LETTER TO SHAREHOLDERS

Dear Shareholder:

We are pleased to report that during the semi-annual period, the Trusts continued to provide monthly income, as well as the opportunity to invest in various portfolios of municipal securities. This report contains the Trusts' unaudited financial statements and a listing of the portfolios holdings.

The portfolio management team continuously monitors the municipal bond market and adjusts the Trusts' investments in order to gain exposure to various issuers, revenue sources and security types. This strategy enables the Trusts to move among different sectors, credit ratings and coupon levels to capitalize on changing market conditions.

The following table shows the Trusts' current yields, tax-equivalent yields, closing market prices per share and net asset values (NAV) per share as of April 30, 2007.

NOTES TO FINANCIAL STATEMENTS (unaudited)

Note 1. Organization & Accounting Policies

BlackRock Investment Quality Municipal Trust Inc. (Investment Quality Municipal), BlackRock California Investment Quality Municipal Trust Inc. (California Investment Quality), BlackRock New Jersey Investment Quality Municipal Trust Inc. (New Jersey Investment Quality) and BlackRock New York Investment Quality Municipal Trust Inc. (New York Investment Quality) were organized as Maryland corporations. BlackRock Florida Investment Quality Municipal Trust (Florida Investment Quality) was organized as a Massachusetts business trust. Municipal Investment Quality, California Investment Quality, Florida Investment Quality, New Jersey Investment Quality and New York Investment Quality are herein referred to as the Investment Quality Trusts. BlackRock Municipal Income Trust (Municipal Income), BlackRock California Municipal Income Trust (California Income), BlackRock Florida Municipal Income Trust (Florida Income), BlackRock New Jersey Municipal Income Trust (New Jersey Income), BlackRock New York Municipal Income Trust (New York Income) (collectively the Income Trusts) and BlackRock Long-Term Municipal Advantage Trust (Long-Term Municipal) were organized as Delaware statutory trusts. The Investment Quality Trusts, Income Trusts and Long-Term Municipal are referred to herein collectively as the Trusts . Investment Quality Municipal and Municipal Income are registered as diversified, closed-end management investment companies under the Investment Company Act of 1940, as amended (the 1940 Act). Long-Term Municipal, California Investment Quality, California Income, Florida Investment Quality, Florida Income, New Jersey Investment Quality, New Jersey Income, New York Investment Quality and New York Income are registered as non-diversified, closed-end management investment companies under the 1940 Act.

Long-Term Municipal was organized on November 7, 2005 and had no capital transactions until January 4, 2006 when the Trust sold 9,704 common shares for \$139,010 to BlackRock Funding, Inc. Investment operations for Long-Term Municipal commenced on February 28, 2006. Long-Term Municipal incurred organization costs which were deferred from the organization date until the commencement of operations.

Under the Trusts' organizational documents, their officers and Trustees (as defined below) are indemnified against certain liabilities arising out of the performance of their duties to the Trusts. In addition, in the normal course of business, the Trusts enter into contracts with their vendors and others that provide for general indemnifications. The Trusts' maximum exposure under these arrangements are unknown as this would involve future claims that may be made against the Trusts. However, based on experience, the Trusts consider the risk of loss from such claims to be remote.

The following is a summary of significant accounting policies followed by the Trusts.

Investments Valuation: Municipal investments (including commitments to purchase such investments on a when-issued basis) are valued on the basis of prices provided by dealers or pricing services selected under the supervision of each Trust's Board of Trustees (Trustees) or Board of Directors, as the case may be (each, a Board). In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from bond dealers, market transactions in comparable investments and various relationships between investments. Swap quotations are provided by dealers selected under supervision of the Board. A futures contract is valued at the last sale price as of the close of the commodities exchange on which it trades. Short-term securities may be valued at amortized cost. Investments in open-end investment companies are valued at net asset value per share. Any investments or other assets for which such current market quotations are not readily available are valued at fair value (Fair Value Assets) as determined in good faith under procedures established by, and under the general supervision and responsibility of, each Trust's Board. The investment advisor and/or sub-advisor will submit its recommendations regarding the valuation and/or valuation methodologies for Fair Value Assets to a valuation committee. The valuation committee may accept, modify or reject any recommendations. The pricing of all Fair Value Assets is subsequently reported to the Board.

