VF CORPORATION
Notes to Consolidated Financial Statements
(Unaudited)

Note A Basis of Presentation

VF Corporation (and its subsidiaries collectively known as VF) operate and report using a 52/53 week fiscal year ending on the Saturday closest to December 31 of each year. Similarly, the fiscal first quarter ends on the Saturday closest to March 31. For presentation purposes herein, all references to periods ended March 2008, December 2007 and March 2007 relate to the fiscal periods ended on March 29, 2008, December 29, 2007 and March 31, 2007, respectively.

The accompanying unaudited consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X and do not include all of the information and notes required by accounting principles generally accepted in the United States of America for complete financial statements. Similarly, the December 2007 consolidated balance sheet was derived from audited financial statements but does not include all disclosures required by generally accepted accounting principles. In the opinion of management, the accompanying unaudited consolidated financial statements contain all normal and recurring adjustments necessary to make a fair statement of the consolidated financial position, results of operations and cash flows of VF for the interim periods presented. Operating results for the three months ended March 2008 are not necessarily indicative of results that may be expected for any other interim period or for the year ending January 3, 2009. For further information, refer to the consolidated financial statements and notes included in VF s Annual Report on Form 10-K for the year ended December 2007 (2007 Form 10-K).

In April 2007, VF sold its intimate apparel business consisting of its domestic and international women s intimate apparel business units. Accordingly, the Consolidated Statements of Income and Consolidated Statements of Cash Flows present the intimate apparel businesses as discontinued operations for all periods. Similarly, the assets and liabilities of the discontinued operations have been separately presented in the Consolidated Balance Sheets. Amounts presented herein, unless otherwise stated, relate to continuing operations. See Note D.

Other prior year amounts, none of which are material, have been reclassified to conform with the 2008 presentation.

Note B Changes in Accounting Policies

During the first quarter of 2008, VF adopted Financial Accounting Standards Board (FASB) Statement No. 157, *Fair Value Measurements* (Statement 157), which clarified the definition of fair value, established a framework and a hierarchy based on the level of observability and judgment associated with inputs used in measuring fair value, and expanded disclosures about fair value measurements. Statement 157 applies whenever other accounting pronouncements require or permit assets or liabilities to be measured at fair value but does not require any new fair value measurements. As permitted by FASB Staff Position No. 157-2, *Effective Date of FASB Statement No. 157*, the disclosure provisions of Statement 157 relating to nonrecurring measurements of nonfinancial assets and nonfinancial liabilities are deferred until VF s 2009 fiscal year. This deferral of disclosures applies primarily to nonfinancial assets and nonfinancial liabilities initially measured at fair value in a business combination or measured at fair value for an impairment assessment.

Fair value is defined in Statement 157 as the price that would be received to sell an asset or paid to transfer a liability (i.e., an exit price) in the principal or most advantageous market in an orderly transaction between market participants. In determining fair value, Statement 157 establishes a three-level hierarchy that distinguishes between (i) market data obtained or developed from independent sources (i.e., observable data inputs) and (ii) a reporting entity's own data and judgments about assumptions that market participants would use in pricing an asset or liability (i.e., unobservable data inputs). Financial assets and financial liabilities measured and reported at fair value are classified in one of the following categories, in order of priority of observability and objectivity of pricing inputs:

Level 1 Fair value based on quoted prices in active markets for identical assets or liabilities.

Level 2 Fair value based on significant directly observable data (other than Level 1 quoted prices) or significant indirectly observable data through corroboration with observable market data. Inputs would normally be (i) quoted prices in active markets for similar assets or liabilities, (ii) quoted prices in inactive markets for identical or similar assets or liabilities or (iii) inputs derived from or corroborated by observable market data.

Level 3 Fair value based on prices or valuation techniques that require significant unobservable data inputs. Inputs would normally be a reporting entity's own data and assumptions that market participants would use in pricing the asset or liability.

The following table summarizes financial assets and financial liabilities measured at fair value on a recurring basis at March 2008:

	Total Fair Value	Fair Value Measurements Using:		
		Quoted Price in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
In thousands				
Financial assets:				
Cash equivalents	\$106,700	\$106,700		
Investment securities	214,664	164,576	\$ 50,088	
Derivative instruments	646		646	
Financial liabilities:				
Derivative instruments	22,513		22,513	
Deferred compensation	243,137		243,137	

Cash equivalents represent funds held in institutional money market funds. Investment securities consist primarily of mutual funds and a separately managed fixed income fund purchased in substantially the same amounts as participant-directed investment selections, which represent the underlying liabilities to participants in VF's deferred compensation plans. Liabilities under deferred compensation plans are recorded at amounts due to participants, based on the fair value of participant-selected investments. Derivative instruments represent net unrealized gains or losses on foreign currency forward exchange contracts, which is the net difference between (i) the U.S. dollars to be received or paid at the contracts' settlement date and (ii) the U.S. dollar value of the foreign currency to be sold or purchased at the current forward exchange rate.

VF also adopted FASB Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (Statement 159) in the first quarter of 2008. Statement 159 permits companies to measure at

fair value eligible financial assets and financial liabilities that were not otherwise required to be recorded at fair value, with changes in fair value recognized in net income as they occur. Since VF has not elected to apply fair value accounting to any additional items, the adoption of Statement 159 had no impact.

In addition, as required beginning in the first quarter of 2008, VF adopted Emerging Issues Task Force (EITF) 06-11, *Accounting for Income Tax Benefits of Dividends on Share-Based Payment Awards*, which requires that the tax benefit related to dividend equivalents declared on restricted stock units that are expected to vest be recorded as an increase in additional paid-in capital. The impact of adopting EITF 06-11 was not significant.

