GM's Hughes Electronics to Merge With EchoStar Communications

- Stockholders and Consumers Benefit As Combined Hughes-EchoStar Provides Meaningful Competitor To Cable TV Companies

NEW YORK General Motors Corp. and its subsidiary Hughes Electronics (NYSE: GM, GMH) together with EchoStar Communications Corporation (NASDAQ: DISH), today announced the signing of definitive agreements that provide for the spin-off of Hughes from GM and the merger of Hughes with EchoStar.

The combined company would use the EchoStar name and adopt the DIRECTV brand for its services and related products. The merger would create the nation's second-largest pay television platform with more than 16.7 million subscribers, of which 1.8 million subscribers are National Rural Telecommunications Cooperative (NRTC) and affiliates, and 14.9 million subscribers are owned-and-operated by the combined company. Cable TV companies presently control more than 80 percent of the U.S. pay television market, while a combined EchoStar-Hughes would provide service to about 17 percent of the market.

The spin-off of Hughes from GM would result in current holders of Class H common stock receiving one share of new Hughes Class C common stock in exchange for each share of Class H stock held prior to the spin-off. The merger of Hughes and EchoStar would result in Hughes being the surviving entity and taking the name EchoStar Communications Corp. Holders of Class A EchoStar common stock prior to the merger would receive 1.3699 shares of the new EchoStar in exchange for each share of Class A EchoStar common stock held prior to the merger. Based on the closing price of EchoStar common stock of \$25.26 on Oct. 26, 2001, the transaction would provide a value of approximately \$18.44 per GMH share, representing a 20-percent premium. As of Oct. 26, 2001, the implied market capitalization of Hughes was approximately \$21.3 billion and the market capitalization of EchoStar was approximately \$12.1 billion.

The transaction is expected to require approximately \$5.5 billion of total financing, which EchoStar expects to fund in the capital markets prior to closing. Completion of this financing has been backstopped by a bridge commitment of approximately \$2.75 billion from Deutsche Bank, and a bridge commitment of approximately \$2.75 billion from General Motors, the latter of which the parties plan to replace with a commitment from one or more other leading financial institutions in the near future. The GM bridge commitment is secured by a pledge of \$2.75 billion of EchoStar stock held by a trust controlled by EchoStar Chairman and Chief Executive Officer Charles Ergen.

The transaction is subject to a number of conditions, including approval by a majority of each class of GM shareholders - GM \$1-2/3 and GM Class H - voting both separately as distinct classes, and also together as a single class. Approval of the majority of EchoStar's voting shares has already been given by written consent. The proposed transaction also is subject to regulatory clearance under the Hart-Scott-Rodino Act and approval by the Federal Communications Commission. The transaction is also contingent upon the receipt of a favorable ruling from the Internal Revenue

Service that the separation of Hughes from GM will qualify as a tax-free spin-off for U.S. Federal Income Tax purposes. The transaction is currently expected to close in the second half of 2002.

This transaction provides significant benefits to Hughes, EchoStar, millions of present and future DIRECTV customers, and shareholders of both GM and EchoStar, said GM President and Chief Executive Officer Rick Wagoner. We've said all along that we wanted to structure an agreement that would provide continued strong growth at Hughes and maximum value for both GM and GM Class H shareholders. This transaction achieves these objectives.

Strong Growth Prospects and Significant Synergies

This is an extremely compelling combination for GM, GMH and EchoStar shareholders, Ergen said. The combination of EchoStar and Hughes is expected to generate very substantial synergies utilizing the advantages of direct-broadcast satellite television, cost savings from the elimination of costly duplicate satellite bandwidth and infrastructure, and strong management offering more effective fundamental business practices. The new company would also have enhanced scale to compete more effectively against the dominant U.S. cable and broadband providers - a critical factor given increasing consolidation in the cable industry.

U.S. consumers also would benefit from the combined company's ability to increase significantly the number of markets served with local channels via satellite, provide additional channel offerings, increase high-definition TV (HDTV) offerings and accelerate the introduction of next-generation high-speed Internet services, Ergen continued.

Together, EchoStar's DISH Network and Hughes' DIRECTV also can provide a range of services that would bridge the digital divide - providing high-speed broadband solutions to consumers and businesses. Importantly, these services would be available in rural areas otherwise far from the information superhighway at rates which the company is prepared to assure regulators would be competitive.

Hughes and its operating companies would be well positioned to thrive as part of this merged company, said Jack A. Shaw, chief executive officer of Hughes. DIRECTV would enjoy significant cost efficiencies and better use of its assets. Hughes Network Systems would play a key strategic part in the growth of satellite-delivered broadband. PanAmSat would have continued growth opportunities. And DIRECTV Latin America would benefit from the synergies of the larger combined company, Shaw said.

The new company, which would retain the EchoStar name but would use the DIRECTV brand for consumer offerings, would be based in Littleton, Colo., and would employ approximately 20,000 people and serve more than approximately 14.9 million direct-broadcast satellite TV customers. EchoStar and Hughes have pledged that the merger would not cause disruption of service or additional expense to existing customers of either DIRECTV or DISH Network service.

The new EchoStar would be led by Ergen as chairman and chief executive officer. The board of directors would consist of nine members, five of whom would be independent directors.

Ergen added, I think it is significant that EchoStar and Hughes have agreed to a fair and balanced process for identifying the most qualified people from both companies in order to select the best person for every job, regardless where they worked prior to the merger. This is a key provision that Hughes management felt strongly about and to which EchoStar readily agreed.

A transition team made up of Shaw and DIRECTV Chairman and CEO Eddy Hartenstein from Hughes, as well as Ergen and EchoStar President Michael Dugan will assure a smoother and orderly process.

Significant Proceeds for GM

As part of the transaction, General Motors would receive up to \$4.2 billion in cash for redemption of part of its economic interest in Hughes. Pro forma for the cash redemption (assuming illustratively a price of \$18.44 based on the implied deal value), GM Class H shareholder would own approximately 53 percent of the combined company, EchoStar's shareholders would own approximately 36 percent, and GM would own approximately 11 percent. In addition, prior to the transaction, GM would seek to exchange up to 100 million shares of GM Class H common stock (or after the transaction 100 million shares of EchoStar common stock) for GM outstanding debt, which would further improve GM's net liquidity position.

This transaction offers substantial financial benefits now and over the long term for GM \$1-2/3 and GM Class H shareholders, Wagoner said. GM Class H shareholders would receive a significant premium on their investment. For GM \$1-2/3 shareholders, GM expects to receive \$4.2 billion in cash, and would retain a significant investment in the merged company.

GM intends to file a registration statement in connection with the transaction and mail a proxy statement/prospectus to both GM and GM Class H stockholders in connection with the transaction. Investors are urged to read the proxy statement/prospectus when it becomes available because it will contain important information about GM, Hughes and the transaction.
