SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation The accompanying unaudited condensed consolidated financial information for the first quarter ended March 31, 2009 and 2010 has been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). All significant intercompany accounts and transactions have been eliminated. These unaudited condensed consolidated financial statements reflect, in the opinion of management, all material adjustments (which include only normal recurring adjustments) necessary to fairly state the financial position and the results of operations for the periods presented. The results for interim periods are not necessarily indicative of the results to be expected for the entire fiscal year. These interim financial statements should be read in conjunction with the audited consolidated financial statements of Sonic Automotive, Inc. ("Sonic" or the "Company") for the year ended December 31, 2009, which were included in Sonic's Annual Report on Form 10-K.

Recent Developments On March 12, 2010, Sonic issued \$210.0 million in aggregate principal amount of 9.0% Senior Subordinated Notes due 2018 (the "9.0% Notes") to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933 and in offshore transactions pursuant to Regulation S under the Securities Act. The notes were issued at 99.299% of par. Net proceeds received from the issuance of the 9.0% Notes were approximately \$203.8 million, after deducting applicable discounts and commissions. On April 12, 2010, Sonic used these net proceeds, together with cash on hand, to redeem \$200.0 million of the Company's 8.625% Senior Subordinated Notes due 2013 (the "8.625% Notes"). See Note 6 for further discussion of the 9.0% Notes and 8.625% Notes.

Reclassifications The statement of income for the first quarter ended March 31, 2009 reflects the reclassification of balances from continuing operations to discontinued operations from the prior year presentation for additional franchises sold and terminated or identified for sale subsequent to March 31, 2009. The statement of income for the first quarter ended March 31, 2009 also reflects the reclassification of balances from discontinued operations to continuing operations for franchises identified for sale as of March 31, 2009, but which Sonic has decided to retain and operate as of March 31, 2010.

Lease Exit Accruals Lease exit accruals relate to facilities Sonic has ceased using in its operations. The accruals represent the present value of the lease payments, net of estimated sublease proceeds, for the remaining life of the operating leases and other accruals necessary to satisfy the lease commitment to the landlord. A summary of the activity of these lease exit accruals consists of the following:

	(dollars in thousands)
Balance, December 31, 2009	\$ 47,825
Lease exit expense	1,461
Payments	(2,612)
Balance, March 31, 2010	\$ 46,674

Of the \$1.5 million lease exit expense, approximately \$1.7 million was recorded in discontinued operations. A benefit of approximately \$0.3 million resulting from a reduction in lease exit accruals was included in selling, general and administrative expenses partially offset by approximately \$0.1 million in interest expense included in Interest Expense, other, net in the accompanying Condensed Consolidated Statements of Income.

Of the \$2.6 million of lease payments, \$2.2 million was recorded in discontinued operations and \$0.4 million was included in selling, general and administrative expenses in the accompanying Condensed Consolidated Statements of Income.

Income Tax Expense The overall effective tax rates for the first quarter ended March 31, 2009 and 2010 are higher than federal statutory rates due to the effect of state income taxes.

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

2. DISCONTINUED OPERATIONS

Dispositions The operating results of franchises held for sale are included in the loss from discontinued operations in Sonic's statements of income. Assets to be disposed of in connection with franchises held for sale but not yet sold have been classified in assets held for sale in Sonic's balance sheets along with other assets held for sale. The major components of assets held for sale consist of the following:

	(dollars in thousands)	
	December 31, 2009	March 31, 2010
Inventories	\$ 4,528	\$ 5,363
Property and equipment, net	4,838	4,681
Goodwill	2,801	1,628
 Assets held for sale	 \$ 12,167	 \$ 11,672

Liabilities to be disposed in connection with these dispositions are comprised primarily of notes payable floor plan and are classified as liabilities associated with assets held for sale on Sonic's balance sheets. Revenues and other activities associated with franchises classified as discontinued operations were as follows:

	(dollars in thousands)	
	First Quarter Ended March 31,	
	2009	2010
Loss from operations	\$ (1,284)	\$ (1,518)
Gain (loss) on disposal of franchises	(80)	318
Lease exit charges	(782)	(1,668)
Property impairment charges	(130)	
Goodwill impairment charges	(1,399)	
 Pre-tax loss	 \$ (3,675)	 \$ (2,868)
 Total Revenues	 \$ 72,294	 \$ 9,372

Lease exit charges recorded for the first quarter ended March 31, 2009 and 2010 relate to the revision of estimates and establishment of lease exit accruals. The lease exit accruals are calculated by either discounting the remaining lease payments, net of estimated sublease proceeds or estimating the amount necessary to satisfy the lease commitment to the landlord. See Note 4 for a discussion of property impairment charges and see Note 5 for a discussion of goodwill impairment charges.

Sonic allocates corporate level interest expense to discontinued operations based on the net assets of the discontinued operations group. Interest allocated to discontinued operations for the first quarter ended March 31, 2009 and 2010 was \$0.6 million and \$0.1 million, respectively.

3. Inventories

Inventories consist of the following:

(dollars in thousands)

	December 31, 2009	March 31, 2010
New vehicles	\$ 557,319	\$ 561,127
Used vehicles	138,401	170,512

4. Property And Equipment

Property and equipment consists of the following:

	(dollars in thousands)	
	December 31, 2009	March 31, 2010
Land	\$ 61,886	\$ 58,852
Building and improvements	322,632	318,836
Office equipment and fixtures	75,801	77,414
Parts and service equipment	54,981	56,048
Company vehicles	8,440	8,160
Construction in progress	40,000	48,290
Total, at cost	563,740	567,600
Less accumulated depreciation	(176,817)	(180,544)
Subtotal	386,923	387,056
Less assets held for sale	(4,838)	(4,681)
Property and equipment, net	\$ 382,085	\$ 382,375

In the first quarter ended March 31, 2009, Sonic recorded fixed asset impairment charges of \$0.2 million, \$0.1 million of which was recorded in continuing operations.

5. Goodwill And Intangible Assets

	(dollars in thousands)			
	Franchise Agreements	Gross Goodwill	Accumulated Impairment	Net Goodwill
Balance, December 31, 2009	\$ 64,835	\$ 1,266,207	\$ (796,725)	\$ 469,482
Reductions from sales of franchises		(504)		(504)
Reclassification (to) / from assets held for sale, net		1,173		1,173
Balance, March 31, 2010	\$ 64,835	\$ 1,266,876	\$ (796,725)	\$ 470,151

In the first quarter ended March 31, 2009, Sonic recorded a goodwill impairment charge of \$1.4 million within discontinued operations. The impairment charge recorded was based on the determination that recorded values were not recoverable under asset disposal agreements entered into during the first quarter ended March 31, 2009.

At December 31, 2009, Sonic had \$16.0 million of definite life intangibles recorded relating to favorable lease agreements. After the effect of amortization of the definite life intangibles, the balance recorded at March 31, 2010 was \$15.6 million and was included in Other Intangible Assets, net, in the accompanying Condensed Consolidated Balance Sheets.

6. Long-Term Debt

Long-term debt consists of the following:

2006 Credit Facility

The 2006 Revolving Credit Sub-Facility, the 2006 New Vehicle Floor Plan Sub-Facility and the 2006 Used Vehicle Floor Plan Sub-Facility would have matured on February 17, 2010. The 2006 Credit Facility was refinanced on January 15, 2010. See 2010 Credit Facilities discussion below.

2010 Credit Facilities

On January 15, 2010, Sonic entered into an amended and restated syndicated credit agreement with Bank of America, N.A., as administrative agent and Bank of America, N.A., DCFS USA LLC, BMW Financial Services NA, LLC, Toyota Motor Credit Corporation, JPMorgan Chase Bank, N.A., Wachovia Bank, National Association, Comerica Bank and World Omni Financial Corp., as Lenders and Wells Fargo Bank National Association as LC issuer (the Revolving Credit Facility) and a syndicated floor plan credit facility with Bank of America, N.A., as administrative agent, and Bank of America, N.A., JPMorgan Chase Bank, N.A., Wachovia Bank, National Association and Comerica Bank, as lenders (the Floorplan Facility). The Revolving Credit Facility and Floorplan Facility (collectively the 2010 Credit Facilities) mature on August 15, 2012.

The Revolving Credit Facility has a borrowing limit of \$150 million, which may be expanded up to \$215 million in total credit availability upon satisfaction of certain conditions. The Revolving Credit Facility is available for acquisitions, capital expenditures, working capital and general corporate purposes. The amount available for borrowing under the Revolving Credit Facility is reduced on a dollar-for-dollar basis by the aggregate face amount of any outstanding letters of credit under the Revolving Credit Facility and is subject to compliance with a borrowing base. The borrowing base is calculated based on the value of eligible accounts, eligible inventory, eligible equipment and 5,000,000 shares of common stock of Speedway Motorsports, Inc. (SMI) pledged as collateral by one of Sonic s affiliates, Sonic Financial Corporation (SFC).

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

As of March 31, 2010, the 2010 Revolving Borrowing Base was approximately \$137.2 million. At March 31, 2010, Sonic had no outstanding borrowings and \$61.4 million in outstanding letters of credit resulting in total borrowing availability of \$75.8 million under the 2010 Revolving Credit Facility.

In connection with the Revolving Credit Facility, Sonic, substantially all of its subsidiaries and SFC entered into various collateral documents. These documents include an amended and restated security agreement, an amended and restated escrow and security agreement and amended and restated securities pledge agreements (the Collateral Documents) with Bank of America, N.A., as administrative agent. Under the Collateral Documents, outstanding obligations under the Revolving Credit Facility are secured by a pledge of substantially all of Sonic's assets and the assets of substantially all of its domestic subsidiaries, and by the pledge of 5,000,000 shares of common stock of SMI by SFC. The Collateral Documents also provide for the pledge of the franchise agreements and stock or equity interests of Sonic's dealership franchise subsidiaries, except for those dealership franchise subsidiaries where the applicable manufacturer prohibits such a pledge, in which cases the stock or equity interests of the dealership franchise subsidiary is subject to an escrow arrangement with the administrative agent. Substantially all of Sonic's domestic subsidiaries also guarantee its obligations under the Revolving Credit Facility under the terms of an amended and restated guaranty agreement with Bank of America, N.A., as administrative agent, entered into in connection with the Revolving Credit Facility.

