DELIVERY OF SHAREHOLDER DOCUMENTS,  
PORTFOLIO HOLDINGS, AND PROXY VOTING**

**Privacy.** The Eaton Vance organization is committed to ensuring your financial privacy. Each of the financial institutions identified below has in effect the following policy ( Privacy Policy ) with respect to nonpublic personal information about its customers:

Only such information received from you, through application forms or otherwise, and information about your Eaton Vance fund transactions will be collected. This may include information such as name, address, social security number, tax status, account balances and transactions.

None of such information about you (or former customers) will be disclosed to anyone, except as permitted by law (which includes disclosure to employees necessary to service your account). In the normal course of servicing a customer's account, Eaton Vance may share information with unaffiliated third parties that perform various required services such as transfer agents, custodians and broker/dealers.

Policies and procedures (including physical, electronic and procedural safeguards) are in place that are designed to protect the confidentiality of such information.

We reserve the right to change our Privacy Policy at any time upon proper notification to you. Customers may want to review our Privacy Policy periodically for changes by accessing the link on our homepage:  
[www.eatonvance.com](http://www.eatonvance.com).

Our pledge of privacy applies to the following entities within the Eaton Vance organization: the Eaton Vance Family of Funds, Eaton Vance Management, Eaton Vance Investment Counsel, Boston Management and Research, and Eaton Vance Distributors, Inc.

In addition, our Privacy Policy applies only to those Eaton Vance customers who are individuals and who have a direct relationship with us. If a customer's account (i.e., fund shares) is held in the name of a third-party financial adviser/broker-dealer, it is likely that only such adviser's privacy policies apply to the customer. This notice supersedes all previously issued privacy disclosures.

For more information about Eaton Vance's Privacy Policy, please call 1-800-262-1122.

**Delivery of Shareholder Documents.** The Securities and Exchange Commission (the SEC) permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called householding and it helps eliminate duplicate mailings to shareholders.

**Eaton Vance, or your financial adviser, may household the mailing of your documents indefinitely unless you instruct Eaton Vance, or your financial adviser, otherwise.**

If you would prefer that your Eaton Vance documents not be householded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

**Portfolio Holdings.** Each Eaton Vance Fund and its underlying Portfolio(s) (if applicable) will file a schedule of portfolio holdings on Form N-Q with the SEC for the first and third quarters of each fiscal year. The Form N-Q will be available on the Eaton Vance website at [www.eatonvance.com](http://www.eatonvance.com), by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC's website at [www.sec.gov](http://www.sec.gov). Form N-Q may also be reviewed and copied at the SEC's public reference room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the public reference room).

**Proxy Voting.** From time to time, funds are required to vote proxies related to the securities held by the funds. The Eaton Vance Funds or their underlying Portfolios (if applicable) vote proxies according to a set of policies and procedures approved by the Funds' and Portfolios' Boards. You may obtain a description of these policies and procedures and information on how the Funds or Portfolios voted proxies relating to portfolio securities during the most recent 12 month period ended June 30, without charge, upon request, by calling 1-800-262-1122. This description is also available on the SEC's website at [www.sec.gov](http://www.sec.gov).

Eaton Vance Insured Municipal Bond Funds as of September 30, 2009

## **MANAGEMENT'S DISCUSSION OF FUND PERFORMANCE**

Eaton Vance Insured Municipal Bond Funds (the Funds) are closed-end funds traded on the NYSE Amex, which are designed to provide current income exempt from regular federal income tax, federal alternative minimum tax and, in state specific funds, state personal income taxes. The Funds invest primarily in high-grade municipal securities that are insured as to the timely payment of principal and interest.

### **Economic and Market Conditions**

During the year ending September 30, 2009, the U.S. economy and the capital markets continued to show improvement from the market upheaval that occurred in the fall of 2008 and continued through the first quarter of 2009. After contracting in the first three quarters of the Funds' fiscal year, the U.S. economy showed positive growth in the year's final quarter. According to the U.S. Department of Commerce, the economy declined at annualized rates of 5.4%, 6.4% and 0.7% in the fourth quarter of 2008 and the first and second quarters of 2009, respectively. In the third quarter of 2009, the economy grew at an estimated annualized rate of 3.5%.

In the first three months of the period, the capital markets were shaken by unprecedented events. Just prior to the beginning of the period, in September 2008, the federal government had taken control of federally chartered mortgage giants Fannie Mae and Freddie Mac. During the same month, Lehman Brothers filed for bankruptcy protection; Bank of America announced its acquisition of Merrill Lynch; and Goldman Sachs and Morgan Stanley petitioned the U.S. Federal Reserve (the Fed) to become bank holding companies, a step that brings greater regulation but also easier access to credit. These actions redefined the Wall Street landscape. In response, the Fed lowered the federal funds rate to a range of 0.0% to 0.25% from 2.00% as of September 30, 2008, and took extraordinary action through a variety of innovative lending techniques in an attempt to ease the credit crisis.

During calendar year 2009, the municipal market witnessed a significant rebound as headline risk abated, demand returned from investors who had sought the relative safety of Treasury bonds in 2008, and cautious optimism spread on signs of a mildly improving economy. The renewed appetite for municipal bonds was buoyed by provisions in the American Recovery and Reinvestment Act of 2009 aimed at supporting the municipal market. The new Build America Bonds Program gave municipal issuers access to the taxable debt markets, providing the potential for lower net borrowing costs and reducing the supply of traditional tax-exempt bonds. The federal stimulus program also provided direct cash subsidies to municipalities that were facing record budget deficits. The result of these events was a dramatic rally for the sector as yields fell and prices rose across the yield curve.

During the year ending September 30, 2009, municipals continued the rally that had begun in mid-December 2008, posting strong returns for the period. The Barclays Capital Municipal Bond Index—a broad-based, unmanaged index of municipal bonds—posted a return of 14.85% for the period, and the Barclays Capital Long (22+) Municipal Bond Index—a sub-index (consisting of bonds with maturities of at least 22 years) of the Barclays Capital Municipal Bonds Index—gained 19.78%.

### **Management Discussion**

During the year ending September 30, 2009, the Funds outperformed their respective benchmark Indices (at NAV), as reflected on the Fund-specific pages following this letter. Given the combination of the Funds' objective of providing tax-exempt income and the historical upward slope of the municipal yield curve, the Funds generally hold longer-maturity bonds relative to the broad market and many of our competitors. Management's bias toward longer maturities was the basis for much of the Funds' relative outperformance for the period, given the significant price movement of the longer end of the municipal yield curve. The Funds generally invest in bonds with stated maturities of 10 years or longer, as longer-maturity bonds historically have provided greater tax-exempt income for investors than shorter-maturity bonds. Eaton Vance Insured Municipal Bond Funds as of September 30, 2009

**MANAGEMENT'S DISCUSSION OF FUND PERFORMANCE**

declines experienced by municipals in 2008 were most pronounced on the long end of the yield curve, longer-maturity bonds outperformed shorter maturities during the first half of 2009, thus providing the basis for much of the Funds underperformance in the earlier part of the period and significant outperformance later in the fiscal year, respectively. Management employed leverage in the Funds, through which additional exposure to the municipal market was achieved. Leverage has the impact of magnifying the Funds' exposure to their leveraged investments in both up and down markets.

As we move ahead, we recognize that many state governments, particularly California, face significant budget deficits that are driven primarily by a steep decline in tax revenues. We will continue to monitor any new developments as state legislatures formulate solutions to address these fiscal problems. As in all environments, we maintain our long-term perspective on the markets against the backdrop of relatively short periods of market volatility. We will continue to manage municipals with the same income-focused, relative value approach we have always employed. We believe that this approach, which is based on credit research and decades of experience in the municipal market, has served municipal investors well over the long term.

**A Note Regarding The Use Of Leverage**

The Funds employ leverage through the issuance of Auction Preferred Shares (APS) and/or the use of residual interest bond (RIB) financing.<sup>1</sup> Each Fund's APS and/or RIB percentage leverage as of September 30, 2009, is reflected on the Fund-specific pages following this letter. The leverage created by APS and RIB investments provides an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and share price of the common shares).

During the period, certain of the Funds redeemed a portion of their outstanding APS to reduce the amount of the Funds' financial leverage. Information relating to these redemptions is contained in Note 2 to the Financial Statements.

<sup>1</sup> See Note 1H to the Financial Statements for more information on RIB investments.

