PROXY STATEMENT
ANNUAL MEETING OF STOCKHOLDERS
May 17, 2016

QUESTIONS AND ANSWERS ABOUT THE 2016 ANNUAL MEETING AND VOTING

How do I vote?

You can vote either in person at the Annual Meeting or by proxy without attending the meeting. Even if you expect to attend the meeting in person, please sign and return the enclosed proxy in the envelope provided so that your shares may be voted at the meeting. You may also vote your shares by telephone or via the Internet as set forth in the enclosed proxy. If you execute a proxy, you still may attend the meeting and vote in person.

Can I change my vote?

Yes. If you are a registered stockholder, you can change your proxy vote or revoke your proxy at any time before the Annual Meeting by:

- (1) Revoking it by written notice to Neil E. Jenkins, our Secretary, at 8770 West Bryn Mawr Avenue, Chicago, Illinois, 60631 before your original proxy is voted at the Annual Meeting;
- (2) Delivering a later-dated proxy (including a telephone or Internet vote); or
- (3) Voting in person at the meeting.

If you are a beneficial owner and hold your shares in "street name," please refer to the information forwarded by your bank, broker, or other holder of record for procedures on revoking or changing your proxy.

How many votes do I have?

You will have one vote for every share of Lawson common stock that you owned at the close of business on March 18, 2016.

How many shares are entitled to vote?

There are 8,771,120 shares of Lawson common stock outstanding as of March 18, 2016 and entitled to be voted at the meeting. Each share is entitled to one vote.

How many votes are needed for the proposals to pass?

• Directors will be elected by a plurality of the votes cast at the meeting by the holders of shares represented in person or by proxy.

• If any nominee should become unavailable for election as a director, which is not contemplated, the proxies will have discretionary authority to vote for a substitute.

• In the absence of a specific direction from the stockholders, proxies will be voted for the election of all named director nominees.

- Because directors are elected by a plurality of the votes cast at the meeting, a proxy card marked "Withhold" with respect to one or more director nominees will have no effect on the election of the nominees.

What if I vote "abstain"?

A vote to "abstain" on the election of directors will have no effect on the outcome.

If you vote "abstain," your shares will be counted as present for purposes of determining whether enough votes are present to hold the Annual Meeting.

What if I don't return my proxy card and don't attend the Annual Meeting?

If you are a holder of record (that is, your shares are registered in your own name with our transfer agent) and you do not vote your shares, your shares will not be voted. If you are not a holder of record, your record holder cannot vote your shares without your specific instructions on the election of directors because this proposal is considered a non-routine matter. Therefore, banks, brokers or other nominees will not have the discretion to vote shares held by them on behalf of customers if no instructions are received.

“Broker non-votes” will be counted as present for purposes of determining whether enough votes are present to hold the Annual Meeting.

Is my vote confidential?

Yes. Your voting records will not be disclosed to us except:

As required by law;

To the inspectors of voting; or

In the event the election is contested.

The tabulator, the proxy solicitation agent, and the inspectors of voting must comply with confidentiality guidelines that prohibit disclosure of votes to Lawson. The tabulator of the votes and at least one of the inspectors of voting will be independent of Lawson and our officers and directors.

If you are a holder of record and you write comments on your proxy card, your comments will be provided to us, but your vote will remain confidential.

When will I receive the Proxy Statement?

This Proxy Statement will be available to stockholders on or about March 30, 2016, in connection with the solicitation of the accompanying proxy by our Board of Directors. Only stockholders of record at the close of business on March 18, 2016 are entitled to notice of and to vote at the meeting. We have retained Morrow & Co., LLC, 470 West Ave., Stamford, Connecticut, 06902, a firm specializing in the solicitation of proxies, to assist in the solicitation at a fee estimated to be \$7,000 plus expenses. Officers of the Company may make additional solicitations in person or by telephone. Expenses incurred in the solicitation of proxies will be borne by the Company.

If the accompanying form of proxy is executed and returned in time or you vote your shares by telephone or via the internet as set forth in the enclosed proxy, the shares represented thereby will be voted.

PROPOSAL 1: ELECTION OF DIRECTORS

Stockholders are entitled to cumulative voting in the election of directors. Under cumulative voting, each stockholder is entitled to that number of votes equal to the number of directors to be elected, multiplied by the number of shares such stockholder owns, and such stockholder may cast his or her votes for one nominee or distribute them in any manner he or she chooses among any number of nominees. Unless otherwise indicated on the proxy card, votes may, in the discretion of the proxies, be equally or unequally allocated among the nominees named below. Directors will be elected by a plurality of the votes cast at the meeting by the holders of shares represented in person or by proxy. Thus, assuming a quorum is present, the three persons receiving the greatest number of votes will be elected as directors and votes that are withheld will have no effect.

The By-Laws of the Company provide that the Board of Directors shall consist of such number of members, between five and nine, as the Board of Directors determines from time to time. The size of the Board of Directors is currently set at eight members. The Board of Directors is divided into three classes, with one class being elected each year for a three-year term. At the annual meeting, three directors are to be elected to serve until 2019.

CORPORATE GOVERNANCE

Board Leadership Structure

Our Amended and Restated By-Laws provide that the roles of Board Chairman and Chief Executive Officer ("CEO") may be filled by the same or different individuals. This provides the Board the flexibility to determine whether these roles should be combined or separated based on the Company's circumstances and needs at any given time. The role of Chairman of the Board is currently held by Ronald B. Port, M.D. and the position of CEO is currently held by Mr. Michael G. DeCata. This separation of the Chairmanship and the CEO position has been in place since 2007. The separation of the Chairmanship and the CEO functions provides the Board with additional independence and oversight. The Board believes this leadership structure has served the Company well and believes it is in the best interest of the Company's stockholders to continue with this structure at this time.

Board of Director Meetings and Committees

The Board of Directors has standing Audit, Compensation, Financial Strategies, Management Development, and Nominating and Governance Committees. All committees have adopted a charter for their respective committees. The Management Development Committee

The Management Development Committee is responsible for evaluating potential candidates for executive positions, reviewing management development and succession objectives and regularly reviewing the results of the annual evaluation process. The directors who serve on the Management and Development Committee are Wilma J. Smelcer (Chair), Andrew B. Albert, I. Steven Edelson, James S. Errant and Ronald B. Port, M.D.

The Nominating and Governance Committee

The Nominating and Governance Committee identifies and nominates potential directors to the Board of Directors and otherwise takes a leadership role in shaping the corporate governance of the Company. The Nominating and Governance Committee consists of Wilma J. Smelcer (Chair), Andrew B. Albert and James S. Errant. Each member of the Nominating and Governance Committee satisfies the independence requirements of The NASDAQ Stock Market.

Director Nominations

The Nominating and Governance Committee will consider Board of Director nominees recommended by stockholders. Those recommendations should be sent to the Chairman of the Nominating and Governance Committee, c/o Corporate Secretary of Lawson Products, Inc., 8770 West Bryn Mawr Avenue, Chicago, Illinois, 60631. In order for a stockholder to nominate a candidate for director, under the Company's Certificate of Incorporation, timely notice of the nomination must be given in writing to the Secretary of the Company. With respect to the meeting, in order to be timely, a stockholder's notice shall be mailed or delivered to the Secretary of the Company not less than 90 days nor more than 110 days prior to the first anniversary of the preceding year's meeting. The Company's Charter is not inconsistent with the By-Laws' provisions. The Company's Certificate of Incorporation specifies additional information regarding the nominee that must accompany the notice.

The Nominating and Governance Committee will follow procedures which the Nominating and Governance Committee deems reasonable and appropriate in the identification of candidates for election to the Board of Directors and evaluating the background and qualifications of those candidates. Those processes include consideration of nominees suggested by an outside search firm, by incumbent members of the Board of Directors and by stockholders. The manner in which the Nominating and Governance Committee evaluates nominees for director is the same regardless of whether the nominee is recommended by a security holder.

The Nominating and Governance Committee will seek candidates having experience and abilities relevant to serving as a director of the Company and who represent the best interests of stockholders as a whole and not any specific interest group or constituency. The Nominating and Governance Committee does not have a policy with regard to consideration of diversity in identifying director nominees. The Nominating and Governance Committee will consider a candidate's qualifications and background including, but not limited to, responsibility for operating a public company or a division of a public company, other relevant business experience, a candidate's technical background or professional qualifications and other public company boards of directors on which the candidate serves. The Nominating and Governance Committee will also consider whether the candidate would be "independent" for purposes of The Nasdaq Stock Market and the rules and regulations of the SEC. The Nominating and Governance Committee may, from time to time, engage the service of a professional search firm to identify and evaluate potential nominees.