The Floorplan Facility is comprised of a new vehicle revolving floor plan facility in an amount up to \$321 million (the New Vehicle Floorplan Facility) and a used vehicle revolving floor plan facility in an amount up to \$50 million, subject to compliance and a borrowing base (the Used Vehicle Floorplan Facility). Sonic may, under certain conditions, request an increase in the Floorplan Facility by up to \$125 million, which shall be allocated between the New Vehicle Floorplan Facility and the Used Vehicle Floorplan Facility as Sonic request, with no more than 15% of the aggregate commitments allocated to the commitments under the Used Vehicle Floorplan Facility.

Under the terms of the amended and restated security agreement entered into in connection with the Revolving Credit Facility and guaranty agreements entered into by Sonic and certain of its subsidiaries in connection with the Floorplan Facility, outstanding obligations under the Floorplan Facility are guaranteed by Sonic and certain of its subsidiaries and are secured by a pledge of substantially all of Sonic's assets and the assets of certain of its domestic subsidiaries.

The amounts outstanding under the 2010 Credit Facilities bear interest at variable rates based on specified percentages above LIBOR or the Base Rate according to a performance-based pricing grid determined by Sonic's Consolidated Total Debt to EBITDA Ratio as of the last day of the immediately preceding fiscal quarter.

Covenants

The 2010 Credit Facilities contain certain covenants, including covenants which could restrict or prohibit indebtedness, liens, the payment of dividends, capital expenditures and material dispositions and acquisitions of assets as well as other customary covenants and default provisions. Financial covenants include required specified ratios (as each is defined in the 2010 Credit Facilities) of:

	Consolidated	Covenant Consolidated Fixed Charge	Consolidated Total Senior Secured Debt to EBITDA Ratio
	Liquidity	Coverage	
	Ratio	Ratio	Ratio
Through March 30, 2011	≥ 1.00	≥ 1.10	≤ 2.25
	≥ 1.05	≥ 1.15	≤ 2.25

Edgar Filing: STEINMANN DAVID P - Form 4

March 31, 2011 through and including March 30,
2012

March 31, 2012 and thereafter ≥ 1.10 ≥ 1.20 ≤ 2.25

March 31, 2010 actual 1.15 1.40 1.37

The 2010 Credit Facilities contain events of default, including cross-defaults to other material indebtedness, change of control events and events of default customary for syndicated commercial credit facilities. Upon the occurrence of an event of default, Sonic could be required to immediately repay all outstanding amounts under the 2010 Credit Facilities.

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

In addition, many of Sonic's facility leases are governed by a guarantee agreement between the landlord and Sonic that contains financial and operating covenants. The financial covenants are identical to those under the 2010 Credit Facilities with the exception of one financial covenant related to the ratio of EBTDAR to Rent with a required ratio of no less than 1.5 to 1.0. At March 31, 2010, the ratio was 1.77 to 1.00.

9.0% Notes

On March 12, 2010, Sonic issued \$210.0 million aggregate principal amount of 9.0% Notes under the terms of an Indenture dated as of March 12, 2010. Sonic received approximately \$203.8 million in net proceeds from the offering, after deducting applicable discounts and commissions. Sonic used these net proceeds, together with cash on hand, to redeem \$200.0 million of its 8.625% Notes due 2013 on April 12, 2010. The 9.0% Notes are unsecured senior subordinated obligations of Sonic and are guaranteed by Sonic's domestic operative subsidiaries. The 9.0% Notes bear interest which is payable semi-annually on March 15 and September 15 each year (beginning on September 15, 2010), until maturity on March 15, 2018 or earlier redemption or repurchase. Sonic may redeem the 9.0% Notes in whole or in part at any time after March 15, 2014 at the following redemption prices, which are expressed as percentages of the principal amount.

	Redemption Price
Beginning on March 15, 2014	104.50%
Beginning on March 15, 2015	102.25%
Beginning on March 15, 2016 and thereafter	100.00%

In addition, on or before March 15, 2013, Sonic may redeem up to 35% of the aggregate principal amount of the 9.0% Notes with proceeds from certain equity offerings at par value of the 9.0% Notes, plus any accrued and unpaid interest to but excluding the redemption date. The Indenture also provides that holders of 9.0% Notes may require Sonic to repurchase the 9.0% Notes at 101% of the par value of the 9.0% Notes, plus accrued and unpaid interest to but excluding the change of control purchase date, if Sonic undergoes a change of control as defined in the Indenture.

The indenture governing the 9.0% Notes contain certain specified restrictive and required financial covenants. Sonic has agreed not to pledge any assets to any third party lender of senior subordinated debt except under certain limited circumstances. Sonic also has agreed to certain other limitations or prohibitions concerning the incurrence of other indebtedness, capital stock, guaranties, asset sales, investments, cash dividends to stockholders, distributions and redemptions. Specifically, the indenture governing Sonic's 9.0% Notes limits Sonic's ability to pay quarterly cash dividends on Sonic's Class A and B common stock in excess of \$0.10 per share. Sonic may only pay quarterly cash dividends on Sonic's Class A and B common stock if Sonic complies with Section 1009 of the indenture governing the 9.0% Notes. Sonic was in compliance with all restrictive covenants as of March 31, 2010.

Balances outstanding under Sonic's 9.0% Notes are guaranteed by all of Sonic's operating domestic subsidiaries. These guarantees are full and unconditional and joint and several. The parent company has no independent assets or operations. The non-domestic and non-operating subsidiaries that are not guarantors are considered to be minor as defined by the SEC.

Sonic's obligations under the 9.0% Notes may be accelerated by the holders of 25% of the outstanding principal amount of the 9.0% Notes then outstanding if certain events of default occur, including: (1) defaults in the payment of principal or interest when due; (2) defaults in the performance, or breach, of Sonic's covenants under the 9.0% Notes; and (3) certain defaults under other agreements under which Sonic or its subsidiaries have outstanding indebtedness in excess of \$35.0 million.

8.625% Notes

Sonic had \$275.0 million of principal amount outstanding of the 8.625% Notes at March 31, 2009. The 8.625% Notes are unsecured obligations that rank equal in right of payment to all of Sonic's existing and future senior subordinated indebtedness, mature on August 15, 2013 and are redeemable at Sonic's option after August 15, 2008.

The indenture governing the 8.625% Notes contain certain specified restrictive and required financial covenants. Sonic has agreed not to pledge any assets to any third party lender of senior subordinated debt except under certain limited

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

circumstances. Sonic also has agreed to certain other limitations or prohibitions concerning the incurrence of other indebtedness, capital stock, guaranties, asset sales, investments, cash dividends to shareholders, distributions and redemptions. Specifically, the indenture governing Sonic's 8.625% Notes limits Sonic's ability to pay quarterly cash dividends on Sonic's Class A and B common stock in excess of \$0.10 per share. Sonic may only pay quarterly cash dividends on Sonic's Class A and B common stock if Sonic complies with Section 1009 of the indenture governing the 8.625% Notes, which was filed as Exhibit 4.4 to Sonic's Registration Statement on Form S-4 (File No. 333-109426). Sonic was in compliance with all restrictive covenants as of March 31, 2010.

Balances outstanding under Sonic's 8.625% Notes are guaranteed by all of Sonic's operating domestic subsidiaries. These guarantees are full and unconditional and joint and several. The parent company has no independent assets or operations. The non-domestic and non-operating subsidiaries that are not guarantors are considered to be minor as defined by the SEC.

On March 12, 2010, Sonic issued a redemption notice to holders of the 8.625% Notes to redeem \$200.0 million in aggregate principal amount of its outstanding 8.625% Notes. As such, \$200.0 million of these notes have been reclassified into Current Maturities of Long-Term Debt in the accompanying Condensed Consolidated Balance Sheet. On April 12, 2010, Sonic used the net proceeds obtained from the issuance of the 9.0% Notes, together with cash on hand, to redeem the \$200.0 million of aggregate principal amount at the applicable redemption price (102.875% of principal redeemed) plus accrued but unpaid interest. Sonic recorded a loss on extinguishment of debt of approximately \$7.0 million which will be recognized in April 2010.

5.0% Convertible Senior Notes (5.0% Convertible Notes)

Sonic has \$172.5 million in aggregate principal amount of 5.0% Convertible Notes outstanding. The 5.0% Convertible Notes bear interest at a rate of 5.0% per year, payable semiannually in arrears on April 1 and October 1 of each year, beginning on April 1, 2010. The 5.0% Convertible Notes mature on October 1, 2029. Sonic may redeem some or all of the 5.0% Convertible Notes for cash at any time subsequent to October 1, 2014 at a repurchase price equal to 100% of the principal amount of the Notes. Holders have the right to require Sonic to purchase the 5.0% Convertible Notes on each of October 1, 2014, October 1, 2019 and October 1, 2024 or in the event of a change in control for cash at a purchase price equal to 100% of the principal amount of the notes.

Holders of the 5.0% Convertible Notes may convert their notes at their option prior to the close of business on the business day immediately preceding July 1, 2029 only under the following circumstances: (1) during any fiscal quarter commencing after December 31, 2009, if the last reported sale price of the Class A common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the preceding fiscal quarter is greater than or equal to 130% of the applicable conversion price on each applicable trading day; (2) during the five business day period after any 10 consecutive trading day period (the measurement period) in which the trading price (as defined below) per \$1,000 principal amount of notes for each day of that measurement period was less than 98% of the product of the last reported sale price of Sonic's Class A common stock and the applicable conversion rate on each such day; (3) if Sonic calls any or all of the notes for redemption, at any time prior to the close of business on the third scheduled trading day prior to the redemption date; or (4) upon the occurrence of specified corporate events. On and after July 1, 2029 to (and including) the close of business on the third scheduled trading day immediately preceding the maturity date, holders may convert their notes at any time, regardless of the foregoing circumstances. The conversion rate is 74.7245 shares of Class A common stock per \$1,000 principal amount of notes, which is equivalent to a conversion price of approximately \$13.38 per share of Class A common stock. None of the conversion features on the 5.0% Convertible Notes were triggered in the first quarter of 2010.

