CALCULATION OF REGISTRATION FEE

Title of Each Class of Securities Offered	Maximum Aggregate Offering Price	Amount of Registration Fee(1)
Corn Products International, Inc. Knock-in REXs	\$1,900,000	\$74.67

(1) Pursuant to Rule 457(p) under the Securities Act of 1933, filing fees of \$94,671.00 have already been paid with respect to unsold securities that were previously registered pursuant to a Registration Statement on Form F-3 (No. 333-89136) of ABN AMRO Bank N.V. (the "Prior Registration Statement"), which was initially filed on May 24, 2002 and for which a post-effective amendment was filed on September 17, 2003 and have been carried forward. The \$74.67 fee with respect to the \$1,900,000 Knock-in Reverse Exchangeable Securities linked to the Corn Products International, Inc. common stock due May 30, 2008 sold pursuant to this registration statement is offset against those filing fees, and \$22,197.07 remains available for future registration fees. No additional fee has been paid with respect to this offering.

 14.75% (ANNUALIZED) KNOCK-IN REVERSE EXCHANGEABLE(SM) SECURITIES
 DUE MAY 30, 2008
 LINKED TO COMMON STOCK OF CORN PRODUCTS INTERNATIONAL, INC.

The Securities do not guarantee any return of principal at maturity. Instead, the payout at maturity will be based on the performance of the shares of common stock of Corn Products International, Inc., which we refer to as the Underlying Shares, during the life of the Securities, and in certain circumstances described below, we will exchange each Security at maturity for a predetermined number of the Underlying Shares rather than the principal amount of the Securities. THE MARKET VALUE OF THOSE UNDERLYING SHARES WILL BE LESS THAN THE PRINCIPAL AMOUNT OF EACH SECURITY AND COULD BE ZERO.

PRINCIPAL AMOUNT	\$1,900,000
UNDERLYING SHARES	Common Stock, \$.01 par value per share, of Corn Products International, Inc.

Edgar Filing: ABN AMRO BANK NV - Form 424B2

INTEREST RATE 14.75% (Annualized) per annum, payable monthly in arrears on the last day of each month commencing on March 31, 2008 and ending on the maturity date.

ISSUE PRICE 100%

ORIGINAL ISSUE DATE February 29, 2008

PRICING DATE February 25, 2008

MATURITY DATE May 30, 2008

INITIAL PRICE \$37.13 (the initial price is subject to adjustment for certain corporate events affecting the Underlying Shares, which we describe in "Description of Securities -- Adjustment Events").

KNOCK-IN LEVEL \$29.70 which is 80% of the initial price.

STOCK REDEMPTION AMOUNT 26.932 Underlying Shares for each \$1,000 principal amount of the Securities, which is equal to \$1,000 divided by the initial price.

DETERMINATION DATE May 27, 2008, subject to adjustment in certain circumstances which we describe in "Description of the Securities -- Determination Date."

PAYMENT AT MATURITY The payment at maturity is based on the performance of the Underlying Shares:

- o If the closing price of the Underlying Shares on the primary U.S. exchange or market for the Underlying Shares has not fallen below the knock-in level on any trading day from but not including the pricing date to and including the determination date, we will pay you the principal amount of each Security in cash.
- o If the closing price of the Underlying Shares on the primary U.S. exchange or market for the Underlying Shares falls below the knock-in level on any trading day from but not including the pricing date to and including the determination date:
 - we will deliver to you a number of Underlying Shares equal to the stock redemption amount, in the event that the closing price of the Underlying Shares on the determination date is below the initial price; or
 - we will pay you the principal amount of each Security in cash, in the event that the closing price of the Underlying Shares on the determination date is at or above the initial price.
- o You will receive cash in lieu of fractional shares.

Edgar Filing: ABN AMRO BANK NV - Form 424B2

If due to events beyond our reasonable control, as determined by us in our sole discretion, shares of the Underlying Stock are not available for delivery at maturity we may pay you, in lieu of the Stock Redemption Amount, the cash value of the Stock Redemption Amount, determined by multiplying the Stock Redemption Amount by the Closing Price of the Underlying Stock on the Determination Date.

The payment at maturity is subject to adjustment in certain circumstances.

GUARANTEE The Securities will be fully and unconditionally guaranteed by ABN AMRO Holding N.V.

DENOMINATIONS The Securities may be purchased in denominations of \$1,000 and integral multiples thereof.

NO AFFILIATION WITH CORN PRODUCTS INTERNATIONAL, INC. Corn Products International, Inc., which we refer to as "Corn Products," is not an affiliate of ours and is not involved with this offering in any way. The obligations represented by the Securities are our obligations, not those of Corn Products. Investing in the Securities is not equivalent to investing in Corn Products common stock.

LISTING We do not intend to list the Securities on any securities exchange.

THE SECURITIES ARE NOT INSURED BY THE FEDERAL DEPOSIT INSURANCE CORPORATION OR ANY OTHER FEDERAL AGENCY.

THE SECURITIES INVOLVE RISKS NOT ASSOCIATED WITH AN INVESTMENT IN CONVENTIONAL DEBT SECURITIES. SEE "RISK FACTORS" BEGINNING ON PS-8. The Securities and Exchange Commission and state securities regulators have not approved or disapproved these Securities, or determined if this Pricing Supplement or the accompanying Prospectus Supplement or Prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The agents are not obligated to purchase the Securities but have agreed to use reasonable efforts to solicit offers to purchase the Securities. TO THE EXTENT THE FULL AGGREGATE PRINCIPAL AMOUNT OF THE SECURITIES BEING OFFERED BY THIS PRICING SUPPLEMENT IS NOT PURCHASED BY INVESTORS IN THE OFFERING, ONE OR MORE OF OUR AFFILIATES HAS AGREED TO PURCHASE THE UNSOLD PORTION, WHICH MAY CONSTITUTE A SUBSTANTIAL PORTION OF THE TOTAL AGGREGATE PRINCIPAL AMOUNT OF THE SECURITIES, AND TO HOLD SUCH SECURITIES FOR INVESTMENT PURPOSES. SEE "HOLDING OF THE SECURITIES BY OUR AFFILIATES AND FUTURE SALES" UNDER THE HEADING "RISK FACTORS" AND "PLAN OF DISTRIBUTION." SUMMARY

THE FOLLOWING SUMMARY ANSWERS SOME QUESTIONS THAT YOU MIGHT HAVE REGARDING THE SECURITIES IN GENERAL TERMS ONLY. IT DOES NOT CONTAIN ALL THE INFORMATION THAT MAY BE IMPORTANT TO YOU. YOU SHOULD READ THE SUMMARY TOGETHER WITH THE MORE DETAILED INFORMATION THAT IS CONTAINED IN THE REST OF THIS PRICING SUPPLEMENT AND IN THE ACCOMPANYING PROSPECTUS AND PROSPECTUS SUPPLEMENT. YOU SHOULD CAREFULLY CONSIDER, AMONG OTHER THINGS, THE MATTERS SET FORTH IN "RISK FACTORS." IN ADDITION, WE URGE YOU TO CONSULT WITH YOUR INVESTMENT, LEGAL, ACCOUNTING, TAX AND OTHER ADVISORS WITH RESPECT TO ANY INVESTMENT IN THE SECURITIES.

WHAT ARE THE SECURITIES?

The Securities are interest paying, non-principal protected securities issued by us, ABN AMRO Bank N.V., and are fully and unconditionally guaranteed by our parent company, ABN AMRO Holding N.V. The Securities are senior notes of ABN AMRO Bank N.V. and have a maturity of three months. These Securities combine certain features of debt and equity by offering a fixed interest rate on the principal amount while the payment at maturity is determined based on the performance of the Underlying Shares. Therefore your principal is at risk.

The Securities have certain features that make them what we refer to as "Knock-in Reverse Exchangeable Securities." This means that if the closing price of the Underlying Shares on the primary U.S. securities exchange or organized market for the Underlying Shares, which we refer to as the relevant exchange, never falls below a certain price level, which we call the knock-in level, on any trading day from but not including the pricing date to and including the determination date (such period, the "Knock-in Period"), then we will pay you in cash the principal amount of each Security at maturity. On the other hand, if the closing price of the Underlying Shares on the relevant exchange falls below the knock-in level on any trading day during the Knock-in Period, then the payment at maturity will depend on the closing price of the Underlying Shares on

Edgar Filing: ABN AMRO BANK NV - Form 424B2

the determination date. In this latter case, if the closing price of the Underlying Shares on the determination date is equal to or greater than the initial price, we will pay you in cash the principal amount of each Security you hold; if the closing price of the Underlying Shares on the determination date is less than the initial price, we will deliver to you, in exchange for each \$1,000 principal amount of Securities, a number of Underlying Shares equal to the stock redemption amount.

WHY IS THE INTEREST RATE ON THE SECURITIES HIGHER THAN THE INTEREST RATE PAYABLE ON YOUR CONVENTIONAL DEBT SECURITIES WITH THE SAME MATURITY?

The Securities offer a higher interest rate than the yield that would be payable on a conventional debt security with the same maturity issued by us or an issuer with a comparable credit rating. This is because you, the investor in the Securities, indirectly sell a put option to us on the Underlying Shares. The premium due to you for this put option is combined with a market interest rate on our senior debt to produce the higher interest rate on the Securities.

WHAT ARE THE CONSEQUENCES OF THE INDIRECT PUT OPTION THAT I HAVE SOLD YOU?

The put option you indirectly sell to us creates the feature of exchangeability. If the closing price of the Underlying Shares on the relevant exchange falls below the knock-in level on any trading day during the Knock-in Period, and on the determination date the closing price per Underlying Share is less than the initial price, you will receive a fixed number of Underlying Shares for each Security you hold, which we call the stock redemption amount. On the other hand, if the closing price of the Underlying Shares on the relevant exchange falls below the knock-in level, and on the determination date the closing price per Underlying Share is equal to or greater than the initial price, you will receive \$1,000 for each Security you hold. Because of the exchangeability of the Securities, and because we will determine whether you will receive cash or Underlying Shares by reference to the closing price of the Underlying Shares on the determination date, such securities are generally referred to as "reverse exchangeable securities." However, because this feature of exchangeability is created only if the closing price of the Underlying Shares on the relevant exchange falls below the knock-in level on any trading day during the Knock-in Period, we call the Securities "Knock-in Reverse Exchangeable Securities."

WHAT WILL I RECEIVE AT MATURITY OF THE SECURITIES?

The payment at maturity of the Securities will depend on (i) whether or not the closing price of the Underlying Shares fell below the knock-in level on any trading day during the Knock-in Period, and if so, (ii) the closing price of the Underlying Shares on

PS-4

the determination date. To determine closing prices, we look at the prices quoted by the relevant exchange.

- o If the closing price per Underlying Share on the relevant exchange has not fallen below the knock-in level on any trading day during the Knock-in Period, we will pay you the principal amount of each Security in cash.
- o If the closing price per Underlying Share on the relevant exchange has fallen below the knock-in level on any trading day during the Knock-in Period, we will either:
 - o deliver to you the stock redemption amount, in exchange for each

Edgar Filing: ABN AMRO BANK NV - Form 424B2

Security, in the event that the closing price of the Underlying Shares is below the initial price on the determination date; or

- o pay you the principal amount of each Security in cash, in the event that the closing price of the Underlying Shares is at or above the initial price on the determination date.

If due to events beyond our reasonable control, as determined by us in our sole discretion, shares of the Underlying Stock are not available for delivery at maturity we may pay you, in lieu of the Stock Redemption Amount, the cash value of the Stock Redemption Amount, determined by multiplying the Stock Redemption Amount by the Closing Price of the Underlying Stock on the Determination Date.

The payment at maturity is further subject to adjustment in certain circumstances, which we describe in "Description of Securities -- Adjustment Events."

