The transfer of our minority shares in Fintur to our partner, a transaction we have been working on over one year, has been completed for EUR 353 million. This transaction confirms our “Asset Light” strategy as well as our strategy to own physical assets in Turkey and drive international expansion via digital assets.

In the meantime, with this transaction through which we generated a cash inflow of nearly TRY 2.2 billion, our liquidity and balance sheet ratios strengthened further and FX position turned into a long position. We will use the proceeds from this transaction in investments which will enrich the value we offer to our customers and strengthen our technology. We will continue to focus on sustainable and profitable growth, our digital operator vision in accordance with our strategy of creating value for our employees and all stakeholders through our customer oriented approach and innovative technology solutions.