To recognize the equity component of a convertible borrowing instrument, upon issuance of the 5.0% Convertible Notes in September 2009, Sonic recorded a debt discount of \$31.0 million and a corresponding amount (net of taxes of \$12.8 million) to equity. The debt discount is being amortized to interest expense through October 2014, the earliest redemption date.

4.25% Convertible Senior Subordinated Notes (4.25% Convertible Notes)

Sonic has approximately \$17.0 million aggregate principal amount of 4.25% Notes outstanding. The 4.25% Convertible Notes bear interest at an annual rate of 4.25% until November 30, 2010 and 4.75% thereafter. The 4.25% Convertible Notes are unsecured obligations that rank equal in right of payment to all of Sonic's existing and future senior subordinated indebtedness, mature on November 30, 2015 and are redeemable by Sonic or the holders on or after November

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

30, 2010. Sonic's obligations under the 4.25% Convertible Notes are not guaranteed by any of Sonic's subsidiaries. Holders of the 4.25% Convertible Notes may convert them into cash and shares of Sonic's Class A common stock at an initial conversion rate of 41.4185 shares per \$1,000 of principal amount, subject to distributions on, or other changes in Sonic's Class A common stock, if any, prior to the conversion date.

The 4.25% Convertible Notes are convertible into cash and shares of Sonic's Class A common stock if prior to October 31, 2010, during the five business day period after any five consecutive trading day period in which the trading price per \$1,000 principal amount of 4.25% Convertible Notes was less than 103% of the product of the closing price of Sonic's Class A common stock and the applicable conversion rate for the 4.25% Convertible Notes; if Sonic calls the 4.25% Convertible Notes for redemption; or upon the occurrence of certain corporate transactions; or on or after October 31, 2010. Upon conversion of the 4.25% Convertible Notes, Sonic will be required to deliver cash equal to the lesser of the aggregate principal amount of the 4.25% Convertible Notes being converted and Sonic's total conversion obligation. If Sonic's total conversion obligation exceeds the aggregate principal amount of the 4.25% Convertible Notes being converted, Sonic will deliver shares of Class A common stock to the extent of the excess amount, if any. None of the conversion features on the 4.25% Convertible Notes were triggered in the first quarter ended March 31, 2010.

Notes Payable to a Finance Company

Three notes payable (due October 2015 and August 2016) were assumed in connection with an acquisition in 2005 (the Assumed Notes). Sonic recorded the Assumed Notes at fair value using an interest rate of 5.35%. The interest rate used to calculate the fair value was based on a quoted market price for notes with similar terms as of the date of assumption. As a result of calculating the fair value, a premium of \$7.3 million was recorded that will be amortized over the lives of the Assumed Notes.

Mortgage Notes

Sonic has mortgage financing related to several of its dealership properties. These mortgage notes require monthly payments of principal and interest through maturity and are secured by the underlying properties. Maturity dates range between June 2013 and December 2029. The weighted average interest rate was 5.1% at March 31, 2010.

Derivative Instruments and Hedging Activities

At March 31, 2010 Sonic had interest rate swap agreements (the Fixed Swaps) to effectively convert a portion of its LIBOR-based variable rate debt to a fixed rate. The fair value of these swap positions at March 31, 2010 was a liability of \$33.3 million included in Other Long-Term Liabilities in the accompanying Condensed Consolidated Balance Sheets. Under the terms of the Fixed Swaps, Sonic will receive and pay interest based on the following:

Notional Amount (in millions)	Pay Rate	Receive Rate (1)	Maturing Date
\$ 200.0	4.935%	one-month LIBOR	May 1, 2012
\$ 100.0	5.265%	one-month LIBOR	June 1, 2012

During the first quarter ended March 31, 2009, Sonic settled its \$100 million notional, pay 5.002% and \$100 million notional, pay 5.319% swaps with a payment to the counterparty of \$16.5 million. This settlement loss was deferred and will be amortized into earnings over the swaps' initial remaining term.

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

As a result of the refinancing of Sonic's 2006 Credit Facility and the new terms of the 2010 Credit Facilities, it is no longer probable that Sonic will incur interest payments that match the terms of certain Fixed Swaps that previously were designated and qualified as cash flow hedges. Of the Fixed Swaps (including the two \$100.0 million notional swaps which were settled in 2009), \$565.0 million of the notional amount had previously been documented as hedges against the variability of cash flows related to interest payments on certain debt obligations. At March 31, 2010, Sonic estimates that under the new 2010 Credit Facilities and other facilities with matching terms, it is probable that the expected debt balance with interest payments that match the terms of the Fixed Swaps will be \$400.0 million and it is reasonably possible that the expected debt balance with interest payments that match the terms of the Fixed Swaps will be between \$400.0 million and \$475.0 million. As a result, at March 31, 2010, a non-cash charge of approximately \$1.7 million related to \$65.0 million in notional of the Fixed Swaps and amortization of amounts in accumulated other comprehensive income relates to other terminated cash flow swaps was included in interest expense, non-cash, cash flow swaps in the accompanying Condensed Consolidated Statements of Income.

For the Fixed Swaps which qualify as cash flow hedges, the changes in the fair value of these swaps have been recorded in other comprehensive income/(loss), net of related income taxes, in the Condensed Consolidated Statements of Stockholders' Equity. The incremental interest expense (the difference between interest paid and interest received) related to the Fixed Swaps was \$6.7 million and \$5.0 million for the quarters ended March 31, 2009 and 2010, respectively, and is included in interest expense, other, net in the accompanying Condensed Consolidated Statements of Income. The estimated net expense expected to be reclassified out of other comprehensive income/(loss) into results of operations during the next twelve months is approximately \$5.3 million.

7. Stock-Based Compensation

Sonic currently has two active stock compensation plans, the Sonic Automotive, Inc. 2004 Stock Incentive Plan (the 2004 Plan) and the 2005 Formula Restricted Stock Plan for Non-Employee Directors (the 2005 Formula Plan), and two inactive stock compensation plans which only have grants outstanding, the Sonic Automotive, Inc. Formula Stock Option Plan for Independent Directors and the Sonic Automotive, Inc. 1997 Stock Option Plan (collectively, the Stock Plans). See Sonic's Annual Report on Form 10-K for the year ended December 31, 2009 for a more detailed description of the Stock Plans. A summary of the status of the stock options related to the Stock Plans is presented below:

A summary of the status of restricted stock and restricted stock unit grants related to the Stock Plans is presented below:

		Unvested Restricted Stock and Restricted Stock Units (in thousands)		Weighted Average Grant Date Fair Value

In the first quarter ended March 31, 2010, 472,305 restricted shares of Class A common stock and restricted stock units were awarded to Sonic's executive officers and certain other executives under the 2004 Plan. Awards made in the quarter ended March 31, 2010 vest one-third annually over a three year period from the grant date. The shares and units granted in conjunction with 2010 incentive compensation for executive officers are subject to forfeiture, in whole or in part, based upon specified measures of Sonic's earnings per share and customer satisfaction index performance for the 2010 fiscal year, continuation of employment and compliance with any restrictive covenants contained in any agreement between Sonic and the respective officer. These awards are generally subject to the same restrictions and rights as the awards granted in prior years to certain executive officers.

Sonic recognized compensation expense related to restricted stock and restricted stock units of \$0.7 million and \$0.6 million in the first quarter ended March 31, 2009 and 2010, respectively. Sonic recognized \$0.3 million and \$0.2 million of tax benefit related to the compensation expenses for the first quarter ended March 31, 2009 and 2010. Total compensation cost related to unvested restricted stock and restricted stock units not yet recognized at March 31, 2010 was \$4.9 million, and is expected to be recognized over a weighted average period of 2.8 years.

8. Per Share Data and Stockholders' Equity

The calculation of diluted earnings per share considers the potential dilutive effect of Sonic's contingently convertible debt issuances and stock options and shares to purchase shares of Class A common stock under the Stock Plans. The following table illustrates the dilutive effect of such items on earnings per share for the first quarter ended March 31, 2009 and 2010:

In addition to the stock options included in the table above, options to purchase 3.1 million shares and 2.4 million shares of Class A common stock were outstanding at March 31, 2009 and 2010, respectively, but were not included in the computation of diluted earnings per share because the options were not dilutive. In addition, in the event the effect of potentially dilutive shares associated with the 5.25% Convertible Notes, 4.25% Convertible Notes or 5.0% Convertible Notes were anti-dilutive, the effect of those shares have also been excluded from the computation of diluted earnings per share.

9. Contingencies

Legal and Other Proceedings:

Sonic is a defendant in the matter of Galura, et al. v. Sonic Automotive, Inc., a private civil action filed in the Circuit Court of Hillsborough County, Florida. In this action, originally filed on December 30, 2002, the plaintiffs allege that Sonic and its Florida dealerships sold an antitheft protection product in a deceptive or otherwise illegal manner, and further sought representation on behalf of any customer of any of Sonic's Florida dealerships who purchased the antitheft protection product since December 30, 1998. The plaintiffs are seeking monetary damages and injunctive relief on behalf of this class of customers. In June 2005, the court granted the plaintiffs' motion for certification of the requested class of customers, but the court has made no finding to date regarding actual liability in this lawsuit. Sonic subsequently filed a notice of appeal of the court's class certification ruling with the Florida Court of Appeals. In April 2007, the Florida Court of Appeals affirmed a portion of the trial court's class certification, and overruled a portion of the trial court's class certification. In November 2009, the Florida trial court granted Summary Judgment in Sonic's favor against Plaintiff Enrique Galura, and his claim has been dismissed. Virginia Galura's claim is still pending. Sonic currently intends to continue its vigorous appeal and defense of this lawsuit and to assert available defenses. However, an adverse resolution of this lawsuit could result in the payment of significant costs and damages, which could have a material adverse effect on Sonic's future results of operations, financial condition and cash flows.