HOW ARE THE STOCK REDEMPTION AMOUNT AND KNOCK-IN LEVEL DETERMINED?

The stock redemption amount for each \$1,000 principal amount of the Securities is equal to \$1,000 divided by the initial price. The value of any fractional shares you are entitled to receive, after aggregating your total holdings of the Securities, will be paid in cash based on the closing price of the Underlying Shares on the determination date.

The knock-in level is 80% of the initial price.

The initial price and consequently the stock redemption amount and knock-in level are subject to adjustment for certain corporate events affecting the Underlying Shares, which we describe in "Description of Securities -- Adjustment Events."

WHAT INTEREST PAYMENTS CAN I EXPECT ON THE SECURITIES?

The Securities pay interest at a rate of 14.75% per annum. The interest rate is fixed at issue and is payable monthly in arrears. This means that irrespective of whether the Securities are exchanged at maturity for cash or the stock redemption amount, you will be entitled to monthly interest payments on the full principal amount of the Securities you hold, payable in cash.

CAN YOU GIVE ME AN EXAMPLE OF THE PAYMENT AT MATURITY?

If, for example, in a hypothetical offering, the interest rate was 10% per annum, the initial price of a share of underlying stock was \$45.00 and the knock-in level for such offering was 80%, then the stock redemption amount would be 22.222 shares of underlying stock, or \$1,000 divided by \$45.00, and the knock-in level would be \$36.00, or 80% of the initial price.

If the closing price of that hypothetical underlying stock fell below the knock-in level of \$36.00 on any trading day during the Knock-in Period, then the payment at maturity would depend on the closing price of the underlying stock on the determination date. In this case, if the closing price of the underlying stock on the determination date is \$30.00 per share at maturity, which is below the initial price level, you would receive 22.222 shares of underlying stock for each \$1,000 principal amount of the securities. (In actuality, because we cannot deliver fractions of a share, you would receive on the maturity date for each \$1,000 principal amount of the securities 22 shares of underlying stock plus \$6.66 cash in lieu of 0.222 fractional shares, determined by multiplying 0.222 by \$30.00, the closing price per shares of underlying stock on the determination date.) In addition, over the life of the securities you would have received interest payments at a rate of 10% per annum. IN THIS HYPOTHETICAL EXAMPLE, THE

Edgar Filing: ABN AMRO BANK NV - Form 424B2

MARKET VALUE OF THOSE 22 SHARES OF UNDERLYING STOCK (INCLUDING THE CASH PAID IN LIEU OF FRACTIONAL SHARES) THAT WE WOULD DELIVER TO YOU AT MATURITY FOR EACH \$1,000 PRINCIPAL AMOUNT OF SECURITY WOULD BE \$666.66, WHICH IS LESS THAN THE PRINCIPAL AMOUNT OF \$1,000, AND YOU WOULD HAVE LOST A PORTION OF YOUR INITIAL INVESTMENT. If, on the other hand, the closing price of the underlying stock on the

PS-5

determination date is \$50.00 per share, which is above the initial price level, you will receive \$1,000 in cash for each \$1,000 principal amount of the securities regardless of the knock-in level having been breached. In addition, over the life of the Securities you would have received interest payments at a rate of 10% per annum.

Alternatively, if the closing price of the underlying stock never falls below \$36.00, which is the knock-in level, on any trading day during the Knock-in Period, at maturity you will receive \$1,000 in cash for each security you hold regardless of the closing price of the underlying stock on the determination date. In addition, over the life of the securities you would have received interest payments at a rate of 10% per annum.

THIS EXAMPLE IS FOR ILLUSTRATIVE PURPOSES ONLY AND IS BASED ON A HYPOTHETICAL OFFERING. FOR EACH OFFERING OF SECURITIES, WE WILL SET THE INITIAL PRICE, KNOCK-IN LEVEL AND STOCK REDEMPTION AMOUNT (SUBJECT TO ADJUSTMENT FOR CERTAIN CORPORATE EVENTS AFFECTING THE APPLICABLE UNDERLYING SHARES) ON THE DATE WE PRICE THE SECURITIES, WHICH WE REFER TO AS THE PRICING DATE. IT IS NOT POSSIBLE, HOWEVER, TO PREDICT THE CLOSING PRICE OF ANY OF THE UNDERLYING SHARES ON THE DETERMINATION DATE OR AT ANY TIME DURING THE LIFE OF THE SECURITIES.

In this Pricing Supplement, we have provided under the heading "Hypothetical Sensitivity Analysis of Total Return of the Securities at Maturity" the total return of owning the Securities through maturity for various hypothetical closing prices of the Underlying Shares on the determination date in the case where the knock-in level has been breached and in the case where the knock-in level has not been breached.

DO I GET ALL MY PRINCIPAL BACK AT MATURITY?

You are not guaranteed to receive any return of principal at maturity. If the closing price of Underlying Shares falls below the knock-in level on any trading day during the Knock-in Period, and the closing price of the Underlying Shares is below the initial price on the determination date, we will deliver to you Underlying Shares. The market value of the Underlying Shares at the time you receive those shares will be less than the principal amount of the Securities and could be zero.

IS THERE A LIMIT TO HOW MUCH I CAN EARN OVER THE LIFE OF THE SECURITIES?

Yes. The amount payable under the terms of the Securities will never exceed the principal amount of the Securities payable at maturity plus interest payments you earn over the life of the Securities.

DO I BENEFIT FROM ANY APPRECIATION IN THE UNDERLYING SHARES OVER THE LIFE OF THE SECURITIES?

No. The amount paid at maturity for each \$1,000 principal amount of the Securities will not exceed \$1,000. As a result, if the Underlying Shares have appreciated above their price level on the pricing date, the payment you receive at maturity will not reflect that appreciation. UNDER NO CIRCUMSTANCES WILL YOU RECEIVE A PAYMENT AT MATURITY GREATER THAN THE PRINCIPAL AMOUNT OF THE

Edgar Filing: ABN AMRO BANK NV - Form 424B2

SECURITIES THAT YOU HOLD AT THAT TIME.

WHAT IS THE MINIMUM REQUIRED PURCHASE?

You can purchase Securities in \$1,000 denominations or in integral multiples thereof.

IS THERE A SECONDARY MARKET FOR THE SECURITIES?

We do not intend to list the Securities on any securities exchange. Accordingly, there may be little or no secondary market for the Securities and, as such, information regarding independent market pricing for the Securities may be limited. You should be willing to hold your Securities until the maturity date.

Although it is not required to do so, we have been informed by our affiliate that when this offering is complete, it intends to make purchases and sales of the Securities from time to time in off-exchange transactions. If our affiliate does make such a market in the Securities, it may stop doing so at any time.

In connection with any secondary market activity in the Securities, our affiliate may post indicative prices for the Securities on a designated website or via Bloomberg. However, our affiliate is not required to post such indicative prices and may stop doing so at any time. INVESTORS ARE ADVISED THAT ANY PRICES SHOWN ON ANY WEBSITE OR BLOOMBERG PAGE ARE INDICATIVE PRICES ONLY AND, AS SUCH, THERE CAN BE NO ASSURANCE THAT ANY TRADE COULD BE EXECUTED AT SUCH PRICES. Investors should contact their brokerage firm for further information.

In addition, the issue price of the Securities includes the selling agents' commissions paid with respect to the Securities and the cost of hedging our obligations under the Securities. The cost of hedging

PS-6

includes the profit component that our affiliate has charged in consideration for assuming the risks inherent in managing the hedging the transactions. The fact that the issue price of the Securities includes these commissions and hedging costs is expected to adversely affect the secondary market prices of the Securities. See "Risk Factors--The Inclusion of Commissions and Cost of Hedging in the Issue Price is Likely to Adversely Affect Secondary Market Prices" and "Use of Proceeds."

TELL ME MORE ABOUT ABN AMRO BANK N.V. AND ABN AMRO HOLDING N.V.

ABN AMRO Bank N.V. is an international banking group offering a wide range of banking products and financial services on a global basis through our network of offices and branches in 56 countries and territories as of year-end 2006. ABN AMRO Holding N.V. is the parent company of ABN AMRO Bank N.V. Holding's main purpose is to own the Bank and its subsidiaries. All of the Securities issued by the Bank hereunder are fully and unconditionally guaranteed by Holding.

On November 2, 2007 a consortium (the "Consortium") of the Royal Bank of Scotland Group plc, Fortis SA/NV and Fortis N.V., and Banco Santander Central Hispano SA, which had made a tender offer for the shares of Holding, announced that approximately 98.8% of the shares of Holding had been tendered to the Consortium as of October 31, 2007.

Edgar Filing: ABN AMRO BANK NV - Form 424B2

WHERE CAN I FIND OUT MORE ABOUT CORN PRODUCTS?

Because the Underlying Shares are registered under the Securities Exchange Act of 1934, as amended, Corn Products is required to file periodically certain financial and other information specified by the Commission which is available to the public. You should read "Public Information Regarding the Underlying Shares" in this Pricing Supplement to learn how to obtain public information regarding the Underlying Shares and other important information. The historical highest intra-day price, lowest intra-day price and last day closing price of the Underlying Shares for each quarter since 2003 are set forth under the heading "Public Information Regarding the Underlying Shares" in this Pricing Supplement.

WHO WILL DETERMINE WHETHER THE CLOSING PRICE OF THE UNDERLYING SHARES HAS FALLEN BELOW THE KNOCK-IN LEVEL, THE CLOSING PRICE OF THE UNDERLYING SHARES ON THE DETERMINATION DATE, THE STOCK REDEMPTION AMOUNT AND THE INITIAL PRICE?

We have appointed ABN AMRO Incorporated, which we refer to as AAI, to act as calculation agent for Wilmington Trust Company, the trustee for the Securities and Citibank, N.A., the securities administrator. As calculation agent, AAI will determine whether the closing price of the Underlying Shares has fallen below the knock-in level, the closing price of the Underlying Shares on the determination date, the stock redemption amount and the initial price. The calculation agent may adjust the initial price of the Underlying Shares and consequently the stock redemption amount and knock-in level, which we describe in the section called "Description of Securities -- Adjustment Events."

WHO INVESTS IN THE SECURITIES?

The Securities are not suitable for all investors. The Securities might be considered by investors who:

- o seek a higher interest rate than the current dividend yield on the Underlying Shares or the yield on a conventional debt security with the same maturity issued by us or an issuer with a comparable credit rating;
- o are willing to accept the risk of owning equity in general and the Underlying Shares in particular and the risk that they could lose their entire investment;
- o do not expect to participate in any appreciation in the price of the Underlying Shares; and
- o and are willing to hold the Securities until maturity.

You should carefully consider whether the Securities are suited to your particular circumstances before you decide to purchase them. In addition, we urge you to consult with your investment, legal, accounting, tax and other advisors with respect to any investment in the Securities.

PS-7

WHAT ARE SOME OF THE RISKS IN OWNING THE SECURITIES?

Investing in the Securities involves a number of risks. We have described the most significant risks relating to the Securities under the heading "Risk Factors" in this Pricing Supplement which you should read before making an investment in the Securities.

Some selected risk considerations include:

Edgar Filing: ABN AMRO BANK NV - Form 424B2

- o CREDIT RISK. Because you are purchasing a security from us, you are assuming our credit risk. In addition, because the Securities are fully and unconditionally guaranteed by Holding, you are assuming the credit risk of Holding in the event that we fail to make any payment or delivery required by the terms of the Securities.
- o PRINCIPAL RISK. The Securities are not principal protected, which means there is no guaranteed return of principal. If the closing price of the Underlying Shares falls below the knock-in level on any trading day during the life of the Securities and the closing price on the determination date is less than the initial price, we will deliver to you a fixed number of Underlying Shares with a market value less than the principal amount of the Securities, which value may be zero.
- o LIQUIDITY AND MARKET RISK. We do not intend to list the Securities on any securities exchange. Accordingly, there may be little or no secondary market for the Securities and information regarding independent market pricing for the Securities may be limited. The value of the Securities in the secondary market, if any, will be subject to many unpredictable factors, including then prevailing market conditions.

