PROXY STATEMENT

The Board of Directors of MGC Diagnostics Corporation is soliciting proxies to be used at the Annual Meeting of Shareholders to be held on March 22, 2017, and at any adjournment and reconvening of the meeting. We first made this Proxy Statement and the Annual Report for the fiscal year ended October 31, 2016 available to our shareholders on or about February 9, 2017.

QUESTIONS AND ANSWERS ABOUT THE MEETING

What is the purpose of the meeting?

At our annual meeting, shareholders will act upon the three matters disclosed in the Notice of Annual Meeting of Shareholders that accompanies this Proxy Statement. These are:

the election of six directors;

ratification of the appointment of Baker Tilly Virchow Krause, LLP (“Baker Tilly”) as our independent registered public accounting firm for the fiscal year ending October 31, 2017; and

approval of our executive compensation pursuant to a non-binding shareholder advisory vote.

We will also consider any other business that may properly be presented at the meeting, and management will report on MGC's performance during the last fiscal year and respond to questions from shareholders.

How does the Board recommend that I vote?

The Board of Directors recommends a vote:

“FOR” each of the nominees for director;

“FOR” the ratification of the appointment of Baker Tilly; and

“FOR” the advisory vote approving executive compensation.

Who is entitled to vote at the meeting?

If you were a shareholder of record at the close of business on January 27, 2017, you are entitled to vote at the meeting. As of the record date, there were 4,387,643 shares of common stock outstanding and eligible to vote.

What is the difference between a shareholder of record and a street name holder?

If your shares are registered directly in your name, you are considered the “shareholder of record” with respect to those shares. If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of those shares, and your shares are held in street name. If you are a “street name holder” you will receive voting instructions from your nominee. Please follow those instructions to ensure your shares are voted at the meeting.

What are the voting rights of the shareholders?

Holders of common stock are entitled to one vote per share. Therefore, a total of 4,387,643 votes are entitled to be cast at the meeting. There is no cumulative voting for the election of directors.

How many shares must be present to hold the meeting?

A quorum is necessary to hold the meeting and conduct business. The presence of shareholders who can direct the voting of at least a majority of the outstanding shares of common stock as of the record date is considered a quorum. A shareholder is counted as present at the meeting if the shareholder is present and votes in person at the meeting or the shareholder has properly submitted a proxy by mail, telephone or Internet.

How do I vote my shares?

If you are a shareholder of record, you may give a proxy to be voted at the meeting either:

electronically, by following the instructions provided in the Notice of Internet Availability of Proxy Materials or proxy card; or

if you received printed proxy materials, you may also vote by mail or telephone as instructed on the proxy card.

If you hold shares beneficially in street name, you may also vote by proxy over the Internet by following the instructions provided in the Notice of Internet Availability of Proxy Materials or, if you received printed proxy materials, you may also vote by mail or telephone by following the instructions provided in the voting instruction card provided to you by your broker, bank, trustee or other nominee. The telephone and Internet voting procedures have been set up for your convenience. The procedures have been designed to authenticate your identity, to allow you to give voting instructions, and to confirm that those instructions have been recorded properly. You may also vote in person at the meeting as described in "May I vote my shares in person at the meeting?" below.

What does it mean if I receive more than one Notice of Internet Availability of Proxy Materials, proxy card or voting instruction card?

It means you hold shares of MGC stock in more than one account. To ensure that all of your shares are voted, sign and return each proxy card or voting instruction card or, if you vote by telephone or via the Internet, vote once for each proxy card, voting instruction card or Notice of Internet Availability of Proxy Materials you receive.

May I vote my shares in person at the meeting?

Yes. If you are a shareholder of record, you may vote your shares at the meeting by completing a ballot at the meeting. Even if you currently plan to attend the meeting, however, we recommend that you submit your proxy ahead of time so that your vote will be counted if, for whatever reason, you later decide to not attend the meeting. If you hold your shares in street name, you may vote your shares in person at the meeting only if you obtain a signed proxy from your broker, bank, trustee or other nominee giving you the right to vote these shares at the meeting.

What vote is required for the proposals to be approved?

Election of Directors. The six director nominees receiving the most votes for election will be elected directors.

Ratification of the Appointment of Baker Tilly as our independent registered public accounting firm. The affirmative vote of a majority of the shares of common stock represented and entitled to vote on the proposal, if those shares represent more than 25% of the shares outstanding on the record date, is sufficient to approve the ratification of Baker Tilly.

Shareholder Advisory Vote Approving Executive Compensation. An affirmative vote of a majority of the shares of common stock represented and entitled to vote on the proposal, if those shares represent more than 25% of the shares outstanding on the record date.

How are votes counted?

Shareholders may either vote FOR or WITHHOLD authority to vote for each nominee for the Board of Directors. Shareholders may vote FOR, AGAINST or ABSTAIN on the ratification of the appointment of Baker Tilly and the advisory vote approving executive compensation.

If you vote ABSTAIN or WITHHOLD, your shares will be counted as present at the meeting for the purposes of determining a quorum. If you ABSTAIN from voting on a proposal, your abstention has the same effect as a vote against that proposal. If you WITHHOLD authority to vote for one or more of the nominees for director, this will have no effect on the election of any director from whom votes are withheld.