Several private civil actions have been filed against Sonic Automotive, Inc. and several of its dealership subsidiaries that purport to represent classes of customers as potential plaintiffs and make allegations that certain products sold in the finance and insurance departments were done so in a deceptive or otherwise illegal manner. One of these private civil actions has been filed in South Carolina state court against Sonic Automotive, Inc. and 10 of Sonic's South Carolina subsidiaries. This group of plaintiffs' attorneys has filed another private civil class action lawsuit in state court in North Carolina seeking certification of a multi-state class of plaintiffs. The South Carolina state court action and the North Carolina state court

action have since been consolidated into a single proceeding in private arbitration. On November 12, 2008, claimants in the consolidated arbitration filed a Motion for Class Certification as a national class action including all of the states in which Sonic operates dealerships. Claimants are seeking monetary damages and injunctive relief on behalf of this class of customers. The parties have briefed and argued the issue of class certification and an order from the arbitrator on class certification is expected in 2010. If a class is certified against Sonic and its dealerships, there would still be a hearing to determine the merits of claimants' claims and potential liability. Sonic currently intends to continue its vigorous defense of this arbitration and to assert all available defenses. However, an adverse resolution of this arbitration could result in the payment of significant costs and damages, which could have a material adverse effect on Sonic's future results of operations, financial condition and cash flows.

Sonic is involved, and expects to continue to be involved, in numerous legal and administrative proceedings arising out of the conduct of its business, including regulatory investigations and private civil actions brought by plaintiffs purporting to represent a potential class or for which a class has been certified. Although Sonic vigorously defends itself in all legal and administrative proceedings, the outcomes of pending and future proceedings arising out of the conduct of Sonic's business, including litigation with customers, employment related lawsuits, contractual disputes, class actions, purported class actions and actions brought by governmental authorities, cannot be predicted with certainty. An unfavorable resolution of one or more of these matters could have a material adverse effect on Sonic's business, financial condition, results of operations, cash flows or prospects. Included in other accrued liabilities at December 31, 2009 and March 31, 2010 were \$9.2 million and \$8.4 million, respectively, in reserves that Sonic has provided for pending proceedings.

Guarantees and Indemnification Obligations:

In connection with franchise dispositions, certain of Sonic's dealership subsidiaries have assigned or sublet to the buyer its interests in real property leases associated with such dealerships. In general, the subsidiaries retain responsibility for the performance of certain obligations under such leases, including rent payments, and repairs to leased property upon termination of the lease, to the extent that the assignee or sub-lessee does not perform. In the event the sub-lessees do not perform under their obligations Sonic remains liable for the lease payments. The total amount relating to this risk was approximately \$106.0 million as of December 31, 2009. See Sonic's Annual Report on Form 10-K for the year ended December 31, 2009 for further discussion.

In accordance with the terms of agreements entered into for the sale of Sonic's franchises, Sonic generally agrees to indemnify the buyer from certain exposure and costs arising subsequent to the date of sale, including environmental exposure and exposure resulting from the breach of representations or warranties made in accordance with the agreement. While Sonic's exposure with respect to environmental remediation and repairs is difficult to quantify, Sonic estimates that the maximum exposure associated with these general indemnifications if the counterparties failed to perform under their contractual obligations was approximately \$13.9 million at December 31, 2009 and March 31, 2010. These indemnifications generally expire within a period of one to three years following the date of sale. The estimated fair value of these indemnifications was not material.

10. Fair Value Measurements

In determining fair value, Sonic uses various valuation approaches including market, income and/or cost approaches. Fair Value Measurements and Disclosures in the ASC establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of Sonic. Unobservable inputs are inputs that reflect Sonic's assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the reliability of inputs as follows:

Level 1 Valuations based on quoted prices in active markets for identical assets or liabilities that Sonic has the ability to access. Assets utilizing Level 1 inputs include marketable securities that are actively traded.

Level 2 Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly. Assets and liabilities utilizing Level 2 inputs include fair value and cash flow swap instruments.

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Level 3 Valuations based on inputs that are unobservable and significant to the overall fair value measurement. Asset and liability measurements utilizing Level 3 inputs include those used in estimating fair value of non-financial assets and non-financial liabilities in purchase acquisitions, those used in assessing impairment under Property, Plant and Equipment in the ASC and those used in the reporting unit valuation in the first step of the annual goodwill impairment evaluation. For instance, certain assets held for sale in the accompanying condensed consolidated balance sheets are valued based on estimated proceeds to be received in connection with the disposal of those assets.

The availability of observable inputs can vary and is affected by a wide variety of factors. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment required by Sonic in determining fair value is greatest for instruments categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement is disclosed is determined based on the lowest level input (Level 3 being the lowest level) that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant who holds the asset or owes the liability rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, Sonic's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. Sonic uses inputs that are current as of the measurement date, including during periods when the market may be abnormally high or abnormally low. Accordingly, fair value measurements can be volatile based on various factors that may or may not be within Sonic's control.

Assets or liabilities recorded at fair value in the accompanying balance sheet as of March 31, 2010 are as follows:

		Fair Value at Reporting Date Using: Significant		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

During the first quarter ended March 31, 2009, Sonic settled its \$100 million notional, pay 5.002% and \$100 million notional, pay 5.319% swaps with a payment to the counterparty of \$16.5 million. This settlement loss was deferred and will be amortized into earnings over the swaps' initial remaining term.

As of December 31, 2009 and March 31, 2010, the fair values of Sonic's financial instruments including receivables, notes receivable from finance contracts, notes payable-floor plan, trade accounts payable, payables for acquisitions, borrowings under the revolving credit facilities and certain mortgage notes approximate their carrying values due either to length of maturity or existence of variable interest rates that approximate prevailing market rates.

The fair value and carrying value of Sonic's fixed rate long-term debt was as follows:

11. Subsequent Events

On April 12, 2010, Sonic used the net proceeds obtained from the issuance of the 9.0% Notes, together with cash on hand, to redeem \$200.0 million of aggregate principal amount of the 8.625% Notes at the applicable redemption price (102.875% of principal redeemed) plus accrued but unpaid interest. Sonic recorded a loss on extinguishment of debt of approximately \$7.0 million in April 2010. See Note 6 for further discussion of the 9.0% Notes and 8.625% Notes.

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of the results of operations and financial condition should be read in conjunction with the Sonic Automotive, Inc. and Subsidiaries Unaudited Condensed Consolidated Financial Statements and the related notes thereto appearing elsewhere in this report, as well as the audited financial statements and related notes and Management's Discussion and Analysis of Financial Condition and Results of Operations appearing in our Annual Report on Form 10-K for the year ended December 31, 2009.

Overview

We are one of the largest automotive retailers in the United States. As of March 31, 2010, we operated 145 dealership franchises, representing 29 different brands of cars and light trucks, at 122 locations and 26 collision repair centers in 15 states. Our dealerships provide comprehensive services including sales of both new and used cars and light trucks, sales of replacement parts, performance of vehicle maintenance, manufacturer warranty repairs, paint and collision repair services, and arrangement of extended service contracts, financing, insurance and other aftermarket products for our customers.

Economic Conditions

Although General Motors had attempted to sell its Hummer brand, on April 7, 2010, General Motors announced it plans to discontinue its Hummer brand. As of March 31, 2010, we operated three Hummer franchises at three multi-franchise dealership locations. All three of our Hummer franchises are scheduled to be terminated prior to October 31, 2010 in accordance with the termination agreement reached with General Motors. In the year ended December 31, 2009, we only sold approximately 110 Hummer new vehicle units at retail. As a result, we do not expect the terminations of these franchises to have a material impact on our operations, financial position or cash flows.

In the first quarter ended March 31, 2010, Toyota Motor Corporation issued recalls affecting certain of its most popular models in certain model years due to design problems with accelerator pedals and anti-lock brake systems. Toyota Motor Corporation had also instructed its dealerships to stop selling vehicles affected by the accelerator pedal recall until it developed a solution to the design problem and provided the necessary parts and instructions to fix the issue. During the period of time when affected vehicles could not be sold, Toyota Motor Corporation offered its dealers floor plan assistance to help reduce dealers' cost of carrying vehicles which it could not sell due to the recall which helped to reduce interest expense, floor plan. As of March 31, 2010, we operated 11 Toyota franchises. During the first quarter ended March 31, 2010, vehicle sales at our Toyota dealership franchise locations were negatively impacted by the recall. However, we experienced a benefit to our fixed operations business as a result of work performed on vehicles affected by the recall which was paid for by the manufacturer and provided free of charge to the customer. We cannot estimate how this recall will affect consumer preferences over the long-term.

The following is a detail of our new vehicle revenues by brand for the first quarter ended March 31, 2009 and 2010:

Results of Operations

The following discussions are based on reported figures. Same store amounts do not vary significantly from reported totals as there have not been any significant acquisitions in the last 24 months.

New Vehicles

The automobile retail industry uses the Seasonally Adjusted Annual Rate (SAAR) to measure the amount of new vehicle unit sales activity within the United States market. The SAAR averages below reflect a blended average of all brands marketed or sold in the United States market. The SAAR includes brands we do not sell and markets in which we do not operate.