Although market price performance generally reflects investment results over time, during shorter periods, returns at market price can also be affected by factors such as changing perceptions about the Fund, market conditions, fluctuations in supply and demand for the Fund's shares, or changes in Fund distributions.*

*Performance results reflect the effects of APS outstanding and RIB investments, which are forms of investment leverage. Use of leverage creates an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).<sup>2</sup> The Fund's market yield is calculated by dividing the most recent dividend per share by the market price at the end of the period and annualizing the result.<sup>3</sup> Taxable-equivalent figure assumes a maximum 38.45% combined federal and state income tax rate. Past performance is no guarantee of future results. Returns are historical and are calculated by determining the percentage change in net asset value or market price (as applicable) with all distributions reinvested. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund's current performance may be lower or higher than the quoted return. For performance as of the most recent month end, please refer to [www.eatonvance.com](http://www.eatonvance.com).

**\*\* APS leverage**  
represents the  
liquidation value of  
the Fund's Auction  
Preferred Shares  
(APS) outstanding  
at 9/30/09 as a  
percentage of the  
Fund's net assets  
applicable to

*common shares  
plus APS and  
Floating Rate  
Notes. RIB leverage  
represents the  
amount of Floating  
Rate Notes  
outstanding at  
9/30/09 as a  
percentage of the  
Fund's net assets  
applicable to  
common shares

Notes.*

- 1 Returns are  
historical and are  
calculated by  
determining the  
percentage change  
in market price or  
net asset value (as  
applicable) with all  
distributions  
reinvested. The  
Fund's  
performance at  
market price will  
differ from its  
results at NAV.  
Although market  
price performance  
generally reflects  
investment results  
over time, during  
shorter periods,  
returns at market  
price can also be  
affected by factors  
such as changing  
perceptions about  
the Fund, market  
conditions,  
fluctuations in  
supply and demand  
for the Fund's  
shares, or changes  
in Fund  
distributions.*

*Performance results reflect the effects of APS outstanding and RIB investments, which are forms of investment leverage. Use of leverage creates an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).<sup>2</sup> The Fund's market yield is calculated by dividing the most recent dividend per share by the market price at the end of the period and annualizing the result.<sup>3</sup> Taxable-equivalent figure assumes a maximum 37.00% combined federal and state income tax rate. A lower tax rate would result in a lower tax-equivalent figure.<sup>4</sup> It is not possible to invest directly in an Index. The Indices' total returns do not reflect the expenses that would have been incurred if an investor individually purchased or sold the securities*

The Lipper  
Averages are the  
average annual  
total returns, at net  
asset value, of the  
funds that are in the  
same Lipper  
Classification as  
the Fund. It is not  
possible to invest in  
a Lipper

Lipper  
Classifications may

Rating Distribution  
is determined by  
dividing the total  
market value of the  
issues by the total  
investments of the  
Fund. Although the  
investment adviser  
considers ratings  
when making  
investment  
decisions, it  
performs its own*

*credit and investment analysis and does not rely primarily on the ratings assigned by the rating services. Credit quality can change from time to time, and recently issued credit ratings may not fully reflect the actual risks posed by a particular security or the issuer's current financial condition. The rating assigned to a security by a rating agency does not necessarily reflect its assessment of the volatility of a security's market value or of the liquidity of an investment in the security.<sup>7</sup> Fund holdings information excludes securities held by special purpose vehicles in which the Fund holds a residual interest. Eaton Vance Insured Municipal Bond Fund II as of September 30, 2009

PORTFOLIO OF INVESTMENTS CONT D

The Fund invests primarily in debt securities issued by municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at September 30, 2009, 90.0% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 2.5% to 24.4% of total investments.

- (1) Security represents the underlying municipal bond of an inverse floater (see Note 1H).
- (2) Security (or a portion thereof) has been pledged as collateral for open swap contracts. The aggregate value of such collateral is \$2,483,900.
- (3) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.

Eaton Vance Insured California Municipal Bond Fund II as of September 30, 2009

PORTFOLIO OF INVESTMENTS CONT D

The Fund invests primarily in debt securities issued by California municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at September 30, 2009, 89.2% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 2.2% to 31.3% of total investments.

- (1) Security represents the underlying municipal bond of an inverse floater (see Note 1H).
- (2) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.

The Fund invests primarily in debt securities issued by Michigan municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at September 30, 2009, 86.1% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 1.4% to 38.4% of total investments.

- (1) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.

The Fund invests primarily in debt securities issued by New York municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at September 30, 2009, 93.7% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 1.3% to 34.0% of total investments.

- (1) Security represents the underlying municipal bond of an inverse floater (see Note 1H).
- (2) Security (or a portion thereof) has been pledged as collateral for open swap contracts. The aggregate value of such collateral is \$260,622.
- (3) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.

The Fund invests primarily in debt securities issued by Ohio municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at September 30, 2009, 85.9% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 2.7% to 25.7% of total investments.

- (1) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.
- (2) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At September 30, 2009, the aggregate value of these securities is \$540,742 or 1.7% of the Fund's net assets.
- (3) Security is subject to a shortfall agreement which may require the Fund to pay amounts to a counterparty in the event of a significant decline in the market value of the security underlying the inverse floater. In case of a shortfall, the maximum potential amount of payments the Fund could ultimately be required to make under the agreement is \$1,320,000. However, such shortfall payment would be reduced by the proceeds from the sale of the security underlying the inverse floater.
- (4)

Security has been issued as a leveraged inverse floater bond. The stated interest rate represents the rate in effect at September 30, 2009.

- (5) Security represents the underlying municipal bond of an inverse floater (see Note 1H).

XLCA - XL Capital Assurance, Inc.

The Fund invests primarily in debt securities issued by Pennsylvania municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at September 30, 2009, 88.2% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 2.7% to 26.9% of total investments.

(1) Security represents the underlying municipal bond of an inverse floater (see Note 1H).

- (1) Computed using average common shares outstanding.
- (2) Equal to less than \$0.001 per share.
- (3) Returns are historical and are calculated by determining the percentage change in net asset value or market value with all distributions reinvested.
- (4) During the year ended September 30, 2007, the investment adviser fully reimbursed the Fund for a realized loss on the disposal of an investment security which did not meet investment guidelines. The loss had no effect on total return.
- (5) Ratios do not reflect the effect of dividend payments to preferred shareholders.
- (6) The investment adviser was allocated a portion of the Fund's operating expenses (equal to less than 0.01% of average daily net assets for the year ended September 30, 2007). Absent this allocation, total return would be lower.
- (7) Interest and fee expense relates to the liability for floating rate notes issued in conjunction with inverse floater securities transactions (see Note 1H).
- (8) Calculated by subtracting the Fund's total liabilities (not including the preferred shares) from the Fund's total assets, and dividing the result by the number of preferred shares outstanding.
- (9) Plus accumulated and unpaid dividends.

- (1) Computed using average common shares outstanding.
- (2) Returns are historical and are calculated by determining the percentage change in net asset value or market value with all distributions reinvested.
- (3) During the year ended September 30, 2007, the Fund realized a gain on the disposal of an investment security which did not meet investment guidelines. The gain was less than \$0.01 per share and had no effect on total return.
- (4) Ratios do not reflect the effect of dividend payments to preferred shareholders.
- (5) The investment adviser was allocated a portion of the Fund's operating expenses (equal to less than 0.01% of average daily net assets for the year ended September 30, 2007). Absent this allocation, total return would be lower.
- (6) Interest and fee expense relates to the liability for floating rate notes issued in conjunction with inverse floater securities transactions (see Note 1H).
- (7) Calculated by subtracting the Fund's total liabilities (not including the preferred shares) from the Fund's total assets, and dividing the result by the number of preferred shares outstanding.
- (8) Plus accumulated and unpaid dividends.

## NOTES TO FINANCIAL STATEMENTS

### 1 Significant Accounting Policies

Eaton Vance Insured Municipal Bond Fund II (Insured Municipal Fund II), Eaton Vance Insured California Municipal Bond Fund II (Insured California Fund II), Eaton Vance Insured Massachusetts Municipal Bond Fund (Insured Massachusetts Fund), Eaton Vance Insured Michigan Municipal Bond Fund (Insured Michigan Fund), Eaton Vance Insured New Jersey Municipal Bond Fund (Insured New Jersey Fund), Eaton Vance Insured New York Municipal Bond Fund II (Insured New York Fund II), Eaton Vance Insured Ohio Municipal Bond Fund (Insured Ohio Fund) and Eaton Vance Insured Pennsylvania Municipal Bond Fund (Insured Pennsylvania Fund), (each individually referred to as the Fund, and collectively, the Funds), are Massachusetts business trusts registered under the Investment Company Act of 1940, as amended (the 1940 Act), as non-diversified, closed-end management investment companies. Each Fund seeks to provide current income exempt from regular federal income tax, including alternative minimum tax, and, in state specific funds, taxes in its specified state.

The following is a summary of significant accounting policies of the Funds. The policies are in conformity with accounting principles generally accepted in the United States of America. A source of authoritative accounting principles applied in the preparation of the Funds' financial statements is the Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Codification), which superseded existing non-Securities and Exchange Commission accounting and reporting standards for interim and annual reporting periods ending after September 15, 2009. The adoption of the Codification for the current reporting period did not impact the Funds' application of generally accepted accounting principles.

**A Investment Valuation** Municipal bonds and taxable obligations, if any, are generally valued on the basis of valuations furnished by a third party pricing service, as derived from such service's pricing models. Inputs to the models may include, but are not limited to, reported trades, executable bid and asked prices, broker/dealer quotations, benchmark curves or information pertaining to the issuer. The pricing service may use a matrix approach, which considers information regarding securities with similar characteristics to determine the valuation for a security. Financial futures contracts are valued at the closing settlement price established by the board of trade or exchange on which they are traded. Interest rate swaps are normally valued using valuations provided by a third party pricing service. Such pricing service valuations are based on the present value of fixed and projected floating rate cash flows over the term of the swap contract. Future cash flows are discounted to their present value using swap curves provided by electronic data services or by broker/dealers. Short-term obligations, maturing in sixty days or less, are generally valued at amortized cost, which approximates market value. Investments for which valuations or market quotations are not readily available or are deemed unreliable are valued at fair value using methods determined in good faith by or at the direction of the Trustees of a Fund in a manner that most fairly reflects the security's value, or the amount that the Fund might reasonably expect to receive for the security upon its current sale in the ordinary course. Each such determination is based on a consideration of all relevant factors, which are likely to vary from one pricing context to another. These factors may include, but are not limited to, the type of security, the existence of any contractual restrictions on the security's disposition, the price and extent of public trading in similar securities of the issuer or of comparable companies, quotations or relevant information obtained from broker-dealers or other market participants, information obtained from the issuer, analysts, and/or the appropriate stock exchange (for exchange-traded securities), an analysis of the company's financial condition, and an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold.

**B Investment Transactions and Related Income** Investment transactions for financial statement purposes are accounted for on a trade date basis. Realized gains and losses on investments sold are determined on the basis of

identified cost. Interest income is recorded on the basis of interest accrued, adjusted for amortization of premium or accretion of discount.

**C Federal Taxes** Each Fund's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute to shareholders each year substantially all of its taxable, if any, and tax-exempt net investment income, and all or substantially all of its net realized capital gains. Accordingly, no provision for federal income tax is necessary. Each Fund also seeks to avoid payment of federal excise tax. Each Fund intends to satisfy conditions which will enable it to designate distributions from the interest income generated by its investments in municipal obligations, which are exempt from regular federal income tax when received by each Fund, as exempt-interest dividends.

At September 30, 2009, the following Funds, for federal income tax purposes, had capital loss carryforwards which will reduce the respective Fund's taxable income arising from future net realized gains on investment transactions, if any, to the extent permitted by the Internal Revenue Code, and thus will reduce the amount of distributions to shareholders, which would otherwise be necessary to relieve the Funds of any liability for federal income or excise tax. The amounts and expiration dates of the capital loss carryforwards are as follows:

Eaton Vance Insured Municipal Bond Funds as of September 30, 2009

NOTES TO FINANCIAL STATEMENTS CONT D

<b>Fund</b>	<b>Amount</b>	<b>Expiration Date</b>
Insured Municipal II	\$ 658,427 2,011,041	September 30, 2016 September 30, 2017

Insured Ohio	\$ 321,978 83,319 1,620,085	September 30, 2013 September 30, 2016 September 30, 2017

During the year ended September 30, 2009, capital loss carryforwards of \$15,434 were utilized to offset net realized gains by the Insured Michigan Fund.

Additionally, at September 30, 2009, the Insured Municipal Fund II, Insured California Fund II, Insured Massachusetts Fund, Insured Michigan Fund, Insured New Jersey Fund, Insured New York Fund II, Insured Ohio Fund and Insured Pennsylvania Fund had net capital losses of \$11,660,513, \$3,404,426, \$1,057,708, \$579,640, \$2,262,820, \$1,660,342, \$3,402,294 and \$1,901,230, respectively, attributable to security transactions incurred after October 31, 2008. These net capital losses are treated as arising on the first day of the Funds' taxable year ending September 30, 2010.

As of September 30, 2009, the Funds had no uncertain tax positions that would require financial statement recognition, de-recognition, or disclosure. Each of the Funds' federal tax returns filed in the 3-year period ended September 30, 2009 remains subject to examination by the Internal Revenue Service.

**D Expense Reduction** State Street Bank and Trust Company (SSBT) serves as custodian of the Funds. Pursuant to the respective custodian agreements, SSBT receives a fee reduced by credits, which are determined based on the average daily cash balance each Fund maintains with SSBT. All credit balances, if any, used to reduce each Fund's custodian fees are reported as a reduction of expenses in the Statements of Operations.

**E Legal Fees** Legal fees and other related expenses incurred as part of negotiations of the terms and requirement of capital infusions, or that are expected to result in the restructuring of, or a plan of reorganization for, an investment are recorded as realized losses. Ongoing expenditures to protect or enhance an investment are treated as operating expenses.

**F Use of Estimates** The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates.

**G Indemnifications** Under each Fund's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to each Fund, and shareholders are indemnified against personal liability for the obligations of each Fund. Additionally, in the normal course of business, each Fund enters into agreements with service providers that may contain indemnification clauses. Each Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against each Fund that have not yet occurred.

**H Floating Rate Notes Issued in Conjunction with Securities Held** The Funds may invest in inverse floating rate securities, also referred to as residual interest bonds, whereby a Fund may sell a fixed rate bond to a broker for cash. At the same time, the Fund buys a residual interest in the assets and cash flows of a Special-Purpose Vehicle (the SPV), (which is generally organized as a trust), set up by the broker, often referred to as an inverse floating rate obligation (Inverse Floater). The broker deposits a fixed rate bond into the SPV with the same CUSIP number as the fixed rate bond sold to the broker by the Fund, and which may have been, but is not required to be, the fixed rate bond purchased from the Fund (the Fixed Rate Bond). The SPV also issues floating rate notes (Floating Rate Notes) which are sold to third-parties. The Inverse Floater held by a Fund gives the Fund the right (1) to cause the holders of the Floating Rate Notes to tender their notes at par, and (2) to have the broker transfer the Fixed Rate Bond held by the SPV to the Fund, thereby terminating the SPV. Should the Fund exercise such right, it would pay the broker the par amount due on the Floating Rate Notes and exchange the Inverse Floater for the underlying Fixed Rate Bond. Pursuant to generally accepted accounting principles for transfers and servicing of financial assets and extinguishment of liabilities, the Funds account for the transaction described above as a secured borrowing by including the Fixed Rate Bond in their Portfolio of Investments and the Floating Rate Notes as a liability under the caption Payable for floating rate notes issued in their Statement of Assets and Liabilities. The Floating

Eaton Vance Insured Municipal Bond Funds as of September 30, 2009

Rate Notes have interest rates that generally reset weekly and their holders have the option to tender their notes to the broker for redemption at par at each reset date. Interest expense related to the Funds' liability with respect to Floating Rate Notes is recorded as incurred. The SPV may be terminated by the Fund, as noted above, or by the broker upon the occurrence of certain termination events as defined in the trust agreement, such as a downgrade in the credit quality of the underlying bond, bankruptcy of or payment failure by the issuer of the underlying bond, the inability to remarket Floating Rate Notes that have been tendered due to insufficient buyers in the market, or the failure by the SPV to obtain renewal of the liquidity agreement under which liquidity support is provided for the Floating Rate Notes up to one year. Structuring fees paid to the liquidity provider upon the creation of an SPV have been recorded as debt issuance costs and are being amortized as interest expense to the expected maturity of the related trust. At September 30, 2009, the amounts of the Funds' Floating Rate Notes and related interest rates and collateral were as follows:

<b>Fund</b>	<b>Floating Rate Notes Outstanding</b>	<b>Interest Rate or Range of Interest Rates (%)</b>		<b>Collateral for Floating Rate Notes Outstanding</b>
Insured Municipal II	\$ 57,365,000	0.32	0.95	\$ 68,895,110

Insured Pennsylvania	1,860,000	0.90	0.95	4,069,529

For the year ended September 30, 2009, the Funds' average floating rate notes outstanding and the average interest rate including fees were as follows:

The Funds may enter into shortfall and forbearance agreements with the broker by which a Fund agrees to reimburse the broker, in certain circumstances, for the difference between the liquidation value of the Fixed Rate Bond held by the SPV and the liquidation value of the Floating Rate Notes, as well as any shortfalls in interest cash flows. The Funds had no shortfalls as of September 30, 2009.

The Funds may also purchase Inverse Floaters from brokers in a secondary market transaction without first owning the underlying fixed rate bond. Such transactions are not required to be treated as secured borrowings. Shortfall agreements, if any, related to Inverse Floaters purchased in a secondary market transaction are disclosed in the Portfolios of Investments. The Funds' investment policies and restrictions expressly permit investments in Inverse Floaters. Inverse floating rate securities typically offer the potential for yields exceeding the yields available on fixed rate bonds with comparable credit quality and maturity. These securities tend to underperform the market for fixed rate bonds in a rising long-term interest rate environment, but tend to outperform the market for fixed rate bonds when long-term interest rates decline. The value and income of inverse floating rate securities are generally more volatile than that of a fixed rate bond. The Funds' investment policies do not allow the Funds to borrow money, except as permitted by the 1940 Act. Management believes that the Funds' restrictions on borrowing money and issuing senior securities (other than as specifically permitted) do not apply to Floating Rate Notes issued by the SPV and included as a liability in the Funds' Statement of Assets and Liabilities. As secured indebtedness issued by an SPV, Floating Rate Notes are distinct from the borrowings and senior securities to which the Funds' restrictions apply. Inverse Floaters held by the Funds are securities exempt from registration under Rule 144A of the Securities Act of 1933.

**I Financial Futures Contracts** The Funds may enter into financial futures contracts. The Funds' investment in financial futures contracts is designed for hedging against changes in interest rates or as a substitute for the purchase of securities. Upon entering into a financial futures contract, a Fund is required to deposit with the broker, either in cash or securities, an amount equal to a certain percentage of the purchase price (initial margin). Subsequent payments, known as variation margin, are made or received by the Fund each business day, depending on the daily fluctuations in the value of the underlying security, and are recorded as unrealized gains or losses by the Fund. Gains (losses) are realized upon the expiration or closing of the financial futures contracts. Should market conditions change unexpectedly, the Fund may not achieve the anticipated benefits of the financial futures contracts and may realize a loss. Futures contracts have minimal counterparty risk as they are exchange traded and the clearinghouse for the exchange is substituted as the counterparty, guaranteeing counterparty performance.

Eaton Vance Insured Municipal Bond Funds as of September 30, 2009

## NOTES TO FINANCIAL STATEMENTS CONT D

**J Interest Rate Swaps** The Funds may enter into interest rate swap agreements to enhance return, to hedge against fluctuations in securities prices or interest rates, or as substitution for the purchase or sale of securities. Pursuant to these agreements, a Fund makes periodic payments at a fixed interest rate and, in exchange, receives payments based on the interest rate of a benchmark industry index. During the term of the outstanding swap agreement, changes in the underlying value of the swap are recorded as unrealized gains or losses. The value of the swap is determined by changes in the relationship between two rates of interest. A Fund is exposed to credit loss in the event of non-performance by the swap counterparty. Risk may also arise from movements in interest rates.

**K When-Issued Securities and Delayed Delivery Transactions** The Funds may purchase or sell securities on a delayed delivery or when-issued basis. Payment and delivery may take place after the customary settlement period for that security. At the time the transaction is negotiated, the price of the security that will be delivered is fixed. The Funds maintain security positions for these commitments such that sufficient liquid assets will be available to make payments upon settlement. Securities purchased on a delayed delivery or when-issued basis are marked-to-market daily and begin earning interest on settlement date. Losses may arise due to changes in the market value of the underlying securities or if the counterparty does not perform under the contract.

**L Statement of Cash Flows** The cash amount shown in the Statement of Cash Flows of a Fund is the amount included in the Fund's Statement of Assets and Liabilities and represents the cash on hand at its custodian and does not include any short-term investments.

## 2 Auction Preferred Shares

Each Fund issued Auction Preferred Shares (APS) on January 15, 2003 in a public offering. The underwriting discounts and other offering costs incurred in connection with the offering were recorded as a reduction of the paid-in capital of the common shares of each respective Fund. Dividends on the APS, which accrue daily, are cumulative at rates which are reset every seven days by an auction, unless a special dividend period has been set. If the APS auctions do not successfully clear, the dividend payment rate over the next period for the APS holders is set at a specified maximum applicable rate until such time as the APS auctions are successful. The maximum applicable rate on the APS is 110% (150% for taxable distributions) of the greater of the 1) AA Financial Composite Commercial Paper Rate or 2) Taxable Equivalent of the Short-Term Municipal Obligation Rate on the date of the auction. Series of APS are identical in all respects except for the reset dates of the dividend rates.

During the year ended September 30, 2009, certain Funds made a partial redemption of their APS at a liquidation price of \$25,000 per share. The number of APS redeemed and redemption amount (excluding the final dividend payment) during the year ended September 30, 2009 and the number of APS issued and outstanding as of September 30, 2009 are as follows:

Fund	APS		APS Issued and Outstanding
	Redeemed During the	Redemption Amount	

**Period**

Insured Municipal II			
Series A	\$		894
Series B			894
Insured California II			1,028
Insured Massachusetts			543
Insured Michigan	7	175,000	533
Insured New Jersey	28	700,000	784
Insured New York II			530
Insured Ohio	195	4,875,000	680
Insured Pennsylvania	171	4,275,000	869

The APS are redeemable at the option of each Fund at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, on any dividend payment date. The APS are also subject to mandatory redemption at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, if a Fund is in default for an extended period on its asset maintenance requirements with respect to the APS. If the dividends on the APS remain unpaid in an amount equal to two full years' dividends, the holders of the APS as a class have the right to elect a majority of the Board of Trustees. In general, the holders of the APS and the common shares have equal voting rights of one vote per share, except that the holders of the APS, as a separate class, have the right to elect at least two members of the Board of Trustees. The APS have a liquidation preference of \$25,000 per share, plus accumulated and unpaid dividends. Each Fund is required to maintain certain asset coverage with respect to the APS as defined in the Funds' By-Laws and the 1940 Act. Each Fund pays an annual fee equivalent to 0.15% (0.25% prior to March 2009) of the liquidation value of the APS to broker-dealers as a service fee if the auctions are unsuccessful; otherwise, the annual fee is 0.25%.

### 3 Distributions to Shareholders

Each Fund intends to make monthly distributions of net investment income to common shareholders, after payment of any dividends on any outstanding APS. In addition, at least annually, each Fund intends to distribute all or substantially all of its net realized capital gains,

Eaton Vance Insured Municipal Bond Funds as of September 30, 2009

# NOTES TO FINANCIAL STATEMENTS CONT D

(reduced by available capital loss carryforwards from prior years, if any). Distributions to common shareholders are recorded on the ex-dividend date. Distributions to preferred shareholders are recorded daily and are payable at the end of each dividend period. The dividend rates for APS at September 30, 2009, and the amount of dividends paid (including capital gains, if any) to APS shareholders, average APS dividend rates, and dividend rate ranges for the year then ended were as follows:

Fund	APS Dividend Rates at September 30, 2009	Dividends Paid to APS Shareholders	Average APS Dividend Rates	Dividend Rate	Ranges (%)
Insured Municipal II					
Series A	0.56%	\$ 283,387	1.27%	0.35	12.26
Series B	0.56	295,017	1.32	0.43	10.21
Insured California II	0.56	325,864	1.27	0.35	12.26
Insured Massachusetts	0.56	174,091	1.28	0.35	11.73
Insured Michigan	0.50	170,213	1.28	0.38	8.65

Insured Pennsylvania	0.56	342,778	1.58	0.35	11.73

Beginning February 13, 2008 and consistent with the patterns in the broader market for auction-rate securities, the Funds APS auctions were unsuccessful in clearing due to an imbalance of sell orders over bids to buy the APS. As a result, the dividend rates of the APS were reset to the maximum applicable rates. The table above reflects such maximum dividend rates for each series as of September 30, 2009.

The Funds distinguish between distributions on a tax basis and a financial reporting basis. Accounting principles generally accepted in the United States of America require that only distributions in excess of tax basis earnings and profits be reported in the financial statements as a return of capital. Permanent differences between book and tax accounting relating to distributions are reclassified to paid-in capital. For tax purposes, distributions from short-term capital gains are considered to be from ordinary income.

The tax character of distributions declared for the years ended September 30, 2009 and September 30, 2008 was as follows:

NOTES TO FINANCIAL STATEMENTS CONT D

During the year ended September 30, 2009, the following amounts were reclassified due to non-deductible expenses and differences between book and tax accounting, primarily for accretion of market discount.

	<b>Insured Municipal Fund II</b>	<b>Insured California Fund II</b>	<b>Insured Massachusetts Fund</b>	<b>Insured Michigan Fund</b>

Accumulated undistributed net investment income	\$ (15,289)	\$ 31,335	\$ (36,642)	\$ (33,355)

These reclassifications had no effect on the net assets or net asset value per share of the Funds.

As of September 30, 2009, the components of distributable earnings (accumulated losses) and unrealized appreciation (depreciation) on a tax basis were as follows:

	<b>Insured Municipal Fund II</b>	<b>Insured California Fund II</b>	<b>Insured Massachusetts Fund</b>	<b>Insured Michigan Fund</b>
Undistributed income	\$ 1,542,058	\$ 335,642	\$ 121,223	\$ 148,487

Net unrealized appreciation (depreciation)	\$ 3,340,508	\$ 1,147,524	\$ 2,261,294	\$ 675,741
Other temporary differences	\$ (555)	\$ (182)	\$ (787)	\$ (2,011)

The differences between components of distributable earnings (accumulated losses) on a tax basis and the amounts reflected in the Statements of Assets and Liabilities are primarily due to wash sales, the timing of recognizing distributions to shareholders, futures contracts, accretion of market discount and inverse floaters.

#### 4 Investment Adviser Fee and Other Transactions with Affiliates

The investment adviser fee is earned by Eaton Vance Management (EVM) as compensation for investment advisory services rendered to each Fund. The fee is computed at an annual rate of 0.55% of each Fund's average weekly gross assets and is payable monthly. Average weekly gross assets include the principal amount of any indebtedness for money borrowed, including debt securities issued by a Fund, and the amount of any outstanding APS issued by the Fund. Pursuant to a fee reduction agreement with EVM, average weekly gross assets are calculated by adding to net assets the liquidation value of a Fund's APS then outstanding and the amount payable by the Fund to floating rate note holders, such adjustment being limited to the value of the APS outstanding prior to any APS redemptions by the Fund. EVM also serves as the administrator of each Fund, but receives no compensation.

In addition, EVM has contractually agreed to reimburse the Funds for fees and other expenses at an annual rate of 0.15% of average weekly gross assets of each Fund during the first five full years of its operations, 0.10% of a Fund's average weekly gross assets in year six, and 0.05% in year seven. The Funds concluded their first six full years of operations on November 29, 2008. For the year ended September 30, 2009, the investment adviser fee and expenses contractually reduced by EVM were as follows:

Eaton Vance Insured Municipal Bond Funds as of September 30, 2009

Except for Trustees of the Funds who are not members of EVM's organization, officers and Trustees receive remuneration for their services to the Funds out of the investment adviser fee. Trustees of the Funds who are not affiliated with the investment adviser may elect to defer receipt of all or a percentage of their annual fees in accordance with the terms of the Trustees Deferred Compensation Plan. For the year ended September 30, 2009, no significant amounts have been deferred. Certain officers and Trustees of the Funds are officers of EVM.

## 8 Overdraft Advances

Pursuant to the respective custodian agreements, SSBT may, in its discretion, advance funds to the Funds to make properly authorized payments. When such payments result in an overdraft, the Funds are obligated to repay SSBT at the current rate of interest charged by SSBT for secured loans (currently, a rate above the Federal Funds rate). This obligation is payable on demand to SSBT. SSBT has a lien on a Fund's assets to the extent of any overdraft. At September 30, 2009, the Insured Municipal Fund II, Insured Michigan Fund, Insured New York Fund II and Insured Pennsylvania Fund had payments due to SSBT pursuant to the foregoing arrangement of \$812,300, \$142,605, \$111,967 and \$377,752, respectively.

## 9 Financial Instruments

The Funds may trade in financial instruments with off-balance sheet risk in the normal course of their investing activities. These financial instruments may include financial futures contracts and interest rate swaps and may involve, to a varying degree, elements of risk in excess of the amounts recognized for financial statement purposes. The notional or contractual amounts of these instruments represent the investment a Fund has in particular classes of financial instruments and do not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered.

A summary of obligations under these financial instruments at September 30, 2009 is as follows:

The effective date represents the date on which a Fund and the counterparty to the interest rate swap contract begin interest payment accruals.

At September 30, 2009, the Funds had sufficient cash and/or securities to cover commitments under these contracts.

The Funds adopted FASB Statement of Financial Accounting Standards No. 161 (FAS 161), Disclosures about Derivative Instruments and Hedging Activities, (currently FASB Accounting Standards Codification (ASC) 815-10), effective April 1, 2009. Such standard requires enhanced disclosures about an entity's derivative and hedging activities, including qualitative disclosures about the objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of and gains and losses on derivative instruments, and disclosures about credit-risk related contingent features in derivative instruments. The disclosure below includes additional information as a result of implementing FAS 161.

Each Fund is subject to interest rate risk in the normal course of pursuing its investment objectives. Because the Funds hold fixed rate bonds, the value of these bonds may decrease if interest rates rise. To hedge against this risk, each

Fund may enter into interest rate swap contracts. The Funds may also purchase and sell U.S. Treasury futures contracts to hedge against changes in interest rates.

The Funds enter into interest rate swap contracts that may contain provisions whereby the counterparty may terminate the contract under certain conditions, including but not limited to a decline in a Fund's net assets below a certain level over a certain period of time, which would

trigger a payment by the Fund for those swaps in a liability position. At September 30, 2009, the fair value of interest rate swaps with credit-related contingent features in a liability position was equal to the fair value of the liability derivative related to interest rate swaps included in the table below for each respective Fund. The value of securities pledged as collateral, if any, for open interest rate swap contracts at September 30, 2009 is disclosed in a note to each Fund's Portfolio of Investments.

The fair values of derivative instruments (not considered to be hedging instruments for accounting disclosure purposes) and whose primary underlying risk exposure is interest rate risk at September 30, 2009 were as follows:

## 10 Fair Value Measurements

The Funds adopted FASB Statement of Financial Accounting Standards No. 157 (FAS 157), Fair Value Measurements, (currently FASB ASC 820-10), effective October 1, 2008. Such standard established a three-tier hierarchy to prioritize the assumptions, referred to as inputs, used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including a fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

At September 30, 2009, the inputs used in valuing the Funds' investments, which are carried at value, were as follows:

To the Trustees and Shareholders of

Eaton Vance Insured Municipal Bond Fund II, Eaton Vance Insured California Municipal Bond Fund II, Eaton Vance Insured Massachusetts Municipal Bond Fund, Eaton Vance Insured Michigan Municipal Bond Fund, Eaton Vance Insured New Jersey Municipal Bond Fund, Eaton Vance Insured New York Municipal Bond Fund II, Eaton Vance Insured Ohio Municipal Bond Fund, and Eaton Vance Insured Pennsylvania Municipal Bond Fund:

We have audited the accompanying statements of assets and liabilities of Eaton Vance Insured Municipal Bond Fund II, Eaton Vance Insured California Municipal Bond Fund II, Eaton Vance Insured Massachusetts Municipal Bond Fund, Eaton Vance Insured Michigan Municipal Bond Fund, Eaton Vance Insured New Jersey Municipal Bond Fund, Eaton Vance Insured New York Municipal Bond Fund II, Eaton Vance Insured Ohio Municipal Bond Fund, and Eaton Vance Insured Pennsylvania Municipal Bond Fund (collectively, the Funds ), including the portfolios of investments, as of September 30, 2009, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the statements of cash flows of Eaton Vance Insured Municipal Bond Fund II, Eaton Vance Insured California Municipal Bond Fund II, Eaton Vance Insured New Jersey Municipal Bond Fund and Eaton Vance Insured New York Municipal Bond Fund II for the year then ended. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Funds are not required to have, nor were we engaged to perform, an audit of their internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of September 30, 2009, by correspondence with the custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Eaton Vance Insured Municipal Bond Fund II, Eaton Vance Insured California Municipal Bond Fund II, Eaton Vance Insured Massachusetts Municipal Bond Fund, Eaton Vance Insured Michigan Municipal Bond Fund, Eaton Vance Insured New Jersey Municipal Bond Fund, Eaton Vance Insured New York Municipal Bond Fund II, Eaton Vance Insured Ohio Municipal Bond Fund, and Eaton Vance Insured Pennsylvania Municipal Bond Fund as of September 30, 2009, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, and their financial highlights for each of the five years in the period then ended, and the statements of cash flows of Eaton Vance Insured Municipal Bond Fund II, Eaton Vance Insured California Municipal Bond Fund II, Eaton Vance Insured New Jersey Municipal Bond Fund and Eaton Vance Insured New York Municipal Bond Fund II for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

NOTICE TO SHAREHOLDERS

Under the Funds' former policy, during normal market conditions (a) at least 80 percent of each Fund's net assets shall be invested in tax-exempt municipal obligations that are insured as to the payment of principal and interest by an insurer rated Baa or better by Moody's Investors Service, Inc. ( "Moody's" ) or BBB or better by Standard & Poor's Ratings Group ( "S&P" ) or Fitch Ratings ( "Fitch" ) and (b) at least 50 percent of each Fund's investments in insured municipal obligations shall be insured by an insurer rated A or better by Moody's, S&P or Fitch.