When determining the price for a Fair Value Asset, the investment advisor and/or sub-advisor shall seek to determine the price that the Trust might reasonably expect to receive from the current sale of that asset in an arm's-length transaction. Fair value determinations are based upon all available factors that the Trust's investment advisor and/or sub-advisor deems relevant.

In September 2006, Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157), was issued and is effective for fiscal years beginning after November 15, 2007. FAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. At this time, management is evaluating the implications of FAS 157 and its impact on the Trusts' financial statements, if any, has not been determined.

In addition, in February 2007, Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (FAS 159), was issued and is effective for fiscal years beginning after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provisions of FAS 157.

Edgar Filing: BLACKROCK FLORIDA MUNICIPAL INCOME TRUST - Form N-CSRS

FAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. FAS 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. At this time, management is evaluating the implications of FAS 159 and its impact on the Trusts' financial statements, if any, has not been determined.

Investment Transactions and Investment Income: Investment transactions are recorded on trade date. The cost of investments sold and the related gain or loss is determined by use of the specific identification method, generally first-in, first-out, for both financial reporting and federal income tax purposes. Each Trust also records interest income on an accrual basis and amortizes premium and/or accretes discount on securities purchased using the interest method.

Financial Futures Contracts: A futures contract is an agreement between two parties to buy and sell a financial instrument for a set price on a future date. Initial margin deposits are made upon entering into futures contracts and can be either cash or securities. During the period

Edgar Filing: BLACKROCK FLORIDA MUNICIPAL INCOME TRUST - Form N-CSRS

the futures contract is open, changes in the value of the contract are recognized as unrealized gains or losses by marking-to-market on a daily basis to reflect the market value of the contract at the end of each day's trading. Variation margin payments are made or received, depending upon whether unrealized gains or losses are incurred. When the contract is closed, the Trust records a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Trust's basis in the contract.

Financial futures contracts, when used by the Trusts, help in maintaining a targeted duration. Futures contracts can be sold to effectively shorten an otherwise longer duration portfolio. In the same sense, futures contracts can be purchased to lengthen a portfolio that is shorter than its duration target. Thus, by buying or selling futures contracts, the Trusts may attempt to manage the duration of positions so that changes in interest rates do not change the duration of the portfolio unexpectedly.

Forward Starting Swaps: A forward starting swap is an agreement for an interest rate swap asset or liability to be created or sold in the future. Interest rate swaps are an agreement in which one party pays a floating rate of interest on a notional principal amount and receives a fixed rate of interest on the same notional principal amount for a specified period of time. Alternatively, a party may pay a fixed rate and receive a floating rate. The Trusts generally intend to close each forward starting swap before the accrual date specified in the agreement and therefore avoid entering into the interest rate swap underlying each forward starting swap.

During the term of the swap, changes in the value of the swap are recognized as unrealized gains or losses by marking-to-market daily based upon quotations from market makers to reflect the market value of the swap. When the swap is terminated, a Trust will record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Trust's basis in the contract, if any.

Entering into these agreements involves, to varying degrees, elements of credit and market risk in excess of the amounts recognized on the Statements of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreement may default on its obligation to perform and that there may be unfavorable changes in the fluctuation of interest and/or exchange rates. However, the Advisor of the Trusts monitor swaps and do not anticipate non-performance by any counterparty.

Segregation: In cases in which the 1940 Act, and the interpretive positions of the Securities and Exchange Commission (the Commission) require that each Trust segregate assets in connection with certain investments (e.g., when-issued securities, swap agreements or futures contracts), each Trust will, consistent with certain interpretive letters issued by the Commission, designate on its books and records cash or other liquid securities having a market value at least equal to the amount that would otherwise be required to be physically segregated.

Federal Income Taxes: It is each Trust's intention to continue to be treated as a regulated investment company under the Internal Revenue Code and to distribute sufficient net income and net realized capital gains, if any, to shareholders. Therefore, no federal income tax provisions have been recorded.