	First Quarter Ended March 31,		
	2009	2010	% Change
SAAR (in millions of vehicles)	9.5	11.0	15.8%

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Our reported new vehicle (including fleet) results are as follows:

(in thousands except units and per unit data)	First Quarter Ended March 31,		Better / (Worse) %	
	2009	2010	Change	Change
Reported:				
Revenue	\$704,717	\$784,242	\$79,525	11.3%
Gross profit	\$ 46,818	\$ 54,511	\$ 7,693	16.4%
Unit sales	21,753	23,234	1,481	6.8%
Revenue per Unit	\$ 32,396	\$ 33,754	\$ 1,358	4.2%
Gross profit per unit	\$ 2,152	\$ 2,346	\$ 194	9.0%
Gross profit as a % of revenue	6.6%	7.0%	40 bps	

For the first quarter ended March 31, 2010, new vehicle revenues increased from the same period in the prior year due to higher unit volume coupled with an increase in revenue per unit. Our import and domestic stores experienced increases of 11.5% and 10.6%, respectively, in new vehicle revenues for the first quarter ended March 31, 2010 as compared to the same period in the prior year.

New vehicle unit volume increased at our import stores in the first quarter ended March 31, 2010 by 8.0% when compared to the same prior year period. The increase in import new vehicle unit sales was led by our Mercedes and Lexus stores, which posted increases of 8.1% and 18.2%, respectively, during the first quarter ended March 31, 2010 when compared to the prior year period. When compared to national industry increases for the first quarter ended March 31, 2010, our Lexus stores outperformed the Lexus national industry increase while our BMW and Mercedes stores underperformed their respective brand national industry increases.

New vehicle unit volume increased at our domestic stores in the first quarter ended March 31, 2010 by 3.4%. Our GM, Cadillac, and Ford stores experienced increases of 9.2%, 19.9% and 30.3%, respectively, in the first quarter ended March 31, 2010 as compared to the same period in the prior year. During the first quarter ended March 31, 2010, our GM and Ford stores underperformed their respective national industry increases while our Cadillac stores outperformed the Cadillac national industry increase.

For the first quarter ended March 31, 2010, new vehicle revenue per unit experienced an increase of 4.2% over the same period in the prior year. This increase is due primarily to shifts in our sales mix. Our new luxury unit volume as a percentage of total new vehicle unit volume increased in the first quarter ended March 31, 2010 by 31 basis points as compared to the first quarter ended March 31, 2009. We believe the increase in new luxury unit volume is due primarily to improved economic conditions compared to the same period of the prior year.

Increases in new vehicle gross profit for the first quarter ended March 31, 2010, as compared to the same period in the prior year, were primarily due a higher mix of luxury and import vehicles which generally generate higher gross profit dollars per vehicle. The increase in import and luxury new vehicle units retailed is primarily due to the improved economic conditions as compared to the same period in the prior year.

Used Vehicles

Our reported used vehicle results are as follows:

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(in thousands except units and per unit data)	First Quarter Ended March 31,		Better / (Worse)	
	2009	2010	Change	% Change
Reported:				
Revenue	\$329,209	\$423,610	\$94,401	28.7%
Gross profit	\$ 30,958	\$ 33,489	\$ 2,531	8.2%
Unit sales	17,411	21,750	4,339	24.9%
Revenue per Unit	\$ 18,908	\$ 19,476	\$ 568	3.0%
Gross profit per unit	\$ 1,778	\$ 1,540	\$ (238)	(13.4%)
Gross profit as a % of revenue	9.4%	7.9%	(150)bps	
CPO revenue	\$186,104	\$204,676	\$18,572	10.0%
CPO unit sales	7,632	7,627	(5)	(0.1%)

Used vehicle unit volume increased by 24.9% for the first quarter ended March 31, 2010, as compared to the same period in the prior year. This increase is primarily due to the implementation of our used vehicle playbook which standardizes used vehicle inventory management and sales strategy. Our used vehicle playbook focuses on better management of trade-ins and used vehicle inventory which improves the quantity and quality of used vehicles at each of our stores, thereby increasing the number of used vehicle units that can be sold at retail versus those sold wholesale.

For the first quarter ended March 31, 2010, gross profit per unit for used vehicles declined by 13.4% over the same period of the prior year. The reduction in gross profit per unit of 13.4% was primarily driven by our effort to retail a higher volume of units. We believe the higher used vehicle gross profit dollars generated by our used vehicle department along with the benefits to our fixed operations business (reconditioning used vehicles) and effects of incremental F&I activity more than offset the effects of lower gross profit per used vehicle unit.

Wholesale Vehicles

Our reported wholesale results are as follows:

(in thousands except units and per unit data)	First Quarter Ended March 31,		Better / (Worse)	
	2009	2010	Change	% Change
Reported:				
Revenue	\$37,796	\$31,384	\$(6,412)	(17.0%)
Gross profit	\$ (94)	\$ (693)	\$ (599)	(637.2%)
Unit sales	6,532	5,200	(1,332)	(20.4%)
Revenue per Unit	\$ 5,786	\$ 6,035	\$ 249	4.3%
Gross profit per unit	\$ (14)	\$ (133)	\$ (119)	(850.0%)
Gross profit as a % of revenue	(0.2%)	(2.2%)	(200) bps	

Lower wholesale vehicle revenues during the first quarter ended March 31, 2010, as compared to the same prior year period, resulted from a decrease in wholesale unit volume of 20.4%. The decrease in wholesale unit volume was partially offset by an increase in wholesale unit revenue of 4.3% as compared to the same prior year period. Both the decline in wholesale unit volume and the increase in wholesale unit revenue can be primarily attributed to the implementation of our used vehicle playbook. See previous heading, "Used Vehicles".

During the first quarter ended March 31, 2010, wholesale vehicle gross profit per unit loss increased significantly as compared to the same period in the prior year. This is primarily due to the increased focus of retailing used vehicles that were previously disposed through our wholesale channels.

Parts, Service and Collision Repair (Fixed Operations)

Our reported Fixed Operations results are as follows:

Service	70.6%	70.8%	20 bps	
Collision Repair	56.4%	55.6%	(80) bps	
Total	49.6%	50.3%	70 bps	

Both our domestic and import brands experienced increases in overall fixed operations revenue, as compared to the same period in 2009, increasing 5.5% and 2.3%, respectively, for the first quarter ended March 31, 2010. Cadillac experienced a significant increase in overall fixed operations revenue, increasing 11.8% for the first quarter ended March 31, 2010 when compared to the same period in the prior year.

Customer pay revenue increased 2.7% for the first quarter ended March 31, 2010 when compared to the same period in 2009. Our Cadillac dealerships had the most significant increase for customer pay, up 15.0% for the first quarter ended March 31, 2010, as compared to the same period in the prior year, partially due to the closure of competing Cadillac stores. Warranty revenue declined 10.8% for the first quarter ended March 31, 2010 when compared to the same period in the prior year. Our Mercedes dealerships continued to experience significant decreases in warranty revenue, declining 24.7% for the first quarter ended March 31 2010, as compared to the same prior year period. However, our Toyota stores experienced a significant increase in warranty revenue, increasing 98.8% for the first quarter ended March 31, 2010, over the same prior year period, due to recalls that began in 2010. The mix of customer pay and warranty revenue can be affected by consumer spending habits and changes in manufacturer warranty programs.

Gross margin rates for service for the first quarter ended March 31, 2010, increased over the comparative prior year period, primarily due to increases in warranty and reconditioning gross margin rates. Warranty gross margin rates increased 260 bps, as compared to the same period in the prior year, primarily due to the Toyota recalls that began in 2010. The increase in reconditioning gross margin rates of approximately 270 bps was driven by a change in the mix of conditioning work performed for the first quarter ended March 31, 2010, as compared to the same period in the prior year.

Finance, Insurance and Other (F&I)

Our reported F&I results are as follows:

(in thousands except per unit data)	First Quarter Ended March 31,		Better / (Worse) %	
	2009	2010	Change	Change
Reported:				
Revenue	\$ 35,135	\$ 40,959	\$ 5,824	16.6%
Gross profit per retail unit (excluding fleet)	\$ 952	\$ 947	\$ (5)	(0.5%)

F&I revenue increased in the first quarter ended March 31, 2010 primarily due to increases in new retail and used unit volume of 10.2% and 24.9%, respectively, as compared to the same prior year period. These increases in unit volume resulted in increases in new and used finance contract gross revenue of 23.8% and 49.1%, respectively, for the first quarter ended March 31, 2010, as

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

compared to the same period in 2009. Penetration rates continued to deteriorate and F&I revenue per unit decreased by 0.5%, for the first quarter ended March 31, 2010, compared to the same period in the prior year.

Selling, General and Administrative Expenses (SG&A)

Selling, general and administrative (SG&A) expenses are comprised of four major groups: compensation expense, advertising expense, rent and rent related expense, and other expense. Compensation expense primarily relates to dealership personnel who are paid a commission or a modest salary plus commission (which typically vary depending on gross profits realized) and support personnel who are paid a fixed salary. Due to the salary component for certain dealership and corporate personnel, gross profits and compensation expense are not 100% correlated. Advertising expense and other expenses vary based on the level of actual or anticipated business activity and number of dealerships owned. Rent and rent related expense typically varies with the number of dealerships owned, investments made for facility improvements and interest rates. Although not completely correlated, we believe the best way to measure SG&A expenses is as a percentage of gross profit.

Our SG&A reported results are as follows:

	First Quarter Ended March		Better / (Worse)	
	31,		%	
(in thousands)	2009	2010	Change	Change
Reported Expense:				
Compensation	\$ 116,080	\$ 132,542	\$ (16,462)	(14.2%)
Advertising	11,052	11,437	(385)	(3.5%)
Rent and Rent Related	35,307	35,833	(526)	(1.5%)
Other	43,481	44,498	(1,017)	(2.3%)
Total	\$ 205,920	\$ 224,310	\$ (18,390)	(8.9%)
SG&A as a % of gross				
Compensation	46.9%	49.3%	(240) bps	
Advertising	4.5%	4.3%	20 bps	
Rent and Rent Related	14.3%	13.3%	100 bps	
Other	17.5%	16.6%	90 bps	
Total	83.2%	83.5%	(30) bps	

The increase in overall SG&A expense can largely be attributed to a greater level of business activity (revenues and gross profit) as well as higher compensation costs related to ecommerce and centralized used vehicle buying initiatives. SG&A expenses as a percentage of gross profit increased slightly, primarily due to increases in compensation expense identified above.