Determination of Independence

The Company's Board of Directors has determined that directors Andrew B. Albert, I. Steven Edelson, James S. Errant, Lee S. Hillman, Ronald B. Port, M.D., Thomas S. Postek, and Wilma J. Smelcer are independent within the meaning of the rules of The Nasdaq Stock Market. In determining independence, the Board of Directors considered the specific criteria for independence under The Nasdaq Stock Market rules and also the facts and circumstances of any other relationships of individual directors with the Company. Mr. DeCata, our CEO, is not considered an independent director.

The independent directors and the committees of the Board of Directors regularly meet in executive session without the presence of any management directors or representatives.

Code of Business Conduct

The Company has adopted a Code of Business Conduct (the "Code of Conduct") applicable to all employees and to senior financial executives including the principal executive officer, principal financial officer and principal accounting officer of the Company. The Code of Conduct is available on the Corporate Governance page in the Investor Relations section of the Company's website at www.lawsonproducts.com. The Company intends to post on its website any amendments to or waivers from the Code of Conduct applicable to senior financial executives.

The Board of Directors Role in Risk Oversight and Assessment

The Board is responsible for overseeing the most significant risks facing the Company and for determining whether management is responding appropriately to those risks. The Board implements its risk oversight function both as a whole and through committees. The Board has formalized much of its risk management oversight function through the Audit Committee.

The Company has a formal Enterprise Risk Management ("ERM") program. The goal of the ERM program is to provide the oversight, control and discipline to drive continuous improvement of our risk management capabilities in a constantly changing operating environment. In connection with the ERM, the Company retained a risk management consultant to assist management in identifying and prioritizing risk along with processes to mitigate such risks. The Company has developed metrics for reporting risks to the Board. Senior management has been tasked with continually

assessing risk and communicating risk awareness throughout the Company. The ERM program continued to assess new risks and develop mitigation plans on previously identified risks.

In addition to the formal ERM program, the Board committees have significant roles in carrying out the risk oversight function which include, but are not limited to, the following:

- The Audit Committee oversees risks related to the Company's financial statements, the financial reporting process, accounting and legal matters and oversees the internal audit function;

- The Compensation Committee oversees the Company's compensation programs from the perspective of whether they encourage individuals to take unreasonable risks that could result in having a materially adverse effect on the Company;

• The Management Development Committee oversees management development and succession planning across senior management positions; and

• The Financial Strategies Committee oversees risk inherent in allocating capital and developing financial plans.

While the Board oversees risk management, Company management is charged with managing risk. Management is responsible for establishing and maintaining an adequate system of internal control over financial reporting and establishing controls to prevent or detect any unauthorized acquisition, use or disposition of the Company's assets.

The Company has retained a consulting firm to serve as its internal audit department, which reports to the Audit Committee on a regular basis. Part of the internal audit department's mission, as described in its charter, is to bring a "systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes." One way which the internal audit department carries this out is by evaluating the Company's network of risk management programs and reporting the results to the Audit Committee.

Management conducts detailed periodic business reviews of the Company's business. These reviews include discussions of future risks faced by various departments and functional areas across the organization. Additionally, the Company has established a Disclosure Committee which is comprised of senior management from various functional areas. The Disclosure Committee meets at least quarterly to review all disclosures and forward-looking statements made by Lawson to its security holders and ensure they are accurate and complete and fairly present Lawson's financial condition and results of operations in all material respects.

The Company has also established and communicated to its employees a Code of Business Conduct and maintains an ethics hotline where employees can confidentially and anonymously express any concerns they may have of any suspected ethics violations either through a dedicated web site or through a toll free telephone number. The Company requires annual ethics training of all employees.

Compensation Risk Assessment

The Compensation Committee has reviewed its compensation programs, including those of its business units, to determine if they encourage individuals to take unreasonable risks and has determined that any risks arising from these compensation programs are not reasonably likely to have a material adverse effect on the Company. The Company's existing compensation programs were reviewed, with particular attention to the performance metrics and the mix of compensation, and the Compensation Committee concluded that no further review and inquiry was necessary.

Post-Vest Holding Requirement

In 2016, the Compensation Committee instituted a two-year post-vest holding requirement on market stock units ("MSUs") granted to the top three named executive officers - the President and Chief Executive Officer, the Chief Financial Officer, Treasurer and Controller, and the Secretary, General Counsel, and Chief Compliance Officer to further align these executives' long-term interests with those of our stockholders. The executives subject to the hold requirement cannot transfer or otherwise dispose of one-hundred percent (100%) of certain equity awards granted after January 1, 2016, which vest, net of taxes, and convert to shares of common stock.

Clawback Policy

In 2011, the Board of Directors approved a policy for recoupment of incentive compensation (the "Clawback Policy"). The Board of Directors adopted the Clawback Policy in order to protect the Company in the event that the Company is required to prepare an accounting restatement due to the material noncompliance of the Company with any financial reporting requirement under the securities laws.

If such an event occurs, the Company will recover from any current or former executive officer of the Company who received incentive-based compensation (including stock options awarded as compensation) based on the erroneous data during the 3-year period preceding the date on which the Company is required to prepare an accounting restatement in excess of what would have been paid to the executive officer under the accounting restatement, as determined by the Compensation Committee, in accordance with Section 10D of the Securities Exchange Act of 1934 as added by Section 954 of the Dodd-Frank Wall Street Reform and Consumer Protection Act, and any applicable guidance or rules issued or promulgated thereunder.

Anti-Hedging Policy

In 2011, the Board of Directors approved an Anti-Hedging Policy. Under the Anti-Hedging Policy, the Company prohibits any executive officer of the Company or member of the Company's Board of Directors (or any designee of such executive officer or director) from purchasing financial instruments (including prepaid variable forward contracts, equity swaps, collars, and exchange funds) that are designed to hedge or offset any decrease in the market value of Company common stock (a) granted to the executive officer or director by the Company as part of the compensation of the executive officer or director; or (b) held, directly or indirectly, by the executive officer or director.

Corporate Governance Principles (Guidelines)

The Corporate Governance Principles and the charters of the five standing committees of the Board of Directors describe our governance framework. The Corporate Governance Principles and charters are intended to ensure our Board has the necessary authority and practices in place to review and evaluate our business operations and to make decisions that are independent of management. Our Corporate Governance Principles also are intended to align the interests of directors and management with those of our stockholders, and comply with or exceed the requirements of the Nasdaq Stock Market and applicable law. They establish the practices our Board follows with respect to:

- Responsibilities of directors
- Board size
- Director independence
- Attendance at meetings
- Access to senior management

Copies of these Corporate Governance Principles are available through our website at www.lawsonproducts.com. The Company will also provide a copy of the Code of Conduct without charge upon written request directed to the Company at c/o Corporate Secretary, Lawson Products, Inc., 8770 W. Bryn Mawr Avenue, Chicago, Illinois, 60631.

Stockholder Communications with the Board of Directors

Stockholders may send communications to members of the Board of Directors by either sending a communication to the Board of Directors or a committee thereof and/or a particular member c/o Corporate Secretary, Lawson Products, Inc., 8770 W. Bryn Mawr Avenue, Chicago, Illinois, 60631. All such communications will be reviewed promptly and, as appropriate, forwarded to the Board of Directors or the relevant committee or individual member of the Board of Directors or committee based on the subject matter of the communication.

Ronald J. Knutson	Executive Vice President, Chief Financial Officer, Treasurer and Controller

The 2015 Summary Compensation Table on page 34 represents compensation earned by the NEOs in calendar 2015.

Executive Summary

Overview of 2015 Performance and Compensation

2015 Business Environment and Company Performance

Lawson serves the industrial, commercial, institutional and government maintenance, repair and operations (“MRO”) market. Our strategic focus in 2015 was to continue to invest in the business and improve profitability, grow sales, improve the customer experience, improve efficiency and maintain compliance. We believe we have created a scalable infrastructure that will allow us to take full advantage of future growth opportunities and our efforts in 2015 resulted in the following strategic accomplishments:

- Generated Positive Adjusted EBITDA - Achieved \$17.1 million of Adjusted EBITDA in 2015, partially driven by lower Selling, General & Administrative expenses.

