### VERITAS DGC INC. AND SUBSIDIARIES

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS UNAUDITED

##### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

###### CONSOLIDATION

The accompanying consolidated financial statements include our accounts and the accounts of majority-owned domestic and foreign subsidiaries. Investment in an 80% owned joint venture is accounted for on the equity method due to provisions in the joint venture agreement that give minority shareholders the right to exercise control. All material intercompany balances and transactions have been eliminated. All material adjustments consisting only of normal recurring adjustments that, in the opinion of management are necessary for a fair statement of the results for the interim periods have been reflected. These interim financial statements should be read in conjunction with our annual consolidated financial statements.

###### USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

###### RECENT ACCOUNTING PRONOUNCEMENTS

In July 2001, the Financial Accounting Standards Board issued SFAS No. 141 (Business Combinations) and SFAS No. 142 (Goodwill and Other Intangible Assets). We adopted SFAS No. 141 upon its issuance, and we adopted SFAS No. 142 as of August 1, 2001. The main effect of SFAS No. 141 is to require purchase accounting be used in all future business combinations, disallowing the pooling-of-interests method allowed under APB Opinion No. 16. SFAS No. 142 defines the booking and subsequent treatment of goodwill and other intangible assets derived from business combinations and supersedes APB Opinion No. 17. This statement requires us to discontinue amortization of goodwill and requires

Edgar Filing: VERITAS DGC INC - Form 10-Q

that we test goodwill and other intangible assets for impairment in a specific manner on an annual basis or when certain events trigger such a test. Management expects to complete its evaluation of impairment of goodwill in January 2002. The prior year's first quarter includes \$0.3 million (\$0.01 per share) for goodwill amortization.

In August 2001, the Financial Accounting Standards Board issued SFAS No. 143 (Asset Retirement Obligations). This standard requires that obligations associated with the retirement of a tangible long-lived asset be recorded as a liability when those obligations are incurred with the liability being initially measured at fair value. We will adopt the use of this accounting statement in fiscal 2003. We have not yet completed our evaluation of the effect of this statement on our accounting practices.

In October 2001, the Financial Accounting Standards Board issued SFAS No. 144 (Accounting for the Impairment or Disposal of Long Lived Assets). This standard develops one accounting model for long-lived assets that are to be disposed of by sale, requiring such assets to be measured at the lower of book value and fair value less cost to sell. The standard also provides guidance on the recognition of liabilities for the obligations arising from disposal activities. We will adopt the use of this accounting statement in fiscal 2003. We have not yet completed our evaluation of the effect of this statement on our accounting practices.

Expiring through.....	March 2011	March 2011

4. UNREALIZED LOSS ON INVESTMENTS -- AVAILABLE FOR SALE

In April 1999, we exchanged a \$4.7 million account receivable from Miller Exploration Company ("Miller"), a publicly traded company, for a long-term note receivable bearing 18% interest. Effective October 15, 2000, the note bears interest at 9 3/4%. Interest is paid in Miller common stock warrants, with an exercise price of \$0.01 per share, in advance, at six-month intervals.

UNAUDITED

5. HEDGE TRANSACTION

In March 2001, we entered into a contract requiring payments in Norwegian kroner to charter the seismic vessel M/V Seisquest. The contract requires 36 monthly payments commencing on June 1, 2001. To protect our exposure to exchange rate risk, we entered into multiple forward contracts as cash flow hedges effectively locking our exchange rate for Norwegian kroner to the U.S. dollar. The unrealized loss on the hedge transaction is summarized below:

	OCTOBER 31, 2001			JULY 31, 2001

## Edgar Filing: VERITAS DGC INC - Form 10-Q

### 7. SUBSEQUENT EVENT

On November 26, 2001, Petroleum Geo-Services ASA, a Norwegian public limited liability company ("PGS"), Veritas DGC Inc., a Delaware corporation ("Veritas"), Venus I, a Cayman Islands exempted company and a direct, wholly owned subsidiary of Veritas ("Caymanco"), Venus Holdco Inc., a Delaware corporation and an indirect, wholly owned subsidiary of Caymanco ("Veritas Holdco"), and Venus Mergerco Inc., a Delaware corporation and a direct, wholly owned subsidiary of Veritas Holdco ("Veritas Merger Sub"), entered into an Agreement and Plan of Merger and Exchange Agreement (the "Agreement"), whereby, subject to the conditions stated therein, (i) Caymanco will make an offer (the "Exchange Offer") to issue ordinary shares, par value \$0.01 per share, of Caymanco ("Caymanco Shares") in exchange for the issued and outstanding ordinary shares, nominal value NOK 5 per share, of PGS ("PGS Shares") and all issued and outstanding American Depositary Shares representing such PGS Shares ("PGS ADSs"), at an exchange ratio of 0.47 Caymanco Shares for each PGS Share and each PGS ADS; and (ii) immediately following the closing of the Exchange Offer, Veritas Merger Sub will be merged with and into Veritas (the "Merger" and, together with the Exchange Offer, the "Combination"), pursuant to which shares of common stock, par value \$0.01 per share, of Veritas ("Veritas Common Stock") will be converted into Caymanco Shares on a one-for-one basis and certain shares that are exchangeable for shares of Veritas Common Stock will become exchangeable for Caymanco Shares. Upon closing of the Combination, which is anticipated to occur in April 2002, PGS and Veritas will become subsidiaries of Caymanco. PGS shareholders will hold approximately 60% of the shares to be issued by Caymanco, and Veritas shareholders will hold approximately 40% of such shares.