Total advertising costs were relatively flat versus the same prior year period, however, improved as a percentage of gross profit due to higher levels of gross profit. We continue to shift our advertising strategy away from traditional media and more towards internet and other more cost effective outlets.

Rent and rent related expenses decreased as a percentage of gross profit primarily due to improved gross profit levels.

Other SG&A expenses increased from the prior year period primarily due to a mark-to-market gain on derivative liabilities of \$2.4 million recorded in SG&A in the first quarter of 2009. Adjusted for this mark-to-market gain during the first quarter of 2009, other SG&A expenses would have improved by approximately \$1.4 million in the first quarter ended March 31, 2010 compared to the same prior year period, primarily due to reductions in service loaner

expense.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Impairment Charges

Impairment charges were immaterial in the first quarter ended March 31, 2010 and the same period last year. Impairment charges taken are based on our belief that the value of certain fixed assets would not be recovered through operations or through the ultimate sale of the assets.

Depreciation and Amortization

Reported depreciation and amortization expense increased \$0.9 million, or 11.5%, in the first quarter ended March 31, 2010, as compared to the same period last year. The increase of \$0.9 million for the first quarter ended March 31, 2010 was primarily related to stores that were classified as continuing operations for the current period but were previously held for sale in discontinued operations during the same period of the prior year. While being held for sale in the prior year period, the fixed assets for these stores were not depreciated in accordance with Property, Plant and Equipment in the ASC.

Interest Expense, Floor Plan

Floor plan interest expense for new vehicles decreased approximately \$0.5 million, or 9.3%, in the first quarter ended March 31, 2010 compared to the first quarter ended March 31, 2009. The weighted average new vehicle floor plan interest rate incurred by continuing dealerships was 2.7% for the first quarter ended March 31, 2010 compared to 2.2% for the first quarter ended March 31, 2009 which increased interest expense by approximately \$0.7 million for the first quarter ended March 31, 2010. This increase in floor plan interest expense during the first quarter ended March 31, 2010 was offset by a decrease in the average floor plan balance for new vehicles of approximately \$222.6 million resulting in a decrease in interest expense of approximately \$1.2 million compared to the first quarter ended March 31, 2009.

Floor plan interest expense for used vehicles increased approximately \$0.2 million, or 78.1%, in the first quarter ended March 31, 2010 compared to the first quarter ended March 31, 2009. The weighted average used vehicle floor plan interest rate incurred by continuing dealerships was 2.1% for the first quarter ended March 31, 2010, compared to 1.7% for the first quarter ended March 31, 2009, which increased interest expense by approximately \$0.1 million. The average used vehicle floor plan notes payable balance from continuing dealerships increased by approximately \$25.6 million in the first quarter ended March 31, 2010 compared to the first quarter ended March 31, 2009 resulting in an increase in used vehicle floor plan interest expense of approximately \$0.1 million in the first quarter ended March 31, 2010 compared to the first quarter ended March 31, 2009.

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

For approximately half of the month of March 2010, we carried and incurred interest expense for both the 9.0% Notes issued March 12, 2010 and the \$200.0 million in aggregate principal of our 8.625% Notes which we redeemed on April 12, 2010 using the net proceeds from the 9.0% Notes issuance and cash on hand. As such, this double carry effect increased our interest expense by approximately \$0.7 million which is included in the debt balances caption in the table above.

Interest Expense, Non-Cash, Convertible Debt

Non-cash convertible debt interest expense is comprised of the amortization of the debt discount and deferred loan costs associated with our 5.25% Convertible Notes, 5.0% Convertible Notes and 4.25% Convertible Notes. The initial debt discount was determined based on a valuation of the debt component of these notes and is being amortized monthly to interest expense over the life of the notes. See our Annual Report on Form 10-K for the year ended December 31, 2009 for a discussion of the adoption of Debt with Conversion and Other Options in the ASC.

For the first quarter ended March 31, 2010, non-cash convertible debt interest expense decreased by approximately \$0.9 million, or 36.0%, as compared to the first quarter ended March 31, 2009. This decrease was a result of a decrease of approximately \$2.4 million in non-cash amortization of debt discount related to our 5.25% Convertible Notes and 4.25% Convertible Notes partially offset by an increase of approximately \$1.2 million in non-cash amortization of debt discount related to our 5.0% Convertible Notes. Deferred loan cost amortization related to the 4.25% Convertible Notes and 5.0% Convertible Notes was \$0.3 million in the first quarter ended March 31, 2010.

Interest Expense, Non-Cash, Cash Flow Swaps

We have entered into interest rate swap agreements (the Fixed Swaps) to effectively convert a portion of our LIBOR-based variable rate debt to a fixed rate, in order to reduce our exposure to market risks from fluctuations in interest rates. As a result of the refinancing of our 2006 Credit Facility and the new terms of the 2010 Credit Facilities, it is no longer probable that we will incur interest payments that match the terms of certain Fixed Swaps that previously were designated and qualified as cash flow hedges. Of the Fixed Swaps (including the two \$100.0 million notional swaps which were settled in 2009), \$565.0 million of the notional amount had previously been documented as hedges against the variability of cash flows related to interest payments on certain debt obligations. At March 31, 2010, we estimate that under the new 2010 Credit Facilities and other facilities with matching terms, it is probable that the expected debt balance with interest payments that match the terms of the Fixed Swaps will be \$400.0 million and it is reasonably possible that the expected debt balance with interest payments that match the terms of the Fixed Swaps will be between \$400.0 million and \$475.0 million. As a result, at March 31, 2010, a non-cash charge of approximately \$1.7 million related to \$65.0 million in notional of the Fixed Swaps and amortization of amounts in accumulated other comprehensive income related to other terminated cash flow swaps was included in interest expense, non-cash, cash flow swaps in the accompanying Consolidated Statements of Income. Changes in the fair value of \$65.0 million of notional amount of certain cash flow swaps will be recognized through earnings. See Note 6 Derivative Instruments and Hedging Activities in the accompanying notes to the consolidated financial statements for further discussion.

For the Fixed Swaps which qualify as cash flow hedges, the changes in the fair value of these swaps have been recorded in other comprehensive income/(loss), net of related income taxes in the Condensed Consolidated Statements of Stockholders' Equity. The incremental interest expense (the difference between interest paid and interest received) related to the Fixed Swaps was \$5.0 million in the first quarter ended March 31, 2010 and \$6.7 million in the first quarter ended March 31, 2009, and is included in interest expense, other, net in the accompanying Condensed Consolidated Statements of Income. The estimated net expense expected to be reclassified out of other comprehensive income/(loss) into results of operations during the next twelve months is approximately \$5.3 million.

Income Taxes

The overall effective tax rate from continuing operations was 43% for the first quarter ended March 31, 2010. The overall effective tax rate from continuing operations was 45% for the first quarter ended March 31, 2009. The effective rate for the first quarter ended March 31, 2010 was lower than the prior year three-month period due to the

shift in the distribution of taxable income between states in which we operate and lower expense effects related to tax positions as a result of Accounting for Uncertainty in Income Taxes in the ASC. At the end of 2009, income tax valuation allowances totaling \$46.0 million were recorded related to certain deferred tax assets based on our judgment that it was more likely than not that we would not be able to realize recorded balances. This judgment was based on our operating loss generated in 2008 as a result of a goodwill impairment charge, results of operations in 2009 and the overall downturn in the economy of the United States and, in particular, the automotive retail industry. As of March 31, 2010, in our judgment, there is still significant uncertainty related to our ability to realize the recorded deferred tax assets. However, in the event circumstances change during the remainder of 2010, a portion or all of the valuation allowances

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

currently recorded, with the exception of those related to state net operating loss carryforwards, may not be necessary. Accordingly, in the event we do reduce the level of valuation allowances recorded, our effective tax rate could be materially affected. Absent any activity related to income tax valuation allowances, we expect the effective tax rate for continuing operations in future periods to fall within a range of 40% to 45%.

Discontinued Operations

The pre-tax losses from operations and the sale of discontinued franchises were as follows:

	(dollars in thousands)	
	First Quarter Ended March	
	31,	
	2009	2010
Loss from operations	\$ (1,284)	\$ (1,518)
Gain (loss) on disposal of franchises	(80)	318
Lease exit charges	(782)	(1,668)
Property impairment charges	(130)	
Goodwill impairment charges	(1,399)	
Pre-tax loss	\$ (3,675)	\$ (2,868)
Total Revenues	\$ 72,294	\$ 9,372

Lease exit charges recorded relate to the revision of estimates on previously established lease exit accruals. The lease exit accruals are calculated by either discounting the remaining lease payments, net of estimated sublease proceeds or estimating the amount necessary to satisfy the lease commitment to the landlord. Property impairment charges were recorded based on the estimated fair value of the property and equipment to be sold in connection with the disposal of associated franchises and recorded values. Goodwill impairment charges were recorded based on the determination that a portion of the goodwill allocated to franchises held for sale was not recoverable based on estimated proceeds.

Liquidity and Capital Resources

We require cash to fund debt service and working capital requirements. We rely on cash flows from operations, borrowings under our revolving credit and floor plan borrowing arrangements, real estate mortgage financing, asset sales and offerings of debt and equity securities to meet these requirements. Our liquidity could be negatively affected if we fail to comply with the financial covenants in our existing debt or lease arrangements.

Because the majority of our consolidated assets are held by our dealership subsidiaries, the majority of our cash flows from operations are generated by these subsidiaries and are dependent to a substantial degree on the results of operations of these subsidiaries. For the first quarter March 31, 2009, the average SAAR of new vehicle sales was 9.5 million units compared to 11.0 million units for the first quarter ended March 31, 2010. At the current level of SAAR, we believe we will continue to be able to generate positive adjusted cash flows from operations (defined as cash flows from operating activities, net of net borrowings on notes payable floor plan non-trade, which is included in cash flows from financing activities) in the foreseeable future.