If you hold your shares in street name and do not provide voting instructions to your broker or nominee, your shares will be considered to be “broker non-votes” and will not be voted on any proposal on which your broker or nominee does not have discretionary authority to vote under the rules of the New York Stock Exchange. Shares that constitute broker non-votes will be present at the meeting for the purpose of determining a quorum, but are not considered entitled to vote on the proposal in question. Your broker or nominee has discretionary authority to vote your shares on the ratification of Baker Tilly as our independent registered public accounting firm even if your broker or nominee does not receive voting instructions from you. Your broker or nominee may not vote your shares on the election of directors or the approval of executive compensation without instructions from you.

May I change my vote?

Yes. If you are a shareholder of record, you may change your vote and revoke your proxy at any time before it is voted at the meeting in any of the following ways:

by sending a written notice of revocation to our Corporate Secretary;

by submitting another properly signed proxy card at a later date to our Corporate Secretary;

by submitting another proxy by telephone or via the Internet at a later date; or

by voting in person at the meeting.

If you are a street name holder, please consult your broker, bank, trustee or other nominee for instructions on how to change your vote.

Who pays for the cost of proxy preparation and solicitation?

We pay for the cost of proxy preparation and solicitation, including the charges and expenses of brokerage firms or other nominees for forwarding proxy materials to beneficial owners of shares held in street name.

We are soliciting proxies primarily by mail. In addition, proxies may be solicited by telephone or facsimile, or personally by our directors, officers and regular employees. These individuals will receive no compensation (other than their regular salaries) for these services.

Why did I receive a notice in the mail regarding the Internet availability of proxy materials instead of a full set of paper copies?

In accordance with rules adopted by the Securities and Exchange Commission (the "SEC"), we may furnish proxy materials to our shareholders by providing access to these documents on the Internet instead of mailing printed copies. In general, you will not receive printed copies of the materials unless you request them. Instead, we mailed you the Notice of Internet Availability of Proxy Materials (unless you have previously consented to electronic delivery or already requested to receive paper copies), which instructs you as to how you may access and review all of the proxy materials on the Internet. The Notice of Internet Availability of Proxy Materials explains how to submit your proxy over the Internet. If you would like to receive a paper copy or e-mail copy of the proxy materials, please follow the instructions provided in the Notice of Internet Availability of Proxy Materials.

What is the deadline to nominate individuals for election as directors at the 2018 Annual Meeting of Shareholders?

The notice must be submitted by a shareholder and must set forth the information required by MGC's Bylaws.

Where should I send proposals and director nominations for the 2018 annual meeting of shareholders?

Shareholder proposals and director nominations must be delivered to MGC's Secretary by mail at MGC Diagnostics Corporation, 350 Oak Grove Parkway, Saint Paul, Minnesota 55127-8599 and must be received by MGC's Secretary by the dates set forth above.

How can a shareholder get a copy of the Company's 2016 Report on Form 10-K?

You can request exhibits to the Form 10-K by writing to the Corporate Secretary, MGC Diagnostics Corporation, 350 Oak Grove Parkway, Saint Paul, Minnesota 55127-8599.

What if I do not specify a choice for a matter when returning a proxy?

Unless you indicate otherwise, the persons named as proxies on the proxy card will vote your shares

FOR the election of each nominee to the Board of Directors set forth in proposal 1;

FOR the ratification of Baker Tilly as our independent registered public accounting firm set forth in proposal 2; and

FOR the advisory vote approving executive compensation set forth in proposal 3.

If any other matters come up for a vote at the meeting, the proxy holders will vote in line with the recommendations of the board of directors or, if there is no recommendation, at their own discretion.

The Board of Directors Recommends a Vote FOR the Election of Each Nominee to the Board of Directors.

Proposal 2:

Independent Registered Public Accounting Firm

General Information

The Board of Directors recommends that the shareholders ratify the appointment of Baker Tilly Virchow Krause, LLP (“Baker Tilly”) as the independent registered public accounting firm for the Company for the fiscal year ending October 31, 2017. The audit reports of Baker Tilly on the consolidated financial statements of the Company as of and for the years ended October 31, 2016 and 2015 did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles.

CORPORATE GOVERNANCE

General

The Board of Directors is committed to sound and effective corporate governance practices. We continue to review our governance policies and practices, the provisions of the Sarbanes-Oxley Act of 2002, rules of the Securities and Exchange Commission (“SEC”) and the listing standards of The Nasdaq Stock Market (“Nasdaq”), and have implemented policies and taken actions to ensure compliance with the rules and regulations and governance best practices applicable to the Company.

Code of Ethics and Business Conduct

The Board of Directors has adopted a Code of Ethics and Business Conduct applicable to all of the Company’s officers, directors, employees and consultants that establishes guidelines for professional and ethical conduct in the workplace. The Code also contains a special set of guidelines applicable to the Company’s senior financial officers, including the chief executive officer, chief financial officer, principal accounting officer, and others involved in the preparation of the Company’s financial reports, that are intended to ensure the ethical handling of conflicts of interest, full and fair disclosure in periodic reports filed by the Company and compliance with laws, rules and regulations concerning such periodic reporting.