- Increased Gross Profit Margin - Our gross profit margin increased from 60.4% in 2014 to 61.3% in 2015.

- Expanded our Sales Team - We increased the number of net active sales representatives from 916 on December 31, 2014 to 937 on December 31, 2015.

- Acquisition - We completed an acquisition of a small family-owned auto body parts distributor to complement our Kent Automotive business and increase our presence in Western Canada.

- Lean Six Sigma - We successfully completed six Lean Six Sigma projects including standardizing the training received by all new sales representatives.

- Improved Operational Performance - We continued to improve the fundamentals of our business, measured as improved customer service levels to our customers as well as reduced customer backorders.

Executive Compensation in 2015 Relative to Company Performance

The Company's 2015 financial performance demonstrated that we have improved operationally and we believe the infrastructure is in place for future growth. We improved profitability in a year when sales growth in the MRO industry moderated year-over year from 2014. The following tables highlight the year-over-year comparison of some of the key financial metrics that we use in evaluating the Company's performance relative to compensation.

Adjusted EBITDA consists of earnings before interest, taxes, depreciation and amortization plus/minus other (1) adjustments including incentive compensation, foreign exchange impact, acquisition activity and other non-routine, non-operating adjustments (for additional detail, see AIP section).
(2) ASMP subsidiary disposed of in February 2014.

The close relationship between pay and shareholder value has resulted from the 100% performance-based structure of our annual incentive plan ("AIP") and our long-term incentive plan ("LTIP"). Our 2015 financial results as compared to our pre-established performance targets set for the 2015 AIP and 2013-2015 LTIP was as follows:

2015 AIP:

\$17.1 million in Adjusted EBITDA (for additional detail, see AIP section) compared to a \$16.3 million target
\$279.7 million in Adjusted Net Sales (for additional detail, see AIP section) compared to a \$301.4 million target

2013-2015 LTIP:

The 2013-2015 LTIP award vested on December 31, 2015 in the form of SPRs (with a strike price of \$12.18 per share) and MSUs. MSUs vested at the maximum award level because the Company's trailing 30-day average closing stock price exceeded the maximum price level of \$18.00. Additional details are provided in the "Long-Term Incentive Plan" section as well as the "Option/SPR Exercises and Stock Vested in 2015" table.

We align the interests of the senior team with our stockholders through our LTIP, which consists solely of performance-based stock-based awards. The NEOs are rewarded for growth in the same manner as stockholders and will only realize value in their awards if the Company's stock price appreciates in value from the date the award is approved by the Board. We are highlighting the Company's stock price performance from January 1, 2013 through December 31, 2015.

2015 NEOs Compensation Aligns With Performance

The total compensation cost of our senior team continues to be aligned with our business results and the market value of the Company. For the three years, we are disclosing the granted pay opportunity, realizable and realized compensation of our NEOs. For that period ending our share price has increased 136%, or about 43% per year, resulting in a significant appreciation for our stockholders. At the same time, realizable and realized compensation has largely followed our share price over the same period reflecting the fact that most of our NEO total compensation is provided in the form of SPRs and MSUs, with the actual value of these awards tied 100% to the company's share price.

To summarize how our CEO and other NEOs' compensation have been aligned over the 2013-2015 time period, we are illustrating the granted pay opportunity compensation, as well as the compensation realizable and realized from annual and long-term awards made over the same time period, in the tables below. We believe the inclusion of realizable compensation enhances our compensation disclosure as realizable pay is a compensation measure that focuses on the middle of our compensation lifecycle - after award opportunities have been granted. Additionally, realized compensation sets forth the compensation that has been earned based upon awards granted throughout the three-year performance cycle. The "Summary Compensation Table" on page 34 and the "Options/SPR Exercises and Stock Vested in 2015" table on page 39 measure value at the two ends of the compensation lifecycle - when the pay is granted, and when it is ultimately realized by the executive.

(1) The 2013-2015 granted pay opportunity, realizable and realized compensation for Messrs. Jenkins, Knutson and McCarthy are included in the chart above. Mr. Jacobson is not included, as he and the Company agreed to terminate his employment effective September 30, 2015.

(2) In the chart above, "Granted Pay Opportunity" equals the sum of the three prior years (i.e., 2013-2015): (i) Salary (as reported in the Summary Compensation Table ("SCT") on page 34), (ii) target value of AIP, and (iii) the grant date fair-value of LTIP awards as reported in the SCT.

(3) In the chart above, "Realizable Pay" equals the sum of the three prior years: (i) Salary earned, (ii) AIP earned, and (iii) the value of all earned long-term incentive awards for the completed performance cycle, as well as unvested LTIP awards for the ongoing performance cycle. All unvested long-term incentive awards are valued based on our stock price as of December 31, 2015. The 2014-2016 MSUs reflect maximum awards, as closing stock price at December 31, 2015 of \$23.35 per share exceeds maximum price of \$20.00. The realizable value of the NEOs' 2015-2017 LTIP award is zero, as the Company's stock price as of December 31, 2015 does not meet threshold award levels.

(4) In the chart above, "Realized Pay" equals the sum of the three prior years: (i) Salary earned, (ii) AIP earned, and (iii) the value of all earned LTIP awards for the completed performance cycle.

Employment Agreement with our CEO

Mr. DeCata has been instrumental to our business turnaround and our path to future profitable growth of the Company. The Board believes it is important to retain Mr. DeCata on a long-term basis. Therefore, on January 12, 2015, the Company entered into a new employment agreement with Michael G. DeCata, as President and Chief Executive Officer. This agreement replaces and supersedes the original employment agreement, dated October 16, 2012, by and between the Company and Mr. DeCata.

Concurrent with the employment agreement, the Company awarded Mr. DeCata 40,000 stock options and 380,000 SPRs under the Company's 2009 Equity Compensation Plan (as amended and restated effective May 13, 2014, the "Equity Plan"). The majority of the award was granted at exercise prices above fair market value of Lawson shares as of the grant date. The Board decided to grant Mr. DeCata these awards in lieu of his participation in the 2015-2017 LTIP for Lawson's other NEOs and selected other executives. We believe we have an effective LTIP, however, to retain Mr. DeCata, the Board decided to provide a more significant incentive to grow stockholder value.

2015 CEO Compensation Aligns With Performance

As illustrated in the table below, the realizable and realized compensation for Mr. DeCata over the performance cycle of the last three years (2013-2015) is less than the granted pay opportunity and demonstrates the pay and performance alignment of our program.

(1) In the chart above, "Granted Pay Opportunity" equals the sum of the three prior years (i.e., 2013-2015): (i) the grant date fair value of Mr. DeCata's performance-based retention award, (ii) Salary (as reported in the SCT), (iii) target value of AIP, and (iv) the grant date fair value of LTIP awards as reported in the SCT.

(2) In the chart above, "Realizable Pay" equals the sum of the three prior years: (i) the value of Mr. DeCata's performance-based retention award based on our stock price as of December 31, 2015 (the realizable value of the award is zero), (ii) Salary earned, (iii) AIP earned, and (iv) the value of all earned LTIP awards for the completed performance cycle and unvested long-term incentive awards for the ongoing performance cycle. All unvested long-term incentive awards are valued based on our stock price as of December 31, 2015. The 2014-2016 MSUs reflect maximum awards, as closing stock price at December 31, 2015 of \$23.35 per share exceeds maximum price of \$20.00.

(3) In the chart above, "Realized Pay" equals the sum of the three prior years: (i) the value of Mr. DeCata's performance-based retention award based on our stock price as of December 31, 2015 (the realized value of the award is zero), (ii) Salary earned, (iii) AIP earned, and (iv) the value of all earned LTIP awards for the completed performance cycle.

As noted, Mr. DeCata did not participate in the 2015-2017 LTIP. Rather, as part of the renewal of his three-year employment agreement in 2015, he received a performance-based retention award consisting of stock options and stock performance rights ("SPRs"), which link directly to the future appreciation in the Company's shareholder value. As shown in the table above, this award does not have any realizable value as of December 31, 2015. We are summarizing the required stock price appreciation that must be achieved, as compared to the Company's 2015 year ending stock price, to meet the exercise price of each tranche, as well as the growth needed for the value of this award to meet our target LTIP opportunity level.

