If you vote by proxy, you must sign, date and return the enclosed proxy card in the envelope provided, or follow the instructions on the proxy card to vote by telephone or the Internet. The Company encourages you to take advantage of telephone or Internet voting because of their ease and efficiency.

If you sign and return the proxy card on time, the individuals named on the proxy card will vote your shares as you have directed. If you do not specify on your proxy card how you want your shares voted, the individuals named on the enclosed proxy card will vote your shares FOR Proposal 1 C Election of Directors as described below.

##### Quorum and Vote Requirements

The total number of shares outstanding as of June 1, 2001 and entitled to vote at the meeting consisted of 3,481,584 shares of Common Stock, \$.01 par value. If an executed proxy is returned and the shareholder has abstained from voting on any matter, the shares represented by such proxy will be considered present at the meeting for purposes of determining a quorum and for purposes of calculating the vote, but will not be considered to have been voted in favor of such matter. If an executed proxy is returned by a broker holding shares in "street name" indicating that the broker does not have discretionary authority as to certain shares to vote on one or more matters, such shares will be considered present at the meeting for purposes of determining a quorum, but will not be considered to be represented at the meeting for purposes of calculating the vote with respect to such matters.

A director nominee will be elected if approved by the affirmative vote of the holders of a plurality of the voting power of the shares present, in person or by proxy, and entitled to vote on that item of business. Broker nonvotes are not counted as votes for or against a proposal.

### Compensation Committee Report on Executive Compensation

The Compensation Committee of the Board of Directors establishes the compensation for executive officers who are also directors of the Company and acts on such other matters relating to their compensation as it deems appropriate. The Compensation Committee consists of three non-employee directors and meets one to four times per year. The current members of the Compensation Committee are Messrs. Angeloni, Hickey (chair), and Sheffert. The Company's President and Chief Executive Officer, in turn, establishes the compensation of all executive officers who are not also directors of the Company. The Compensation Committee also administers, with respect to all eligible recipients, the Company's stock option plans and determines the participants in such plans and the amount, timing and other terms and conditions of awards under such plans.

*Compensation Philosophy and Objectives.* The Compensation Committee is committed to the general principle that overall executive compensation should be commensurate with performance by the Company and the individual executive officers, and the attainment of predetermined individual and corporate goals. The primary objectives of the Company's executive compensation program are to:

Reward the achievement of desired Company and individual performance goals;

Provide compensation that enables the Company to attract and retain key executives; and

Provide compensation opportunities that are linked to the performance of the Company and that directly link the interests of executives with the interests of shareholders.

The Company's executive compensation program provides a level of compensation opportunity that is competitive for companies in comparable industries and of comparable development, complexity and size. In determining compensation levels, the Compensation Committee considers a number of factors, including Company performance, both separately and in relation to other companies competing in the Company's markets; the individual performance of each executive officers; historical compensation levels and stock awards at the Company; and the overall competitive environment for executives and the level of compensation necessary to attract and retain key executives. Compensation levels may be greater or less than competitive levels in comparable companies based upon factors such as annual and long-term Company performance and individual performance.

*Executive Compensation Program Components.* The Company's executive compensation program consists of base salary, bonuses and long-term incentive compensation in the form of stock options. The particular elements of the compensation program are discussed more fully below.

*Base Salary.* Base pay levels of executives are determined by the potential impact of the individual on the Company and its performance, the skills and experience required by the position, the individual performance and potential of the executive, and the Company's overall performance. Other than with respect to Mr. Jahnke, the President and Chief Executive Officer of the Company, whose base salary was determined pursuant to an employment agreement with the Company, base salaries for executives are evaluated and adjusted on the employee's annual review date. In connection with the Compensation Committee's annual evaluations of participants in its executive compensation program, the Company generally limited base salary increases to relatively small inflationary adjustments, unless larger increases were merited by performance or to keep compensation commensurate with other companies.