Note C Acquisitions

During 2007, VF acquired the Seven For All Mankind, Lucy, Majestic and Eagle Creek businesses, and reacquired rights to market *The North Face*[®] brand in China and Nepal (collectively, the 2007 Acquisitions). The most significant acquisition, Seven For All Mankind, had a cost of \$773.1 million. At the end of 2007, the purchase price allocation of the Seven For All Mankind acquisition was subject to possible adjustment for valuation of its intangible assets. As a result of the receipt of the final valuation during the first quarter of 2008, the amount assigned to the indefinite-lived trademark intangible asset was reduced from \$340.0 million to \$313.7 million and amounts assigned to amortizable intangible assets (customer relationships and other) were reduced from \$185.0 million to \$182.8 million, with offsetting increases in goodwill.

Note D Sale of Intimate Apparel Business

In December 2006, management and the Board of Directors decided to exit VF s domestic and international women s intimate apparel business (formerly referred to as the Intimate Apparel Coalition, a reportable business segment). On April 1, 2007, VF sold the net assets of this business (except for an investment in marketable securities of an intimate apparel supplier) for \$348.7 million, plus \$28.8 million related to the business unit s Cash and Equivalents. The results of operations and cash flows of the intimate apparel business are separately presented as discontinued operations for all periods in accordance with FASB Statement No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. Similarly, the assets and liabilities of this business have been reported as held for sale.

Summarized operating results for the discontinued intimate apparel business are as follows:

In thousands	Three Months Ended March 2007
Total revenues	\$ 192,789
Income from discontinued operations, net of income taxes of \$2,471	\$ 4,266

Summarized assets and liabilities of discontinued operations presented in the Consolidated Balance Sheets are as follows:

Edgar Filing: V F CORP - Form 10-Q

In thousands	March 2008	December 2007	March 2007
Accounts receivable, net	\$	\$	\$ 107,591

Intangible assets, net				\$ 1,414,249	\$ 1,435,269

* Amortization of license agreements accelerated and straight-line methods; customer relationships accelerated methods; trademarks and other accelerated and straight-line methods.

Amortization expense of intangible assets for the first quarter of 2008 was \$9.9 million. Estimated amortization expense for the remainder of 2008 is \$27.2 million and for the years 2009 through 2012 is \$31.4 million, \$29.4 million, \$27.9 million and \$26.3 million, respectively.

Note F Goodwill

(In thousands)	Jeanswear	Outdoor	Imagewear	Sportswear	Contemporary Brands	Total
----------------	-----------	---------	-----------	------------	------------------------	-------

Edgar Filing: V F CORP - Form 10-Q

Balance, December 2007	\$ 232,068	\$ 564,867	\$ 56,246	\$ 215,767	\$ 209,215	\$ 1,278,163
Adjustments to purchase price allocation		(94)			30,384	30,290
Currency translation	3,776	19,857			637	24,270
Balance, March 2008	\$ 235,844	\$ 584,630	\$ 56,246	\$ 215,767	\$ 240,236	\$ 1,332,723

Note G Pension Plans

VF's net periodic pension cost contained the following components:

(In thousands)	Three Months Ended March	
	2008	2007
Service cost – benefits earned during the year	\$ 4,162	\$ 5,099
Interest cost on projected benefit obligations	17,276	16,914
Expected return on plan assets	(20,840)	(20,652)
Amortization of:		
Prior service cost	673	672
Actuarial loss	463	1,323
 Net periodic pension cost	 1,734	 3,356
 Amount allocable to discontinued operations		 (78)
 Net periodic pension cost – continuing operations	 \$ 1,734	 \$ 3,278

During the first quarter of 2008, VF made contributions totaling \$0.7 million to fund benefit payments for the Supplemental Executive Retirement Plan (SERP). VF currently anticipates making an additional \$2.5 million of contributions to fund benefit payments for the SERP during the remainder of 2008. Due to the funded status of the qualified pension plan, VF is not required under applicable regulations, and does not currently intend, to make a contribution to the plan during 2008.

Note H Business Segment Information

For internal management and reporting purposes, VF's businesses are grouped principally by product categories, and by brands within those product categories. These groupings of businesses are referred to as coalitions. These coalitions represent VF's reportable segments. Financial information for VF's reportable segments is as follows:

(In thousands)	Three Months Ended March	
	2008	2007
Coalition revenues:		
Jeanswear	\$ 712,228	\$ 760,804
Outdoor	636,244	538,753
Imagewear	247,034	213,691
Sportswear	132,226	148,440
Contemporary Brands	95,970	
Other	22,639	11,931
Total coalition revenues	\$ 1,846,341	\$ 1,673,619
Coalition profit:		
Jeanswear	\$ 122,277	\$ 129,453
Outdoor	105,506	83,745
Imagewear	33,253	30,454
Sportswear	740	9,974
Contemporary Brands	14,805	
Other	(2,775)	(1,212)
Total coalition profit	273,806	252,414
Corporate and other expenses	(29,831)	(36,823)
Interest, net	(20,503)	(11,479)
Income from continuing operations before income taxes	\$ 223,472	\$ 204,112

Note I Capital and Comprehensive Income (Loss)

Common stock outstanding is net of shares held in treasury, and in substance retired. There were 11,852,218 treasury shares at March 2008, 10,042,686 at December 2007 and 7,926,686 at March 2007. The excess of the cost of treasury shares acquired over the \$1 per share stated value of Common Stock is deducted from Retained Earnings. In addition, 265,823 shares of VF Common Stock at March 2008, 284,103 shares at December 2007, and 279,618 shares at March 2007 were held in trust for deferred compensation plans. These shares held for deferred compensation plans are treated for financial reporting purposes as treasury shares at a cost of \$10.4 million, \$11.8 million and \$11.2 million at each of the respective dates.