Effective November 2, 2009, each Fund eliminated the requirement that at least 50 percent of its insured municipal obligations be insured by insurers rated A or better. In addition, the Trustees of each Fund have voted to recommend that shareholders approve a modification to each Fund's 80 percent policies to eliminate the requirement to invest primarily in insured municipal obligations. If approved by shareholders, the Funds would thereafter be required, under normal market conditions, to invest at least 80 percent of net assets in municipal obligations rated A or better by Moody's, S&P or Fitch and each of them would eliminate "Insured" from its name. For purposes of the Funds' 80 percent requirement, the rating of insured obligations will be deemed to be the higher of the claims-paying rating of the insurer and the rating of the underlying issue. The joint special meeting of shareholders of the Funds is scheduled to take place on Friday, January 29, 2010 at 2:00 P.M. eastern time. Proxy materials containing information about the meeting and the proposed changes will be mailed to each Fund's shareholders of record as of November 18, 2009.

DIVIDEND REINVESTMENT PLAN

Each Fund offers a dividend reinvestment plan (the Plan) pursuant to which shareholders may elect to have distributions automatically reinvested in common shares (the Shares) of the Fund. You may elect to participate in the Plan by completing the Dividend Reinvestment Plan Application Form. If you do not participate, you will receive all distributions in cash paid by check mailed directly to you by American Stock Transfer & Trust Company (AST) as dividend paying agent. On the distribution payment date, if the net asset value per Share is equal to or less than the market price per Share plus estimated brokerage commissions, then new Shares will be issued. The number of Shares shall be determined by the greater of the net asset value per Share or 95% of the market price. Otherwise, Shares generally will be purchased on the open market by the Plan Agent. Distributions subject to income tax (if any) are taxable whether or not shares are reinvested.

If your shares are in the name of a brokerage firm, bank, or other nominee, you can ask the firm or nominee to participate in the Plan on your behalf. If the nominee does not offer the Plan, you will need to request that your shares be re-registered in your name with each Fund's transfer agent, AST, or you will not be able to participate.

The Plan Agent's service fee for handling distributions will be paid by each Fund. Each participant will be charged their pro-rata share of brokerage commissions on all open-market purchases.

Plan participants may withdraw from the Plan at any time by writing to the Plan Agent at the address noted on the following page. If you withdraw, you will receive shares in your name for all Shares credited to your account under the Plan. If a participant elects by written notice to the Plan Agent to have the Plan Agent sell part or all of his or her Shares and remit the proceeds, the Plan Agent is authorized to deduct a \$5.00 fee plus brokerage commissions from the proceeds.

If you wish to participate in the Plan and your shares are held in your own name, you may complete the form on the following page and deliver it to the Plan Agent.

Any inquiries regarding the Plan can be directed to the Plan Agent, AST, at 1-866-439-6787.

BOARD OF TRUSTEES ANNUAL APPROVAL OF THE INVESTMENT ADVISORY AGREEMENTS

**Overview of the Contract Review Process**

The Investment Company Act of 1940, as amended (the 1940 Act ), provides, in substance, that each investment advisory agreement between a fund and its investment adviser will continue in effect from year to year only if its continuance is approved at least annually by the fund's board of trustees, including by a vote of a majority of the trustees who are not interested persons of the fund ( Independent Trustees ), cast in person at a meeting called for the purpose of considering such approval.

At a meeting of the Boards of Trustees (each a Board ) of the Eaton Vance group of mutual funds (the Eaton Vance Funds ) held on April 27, 2009, the Board, including a majority of the Independent Trustees, voted to approve continuation of existing advisory and sub-advisory agreements for the Eaton Vance Funds for an additional one-year period. In voting its approval, the Board relied upon the affirmative recommendation of the Contract Review Committee of the Board (formerly the Special Committee), which is a committee comprised exclusively of Independent Trustees. Prior to making its recommendation, the Contract Review Committee reviewed information furnished for a series of meetings of the Contract Review Committee held in February, March and April 2009. Such information included, among other things, the following:

*Information about Fees, Performance and Expenses*

- An independent report comparing the advisory and related fees paid by each fund with fees paid by comparable funds;
- An independent report comparing each fund's total expense ratio and its components to comparable funds;
- An independent report comparing the investment performance of each fund to the investment performance of comparable funds over various time periods;
- Data regarding investment performance in comparison to relevant peer groups of funds and appropriate indices;
- Comparative information concerning fees charged by each adviser for managing other mutual funds and institutional accounts using investment strategies and techniques similar to those used in managing the fund;
- Profitability analyses for each adviser with respect to each fund;

*Information about Portfolio Management*

- Descriptions of the investment management services provided to each fund, including the investment strategies and processes employed, and any changes in portfolio management processes and personnel;

### BOARD OF TRUSTEES ANNUAL APPROVAL OF THE INVESTMENT ADVISORY AGREEMENTS CONT'D

In addition to the information identified above, the Contract Review Committee considered information provided from time to time by each adviser throughout the year at meetings of the Board and its committees. Over the course of the twelve-month period ended April 30, 2009, the Board met eighteen times and the Contract Review Committee, the Audit Committee, the Governance Committee, the Portfolio Management Committee and the Compliance Reports and Regulatory Matters Committee, each of which is a Committee comprised solely of Independent Trustees, met seven, five, six, six and six times, respectively. At such meetings, the Trustees received, among other things, presentations by the portfolio managers and other investment professionals of each adviser relating to the investment performance of each fund and the investment strategies used in pursuing the fund's investment objective.

For funds that invest through one or more underlying portfolios, the Board considered similar information about the portfolio(s) when considering the approval of advisory agreements. In addition, in cases where the fund's investment adviser has engaged a sub-adviser, the Board considered similar information about the sub-adviser when considering the approval of any sub-advisory agreement.

The Contract Review Committee was assisted throughout the contract review process by Goodwin Procter LLP, legal counsel for the Independent Trustees. The members of the Contract Review Committee relied upon the advice of such counsel and their own business judgment in determining the material factors to be considered in evaluating each advisory and sub-advisory agreement and the weight to be given to each such factor. The conclusions reached with respect to each advisory and sub-advisory agreement were based on a comprehensive evaluation of all the information provided and not any single factor. Moreover, each member of the Contract Review Committee may have placed varying emphasis on particular factors in reaching conclusions with respect to each advisory and sub-advisory agreement.

### Results of the Process

Based on its consideration of the foregoing, and such other information as it deemed relevant, including the factors and conclusions described below, the Contract Review Committee concluded that the continuance of the investment advisory agreements of the following funds:

Eaton Vance Insured Municipal Bond Fund II  
Eaton Vance Insured California Municipal Bond Fund II  
Eaton Vance Insured Massachusetts Municipal Bond Fund  
Eaton Vance Insured Michigan Municipal Bond Fund  
Eaton Vance Insured New Jersey Municipal Bond Fund  
Eaton Vance Insured New York Municipal Bond Fund II  
Eaton Vance Insured Ohio Municipal Bond Fund  
Eaton Vance Insured Pennsylvania Municipal Bond Fund

(the Funds), each with Eaton Vance Management (the Adviser), including their fee structures, is in the interests of shareholders and, therefore, the Contract Review Committee recommended to the Board approval of each agreement. The Board accepted the recommendation of the Contract Review Committee as well as the factors considered and conclusions reached by the Contract Review Committee with respect to each agreement. Accordingly, the Board, including a majority of the Independent Trustees, voted to approve continuation of the investment advisory agreement

for each Fund.