WHAT IF I HAVE MORE QUESTIONS?

You should read "Description of Securities" in this Pricing Supplement for a detailed description of the terms of the Securities. The Securities are senior notes issued as part of our ABN Notes (SM) program and guaranteed by Holding. The Securities offered by the Bank will constitute the Bank's unsecured and unsubordinated obligations and rank pari passu without any preference among them and with all our other present and future unsecured and unsubordinated obligations. The guarantee of Holding will constitute Holding's unsecured and unsubordinated obligations and rank pari passu without any preference among them and with all Holding's other present and future unsecured and unsubordinated obligations. You can find a general description of our ABN Notes (SM) program in the accompanying Prospectus Supplement. We also describe the basic features of this type of note in the sections called "Description of Notes" and "Notes Linked to Commodity Prices, Single Securities, Baskets of Securities or Indices".

PS-8

RISK FACTORS

This section describes the most significant risks relating to the Securities. For a discussion of certain general risks associated with your investment in the Securities, please refer to the section entitled "Risk Factors" beginning on page S-3 of the accompanying prospectus supplement. YOU SHOULD CAREFULLY CONSIDER WHETHER THE SECURITIES ARE SUITED TO YOUR PARTICULAR CIRCUMSTANCES BEFORE YOU DECIDE TO PURCHASE THEM. IN ADDITION, WE URGE YOU TO CONSULT WITH YOUR INVESTMENT, LEGAL, ACCOUNTING, TAX AND OTHER ADVISORS WITH RESPECT TO ANY INVESTMENT IN THE SECURITIES.

THE SECURITIES ARE NOT ORDINARY SENIOR NOTES; THERE IS NO GUARANTEED RETURN OF PRINCIPAL

The Securities combine limited features of debt and equity. The terms of the Securities differ from those of ordinary debt securities in that we will not pay you a fixed principal amount in cash at maturity if the closing price of the

Edgar Filing: ABN AMRO BANK NV - Form 424B2

Underlying Shares has fallen below the knock-in level on any trading day during the Knock-in Period and, in addition, the closing price of the Underlying Shares is below the initial price on the determination date. In such event, we will exchange each Security you hold for a number of Underlying Shares equal to the stock redemption amount. Such shares will have a market value of less than the principal amount of the Securities, and such value may be zero. You cannot predict the future performance of the Underlying Shares based on their historical performance. ACCORDINGLY, YOU COULD LOSE SOME OR ALL OF THE AMOUNT YOU INVEST IN THE SECURITIES.

THE SECURITIES WILL NOT PAY MORE THAN THE STATED PRINCIPAL AMOUNT AT MATURITY

The amount paid at maturity of the Securities in cash or Underlying Shares will not exceed the principal amount of the Securities. If the closing price of the Underlying Shares on the determination date is equal to or exceeds the initial price (regardless of whether the knock-in level has been previously breached), you will receive the principal amount of the Securities irrespective of any appreciation in the share price. You will not receive Underlying Shares or any other asset equal to the value of the Underlying Shares. As a result, if the Underlying Shares have appreciated above their closing price level on the pricing date, the payment you receive at maturity will not reflect that appreciation. UNDER NO CIRCUMSTANCES WILL YOU RECEIVE A PAYMENT AT MATURITY GREATER THAN THE PRINCIPAL AMOUNT OF THE SECURITIES THAT YOU HOLD AT THAT TIME.

WE DO NOT INTEND TO LIST THE SECURITIES ON ANY SECURITIES EXCHANGE; SECONDARY TRADING MAY BE LIMITED

You should be willing to hold your Securities until the maturity date. We do not intend to list the Securities on any securities exchange; accordingly, there may be little or no secondary market for the Securities and information regarding independent market pricing for the Securities may be limited. Even if there is a secondary market, it may not provide enough liquidity to allow you to trade or sell the Securities easily. Upon completion of the offering, our affiliate has informed us that it intends to purchase and sell the Securities from time to time in off-exchange transactions, but it is not required to do so. If our affiliate does make such a market in the Securities, it may stop doing so at any time. In addition, the total principal amount of the Securities being offered is not being purchased by investors in the offering, and one or more of our affiliates has agreed to purchase the unsold portion. Such affiliate or affiliates intend to hold the Securities for investment purposes, which may affect the supply of Securities available for secondary trading and therefore adversely affect the price of the Securities in any secondary trading. If a substantial portion of any Securities held by our affiliates were to be offered for sale following this offering, the market price of such Securities could fall, especially if secondary trading in such Securities is limited or illiquid.

MARKET PRICE OF THE SECURITIES INFLUENCED BY MANY UNPREDICTABLE FACTORS

The value of the Securities may move up and down between the date you purchase them and the determination date when the calculation agent determines the amount to be paid to the holders of the Securities on the maturity date.

Several factors, many of which are beyond our control, will influence the value of the Securities, including:

- o the market price of the Underlying Shares, in particular, whether the market price of the Underlying Shares has fallen below the knock-in level;

Edgar Filing: ABN AMRO BANK NV - Form 424B2

- o the volatility (frequency and magnitude of changes) in the price of the Underlying Shares;
- o the dividend rate on the Underlying Shares. While dividend payments on the Underlying Shares, if any, are not paid to holders of the Securities, such payments may have an influence on the market price of the Underlying Shares and therefore on the Securities;
- o interest and yield rates in the market;
- o economic, financial, political and regulatory or judicial events that affect the stock markets generally and which may affect the closing price of the Underlying Shares and/or the Securities;
- o the time remaining to the maturity of the Securities; and
- o the creditworthiness of the Bank as issuer of the Securities and Holding as the guarantor of the Bank's obligations under the Securities. Any person who purchases the Securities is relying upon the creditworthiness of the Bank and Holding and has no rights against any other person. The Securities constitute the general, unsecured and unsubordinated contractual obligations of the Bank and Holding.

Some or all of these factors will influence the price that you will receive if you sell your Securities in the secondary market, if any, prior to maturity. For example, you may have to sell your Securities at a substantial discount from the principal amount if at the time of sale the market price of the Underlying Shares is at, below, or not sufficiently above the knock-in level. See "Risk Factors--The Inclusion of Commissions and Cost of Hedging in the Issue Price is Likely to Adversely Affect Secondary Market Prices."

THE INCLUSION OF COMMISSIONS AND COST OF HEDGING IN THE ISSUE PRICE IS LIKELY TO ADVERSELY AFFECT SECONDARY MARKET PRICES

Assuming no change in market conditions or any other relevant factors, the price, if any, at which the selling agents are willing to purchase Securities in secondary market transactions will likely be lower than the issue price, since the issue price included, and secondary market prices are likely to exclude, commissions paid with respect to the Securities, as well as the profit component included in the cost of hedging our obligations under the Securities. In addition, any such prices may differ from values determined by pricing models used by the selling agents, as a result of dealer discounts, mark-ups or other transaction costs.

AN INCREASE IN THE VALUE OF THE UNDERLYING SHARES WILL NOT INCREASE THE RETURN ON YOUR INVESTMENT

Owning the Securities is not the same as owning the Underlying Shares. Accordingly, the market value of your Securities may not have a direct relationship with the market price of the Underlying Shares, and changes in the market price of the Underlying Shares may not result in a comparable change in the market value of your Securities. If the price per Underlying Share increases above the initial price, the market value of the Securities may not increase. It is also possible for the price of the Underlying Shares to increase while the market price of the Securities declines.

WE MAY NOT BE ABLE TO DELIVER UNDERLYING SHARES AT MATURITY

If due to events beyond our reasonable control, as determined by us in our sole discretion, Underlying Shares are not available for delivery at maturity we may pay you cash in lieu of delivering Underlying Shares. In such a case, the amount of cash we will deliver will be an amount calculated by multiplying the

Edgar Filing: ABN AMRO BANK NV - Form 424B2

Stock Redemption Amount by the Closing Price of the Underlying Shares on the Determination Date. Accordingly, if you have sold Underlying Shares and your sale is to settle on the maturity date or you have otherwise agreed to deliver Underlying Shares on the maturity date, your trade may fail in the event we do not deliver Underlying Shares to you.

PS-10

POTENTIAL CONFLICTS OF INTEREST; NO SECURITY INTEREST IN THE UNDERLYING SHARES HELD BY US

We and our affiliates may carry out hedging activities that minimize our risks related to the Securities, including trading in the Underlying Shares. In particular, on or prior to the date of this Pricing Supplement, we, through our affiliates, hedged our anticipated exposure in connection with the Securities by taking positions in the Underlying Shares, options contracts on Underlying Shares listed on major securities markets, and/or other instruments that we deemed appropriate in connection with such hedging. Such hedging is carried out in a manner designed to minimize any impact on the price of the Underlying Shares. Our purchase activity, however, could potentially have increased the initial price of the Underlying Shares, and therefore inadvertently increased the level below which we would be required to deliver to you at maturity Underlying Shares, which, in turn, would have a value less than the principal amount of your Securities.

Through our affiliates, we are likely to modify our hedge position throughout the life of the Securities by purchasing and selling Underlying Shares, options contracts on Underlying Shares listed on major securities markets or positions in other securities or instruments that we may wish to use in connection with such hedging. Although we have no reason to believe that our hedging activity or other trading activities that we, or any of our affiliates, engage in or may engage in has had or will have a material impact on the price of the Underlying Shares, we cannot give you any assurance that we have not or will not affect such price as a result of our hedging or trading activities. It is possible that we or one of more of our affiliates could receive substantial returns from these hedging activities while the value of the Securities may decline. We or one or more of our affiliates may also engage in trading the Underlying Shares and other investments relating to Corn Products on a regular basis as part of our or its general broker-dealer and other businesses, for proprietary accounts, for other accounts under management or to facilitate transactions for customers, including block transactions. Any of these activities could adversely affect the price of the Underlying Shares and, therefore, the value of the Securities. We or one or more of our affiliates may also issue or underwrite other securities or financial or derivative instruments with returns linked or related to changes in the value of the Underlying Shares. By introducing competing products into the marketplace in this manner, we or one or more of our affiliates could adversely effect the value of the Securities. It is also possible that any advisory services that we or our affiliates provide in the course of any business with Corn Products or its affiliates could lead to actions on the part of the issuer of the stock which might adversely affect the value of the Underlying Shares.

The indenture governing the Securities does not contain any restrictions on our ability or the ability of any of our affiliates to sell, pledge or otherwise convey all or any portion of the Underlying Shares acquired by us or our affiliates. Neither we nor Holding nor any of our affiliates will pledge or otherwise hold Underlying Shares for the benefit of holders of the Securities in order to enable the holders to exchange their Securities for Underlying Shares under any circumstances. Consequently, in the event of a bankruptcy, insolvency or liquidation involving us or Holding, as the case may be, any Underlying Shares that we or Holding own will be subject to the claims of our creditors or

Edgar Filing: ABN AMRO BANK NV - Form 424B2

Holding's creditors generally and will not be available specifically for the benefit of the holders of the Securities.

NO SHAREHOLDER RIGHTS IN THE UNDERLYING SHARES

As a holder of the Securities, you will not have voting rights or rights to receive dividends or other distributions or other rights that holders of Underlying Shares would have.