There are 25,000,000 authorized shares of Preferred Stock, \$1 par value. Of these shares, 2,000,000 were designated as Series A, of which none were issued. On April 22, 2008, these Series A preferred shares were eliminated.

Activity for 2008 in the Common Stock, Additional Paid-in Capital and Retained Earnings accounts is summarized as follows:

(In thousands)	Common Stock	Additional Paid-in Capital	Retained Earnings
Balance, December 2007	\$ 109,798	\$ 1,619,320	\$ 1,786,216
Net income			149,032
Cash dividends on Common Stock			(63,528)
Purchase of treasury stock	(1,656)		(122,020)
Stock compensation plans, net	782	44,994	(10,486)
Balance, March 2008	\$ 108,924	\$ 1,664,314	\$ 1,739,214

Other comprehensive income consists of changes in assets and liabilities that are not included in Net Income under generally accepted accounting principles but are instead reported within a separate component of Common Stockholders' Equity. VF's comprehensive income was as follows:

(In thousands)	Three Months Ended March	
	2008	2007
Net income	\$ 149,032	\$ 138,344
Other comprehensive income:		
Foreign currency translation		
Amount arising during the period	90,388	6,933
Defined benefit pension plans		
Reclassification to net income during the period	1,137	1,996
Adjustment of funded status	25,950	
Unrealized losses on derivative financial instruments		
Amount arising during the period	(11,319)	(2,407)
Reclassification to net income during the period	7,700	(673)
Unrealized losses on marketable securities		
Amount arising during the period	(4,319)	(4,304)
Income tax benefit (expense) related to components of other comprehensive income	(32,058)	2,255
Other comprehensive income	77,479	3,800
Comprehensive income	\$ 226,511	\$ 142,144

Accumulated Other Comprehensive Income (Loss) for 2008 is summarized as follows:

In thousands	Foreign Currency Translation	Defined Benefit Pension Plans	Derivative Financial Instruments	Marketable Securities	Total
Balance, December 2007	\$ 126,171	\$ (63,975)	\$ (8,419)	\$ 7,718	\$ 61,495
Other comprehensive income (loss)	67,328	16,702	(2,232)	(4,319)	77,479
Balance, March 2008	\$ 193,499	\$ (47,273)	\$ (10,651)	\$ 3,399	\$ 138,974

Note J Stock-based Compensation

During the first quarter of 2008, VF granted options for 1,373,945 shares of Common Stock at an exercise price of \$79.50, equal to the fair market value of VF Common Stock on the date of grant. The options vest in equal annual installments over a three year period. The fair value of these options was estimated using a lattice valuation model for employee groups having similar exercise behaviors, with the following assumptions: expected volatility ranging from 23% to 36%, with a weighted average of 27%; expected term of 4.8 to 7.3 years; expected dividend yield of 2.8%; and risk-free interest rate ranging from 2.1% at six months to 3.6% at 10 years. The resulting weighted average fair value of these options at the date of grant was \$18.59 per option.

Also during the first quarter of 2008, VF granted 288,834 performance-based restricted stock units. Participants are eligible to receive shares of VF Common Stock at the end of a three year performance period. The actual number of shares, if any, that will be earned will be based on VF's performance over that period. The grant date fair value of the restricted stock units was \$78.10 per unit.

In addition, during the first quarter of 2008, VF granted 6,000 shares of restricted VF Common Stock with a fair value of \$78.08 per share to a member of management. One-third of these shares will vest in each of 2012, 2013 and 2014.

Note K Income Taxes

The effective income tax rate was 33.3% for the first three months of 2008, compared with 34.3% in the comparable period of 2007. The lower rate in 2008 was due to a higher percentage of income in lower tax jurisdictions outside the United States. The effective tax rate for the full year 2007 was 32.3%, which included the favorable impact from expiration of statutes of limitations and tax audit settlements.

VF files a consolidated U.S. federal income tax return, as well as separate and combined income tax returns in numerous state and foreign jurisdictions. In the United States, tax years 2002 and 2003 are in the appeals process with the Internal Revenue Service (IRS), and management expects to resolve open matters during 2008. In 2008, the IRS commenced an examination of tax years 2004, 2005 and 2006. The United Kingdom Inland Revenue has included the 2005 taxable year in the current 2001-2004 examination. VF expects to settle the years under examination in 2008 and expects the settlement to include the 2006 taxable year for certain items under discussion. Tax years 1998 to 2002 are under examination by the State of North Carolina, and tax years 2003 to 2005 are under examination by the State of Alabama. VF is also currently subject to examination by various other taxing authorities. Management believes that some of these audits and negotiations will conclude during the next 12 months.

During the first quarter of 2008, the amount of unrecognized tax benefits was increased by \$3.2 million due to tax positions taken in the current period. Management believes that it is reasonably possible that the

amount of unrecognized income tax benefits may decrease during 2008 by approximately \$25 million due to settlement of audits and expiration of statutes of limitations, which includes \$18 million that would reduce income tax expense.