10

---

*Bonuses.* The Company also may pay bonuses to executive officers as part of its executive compensation program. Historically, bonuses paid by the Company have been minimal, based in part on the Company's focus on development activities requiring the conservation of cash. By the terms of his employment agreement, Mr. Jahnke is eligible for a cash bonus of up to 35% of his base salary. The Compensation Committee will determine the amount of Mr. Jahnke's bonus, if any, after the end of each year. No executive officers were granted bonuses by the Company based on year 2000 performance objectives. Mr. Jahnke received a bonus of \$75,000 based upon 1999 Medical Graphics performance objectives (prior to the Angeion acquisition) which was payable in 2000.

*Long-term Incentive Compensation.* Stock options are used to enable key executives to participate in a meaningful way in the success of the Company and to link their interests directly with those of the shareholders. The number of stock options granted to executives is based upon a number of factors, including base salary level and how such base salary level relates to those of other companies in the Company's industry, the number of options previously granted, and individual and Company performance during the year.

*Section 162(m).* The Omnibus Reconciliation Act of 1993 added Section 162(m) to the Internal Revenue Code of 1986, as amended (the "Code"), limiting corporate deductions to \$1,000,000 for certain compensation paid to the chief executive officer and each of the four other most highly compensated executives of publicly held companies. The Company does not believe it will pay "compensation" within the meaning of Section 162(m) to such executive officers in excess of \$1,000,000 in the foreseeable future. Therefore, the Company does not have a policy at this time regarding qualifying compensation paid to its executive officers for deductibility under Section 162(m), but will formulate a policy if compensation levels ever approach \$1,000,000.

#### **Report of Audit Committee**

The Board of Directors has established an Audit Committee ("Audit Committee") comprised of Messrs. Angeloni, Evans (Chair), and Penn. The Audit Committee operates under an Audit Charter, adopted effective June 1, 2000. Each of the members of the Committee is an independent director as defined by the Nasdaq National Market listing standards. A copy of the Audit Charter is attached to this Proxy Statement as Appendix A.

The Audit Committee of the Board of Directors is responsible for providing independent, objective oversight of the Company's financial reporting system by overseeing and monitoring management's and the independent auditors' participation in the financial reporting process.

The Committee met twice in year 2000 and twice during 2001 as of June 1, 2001. Additionally, the Audit Committee had special meetings, one in year 2000 and one during 2001 as of June 1, 2001, during which the Chair of the Audit Committee met with the auditors and management. The meetings were designed to facilitate and encourage private communication between the Committee and the Company's independent accountants, KPMG LLP.

During these meetings, the Committee reviewed and discussed the audited financial statements with management and KPMG LLP. Management represented to the Committee that the Company's consolidated financial statements were prepared in accordance with generally accepted accounting principles, and the Committee has reviewed and discussed the consolidated financial statements with management and the independent accountants. The discussions with KPMG LLP also included the matters required by Statement on Auditing Standards No. 61 (Communication with Audit Committees).

## Edgar Filing: ANGEION CORP/MN - Form DEF 14A

KPMG LLP provided to the Committee the written disclosures and the letter regarding its independence as required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees). This information was discussed with KPMG LLP.

Based on the discussions with management and KPMG LLP, the Committee's review of the representations of management and the report of KPMG LLP, the Committee recommended to the Board that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2000 filed with the Securities and Exchange Commission.

### Performance Graph

The Securities and Exchange Commission requires that the Company include in this Proxy Statement a line graph comparing cumulative, five-year stockholder returns on an indexed basis with a broad market index and either a nationally-recognized industry standard or an index of peer companies selected by the Company. The Company has chosen the use of the Nasdaq Composite Index as its broad market index and the Hambrecht & Quist Health Care (without Biotechnology) Subsector Index ("H&Q Index"). The table below compares the cumulative total return as of the end of each of the Company's last five years on \$100 invested as of December 31, 1995, with the Nasdaq Composite Index and H&Q Index, assuming the reinvestment of all dividends.

	<u>12/31/95</u>	<u>12/31/96</u>	<u>12/31/97</u>	<u>12/31/98</u>	<u>12/31/99</u>	<u>12/31/00</u>