Our Code of Ethics and Business Conduct, our governance policies and procedures, and our current committee charters are available to the public on our website: www.mgcdiagnostics.com. We intend to disclose (i) any amendments to, or (ii) waivers from, the Code of Ethics and Business Conduct applicable to our principal executive officer, principal financial officer, principal accounting officer or persons performing similar functions or with respect to the required elements of the Code of Ethics and Business Conduct, by disclosing the amendment or waiver on this website.

The Board, Board Committees and Meetings

Meeting Attendance. The Board of Directors meets regularly during the year to review matters affecting the Company and to act on matters requiring Board approval. Each of our directors is expected to make a reasonable effort to attend all meetings of the Board, applicable committee meetings and our annual meeting of shareholders. During fiscal 2016, the Board of Directors held a total of four regular meetings and four special meetings. Each director attended at least

75% of the meetings of the Board and committees on which that director served. At its regularly scheduled Board meetings, the Company's directors meet in executive session without the chief executive officer present.

Committees of the Board of Directors. The Board of Directors has established an Audit and Compliance Committee, Human Capital Committee and a Governance/Nominating Committee. The composition and function of each Committee is set forth below:

Director	Audit and Compliance	Human Capital	Governance/ Nominating
John R. Baudhuin	Member	Member	Member
Terrence W. Bunge			
Wendy D. Lynch, Ph.D.		Chair	
Robert E. Munzenrider	Chair		Member
Mark W. Sheffert			Chair
Hendrik Struik	Member		

Audit and Compliance Committee. The Audit and Compliance Committee operates under a written charter as amended December 16, 2015. The Audit and Compliance Committee reviews the Company's internal control structure and financial reporting activities, reviews the scope of the annual audit, reviews non-audit services performed by the independent registered public accounting firm to determine and maintain auditor independence, selects the Company's independent registered public accounting firm, reviews the Company's audited consolidated financial statements prior to release to the public and conducts discussions with the Company's independent registered public accounting firm each quarter in connection with their quarterly review. Baker Tilly, the Company's independent registered public accounting firm, reports directly to the Committee. In addition, the Committee also oversees MGC management identification of major risk to the Company's business, risk assessment, its plans for risk control or mitigation and public disclosure of these risks. On December 16, 2015, the Board of Directors expanded the charter of the Committee to include oversight duties with respect to the Company's medical device regulatory compliance. Each Committee member is independent as defined by the rules of the Nasdaq Stock Market and the SEC. The Company's Board of Directors has reviewed the education, experience and other qualifications of each of the Committee members. After review, the Board of Directors has determined that Robert E. Munzenrider qualifies as an "audit committee financial expert." The Committee held nine meetings during fiscal 2016. The Committee Charter is posted on the Company's website at www.mgcdiagnostics.com.

Human Capital Committee. The Human Capital Committee operates under a written charter as amended March 3, 2016. Among other duties, the Human Capital Committee reviews compensation of the Company's officers for fairness and competitiveness, determines the necessity for, and content of, any officer employment contracts, advises and recommends incentives in the form of overall corporate bonus plans and determines bonuses and grants of stock options, restricted and performance shares for the Company's officers, and reviews the performance of the Company's chief executive officer. The Human Capital Committee also has the authority to make awards under, and adopt and alter administrative rules and practices governing, the Company's qualified or unqualified benefits plans, including the Company's 2007 Stock Incentive Plan. The Human Capital Committee charter requires that this Committee consist of no fewer than two board members who satisfy the requirements of the Nasdaq Stock Market, the "non-employee director" requirements of Section 16b-3 of the Securities Exchange Act of 1934, and the "outside director" requirements of Section 162(m) of the Internal Revenue Code. Each member of the Company's Human Capital Committee meets these requirements. The Human Capital Committee held five meetings during fiscal 2016. The Human Capital Committee Charter is posted on the Company's website at www.mgcdiagnostics.com.

Governance/Nominating Committee. The Governance/Nominating Committee is responsible for reviewing the size and composition of the Board, identifying individuals qualified to become Board members, recommending to the Board of Directors nominees to be elected at the annual meeting of shareholders, reviewing the size and composition of Board committees, facilitating Board self-assessment and reviewing and advising the Board on strategic direction and strategic management. The Committee operates under a charter approved by the Board as amended August 29, 2012, and each of its members is independent under Nasdaq listing standards. The Governance/Nominating Committee generally meets during regularly scheduled board meetings. The Charter of the Governance/Nominating Committee and the MGC Diagnostics Corporation Governance Guidelines are posted on the Company's website at www.mgcdiagnostics.com.

Other Committees and Task Forces. From time to time, the Board has established ad hoc or special committees to oversee Company projects. During fiscal 2014, a special committee of directors Mark W. Sheffert and Hendrik Struik was formed to oversee corporate development matters, including the process that led to the August 1, 2014 acquisition of Medisoft SA.