Note L Earnings Per Share

Earnings per share from continuing operations were computed as follows:

(In thousands, except per share amounts)	Three Months Ended	
	2008	2007
Basic earnings per share:		
Income from continuing operations	\$ 149,032	\$ 134,078
Weighted average Common Stock outstanding	109,361	111,893
Basic earnings per share from continuing operations	\$ 1.36	\$ 1.20
Diluted earnings per share:		
Income from continuing operations	\$ 149,032	\$ 134,078
Weighted average Common Stock outstanding	109,361	111,893
Effect of dilutive securities:		
Stock options and other	2,516	2,927
Weighted average Common Stock and dilutive securities outstanding	111,877	114,820
Diluted earnings per share from continuing operations	\$ 1.33	\$ 1.17

Outstanding options to purchase 1.4 million shares of Common Stock in 2008 were excluded from the computation of diluted earnings per share because the effect of their inclusion would have been antidilutive. Earnings per share for Discontinued Operations and Net Income were computed using the same weighted average shares described above.

Note M Recently Issued Accounting Standards

In December 2007, the FASB issued FASB Statement No. 141(Revised), *Business Combinations* (Statement 141(R)), which revises how business combinations are accounted for, both at the acquisition date and in subsequent periods. Statement 141(R) requires the acquiring entity in a business combination to (i) recognize the full fair value of assets acquired and liabilities assumed in either a full or a partial acquisition, (ii) measure all assets acquired and liabilities assumed at their fair value at the acquisition date, (iii) expense transaction and restructuring costs and (iv) provide additional disclosures. Statement 141(R) is effective for transactions in which VF obtains control of a business beginning in its 2009 fiscal year. The impact on VF of adopting Statement 141(R) will depend on the nature, terms and size of business combinations completed after the effective date.

Also in December 2007, the FASB issued FASB Statement No. 160, *Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51* (Statement 160). Statement 160 requires a company to classify noncontrolling (minority) interests as equity instead of as a liability and provides guidance on the accounting for

transactions between an entity and noncontrolling interests. Statement 160, effective for VF s

15

2009 fiscal year, requires retroactive adoption of the presentation and disclosure requirements, with all other requirements to be applied prospectively. VF is currently evaluating the impact of adopting Statement 160. In March 2008, the FASB issued FASB Statement No. 161, *Disclosures about Derivative Instruments and Hedging Activities* an amendment of FASB Statement No. 133 (Statement 161). Statement 161 requires enhanced disclosures about an entity's derivative and hedging activities and thereby improves the transparency of financial reporting. This Statement is effective for financial statements issued for VF's 2009 fiscal year. VF is currently evaluating the impact of adopting Statement 161.

Note N Subsequent Events

VF's Board of Directors declared a regular quarterly cash dividend of \$0.58 per share, payable on June 20, 2008 to shareholders of record on June 10, 2008.

Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

Highlights of the first quarter of 2008 included:

Revenues, income from continuing operations and earnings per share for the first quarter were each at record levels.

Revenues increased 10% over the prior year quarter to \$1,846.3 million, with 8% of the increase coming from our recent acquisitions and 2% from organic growth primarily in our Outdoor businesses.

Direct-to consumer and international businesses continue to be key drivers of growth, with these revenues in the quarter rising 24% and 21%, respectively. International revenues represented 36% of total revenues.

Gross margin percentage rose to 45.1% from 43.5% in the prior year quarter.

Income from continuing operations increased 11% to \$149.0 million, compared with \$134.1 million in the prior year quarter, resulting from the strong performance of our Outdoor and Contemporary Brands Coalitions. Earnings per share from continuing operations increased 14% to \$1.33. (All per share amounts are presented on a diluted basis.)

Discontinued Operations

In December 2006, management and the Board of Directors decided to exit the women's intimate apparel business. The transaction, which closed on April 1, 2007, is consistent with VF's stated objective of focusing on lifestyle businesses having higher growth and profit potential. The results of operations and cash flows of the intimate apparel business are separately presented as discontinued operations for all periods. Similarly, the assets and liabilities of this business have been reclassified and reported as held for sale for all periods presented. See Note D to the Consolidated Financial Statements. **Unless otherwise stated, the remaining sections of this discussion and analysis of financial condition and results of operations relate only to continuing operations.**

Analysis of Results of Operations

Consolidated Statements of Income

The following table presents a summary of the changes in our Total Revenues from 2007:

(In millions)	First Quarter 2008 Compared with 2007
Total revenues 2007	\$ 1,674
Organic growth	31
Acquisitions in prior year (to anniversary date)	141
 Total revenues 2008	 \$ 1,846

During 2007, VF acquired the Seven For All Mankind, Lucy, Majestic and Eagle Creek businesses and reacquired rights to market *The North Face*[®] brand in China and Nepal (collectively, the 2007 Acquisitions). The increase in Total Revenues in the first quarter of 2008 was due primarily to the 2007 Acquisitions, which added \$141 million of revenues. The strong organic revenue growth within the Outdoor coalition in the first quarter was offset, in part, by declines in the domestic Jeanswear and Sportswear businesses. Additional details on revenues are provided in the section titled Information by Business Segment.