In July 2006, Financial Accounting Standards Board released FASB Interpretation No. 48 (FIN 48) Accounting for Uncertainty in Income Taxes. FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken in the course of preparing the Trust's tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Tax benefits of positions not deemed to meet the more-likely-than-not threshold would be booked as a tax expense in the current year and recognized as: a liability for unrecognized tax benefits; a reduction of an income tax refund receivable; a reduction of deferred tax asset; an increase in deferred tax liability; or a combination thereof. Adoption of FIN 48 is required for the last net asset value calculation in the first required financial statement reporting period for fiscal years beginning after December 15, 2006. At this time, management is evaluating the implications of FIN 48 and its impact on the Trusts' financial statements, if any, has not yet been determined.

Dividends and Distributions: Each Trust declares and pays dividends and distributions to common shareholders monthly from net investment income, net realized short-term capital gains and other sources, if necessary. Net long-term capital gains, if any, in excess of loss carryforwards may be distributed in accordance with the 1940 Act. Dividends and distributions are recorded on the ex-dividend date. Income distributions and capital gain distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. Dividends and distributions to preferred shareholders are accrued and determined as described in Note 6.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities including investment and swap valuations at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates and such differences may be material.

Deferred Compensation and BlackRock Closed-End Share Equivalent Investment Plan: Under the deferred compensation plan approved by each Trust's Board, non-interested Trustees/Directors (Independent Trustees) are required to defer a portion of their annual complex-wide compensation. Deferred amounts earn an approximate return as though equivalent dollar amounts had been invested in common shares of other BlackRock Closed-End Funds selected by the Independent Trustees. These amounts are shown on the Statement of Assets and Liabilities as

Edgar Filing: BLACKROCK FLORIDA MUNICIPAL INCOME TRUST - Form N-CSRS

Investments in affiliates . This has the same economic effect for the Independent Trustees as if the Independent Trustees had invested the deferred amounts in such Trusts.

The deferred compensation plan is not funded and obligations thereunder represent general unsecured claims against the general assets of the Trust. Each Trust may, however, elect to invest in common shares of those Trusts selected by the Independent Trustees in order to match its deferred compensation obligations.

Other: Expenses that are directly related to one of the Trusts are charged directly to that Trust. Other operating expenses are generally pro rated to the Trusts on the basis of relative net assets of all the BlackRock Closed-End Funds.

Note 2. Tender Option Bond Residuals

Long-Term Municipal invests in highly leveraged residual certificates (TOB Residuals) issued by tender option bond trusts (TOBs). A TOB is established by a third party sponsor forming a special purpose entity, into which Long-Term Municipal, or an agent on behalf, transfers municipal securities. The TOB typically issues two classes of beneficial interests: short-term floating rate certificates, which are sold to third party investors, and residual certificates, which are generally issued to Long-Term Municipal. The transfer of the municipal securities to a TOB does not qualify for sale treatment under Statement of Financial Accounting Standards No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities , and therefore the municipal securities deposited into a TOB are presented in Long-Term Municipal's schedule of investments and the proceeds from the transaction are reported as a liability for trust certificates of Long-Term Municipal. Interest income from the underlying security is recorded by Long-Term Municipal on an accrual basis. Interest expense incurred on the secured borrowing and other expenses relating to remarketing, administration and trustee services to a TOB are reported as expenses of Long-Term Municipal. The floating rate certificates have interest rates that generally reset weekly and their holders have the option to tender certificates to the TOB for redemption at par at each reset date. The residual interests held by the Portfolios include the right of the Portfolios (1) to cause the holders of a proportional share of floating rate certificates to tender their certificates at par, and (2) to transfer a corresponding share of the municipal securities from the TOB to the Portfolios. The proceeds received from the transaction are used by Long-Term Municipal to purchase additional municipal bonds or other investments permitted by Long-Term Municipal's investment policies. At April 30, 2007, the aggregate value of the underlying municipal securities transferred to TOB's and the liability for trust certificates amounted to \$173,233,173 and \$172,943,596, respectively.

Financial transactions executed through TOB's generally will under perform the market for fixed rate municipal bonds in a rising interest rate environment, but tend to outperform the market for fixed rate bonds when interest rates decline or remain relatively stable. Should short-term interest rates rise, Long-Term Municipal's investment in TOB Residuals likely will adversely affect the Trust's net investment income and distributions to shareholders. Fluctuations in the market value of municipal securities deposited into the TOB may adversely affect the Trust's net asset value per share. Long-Term Municipal invests in highly leveraged TOB Residuals and consequently may lose money in excess of the amount of its investment. Long-Term Municipal invests in residual certificates for the purpose of using economic leverage as a more flexible alternative to the issuance of preferred shares.

