotels, the Company and the Operating Partnership to the risk of claims and litigation in the normal course of their business. Other than routine litigation arising out of the ordinary course of business, the Company is not presently subject to any material litigation nor, to the Company's knowledge, is any material litigation threatened against the Company.

Item 1A. Risk Factors.

For a discussion of our potential risks and uncertainties, see the information under the heading "Risk Factors" in the Annual Report which is accessible on the SEC's website at www.sec.gov. There have been no material changes to the risk factors previously disclosed in the Annual Report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Unregistered Sales of Equity Securities

Except as set forth below, the Company did not sell any securities during the quarter ended June 30, 2016 that were not registered under the Securities Act of 1933, as amended (the "Securities Act").

Issuer Purchases of Equity Securities

During the six months ended June 30, 2016, the Company repurchased and retired 610,607 of its common shares for approximately \$13.3 million in connection with its share repurchase program.

During the six months ended June 30, 2016, certain of our employees surrendered common shares owned by them to satisfy their statutory minimum federal and state tax obligations associated with the vesting of restricted common shares of beneficial interest issued under the 2015 Plan.

Table of Contents

The following table summarizes all of the share repurchases during the six months ended June 30, 2016:
