CELLCOM ISRAEL ANNOUNCES ADDITIONAL
INFORMATION ON IMPAIRMENT TESTING OF WHOLLY
OWNED SUBSIDIARY

While the Company has not issued any report concerning the matter set forth below, the Company's controlling shareholder will report this matter under the Israeli reporting requirements and, consequently, the Company is filing this Form 6-K.

Netanya, Israel – March 29, 2012 – Cellcom Israel Ltd. (NYSE: CEL) (TASE: CEL) (hereinafter: the "Company") announced today that in connection with the preparation of the Company's financial statements as of December 31, 2011, the Company conducted an impairment testing related to goodwill allocated to Netvision, a wholly owned subsidiary of the Company. On the basis of this testing, the Company determined that no impairment loss with respect to the goodwill allocated to Netvision is required, as was disclosed in the Company's Annual Report on Form 20-F. The impairment testing included the following assumptions: over the next several years, Netvision's revenues will decrease, but this will be more than offset by a greater decrease in Netvision's expenses, resulting in an increase in Netvision's EBITDA in comparison to that assumed in the valuation of Netvision as of March 31, 2011 (which the Company previously used in connection with the acquisition of Netvision). Netvision's actual EBITDA for the year 2011 (excluding one time items) was similar to the projected EBITDA used in the valuation of Netvision as of March 31, 2011.

For additional information on the impairment testing please see the Company's annual report on Form 20-F for the year ended December 31, 2011 filed on March 7, 2012, under the financial statements as at December 31, 2011- Note 12; For details on Netvision's valuation as of March 31, 2011 please see the Company's current reports on Form 6-K filed on June 16, 2011 and July 28, 2011 under "Item 3 – Approval of merger between the Company's subsidiary and Netvision Ltd.".

Forward looking statement

The information included in this press release contains, or may be deemed to contain, forward-looking statements (as defined in the U.S. Private Securities Litigation Reform Act of 1995 and the Israeli Securities Law, 1968). Said forward-looking statements, relating to the impairment testing assumptions and influence of such assumptions on Netvision's EBITDA are subject to uncertainties and assumptions regarding the actual results of operations of Netvision, including pursuant continued price erosion and the entrance of new competitors to the markets in which Netvision operates, and any unexpected events which might affect such results. The actual results and conditions could lead to materially different outcome than that set forth above.