Note 3. Agreements and Other Transactions with Affiliates and Related Parties

Each Trust has an Investment Management Agreement with BlackRock Advisors, LLC (the Advisor), a wholly owned subsidiary of BlackRock, Inc. BlackRock Financial Management, Inc. (BFM), a wholly owned subsidiary of BlackRock, Inc., serves as sub-advisor to each Trust. Merrill Lynch & Co., Inc. and The PNC Financial Services Group, Inc. are principal owners of BlackRock, Inc. The investment management agreement for each Income Trust and Long-Term Municipal covers both investment advisory and administration services. Each Investment Quality Trust has an Administration Agreement with the Advisor.

The Trust's investment advisory fee paid to the Advisor is computed weekly and payable monthly based on an annual rate, 0.35% for the Investment Quality Trusts and 0.60% for the Income Trusts, of the Trust's average weekly managed assets. Managed Assets means the total assets of a Trust (including any assets attributable to any preferred shares that may be outstanding) minus the sum of accrued liabilities (other than debt representing financial leverage). The Advisor has voluntarily agreed to waive a portion of the investment advisory fee or other expenses on the Income Trusts as a percentage of Managed Assets as follows: 0.25% for the first five years of each of the Trust's operations from 2001 through 2006, 0.20% in 2007, 0.15% in 2008, 0.10% in 2009 and 0.05% in 2010.

The administration fee to the advisor is computed weekly and payable monthly based on an annual rate of 0.15% for the Municipal Investment Quality Trust and 0.10% for the California Investment Quality, Florida Investment Quality, New Jersey Investment Quality and New York Investment Quality of the Trusts' average weekly managed assets.

Long-Term Municipal's investment advisory fee paid to the Advisor is computed weekly and payable monthly based on an annual rate equal to 1.00% of the average weekly net assets. Net Assets means the total assets of the Trust minus the sum of accrued liabilities. The Advisor has voluntarily agreed to waive a portion of the investment advisory or other expenses of Long-Term Municipal in the amount of 0.40% of the average weekly value of the Long-Term Municipal's Net Assets for the first five years of the Trust's operations from 2006 through 2011 and for declining amounts for the following three years, 0.30% in 2012, 0.20% in 2013 and 0.10% in 2014.

The Advisor has agreed to reimburse its advisory fees by the amount of investment advisory fees each Trust pays to the Advisor indirectly through its investments in affiliated money market funds, which is shown on the Statement of Operations as fees waived by Advisor.

The Advisor pays BFM fees for its sub-advisory services.

Pursuant to the agreements, the Advisor provides continuous supervision of the investment portfolio and pays the compensation of officers of each Trust who are affiliated persons of the Advisor, as well as occupancy and certain clerical and accounting costs of each Trust. Each Trust

Edgar Filing: BLACKROCK FLORIDA MUNICIPAL INCOME TRUST - Form N-CSRS

bears all other costs and expenses, which include reimbursements to the Advisor for costs of employees that provide pricing, secondary market support, and compliance services to each Trust. A Trust may not declare dividends or make other distributions on common shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding preferred shares would be less than 200%.

The preferred shares are redeemable at the option of each Trust, in whole or in part, on any dividend payment date at \$25,000 per share plus any accumulated unpaid dividends whether or not declared. The preferred shares are also subject to mandatory redemption at \$25,000 per share plus any accumulated or unpaid dividends, whether or not declared, if certain requirements relating to the composition of the assets and liabilities of a Trust, as set forth in each Trust's Declaration of Trust/Articles Supplementary, are not satisfied.

The holders of preferred shares have voting rights equal to the holders of common shares (one vote per share) and will vote together with holders of common shares as a single class. However, holders of preferred shares, voting as a separate class, are also entitled to elect two Trustees for each Trust. In addition, the 1940 Act requires that along with approval by shareholders that might otherwise be required, the approval of the holders of a majority of any outstanding preferred shares, voting separately as a class would be required to (a) adopt any plan of reorganization that would adversely affect the preferred shares, (b) change a Trust's subclassification as a closed-end investment company or change its fundamental investment restrictions and (c) change its business so as to cease to be an investment company.