Because neither we nor Holding nor any of our affiliates are affiliated with Corn Products, we have no ability to control or predict the actions of Corn Products, including any corporate actions of the type that would require the calculation agent to adjust the initial price and consequently the knock-in level and stock redemption amount, and have no ability to control the public disclosure of these corporate actions or any other events or circumstances affecting Corn Products. CORN PRODUCTS IS NOT INVOLVED IN THE OFFER OF THE SECURITIES IN ANY WAY AND HAS NO OBLIGATION TO CONSIDER YOUR INTEREST AS AN OWNER OF THE SECURITIES IN TAKING ANY CORPORATE ACTIONS THAT MIGHT AFFECT THE VALUE OF YOUR SECURITIES. NONE OF THE MONEY YOU PAY FOR THE SECURITIES WILL GO TO CORN PRODUCTS.

INFORMATION REGARDING CORN PRODUCTS

Neither we nor Holding nor any of our affiliates assume any responsibility for the adequacy of the information about Corn Products contained in this Pricing Supplement or in any of Corn Products' publicly available filings. AS

PS-11

AN INVESTOR IN THE SECURITIES, YOU SHOULD MAKE YOUR OWN INVESTIGATION INTO CORN PRODUCTS. NEITHER WE NOR HOLDING NOR ANY OF OUR AFFILIATES HAVE ANY AFFILIATION WITH CORN PRODUCTS, AND ARE NOT RESPONSIBLE FOR CORN PRODUCTS' PUBLIC DISCLOSURE OF INFORMATION, WHETHER CONTAINED IN SEC FILINGS OR OTHERWISE.

LIMITED ANTIDILUTION PROTECTION

AAI, as calculation agent, will adjust the initial price and consequently the stock redemption amount and knock-in level for certain events affecting the Underlying Shares, such as stock splits and corporate actions. The calculation agent is not required to make an adjustment for every corporate action which affects the Underlying Shares. For example, the calculation agent is not required to make any adjustments if Corn Products or anyone else makes a partial tender or partial exchange offer for the Underlying Shares. IF AN EVENT OCCURS THAT DOES NOT REQUIRE THE CALCULATION AGENT TO ADJUST THE AMOUNT OF THE UNDERLYING SHARES PAYABLE AT MATURITY, THE MARKET PRICE OF THE SECURITIES MAY BE MATERIALLY AND ADVERSELY AFFECTED.

HOLDINGS OF THE SECURITIES BY OUR AFFILIATES AND FUTURE SALES

Certain of our affiliates have agreed to purchase for investment the portion of the Securities that has not been purchased by investors in this offering, which initially they intend to hold for investment purposes. As a result, upon completion of this offering, our affiliates may own a substantial portion of the aggregate principal amount of the Securities. Circumstances may occur in which our interests or those of our affiliates could be in conflict with your interests.

POTENTIAL CONFLICTS OF INTEREST BETWEEN HOLDERS OF SECURITIES AND THE CALCULATION AGENT

As calculation agent, AAI will calculate the payout to you at maturity of

Edgar Filing: ABN AMRO BANK NV - Form 424B2

the Securities. AAI and other affiliates may carry out hedging activities related to the Securities, including trading in the Underlying Shares, as well as in other instruments related to the Underlying Shares. AAI and some of our other affiliates also trade the Underlying Shares on a regular basis as part of their general broker dealer businesses. Any of these activities could influence AAI's determinations as calculation agent and any such trading activity could potentially affect the price of the Underlying Shares and, accordingly could effect the payout on the Securities. AAI IS AN AFFILIATE OF ABN AMRO BANK N.V.

In addition, if certain reorganization events occur as defined under "Description of Securities--Adjustment Events" the calculation agent may adjust the initial price and consequently the knock-in level and stock redemption amount to reflect the new securities issued in such reorganization event. The calculation agent may make such adjustment based on its assessment of the market value and volatility of those new securities, which may adversely affect the value of the Securities. The calculation agent's adjustment to the Securities may be influenced by, among other things, our or our affiliates' hedging transactions with respect to the Securities and our or their ability to hedge our obligations under the Securities following those reorganization events. While we do not currently anticipate the occurrence of a reorganization event, there can be no assurance that a reorganization event will not occur or that the calculation agent's adjustments upon a reorganization event will not adversely affect the value of the Securities.

Moreover, the issue price of the Securities includes the agents' commissions and certain costs of hedging our obligations under the Securities. Our affiliates through which we hedge our obligations under the Securities expect to make a profit. Since hedging our obligations entails risk and may be influenced by market forces beyond our affiliates' control, such hedging may result in a profit that is more or less than initially projected.

TAX TREATMENT

You should also consider the tax consequences of investing in the Securities. Significant aspects of the tax treatment of the Securities are uncertain. We do not plan to request a ruling from the U.S. Internal Revenue Service (the "IRS") or from the Dutch authorities regarding the tax treatment of the Securities, and the IRS, the Dutch authorities or a court may not agree with the tax treatment described in the accompanying Prospectus Supplement. Please read carefully the sections entitled "United States Federal Taxation" (and in particular the subsection entitled "--Mandatorily Exchangeable Notes--Reverse Exchangeable and Knock-in Reverse Exchangeable Securities") and

PS-12

"Taxation in the Netherlands" in the accompanying Prospectus Supplement. You should consult your tax advisor about your own situation.

PS-13

HYPOTHETICAL SENSITIVITY ANALYSIS OF TOTAL RETURN OF THE SECURITIES AT MATURITY

The following tables set out the total return to maturity of a Security, based on the assumptions outlined below and several variables, which include (a) whether the closing price of the Underlying Shares has fallen below the knock-in level on any trading day during the Knock-in Period and (b) several hypothetical closing prices for the Underlying Shares on the determination date. The information in the tables is based on hypothetical market values for the

Edgar Filing: ABN AMRO BANK NV - Form 424B2

Underlying Shares. We cannot predict the market price or the closing price of the Underlying Shares on the determination date or at any time during the life of the Securities. THE ASSUMPTIONS EXPRESSED BELOW ARE FOR ILLUSTRATIVE PURPOSES ONLY AND THE RETURNS SET FORTH IN THE TABLE MAY OR MAY NOT BE THE ACTUAL RATES APPLICABLE TO A PURCHASER OF THE SECURITIES.

ASSUMPTIONS

Initial Price: \$37.13 (the closing price on the day we priced the Securities)

Knock-in level: \$29.70 (80% of the Initial Price)

Annual Interest on the Securities: 14.75%

Term of the Securities: 3 months

Exchange Factor: 1.0 (we have assumed that no market disruption event occurs and the calculation agent does not need to adjust the exchange factor for any adjustment events during the term of the Securities).

PAYMENT AT MATURITY IF THE CLOSING PRICE OF THE UNDERLYING SHARES FALLS BELOW THE KNOCK-IN LEVEL ON ANY TRADING DAY DURING THE KNOCK-IN PERIOD:

PAYMENT AT MATURITY IF THE CLOSING PRICE OF THE UNDERLYING SHARES NEVER FALLS BELOW THE KNOCK-IN LEVEL ON ANY TRADING DAY DURING THE KNOCK-IN PERIOD:

- (a) Based on the assumptions set forth above, if the closing price of the Underlying Shares falls below \$29.70 on any trading day during the Knock-in Period and, in addition, the closing price of the Underlying Shares is less than \$37.13 on the determination date, the payment at maturity will be made in Underlying Shares. For determining the value of the payment at maturity, we have assumed that the closing price of the Underlying Shares will be the same on the maturity date as on the determination date.
 - (b) The total return presented is exclusive of any tax consequences of owning the Securities. You should consult your tax adviser regarding whether owning the Securities is appropriate for your tax situation. See the sections titled "Risk Factors" in this Pricing Supplement and "United States Federal Taxation" and "Taxation in the Netherlands" in the accompanying Prospectus Supplement.
 - (c) Interest on the Securities will be computed on the basis of a 360-day year of twelve 30-day months or, in the case of an incomplete month, the number of actual days elapsed. Accordingly, depending on the number of days in any monthly interest payment period, the coupon payable in such period and, consequently, the total interest payable over the life of the Securities, may be less than the amount reflected in this column.
 - (d) Based on the assumptions set forth above, if the closing price of the Underlying Shares never falls below \$29.70 on any trading day during the Knock-in Period, the payment at maturity will be made in cash.

DESCRIPTION OF SECURITIES

Capitalized terms not defined herein have the meanings given to such terms in the accompanying Prospectus Supplement. The term "Security" refers to each \$1,000 principal amount of our 14.75% Knock-in Reverse Exchangeable Securities due May 30, 2008 linked to common stock of the Underlying Company and fully and unconditionally guaranteed by Holding.

Principal Amount:.....	\$1,900,000
Underlying Shares.....	Common Stock, \$.01 par value per share, of Corn Products International, Inc.
Underlying Company.....	Corn Products International, Inc.
Original Issue Date.....	February 29, 2008
Pricing Date.....	February 25, 2008
Issue Price.....	100%

Edgar Filing: ABN AMRO BANK NV - Form 424B2

Initial Price..... \$37.13 (the Closing Price per Underlying Share when we priced the Securities on the Pricing Date, divided by the Exchange Factor).

Knock-in Level..... 80% of the Initial Price, which will be determined by the Calculation Agent. The Initial Price and consequently the Knock-in Level may be adjusted for certain corporate events affecting the Underlying Company.

Maturity Date..... May 30, 2008

Specified Currency..... U.S. Dollars

CUSIP..... 00083GER1

Denominations..... The Securities may be purchased in denominations of \$1,000 and integral multiples thereof.

Form of Securities..... The Securities will be represented by a single registered global security, deposited with the Depository Trust Company.

Guarantee..... The payment and delivery obligations of ABN AMRO Bank N.V. under the Securities, when and as they shall become due and payable, whether at maturity or upon acceleration, are fully and unconditionally guaranteed by ABN AMRO Holding N.V.

Interest Rate..... 14.75% per annum, payable monthly in arrears on the last day of each month commencing on March 31, 2008 and ending on the Maturity Date, which shall represent (a) an interest coupon of 2.99% and (b) an option premium of 11.76% per annum.

Payment at Maturity..... If the Closing Price per Underlying Share has not fallen below the Knock-in Level on any Trading Day during the Knock-in Period, we will pay you the principal amount of each Security in cash. If the Closing Price per Underlying Share has fallen below the Knock-in Level on any Trading Day during the Knock-in Period, then (i) if the Closing Price per Underlying Share on the Determination Date is below the Initial Price, we will deliver to you, in exchange for each Security, a number of Underlying Shares equal to the Stock Redemption Amount or (ii) if the Closing Price per Underlying Share on the Determination Date is at or above the Initial Price, we will pay you the principal amount of each Security in cash. We will pay cash in lieu of delivering fractional Underlying Shares in an amount equal to the corresponding fractional Closing Price of the Underlying Shares, as determined by the Calculation Agent on the Determination Date. If due to events beyond our reasonable control, as determined by us in our sole discretion, Underlying Shares are not

available for delivery at maturity we may pay you, in lieu of the Stock Redemption Amount, the cash value of the Stock Redemption Amount, determined by multiplying the Stock Redemption Amount by the Closing Price of the Underlying Shares on the Determination Date. Following a Reorganization Event, the amount payable at maturity is subject to adjustments as described below under "--Adjustment Events."

