RISK FACTORS

In addition to the other information set forth or incorporated by reference in this prospectus, the following factors should be considered carefully by prospective investors before purchasing the common stock offered hereby.

BOK FINANCIAL MAY EXPERIENCE DIFFICULTIES IN INTEGRATING BANK OF TANGLEWOOD, N.A.'S BUSINESS, ITS MOST RECENT MERGER, WITH THE EXISTING BUSINESS OF BOK FINANCIAL SUBSIDIARIES, WHICH COULD CAUSE BOK FINANCIAL TO LOSE MANY OF THE ANTICIPATED POTENTIAL BENEFITS OF THE BANK OF TANGLEWOOD, N.A. MERGER.

BOK Financial entered into the merger agreement with Bank of Tanglewood because it believes that the merger will be beneficial to the combined company. Achieving the anticipated benefits of the merger will depend in part upon whether BOK Financial can integrate the businesses of its subsidiary, Bank of Texas, and Bank of Tanglewood in an efficient and effective manner. BOK Financial may not be able to accomplish this integration process smoothly or successfully. The necessity of coordinating geographically separated organizations and addressing possible differences in technologies, corporate cultures and management philosophies may increase the difficulties of integration. The integration of certain operations following the merger will require the dedication of significant management resources, which may temporarily distract management's attention from the day-to-day business of the combined companies. Employee uncertainty and lack of focus during the integration process may also disrupt the business of the combined companies. Any inability of BOK Financial management to integrate successfully the operations of Bank of Tanglewood into Bank of Texas could have an adverse effect on the business, results of operations and financial condition of BOK Financial.

ADVERSE REGIONAL ECONOMIC DEVELOPMENTS COULD NEGATIVELY AFFECT BOK FINANCIAL'S BUSINESS.

Edgar Filing: BOK FINANCIAL CORP ET AL - Form S-3

A substantial majority of BOK Financial loans are generated in Oklahoma and other markets in the southwest region, with approximately 73% of 2001 earnings derived from activities in the state of Oklahoma. As a result, poor economic conditions in Oklahoma or other markets in the southwest region may cause BOK Financial to incur losses associated with higher default rates and decreased collateral values in BOK Financial's loan portfolio. A regional economic downturn could also adversely affect revenue from brokerage and trading activities, mortgage loan originations and other sources of fee-based revenue.

ADVERSE ECONOMIC FACTORS AFFECTING PARTICULAR INDUSTRIES COULD HAVE A NEGATIVE EFFECT ON BOK FINANCIAL CUSTOMERS AND THEIR ABILITY TO MAKE PAYMENTS TO BOK FINANCIAL.

Certain industry-specific economic factors also affect BOK Financial. For example, as of year-end 2001, 16% of BOK Financial's total loan portfolio was comprised of loans to borrowers in the energy industry and 3% of BOK Financial's total loan portfolio was comprised of loans to borrowers in the agricultural industry, both of which are historically cyclical industries. Low commodity prices may adversely affect those industries and, consequently, may affect BOK Financial's business negatively. In addition, as of year-end, 2001, 21% of BOK Financial's total loan portfolio was comprised of commercial real estate loans. A downturn in the real estate industry in Oklahoma and the Southwest region could also have an adverse effect on BOK Financial's operations.

FLUCTUATIONS IN INTEREST RATES COULD ADVERSELY AFFECT BOK FINANCIAL'S BUSINESS.

BOK Financial's business is highly sensitive to:

- * the monetary policies implemented by the Federal Reserve Board, including the discount rate on bank borrowings and changes in reserve requirements, which affect BOK Financial's ability to make loans and the interest rates we may charge;
- * changes in prevailing interest rates, due to the dependency of BOK Financial's banks on interest income; and
- * open market operations in U.S. Government securities.

Significant increases in market interest rates, or the perception that an increase may occur, could adversely affect both BOK Financial's ability to originate new loans and BOK Financial's ability to grow. Conversely, a decrease in interest rates could result in an acceleration in the payment of loans, including loans underlying BOK Financial's holdings of mortgage-backed securities, and termination of BOK Financial's mortgage servicing rights. In addition, changes in market interest rates, changes in the relationships between short-term and long-term market interest rates or changes in the relationships between different interest rate indices, could affect the interest rates charged on interest-earning assets differently than the interest rates paid on interest-bearing liabilities. This difference could result in an increase in interest expense relative to interest income. BOK Financial's strategy of borrowing funds in the capital markets to supplement deposit growth subjects us to additional interest rate and liquidity risk. An increase in market interest rates also could adversely effect the ability of BOK Financial's floating-rate borrowers to meet their higher payment obligations. If this occurred, it could cause an increase in nonperforming assets and net charge-offs, which could adversely affect BOK Financial's business.