In March 2015, the Board appointed Mr. Bunge as Vice Chair, and also appointed him as a Board representative on a newly formed Executive Committee of senior management. The Board formed the Executive Committee to guide MGC management to develop and implement a long-range strategic plan. In his Board service on this committee, Mr. Bunge (i) assisted the Board and committee to assess MGC's current operations and strategies and (ii) assisted management to develop a five-year strategic plan for the Company. This long-term strategic plan was presented to the Board at the September 2, 2015 Board meeting. The Board then requested Mr. Bunge to continue in his capacity as Vice Chair and Board representative on the committee through the December 2015 Board meeting to assist management (i) to develop the 2016 annual operating plan and (ii) to delineate discrete action items to implement the key elements of the long-term plan in the 2016 annual operating plan.

Effective February 1, 2016, the Board determined that the Executive Committee had been successful in developing the long-term strategic plan and annual operating plan and dissolved the committee and the position of Board Vice Chair. During his service as Board representative on the Executive Committee, Mr. Bunge was compensated at a rate of \$250 an hour, under the Board policy for director compensation when directors are asked to serve on special committees or task forces in their role of directors and assume significant additional duties. In addition, recognizing Mr. Bunge's substantial contributions to the Board and Company during his service as Vice Chair and Board representative on the Executive Committee, from March 2015 through the end of January 2016, on February 1, 2016, the Board granted Mr. Bunge a three-year option to purchase 33,333 shares at a price of \$6.77 per share, the fair market value on the date of the grant. These options vested immediately and expire on January 31, 2019.

In addition, during the period March through June 2016, Mr. Struik worked with members of the Company to develop the strategic plan for the Company's Medisoft subsidiary. In connection with this, Mr. Struik visited Medisoft's facilities in Sorinnes, Belgium and spent a significant amount of time working with management to formulate the Medisoft strategic plan.

Mr. Struik was not paid any additional cash compensation for his services in connection with these additional duties, but on May 25, 2016, the Board of Directors granted Mr. Struik a three-year option to purchase 20,000 shares at a price of \$5.99 per share, the fair market value on the date of grant. These options vested immediately and expire on May 24, 2019.

In addition, in December 2016, the Board of Directors re-established the Executive Committee and appointed Mr. Bunge as Company Vice Chair. Concurrent with his reappointment as Vice Chair, Mr. Bunge stepped down from the Company's Human Capital Committee.

Director Independence

The Board of Directors has reviewed director independence guidelines in a manner consistent with the definitions of "independence" set forth in SEC Rule 10A-3 under the Securities Exchange Act of 1934 and the rules of the Nasdaq Stock Market. In accordance with these guidelines, the Board of Directors has reviewed and considered facts and circumstances relevant to the independence of each director and director nominee and has determined that directors Baudhuin, Lynch, Munzenrider, Sheffert and Struik are "independent" under SEC Rule 10A-3 and under the rules of the Nasdaq Stock Market.

Director Nominations

The Governance/Nominating Committee of the Board of Directors is responsible for considering and selecting the nominees for election as directors at annual shareholder meetings. The Board believes a nominee should possess the highest level of professional and personal ethics and values, be free of any material conflict of interest with respect to board service, have broad experience at the policy-making level, have the ability to provide insight and practical wisdom based on experience and expertise, be an "independent director" as defined by the rules of the SEC and the Nasdaq Stock Market, be able to understand and relate to the mission, strategies, values and culture of the Company, have sufficient time to properly discharge the duties associated with serving as a director, and have experience and knowledge that will enhance or maintain a diversity of business background among board members.

In addition, the Board believes that the Company's directors should possess certain specific qualities or skills. These include, among others, experience with publicly held companies, an understanding and background in corporate management, experience in the medical device industry, new product development experience, marketing experience, strategic planning experience, experience in mergers and acquisitions and integration, international business experience and accounting and financial experience, and for at least one director, the background and experience necessary to qualify as an "audit committee financial expert" as defined by the SEC.

The Committee does not have a formal policy regarding diversity. Nevertheless, in making its recommendations, in addition to minimum requirements of integrity, ability to make independent analytical inquiries, personal health and a willingness to devote adequate time and effort to Board responsibilities, the Committee seeks to have a Board that reflects the diversity of its business and marketplace in background, education, business experience, skills, business relationships and associations and other factors that will contribute to the Board's governance of the Company.

The Board's Governance/Nominating Committee is comprised of independent directors who serve as the standing committee responsible for considering and recommending director nominees to the Board of Directors. The Governance/Nominating Committee will consider qualified candidates for director that are submitted by our shareholders. Shareholders can submit qualified candidates, together with appropriate biographical information, to the Governance/Nominating Committee at: MGC Diagnostics Corporation, 350 Oak Grove Parkway, Saint Paul, Minnesota 55127-8599. Submissions will be forwarded to the Governance and Nominating Committee for review and consideration. Any Shareholder desiring to submit a director candidate for consideration at our 2018 Annual Meeting of Shareholders must ensure that the submission is received by the Company no later than October 31, 2017 in order to provide adequate time for the Governance and Nominating Committee to properly consider the candidate. See also the dates set forth under "What is the deadline to nominate individuals for election as directors at the 2018 Annual Meeting of Shareholders?" in the section entitled "Questions and Answers About the Meeting."