During the first quarter of 2008, approximately 36% of Total Revenues were in international markets. In translating foreign currencies into the U.S. dollar, a weaker U.S. dollar in relation to the functional currencies where VF conducts the majority of its international business (primarily the European euro countries) benefited revenue comparisons by \$56 million in the first quarter of 2008 relative to the 2007 quarter. If currency translation rates were to remain at current levels, reported revenues for the remainder of 2008 would be positively impacted compared with 2007. The following table presents the percentage relationship to Total Revenues for components of our Consolidated Statements of Income:

	Three Months Ended March 2008	2007
Gross margin (total revenues less cost of goods sold)	45.1%	43.5%
Marketing, administrative and general expenses	31.9	30.6
Operating income	13.2%	12.9%

Gross margin as a percentage of Total Revenues for the first quarter of 2008 increased 1.6% from the prior year quarter to 45.1%. Approximately 0.9% of the improvement was due to higher gross margins in our Jeanswear businesses resulting primarily from increased operating efficiencies. The remainder of the increase was due to the changing mix of our businesses with revenue growth in our higher margin Outdoor and Contemporary Brands businesses.

Marketing, Administrative and General Expenses as a percentage of Total Revenues increased 1.3% in the 2008 quarter. Approximately 0.7% of the increase is due to the higher expense ratios in our expanding retail operations. The first quarter 2008 ratio also increased 0.3% from additional amortization of intangible assets on the 2007 Acquisitions. Interest expense increased \$8.3 million in the first quarter reflecting higher borrowings and interest rates. Average interest-bearing debt outstanding totaled \$1,318 million for the first three months of 2008 and \$852

million for the comparable period of 2007, with the increase driven by the issuance of \$600.0 million of senior notes in October 2007. While interest rates on short-term borrowings were lower, the weighted average interest rate on total outstanding debt increased to 6.5% for the first three months of 2008 from 6.3% for the comparable period of 2007. This increase was driven by the mix of our outstanding debt, with a larger proportion of higher rate domestic borrowings in the first quarter of 2008.

The effective income tax rate was 33.3% for the first quarter of 2008 and 34.3% for the comparable period in 2007. The lower rate in 2008 was due to a higher percentage of income in lower tax jurisdictions outside of the United States. The effective income tax rate for the first quarter was based on the expected annual rate, adjusted for discrete events arising during the quarter.

Income from Continuing Operations increased 11% to \$149.0 million from \$134.1 million in the first quarter of 2007. Earnings per share from continuing operations increased 14% to \$1.33 from \$1.17 in the prior year quarter. The higher percentage increase in earnings per share resulted from a 3% reduction in diluted shares outstanding in the 2008 period, reflecting the benefit of share repurchase activity over the last twelve months. In translating foreign currencies into the U.S. dollar, there was a \$0.09 per share favorable impact on earnings per share in the 2008 quarter, compared with the prior year period. Also, the 2007 Acquisitions contributed an incremental \$0.03 per share in the 2008 quarter. We reported net income of \$149.0 million for the first quarter of 2008, an increase over the 2007 quarter that included \$134.1 million of income from continuing operations and \$4.3 million of income from the discontinued global intimate apparel businesses sold in April 2007.

Information by Business Segment

VF's businesses are grouped into five product categories, and by brands within those product categories, for management and internal financial reporting purposes. These groupings of businesses within VF are referred to as coalitions. These coalitions represent VF's reportable business segments.

See Note H to the Consolidated Financial Statements for a summary of our results of operations by coalition, along with a reconciliation of Coalition Profit to Income from Continuing Operations Before Income Taxes.

The following table presents a summary of the changes in our Total Revenues by coalition for the first quarter of 2008:

(In millions)	First Quarter					Other
	Jeanswear	Outdoor	Imagewear	Sportswear	Contemporary Brands	
Revenues 2007	\$ 761	\$ 539	\$ 214	\$ 148	\$	\$ 12
Organic growth	(49)	85		(16)		11
Acquisitions in prior year (to anniversary date)		12	33		96	
Revenues 2008	\$ 712	\$ 636	\$ 247	\$ 132	\$ 96	\$ 23

Jeanswear:

Jeanswear Coalition revenues decreased 6% in the 2008 quarter. Revenues of domestic jeans declined 13% due to a very challenging retail environment, retailers lowering their inventory levels and consumers moving to lower price points, including private label products. Also, cooler weather than expected negatively

impacted sales of seasonal products and increased promotional activity. These factors affected our revenues in both the mass market and mid-tier channels of distribution. In addition, there was a shift in the timing of certain product programs in this year's quarter compared with the comparable 2007 period. The international businesses increased 6%, reflecting the benefit of foreign currency translation that positively impacted revenues by \$24 million in the 2008 quarter.

Jeanswear Coalition Profit also decreased 6% in the first quarter of 2008. Operating margins increased slightly, despite the revenue decline, as a result of strong controls over inventory levels and operating efficiencies in a challenging environment.

Outdoor:

Revenues in our Outdoor businesses increased 18% in the 2008 quarter, with double-digit growth in both our domestic and international businesses. Organic revenue growth was 16%, including strong global unit volume gains of *The North Face*[®], *Vans*[®], *Kipling*[®] and *Napapijri*[®] brands. The 2007 acquisitions of Eagle Creek and specific brand-related assets of a former licensee of *The North Face*[®] brand in China and Nepal added \$12 million to revenues in the quarter. Foreign currency translation positively impacted first quarter 2008 revenues by \$31 million, or 6%.

Outdoor Coalition Profit increased 26%, with operating margins increasing to 16.6% in the first quarter of 2008 from 15.5% in the comparable period in 2007. The margin improvement was primarily attributed to revenue growth and the resulting benefit of improved leverage of certain operating expenses, including selling and product development costs.

Imagewear:

Coalition Revenues increased 16% in the 2008 quarter due to the Majestic acquisition, which added \$33 million to 2008 revenues. Operating margins declined to 13.5% from 14.3% in the prior year quarter due to the timing of the Majestic acquisition in the first quarter of 2007. The first quarter of 2007 only included Majestic's results for March, which is typically the most profitable month of the first quarter for this business.

