FLUX TECHNOLOGIES, CORP.
(A DEVELOPMENT STAGE COMPANY)
NOTES TO THE FINANCIAL STATEMENTS
AUGUST 31, 2012

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Description of Business

Flux Technologies, Corp. (the Company) was incorporated under the laws of the State of Nevada, U.S. on December 15, 2011. The Company is in the development stage as defined under Statement on Financial Accounting Standards Accounting Standards Codification FASB ASC 915-205 "Development-Stage Entities. Since inception through August 31, 2012 the Company has accumulated losses of \$20,685.

Going Concern

The financial statements have been prepared on a going concern basis which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred losses since inception resulting in an accumulated deficit of \$20,685 as of August 31, 2012 and further losses are anticipated in the development of its business raising substantial doubt about the Company's ability to continue as a going concern. The ability to continue as a going concern is dependent upon the Company generating profitable operations in the future and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management intends to finance operating costs over the next twelve months with existing cash on hand and loans from directors and/or private placement of common stock.

Cash and Cash Equivalents

The Company considers all highly liquid instruments purchased with a maturity of three months or less to be cash equivalents to the extent the funds are not being held for investment purposes.

The Company's bank accounts are deposited in insured institutions. The funds are insured up to \$250,000. At August 31, 2012 the Company's bank deposits did not exceed the insured amounts.

Basic Income (Loss) Per Share

The Company computes loss per share in accordance with ASC-260 , Earnings per Share which requires presentation of both basic and diluted earnings per share on the face of the statement of operations. Basic loss per share is computed by dividing net loss available to common shareholders by the weighted average number of outstanding common shares during the period. Diluted loss per share gives effect to all dilutive potential common shares outstanding during the period. Dilutive loss per share excludes all potential common shares if their effect is anti-dilutive.

Dividends

The Company has not adopted any policy regarding payment of dividends. No dividends have been paid during any of the periods shown.

Income Taxes

The Company follows the liability method of accounting for income taxes. Under this method, deferred income tax assets and liabilities are recognized for the estimated tax consequences attributable to differences between the financial statement carrying values and their respective income tax basis (temporary differences). The effect on deferred income tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Advertising Costs

The Company's policy regarding advertising is to expense advertising when incurred. The Company incurred advertising expense of \$0 during three months period ended August 31, 2012.

Accounting Basis

The Company uses the accrual basis of accounting and accounting principles generally accepted in the United States of America (GAAP accounting). The Company has adopted February 29 fiscal year end.

Impairment of Long-Lived Assets

The Company continually monitors events and changes in circumstances that could indicate carrying amounts of long-lived assets may not be recoverable. When such events or changes in circumstances are present, the Company assesses the recoverability of long-lived assets by determining whether the carrying value of such assets will be recovered through undiscounted expected future cash flows. If the total of the future cash flows is less than the carrying amount of those assets, the Company recognizes an impairment loss based on the excess of the carrying amount over the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or the fair value less costs to sell.

Recent accounting pronouncements

We have reviewed all the recent accounting pronouncements issued to date of the issuance of these financial statements, and we do not believe any of these pronouncements will have a material impact on the company.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Stock-Based Compensation

As of August 31, 2012 the Company has not issued any stock-based payments to its employees. Stock-based compensation is accounted for at fair value in accordance with ASC 718. To date, the Company has not adopted a stock option plan and has not granted any stock options.

Revenue Recognition

The Company will recognize revenue when products are fully delivered or services have been provided and collection is reasonably assured.

NOTE 2 COMMON STOCK

The Company has 75,000,000 common shares authorized with a par value of \$ 0.001 per share. On January 18, 2012, the Company issued 3,000,000 shares of its common stock at \$0.001 per share for total proceeds of \$3,000. For the period from January 24, 2012 to February 14, 2012, the Company issued 720,000 shares of its common stock at \$0.02 per share for total proceeds of \$14,400. For the period from February 21, 2012 to February 29, 2012, the Company issued 160,000 shares of its common stock at \$0.03 per share for total proceeds of \$4,800.