Board Leadership

The Board does not have a formal policy regarding the separation of the roles of CEO and Chairman of the Board; however, the Board has determined that it is in the best interest of the Company's shareholders for the roles of Chairman and CEO to be separated. The current CEO Todd M. Austin is not a member of the Board and Mark W. Sheffert serves as non-employee Chairman of the Board of Directors. Under this structure, the Chairman, in collaboration with other non-employee directors, takes an active role in establishing the Board's governance practices, assuring an effective management team, annual budget and strategic plan including setting Board meeting agendas, establishing Board priorities and establishing processes and procedures, while the CEO is able to focus on the execution of the Company's strategies, achievement of its goals and management of the Company's day-to-day operations.

Board Oversight of Risk Management

MGC faces a variety of risks, including operational risk, financial risk, compliance risk, legal risk, risk to its reputation and IT risk. To date, the Board has discharged its responsibility for oversight of risk management both directly and through the Audit and Compliance Committee, which oversees the development and compliance with the Company's Enterprise Risk Management Plan. In addition, the Board requires management to incorporate risk management considerations into the Company's strategies and day-to-day business operations.

Contacting the Board of Directors

Any shareholder who desires to contact our Board of Directors may do so by writing to the Board of Directors, generally, or to an individual director at MGC Diagnostics Corporation, 350 Oak Grove Parkway, Saint Paul, Minnesota, 55127-8599. Communications received electronically or in writing are distributed to the full Board of Directors, a committee or an individual director, as appropriate, depending on the facts and circumstances described in the communication received. Shareholders may also communicate with members of the Board by sending an e-mail to investor@mgcdiagnostics.com.

Executive Compensation Philosophy and Objectives of Compensation Program

Our philosophy with respect to the compensation of Executive Officers is based upon the following principles established by the Human Capital Committee:

Executive Compensation Policy

Executive talent and performance are critical to the success of the Company. Executive compensation at MGC is designed to provide a competitive compensation opportunity relative to similar medical instrument and device companies, in a manner aligned with business performance and shareholder returns. The Company uses base salaries, an annual incentive plan and equity grants to accomplish these objectives, and performs regular benchmarking analyses against comparable companies to anchor its practices firmly in the competitive market. When assessing the market competitiveness of our compensation programs, we review third-party surveys and publicly available data relating to a specific group of companies.

Base Salary

The Company has adopted a policy that Base Salaries would be administered in a range set around the median of comparable companies, based primarily on individual experience, performance against objectives and other contributions, while taking into account the overall financial health of the Company.

Annual Incentive Plan

The Company's 2016 annual incentives were linked to achievement of key business objectives through the establishment of the 2016 Management Incentive Plan described below. Payouts were available under the 2016 Management Incentive Plan when threshold performance goals, established by the Board, were met. Upon achievement of all business objectives for a year, payouts are intended to be competitive in the industry. Substantial overachievement against all performance-based goals established by the Board creates a payout opportunity within the upper quartile of comparable companies.

Results of 2016 Say-on-Pay Vote and Board of Directors and Management Share Ownership

At our 2016 Annual Meeting of Shareholders, of the shares voting on the Say-on-Pay Advisory Vote on Executive Compensation, approximately 97.8% of shares were voted in favor of our executive compensation, 1.6% voted against and less than 1% abstained.

As part of our ongoing shareholder communications, our Board of Directors believes that our shareholders would like to see increased share ownership by members of management and the Board of Directors. The Board of Directors believes that share ownership is an important factor aligning the interest of management and Board members with the Company shareholders and in 2011 adopted the share guideline set forth in this section. As noted below under "Compensation of Directors," a significant portion of director compensation is paid in Company stock, and our non-employee directors have the ability to receive stock in lieu of a portion of their Board retainer fees.

We also granted equity awards to our executive management team in each of fiscal 2014, 2015 and 2016. As described below in the Section "Equity Compensation and Long-Term Equity Incentive Plan," the Board has adopted a long-term equity incentive policy designed to increase ownership by members of management.

Equity Compensation and Long-Term Equity Incentive Plan

The Human Capital Committee believes that equity-based compensation promotes and encourages long-term successful performance by our Named Executive Officers that is aligned with the organization's goals and the generation of shareholder value. Our equity compensation goals for our Named Executive Officers are based upon principles including aligning the interests of shareholders and executives, providing meaningful retention incentives and reflecting each individual's experience, performance and potential.

Our 2007 Stock Incentive Plan allows us the opportunity to grant a variety of equity awards, including stock options, restricted stock, restricted stock units, and other performance-based awards. In the recent past, we have granted primarily restricted stock and stock options. We have typically granted stock to executive officers at the commencement of their employment, and then, based on performance, we have considered additional grants. The number of shares granted to an executive officer upon commencement of employment has been based on several factors, including the executive's responsibilities, experience and the value of the stock at the time of grant. Additional grants after the initial grant may be made following a significant change in job responsibility or in recognition of performance.

The Human Capital Committee selects the type of equity awards to be granted to our executive officers based on its assessment of the advantages provided by each award and share availability. The Human Capital Committee also considers the forms and amounts of outstanding equity awards held by our named executive officers, the financial accounting and tax treatment on the Company, and the tax treatment to our named executive officers, in determining the form and amount of equity compensation to award.