BOK FINANCIAL'S SUBSTANTIAL HOLDINGS OF MORTGAGE-BACKED SECURITIES AND MORTGAGE SERVICING RIGHTS COULD ADVERSELY AFFECT BOK FINANCIAL'S BUSINESS.

BOK Financial has invested a substantial amount of its holdings in mortgage-backed securities, which are investment interests in pools of

Edgar Filing: BOK FINANCIAL CORP ET AL - Form S-3

mortgages. Mortgage-backed securities are highly sensitive to changes in interest rates. BOK Financial mitigates this risk somewhat by investing principally in shorter duration, mortgage products which are less sensitive to changes in interest rates. Nonetheless, a significant decrease in interest rates could lead mortgage holders to refinance the mortgages constituting the pool backing the securities, subjecting BOK Financial to a risk of prepayment and decreased return on investment due to subsequent reinvestment at lower interest rates.

In addition, as part of BOK Financial's mortgage banking business, BOK Financial has acquired substantial holdings of mortgage servicing rights. The value of these rights is also very sensitive to changes in interest rates. Falling interest rates tend to increase loan prepayments, which may lead to cancellation of the related servicing rights. BOK Financial's investments and dealings in mortgage-related products increase the risk that falling interest rates could adversely affect BOK Financial's business. BOK Financial attempts to manage this risk by maintaining an active hedging program for its mortgage servicing rights. BOK Financial's hedging program has only been partially successful in recent years.

SUBSTANTIAL COMPETITION COULD ADVERSELY AFFECT BOK FINANCIAL.

Banking is a competitive business. BOK Financial competes actively for loan, deposit and other financial services business in Oklahoma, as well as in BOK Financial's other markets. BOK Financial's competitors include a large number of small and large local and national banks, savings and loan associations, credit unions, trust companies, broker-dealers and underwriters, as well as many financial and nonfinancial firms that offer services similar to BOK Financial's. Large national financial institutions have entered the Oklahoma market. These institutions have substantial capital, technology and marketing resources. Such large financial institutions may have greater access to capital at a lower cost than BOK Financial does, which may adversely affect BOK Financial's ability to compete effectively. In addition, there have been a number of recent mergers involving financial institutions located in Oklahoma and BOK Financial's other markets. Significant limitations in Oklahoma on the ability of existing banks to establish branches expired on June 30, 1999. Accordingly, BOK Financial may face increased competition from both merged banks and new entrants to BOK Financial's markets. BOK Financial has expanded into markets outside of Oklahoma, where it competes with a large number of financial institutions that have an established customer base and greater market share than BOK Financial. BOK Financial may not be able to continue to compete successfully in these markets outside of Oklahoma. With respect to some of its services, BOK Financial competes with non-bank companies that are not subject to regulation. The absence of regulatory requirements may give non-banks a competitive advantage.

ADVERSE FACTORS COULD IMPACT BOK FINANCIAL'S ABILITY TO IMPLEMENT ITS OPERATING STRATEGY.

Although BOK Financial has developed an operating strategy which it expects to result in continuing improved financial performance, BOK Financial cannot assure you that it will be successful in fulfilling this strategy or that this operating strategy will be successful. Achieving success is dependent upon a number of factors, many of which are beyond BOK Financial's direct control. Factors that may adversely affect BOK Financial's ability to implement its operating strategy include:

- * deterioration of BOK Financial's asset quality;
- * inability to control BOK Financial's noninterest expenses;
- * inability to increase noninterest income;

Edgar Filing: BOK FINANCIAL CORP ET AL - Form S-3

- * deterioration in general economic conditions, especially in BOK Financial's core markets;
- * decreases in net interest margins;
- * increases in competition; and
- * adverse regulatory developments.

BANKING REGULATIONS OR CHANGES IN BANKING REGULATIONS COULD ADVERSELY AFFECT BOK FINANCIAL.