### **Nature, Extent and Quality of Services**

In considering whether to approve the investment advisory agreements of the Funds, the Board evaluated the nature, extent and quality of services provided to the Funds by the Adviser.

The Board considered the Adviser's management capabilities and investment process with respect to the types of investments held by each Fund, including the education, experience and number of its investment professionals and other personnel who provide portfolio management, investment research, and similar services to the Funds, and recent changes in the identity of such personnel with respect to certain Funds. In particular, the Board evaluated, where relevant, the abilities and experience of such investment personnel in analyzing factors such as credit risk, tax efficiency, and special considerations relevant to investing in municipal bonds. The Board considered the Adviser's large municipal bond team, which includes portfolio managers and credit specialists who provide services to the Funds. The Board also took into account the resources dedicated to portfolio management and other services, including the compensation paid to recruit and retain investment personnel, and the time and attention devoted to each Fund by senior management.

### BOARD OF TRUSTEES ANNUAL APPROVAL OF THE INVESTMENT ADVISORY AGREEMENTS CONT D

The Board also reviewed the compliance programs of the Adviser and relevant affiliates thereof. Among other matters, the Board considered compliance and reporting matters relating to personal trading by investment personnel, selective disclosure of portfolio holdings, late trading, frequent trading, portfolio valuation, business continuity and the allocation of investment opportunities. The Board also evaluated the responses of the Adviser and its affiliates to requests from regulatory authorities such as the Securities and Exchange Commission and the Financial Industry Regulatory Authority.

The Board considered shareholder and other administrative services provided or managed by Eaton Vance Management and its affiliates, including transfer agency and accounting services. The Board evaluated the benefits to shareholders of investing in a fund that is a part of a large family of funds.

The Board considered the Adviser's recommendations for Board action and other steps taken in response to the unprecedented dislocations experienced in the capital markets over recent periods, including sustained periods of high volatility, credit disruption and government intervention. In particular, the Board considered the Adviser's efforts and expertise with respect to each of the following matters as they relate to the Funds and/or other funds within the Eaton Vance family of funds: (i) negotiating and maintaining the availability of bank loan facilities and other sources of credit used for investment purposes or to satisfy liquidity needs; (ii) establishing the fair value of securities and other instruments held in investment portfolios during periods of market volatility and issuer-specific disruptions; and (iii) the ongoing monitoring of investment management processes and risk controls. In addition, the Board considered the Adviser's actions with respect to the Auction Preferred Shares ( APS ) issued by the Funds, including the Adviser's efforts to seek alternative forms of debt and other leverage that may over time reduce financing costs associated with APS and enable the Funds to restore liquidity for APS holders.

After consideration of the foregoing factors, among others, the Board concluded that the nature, extent and quality of services provided by the Adviser, taken as a whole, are appropriate and consistent with the terms of the respective investment advisory agreements.

### **Fund Performance**

The Board compared each Fund's investment performance to a relevant universe of similarly managed funds identified by an independent data provider and appropriate benchmark indices. The Board reviewed comparative performance data for the one-, three-, and five-year periods ended September 30, 2008 for each Fund in operation over such periods. The Board considered the impact of extraordinary market conditions during 2008 on each Fund's performance relative to its peer universe in light of, among other things, the Adviser's strategy of generating current income through investments in higher quality (including insured) municipal bonds with longer maturities. On the basis of the foregoing and other relevant information, the Board concluded that, under the circumstances, the performance of each Fund was satisfactory.

### **Management Fees and Expenses**

The Board reviewed contractual investment advisory fee rates, including any administrative fee rates, payable by each Fund (referred to collectively as management fees ). As part of its review, the Board considered each Fund's management fee and total expense ratio for the year ended September 30, 2008, as compared to a group of similarly managed funds selected by an independent data provider.

After reviewing the foregoing information, and in light of the nature, extent and quality of the services provided by the Adviser, the Board concluded with respect to each Fund that the management fees charged to the Fund for advisory and related services and the total expense ratio of the Fund are reasonable.

### **Profitability**

The Board reviewed the level of profits realized by the Adviser and relevant affiliates thereof in providing investment advisory and administrative services to each Fund and to all Eaton Vance Funds as a group. The Board considered the level of profits realized with and without regard to revenue sharing or other payments by the Adviser and its affiliates to third parties in respect of distribution services. The Board also considered other direct or indirect benefits received by the Adviser in connection with its relationship with the Funds.

The Board concluded that, in light of the foregoing factors and the nature, extent and quality of the services rendered, the profits realized by the Adviser and its affiliates are reasonable.

Eaton Vance Insured Municipal Bond Funds

BOARD OF TRUSTEES ANNUAL APPROVAL OF THE INVESTMENT ADVISORY AGREEMENTS CONT D

**Economies of Scale**

In reviewing management fees and profitability, the Board also considered the extent to which the Adviser and its affiliates, on the one hand, and each Fund, on the other hand, can expect to realize benefits from economies of scale as the assets of the Fund increase. The Board acknowledged the difficulty in accurately measuring the benefits resulting from the economies of scale with respect to the management of any specific fund or group of funds. The Board also considered the fact that none of the Funds is continuously offered and concluded that, in light of the level of the Adviser's profits with respect to each Fund, the implementation of breakpoints in the advisory fee schedule is not appropriate at this time. Based upon the foregoing, the Board concluded that the benefits from economies of scale are currently being shared equitably by the Adviser and its affiliates and each Fund.

**Item 2. Code of Ethics**

The registrant has adopted a code of ethics applicable to its Principal Executive Officer, Principal Financial Officer and Principal Accounting Officer. The registrant undertakes to provide a copy of such code of ethics to any person upon request, without charge, by calling 1-800-262-1122.

**Item 3. Audit Committee Financial Expert**

The registrant's Board has designated William H. Park, an independent trustee, as its audit committee financial expert. Mr. Park is a certified public accountant who is the Vice Chairman of Commercial Industrial Finance Corp (specialty finance company). Previously, he served as President and Chief Executive Officer of Prizm Capital Management, LLC (investment management firm) and as Executive Vice President and Chief Financial Officer of United Asset Management Corporation (UAM) (a holding company owning institutional investment management firms).

**Item 4. Principal Accountant Fees and Services****(a) (d)**

The following table presents the aggregate fees billed to the registrant for the registrant's fiscal years ended September 30, 2008 and September 30, 2009 by the Fund's principal accountant, Deloitte & Touche LLP (D&T), for professional services rendered for the audit of the registrant's annual financial statements and fees billed for other services rendered by the principal accountant during such period.

<b>Fiscal Years Ended</b>	<b>9/30/08</b>	<b>9/30/09</b>
Audit Fees	\$25,340	\$28,615
Audit-Related Fees <sup>(1)</sup>	\$ 3,915	\$ 3,915
Tax Fees <sup>(2)</sup>	\$ 7,130	\$ 8,720
All Other Fees <sup>(3)</sup>	\$ 45	\$ 0
<b>Total</b>	<b>\$36,430</b>	<b>\$41,250</b>

- (1) Audit-related fees consist of the aggregate fees billed for assurance and related services that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under the category of audit fees and

specifically  
include fees for  
the performance  
of certain  
agreed-upon  
procedures  
relating to the  
registrant's  
auction  
preferred shares.

- (2) Tax fees consist of the aggregate fees billed for professional services rendered by the principal accountant relating to tax compliance, tax advice, and tax planning and specifically include fees for tax return preparation.

- (3) All other fees consist of the aggregate fees billed for products and services provided by the registrant's principal accountant other than audit, audit-related, and tax services.

(e)(1) The registrant's audit committee has adopted policies and procedures relating to the pre-approval of services provided by the registrant's principal accountant (the Pre-Approval Policies). The Pre-Approval Policies establish a framework intended to assist the audit committee in the proper discharge of its pre-approval responsibilities. As a general matter, the Pre-Approval Policies (i) specify certain types of audit, audit-related, tax, and other services determined to be pre-approved by the audit committee; and (ii) delineate specific procedures governing the mechanics of the pre-approval process, including the approval and monitoring of audit and non-audit service fees. Unless a service is specifically pre-approved under the Pre-Approval Policies, it must be separately pre-approved by the audit committee.