In December 2015, we provided a short term incentive to each of our executive officers to continue to achieve strong revenue growth in the form of performance options to purchase 4,435 shares, with vesting reliant on attainment of a revenue goal for the quarter ended January 31, 2016. These options lapsed without vesting.

In September 2016, we provided long-term incentive compensation for our executive officers in the form of a stock option grant. The grants were as follows:

Name	Title	Stock Options Granted
Todd M. Austin	Chief Executive Officer	40,000
Matthew S. Margolies	President	40,000
Wesley W. Winnekins	Chief Financial Officer & Chief Risk Officer	40,000

Each of the stock option grants vest over a three year term on the first, second and third anniversaries of the grant.

Adjustments for Significant Events

The Company's performance-based compensation plans require that when special events (such as significant one-time revenue events, charges for corporate development or merger and acquisition expenses, acquisitions, divestitures, capital gains, or other adjustments) significantly affect operating results, this impact will be reviewed and evaluated by the Human Capital Committee when determining the level of achievement of the corporate performance objectives. Human Capital Committee review is required if the impact represents an amount that is five percent or greater of the Company's prior year results for the corporate performance objectives. This provision benefits shareholders by allowing management to make decisions of material strategic importance without undue concern or conflict for impact on compensation. These adjustments can have both a positive and negative impact.

Clawback Policy

Under the Company incentive program policies, all incentive payments are subject to clawback to the extent required by federal law.

Overview of Compensation Process

Elements of In-Service Compensation and Relationship to Objectives

We also provide the executive officers and other members of management with other benefits available to our employees generally, such as health, life, dental and disability insurance and participation in a 401(k) Plan.

Determining Executive Compensation and Design of Compensation Programs

Prior to June 2014, in setting base salaries, our chief executive officer made compensation recommendations to the Human Capital Committee with respect to the executive officers and other members of management who reported to him, including the establishment of incentive plans. These executive officers were not present at the time of these deliberations. In connection with the June 1, 2014 management changes, the Human Capital Committee recommended and the full Board approved the new compensation arrangements described below under “June 2014 Agreements with New Executive Officers.”

Consistent with its overall compensation philosophy, the Human Capital Committee recommended and the Board approved and adopted the 2016 Management Incentive Plan described below. The 2016 Management Incentive Plan provided for the payment of cash compensation to eligible employees, including the Company’s executive officers, upon achievement of predetermined objectives.

Use of Compensation Consultant

Under the Human Capital Committee’s charter, the Committee has the authority to retain, at the Company’s expense, independent counsel or other advisers as it deems necessary to carry out its responsibilities. Over the past several years, the Human Capital Committee engaged 21-Group, a national compensation consulting firm to report to it on the following matters:

Level and structure of Board compensation;

Compensation for new executive officers;

Long-term incentive compensation.

Director and officer shareholder ownership guidelines.

As part of this engagement, 21-Group provided information to the Human Capital Committee on compensation practices for both executive officers and boards of directors. This included information about public companies generally as well as public companies of comparable size and in various industries, including healthcare. The engagement of 21-Group was recommended by the Company Board of Directors and 21-Group reported directly to the Human Capital Committee.

2016 Management Incentive Plan

On December 15, 2015, the Board of Directors, upon recommendation from the Human Capital Committee, approved the MGC Diagnostics Corporation 2016 Management Incentive Plan (the “2016 Management Incentive Plan”). The Board established target performance goals for the Company’s three executive officers: Chief Executive Officer Todd M. Austin, President Matthew S. Margolies, and Chief Financial Officer and Chief Risk Officer Wesley W. Winnekins. The fiscal 2016 annual performance goals with respect to each of these officers were related to revenues and operating income (before taxes, interest and 2016 Management Incentive Plan payments). If the Company met the 2016 Management Incentive Plan targets in each of revenue and operating income, Mr. Austin, Mr. Margolies, and Mr. Winnekins would have received incentive plan cash payments equal to 35%, 30%, and 30% of their respective base salaries. The fiscal 2016 targets were \$39.2 million in consolidated revenue and \$3.6 million in pre-incentive operating income. In order for management to be eligible for any payouts, the Company must have achieved threshold in each of revenue and operating income. The Board of Directors retained discretion under the 2016 Management Incentive Plan to make incentive plan cash payments in amounts higher or lower than would otherwise be required under the 2016 Management Incentive Plan. In addition, all payments under the 2016 Management Incentive Plan were subject to “clawback” to the extent required by federal law. The Company did not achieve threshold in both consolidated revenue and operating income and no bonuses were awarded.

2017 Management Incentive Plan

The Board of Directors has not yet adopted a “2017 Management Incentive Plan.”

Accounting and Tax Considerations

We have structured our compensation program to comply with Internal Revenue Code Sections 162(m) and 409A. Under Section 162(m) of the Internal Revenue Code, a limitation was placed on tax deductions of any publicly-held corporation for individual compensation to certain executives of such corporation exceeding \$1,000,000 in any taxable year, unless the compensation is performance-based. If an executive is entitled to nonqualified deferred compensation benefits that are subject to Section 409A, and these benefits do not comply with Section 409A, then the benefits are taxable in the first year they are not subject to a substantial risk of forfeiture. In such case, the executive officer is subject to regular federal income tax, interest and an additional federal income tax of 20% of the benefit includible in income. We have no individuals with non-performance based compensation paid in excess of the Internal Revenue Code Section 162(m) tax deduction limit.

