Dropdown Assets

On September 3, 2015, HollyFrontier Corporation (“HollyFrontier”) and Holly Energy Partners, L.P. (the “Partnership”) issued a joint press release announcing an agreement in principle for the acquisition by Holly Energy Partners – Operating, L.P. (“HEP Operating”), a wholly owned subsidiary of the Partnership, from Frontier El Dorado Refining LLC (“FEDR”), a wholly owned subsidiary of HollyFrontier, of all the outstanding membership interests in El Dorado Operating LLC, which owns the newly constructed naphtha fractionation and hydrogen generation units, in each case, located at FEDR’s El Dorado, Kansas refinery (collectively, the “Dropdown Assets”) for aggregate cash consideration of approximately \$62.0 million.

The closing of the proposed transaction is subject to the execution of definitive agreements and other customary closing conditions. Both HollyFrontier and the Partnership expect the proposed transaction will close in the fourth quarter of 2015, although delays could occur.

In connection with the closing of the proposed transaction, HEP Operating and FEDR expect to enter into fifteen-year tolling agreements containing minimum quarterly throughput commitments from FEDR. The obligations of FEDR and HEP Operating under the tolling agreements will be guaranteed by HollyFrontier and the Partnership, respectively.

The parties expect to amend and restate the Omnibus Agreement by and among HollyFrontier, the Partnership and certain of their respective subsidiaries and expand the secondment arrangement at the El Dorado refinery in connection with the proposed transaction.