During the period December 15, 2011 (inception) to February 29, 2012, the Company sold a total of 3,880,000 shares of common stock for total cash proceeds of \$22,200.

NOTE 3 INCOME TAXES

As of August 31, 2012 the Company had net operating loss carry forwards of \$21,935 that may be available to reduce future years taxable income through 2032. Future tax benefits which may arise as a result of these losses have not been recognized in these financial statements, as their realization is determined not likely to occur and accordingly, the Company has recorded a valuation allowance for the deferred tax asset relating to these tax loss carry-forwards.

NOTE 4 RELATED PARTY TRANSACTIONS

On January 18, 2012, the Company sold 3,000,000 shares of common stock at a price of \$0.001 per share to its director.

On August 6, 2012, the Director loaned \$4,975 to the Company to pay for business expenses. This loan is non-interest bearing, due upon demand and unsecured. The director also paid an \$1,250 accounting invoice with a personal credit card.

NOTE 5 SUBSEQUENT EVENTS

The Company has evaluated subsequent events from August 31, 2012 to the date the financial statements were issued and has determined that there are no items to disclose.

FORWARD LOOKING STATEMENTS

Statements made in this Form 10-Q that are not historical or current facts are "forward-looking statements" made pursuant to the safe harbor provisions of Section 27A of the Securities Act of 1933 (the "Act") and Section 21E of the

Securities Exchange Act of 1934. These statements often can be identified by the use of terms such as "may," "will," "expect," "believe," "anticipate," "estimate," "approximate" or "continue," or the negative thereof. We intend that such forward-looking statements be subject to the safe harbors for such statements. We wish to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. Any forward-looking statements represent management's best judgment as to what may occur in the future. However, forward-looking statements are subject to risks, uncertainties and important factors beyond our control that could cause actual results and events to differ materially from historical results of operations and events and those presently anticipated or projected. We disclaim any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statement or to reflect the occurrence of anticipated or unanticipated events.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

GENERAL

FLUX TECHNOLOGIES, CORP. (FLUX , "the Company", our or "we") was incorporated under the laws of the State of Nevada on December 15, 2011. Our registration statement has been filed with the Securities and Exchange Commission on April 6, 2012 and has been declared effective on June 15, 2012.

CURRENT BUSINESS OPERATIONS

Flux Technologies, Corp. is a Poland based corporation that operates a three-dimensional (3D) computer animation business in Poland.

We are a development stage company and we have just recently started our operations. To date, our business operations have been limited to primarily, the development of a business plan, the completion of private placements for the offer and sale of our common stock, discussing the offers of 3D animation services with potential customers, and the signing of the service agreement with Paliwa Spółka z o. o., a private Polish company. The value of an executed agreement is \$4,900. As of August 31, 2012 the revenue of \$4,900 was recognized pursuant to the signed service agreement.

RESULTS OF OPERATION

We are a development stage company with limited operations since our inception on December 15, 2011 to August 31, 2012. As of August 31, 2012, we had total assets of \$7,740 and total liabilities of \$7,475. Since our inception to August 31, 2012, we have accumulated a deficit of \$21,935. We anticipate that we will continue to incur substantial losses in the next 12 months. Our financial statements have been prepared assuming that we will continue as a going concern. We expect we will require additional capital to meet our long term operating requirements. We expect to raise additional capital through, among other things, the sale of equity or debt securities.

Six Month Period Ended August 31, 2012 Compared to the period from Inception (December 15, 2011) to August 31, 2012

Edgar Filing: Flux Technologies, Corp. - Form 10-Q

Our net loss for the six month period ended August 31, 2012 was \$17,223 compared to a net loss of \$21,935 during the period from inception (December 15, 2011) to August 31, 2012. During the six month period ended August 31, 2012, we generated revenues of \$4,900.