Sportswear:

Coalition Revenues declined 11% in the 2008 quarter, driven by a customer's decision last year to reduce its assortment of *Nautica*[®] products, as well as lower sales in off-price channels. This decline was offset somewhat by revenue growth in our *Kipling*[®] and *John Varvatos*[®] businesses.

Operating margins declined to 0.6% from 6.7% in the prior year due to (i) lower *Nautica*[®] brand revenues without comparable expense reduction and (ii) a decision to discontinue our *Nautica*[®] women's wholesale sportswear business, which resulted in a charge of \$3.0 million in the quarter. Operating margin comparisons are expected to improve in the second half of the year.

Contemporary Brands:

This coalition was formed in August 2007 with two newly acquired businesses—Seven For All Mankind and its *7 For All Mankind*[®] brand of premium denim jeanswear and related apparel and Lucy activewear and its *lucy*[®] brand of women's activewear (together the 2007 Contemporary Brands Acquisitions).

The Contemporary Brands Coalition operating margin of 15.4% was driven by the high operating margins of Seven For All Mankind. While not currently profitable, we expect results of our Lucy activewear business to improve as we increase our operating efficiencies.

Other:

The Other business segment includes the VF Outlet business unit of company-operated retail outlet stores in the United States that sell a broad selection of excess quantities of first quality VF products and other branded products. Revenues and profits of VF products are reported as part of the operating results of the applicable coalitions, while revenues and profits of non-VF products are reported in this business segment. The increase in revenues in the first quarter of 2008 was due to VF Outlet's sale of women's intimate apparel products obtained from independent suppliers following VF's sale of its intimate apparel business in April 2007 (whereas such revenues prior to April 2007 were reported as part of discontinued operations).

Reconciliation of Coalition Profit to Income from Continuing Operations before Income Taxes:

There are two types of costs necessary to reconcile total Coalition Profit, as discussed in the preceding paragraphs, to Consolidated Income Before Income Taxes. These costs are (i) Corporate and Other Expenses, discussed below, and (ii) Interest, Net, which was discussed in the previous Consolidated Statements of Income section.

Corporate and Other Expenses consist of corporate headquarters expenses that are not allocated to the coalitions and certain other expenses related to but not allocated to the coalitions for internal management reporting, including development costs for management information systems, certain costs of maintaining and enforcing VF's trademarks and miscellaneous consolidating adjustments. The reduction in Corporate and Other Expenses in 2008 resulted primarily from lower stock-based and other incentive compensation.

Analysis of Financial Condition

Balance Sheets

Accounts Receivable increased 12% at March 2008 over March 2007 due to a 9% increase in wholesale revenues in the 2008 quarter compared with the comparable period in 2007. Also, there was a slight increase in our days sales outstanding driven by a larger proportion of European revenues, where payment terms are substantially longer than those of our U.S. businesses. Receivables are higher at the end of March 2008 than at the end of 2007 due to seasonal sales patterns.

Inventories at March 2008 increased 14% over the prior year to support our estimated 10% sales growth in the second quarter of 2008 over the prior year quarter. Also, inventory days in our recently acquired businesses are above the VF average, while the increases in remaining businesses were in line with their expected revenue growth in the second quarter.

Property, Plant and Equipment increased at March 2008 over March 2007 due to the 2007 Contemporary Brands Acquisitions and because capital spending, including investments in distribution and retail, exceeded depreciation expense.

Intangible Assets and Goodwill at March 2008 increased over March 2007 as a result of the 2007 Contemporary Brands Acquisitions and foreign currency translation. The increase in Intangible Assets was offset in part by amortization. See Notes C, E and F to the Consolidated Financial Statements.

Other Assets increased at March 2008 and December 2007 from the level at March 2007 primarily due to recognition of the overfunded status of our qualified defined benefit pension plan. The plan was underfunded at March 2007. Short-term Borrowings at March 2008 consisted of the following: (i) \$256.0 million in domestic commercial paper borrowings and (ii) \$46.8 million of international borrowings. Overall, the extent of short-term borrowings varies throughout the year in relation to working capital requirements and other investing and financing cash flows. Due to seasonal working capital flows and financing requirements, there is typically

more need for external borrowings at the end of the first quarter than at our fiscal year-end.

Accounts Payable at March 2008 increased over March 2007 as a result of the 2007 Contemporary Brands Acquisitions and the effect of foreign currency translation. The March 2008 balance declined significantly from December 2007 due to the timing of inventory purchases and the timing of vendor payments at the end of 2007. Accrued Liabilities increased at March 2008 over March 2007, resulting from the 2007 Contemporary Brands Acquisitions and a higher amount of accrued interest resulting from the issuance of \$600.0 million of senior notes in October 2007. Accrued Liabilities increased at March 2008 over December 2007 due to changes in accrued income tax balances resulting from the timing of tax payments and increased profitability.

Total Long-term Debt, including the current portion, increased from the level at March 2007 due to the issuance of \$600.0 million of senior notes in October 2007, offset by the payment of amounts classified in 2007 as long-term debt under the international revolving credit agreement and payment of a note related to the Nautica acquisition.

Other Liabilities increased at March 2008 and December 2007 over March 2007 resulting primarily from higher deferred income taxes on foreign currency translation gains recorded in Other Comprehensive Income.