Equity Granting Process

Traditionally, the Company has issued stock options or restricted stock grants in connection with the appointment of new executive officers and other key employees, effective as of the first day of employment. We have also periodically awarded stock awards to our executive officers and other key salaried employees in conjunction with the review of their individual performance. These stock awards are approved by the Human Capital Committee or the Board of Directors. The Human Capital Committee's policy is to grant all equity awards to employees under shareholder-approved equity compensation plans, such as our 2007 Stock Incentive Plan.

Director Compensation

The following table sets forth certain information regarding the compensation the Company paid to its non-employee directors for services rendered during the fiscal year ended October 31, 2016.

Name	Fees Earned or Paid in Cash (\$)	Stock Awards (\$)	Option Awards(\$)⁽ⁱ⁾	Total (\$)
Mr. Baudhuin	53,000	32,000	—	85,000
Mr. Bunge	58,083	32,000	66,666	156,749

Mr. Munzenrider	58,000	32,000	—	90,000
Mr. Sheffert	66,000	37,000	—	103,000
Mr. Struik	10,511	66,989	33,800	111,300

The Company does not have non-equity incentive plans or nonqualified deferred compensation plans for non-employee directors. Accordingly, these columns have been omitted from the Director Compensation Table.

(i) The tabled amounts represent the aggregate grant date fair value computed in accordance with FASB ASC Topic 718

In fiscal 2016, each non-employee director received an annual retainer of \$35,500 (\$8,875 per quarter) and a retainer for committee service (\$10,000 for Audit and Compliance Committee, \$7,500 for Human Capital Committee and \$2,500 for Governance and Nominating Committee). Board, Audit and Compliance Committee and Human Capital Committee Chairpersons receive additional annual retainers of \$33,000, \$10,000 and \$7,500, respectively. Mr. Bunge received additional compensation of \$12,563 for his service described above under “The Board, Board Committees and Meetings - Other Committees and Task Forces.” Each non-employee director received a grant of 5,333 shares, reflected in the table above, as a portion of his or her current year board compensation. These grants were valued at \$32,000, were issued on the date of the MGC Diagnostics Corporation 2016 Annual Meeting of Shareholders and will vest on March 16, 2017.

The Board of Directors holds regular quarterly board meetings and a special meeting in connection with the Company’s Annual Meeting of Shareholders. During fiscal 2016, the Board of Directors had four regular, quarterly meetings, a special meeting in connection with the Company’s 2016 Annual Meeting of Shareholders and three additional special meetings.

Each non-employee director had the ability to elect to receive up to \$10,000 of his or her quarterly cash retainer paid in MGC shares in lieu of cash. Three of the Company’s non-employee directors elected to receive some or all of their quarterly directors’ retainer fees in this manner. As a result, values for “Fees Earned or Paid in Cash” are lower and “Stock Awards” are higher for Dr. Lynch in the amount of \$4,993; Mr. Sheffert in the amount of \$5,000 and Mr. Struik in the amount of \$34,989, than they otherwise would have been. The value shown is the number of shares awarded valued at the market price on its grant date.

Fiscal 2017 Director Compensation

For fiscal 2017, as in fiscal 2016, each non-employee director will receive an annual retainer of \$35,500, (\$8,875 per quarter). Members of the Audit and Compliance Committee will receive an additional \$2,500 quarterly retainer, members of the Human Capital Committee will receive an additional \$1,875 quarterly retainer and members of the Governance/Nominating Committee will receive an additional \$625 quarterly retainer. Board, Audit and Compliance Committee and Human Capital Committee Chairs will receive additional annual retainers of \$33,000, \$10,000 and \$7,500, respectively. The Board believes this will enable the Board and Committees to continue to meet as often as necessary, including calling special meetings without concern that the additional meetings would result in additional expense for the Company.

In addition, as in prior years, on the date of the 2017 Annual Meeting of Shareholders, the Company intends to grant each non-employee director restricted shares of the Company’s common stock with a value of \$32,000, vesting on the earlier of (i) one year from the date of grant and (ii) the date of the Company’s 2018 Annual Meeting of Shareholders. In addition, the Board is continuing the Stock in Lieu of Board Fees Policy to enable each director to elect to receive

up to \$10,000 of that director's quarterly retainer in MGC stock, similar to the program that operated in fiscal 2016.

The Company entered into Employment Agreements dated as of June 1, 2014 with each of these officers. The respective Employment Agreements memorialize the salaries and equity awards described above. Each Employment Agreement also provides that if the Executive's employment is terminated by the Company without Cause, and the Executive executes a general release of claims against the Company and otherwise complies with his respective Employment Agreement, the Company will pay Executive the following compensation:

If the Executive has been in his position with the Company for up to three years, the Company will pay an amount equivalent to six months of Executive's Base Compensation immediately prior to termination;

The method of payment, whether lump sum or periodic, will be at the Company's sole discretion.