The Pre-Approval Policies and the types of audit and non-audit services pre-approved therein must be reviewed and ratified by the registrant's audit committee at least annually. The registrant's audit committee maintains full responsibility for the appointment, compensation, and oversight of the work of the registrant's principal accountant.

(e)(2) No services described in paragraphs (b)-(d) above were approved by the registrant's audit committee pursuant to the de minimis exception set forth in Rule 2-01 (c)(7)(i)(C) of Regulation S-X.

(f) Not applicable.

(g) The following table presents (i) the aggregate non-audit fees (i.e., fees for audit-related, tax, and other services) billed to the registrant by the registrant's principal accountant for the registrant's fiscal year ended September 30, 2008 and the fiscal year ended September 30, 2009; and (ii) the aggregate non-audit fees (i.e., fees for audit-related, tax, and other services) billed to the Eaton Vance organization by the registrant's principal accountant for the same time periods.

<b>Fiscal Years Ended</b>	<b>9/30/08</b>	<b>9/30/09</b>
<b>Registrant</b>	\$ 11,045	\$ 12,635
<b>Eaton Vance<sup>(1)</sup></b>	\$325,801	\$288,889

(1) The investment adviser to the registrant, as well as any of its affiliates that provide ongoing services to the registrant, are subsidiaries of Eaton Vance Corp.

(h) The registrant's audit committee has considered whether the provision by the registrant's principal accountant of non-audit services to the registrant's investment adviser and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant that were not pre-approved pursuant to Rule 2-01(c)(7)(ii) of Regulation S-X is compatible with maintaining the principal accountant's independence.

#### **Item 5. Audit Committee of Listed registrants**

The registrant has a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities and Exchange Act of 1934, as amended. William H. Park (Chair), Lynn A. Stout, Heidi L. Steiger and Ralph F. Verni are the members of the registrant's audit committee.

#### **Item 6. Schedule of Investments**

Please see schedule of investments contained in the Report to Stockholders included under Item 1 of this Form N-CSR.

**Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies**

The Board of Trustees of the Trust has adopted a proxy voting policy and procedure (the Fund Policy ), pursuant to which the Trustees have delegated proxy voting responsibility to the Fund s investment adviser and adopted the investment adviser s proxy voting policies and procedures (the Policies ) which are described below. The Trustees will review the Fund s proxy voting records from time to time and will annually consider approving the Policies for the upcoming year. In the event that a conflict of interest arises between the Fund s shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund, the investment adviser will generally refrain from voting the proxies related to the companies giving rise to such conflict until it consults with the Board s Special Committee except as contemplated under the Fund Policy. The Board s Special Committee will instruct the investment adviser on the appropriate course of action.

The Policies are designed to promote accountability of a company s management to its shareholders and to align the interests of management with those shareholders. An independent proxy voting service ( Agent ), currently Institutional Shareholder Services, Inc., has been retained to assist in the voting of proxies through the provision of vote analysis, implementation and recordkeeping and disclosure services. The investment adviser will generally vote proxies through the Agent. The Agent is required to vote all proxies and/or refer then back to the investment adviser pursuant to the Policies. It is generally the policy of the investment adviser to vote in accordance with the recommendation of the Agent. The Agent shall refer to the investment adviser proxies relating to mergers and restructurings, and the disposition of assets, termination, liquidation and mergers contained in mutual fund proxies. The investment adviser will normally vote against anti-takeover measures and other proposals designed to limit the ability of shareholders to act on possible transactions, except in the case of closed-end management investment companies. The investment adviser generally supports management on social and environmental proposals. The investment adviser may abstain from voting from time to time where it determines that the costs associated with voting a proxy outweighs the benefits derived from exercising the right to vote or the economic effect on shareholders interests or the value of the portfolio holding is indeterminable or insignificant.

In addition, the investment adviser will monitor situations that may result in a conflict of interest between the Fund s shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund by maintaining a list of significant existing and prospective corporate clients. The investment adviser s personnel responsible for reviewing and voting proxies on behalf of the Fund will report any proxy received or expected to be received from a company included on that list to the personal of the investment adviser identified in the Policies. If such personnel expects to instruct the Agent to vote such proxies in a manner inconsistent with the guidelines of the Policies or the recommendation of the Agent, the personnel will consult with members of senior management of the investment adviser to determine if a material conflict of interests exists. If it is determined that a material conflict does exist, the investment adviser will seek instruction on how to vote from the Special Committee.

Information on how the Fund voted proxies relating to portfolio securities during the most recent 12 month period ended June 30 is available (1) without charge, upon request, by calling 1-800-262-1122, and (2) on the Securities and Exchange Commission s website at <http://www.sec.gov>.

*Potential for Conflicts of Interest.* It is possible that conflicts of interest may arise in connection with a portfolio manager's management of a Fund's investments on the one hand and investments of other accounts for which a portfolio manager is responsible on the other. For example, a portfolio manager may have conflicts of interest in allocating management time, resources and investment opportunities among the Fund and other accounts he or she advises. In addition, due to differences in the investment strategies or restrictions between a Fund and the other accounts, a portfolio manager may take action with respect to another account that differs from the action taken with respect to the Fund. In some cases, another account managed by a portfolio manager may compensate the investment adviser or sub-adviser based on the performance of the securities held by that account. The existence of such a performance based fee may create additional conflicts of interest for a portfolio manager in the allocation of management time, resources and investment opportunities. Whenever conflicts of interest arise, a portfolio manager will endeavor to exercise his or her discretion in a manner that he or she believes is equitable to all interested persons. EVM has adopted several policies and procedures designed to address these potential conflicts including: a code of ethics; and policies which govern the investment adviser's trading practices, including among other things the aggregation and allocation of trades among clients, brokerage allocation, cross trades and best execution.

#### **Compensation Structure for EVM**

Compensation of EVM's portfolio managers and other investment professionals has three primary components: (1) a base salary, (2) an annual cash bonus, and (3) annual stockbased compensation consisting of options to purchase shares of EVC's nonvoting common stock and restricted shares of EVC's nonvoting common stock. EVM's investment professionals also receive certain retirement, insurance and other benefits that are broadly available to EVM's employees. Compensation of EVM's investment professionals is reviewed primarily on an annual basis. Cash bonuses, stock-based compensation awards, and adjustments in base salary are typically paid or put into effect at or shortly after the October 31st fiscal year end of EVC.

*Method to Determine Compensation.* EVM compensates its portfolio managers based primarily on the scale and complexity of their portfolio responsibilities and the total return performance of managed funds and accounts versus appropriate peer groups or benchmarks. In addition to rankings within peer groups of funds on the basis of absolute performance, consideration may also be given to relative risk-adjusted performance. Risk-adjusted performance measures include, but are not limited to, the Sharpe Ratio. Performance is normally based on periods ending on the September 30th preceding fiscal year end. Fund performance is normally evaluated primarily versus peer groups of funds as determined by Lipper Inc. and/or Morningstar, Inc. When a fund's peer group as determined by Lipper or Morningstar is deemed by EVM's management not to provide a fair comparison, performance may instead be evaluated primarily against a custom peer group. In evaluating the performance of a fund and its manager, primary emphasis is normally placed on three-year performance, with secondary consideration of performance over longer and shorter periods. For funds that are tax-managed or otherwise have an objective of after-tax returns, performance is measured net of taxes. For other funds, performance is evaluated on a pre-tax basis. For funds with an investment objective other than total return (such as current income), consideration will also be given to the fund's success in achieving its objective. For managers responsible for multiple funds and accounts, investment performance is evaluated on an aggregate basis, based on averages or weighted averages among managed funds and accounts. Funds and accounts that have performance-based advisory fees are not accorded disproportionate weightings in measuring aggregate portfolio manager performance.

The compensation of portfolio managers with other job responsibilities (such as heading an investment group or providing analytical support to other portfolios) will include consideration of the scope of such responsibilities and the managers' performance in meeting them.

EVM seeks to compensate portfolio managers commensurate with their responsibilities and performance, and competitive with other firms within the investment management industry. EVM participates in investment-industry compensation surveys and utilizes survey data as a factor in determining salary, bonus and stock-based compensation levels for portfolio managers and other investment professionals. Salaries, bonuses and stock-based compensation are also influenced by the operating performance of EVM and its parent company. The overall annual cash bonus pool is based on a substantially fixed percentage of pre-bonus operating income. While the salaries of EVM's portfolio managers are comparatively fixed, cash bonuses and stock-based compensation may fluctuate significantly from year to year, based on changes in manager performance and other factors as described herein. For a high performing portfolio manager, cash bonuses and stock-based compensation may represent a substantial portion of total compensation.