Stock Price	Retention Award Value	Stock Price Growth	% of Target LTIP Opportunity	
2015 Year End ⁽¹⁾	\$—	—	%	—
25.16 ⁽²⁾	—	7.8	%	—
27.99 ⁽³⁾	510,000	19.9	%	100.0
29.16 ⁽⁴⁾	720,000	24.9	%	141.2
33.16 ⁽⁵⁾	2,000,000	42.0	%	392.0

(1) The Company's stock price on December 31, 2015 was \$23.35.

(2) Represents the exercise price of the first tranche of Mr. DeCata's retention award.

(3) Represents stock price needed for the value of Mr. DeCata's retention award to meet target LTIP opportunity.

(4) Represents the exercise price of the second tranche of Mr. DeCata's retention award.

(5) Represents the exercise price of the third tranche of Mr. DeCata's retention award.

Named Executive Officer Separation

The Company and Allen D. Jacobson agreed to terminate his employment as Senior Vice President, Sales effective September 30, 2015. In connection with Mr. Jacobson's separation agreement, he received payments and benefits as described as follows: severance equal to one (1) times his current base salary, and continued coverage under the Company's group health plan, including spousal and dependent coverage for a period of eighteen (18) months. In addition, Mr. Jacobson received a payment of \$50,000 in connection with his participation in the Company's 2015 AIP. The total amount payable on a salary continuation basis to Mr. Jacobson upon separation from the Company is \$271,108. Pursuant to the terms of his equity award agreements, he was entitled to partial accelerated vesting in his outstanding equity awards, which amounted to \$166,509.

2015 Changes to the Compensation Program

Our anticipated 2015 financial performance, along with the individual performance of our NEOs, served as key factors in determining compensation for 2015. We did not change any compensation programs in 2015; however, the Compensation Committee approved base salary increases to all of our NEOs, with the exception of the CEO.

Corporate Governance Practices Impacting Executive Compensation

The continued focus on our overall pay-for-performance philosophy is supported by the Company's compensation governance framework, which is demonstrated by the following policies:

Post-Vest Holding Requirement - In January 2016, the Compensation Committee instituted a two-year post-vest holding requirement for the Chief Executive Officer and President, Chief Financial Officer, Treasurer and Controller, and the Secretary, General Counsel, and Chief Compliance Officer. We believe this change will help better align these executives' long-term interests with those of our stockholders. The executives are required to hold and not transfer or otherwise dispose of one-hundred percent (100%) of MSUs granted after January 1, 2016 which vest, net of taxes, and then issued as shares of common stock. In addition, future awards granted in the form of equity may also be subject to this holding requirement. The holding period requirement survives their potential separation from the Company through the applicable hold period.

Anti-Hedging Policy - Our Anti-Hedging policy prohibits our directors, NEOs and other key executive officers from hedging the economic interest in the Company securities that they hold (as described in more detail under "Anti-Hedging Policy" on page 13).

Clawback Policy - Our Clawback Policy protects the Company in the event that the Company is required to prepare an accounting restatement due to the material noncompliance of the Company with any financial reporting requirement under the securities laws (as described in more detail under "Clawback Policy" on page 12).

Gross-Up on Change In Control Payments - We do not pay tax gross-ups for change in control payments under Code Section 280G.

Independent Compensation Consultant - The Compensation Committee's engagement of an independent compensation consultant that does not provide any services to management and that had no prior relationship with management prior to the engagement.

Risk Management Program - Our strong Enterprise Risk Management Program which includes our Compensation Committee's oversight of the ongoing evaluation of the relationship between our compensation programs and risk.

Response to Say-On-Pay Vote

The advisory stockholder vote on the executive compensation for the Company's NEOs (the "Say-on-Pay Proposal") is non-binding. However, the Compensation Committee has considered, and will continue to consider, the outcome of this vote each year such a vote is taken when making compensation decisions for our CEO and other NEOs. At our annual meeting of stockholders held on May 13, 2014, our Say-on-Pay Proposal received approximately 93% support from our stockholders (excluding broker non-votes). The Compensation Committee believes that this stockholder vote strongly endorsed the compensation philosophy of the Company. Accordingly, the Compensation Committee did not take any specific actions with respect to its executive compensation programs as a direct result of the 2014 Say-on-Pay Proposal. The Compensation Committee will continue to consider the outcome of the Company's say-on-pay votes when making future compensation decisions for the NEOs. In 2011, the stockholders approved and the Company implemented a triennial frequency for the Say-on-Pay Proposal. The next Say-on-Pay Proposal will occur at the 2017 annual meeting of stockholders.

Compensation Philosophy and Objectives

Our compensation programs are designed to encourage and reward the creation of long-term stockholder value. The Company's executive compensation programs reward executives for the development and execution of successful business strategies that lead to profitable growth. To deliver the appropriate mix of compensation for each NEO, we provide annual cash compensation, which includes a base salary and an annual incentive opportunity, and a long-term incentive opportunity, which is based 100% on increases to share price of the Company's common stock from the date of grant. We believe the mix of these forms of compensation, in the aggregate, balances the reward for each executive's contributions to our Company.

The Company guides its executive compensation programs with a compensation philosophy expressed in these three principles:

1. **Talent Acquisition & Retention.** We believe that having qualified people at every level of our Company is critical to our success. Our compensation programs are designed to encourage talented executives to join and continue their careers as part of our senior management team.

2. **Accountability for Lawson's Business Performance.** To achieve alignment between the interests of our executives and our stockholders, we use short-term and long-term incentive awards. Our NEOs' compensation increases or decreases are based on how well they achieve the established performance goals and the increase in stockholder value.

3. **Accountability for Individual Performance.** We believe teams and individuals should be rewarded when their contributions are exemplary and significantly support Company performance and value creation.

When making compensation decisions, the various elements of compensation are evaluated together, and the level of compensation opportunity provided for one element may impact the level and design of other elements. We attempt to balance our NEO total compensation program to promote the achievement of both current and long-term performance goals. The Company's overall compensation philosophy is to pay at the median of market competitive practices, with the ability of actual pay to exceed market median for exceeding goals. A NEO's compensation opportunity may benchmark above median levels reflecting individual qualifications, experience and position complexity, but the amount of compensation earned and/or realizable is designed to adjust with the results of our performance.

Determination of Competitive Practices

Peer Group for Compensation Benchmarking

We maintain two peer groups of companies - a "core" and a "supplemental" group of companies - in order to assist the Company, the Compensation Committee and the Board to understand the current competitiveness of the TDC of the NEOs as compared to market practices. We use the data from the peer groups to benchmark total direct compensation which includes the level of base salaries and the mix, form and size of annual and long-term incentives provided to executives of similar companies to Lawson in terms of industry and size. In 2015, we engaged FGМК, LLC ("FGМК"), an independent advisory firm, to review these peer groups to help determine their continued relevance for helping make sound compensation decisions.

As a result of this review, we made no modifications to the composition of the core peer group from the prior year, which included the same 12 companies as used in our 2014 review. The core peer group consists of a representation of companies within Lawson's industry with revenues and market capitalization similar to that of Lawson. The core peer group companies had 2014 median revenue of approximately \$468 million and a market capitalization of \$426 million compared to Lawson's 2014 revenue of \$286 million and market capitalization of \$232 million.

We also did not change the composition of the supplemental peer group. The 2015 supplemental peer group consists of 26 companies, with median revenue of \$376 million and market capitalization of \$366 million, thus similar to Lawson in terms of size. The supplemental peer group served as an additional reference point so we could make appropriate compensation decisions based upon comprehensive market reference points. We used the data from the peer groups to benchmark total direct compensation which includes the level of base salaries and the mix, form and size of annual and long-term incentives provided to executives of similar companies to Lawson in terms of industry and size.

The core and supplemental peer groups include the following companies:

Lawson Products, Inc. Core Peer Group

Aceto	Hardinge Inc.
AMPCO-Pittsburgh Corp.	Houston Wire & Cable Inc.
Circor International Inc.	Insteel Industries
Colfax Corp.	Kadant Inc.
DXP Enterprises Inc.	NN Inc.
H&E Equipment Services Inc.	Twin Disc Inc.