The Company entered into Change-in-Control Agreements with each of these three executive officers. Under these respective agreements, if the executive employment is terminated during a period of 12 months following a change in control of the Company (i) by the Company other than for cause or (ii) by the executive for good reason, as those terms are defined in the agreement, then he will be entitled to a lump sum payment equal to 12 months of his currently effective base salary, as well as a prorated portion of target bonus if actual targets are met, with this bonus to be paid when other plan bonuses are paid.

The MGC Board has adopted share ownership guidelines for Board members and executive officers. These share ownership guidelines, as currently in effect are as follows:

Position	Share Ownership Guidelines

Directors and Executive Officers are expected to achieve these ownership levels, or make substantial progress toward achieving these ownership levels, within five years of their beginning Board or Executive Officer service.

**PROPOSAL 3:
ADVISORY VOTE approving EXECUTIVE COMPENSATION**

Provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the “Dodd-Frank Act”) require public companies to hold advisory (non-binding) votes on executive compensation. Consistent with the requirements applicable to MGC under the Dodd-Frank Act, the Board of Directors is asking shareholders to cast an advisory vote approving the named executive officer compensation as described in this proxy statement.

As described in detail in the section entitled “Executive Compensation – Executive Compensation Philosophy and Objective of Compensation Program,” our executive compensation programs are designed to attract, motivate, and retain our named executive officers, who are critical to our success. We encourage our shareholders to read the Executive Compensation section of this proxy statement for a more detailed discussion of our executive compensation programs, including information about the fiscal year 2016 compensation of our Named Executive Officers.

We are asking our shareholders to indicate their support for our named executive officer compensation as described in this proxy statement. This proposal, commonly known as a “say-on-pay” proposal, gives our shareholders the opportunity to express their views on the compensation of our Named Executive Officers. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our Named Executive Officers and the philosophy, policies and practices described in this proxy statement. Accordingly, we ask our shareholder to vote “FOR” the following resolution at the Annual Meeting:

RESOLVED, that the shareholders of MGC Diagnostics Corporation approve, on an advisory basis, the compensation of the named executive officers, as disclosed pursuant to the rules of the Securities and Exchange Commission in MGC’s proxy statement for the 2017 Annual Meeting of Shareholders.

Approval of this Proposal 3 requires the affirmative vote of the holders of the majority of the shares present, in person or by proxy, and entitled to vote on this Proposal 3. Although this advisory vote is not binding on the Human Capital Committee or the Board of Directors, the Human Capital Committee will carefully consider the outcome of the vote and take into consideration concerns raised by shareholders when determining future compensation arrangements.

The Board of Directors Recommends Shareholders Vote FOR Proposal 3:

Advisory Vote Approving Executive Compensation.

REPORT OF THE AUDIT AND COMPLIANCE COMMITTEE

The Audit and Compliance Committee of the Board of Directors, in accordance with its charter, reviewed and discussed the audited consolidated financial statements with management and Baker Tilly Virchow Krause, LLP, our independent registered public accounting firm. Management of the Company is responsible for the preparation, presentation, and integrity of the Company's financial statements, the Company's accounting and financial reporting principles and internal controls and procedures designed to ensure compliance with accounting standards and applicable laws and regulations. Our independent registered public accounting firm is responsible for auditing the Company's consolidated financial statements and expressing an opinion as to whether they are presented fairly, in all material respects, in conformity with accounting principles generally accepted in the United States of America.

In this context, the Audit and Compliance Committee has met and held discussions with management and the independent registered public accounting firm. Management represented to the Audit and Compliance Committee that the Company's consolidated financial statements as of and for the fiscal year ended October 31, 2016 were prepared in accordance with generally accepted accounting principles, and the Audit and Compliance Committee has reviewed and discussed the consolidated financial statements with management and the independent registered public accounting firm.

The Audit and Compliance Committee has discussed with the independent registered public accounting firm matters required to be discussed by the applicable Auditing Standards as periodically amended (including significant accounting policies, alternative accounting treatments and estimates, judgments and uncertainties). In addition, the independent registered public accounting firm provided to the Audit and Compliance Committee the written disclosures required by the applicable requirements of the Public Company Accounting Oversight Board regarding the independent registered public accounting firm's communications to the Audit and Compliance Committee concerning independence. The Audit and Compliance Committee and the independent registered public accounting firm have discussed the auditors' independence from the Company and its management, including the matters in those written disclosures.

Additionally, the Audit and Compliance Committee reviewed and pre-approved the services provided by Baker Tilly other than audit services and considered whether the provision of these other services by Baker Tilly is compatible with maintaining its independence. In reliance on the reviews and discussions with management and the independent auditors referred to above, the Audit and Compliance Committee believes that the non-audit services provided by the independent registered public accounting firm are compatible with, and did not impair, auditor independence.

The Audit and Compliance Committee also discussed with Baker Tilly the overall scope and plans for their fiscal 2016 audit. The Audit and Compliance Committee meets with the independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls

and the overall quality of the Company's financial reporting.

Based upon the reports and discussions described in this report, and subject to the limitations on the role and responsibilities of the Audit and Compliance Committee referred to in the charter, the Audit and Compliance Committee recommended to the Board of Directors, and the Board has approved, that the audited consolidated financial statements be included in our Annual Report on Form 10-K for the year ended October 31, 2016, as filed with the Securities and Exchange Commission.
