SPDR® Gold Shares Exceeds \$50 Billion in Assets

Boston, June 29, 2010 State Street Global Advisors, the investment management business of State Street Corporation (NYSE: STT) and World Gold Trust Services, LLC, a wholly-owned subsidiary of the World Gold Council (WGC), today announced that assets in the SPDR® Gold Trust (NYSE Arca: GLD) have surpassed US \$50 billion.

With assets having increased by approximately 32 percent year-to-date (as of Friday, June 25, 2010) SPDR Gold Shares has radically transformed the way in which a wide range of investors access the gold market, said James Ross, senior managing director at State Street Global Advisors. GLD is increasingly being used as part of a long-term diversification investment strategy within investors' portfolios in a variety of market cycles currently playing out worldwide.

Jason Toussaint, managing director, Investments, World Gold Trust Services, LLC commented: Strategic asset allocation will continue to play a central role in investors' portfolio performance moving forward, and portfolios that contain even a small allocation in gold have the potential to better cope with varying market scenarios. This milestone for GLD underscores that investors have embraced gold as a viable core holding over the long-term.

SPDR Gold Shares (GLD) was launched in November 2004 by World Gold Trust Services and State Street to satisfy the growing need among investors for an exchange traded fund backed by physical gold. Recognizing that gold is a long-term investment which may stabilize wealth by mitigating the risk of falls in other asset classes, investors in GLD have made it one of the fastest growing ETFs globally. As of June 25, 2010, assets under management in the trust totaled more than \$53 billion, making it the second largest ETF by assets in the world ².

GLD is also cross-listed on the Bolsa Mexicana de Valores, the Singapore Exchange the Tokyo Stock Exchange and the Stock Exchange of Hong Kong.

State Street Global Advisors is one of the largest ETF providers globally with assets under management for SPDR ETFs totaling more than \$204 billion as of March 31, 2010.³

Shares (the Shares) of the SPDR® Gold Trust (the Trust) trade like stocks, are subject to investment risk and will fluctuate in market value. The value of the Shares relates directly to the value of the gold held by the Trust (less Trust expenses) and fluctuations in the price of gold could materially adversely affect an investment in the Shares. Investors should be aware that there is no assurance that gold will maintain its long-term value in terms of purchasing power in the future. The Trust does not generate any income and as the Trust regularly sells gold to pay for its ongoing expenses, the amount of gold represented by each Share will decline over time.

The Trust has filed a registration statement (including a prospectus) with the SEC for the offering to which this communication relates. Before you invest, you should read the prospectus in that registration statement and other documents the Trust has filed with the SEC for more complete information about the Trust and this offering.