Lawson Products, Inc. Supplemental Peer Group

Allied Motion Technologies	MFRI Inc
Badger Meter Inc	P.A.M. Transportation Svcs
Celadon Group Inc	Patrick Industries Inc
Columbus McKinnon Corp	Powell Industries Inc
Culp Inc	Preformed Line Products Co
Dynamic Materials Corp	Starrett (L.S.) Co - CLA
Eastern Co	Sun Hydraulics Corp
Foster (LB) Co	Synalloy Corp
Gorman-Rupp Co	Trex Co Inc
Haynes International Inc	USA Truck Inc
Hurco Companies Inc	Vicor Corp
LSI Industries Inc	Vishay Precision Group Inc
Lydall Inc	Xerium Technologies Inc

The Compensation Committee believes that the proxy peer group benchmarking provides an accurate indicator of total compensation paid by companies with executives that have skills and responsibilities similar to our executives. Compensation for our executives is generally managed within the ranges of compensation paid by companies in the core and supplemental peer groups (“the Peer Group”).

NEO Compensation Competitiveness Compared to the Peer Group

We are summarizing how the 2015 TDC of the Company's NEOs compares to the core peer group median and 75th percentiles. In addition to his responsibilities overseeing the Finance department, Mr. Knutson is responsible for our Business Analytics group. In addition to overseeing the Legal Department, and Corporate Secretary functions, Mr. Jenkins also has management responsibility for the Human Resources Department as well as serving as our Chief Compliance Officer.

(2) In connection with his new employment agreement, Mr. DeCata received a retention award as described in the "Employment Agreement with our CEO" section.

Elements of Total Compensation

In determining the type and amount of compensation for each executive, we use both annual cash compensation, which includes a base salary and an annual incentive award, and a long-term incentive opportunity, which is equity based. Our compensation programs are designed to encourage and reward the creation of long-term stockholder value, while at the same time avoiding the encouragement of unnecessary or excessive risk-takings. The Compensation Committee believes the mix of these forms of compensation, in the aggregate, supports the Company's overall compensation objectives of attracting top talent for executive positions, incentivizing such executive officers, motivating and rewarding the achievement of individual and company goals and aligning the interests of executive officers with those of our stockholders. Our annual and long-term incentive plans provide for additional compensation for achievement above set performance targets such that an executive's compensation may reach the 75th percentile of market levels based upon performance.

The following table describes each executive compensation element utilized in 2015 for our NEOs based on the philosophy and objectives described above as well as each element's link to our compensation philosophy.

Comp. Element	Philosophy Statement	Talent Acquisition and Retention	Accountability for Business Performance (Align to Stockholder Interests)	Accountability for Individual Performance (Support Company Performance and Value Creation)
Base Salary	We intend to provide base pay competitive to the market of industry peers across other industries where appropriate. Our goal is to strike a balance between attracting and retaining talent, expecting superior results and finding individuals who can focus on transforming our business. Base salary maintains a standard of living, is used to compete in the market for talent and forms the foundation for other reward vehicles.	X		
Annual Incentive Plan	The 2015 AIP was designed to reward specific annual performance against business measures set by the Board. The amount of the 2015 AIP reward was determined by formula and can vary from 0% to 150% of an individual executive's original target incentive.	X	X	X
2015-2017 Long-Term Incentive Plan	The 2015-2017 LTIP was designed to reward specific performance over a three-year performance cycle. The Committee believes that SPRs align the interests of executives with stockholders in that SPRs only have value to the extent the price of our stock on the date of exercise exceeds the exercise price on the grant date. MSUs were awarded because the award provides a vehicle that has more consistent value delivery compared to cash based performance awards, but also has a direct link to long-term interests of stockholders by rewarding	X	X	X

executives for Lawson's performance measured in relation to pre-established threshold, target and maximum stock prices measured at the end of a three-year performance cycle. The MSUs are scheduled to vest from 0% to 150% of an individual executive's target incentive.

Other Compensation and Benefit Programs	Lawson offers employee benefits programs that provide protections for health, welfare and retirement. These programs are standard within the United States and include healthcare, life, disability, dental and vision benefits as well as a 401(k) program and other federally provided programs outside of the US. A deferred compensation program is also provided to a select group of our management, including our NEOs, to provide for tax-advantaged savings beyond the limits of qualified plans. Investment choices are market-based.	X

Base Salary

We provide NEOs and other employees with a base salary to compensate them for services rendered during the fiscal year. Base salary represents the only fixed component of the three principal elements of our executive compensation program and is intended to provide a baseline minimum amount of annual compensation for our NEOs. Our base salary philosophy is intended to keep our fixed costs at an appropriate level for each role. In setting base salaries for the CEO and other executives, the Compensation Committee considers:

• Competitive market data;

• The experience, skills and competencies of the individual;

• The duties and responsibilities of the respective executive;

• The ability of the individual to effectively transform our company and culture; and

• The individual's ability to achieve superior results.

We typically consider adjustments to NEO base salaries on an annual basis as part of our review process, as well as upon a promotion. Our NEOs are eligible to receive the same percentage annual merit percentage increase applicable to all other employees and may receive an increase that is more or less than our merit increase guideline as a result of each NEO's current base salary vs. market levels, changes in duties, performance or retention considerations. 2015 base salary increases were approximately 2.4%, on average, for the CEO and other NEOs.

The base salaries for the NEOs in 2014 and 2015 were as follows:

Executive Name	2014 Base Salary ⁽¹⁾	2015 Base Salary ⁽²⁾	Change in Base Salary ⁽³⁾
Michael G. DeCata	\$510,000	\$510,000	\$—
Ronald J. Knutson	339,900	360,000	20,100
Neil E. Jenkins	422,300	430,750	8,450
Allen D. Jacobson	263,212	271,108	7,896
Shane T. McCarthy	250,000	256,863	6,863

(1) 2014 base salaries were effective March 16, 2014 except for Mr. McCarthy, which was effective April 16, 2014 due to his appointment as Senior Vice President, Supply Chain.

(2) 2015 base salaries were effective March 16, 2015.

(3) Increases in salary were due to merit raises.

Annual Incentive Plan

We require our NEOs to be focused on achievement of the critical, strategic and tactical objectives that lead to annual Company success. Therefore, performance goals under our AIP align their compensation with our annual business objectives. The design of the AIP, the selected performance measures and targets and the timing of payouts are designed to drive positive business performance on an annual basis.

2015 AIP

Pursuant to the terms of the 2015 AIP, each NEO was granted a threshold, target and maximum bonus award opportunity expressed as a percentage of base salary. These bonus award opportunities range from 0% to 150% for our NEOs. The 2015 AIP award opportunities at threshold, target and maximum for the NEOs in 2015 are provided in the table entitled "Grants of Plan Based Awards in 2015."

At the beginning of each year, the Committee approves the assignment of a threshold, target and maximum objective for each financial performance measure. The target objectives are established based upon the operating budget

approved by the Board. Actual year-end financial results are compared to plan objectives in order to determine the amount of any NEO bonus. If actual financial results fall between the threshold and target or the target and maximum objectives, bonuses are proportionately increased as a result of the threshold or target objective being exceeded. Notwithstanding the other provisions of the AIP, the Committee has the right to reduce or eliminate any bonus payable to a NEO based upon the Committee's determination of individual performance or other factors it deems relevant. The Committee also has the discretion to adjust performance criteria during a fiscal year if, for example, the initially established performance criteria are rendered unrealistic in light of circumstances beyond the control of the Company and its management. No adjustments were made to the corporate performance criteria during fiscal 2015.

The Company utilized Adjusted EBITDA and Adjusted Net Sales to align executive compensation with our 2015 business objectives. The award opportunity for our NEOs was tied 100% to these two financial performance goals (the award opportunity does not include any individual performance measures). A definition of the two financial measures is provided below:

"Adjusted EBITDA" consists of earnings before interest, taxes, depreciation and amortization plus/minus other adjustments including incentive compensation, foreign exchange impact, acquisition activity and other non-routine, non-operating adjustments; and

"Adjusted Net Sales" includes product sales and billings for freight and handling charges, adjusted for the net effect of foreign exchange changes and unplanned acquisition sales.