BOK Financial and its subsidiaries are extensively regulated under both federal and state law. In particular, BOK Financial is subject to the Bank Holding Company Act of 1956 and its subsidiary banks are subject to the National Bank Act. These regulations are primarily for the benefit and protection of BOK Financial's customers and not for the benefit of BOK Financial's shareholders. In the past, BOK Financial's business has been materially effected by these regulations. For example, regulations limit BOK Financial's business to banking and related businesses, and they limit the location of BOK Financial's branches and offices, as well as the amount of deposits that it can hold in a particular state. These regulations may limit BOK Financial's ability to grow and expand into new markets and businesses.

Additionally, under the Community Reinvestment Act, BOK Financial is required to provide services in traditionally underserved areas. BOK Financial's ability to make acquisitions and engage in new business may be limited by these requirements.

In addition, the Federal Deposit Insurance Corporation Improvement Act of 1991 and the Bank Holding Company Act of 1956, and various regulations of regulatory authorities, require us to maintain specified capital ratios. Any failure to maintain required capital ratios would limit the growth potential of BOK Financial's business.

Under a long-standing policy of the Board of Governors of the Federal Reserve System, a bank holding company is expected to act as a source of financial strength for its subsidiary banks. As a result of that policy, BOK Financial may be required to commit financial and other resources to its subsidiary banks in circumstances where we might not otherwise do so.

The trend toward extensive regulation is likely to continue in the future. Laws, regulations or policies currently affecting us and BOK Financial's subsidiaries may change at any time. Regulatory authorities may also change their interpretation of these statutes and regulations. Therefore, BOK Financial's business may be adversely affected by any future changes in laws, regulations, policies or interpretations.

STATUTORY RESTRICTIONS ON SUBSIDIARY DIVIDENDS AND OTHER DISTRIBUTIONS AND DEBTS OF BOK FINANCIAL'S SUBSIDIARIES COULD LIMIT AMOUNTS BOK FINANCIAL'S SUBSIDIARIES MAY PAY TO BOK FINANCIAL.

BOK Financial is a bank holding company, and a substantial portion of BOK Financial's cash flow typically comes from dividends that BOK Financial's bank and nonbank subsidiaries pay to BOK Financial. Various statutory provisions restrict the amount of dividends BOK Financial's subsidiaries can pay to BOK Financial without regulatory approval. Management has also developed, and the BOK Financial board of directors approved, an internal capital policy that is more restrictive than the regulatory capital standards. In addition, if any of BOK Financial's subsidiaries liquidates, that subsidiary's creditors will be entitled to receive distributions from the assets of that subsidiary to satisfy their claims against it before BOK Financial, as a holder of an equity interest

Edgar Filing: BOK FINANCIAL CORP ET AL - Form S-3

in the subsidiary, will be entitled to receive any of the assets of the subsidiary. If, however, BOK Financial is a creditor of the subsidiary with recognized claims against it, BOK Financial will be in the same position as other creditors.

ALTHOUGH PUBLICLY TRADED, BOK FINANCIAL'S COMMON STOCK HAS SUBSTANTIALLY LESS LIQUIDITY THAN THE AVERAGE TRADING MARKET FOR A STOCK QUOTED ON THE NASDAQ NATIONAL MARKET SYSTEM.

A relatively small fraction of BOK Financial's outstanding common stock is actively traded. The risks of low liquidity include increased volatility of the price of BOK Financial's common stock. Low liquidity may also limit holders of BOK Financial's common stock in their ability to sell or transfer BOK Financial's shares at the price, time and quantity desired.

BOK FINANCIAL'S PRINCIPAL SHAREHOLDER CONTROLS A MAJORITY OF BOK FINANCIAL'S COMMON STOCK.

Mr. George B. Kaiser owns a majority of the outstanding shares of BOK Financial common stock. Following the merger, Mr. Kaiser will continue to be able to elect all of BOK Financial's directors and effectively to control the vote on all matters submitted to a vote of BOK Financial's common shareholders. Mr. Kaiser's ability to prevent an unsolicited bid for BOK Financial or any other change in control could have an adverse effect on the market price for BOK Financial's common stock. A substantial majority of BOK Financial's directors are not officers or employees of BOK Financial or any of its affiliates. However, because of Mr. Kaiser's control over the election of BOK Financial's directors, he could change the composition of BOK Financial's Board of Directors so that it would not have a majority of outside directors.

POSSIBLE FUTURE SALES OF SHARES BY BOK FINANCIAL'S PRINCIPAL SHAREHOLDER COULD ADVERSELY AFFECT THE MARKET PRICE OF BOK FINANCIAL'S COMMON STOCK.