Liquidity and Cash Flows

The financial condition of VF is reflected in the following:

(Dollars in millions)	March 2008	December 2007	March 2007
Working capital	\$ 1,540.0	\$ 1,510.7	\$ 1,437.4
Current ratio	2.2 to 1	2.3 to 1	2.1 to 1
Debt to total capital ratio	28.4%	26.4%	24.0%

For the ratio of debt to total capital, debt is defined as short-term and long-term borrowings, and total capital is defined as debt plus common stockholders' equity. Our ratio of net debt to total capital, with net debt defined as debt less cash and equivalents, was 24.6% at March 2008.

On an annual basis, VF's primary source of liquidity is its strong cash flow provided by operating activities. Cash provided by operating activities is primarily dependent on the level of net income and changes in investments in inventories and other working capital components. Our cash flow from operations is typically negative in the first quarter of the year as we build inventories to service our operations for the balance of the year. Cash provided by operating activities is substantially higher in the second half of the year as we collect accounts receivable arising from our higher seasonal sales and reduce our inventories by year-end. For the three months through March 2008, cash used by operating activities was \$50.3 million, compared with cash used by operating activities of \$8.8 million in the comparable 2007 period. The increase in cash used by operating activities was driven by the net change in operating asset and liability components, which was a usage of funds of \$260.8 million for the quarter ended March 2008, compared with a usage of funds of \$201.9 million for the quarter ended March 2007. This additional usage of funds in the first quarter of 2008 was due to an increase in vendor payments as a result of a higher than normal accounts payable balance at

the end of 2007. See the accounts payable discussion in the Balance Sheets section above.

To finance our ongoing operations and unusual circumstances that may arise, we rely on our continued strong cash flow from operations. In addition, VF has significant liquidity from its available cash balances and debt capacity, supported by its strong credit rating. At the end of March 2008, \$733.9 million was available for borrowing under VF's \$1.0 billion senior unsecured committed revolving bank credit facility. There was \$256.0 million of commercial paper outstanding and \$10.1 million of standby letters of credit issued under this agreement. Also at the end of March 2008, 250.0 million (U.S. dollar equivalent of \$395.0 million) was available for borrowing under VF's senior unsecured committed international revolving bank credit facility.

The principal investing activity in the first quarter of 2008 related primarily to capital spending for distribution and retail investments. We expect that capital spending could reach \$145 million for the full year of 2008, which will be funded by operating cash flows.

In October 2007, Standard & Poor's Ratings Services affirmed its A minus corporate credit rating, A-2 commercial paper rating and stable outlook for VF. Standard & Poor's also assigned its A minus senior unsecured debt rating to VF's \$600.0 million unsecured senior notes issued in October 2007. In August 2007, Moody's Investors Service affirmed VF's long-term debt rating of A3, commercial paper rating of Prime-2 and stable outlook. Existing long-term debt agreements do not contain acceleration of maturity clauses based solely on changes in credit ratings. However, for the \$600.0 million of senior notes issued in 2007, if there were a change in control of VF and, as a result of the change in control, the notes were rated below investment grade by recognized rating agencies, then VF would be obligated to repurchase the notes at 101% of the aggregate principal amount of notes repurchased, plus any accrued and unpaid interest.

During the first quarter of 2008, VF purchased 1.7 million shares of its Common Stock in open market transactions at a cost of \$123.7 million (average price of \$74.71 per share) and in the first quarter of 2007 purchased 2.0 million shares at a cost of \$159.3 million (average price of \$79.67 per share). Share repurchase activity during the first quarter of 2008 reduced the total remaining approved authorization to 3.5 million shares as of the end of March 2008. We intend to purchase an additional 0.3 million shares in the second quarter of 2008. The primary objective of our share repurchase program is to offset, on a long-term basis, dilution caused by awards under equity compensation plans. We will continue to evaluate future share repurchases considering funding required for business acquisitions, our common stock price and levels of stock option exercises.

Management's Discussion and Analysis in our 2007 Form 10-K provided a table summarizing VF's contractual obligations and commercial commitments at the end of 2007 that would require the use of funds. Since the filing of our 2007 Form 10-K, there have been no material changes, except as noted below, relating to VF's contractual obligations and commercial commitments that will require the use of funds:

Inventory purchase obligations represent binding commitments to purchase finished goods, raw materials and sewing labor in the ordinary course of business. These commitments increased by approximately \$170 million at the end of the first quarter, compared with the 2007 year-end, to support seasonal sales expectations in succeeding months.

Management believes that VF's cash balances and funds provided by operating activities, as well as unused committed bank credit lines, additional borrowing capacity and access to equity markets, taken as a whole, provide (i) adequate liquidity to meet all of its current and long-term obligations when due, (ii) adequate liquidity to fund capital expenditures and to maintain our dividend payout policy and (iii) flexibility to meet investment opportunities that may arise.

VF does not participate in transactions with unconsolidated entities or financial partnerships established to facilitate off-balance sheet arrangements or other limited purposes.

Critical Accounting Policies and Estimates

We have chosen accounting policies that we believe are appropriate to accurately and fairly report VF's operating results and financial position in conformity with accounting principles generally accepted in the United States. We apply these accounting policies in a consistent manner. Our significant accounting policies are summarized in Note A to the Consolidated Financial Statements included in our 2007 Form 10-K.

The application of these accounting policies requires that we make estimates and assumptions about future events and apply judgments that affect the reported amounts of assets, liabilities, revenues and expenses, contingent assets and liabilities, and related disclosures. These estimates, assumptions and judgments are based on historical experience, current trends and other factors believed to be reasonable under the circumstances. We evaluate these estimates and assumptions and may retain outside consultants to assist in our evaluation. If actual results ultimately differ from previous estimates, the revisions are included in results of operations in the period in which the actual amounts become known.