The 2015 AIP financial performance targets were as follows (dollars in thousands):

	AIP Performance Targets				
	Threshold	Target	Maximum		
Adjusted EBITDA	\$13,000	\$16,300	\$20,400		
Payout percentage	50	% 100	% 150		%
Adjusted Net Sales	\$292,300	\$301,400	\$313,500		
Payout percentage	50	% 100	% 150		%

The Compensation Committee approved AIP short-term performance goals to focus our NEOs on business priorities for the upcoming year. Under the 2015 AIP, target opportunities as a percent of each NEO's salary were set as follows:

	2015 AIP Target		2015 AIP Goal Weighting	
	Amount	Percent of Base Salary	Adjusted EBITDA	Adjusted Net Sales Dollars
Michael G. DeCata	\$510,000	100%	60%	40%
Ronald J. Knutson	216,000	60%	60%	40%
Neil E. Jenkins	258,450	60%	60%	40%
Allen D. Jacobson	135,554	50%	40%	60%
Shane T. McCarthy	128,432	50%	60%	40%

The 2015 AIP financial performance measure targets and actual results were as follows (dollars in thousands):

	Actual Results	2015 AIP Performance Targets				
		Threshold	Target	Maximum		
Adjusted EBITDA	\$17,129	\$13,000	\$16,300	\$20,400		
Payout percentage	110.1	% 50	% 100	% 150		%
Adjusted Net Sales	\$279,663	\$292,300	\$301,400	\$313,500		
Payout percentage	0%	50	% 100	% 150		%

Adjusted EBITDA

The Adjusted EBITDA target of \$16.3 million was established based on the 2015 EBITDA plan plus AIP and LTIP incentives. Actual 2015 EBITDA including the AIP and LTIP plans was \$14.6 million. This amount was then adjusted for non-routine severance, decrease in the Canadian exchange rate vs. as budgeted, the impact of the acquisition in Western Canada and the ASMP environmental reserve. The aggregate amount of all approved adjustments was \$2.5 million resulting in an Adjusted EBITDA of approximately \$17.1 million for 2015.

Adjusted Net Sales

Adjusted Net Sales consisted of the amount reported on our current statement of operations for accounting purposes based upon Generally Accepted Accounting Principles (“GAAP”), adjusted for the net effect of foreign exchange changes and unplanned acquisitions in the aggregate amount of \$3.8 million.

The actual financial results finished above target objective for Adjusted EBITDA and below threshold objective for Adjusted Net Sales. This resulted in 2015 AIP payouts equal to 62.9% of the aggregate target award opportunity for our NEOs.

	2015 AIP Payout	
	Target Payout	Actual Payout
Michael G. DeCata	\$510,000	\$336,906
Ronald J. Knutson	216,000	142,690
Neil E. Jenkins	258,450	170,732
Allen D. Jacobson ⁽¹⁾	135,554	50,000
Shane T. McCarthy	128,432	84,842

(1) As stated in his separation agreement, Mr. Jacobson received a payment of \$50,000 in lieu of the 2015 Annual Incentive Plan.

Long-Term Incentive Plan

Background - LTIP

The Compensation Committee engaged an independent compensation consultant at FGMK to make LTIP recommendations intended to be competitive with market practices, aligned with the Company's business goals and supportive of the Company's strategy for retaining and motivating leadership talent, as well as rewarding for superior performance. The LTIP design process allows the Committee to evaluate and consider the specific plan components each year. The LTIP is designed to incentivize financial performance over a longer time period than the AIP. The LTIP opportunity, calculated as a percentage of base salary, is formulated to be competitive with market practices and aligned with our compensation philosophy and objectives.

2015-2017 LTIP

In 2015, long-term incentive awards were granted to the NEOs in two vehicles: twenty-five percent (25%) of the total target opportunity was granted in the form of SPRs and seventy-five percent (75%) in MSUs. The target value of each award and the total 2015-2017 LTIP opportunity to each NEO is as follows:

Executive	SPR Target Award	MSU Target Award	Total 2015-2017 Opportunity
Michael G. DeCata ⁽¹⁾	\$—	\$—	\$—
Ronald J. Knutson	67,980	203,940	271,920
Neil E. Jenkins	84,460	253,380	337,840
Allen D. Jacobson	29,611	88,834	118,445
Shane T. McCarthy	28,125	84,375	112,500

Mr. DeCata is not a participant in the 2015-2017 LTIP plan; however, he was granted equity pursuant to his (1) employment agreement entered into on January 12, 2015 as discussed in the "Overview of 2015 Performance and Compensation" section.

Rationale for 2015-2017 LTIP Awards

Why award SPRs? The SPRs were granted with an exercise price equal to the fair market value of Lawson stock as of the date of grant. SPRs are cash-settled awards that operate in the same manner as stock options in that each participant will only realize value in an amount equal to the difference between fair market value at exercise date and the underlying exercise price. Therefore, NEOs are rewarded for growth in the same manner as stockholders. For the 2015-2017 LTIP, the SPRs were granted with the following terms:

The SPRs cliff vest in full on December 31, 2017, provided that the participant remains continuously employed by the Company through such date. Each participant will then have 5 years after this vest date to exercise some or all of the vested SPRs. Additional details on the SPRs include:

The exercise price of the SPR award was equal to \$25.16.

The executive will realize ordinary income on the difference between the exercise price and the fair market value of the SPRs at exercise date.

Why award MSUs? MSUs are stock-settled awards that have a direct link to long-term interests of stockholders by rewarding executives for Lawson's share price change vs. threshold, target and maximum stock price goals as recommended by the Committee, measured over the three-year performance cycle from grant date. The actual number of shares of our common stock issuable under MSUs is therefore variable based on the Company's stock price over the three-year performance period.

For the 2015-2017 LTIP, the potential value of MSUs will be determined as follows:

The number of MSUs that will vest is based upon share price attainment determined by the trailing 30-day average closing price of the Company's common stock on the vest date of December 31, 2017. Each participant will vest in the MSUs as follows:

	Threshold	Target	Maximum	
Average Closing Stock Price (as of December 31, 2017)	\$28.00	\$31.50	\$35.00	
% of Target MSUs Vested	50	% 100	% 150	%

If the final stock price is between each of the above as stated, the number of MSUs vested will be calculated using straight-line interpolation between each defined share price level. If the stock price is below \$28.00, the executive would not receive an award. If the stock price exceeds \$35.00, the executive would receive 150% of their target award. The executive will realize ordinary income, if any, on the MSUs based upon the fair market value of each MSU at vest date.

2014-2016 LTIP

In 2014, long-term incentive awards were granted to the NEOs in two vehicles: 50 percent (50%) of the total target opportunity was granted in the form of SPRs and fifty percent (50%) in MSUs. The target value of each award and the total 2014-2016 long-term incentive opportunity to each NEO is as follows:

Executive	SPR Target Award	MSU Target Award	Total 2014-2016 Opportunity
Michael G. DeCata	\$237,500	\$237,500	\$475,000
Ronald J. Knutson	99,000	99,000	198,000
Neil E. Jenkins	123,000	123,000	246,000
Allen D. Jacobson	57,498	57,498	114,996
Shane T. McCarthy	51,750	51,750	103,500

The SPRs cliff vest in full on December 31, 2016, provided that the participant remains continuously employed by the Company through such date. Each participant will then have 5 years after this vest date to exercise some or all of the vested SPRs. Additional details on the SPRs include:

The exercise price of the SPR award was equal to \$12.88 for all participants with the exception of Mr. Jacobson whose award has an exercise price equal to \$13.92. This is based on the Company's closing stock price on February 7, 2014, the date of Mr. Jacobson's promotion to Senior Vice President, Sales.

The executive will realize ordinary income, if any, on the difference between the exercise price and the fair market value of the SPR at exercise date.

The number of MSUs that will vest is based upon share price attainment determined by the trailing 30-day average closing price of the Company's common stock on the vest date of December 31, 2016. Each participant will vest in the MSUs as follows:

Threshold	Target	Maximum
\$13.61	\$16.00	\$20.00

Average Closing Stock Price (as of December 31,
2016)

% of Target MSUs Vested	50	% 100	% 150	%
-------------------------	----	-------	-------	---

If the final stock price is between each of the above as stated, the number of MSUs vested will be calculated using straight-line interpolation between each defined share price level. If the stock price is below \$13.61, the executive would not receive an award. If the stock price exceeds \$20.00, the executive would receive 150% of their target award. The executive will realize ordinary income, if any, on the MSUs based upon the fair market value of each MSU at vest date.