Floor Plan Facilities

The weighted average interest rate for all of our new vehicle floor plan facilities (both continuing and discontinued operations) was 2.7% for the first quarter ended March 31, 2010 compared to 2.2% for the first quarter ended March 31, 2009. Interest payments under each of our floor plan facilities are due monthly, and we are generally not required to make principal repayments prior to the sale of the particular vehicles. We were in compliance with all restrictive covenants under our floor plan facilities as of March 31, 2010.

The weighted average interest rate for our used vehicle floor plan facility (both continuing and discontinued operations) was 2.1% for the first quarter ended March 31, 2010 compared to 1.8% for the first quarter ended March 31, 2009.

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

We expect interest expense related to floor plan financing to increase in the future as we expect that manufacturer captive finance entities may increase interest rates charged related to new vehicle inventory floor plan facilities.

Long-Term Debt and Credit Facilities

See Note 6, Long-Term Debt in the notes to the accompanying unaudited financial statements for a discussion of the replacement of the 2006 Credit Facility with the new 2010 Credit Facilities, the issuance of \$210.0 million in aggregate principal amount of 9.0% Notes and the redemption of \$200.0 million in aggregate principal amount of our 8.625% Notes. Also see Note 6 in the notes to the accompanying unaudited financial statements for discussions of compliance with debt covenants.

Capital Expenditures

Our capital expenditures generally include purchases of land, the construction of new dealerships and collision repair centers, building improvements and equipment purchased for use in our dealerships. Capital expenditures in the first quarter ended March 31, 2010 were approximately \$7.8 million. As of March 31, 2010, contractual commitments to contractors for facility construction projects totaled approximately \$35.5 million.

Stock Repurchase Program

As of March 31, 2010, pursuant to previous authorizations from our Board of Directors, we had approximately \$43.8 million available to repurchase shares of our Class A common stock or redeem securities convertible into Class A common stock. Due to current economic conditions and liquidity concerns, we have curtailed our stock repurchase activities and do not anticipate significant activity during 2010. Under our 2010 Credit Facilities, share repurchases are permitted to the extent that no event of default exists and we are in compliance with the financial covenants contained therein. Stock repurchases executed in the first quarter ended March 31, 2010 relate to tax withholdings related to vesting of restricted stock and restricted stock units and withholding of shares to satisfy the exercise price of stock options.

Dividends

During the first quarter ended March 31, 2009, our recurring quarterly dividend program was suspended. Under our 2010 Credit Facilities, dividends are permitted to the extent that no event of default exists and we are in compliance with the financial covenants contained therein. See Note 6, Long-Term Debt in the notes to the accompanying unaudited financial statements for a discussion of limitations on our ability to pay dividends. The payment of any future dividend is subject to the business judgment of our Board of Directors, taking into consideration our historic and projected results of operations, financial condition, cash flows, capital requirements, covenant compliance, share repurchases, current economic environment and other factors considered relevant. These factors are considered each quarter and will be scrutinized as our Board of Directors determines our dividend policy throughout 2010. There is no guarantee that dividends will be paid at any time in the future.

Cash Flows

For the first quarter ended March 31, 2010, net cash provided by operating activities was approximately \$174.3 million. This provision of cash was comprised primarily of cash inflows related to reductions in accounts receivable and an increase in notes payable floor plan trade, partially offset by an increase in inventories. Net cash used in investing activities during the first quarter ended March 31, 2010 was approximately \$7.3 million. This use of cash was primarily comprised of purchases of property and equipment, partially offset by proceeds received from sales of franchises. Net cash provided by financing activities for the first quarter ended March 31, 2010 was approximately \$17.0 million, primarily comprised of the proceeds received from long-term debt provided by the issuance of our 9.0% Notes, partially offset by net repayments of our notes payable floor plan non-trade and our other debt obligations.

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

We arrange our inventory floor plan financing through both manufacturer captive finance companies and a syndicate consisting of banks and manufacturer captive finance companies. Generally, our floor plan financed with manufacturer captives is recorded as trade floor plan liabilities (with the resulting change being reflected as an operating cash flow). Our dealerships that obtain floor plan financing from a syndicate of captive finance companies and commercial banks record their obligation as non-trade floor plan liabilities (with the resulting change being reflected as a financing cash flow).

Due to the presentation differences for changes in trade floor plan and non-trade floor plan in the statement of cash flows, decisions made by us to move dealership floor plan financing arrangements from one finance source to another may cause significant variations in operating and financing cash flows without affecting our overall liquidity, working capital, or cash flow. Accordingly, if all changes in floor plan notes payable were classified as an operating activity, the result would have been net cash provided by operating activities of \$6.7 million for the first quarter ended March 31, 2009 and net cash used in operating activities of \$16.6 million for the first quarter ended March 31, 2010. The shift between trade floor plan and non-trade floor plan during the first quarter ended March 31, 2010 was primarily due to the realignment in floor plan providers under the new 2010 Credit Facilities.

Guarantees and Indemnification Obligations

In connection with the operation and disposition of dealership franchises, we have entered into various guarantees and indemnification obligations. See Note 9 in the notes to the accompanying unaudited financial statements. See also Management's Discussion and Analysis of Financial Condition and Results of Operations and footnote 12 to the Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2009.

Future Liquidity Outlook

See Notes 1 and 6 of the notes to the accompanying unaudited financial statements for a discussion of the issuance of 9.0% Notes and our replacement of the 2006 Credit Facility with the new 2010 Credit Facilities.

We believe our best source of liquidity for operations and debt service remains cash flows generated from operations combined with our availability of borrowings under our floor plan facilities (or any replacements thereof), our 2010 Credit Facilities, selected dealership and other asset sales and our ability to raise funds in the capital markets. Because the majority of our consolidated assets are held by our dealership subsidiaries, the majority of our cash flows from operations are generated by these subsidiaries. As a result, our cash flows and ability to service debt depends to a substantial degree on the results of operations of these subsidiaries and their ability to provide us with cash. Uncertainties in the economic environment have negatively affected our overall liquidity in 2009 and we expect the conditions that existed during 2009 to improve in 2010.

The table below represents our contractual obligations as of December 31, 2009, after taking into consideration the issuance and of debt obligations in the first quarter ended March 31, 2010:

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Off-Balance Sheet Arrangements

See Management's Discussion and Analysis of Financial Condition and Results of Operations - Off-Balance Sheet Arrangements in our Annual Report on Form 10-K for the year ended December 31, 2009 for a description of our off-balance sheet arrangements.

Seasonality

Our business is subject to seasonal variations in revenues. In our experience, demand for automobiles is generally lower during the first and fourth quarters of each year. We therefore receive a disproportionate amount of revenues generally in the second and third quarters, and expect our revenues and operating results to be generally lower in the first and fourth quarters. Consequently, if conditions surface during the second and third quarters that impair vehicle sales, such as higher fuel costs, depressed economic conditions or similar adverse conditions, our revenues for the year could suffer a disproportionate adverse effect.

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES

Item 3: Quantitative and Qualitative Disclosures About Market Risk.

Interest Rate Risk

Our variable rate notes payable floor plan, 2010 Credit Facilities borrowings and other variable rate notes expose us to risks caused by fluctuations in the underlying interest rates. The total outstanding balance of such instruments was approximately \$413.5 million at March 31, 2010. A change of 100 basis points in the underlying interest rate would have caused a change in interest expense of approximately \$1.0 million in the first quarter ended March 31, 2010, all of which would have resulted from notes payable floor plan.

In addition to our variable rate debt, as of March 31, 2010, approximately 20% of our dealership lease facilities have monthly lease payments that fluctuate based on LIBOR interest rates. Many of our lease agreements have interest rate floors whereby our lease expense would not fluctuate significantly in periods when LIBOR is relatively low. Consequently, a change of 100 basis points in LIBOR would not cause a significant change in interest expense in the first quarter ended March 31, 2010.

We also have the Fixed Swaps to effectively convert a portion of our LIBOR based variable rate debt to a fixed rate. Under the terms of the Fixed Swaps interest rates reset monthly. The fair value of these swap positions at March 31, 2010 was a liability of \$33.3 million included in Other Long-Term Liabilities in the accompanying Consolidated Balance Sheets. See the previous discussion of Interest Expense, Non-Cash, Cash Flow Swaps in Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations. We will receive and pay interest based on the following:

Notional Amount (in millions)	Pay Rate	Receive Rate (1)	Maturing Date
\$ 200.0	4.935%	one-month LIBOR	May 1, 2012
\$ 100.0	5.265%	one-month LIBOR	June 1, 2012
\$ 3.8	7.100%	one-month LIBOR	July 10, 2017
\$ 25.0 (2)	5.160%	one-month LIBOR	September 1, 2012
\$ 15.0 (2)	4.965%	one-month LIBOR	September 1, 2012
\$ 25.0 (2)	4.885%	one-month LIBOR	October 1, 2012
\$ 11.8	4.655%	one-month LIBOR	December 10, 2017
\$ 8.9	6.860%	one-month LIBOR	August 1, 2017
\$ 7.2	4.330%	one-month LIBOR	July 1, 2013

(1) One-month LIBOR was 0.249% at March 31, 2010.

(2) After December 31, 2009 changes in fair value are recorded through earnings.

Foreign Currency Risk

We purchase certain of our new vehicle and parts inventories from foreign manufacturers. Although we purchase our inventories in U.S. dollars, our business is subject to foreign exchange rate risk, which may influence automobile manufacturers' ability to provide their products at competitive prices in the United States. To the extent this volatility

negatively impacts consumer demand through higher retail prices for our products, it could adversely affect our future operations results.

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES

Item 4: Controls and Procedures.

Our management, under the supervision and with the participation of our principal executive officer and principal financial officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, our principal executive officer and principal financial officer have concluded that the design and operation of our disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report on Form 10-Q. During our last fiscal quarter, there were no changes in our internal control over financial reporting that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
PART II OTHER INFORMATION

Item 1: Legal Proceedings.