The accounting policies that involve the most significant estimates, assumptions and management judgments used in preparation of our consolidated financial statements, or are the most sensitive to change from outside factors, are discussed in Management's Discussion in our 2007 Form 10-K. There have been no material changes in these policies, except for those mentioned in Note B to the Consolidated Financial Statements.

Cautionary Statement on Forward-Looking Statements

From time to time, we may make oral or written statements, including statements in this Quarterly Report that constitute forward-looking statements within the meaning of the federal securities laws. These include statements concerning plans, objectives, projections and expectations relating to VF's operations or economic performance, and assumptions related thereto. Forward-looking statements are made based on our expectations and beliefs concerning future events impacting VF and therefore involve a number of risks and uncertainties. We caution that forward-looking statements are not guarantees and actual results could differ materially from those expressed or implied in the forward-looking statements.

Potential risks and uncertainties that could cause the actual results of operations or financial condition of VF to differ materially from those expressed or implied by forward-looking statements in this Quarterly Report on Form 10-Q include VF's reliance on a small number of large customers; the financial strength of VF's customers; changing fashion trends and consumer demand; increasing pressure on margins; VF's ability to implement its growth strategy; VF's ability to grow its international and direct-to-consumer businesses; VF's ability to successfully integrate and grow acquisitions; VF's ability to maintain the strength and security of its information technology systems; stability of VF's manufacturing facilities and foreign suppliers; continued use by VF's suppliers of ethical business practices; VF's ability to accurately forecast demand for products; continuity of members of VF's management; VF's ability to protect trademarks and other intellectual property rights; maintenance by VF's licensees and distributors of the value of VF's brands; the overall level of consumer spending; general economic conditions and other factors affecting consumer confidence; fluctuations in the price, availability and quality of raw materials and contracted products; foreign currency fluctuations; and legal, regulatory, political and economic risks in international markets. More information on potential factors that could affect VF's financial results is included from time to time in VF's public reports filed with the Securities and Exchange Commission, including VF's Annual Report on Form 10-K.

Item 3 Quantitative and Qualitative Disclosures about Market Risk

There have been no significant changes in VF's market risk exposures from what was disclosed in Item 7A in our 2007 Form 10-K.

Item 4 Controls and Procedures

Disclosure controls and procedures:

Under the supervision of our Chief Executive Officer and Chief Financial Officer, a Disclosure Committee comprising various members of management has evaluated the effectiveness of the disclosure controls and procedures at VF and its subsidiaries as of the end of the period covered by this Quarterly Report (the Evaluation Date). Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded as of the Evaluation Date that such controls and procedures were effective.

Changes in internal control over financial reporting:

There have been no changes during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, VF's internal control over financial reporting.

Part II Other Information**Item 1A Risk Factors**

There have been no material changes to our risk factors from those disclosed in our 2007 Form 10-K.

Item 2 Unregistered Sales of Equity Securities and Use of Proceeds

(c) Issuer purchases of equity securities:

Fiscal Period		Total Number of Shares Purchased	Weighted Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs (1)
December 30, 2007	January 26, 2008	500,000	\$ 67.95	500,000	4,704,000
January 27	February 23, 2008	398,400	79.78	398,400	4,305,600
February 24	March 29, 2008	757,100	76.50	757,100	3,548,500
Total		1,655,500		1,655,500	

(1) We will continue to evaluate future share repurchases considering funding required for business acquisitions, our common stock price and levels of stock option exercises. Also, under the

Mid-Term
Incentive Plan
implemented under
VF's 1996 Stock
Compensation
Plan, VF must
withhold from the
shares of Common
Stock issuable in
settlement of a
participant's
performance-based
restricted stock
units the number of
shares having an
aggregate fair
market value equal
to any minimum
statutory federal,
state and local
withholding or
other tax that VF is
required to
withhold, unless
the participant

has made other arrangements to pay such amounts. There were 154,032 shares withheld under the Mid-Term Incentive Plan during the first quarter of 2008.

Item 4 Submission of Matters to a Vote of Security Holders

At the Annual Meeting of Shareholders of VF held on April 22, 2008, the following five nominees to the Board of Directors were elected for future service:

	End of Term	Votes For	Votes Withheld
Mackey J. McDonald	2009 Annual Meeting	99,320,166	1,482,376
Barbara S. Feigin	2010 Annual Meeting	99,211,700	1,590,842
Juan Ernesto de Bedout	2011 Annual Meeting	99,881,415	921,127
Ursula O. Fairbairn	2011 Annual Meeting	97,868,870	2,933,672
Eric C. Wiseman	2011 Annual Meeting	99,422,340	1,380,202

The other directors, Edward E. Crutchfield, George Fellows, Robert J. Hurst, W. Alan McCollough, Clarence Otis, Jr., M. Rust Sharp and Raymond G. Viault, whose terms expire in future years, continued their service as directors after the meeting. Daniel R. Hesse resigned from the Board of Directors, effective April 25, 2008.

There were two additional proposals approved by the shareholders, as follows:

The proposal to re-approve certain material terms of VF's Amended and Restated Executive Incentive Compensation Plan to preserve the full deductibility for Federal income tax purposes of payments made under the Plan. The vote was 97,634,612 for, 2,312,201 against and 855,728 abstaining.

The proposal to ratify the selection of PricewaterhouseCoopers LLP as VF's independent registered public accounting firm for the 2008 fiscal year. The vote was 99,024,206 for, 1,120,037 against and 658,299 abstaining.
