RBS US Large Cap Alternator ETN(TM)

ALTL

Product Detail

The RBS US Large Cap Alternator ETNs(TM) are designed for investors who seek exposure to the RBS US Large Cap Alternator Index(TM) (USD) (the "Index"). The Index utilizes a systematic relative strength strategy to provide exposure to either the SANDP 500(R) Total Return Index, the SANDP 500(R) Low Volatility Total Return Index or the SANDP 500(R) Equal Weight Total Return Index (each, an "Underlying Index"), depending at any given time on the relative performance of the Underlying Indices as measured by their Relative Strength Scores. A "Relative Strength Score" is assigned to each Underlying Index on the last Index business day of each calendar month that is not a disrupted day (a "determination date") and is the simple average of the returns of that Underlying Index for the prior one-month, three-month, six-month, nine-month and twelve-month periods. The Index will track the return of the Underlying Index with the highest Relative Strength Score on any determination date, but not the other two Underlying Indices, for the following month.

RISKS Transactions and securities of the type described in this website may involve a high degree of risk, and the value of such transactions and securities may be highly volatile. Such risks include, without limitation, risk of adverse or unanticipated market developments, risk of issuer default and liquidity. In certain transactions investors may lose their entire investment or incur an unlimited loss. This brief statement does not disclose all of the risks and other significant aspects in connection with transactions and securities of the type described in this website, and you should ensure that you fully understand the terms of any transaction or security, including the relevant risk factors, and any legal, tax and accounting considerations applicable to such transaction or security, prior to transacting or investing. Investors should carefully review "Certain Risk Considerations" on this website and the specific risks contained under the heading "Risk Factors" in the applicable pricing supplement posted on this website as well as under "Risk Factors" in the product or underlying supplement and the prospectus supplement which accompany the pricing supplement. The transactions and securities of the type described in this website are not suitable for all investors. The securities described on this website are not available for sale in all jurisdictions, including those jurisdictions in which an offer or sale of such securities is unlawful. To the extent any offering document or other materials on this website displays a credit rating, that credit rating reflects the creditworthiness of the particular issuer or any guarantor and is not a recommendation to buy, sell or hold securities, and such credit rating may be subject to revision or withdrawal at any time by the assigning rating organization. Each rating should be

Edgar Filing: RBS Holdings N.V. - Form FWP

evaluated independently of any other rating. The creditworthiness of the issuer or any guarantor does not affect or enhance the likely performance of the investment other than the ability of the issuer or any guarantor to meet its obligations. Certain Risk Considerations ** From close of business yesterday Download Prospectus (969 KB) Download Factsheet (235 KB) "The Annual Investor Fee" accrues on a daily basis. "Daily Redemption Value" refers to the price per ETN at which The Royal Bank of Scotland plc shall repurchase any ETNs offered by investors for repurchase (provided that at least 20,000 ETNs are offered for repurchase) or shall redeem any ETNs called by it for redemption at its option, in each case, subject to the terms and conditions described in the pricing supplement and prospectus. The amount reflects the Daily Redemption Value at the close of the market on the prior trading day in the United States. "Shares Outstanding" means to the number of ETN units outstanding at the close of market on the prior trading day in the United States. "Issue Size (USD 000's)" means an amount equal to the Daily Redemption Value multiplied by Shares Outstanding. "Underlying Index Reference" refers to which Underlying Index had the highest Relative Strength Score on the most recent determination date, and therefore, which Underlying Index the Index is currently tracking.

CERTAIN RISK CONSIDERATIONS: The RBS ETNs involve risks not associated with an investment in conventional debt securities, including a possible loss of some or all of your investment. The level of the Index must increase by an amount sufficient to offset the aggregate investor fee applicable to the RBS ETNs in order for you to receive at least the principal amount of your investment back at maturity or upon early repurchase or redemption. The Index may underperform the SANDP 500(R) Index or any Underlying Index. Even though the RBS ETNs are listed on the NYSE Arca, a trading market may not develop and the liquidity of the RBS ETNs may be limited and/or vary over time, as The Royal Bank of Scotland plc ("RBS plc") is not required to maintain any listing of the RBS ETNs. The RBS ETNs are not principal protected and do not pay interest. Any payment on the RBS ETNs is subject to the ability of RBS plc, as the issuer, and The Royal Bank of Scotland Group plc ("RBS Group"), as the guarantor, to pay their respective obligations when they become due. You should carefully consider whether the RBS ETNs are suited to your particular circumstances before you decide to purchase them. We urge you to consult with your investment, legal, accounting, tax and other advisors with respect to any investment in the RBS ETNs.

The RBS ETNs are not suitable for all investors. You should carefully read the relevant pricing supplement and prospectus, including the more detailed explanation of the risks involved in any investment in the RBS ETNs as described in the "Risk Factors" section of the pricing supplement, before investing.

IMPORTANT INFORMATION: RBS plc and RBS Group have filed a registration statement (including a prospectus) with the U.S. Securities and Exchange Commission ("SEC") for the offering of RBS ETNs to which this communication relates. Before you invest in any RBS ETNs, you should read the prospectus in that registration statement and other documents that have been filed by RBS plc and RBS Group with the SEC for more complete information about RBS plc and RBS Group, and the offering. You may get these documents for free by visiting EDGAR on the SEC's website at www.sec.gov. Alternatively, RBS plc, RBS Securities Inc. ("RBS SI") or any dealer participating in the offering will arrange to send you the prospectus and the pricing supplement at no charge if you request it by calling 1-855-RBS-ETPS (toll-free).