- Stock Redemption Amount..... The Calculation Agent will determine the Stock Redemption Amount on the Determination Date by dividing \$1,000 by the Initial Price of the Underlying Shares. The Initial Price and consequently the Stock Redemption Amount may be adjusted for certain corporate events affecting the Underlying Company. The interest payment on the Securities at maturity will be paid in cash.
- Determination Date..... May 27, 2008; provided that if such day is not a Trading Day, or if a Market Disruption Event has occurred on such a Trading Day, the Determination Date shall be the immediately succeeding Trading Day; provided, further, that the Determination Date shall be no later than the second scheduled Trading Day preceding the Maturity Date, notwithstanding the occurrence of a Market Disruption Event on such second scheduled Trading Day.
- Closing Price..... If the Underlying Shares (or any other security for which a closing price must be determined) are listed on a U.S. securities exchange registered under the Exchange Act, or are included in the OTC Bulletin Board Service, which we refer to as the OTC Bulletin Board (operated by the Financial Industry Regulatory Authority), the Closing Price for one Underlying Share (or one unit of any such other security) on any Trading Day means (i) the last reported sale price, regular way, in the principal trading session on such day on the principal securities exchange on which the Underlying Shares (or any such other security) are listed or admitted to trading or (ii) if not listed or admitted to trading on any such securities exchange or if such last reported sale price is not obtainable (even if the Underlying Shares, or other such security, are listed or admitted to trading on such securities exchange), the last reported sale price in the principal trading session on the over-the-counter market as reported on the Relevant Exchange or OTC Bulletin Board on such day. If the last reported sale price is not available pursuant to clause (i) or (ii) of the preceding sentence, the Closing Price for any Trading Day shall be the mean, as determined by the Calculation Agent, of the bid prices for the Underlying Shares (or any such other security) obtained from as many dealers in such security (which may include AAI or any of our other

Edgar Filing: ABN AMRO BANK NV - Form 424B2

affiliates), but not exceeding three, as will make such bid prices available to the Calculation Agent. The term "OTC Bulletin Board Service" shall include any successor service thereto.

Relevant Exchange..... The primary U.S. securities organized exchange or market of trading for the Underlying Shares. If a Reorganization Event has occurred, the Relevant Exchange will be the stock exchange or securities market on which the Exchange Property (as defined below under "--Adjustment Events") that is a listed equity security is principally traded as determined by the Calculation Agent.

Trading Day..... A day, as determined by the Calculation Agent, on which trading is generally conducted on the Relevant Exchange.

Market Disruption Event..... Means, with respect to any securities for which a Closing Price must be determined:

(i) either:

(x) any suspension of or limitation imposed on trading in such securities by the primary exchange therefore or otherwise and whether by reason of movements in price exceeding limits permitted by such exchange or otherwise or by any exchange or quotation system on which trading in futures or options contracts relating to such securities is executed, or

(y) any event (other than an event described in clause (z) below) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (1) to effect transactions in or obtain market values for such securities on the primary exchange therefore or (2) to effect transactions in or obtain market values for futures or options contracts relating to such securities on any other exchange, or

(z) the closure on any Trading Day of the primary exchange for such securities, or any exchange or quotation system on which trading in future or options relating such securities is executed, prior to its scheduled closing time

unless such earlier closing time is announced by such exchange at least one hour prior to the earlier of (1) the actual closing time for the regular trading session on such exchange on such Trading Day and (2) the submission deadline for orders to be entered into such exchange for execution on such Trading Day; and

- (ii) a determination by the Calculation Agent in its sole discretion that the event described in clause (i) above materially interfered with our ability or the ability of any of our affiliates to unwind or adjust all or a material portion of the hedge with respect to the Securities.

For purposes of determining whether a market disruption event has occurred: (1) a limitation on the hours or number of days of trading will not constitute a market disruption event if it results from an announced change in the regular business hours of the relevant exchange; (2) a decision to permanently discontinue trading in the relevant futures or options contract will not constitute a market disruption event; (3) limitations pursuant to New York Stock Exchange Inc. Rule 70A (or any applicable rule or regulation enacted or promulgated by the New York Stock Exchange Inc., any other self-regulatory organization or the Commission of similar scope as determined by the calculation agent) on trading during significant market fluctuations shall constitute a suspension, absence or material limitation of trading; (4) a suspension of trading in a futures or options contract on such securities by the primary securities market trading in such futures or options, if available, by reason of (x) a price change exceeding limits set by such securities exchange or market, (y) an imbalance of orders relating to such contracts or (z) a disparity in bid and ask quotes relating to such contracts will constitute a suspension, absence or material limitation of trading in futures or options contracts related to such securities; and (5) a suspension, absence or material limitation of trading on the primary securities market on which futures or options contracts related to such securities are traded will not include any time when such securities market is itself closed for trading under ordinary

circumstances.

The Calculation Agent shall as soon as reasonably practicable under the circumstances notify us, the trustee, the Depository Trust Company and the agents of the existence or occurrence of a Market

Disruption Event on any day that but for the occurrence or existence of a Market Disruption Event would have been the Determination Date.

- Exchange Factor..... The Exchange Factor will be set initially at 1.0, but will be subject to adjustment upon the occurrence of certain corporate events affecting the Underlying Shares. See "Adjustment Events" below.
- Adjustment Events..... The Exchange Factor or the amounts paid at maturity will be adjusted as follows:
1. If the Underlying Shares are subject to a stock split or reverse stock split, then once such split has become effective, the Exchange Factor will be proportionately adjusted.
 2. If the Underlying Shares are subject (i) to a stock dividend (i.e., the issuance of additional Underlying Shares) that is given ratably to all holders of Underlying Shares or (ii) to a distribution of the Underlying Shares as a result of the triggering of any provision of the corporate charter of the Underlying Company, in each case other than a stock split described in paragraph 1, then once the dividend has become effective and the Underlying Shares are trading ex-dividend, the Exchange Factor will be proportionally adjusted.
 3. There shall be no adjustments to the Exchange Factor to reflect cash dividends or other distributions paid with respect to the Underlying Shares unless such cash dividends or other distributions constitute Extraordinary Dividends as described below (except that distributions described in paragraph 2 above shall not be subject to this paragraph). A cash dividend or other distribution with respect to the Underlying Shares shall be deemed to be an "Extraordinary Dividend" if such dividend or other distribution exceeds the immediately preceding non-Extraordinary Dividend for the Underlying Shares by an amount equal to at least 10% of the Closing Price of the Underlying Shares (as adjusted for any subsequent corporate event requiring an adjustment hereunder, such as a stock split or reverse stock split) on the Trading Day preceding the ex-dividend date for the payment of such Extraordinary Dividend (the "ex-dividend date"). If an Extraordinary Dividend occurs with respect to the Underlying Shares, the Exchange Factor with respect to the Underlying Shares will be adjusted on the ex-dividend date with respect to such Extraordinary Dividend so that the new Exchange Factor will equal the product of

(i) the then-current Exchange Factor and (ii) a fraction, the numerator of which is the Closing Price on the Trading Day preceding the ex-dividend date, and the denominator of which is the amount by which the Closing Price on the Trading Day preceding the ex-dividend date exceeds the Extraordinary Dividend Amount. The "Extraordinary Dividend Amount" with respect to an Extraordinary Dividend for the Underlying Shares shall equal (i) in the case of cash dividends or other distributions that constitute regular dividends, the amount per share of such Extraordinary Dividend minus the amount per share of the immediately preceding non-Extraordinary Dividend for the Underlying Shares or (ii) in the case of cash dividends or other distributions that do not constitute regular dividends, the amount per share of such Extraordinary Dividend. To the extent an Extraordinary

PS-22

Dividend is not paid in cash, the value of the non-cash component will be determined by the calculation agent, whose determination shall be conclusive. A distribution on the Underlying Shares described in clause (A), clause (D) or clause (E) in the definitions of "Reorganization Event" of paragraph 5 below that also constitutes an Extraordinary Dividend shall not cause an adjustment to the Exchange Factor pursuant to this paragraph 3.

4. If the Underlying Company issues rights or warrants to all holders of the Underlying Shares to subscribe for or purchase Underlying Shares at an exercise price per share less than the closing price of the Underlying Shares on both (i) the date the exercise price of such rights or warrants is determined and (ii) the expiration date of such rights or warrants, and if the expiration date of such rights or warrants precedes the maturity of this Note, then the Exchange Factor shall be adjusted to equal the product of the prior Exchange Factor and a fraction, the numerator of which shall be the number of Underlying Shares outstanding immediately prior to the issuance of such rights or warrants plus the number of additional Underlying Shares offered for subscription or purchase pursuant to such rights or warrants and the denominator of which shall be the number of Underlying Shares outstanding immediately prior to the issuance of such rights or warrants plus the number of additional Underlying Shares which the aggregate offering price of the total

number of shares of the Underlying Shares so offered for subscription or purchase pursuant to such rights or warrants would purchase at the closing price on the expiration date of such rights or warrants, which shall be determined by multiplying such total number of shares offered by the exercise price of such rights or warrants and dividing the product so obtained by such Closing Price.

5. If a Reorganization Event (as defined below) occurs, the payment at maturity will depend on (i) whether the Closing Price of the Underlying Shares fell below the Knock-in Level on any Trading Day from but not including the Pricing Date to and including one Trading Day prior to the date of the Reorganization Event (for purposes of this paragraph 5, we refer to such period as the "Relevant Period"), and (ii) the kind and amount of Exchange Property (as defined below) received by holders of Underlying Shares in the Reorganization Event.

In the case where the Closing Price of the Underlying Shares has fallen below the Knock-in Level on any Trading Day during the Relevant Period, each holder of a Security will receive at maturity, in respect of each \$1,000 principal amount of each Security, the lesser of: (i) \$1,000 in cash or (ii) Exchange Property in an amount with a value equal to the product of the Stock Redemption Amount times the Transaction Value (as defined below).

In the case where the Closing Price of the Underlying Shares has not fallen below the Knock-in Level on any Trading Day during the Relevant Period, then the payment at maturity will depend upon the type of Exchange Property received by holders of Underlying Shares in accordance with the following:

- (i) If the Exchange Property consists solely of equity securities listed on a securities exchange that, in the opinion of the Calculation Agent, maintains sufficient liquidity for trading

PS-23

in such Exchange Property, then the payment at maturity for each \$1,000 principal amount of Securities will depend on whether the Closing Price of such Exchange Property has fallen below the Knock-in Level on any Trading Day commencing on the date of such Reorganization Event

to and including the Determination Date:

- (a) If the Closing Price of such Exchange Property has not fallen below the Knock-in Level on any Trading Day commencing on the date of such Reorganization Event to and including the Determination Date, then each holder of a Security will receive the principal amount of \$1,000 in cash; or
- (b) If the Closing Price of such Exchange Property has fallen below the Knock-in Level on any Trading Day commencing on the date of such Reorganization Event to and including the Determination Date, then (x) if the Closing Price of such Exchange Property on the Determination Date is below the Initial Price, we will deliver to you, in exchange for each Security, Exchange Property with a value equal to the product of the Stock Redemption Amount times the Transaction Value and (y) if the Closing Price of such Exchange Property on the Determination Date is at or above the Initial Price, we will pay you \$1,000 in cash.

The Calculation Agent will adjust the Initial Price and consequently the Knock-in Level to reflect the new securities delivered in such Reorganization Event and the market value and volatility levels of such securities and any Exchange Factor adjustments to the Initial Price as of the effective date of the Reorganization Event. Following any such adjustment, the Initial Price will be such adjusted Initial Price, divided by the Exchange Factor (which shall have been reset to 1.0 immediately following the Reorganization Event). The Bank will provide notice to the Trustee and the Securities Administrator of the adjusted Knock-in Level and Initial Price as soon as practicable after the date of such Reorganization Event.

- (ii) If the Exchange Property consists

solely of property other than such listed equity securities, each holder of a Security will receive, on the Maturity Date, in exchange for each \$1,000 principal amount of Securities, the lesser of: (i) \$1,000 in cash or (ii) Exchange Property in an amount with a value equal to the product of the Stock Redemption Amount times the Transaction Value as of the Determination Date. We may, in lieu of delivering such Exchange Property, pay you the cash value of such Exchange Property as of the Determination Date, as determined by the Calculation Agent. We will notify the Trustee and the Securities Administrator of the amount and type of Exchange Property to be delivered or cash to be paid.