During the six month period ended August 31, 2012, we incurred general and administrative expenses and professional fees of \$17,123 compared to \$17,835 incurred during the period from inception (December 15, 2011) to August 31, 2012. General and administrative and professional fee expenses incurred during the six month period ended August 31, 2012 were generally related to corporate overhead, financial and administrative contracted services, such as legal and accounting, developmental costs, and marketing expenses.

The weighted average number of shares outstanding was 3,880,000 for the six month period ended August 31, 2012.

LIQUIDITY AND CAPITAL RESOURCES

As of August 31, 2012

As at August 31, 2012 our current assets were \$7,740 compared to \$21,488 in current assets at February 29, 2012. As at August 31, 2012, our current liabilities were \$7,475.

Stockholders' equity decreased from \$17,488 as of February 29, 2012 to \$265 as of August 31, 2012.

Cash Flows from Operating Activities

We have not generated positive cash flows from operating activities. For the six month period ended August 31, 2012, net cash flows used in operating activities was \$25,473. Net cash flows used in operating activities was \$26,185 for the period from inception (December 15, 2011) to August 31, 2012.

Cash Flows from Financing Activities

We have financed our operations primarily from either advancements or the issuance of equity and debt instruments. For the six month period ended August 31, 2012, we did not generate net cash flows from financing activities. For the period from inception (December 15, 2011) to August 31, 2012, net cash provided by financing activities was \$28,425 received from proceeds from issuance of common stock and advance from director.

PLAN OF OPERATION AND FUNDING

We expect that working capital requirements will continue to be funded through a combination of our existing funds and further issuances of securities. Our working capital requirements are expected to increase in line with the growth of our business.

Existing working capital, further advances and debt instruments, and anticipated cash flow are expected to be adequate to fund our operations over the next twelve months. We have no lines of credit or other bank financing arrangements. Generally, we have financed operations to date through the proceeds of the private placement of equity and debt

instruments. In connection with our business plan, management anticipates additional increases in operating expenses and capital expenditures relating to: (i) acquisition of inventory; (ii) developmental expenses associated with a start-up business; and (iii) marketing expenses. We intend to finance these expenses with further issuances of securities, and debt issuances. Thereafter, we expect we will need to raise additional capital and generate revenues to meet long-term operating requirements. Additional issuances of equity or convertible debt securities will result in dilution to our current shareholders. Further, such securities might have rights, preferences or privileges senior to our common stock. Additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available or are not available on acceptable terms, we may not be able to take advantage of prospective new business endeavors or opportunities, which could significantly and materially restrict our business operations.

OFF-BALANCE SHEET ARRANGEMENTS

As of the date of this Quarterly Report, we do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

GOING CONCERN

The independent auditors' report accompanying our February 29, 2012 financial statements contained an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern. The financial statements have been prepared "assuming that we will continue as a going concern," which contemplates that we will realize our assets and satisfy our liabilities and commitments in the ordinary course of business.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

No report required.

ITEM 4. CONTROLS AND PROCEDURES

Our management is responsible for establishing and maintaining a system of disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) that is designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive officer or officers and principal financial officer or officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

An evaluation was conducted under the supervision and with the participation of our management of the effectiveness of the design and operation of our disclosure controls and procedures as of August 31, 2012. Based on that evaluation,

our management concluded that our disclosure controls and procedures were effective as of such date to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms. Such officer also confirmed that there was no change in our internal control over financial reporting during the six-month period ended August 31, 2012 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Management is not aware of any legal proceedings contemplated by any governmental authority or any other party involving us or our properties. As of the date of this Quarterly Report, no director, officer or affiliate is (i) a party adverse to us in any legal proceeding, or (ii) has an adverse interest to us in any legal proceedings. Management is not aware of any other legal proceedings pending or that have been threatened against us or our properties.
