## SECTION 7 - REGULATION FD

### Item 7.01 Regulation FD Disclosure

During the period June 18 - 26, 2012, members of NextEra Energy, Inc.'s (NextEra Energy) management team plan to discuss, at various investor meetings in Europe and through participation at the Bank of America Merrill Lynch Utilities & Renewables Conference on June 21, 2012, in London, England, among other topics, NextEra Energy's long-term growth expectations, including reaffirmation of its previously disclosed 2014 adjusted earnings per share expectations of \$5.05 to \$5.65. The adjusted earnings per share expectations exclude the cumulative effect of adopting new accounting standards, the unrealized mark-to-market effect of non-qualifying hedges and net other than temporary impairment losses on securities held in NextEra Energy Resources, LLC's nuclear decommissioning funds, none of which can be determined at this time. In addition, NextEra Energy's adjusted earnings per share expectations assume, among other things: normal weather and operating conditions; no further significant decline in the national or the Florida economy; supportive commodity markets; public policy support for wind and solar development and construction; market demand and transmission expansion to support wind and solar development; access to capital at reasonable cost and terms; no acquisitions or divestitures; no adverse litigation decisions; and no changes to governmental tax policy or incentives. NextEra Energy's adjusted earnings per share expectations should be viewed in conjunction with NextEra Energy's cautionary statements and risk factors set forth below. Adjusted earnings do not represent a substitute for net income, as prepared in accordance with generally accepted accounting principles.