Note 7. Concentration Risk

The Trusts concentrate their investments in securities issued by state agencies, other governmental entities and U.S. Territories. The Trusts are more susceptible to adverse financial, social, environmental, economic, regulatory and political factors that may affect these states, other governmental entities and U.S. Territories, which could seriously affect the ability of these states and their municipal subdivisions to meet continuing obligations for principal and interest payments and therefore could impact the value of the Trusts' investments and net asset value per share, than if the Trusts were not concentrated in securities issued by state agencies, other governmental entities and U.S. Territories.

Edgar Filing: BLACKROCK FLORIDA MUNICIPAL INCOME TRUST - Form N-CSRS

Many municipalities insure repayment for their obligations. Although bond insurance reduces the risk of loss due to default by an issuer, such bonds remain subject to the risk that market value may fluctuate for other reasons and there is no assurance that the insurance company will meet its obligations. These securities have been identified in the Portfolios of Investments.

Note 8. Subsequent Events

Subsequent to April 30, 2007, the Board of each Trust declared dividends from undistributed earnings per common share payable June 1, 2007, to shareholders of record on May 15, 2007. The per share common dividends declared were as follows:

DIVIDEND REINVESTMENT PLANS

Pursuant to each Trust's Dividend Reinvestment Plan (the "Plan"), common shareholders are automatically enrolled to have all distributions of dividends and capital gains reinvested by Computershare Trust Company, N.A. (the "Plan Agent") in the respective Trust's shares pursuant to the Plan. Shareholders who elect not to participate in the Plan will receive all distributions in cash paid by check and mailed directly to the shareholders of record (or if the shares are held in street or other nominee name, then to the nominee) by the Plan Agent, which serves as agent for the shareholders in administering the Plan.

At present after an Investment Quality Trust declares a dividend or determines to make a capital gain distribution, the Plan Agent will acquire shares for the participant's account, by the purchase of outstanding shares on the open market, on the Trust's primary exchange or elsewhere ("open market purchases"). The Investment Quality Trusts do not presently issue any new shares under the Plan, which serves as agent for the shareholders in administering the Plan.

After the Income Trusts and Long-Term Municipal declare a dividend or determines to make a capital gain distribution, the Plan Agent will acquire shares for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of unissued but authorized shares from the Trust ("newly issued shares") or (ii) by open market purchases. If, on the dividend payment date, the net asset value per share ("NAV") is equal to or less than the market price per share plus estimated brokerage commissions (such condition being referred to herein as "market premium"), the Plan Agent will invest the dividend amount in newly issued shares on behalf of the participants. The number of newly issued shares to be credited to each participant's account will be determined by dividing the dollar amount of the dividend by the NAV on the date the shares are issued. However, if the NAV is less than 95% of the market price on the payment date, the dollar amount of the dividend will be divided by 95% of the market price on the payment date. If, on the dividend payment date, the NAV is greater than the market value per share plus estimated brokerage commissions (such condition being referred to herein as "market discount"), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participants in open market purchases.

At a meeting of the Boards of Trustees of the Investment Quality Trusts on November 21, 2006, the Boards approved an amendment to the Dividend Reinvestment Plans of each Investment Quality Trust. Although the Plans presently permit shares to be purchased only the open market, as a result of the amendment, the Plans will permit purchases of newly issued shares on terms similar to the Income Trusts described in the next paragraph. The amendments will take effect on April 1, 2007.

Participants in the Plan may withdraw from the Plan upon written notice to the Plan Agent and will receive certificates for whole Trust shares and a cash payment for any fraction of a Trust share.

The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by each Trust. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. The automatic reinvestment of dividends and distributions will not relieve participants of any Federal income tax that may be payable on such dividends or distributions.

Each Trust reserves the right to amend or terminate the Plan. There is no direct service charge to participants in the Plan, however, each Trust reserves the right to amend the Plan to include a service charge payable by the participants. Participants who request a sale of shares through the Plan Agent are subject to a \$2.50 sales fee and a \$0.15 per share sold brokerage commission. All correspondence concerning the Plan should be directed to the Plan Agent at 250 Royall Street, Canton, MA 02021, or (800) 699-1BFM.