- (iii) If the Exchange Property consists of any combination of such listed equity securities and other property, then we will (a) deliver, on the Maturity Date, the portion of Exchange

PS-24

Property consisting of such other property with a value equal to the product of the Stock Redemption Amount (prior to any adjustment under this clause) times the Transaction Value of such portion of Exchange Property on the Determination Date or, at our election, pay the cash value thereof, as determined by the Calculation Agent, (b) proportionally adjust the Stock Redemption Amount to reflect the portion of the Exchange Property constituting such listed equity securities, (c) adjust the Initial Price and consequently the Knock-in Level to reflect such listed equity securities, the market value and volatility levels of such listed equity securities and any Exchange Factor adjustments to the Initial Price as of the effective date of the Reorganization Event and (d) reduce the principal amount of each \$1,000 of Securities to an amount equal to such adjusted Stock Redemption Amount multiplied by such adjusted Initial Price.

Following such adjustments, the amount paid at maturity for each Security will be determined as set forth under clause (i) above, except references to each \$1,000 principal amount of Security and \$1,000 in cash and the reference to \$1,000 in the definition of Stock Redemption Amount shall be references to the adjusted principal amount of Securities as described in clause (d) of the preceding sentence. In addition, following any such adjustment, the Initial Price will be such adjusted Initial Price, divided by the Exchange Factor (which shall have been reset to 1.0 immediately following the Reorganization Event). The Bank will provide notice to the Trustee and the Securities Administrator of any adjustments to the Securities as a result of this clause (iii) as soon as practicable after the date of such Reorganization Event.

"Reorganization Event" means (A) there has occurred any reclassification or change with respect to the Underlying Shares, including, without limitation, as a result of the issuance of any tracking stock by the Underlying Company; (B) the Underlying Company or any surviving entity or subsequent surviving entity of the Underlying Company (an "Underlying Company Successor") has been subject to a merger, combination or consolidation and is not the surviving entity; (C) any statutory exchange of securities of the Underlying Company or any Underlying Company Successor with another corporation occurs (other than pursuant to clause (B) above); (D) the Underlying Company is liquidated; (E) the Underlying Company issues to all of its shareholders equity securities of an issuer other than the Underlying Company (other than in a transaction described in clauses (B), (C) or (D) above) (a "Spin-off Event"); or (F) a tender or exchange offer or going-private transaction is consummated for all the outstanding Underlying Shares.

"Exchange Property" means securities, cash or any other assets distributed to holders of the Underlying Shares in any Reorganization Event, including, (A) in the case of the issuance of tracking stock or in the case of a Spin-off Event, the Underlying Shares with respect to which the tracking stock or spun-off security was issued and (B) in the case of any other Reorganization Event where

Edgar Filing: ABN AMRO BANK NV - Form 424B2

the Underlying Shares continue to be held by the holders receiving such distribution, the Underlying Shares.

PS-25

"Transaction Value", at any date, means (A) for any cash received as Exchange Property in any such Reorganization Event, the amount of cash received per Underlying Share; (B) for any property other than cash or securities received in any such Reorganization Event, the market value, as determined by the Calculation Agent, as of the date of receipt, of such Exchange Property received per Underlying Share; and (C) for any security received in any such Reorganization Event (including in the case of the issuance of tracking stock, the reclassified Underlying Shares and, in the case of a Spin-off Event, the Underlying Shares with respect to which the spun-off security was issued), an amount equal to the Closing Price, as of the determination date, per share of such security multiplied by the quantity of such security received for each Underlying Share.

For purposes of clause (iii) above, if Exchange Property consists of more than one type of property that is not listed equity securities described in clause (iii) above, holders of Securities will receive at maturity a pro rata share of each such type of Exchange Property in proportion to the quantity of such Exchange Property received in respect of each Underlying Share. If Exchange Property includes a cash component, holders will not receive any interest accrued on such cash component. In the event Exchange Property consists of securities, those securities will, in turn, be subject to the antidilution adjustments set forth in paragraphs 1 through 5.

For purposes of this paragraph 5:

- (i) in the case of a consummated tender or exchange offer or going-private transaction involving Exchange Property of a particular type, Exchange Property shall be deemed to include the amount of cash or other property paid by the offeror in the tender or exchange offer with respect to such Exchange Property (in an amount determined on the basis of the rate of exchange in such tender or exchange offer or going-private transaction); and

- (ii) in the event of a tender or exchange offer or a going-private transaction with respect to Exchange Property in which an offeree may elect to receive cash or other property, Exchange Property shall be deemed to include the kind and amount of cash and other property received by offerees who elect to receive cash.

With respect to paragraphs 1 to 5 above, no adjustments to the Exchange Factor shall be required unless such adjustment would require a change of at least 0.1% in the Exchange Factor then in effect. The Exchange Factor resulting from any of the adjustments specified above shall be rounded to the nearest one hundred-thousandth with five one-millionths being rounded upward.

No adjustments to the Exchange Factor or method of calculating the Exchange Factor shall be required other than those specified above. However, the Bank may, at its sole discretion, cause the Calculation Agent to make additional changes to the Exchange Factor upon the occurrence of corporate or other similar events that affect or could potentially affect market prices of, or shareholders' rights in, the Underlying Shares (or other Exchange Property) but only to reflect such changes, and not with the aim of changing relative investment risk. The adjustments specified above do not cover all events that could affect the Market Price or the

PS-26

Closing Price of the Underlying Shares, including, without limitation, a partial tender or partial exchange offer for the Underlying Shares.

The Calculation Agent shall be solely responsible for the determination and calculation of any adjustments to the Exchange Factor or method of calculating the Exchange Factor and of any related determinations and calculations with respect to any distributions of stock, other securities or other property or assets (including cash) in connection with any Reorganization Event described in paragraph 5 above, and its determinations and calculations with respect thereto shall be conclusive.

The Calculation Agent will provide information as to any adjustments to the Exchange Factor or method of calculating the Exchange Factor upon written request by any holder of the Securities.

Securities shall have occurred and be continuing, the amount declared due and payable upon any acceleration of any Security shall be determined by AAI, as Calculation Agent, and shall be equal to the principal amount of the Security plus any accrued interest to, but not including, the date of acceleration.

Calculation Agent..... AAI. All determinations made by the Calculation Agent will be at the sole discretion of the Calculation Agent and will, in the absence of manifest error, be conclusive for all purposes and binding on you and on us.

Additional Amounts..... Subject to certain exceptions and limitations described in "Description of Debt Securities -- Payment of Additional Amounts" in the accompanying Prospectus, we will pay such additional amounts to holders of the Securities as may be necessary in order that the net payment of the principal of the Securities and any other amounts payable on the Securities, after withholding for or on account of any present or future tax, assessment or governmental charge imposed upon or as a result of such payment by The Netherlands (or any political subdivision or taxing authority thereof or therein) or the jurisdiction of residence or incorporation of any successor corporation (other than the United States), will not be less than the amount provided for in the Securities to be then due and payable.

Book Entry..... The indenture for the Securities permits us at anytime and in our sole discretion to decide not to have any of the Securities represented by one or more registered global securities. DTC has advised us that, under its current practices, it would notify its participants of our request, but will only withdraw beneficial interests from the global security at the request of each DTC participant.

Record Date..... The "record date" for any interest payment date is the calendar day prior to that interest payment date, whether or not that date is a business day.

PS-27

USE OF PROCEEDS

The net proceeds we receive from the sale of the Securities will be used for general corporate purposes and, in part, by us or one or more of our affiliates in connection with hedging our obligations under the Securities. The issue price of the Securities includes the selling agents' commissions (as shown on the cover page of the accompanying Prospectus Supplement) paid with respect to the Securities and the cost of hedging our obligations under the Securities. The cost of hedging includes the projected profit that our affiliates expect to realize in consideration for assuming the risks inherent in managing the hedging transactions. Since hedging our obligations entails risk and may be influenced by market forces beyond our or our affiliates' control, such hedging may result

Edgar Filing: ABN AMRO BANK NV - Form 424B2

in a profit that is more or less than initially projected, or could result in a loss. See also "Risk Factors--The Inclusion of Commissions and Cost of Hedging in the Issue Price is Likely to Adversely Affect Secondary Market Prices" and "Potential Conflicts of Interest; No Security Interest in the Underlying Shares Held by Us" and "Plan of Distribution" in this Pricing Supplement and "Use of Proceeds" in the accompanying Prospectus.

TAXATION

Please review carefully the sections entitled "United States Federal Taxation" (and in particular the subsection entitled "--Mandatorily Exchangeable Notes--Reverse Exchangeable and Knock-in Reverse Exchangeable Securities") and "Taxation in the Netherlands" in the accompanying Prospectus Supplement. Prospective purchasers of the Securities should consult their own tax advisers as to the tax consequences of acquiring, holding and disposing of the Securities under the tax law of any state, local and foreign jurisdiction.

On December 7, 2007, the U.S. Treasury and the Internal Revenue Service released a notice requesting comments on the U.S. federal income tax treatment of "prepaid forward contracts" and similar instruments. While it is not entirely clear whether the Securities are among the instruments described in the notice, it is possible that any Treasury regulations or other guidance issued after consideration of the issues raised in the notice could materially and adversely affect the tax consequences of ownership and disposition of the Securities, possibly on a retroactive basis.

The notice indicates that it is possible the IRS may adopt a new position with respect to how the IRS characterizes income or loss (including, for example, whether the option premium might be currently included as ordinary income) on the Securities for U.S. holders of the Securities.

You should consult your tax advisor regarding the notice and its potential implications for an investment in the Securities.

PS-28

PLAN OF DISTRIBUTION

We have appointed ABN AMRO Incorporated ("AAI") as agent for this offering. AAI has agreed to use reasonable efforts to solicit offers to purchase the Securities. We will pay AAI, in connection with sales of the Securities resulting from a solicitation such agent made or an offer to purchase such agent received, a commission of 1.625% of the initial offering price of the Securities. AAI has informed us that, as part of its distribution of the Securities, it intends to reoffer the Securities to other dealers who will sell the Securities. Each such dealer engaged by AAI, or further engaged by a dealer to whom AAI reoffers the Securities, will purchase the Securities at an agreed discount to the initial offering price of the Securities. AAI has informed us that such discounts may vary from dealer to dealer and that not all dealers will purchase or repurchase the Securities at the same discount. You can find a general description of the commission rates payable to the agents under "Plan of Distribution" in the accompanying Prospectus Supplement.

AAI is a wholly owned subsidiary of the Bank. AAI will conduct this offering in compliance with the requirements of Rule 2720 of the National Association of Securities Dealers, Inc., which is commonly referred to as the NASD, regarding an NASD member firm's distributing the securities of an affiliate. When the distribution of the Securities is complete, AAI may offer and sell those Securities in the course of its business as a broker-dealer. AAI may act as principal or agent in those transactions and will make any sales at

Edgar Filing: ABN AMRO BANK NV - Form 424B2

prevailing secondary market prices at the time of sale. AAI may use this Pricing Supplement and the accompanying Prospectus and Prospectus Supplement in connection with any of those transactions. AAI is not obligated to make a market in the Securities and may discontinue any purchase and sale activities with respect to the Securities at any time without notice.

To the extent that the total aggregate principal amount of the Securities being offered by this Pricing Supplement is not purchased by investors in the offering, one or more of our affiliates has agreed to purchase the unsold portion, and to hold such Securities for investment purposes. See "Holding of the Securities by our Affiliates and Future Sales" under the heading "Risk Factors."

We expect that delivery of the Securities will be made against payment therefore on or about the closing date specified on the cover page of this pricing supplement, which will be the fourth Business Day following the Pricing Date of the Securities (this settlement cycle being referred to as "T+4"). Under Rule 15c6-1 of the SEC under the Securities Exchange Act of 1934, trades in the secondary market generally are required to settle in three Business Days, unless the parties to that trade expressly agree otherwise. Accordingly, purchasers who wish to trade the Securities on the Pricing Date will be required, by virtue of the fact that the Securities initially will settle in T+4, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement and should consult their own advisor.