We are a defendant in the matter of Galura, et al. v. Sonic Automotive, Inc., a private civil action filed in the Circuit Court of Hillsborough County, Florida. In this action, originally filed on December 30, 2002, the plaintiffs allege that we and our Florida dealerships sold an antitheft protection product in a deceptive or otherwise illegal manner, and further sought representation on behalf of any customer of any of our Florida dealerships who purchased the antitheft protection product since December 30, 1998. The plaintiffs are seeking monetary damages and injunctive relief on behalf of this class of customers. In June 2005, the court granted the plaintiffs' motion for certification of the requested class of customers, but the court has made no finding to date regarding actual liability in this lawsuit. We subsequently filed a notice of appeal of the court's class certification ruling with the Florida Court of Appeals. In April 2007, the Florida Court of Appeals affirmed a portion of the trial court's class certification, and overruled a portion of the trial court's class certification. In November 2009, the Florida trial court granted Summary Judgment in our favor against Plaintiff Enrique Galura, and his claim has been dismissed. Virginia Galura's claim is still pending. We currently intend to continue our vigorous appeal and defense of this lawsuit and to assert available defenses. However, an adverse resolution of this lawsuit could result in the payment of significant costs and damages, which could have a material adverse effect on our future results of operations, financial condition and cash flows. Currently, we are unable to estimate a range of potential loss related to this matter.

Several private civil actions have been filed against Sonic Automotive, Inc. and several of our dealership subsidiaries that purport to represent classes of customers as potential plaintiffs and make allegations that certain products sold in the finance and insurance departments were done so in a deceptive or otherwise illegal manner. One of these private civil actions has been filed in South Carolina state court against Sonic Automotive, Inc. and 10 of our South Carolina subsidiaries. This group of plaintiffs' attorneys has filed another private civil class action lawsuit in state court in North Carolina seeking certification of a multi-state class of plaintiffs. The South Carolina state court action and the North Carolina state court action have since been consolidated into a single proceeding in private arbitration. On November 12, 2008, claimants in the consolidated arbitration filed a Motion for Class Certification as a national class action including all of the states in which we operate dealerships. Claimants are seeking monetary damages and injunctive relief on behalf of this class of customers. The parties have briefed and argued the issue of class certification and an order from the arbitrator on class certification is expected in 2010. If a class is certified against us, and our dealerships, there would still be a hearing to determine the merits of claimants' claims and potential liability. We currently intend to continue our vigorous defense of this arbitration and to assert all available defenses. However, an adverse resolution of this arbitration could result in the payment of significant costs and damages, which could have a material adverse effect on our future results of operations, financial condition and cash flows. Currently, we are unable to estimate a range of potential loss related to this matter.

We are involved, and expect to continue to be involved, in numerous legal and administrative proceedings arising out of the conduct of our business, including regulatory investigations and private civil actions brought by plaintiffs purporting to represent a potential class or for which a class has been certified. Although we vigorously defend ourselves in all legal and administrative proceedings, the outcomes of pending and future proceedings arising out of the conduct of our business, including litigation with customers, employment related lawsuits, contractual disputes, class actions, purported class actions and actions brought by governmental authorities, cannot be predicted with certainty. An unfavorable resolution of one or more of these matters could have a material adverse effect on our business, financial condition, results of operations, cash flows or prospects.

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
RISK FACTORS

Item 1A: Risk Factors

In addition to the information below and other information set forth in this Form 10-Q, you should carefully consider the risk factors discussed in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2009, which could materially affect our business, financial condition or future results.

Our significant indebtedness could materially adversely affect our financial health, limit our ability to finance future acquisitions and capital expenditures and prevent us from fulfilling our financial obligations.

As of March 31, 2010, our total outstanding indebtedness was approximately \$1.6 billion, including the following: \$771.0 million under the secured new and used inventory floor plan facilities that is classified as current, including \$4.1 million classified as liabilities associated with assets held for sale;

\$208.5 million in 9.0% Senior Subordinated Notes due 2018 (the 9.0% Notes), representing \$210.0 million in aggregate principal amount outstanding less unamortized discount of approximately \$1.5 million;

\$143.9 million in 5.0% Convertible Senior Notes due 2029 which are redeemable by us and putable by the holders after October 1, 2014 (the 5.0% Convertible Notes), representing \$172.5 million in aggregate principal amount outstanding less unamortized discount of approximately \$28.6 million;

\$16.6 million in 4.25% Convertible Senior Subordinated Notes due 2015 (the 4.25% Convertible Notes), representing \$17.0 million in aggregate principal amount outstanding less unamortized discount of approximately \$0.4 million, all of which is classified as current;

\$273.5 million in 8.625% Senior Subordinated Notes due 2013 (the 8.625% Notes), representing \$275.0 million in aggregate principal amount outstanding less unamortized net discount of approximately \$1.5 million, of which \$200.0 million of principal amount and \$1.1 million of discount has been classified as current (\$200.0 million in aggregate principal was repaid on April 12, 2010);

\$117.2 million of mortgage notes, representing \$117.0 million in aggregate principal amount plus unamortized premium of approximately \$0.2 million, due from June 2013 to December 2029, with a weighted average interest rate of 5.1%; and

\$25.8 million of other secured debt, representing \$23.5 million in aggregate principal amount plus unamortized premium of approximately \$2.3 million.

We refer to the \$150.0 million of availability under a syndicated revolving credit facility (the 2010 Revolving Credit Facility), up to \$321.0 million in borrowing availability for new vehicle inventory floor plan financing and up to \$50.0 million in borrowing availability for used vehicle inventory floor plan financing (the 2010 Floor Plan Facilities). We refer to the 2010 Revolving Credit Facility and 2010 Floor Plan Facilities collectively as our 2010 Credit Facilities . As of March 31, 2010, we had \$75.8 million available for additional borrowings under the 2010 Revolving Credit Facility based on the borrowing base calculation, which is affected by numerous factors including eligible asset balances, and the market value of certain additional collateral. We are able to borrow under our 2010 Revolving Credit Facility only if, at the time of the borrowing, we have met all representations and warranties and are in compliance with all financial and other covenants contained therein. We also have capacity to finance new and used vehicle inventory purchases under bilateral floor plan agreements with various manufacturer-affiliated finance companies and other lending institutions (Silo Floor Plan Facilities) as well as our 2010 Floor Plan Facilities. In addition, the indentures relating to our 8.625% Notes, 9.0% Notes, 5.0% Convertible Notes, 4.25% Convertible Notes and our other debt instruments allow us to incur additional indebtedness, including secured indebtedness, as long as we are in compliance with the applicable terms thereunder.

In addition, the majority of our dealership properties are leased under long-term operating lease arrangements that generally have initial terms of fifteen to twenty years with one or two ten-year renewal options. These operating leases require compliance with financial and operating covenants similar to those under our 2010 Credit Facilities, and monthly payments of rent that may fluctuate based on interest rates and local consumer price indices. The total future minimum lease payments related to these operating leases and certain equipment leases are significant and are disclosed in the notes to our financial statements under the heading "Commitments and Contingencies" in our Annual Report on Form 10-K for the year ended December 31, 2009.

As of March 31, 2010, we had approximately \$988.0 million of debt payable in 2010. This amount included \$771.0 million outstanding related to our syndicated credit facility providing revolving credit and new and used floorplan financing by commercial banks and commercial finance entities (the "2010 Credit Facilities"), \$17.0 million principal outstanding related to our 4.25% Convertible Notes, and \$200.0 million in aggregate principal amount of our 8.625% Notes

Forward Looking Statements

This Quarterly Report on Form 10-Q contains numerous forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements address our future objectives, plans and goals, as well as our intent, beliefs and current expectations regarding future operating performance, and can generally be identified by words such as may, will, should, believe, expect, anticipate, intend, plan, for similar words or phrases. Specific events addressed by these forward-looking statements include, but are not limited to:

future acquisitions or dispositions;

industry trends;

future liquidity trends or needs;

general economic trends, including employment rates and consumer confidence levels;

vehicle sales rates and same store sales growth;

future covenant compliance;

our financing plans and our ability to repay or refinance existing debt when due; and

our business and growth strategies.

These forward-looking statements are based on our current estimates and assumptions and involve various risks and uncertainties. As a result, you are cautioned that these forward-looking statements are not guarantees of future performance, and that actual results could differ materially from those projected in these forward-looking statements. Factors which may cause actual results to differ materially from our projections include those risks described in Item 1 of our Annual Report on Form 10-K for the year ended December 31, 2009 and Item 1A of this Form 10-Q and elsewhere in this report, as well as:

the number of new and used cars sold in the United States generally, and as compared to our expectations and the expectations of the market;

our ability to generate sufficient cash flows or obtain additional financing to refinance existing debt and to fund acquisitions, capital expenditures, our share repurchase program, dividends on our Common Stock and general operating activities;

the reputation and financial condition of vehicle manufacturers whose brands we represent, the terms of any bailout of any such manufacturer by the U.S. government or other government and the success or failure of such a bailout, the financial incentives vehicle manufacturers offer and their ability to design, manufacture, deliver and market their vehicles successfully;

our relationships with manufacturers, which may affect our ability to complete additional acquisitions;

changes in laws and regulations governing the operation of automobile franchises, accounting standards, taxation requirements, and environmental laws;

adverse resolutions of one or more significant legal proceedings against us or our dealerships;

general economic conditions in the markets in which we operate, including fluctuations in interest rates, employment levels, the level of consumer spending and consumer credit availability;

the terms of any refinancing of our existing indebtedness;

high competition in the automotive retailing industry, which not only creates pricing pressures on the products and services we offer, but on businesses we seek to acquire;

the timing of and our ability to generate liquidity through asset dispositions, as well as the timing of our ability to successfully integrate recent and potential future acquisitions; and

the rate and timing of overall economic recovery or additional decline.