2013-2015 LTIP

In 2013, long-term incentive awards were granted to the NEOs in two vehicles: fifty percent (50%) of the total target opportunity was granted in the form of SPRs and fifty percent (50%) in MSUs. The value of each award and the total 2013-2015 long-term incentive opportunity to each NEO is as follows:

Executive	SPR Target Award	MSU Target Award	Total 2013-2015 Opportunity
Michael G. DeCata	\$237,500	\$237,500	\$475,000
Ronald J. Knutson	99,000	99,000	198,000
Neil E. Jenkins	123,000	123,000	246,000
Allen D. Jacobson	25,555	25,555	51,110
Shane T. McCarthy	48,375	48,375	96,750

The SPRs cliff vested in full on December 31, 2015, provided that the participant remained continuously employed by the Company through such date. Each participant will then have 5 years after this vest date to exercise some or all of the vested SPRs. Additional details on the SPRs include:

The exercise price of the SPR award was equal to \$12.18.

The executive will realize ordinary income, if any, on the difference between the exercise price and the fair market value of the SPR at exercise date.

The number of MSUs that will vest is based upon share price attainment determined by the trailing 30-day average closing price of the Company's common stock on the vest date of December 31, 2015. Each participant vested in the MSUs as follows:

	Threshold	Target	Maximum	
Average Closing Stock Price (as of December 31, 2015)	\$12.18	\$13.50	\$18.00	
% of Target MSUs Vested	50	% 100	% 150	%

Since the stock price exceeded \$18.00, the executives received 150% of their target award. The executives realized ordinary income on the MSUs based upon the fair market value of each MSU at vest date unless such awards were deferred into the Company's 2004 Executive Deferral Plan.

2016 Total Direct Compensation Programs Base Salary and Incentive Plans

2016 base salary increases, AIP and LTIP opportunities and performance targets for our NEOs have been approved by the Compensation Committee. Consistent with prior years, the Company has reviewed NEO base salary levels and provided a merit increase as appropriate. NEOs are eligible for an AIP award based on the Company's 2016 performance against Adjusted EBITDA and Adjusted Net Sales targets. In addition, each NEO received a LTIP award consisting of SPRs and MSUs. As noted above, the Compensation Committee instituted a two-year post-vest holding requirement on MSUs granted to the top three named executive officers - the President and Chief Executive Officer, the Chief Financial Officer, Treasurer and Controller, and the Secretary, General Counsel, and Chief Compliance Officer to further align these executives' long-term interests with those of our stockholders. The value of the 2016 AIP and LTIP award opportunities is calculated as a percentage of each NEO's base salary and are consistent with the 2015 target opportunity levels.

Benefits and Retirement Plans

The NEOs are eligible for both "standard" and "non-qualified" benefits. Standard benefits are generally available to all of our employees and in some cases are subject to favorable tax treatment. Our standard benefit plans cover such items as

health insurance, life insurance, vacation, profit sharing and 401(k) retirement savings. NEOs and employees are required to contribute to offset a portion of the cost of certain plans. In contrast to our standard benefits plans, non-qualified plans are not generally available to all employees and are not subject to favorable tax treatment under the Code.

Non-qualified benefits available to executives include the opportunity to receive Company profit sharing and 401(k) matching contributions in excess of the 2015 IRS annual compensation limit of \$265,000, but not to exceed their current base salary, as well

as the opportunity to defer compensation in a deferred compensation plan. The deferred compensation plan allows participants to defer the receipt of compensation arising from cash or vested stock-based compensation until a later year from the year earned and, therefore, defer payment of income taxes into retirement years when their personal income and tax levels are generally lower. A feature of the deferred compensation plan allows participants to select a set of mutual funds, which are then tracked for growth. The Company purchases life insurance policies which have been deposited into a rabbi trust to offset the Company's deferred compensation liability. Executives in the plan are unsecured creditors of the Company.

The Company has broad-based, qualified profit-sharing and 401(k) plans available to the NEOs, along with other employees, to facilitate retirement savings. Along with other employees, the Company matches 100% of the first 3% and 50% of the next 2% of NEO contributions to the 401(k) plan. The Company does not offer any other post-retirement benefits to the CEO or other NEOs. For 2015, the Company made a profit sharing contribution of 0.75% of eligible earnings, which was allocated among participants, pro-rata, according to their compensation.

Perquisites

We occasionally offer relocation benefits to certain executives under our executive relocation policy. However, we do not currently offer other perquisites for our executives such as country club memberships, executive life insurance or car allowances. Nor do we provide executives with the use of a company aircraft, the services of an executive dining room or vehicles.

Separation and Change-in-Control

Employment and Change-in-Control Contracts

Certain NEOs have employment contracts with the Company as further described in the "Compensation Agreements" section below. Employment and change-in-control contracts help attract executives to work for the Company by protecting them from certain risks, such as position elimination in the event of a business reorganization or a change in control or sale of the Company. The executives or their heirs may also be protected in case of disability or death.

Role of Executives in Setting Compensation

The Company's CEO makes recommendations on compensation to the Compensation Committee for all executive officers except himself. Executive officers will generally make compensation recommendations to the CEO regarding employees who report to them. Executives are not involved in decisions regarding their own compensation. The Compensation Committee has overall responsibility for the compensation programs for the CEO and other NEOs as described in the Corporate Governance section under "The Compensation Committee". The CEO may not be present in any meeting of the Compensation Committee in which his compensation is discussed.

Compensation Committee Interlocks and Insider Participation

In 2015, no executive officer of the Company served on the Board of Directors or Compensation Committee of any other company with respect to which any member of the Compensation Committee was engaged as an executive officer. No member of the Compensation Committee was an officer or employee of the Company during 2015 and no member of the Compensation Committee was formerly an employee of the Company.

Role of the Independent Compensation Consultant

In 2015, the Compensation Committee engaged FGMK to perform benchmarking analyses of executive officer compensation and make recommendations on performance metrics and incentive opportunity levels for the NEOs.

FGMK was asked to make recommendations related to the LTIP awards, including plan design, performance metrics and goals, and related incentive opportunities and estimated plan costs. The Compensation Committee has reviewed the independence of FGMK in light of SEC rules and NASDAQ listing standards regarding compensation consultants and has concluded that FGMK's work for the Compensation Committee does not raise any conflict of interest. All work performed by FGMK is subject to review and approval of the Compensation Committee.

Tax & Accounting Considerations

Policy with Respect to Code Section 162(m)

Code Section 162(m) limits the Company's ability to deduct compensation paid in any given year to our CEO and the three other most highly compensated officers other than the chief financial officer (the "Covered Employees") in excess of \$1.0 million. Performance-based compensation may be structured to be exempt from this restriction. The Compensation Committee may grant awards under the Equity Plan, including annual incentive awards, which are intended to meet the performance-based compensation exception under Code Section 162(m). However, we reserve the right to design compensation plans and grant awards that recognize a full range of performance and other criteria important to our success regardless of the federal tax deductibility of compensation paid under those plans.

Stock-Based Compensation

The fair value of stock-based compensation, which includes equity incentives such as stock options, RSAs, MSUs and SPRs, is measured in accordance with GAAP and is expensed over the applicable vesting period.

Code Sections 280G and 4999

Code Sections 280G and 4999 relate to a 20% excise tax that may be levied on a payment made to an executive as a result of a change-in-control ("CIC") if the payment exceeds three times the executive's base earnings (as defined by Code Section 280G). The Company seeks to minimize the tax consequences that might arise under a potential CIC of Lawson by limiting the amount of compensation that may be paid to an executive in such a circumstance. In the event the excise tax is triggered, the existing CIC agreements provide that the Company will reduce the CIC payment by the amount necessary so that the payment will not be subject to the excise tax, if this would result in the most beneficial outcome for the executive, net of all federal state and excise taxes. Should the Company not reduce the payment as noted, the existing agreements do not provide for any gross-up payment related to potential Code Section 280G excise taxes, which are the sole responsibility of the executive.

Report of the Compensation Committee

The Compensation Committee reviewed and discussed with management the foregoing Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K for the year ended December 31, 2015. Based on such review and discussion, the Compensation Committee recommended to the Board, and the Board approved, that the Compensation Discussion and Analysis be included in this Proxy Statement.

Respectfully Submitted by the Compensation Committee:

Lee S. Hillman (Chairman)
Andrew B. Albert
I. Steven Edelson

COMPENSATION AGREEMENTS

Key terms of compensation agreements currently in effect between the Company and its NEOs are summarized below.

Mr. Michael G. DeCata

Mr. DeCata became employed under an October 16, 2012 agreement. Mr. DeCata is currently employed under a new employment agreement as of January 12, 2015. This agreement replaces and supersedes his original employment agreement, dated October 16, 2012. Mr. DeCata's annual base salary was set at \$510,000 effective March 16, 2015.