PROSPECTUS SUPPLEMENT
(TO PROSPECTUS DATED SEPTEMBER 29, 2006)

[ABN AMRO BANK N.V. GRAPHIC OMITTED]

US\$ 7,500,000,000 ABN NOTES (SM)

fully and unconditionally guaranteed by ABN AMRO Holding N.V.

We, ABN AMRO Bank N.V., may offer from time to time senior notes. The specific terms of any notes that we offer will be included in a pricing supplement. The

Underlying Asset A: 1,475 (**equal to or greater than** Call Threshold Level)

Underlying Asset B: 1,400 (**less than** Call Threshold Level and Downside Threshold)

\$1,000 x (1 + Underlying Return of the Least Performing Underlying Asset)

= \$1,000 x [\$1 + (-60%)]

= \$1,000 x 0.40

= \$400 (Payment at Maturity)

Total Payment
\$400.00 (60.00% loss)

Because the Notes are not subject to an automatic call and the final level of Underlying Asset B is less than its downside threshold, you will be exposed to the underlying return of the least performing underlying asset and at maturity UBS will pay you \$400.00 per Note, a loss on the Notes of 60.00%.

We make no representation or warranty as to which of the underlying assets will be the least performing underlying asset for the purposes of calculating your actual payment at maturity.

Investing in the Notes involves significant risks. The Notes differ from ordinary debt securities in that UBS is not necessarily obligated to repay the full amount of your initial investment. If the Notes are not subject to an automatic call, you may lose a significant portion or all of your initial investment. Specifically, if the Notes are not subject to an automatic call and the final level of any underlying asset is less than its downside threshold, you will lose a percentage of your principal amount equal to the underlying return of the least performing underlying asset and, in extreme situations, you could lose all of your initial investment.

You will be exposed to the market risk of each underlying asset on each observation date, including the final valuation date, and any decline in the level of one underlying asset may negatively affect your return and will not be offset or mitigated by a lesser decline or any potential increase in the level of any other underlying asset. Any payment on the Notes, including any payments in respect of an automatic call or any repayment of principal, is subject to the creditworthiness of UBS. If UBS were to default on its payment obligations, you may not receive any amounts owed to you under the Notes and you could lose all of your initial investment.

Information About the Underlying Assets

All disclosures contained in this document regarding each underlying asset for the Notes are derived from publicly available information. UBS has not conducted any independent review or due diligence of any publicly available information with respect to any underlying asset. You should make your own investigation into each underlying asset.

Included on the following pages is a brief description of each underlying asset. This information has been obtained from publicly available sources. Set forth below is a table that provides the quarterly closing high and quarterly closing low for each underlying asset. The information given below is for the specified calendar quarters. We obtained the closing level information set forth below from Bloomberg Professional® service (“Bloomberg”) without independent verification. You should not take the historical prices of the underlying asset as an indication of future performance.

Russell 2000® Index

We have derived all information regarding the Russell 2000® Index (“RTY”) contained in this document, including, without limitation, its make-up, method of calculation and changes in its components, from publicly available information. Such information reflects the policies of, and is subject to change by the Frank Russell Company (the “index sponsor” or “FTSE Russell”).

RTY is published by FTSE Russell, but FTSE Russell has no obligation to continue to publish RTY, and may discontinue publication of RTY at any time.

As discussed more fully in the index supplement under the heading “Underlying Indices and Underlying Asset Publishers – Russell 2000 Index,” RTY measures the composite price performance of the smallest 2,000 companies included in the Russell 3000 Index. The Russell 3000 Index is composed of the 3,000 largest United States companies by market capitalization and represents approximately 98% of the market capitalization of the United States equity market. RTY value is calculated by adding the market values of the index’s component stocks and then dividing the derived total market capitalization by the “adjusted” capitalization of RTY on the base date of December 31, 1986.

The graph below illustrates the performance of RTY from January 1, 2009 through February 15, 2019, based on information from Bloomberg. The dotted blue line represents its call threshold level of 1,412.322 and the dotted green line represents its downside threshold of 1,098.473, which are equal to 90.00% and 70.00%, respectively, of its initial level. *Past performance of the RTY is not indicative of the future performance of the RTY.*

EURO STOXX 50® Index

We have derived all information regarding the EURO STOXX 50® Index (“SX5E”) contained in this document, including without limitation, its make-up, method of calculation and changes in its components from publicly available information. Such information reflects the policies of, and is subject to change by STOXX Limited (its “index sponsor” or “STOXX Limited”).

SX5E is published by STOXX Limited, but STOXX Limited has no obligation to continue to publish SX5E, and may discontinue publication of SX5E at any time. SX5E is determined, comprised and calculated by STOXX Limited without regard to the Notes.

As discussed more fully in the index supplement under “Non-U.S. Indices - EURO STOXX 50® Index”, SX5E covers 50 stocks of market sector leaders mainly from 11 Eurozone countries: Austria, Belgium, Finland, France, Germany, Ireland, Italy, Luxembourg, the Netherlands, Portugal and Spain. SX5E captures a selection of the largest stocks among the 19 EURO STOXX regional Supersector indices. The largest stocks within those indices are added to the selection list until coverage is approximately 60% of the free float market capitalization of the corresponding EURO STOXX Total Market Index (the “EURO STOXX TMI”) Supersector Index and from that selection list the 50 stocks are selected. SX5E universe is defined as all components of the 19 EURO STOXX Regional Supersector indices. The EURO STOXX Supersector indices represent the Eurozone portion of the STOXX 600 Supersector indices, which contain the 600 largest stocks traded on the major exchanges of 18 European countries. Each component’s weight is capped at 10% of SX5E’s total free-float market capitalization.

Information from outside sources is not incorporated by reference in, and should not be considered part of, this document or any document incorporated herein by reference. UBS has not conducted any independent review or due diligence of any publicly available information with respect to SX5E.

Historical Information

The following table sets forth the quarterly closing high and quarterly closing low for SX5E based on the daily closing levels as reported by Bloomberg, without independent verification. UBS has not conducted any independent review or due diligence of publicly available information obtained from Bloomberg. The closing level of the SX5E on February 15, 2019 was 3,241.25. *Past performance of SX5E is not indicative of the future performance of SX5E.*

Correlation of the Underlying Assets

The graph below illustrates the daily performance of the Russell 2000[®] Index and the EURO STOXX 50[®] Index from January 1, 2009 through February 15, 2019. For comparison purposes, each underlying asset has been normalized to have a closing level of 100 on January 1, 2009 by dividing the closing level of that underlying asset on each trading day by the closing level of that underlying asset on January 1, 2009 and multiplying by 100. We obtained the closing levels used to determine the normalized closing levels set forth below from Bloomberg, without independent verification.

The closer the relationship of the daily returns of the underlying assets over a given period, the more positively correlated those underlying assets are. The lower (or more negative) the correlation among the underlying assets, the less likely it is that those underlying assets will move in the same direction and therefore, the greater the potential for one of those underlying assets to close below its call threshold level on any observation date and below its downside threshold on the final valuation date. This is because the less positively correlated the underlying assets are, the greater the likelihood that at least one of the underlying assets will decrease in value. However, even if the underlying assets have a higher positive correlation, one or more of the underlying assets might close below its call threshold level on any observation date and below its downside threshold on the final valuation date, as the underlying assets may decrease in value together. Although the correlation of the underlying assets' performance may change over the term of the Notes, the correlations referenced in setting the terms of the Notes are calculated using UBS' internal models at the time when the terms of the Notes are set and are not derived from the daily returns of the underlying assets over the period set forth below. A higher call return rate is generally associated with lower correlation of the underlying assets, which reflects a greater potential that the Notes will not be subject to an automatic call and that you will suffer a loss on your investment at maturity. See "Key Risks — A higher call return rate or lower downside thresholds or call return rates may reflect greater expected volatility of each underlying asset, and greater expected volatility generally indicates an increased risk of loss at maturity", "— You are exposed to the market risk of each underlying asset" and "—Because the Notes are linked to the least performing underlying asset, you are exposed to a greater risk of not receiving the call return and losing a significant portion or all of your initial investment at maturity than if the Notes were linked to fewer underlying assets" herein.

Past performance of the underlying assets is not indicative of the future performance of the underlying assets.

What are the Tax Consequences of the Notes?

The U.S. federal income tax consequences of your investment in the Notes are uncertain. There are no statutory provisions, regulations, published rulings or judicial decisions addressing the characterization for U.S. federal income tax purposes of securities with terms that are substantially the same as the Notes. Some of these tax consequences are summarized below, but we urge you to read the more detailed discussion in “Material U.S. Federal Income Tax Consequences”, including the section “—Securities Treated as Prepaid Derivatives or Prepaid Forwards”, in the accompanying product supplement and to discuss the tax consequences of your particular situation with your tax advisor. This discussion is based upon the Internal Revenue Code of 1986, as amended (the “Code”), final, temporary and proposed U.S. Treasury Department (the “Treasury”) regulations, rulings and decisions, in each case, as available and in effect as of the date hereof, all of which are subject to change, possibly with retroactive effect. Tax consequences under state, local and non-U.S. laws are not addressed herein. No ruling from the U.S. Internal Revenue Service (the “IRS”) has been sought as to the U.S. federal income tax consequences of your investment in the Notes, and the following discussion is not binding on the IRS.

U.S. Tax Treatment. Pursuant to the terms of the Notes, UBS and you agree, in the absence of a statutory or regulatory change or an administrative determination or judicial ruling to the contrary, to characterize the Notes as prepaid derivative contracts with respect to the underlying assets. If your Notes are so treated, you should generally recognize capital gain or loss upon the taxable disposition of your Notes in an amount equal to the difference between the amount you receive at such time and the amount you paid for your Notes. Such gain or loss should generally be long-term capital gain or loss if you have held your Notes for more than one year (otherwise such gain or loss should be short-term capital gain or loss if held for one year or less). The deductibility of capital losses is subject to limitations.

Based on certain factual representations received from us, our counsel, Cadwalader, Wickersham & Taft LLP, is of the opinion that it would be reasonable to treat your Notes in the manner described above. However, because there is no authority that specifically addresses the tax treatment of the Notes, it is possible that your Notes could alternatively be treated for tax purposes as a single contingent payment debt instrument, or pursuant to some other characterization, such that the timing and character of your income from the Notes could differ materially and adversely from the treatment described above, as described further under “Material U.S. Federal Income Tax Consequences”, including the section “—Securities Treated as Prepaid Derivatives or Prepaid Forwards”, in the accompanying product supplement.

Notice 2008-2. In 2007, the IRS released a notice that may affect the taxation of holders of the Notes. According to Notice 2008-2, the IRS and the Treasury are actively considering whether the holder of an instrument similar to the Notes should be required to accrue ordinary income on a current basis, and they are seeking taxpayer comments on the subject. It is not possible to determine what guidance they will ultimately issue, if any. It is possible, however, that under such guidance, holders of the Notes will ultimately be required to accrue income currently and this could be applied on a retroactive basis. The IRS and the Treasury are also considering other relevant issues, including whether additional gain or loss from such instruments should be treated as ordinary or capital, whether non-U.S. holders of such instruments should be subject to withholding tax on any deemed income accruals, and whether the special “constructive ownership rules” of Section 1260 of the Code should be applied to such instruments. Both U.S. and non-U.S. holders are urged to consult their tax advisors concerning the significance, and the potential impact, of the above considerations.

Section 1297. We will not attempt to ascertain whether any underlying constituent issuer would be treated as a “passive foreign investment company” (a “PFIC”) within the meaning of Section 1297 of the Code. If any such entity were so treated, certain adverse U.S. federal income tax consequences might apply upon the taxable disposition of a Note. You should refer to information filed with the SEC or the equivalent governmental authority by such entities and consult your tax advisor regarding the possible consequences to you if any such entity is or becomes a PFIC.