Mr. Kaiser has the right to sell shares of BOK Financial's common stock in compliance with the federal securities laws at any time, or from time to time. The federal securities laws are the only restrictions on Mr. Kaiser's ability to sell. Because of his current control of BOK Financial, Mr. Kaiser could sell large amounts of his shares of BOK Financial common stock by causing BOK Financial to file a registration statement that would allow him to sell shares more easily. In addition, Mr. Kaiser could sell his shares of BOK Financial common stock without registration under Rule 144 of the Securities Act. Although BOK Financial can make no predictions as to the effect, if any, that such sales would have on the market price of BOK Financial common stock, sales of substantial amounts of BOK Financial common stock, or the perception that such sales could occur, could adversely affect market prices. If Mr. Kaiser sells or transfers his shares of BOK Financial common stock as a block, another person or entity could become BOK Financial controlling shareholder.

BOK FINANCIAL HAS AGREED TO PROVIDE BENCHMARK PRICE PROTECTION TO FORMER BANK OF TANGLEWOOD, NA SHAREHOLDERS.

Subject to certain limitations, BOK Financial agreed to provide benchmark price protection for 50% of the shares of BOK Financial common stock issued to former Bank of Tanglewood, N.A. shareholders in the merger between TW Interim National Bank, a wholly owned subsidiary of BOK Financial, and Bank of Tanglewood, N.A. If BOK Financial stock does not perform above certain benchmark target prices at certain benchmark dates, BOK Financial may be required to, at its option, either issue up to 10,000,000 shares of BOK Financial common stock or make payments in cash to such shareholders, which may cause dilution of BOK Financial common stock or a decrease in BOK Financial earnings.

Edgar Filing: BOK FINANCIAL CORP ET AL - Form S-3

The selling stockholders and any broker-dealers who act in connection with the sale of the offered shares may be deemed to be "underwriters" within the meaning of 2(11) of the Securities Act, and any commissions received by them and profit on resale of the offered shares as principal might be deemed to be underwriting discounts and commissions under the Securities Act.

We have advised the selling stockholders that they and any securities broker-dealers or others who may be deemed to be statutory underwriters will be subject to the prospectus delivery requirements under the Securities Act. We also have advised each selling stockholder that in the event of a "distribution" of the shares owned by the selling stockholder, such selling stockholder, any "affiliated purchasers", and any broker-dealer or other person who participates in such distribution may be subject to Rule 10b-6 under the Exchange Act until their participation in that distribution is completed. A "distribution" is defined in Rule 10b-6 as an offering of securities "that is distinguished from ordinary trading transactions by the magnitude of the offering and the presence of special selling efforts and selling methods". BOK Financial has also advised the selling stockholders that Rule 10b-7 under the Exchange Act prohibits any "stabilizing bid" or "stabilizing purchase" for the purpose of pegging, fixing or stabilizing the price of common stock in connection with this offering.

Rule 10b-6 makes it unlawful for any person who is participating in a distribution to bid for or purchase stock of the same class as is the subject of the distribution. If Rule 10b-6 applies to the offer and sale of any of the offered shares, then the participating broker-dealers will be obligated to cease market-making activities nine business days prior to their participation in the offer and sale of the offered shares and may not recommence market-making activities until their participation in the distribution has been completed. If Rule 10b-6 applies to one or more of the principle market-makers in BOK Financial's common stock, the market price of such stock could be adversely affected.

Item 17. Undertakings.

(a) The undersigned Registrant hereby undertakes:

(1) To file, during any period which offers or sales are being made, a post-effective amendment to this Registration Statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the Registration Statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the Registration Statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective Registration Statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the Registration Statement or any material change to such information in the Registration Statement;

Provided, however, that paragraphs (a)(1)(i) and (a)(1)(ii) do not apply if the

Edgar Filing: BOK FINANCIAL CORP ET AL - Form S-3

information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed with or furnished to the SEC by the Registrant pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the Registration Statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(b) The undersigned Registrant hereby undertakes that, for purposes of determining any liability under the Securities Act, each filing of the Registrant's annual report pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Exchange Act) that is incorporated by reference in the Registration Statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

(e) The undersigned Registrant hereby undertakes to respond to requests for information that is incorporated by reference into the Proxy Statement/Prospectus pursuant to Items 4, 10(b), 11, or 13 herein, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means. This includes information contained in documents filed subsequent to the effective date of the Registration Statement through the date of responding to the request.

(f) The undersigned Registrant hereby undertakes to supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of and included in the Registration Statement when it became effective.