Pursuant to this agreement, Mr. DeCata is eligible for a performance-based annual incentive opportunity as determined each year by the Board-approved Annual Incentive Plan. In accordance with the employment agreement, the Company entered into an award agreement with Mr. DeCata pursuant to which the Company awarded him an option to purchase 40,000 shares of our common stock and 380,000 SPRs under the Company's Equity Plan.

If the Company terminates Mr. DeCata without cause, or he terminates his employment for good reason, Mr. DeCata will receive his then current base salary for 18 months; an amount equal to Mr. DeCata's target bonus with respect to the year in which termination occurs (or, if the target bonus for such year has not been established as of the date of termination, the target bonus for the prior year); coverage under the Company's health benefit plans for an additional 18 months following termination; and all of outstanding unvested equity awards that would have otherwise vested during the 18 month period had he remained employed during this period, if any, shall immediately vest upon the effective date of the termination. Mr. DeCata will have until the earlier of (A) one year following the effective date of termination (or such longer exercise period that may be provided in an award agreement evidencing such equity award) and (B) the expiration of the term of such equity award to exercise any vested equity award that is subject to being exercised. This shall apply only to unvested equity awards where vesting is solely service-based, but shall not apply to unvested equity awards where vesting is performance-based in whole or in part.

If within 12 months following a CIC the Company terminates Mr. DeCata's employment without cause or if he terminates his employment for good reason, he will be entitled to receive a lump sum payment equal to two times his then current annual base salary and two times the higher of the target bonus or the actual bonus for the prior year. In addition, Mr. DeCata and his family will be covered under the Company's health benefit plans for two years following termination. All of Mr. DeCata's outstanding equity awards, if any, shall immediately vest upon the effective date of termination to the extent not already vested, and he shall have until the earlier of (A) one year following the effective date of termination (or such longer exercise period that may be provided in an award agreement evidencing such equity award) and (B) the expiration of the term of such equity award to exercise any equity award that is subject to being exercised.

NONQUALIFIED DEFERRED COMPENSATION

Under the Company's 2004 Executive Deferral Plan, certain executives, including NEOs, may defer portions of their base salary, bonus, and LTIP award amounts. Deferral elections are made by eligible executives by the end of the year proceeding the plan year for which the election is made. An executive may defer a minimum of \$2,000 aggregate of base salary, bonus and/or LTIP award. The maximum deferral amount for each plan year is 80% of base salary, 100% of bonus and 100% of LTIP amounts. The Company also makes a contribution to the Deferral Plan equal to the amount the executives, including NEOs, would have received under the Company's tax-qualified 401(k) plan, but for Internal Revenue Code limits.

The investment options available to an executive include some funds generally similar to or as available through the Company's qualified retirement plan. The Company does not provide for any above market return for participants in the 2004 Executive Deferral Plan.

Distributions from the Plan

An executive may elect to receive distributions under three scenarios, receiving benefits in either a lump sum or in annual installments up to five years in the event of termination and up to fifteen years in the event of death or disability. Upon demonstrating an unforeseeable financial emergency and receipt of approval from the Compensation Committee, an executive may interrupt deferral or be allowed to access funds in his deferred compensation account. In the event of a change in control of the Company, an independent third party administrator would be appointed to oversee the plan.

SUMMARY TABLE OF POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE-IN-CONTROL

The following table outlines potential payments to our NEOs under existing contracts, agreements, plans or arrangements for various scenarios under termination or a CIC, assuming a December 31, 2015 termination date and the closing price of our common stock of \$23.35 on that date. The termination benefits are further described in the foregoing Compensation Agreements section. Payments may be reduced if it would result in the imposition of an excise tax under Code Section 280G and the reduction would result in the NEO receiving a greater amount net of tax payment. The actual amounts payable can only be calculated at the time of the event. This table only reflects amounts with respect to contracts and agreements that are beyond those benefits generally available to all salaried employees. In addition, upon termination, payments due to executives include distribution of any balance in the deferred compensation plan, any accrued and unpaid vacation and all other benefits that have been accrued but not yet paid.

In order for the CEO and other NEOs to receive the acceleration of benefits listed below upon a CIC, termination of employment is required within a designated time period after the occurrence of a CIC. This approach is commonly referred to as a "double trigger" acceleration upon a CIC.

The directors also received a regular cycle annual restricted stock grant with a grant date fair value of \$75,000 that cliff-vests upon the one-year anniversary of the date of grant. Directors' travel expenses for attending meetings are reimbursed by the Company.

The Chairman of the Board received an additional \$25,000 for his service as Chairman and the Chairpersons of the respective Board committees received additional compensation as follows:

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Additionally, all directors and senior officers of the Company must complete an annual questionnaire in which they are required to disclose in writing any related party transactions.

The Company's policy is for all transactions between the Company and any related person to be promptly reported to the Company's Secretary, General Counsel and Chief Compliance Officer who will gather the relevant information about the transaction and present the information to the Audit Committee. The Audit Committee then determines whether the transaction is a material related party transaction to be presented to the Board of Directors. The Board of Directors then approves, ratifies, or rejects the transaction. The Audit Committee has adopted policies and procedures for the pre-approval of the audit and non-audit services performed by the independent auditor to assure that the provision of such services does not impair the auditor's independence. The Audit Committee approves all audit fees and terms for all services provided by the independent auditor and considers whether these services are compatible with the auditor's independence. The Chairman of the Audit Committee may approve additional proposed services that arise between Audit Committee meetings provided that the decision to approve the service is presented at the next scheduled Audit Committee meeting. Report of the Audit Committee of the Board of Directors

The responsibilities of the Audit Committee, which are set forth in the Audit Committee Charter adopted by the Board of Directors in 2015, include providing oversight to the Company's financial reporting process through periodic meetings with the Company's independent auditors and management to review accounting, auditing, internal controls, and financial reporting matters. The management of the Company is responsible for the preparation and integrity of the financial reporting information and related systems of internal controls. The Audit Committee, in carrying out its role, relies on the Company's senior management, including senior financial management, and its independent auditors.

With regard to the 2015 audit, the Audit Committee discussed with the Company's independent auditors the scope, extent and procedures for their audits. Following the completion of the audit, the Audit Committee met with the independent auditors, with and without management present, to discuss the results of their examinations, the cooperation received by the auditors during the audit examination, their evaluation of the Company's internal control over financial reporting and the overall quality of the Company's financial reporting.

The Audit Committee reviewed and discussed the audited financial statements included in the 2015 Annual Report on Form 10-K with management. Management has confirmed to us that such financial statements (i) have been prepared with integrity and objectivity and are the responsibility of management and (ii) have been prepared in conformity with accounting principles generally accepted in the United States.

We have discussed with BDO USA, LLP, our independent auditors, the matters required to be discussed by AS 16, issued by the Public Company Accounting Oversight Board. AS 16, as amended, requires our independent auditors to provide us with additional information regarding the scope and results of their audit of the Company's financial statements with respect to (i) their responsibility under auditing standards generally accepted in the United States, (ii) significant accounting policies, (iii) management judgments and estimates, (iv) any significant audit adjustments, (v) any disagreements with management, and (vi) any difficulties encountered in performing the audit.

We have received from BDO USA, LLP a letter providing the disclosures required by the Public Company Accounting Oversight Board Rule 3526 (Independence Discussions with Audit Committees), with respect to any relationships between BDO USA, LLP and the Company that in its professional judgment may reasonably be thought to bear on independence. BDO USA, LLP has discussed its independence with us. BDO USA, LLP confirmed in its letter that, in its professional judgment, it is independent of the Company.

Based on the review and discussions described above with respect to the Company's audited financial statements included in the Company's 2015 Annual Report on Form 10-K, we have recommended to the Board of Directors that such financial statements be included in the Company's Annual Report on Form 10-K.

The Audit Committee has reviewed management's process designed to achieve compliance with Section 404 of the Sarbanes-Oxley Act of 2002 and received periodic updates regarding management's progress.

As specified in the Audit Committee Charter, it is not the duty of the Audit Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and in accordance with accounting principles generally accepted in the United States. That is the responsibility of management and the Company's independent auditors. In giving our recommendation to the Board of Directors, we have relied on (i) management's representation that such financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the United States and (ii) the report of the Company's independent auditors with respect to such financial statements.