Medicare Tax on Net Investment Income. U.S. holders that are individuals, estates, and certain trusts are subject to an additional 3.8% tax on all or a portion of their “net investment income,” which may include any income or gain realized with respect to the Notes, to the extent of their net investment income that when added to their other modified adjusted gross income, exceeds \$200,000 for an unmarried individual, \$250,000 for a married taxpayer filing a joint return (or a surviving spouse), \$125,000 for a married individual filing a separate return or the dollar amount at which the highest tax bracket begins for an estate or trust. The 3.8% Medicare tax is determined in a different manner than the income tax. You should consult your tax advisors as to the consequences of the 3.8% Medicare tax.

Specified Foreign Financial Assets. U.S. holders may be subject to reporting obligations with respect to their Notes if they do not hold their Notes in an account maintained by a financial institution and the aggregate value of their Notes and certain other “specified foreign financial assets” (applying certain attribution rules) exceeds an applicable threshold. Significant penalties can apply if a U.S. holder is required to disclose its Notes and fails to do so.

Non-U.S. Holders. Subject to Section 871(m) of the Code and “FATCA”, discussed below, if you are a non-U.S. holder you should generally not be subject to U.S. withholding tax with respect to payments on your Notes or to generally applicable information reporting and backup withholding requirements with respect to payments on your Notes if you comply with certain certification and identification requirements as to your non-U.S. status (by providing us (and/or the applicable withholding agent) with a fully completed and duly executed applicable IRS Form W-8). Subject to Section 897 of the Code and Section 871(m) of the Code, discussed below, gain from the taxable disposition of a Note generally should not be subject to U.S. tax unless (i) such gain is effectively connected with a trade or business conducted by the non-U.S. holder in the U.S., (ii) the non-U.S. holder is a non-resident alien individual and is present in the U.S. for 183 days or more during the taxable year of such taxable disposition and certain other conditions are satisfied or (iii) the non-U.S. holder has certain other present or former connections with the U.S.

Section 897. We will not attempt to ascertain whether any underlying constituent issuer would be treated as a “United States real property holding corporation” (“USRPHC”) within the meaning of Section 897 of the Code. We also have not attempted to determine whether the Notes should be treated as “United States real property interests” (“USRPI”) as defined in Section 897 of the Code. If any such entity and the Notes were so treated, certain adverse U.S. federal income tax consequences could possibly apply, including subjecting any gain to a non-U.S. holder in respect of a Note upon a taxable disposition of the Note to the U.S. federal income tax on a net basis, and the proceeds from such a taxable disposition to a 15% withholding tax. You should consult your tax advisor regarding the potential treatment of any such entity as a USRPHC and the Notes as USRPI.

Section 871(m). A 30% withholding tax (which may be reduced by an applicable income tax treaty) is imposed under Section 871(m) of the Code on certain “dividend equivalents” paid or deemed paid to a non-U.S. holder with respect to a “specified equity-linked instrument” that references one or more dividend-paying U.S. equity securities or indices containing U.S. equity securities. The withholding tax can apply even if the instrument does not provide for payments that reference dividends. Treasury regulations provide that the withholding tax applies to all dividend equivalents paid or deemed paid on specified equity-linked instruments that have a delta of one (“delta-one specified equity-linked instruments”) issued after 2016 and to all dividend equivalents paid or deemed paid on all other specified equity-linked instruments issued after 2018. However, the IRS has issued guidance that states that the Treasury and the IRS intend to amend the effective dates of the Treasury regulations to provide that withholding on dividend equivalents paid or deemed paid will not apply to specified equity-linked instruments that are not delta-one specified equity-linked instruments and are issued before January 1, 2021.

Based on our determination that the Notes are not “delta-one” with respect to any underlying asset or any U.S. underlying equity constituent, our counsel is of the opinion that the Notes should not be delta-one specified equity-linked instruments and thus should not be subject to withholding on dividend equivalents. Our determination is not binding on the IRS, and the IRS may disagree with this determination. Furthermore, the application of Section 871(m) of the Code will depend on our determinations made upon issuance of the Notes. If withholding is required, we will not make payments of any additional amounts.

Nevertheless, after issuance, it is possible that your Notes could be deemed to be reissued for tax purposes upon the occurrence of certain events affecting the underlying assets, underlying equity constituents or your Notes, and following such occurrence your Notes could be treated as delta-one specified equity-linked instruments that are subject to withholding on dividend equivalents. It is also possible that withholding tax or other tax under Section 871(m) of the Code could apply to the Notes under these rules if you enter, or have entered, into certain other transactions in respect of the underlying assets, underlying equity constituents or the Notes. If you enter, or have entered, into other transactions in respect of the underlying assets, the underlying equity constituents or the Notes, you should consult your tax advisor regarding the application of Section 871(m) of the Code to your Notes in the context of your other transactions.

Because of the uncertainty regarding the application of the 30% withholding tax on dividend equivalents to the Notes, you are urged to consult your tax advisor regarding the potential application of Section 871(m) of the Code and the 30% withholding tax to an investment in the Notes.

Foreign Account Tax Compliance Act. The Foreign Account Tax Compliance Act (“FATCA”) was enacted on March 18, 2010, and imposes a 30% U.S. withholding tax on “withholdable payments” (i.e., certain U.S.-source payments, including interest (and original issue discount), dividends, other fixed or determinable annual or periodical gain, profits, and income, and on the gross proceeds from a disposition of property of a type which can produce U.S.-source interest or dividends) and “passthru payments” (i.e., certain payments attributable to withholdable payments) made to certain foreign financial institutions (and certain of their affiliates) unless the payee foreign financial institution agrees (or is required), among other things, to disclose the identity of any U.S. individual with an account of the institution (or the relevant affiliate) and to annually report certain information about such account. FATCA also requires withholding agents making withholdable payments to certain foreign entities that do not disclose the name, address, and taxpayer identification number of any substantial U.S. owners (or do not certify that they do not have any substantial U.S. owners) to withhold tax at a rate of 30%. Under certain circumstances, a holder may be eligible for refunds or credits of such taxes.

Pursuant to final and temporary Treasury regulations and other IRS guidance, the withholding and reporting requirements under FATCA will generally apply to certain “withholdable payments”, will not apply to gross proceeds on a sale or disposition, and will apply to certain foreign passthru payments only to the extent that such payments are made after the date that is two years after final regulations defining the term “foreign passthru payment” are published. If withholding is required, we (or the applicable paying agent) will not be required to pay additional amounts with respect to the amounts so withheld. Foreign financial institutions and non-financial foreign entities located in jurisdictions that have an intergovernmental agreement with the U.S. governing FATCA may be subject to different rules.

Investors should consult their tax advisors about the application of FATCA, in particular if they may be classified as financial institutions (or if they hold their Notes through a foreign entity) under the FATCA rules.

Proposed Legislation. In 2007, legislation was introduced in Congress that, if it had been enacted, would have required holders of Notes purchased after the bill was enacted to accrue interest income over the term of the Notes despite the fact that there will be no interest payments over the term of the Notes.

Furthermore, in 2013, the House Ways and Means Committee released in draft form certain proposed legislation relating to financial instruments. If it had been enacted, the effect of this legislation generally would have been to require instruments such as the Notes to be marked to market on an annual basis with all gains and losses to be treated as ordinary, subject to certain exceptions.

It is not possible to predict whether any similar or identical bills will be enacted in the future, or whether any such bill would affect the tax treatment of your Notes. You are urged to consult your tax advisor regarding the possible changes in law and their possible impact on the tax treatment of your Notes.

Both U.S. and non-U.S. holders are urged to consult their tax advisors concerning the application of U.S. federal income tax laws to their particular situations, as well as any tax consequences of the purchase, beneficial ownership and disposition of the Notes arising under the laws of any state, local, non-U.S. or other taxing jurisdiction (including those of the underlying constituent issuers).

Supplemental Plan of Distribution (Conflicts of Interest); Secondary Markets (if any)

We have agreed to sell to UBS Securities LLC and UBS Securities LLC has agreed to purchase, all of the Notes at the issue price to the public less the underwriting commissions indicated on the cover hereof. UBS Securities LLC has agreed to resell all of the Notes to Raymond James & Associates, Inc. and will pay all of the commissions it receives to Raymond James & Associates, Inc. UBS Securities LLC will also pay Raymond James & Associates, Inc. a structuring fee of \$4.00 per Note with respect to \$405,000.00 aggregate principal amount of the Notes. This amount will be deducted from amounts remitted to UBS.

Conflicts of Interest — UBS Securities LLC is an affiliate of UBS and, as such, has a “conflict of interest” in this offering within the meaning of Financial Industry Regulatory Authority, Inc. (“FINRA”) Rule 5121. In addition, UBS will receive the net proceeds (excluding the applicable underlying commissions and fees) from the initial public offering of the Notes, thus creating an additional conflict of interest within the meaning of FINRA Rule 5121. Consequently, the offering is being conducted in compliance with the provisions of FINRA Rule 5121. UBS Securities LLC is not permitted to sell Notes in this offering to an account over which it exercises discretionary authority without the prior specific written approval of the account holder.

UBS Securities LLC and its affiliates may offer to buy or sell the Notes in the secondary market (if any) at prices greater than UBS’ internal valuation — The value of the Notes at any time will vary based on many factors that cannot be predicted. However, the price (not including UBS Securities LLC’s or any affiliate’s customary bid-ask spreads) at which UBS Securities LLC or any affiliate would offer to buy or sell the Notes immediately after the trade date in the secondary market is expected to exceed the estimated initial value of the Notes as determined by reference to our internal pricing models. The amount of the excess will decline to zero on a straight line basis over a period ending no later than 6 months after the trade date, provided that UBS Securities LLC may shorten the period based on various factors, including the magnitude of purchases and other negotiated provisions with selling agents. Notwithstanding the foregoing, UBS Securities LLC and its affiliates are not required to make a market for the Notes and may stop making a market at any time. For more information about secondary market offers and the estimated initial value of the Notes, see “Key Risks — Fair value considerations” and “Key Risks — Limited or no secondary market and secondary market price considerations” herein.

Prohibition of Sales to EEA Retail Investors — The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“EEA”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU, as amended (“MiFID II”); (ii) a customer within the meaning of Directive 2002/92/EC, as amended, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC, as amended. Consequently no key information document required by Regulation (EU) No 1286/2014, as amended (the “PRIIPs Regulation”), for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

Validity of the Notes

In the opinion of Cadwalader, Wickersham & Taft LLP, as special counsel to the issuer, when the Notes offered by this pricing supplement have been executed and issued by the issuer and authenticated by the trustee pursuant to the indenture and delivered, paid for and sold as contemplated herein, the Notes will be valid and binding obligations of the issuer, enforceable against the issuer in accordance with their terms, subject to applicable bankruptcy, insolvency, fraudulent conveyance, reorganization, moratorium, receivership or other laws relating to or affecting creditors' rights generally, and to general principles of equity (regardless of whether enforcement is sought in a proceeding at law or in equity). This opinion is given as of the date hereof and is limited to the laws of the State of New York. Insofar as this opinion involves matters governed by Swiss law, Cadwalader, Wickersham & Taft LLP has assumed, without independent inquiry or investigation, the validity of the matters opined on by Homburger AG, Swiss legal counsel for the issuer, in its opinion dated October 29, 2018 filed on that date with the Securities and Exchange Commission as Exhibit 5.3 to the issuer's registration statement on Form F-3 (the "Registration Statement"). In addition, this opinion is subject to customary assumptions about the trustee's authorization, execution and delivery of the indenture and, with respect to the Notes, authentication of the Notes and the genuineness of signatures and certain factual matters, all as stated in the opinion of Cadwalader, Wickersham & Taft LLP dated October 29, 2018 filed on that date with the Securities and Exchange Commission as Exhibit 5.4 to the Registration Statement.