6

### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This report contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in the forward-looking statements as a result of certain factors. These factors are more fully described in other reports filed with the Securities and Exchange Commission, including our fiscal year 2001 Form 10-K, and include changes in market conditions in the oil and gas industry as well as declines in prices of oil and gas.

#### RESULTS OF OPERATIONS

THREE MONTHS ENDED OCTOBER 31, 2001 COMPARED WITH THREE MONTHS ENDED OCTOBER 31, 2000

Revenues. Revenues increased by 9%, from \$111.3 million to \$121.4 million. Multi-client revenues decreased 15% from \$61.2 million to \$52.3 million as a result of lower activity on new programs in the current quarter. Contract revenues increased 38%, from \$50.1 million to \$69.1 million primarily due to additional crews working in South America and Canada.

Operating Income. Operating income increased by 45%, from \$10.4 million to \$15.1 million. Cost of services as a percentage of revenue decreased from 68% to 66% due to improved contract pricing and better operating performance. Research and development increased by 27%, from \$2.2 million to \$2.8 million due to increased investment in new technology.

## Edgar Filing: VERITAS DGC INC - Form 10-Q

Other income. Other income decreased by \$0.6 million, from \$1.5 million to \$0.9 million. This is primarily the result of \$0.7 million in fixed asset gains in the prior year's first quarter compared to \$0.3 million in the current quarter. In addition, interest income decreased by \$0.2 million as a result of the decrease in cash, from \$90.4 million in October 2000 to \$25.3 million in October 2001.

Provision for income taxes. Income taxes increased from \$3.3 million to \$4.9 million as a result of our higher earnings in the current quarter with the effective income tax rate remaining essentially flat.

### LIQUIDITY AND CAPITAL RESOURCES

#### SOURCES AND USES

Our internal sources of liquidity are cash, cash equivalents and cash flow from operations. External sources include public financing, equity sales, the unutilized portion of a revolving credit facility, equipment financing and trade credit. We believe that these sources of funds are adequate to meet our liquidity needs for fiscal 2002.

Net cash provided by operating activities increased from \$17.6 million in the first quarter of 2001 to \$31.7 million in 2002. Net income increased from \$5.0 million to \$7.6 million. In addition, net cash used by working capital decreased from \$35.6 million to \$19.0 million. This is primarily due to a decrease in accounts receivable as a result of increased collections on trade receivables. This is offset by a decrease in accounts payable as a result of large payments occurring in the current quarter.

Net cash used by investing activities increased from \$58.5 million in the first quarter of 2001 to \$76.0 million in 2002 due to higher capital spending. We require significant amounts of working capital to support our operations and fund our research and development program. Our capital expenditure budget for fiscal 2002 is approximately \$100.0 million, which includes expenditures of approximately \$60 million to expand or upgrade our marine fleet. We also planned approximately \$170.0 million in gross additions to our data library and planned \$11.1 million for research and development spending in fiscal 2002.

We will require substantial cash flow to continue our investment in multi-client library, complete our capital expenditure and research and development programs and meet our principal and interest obligations with respect to outstanding indebtedness. While we believe that we have adequate sources of funds to meet our liquidity needs, our ability to meet our obligations depends on our future performance, which, in turn, is subject to many factors beyond our control. Key internal factors affecting future results include utilization levels of acquisition and processing assets and the level of multi-client

data library licensing, all of which are driven by the external factors of exploration spending and, ultimately, underlying commodity prices.

Net cash provided by financing activities decreased from \$88.2 million in the first quarter of 2001 to \$0.6 million in 2002. The prior year includes proceeds from a stock offering of \$82.4 million. As of October 31, 2001, we had \$135.0 million in senior notes outstanding due in October 2003. These notes contain a change of control provision allowing the holders to require us to call the notes

## Edgar Filing: VERITAS DGC INC - Form 10-Q

under certain conditions. We also have a revolving credit facility due August 2003 from commercial lenders that provides U.S. advances up to \$80.0 million and non-U.S. advances up to \$20 million. Advances bear interest, at our election, at LIBOR plus a margin or prime rate plus a margin. These margins are based on either certain of our financial ratios or our credit rating. At October 31, 2001 the LIBOR margin was 1.25% and the prime rate margin was 0%. As of October 31, 2001, there were no outstanding advances under the credit facility, but \$7.2 million of the credit facility was utilized for letters of credit, leaving \$92.8 million available for borrowings.

### OTHER

On November 26, 2001, we entered into an Agreement and Plan of Merger and Exchange Agreement with Petroleum Geo-Services ASA and other parties. Upon closing of the transactions contemplated by that agreement, which is anticipated to occur in April 2002, Veritas DGC Inc. and Petroleum Geo-Services ASA will become subsidiaries of a new holding company. See Note 7 of the Notes to Consolidated Financial Statements.

Since our quasi-reorganization on July 31, 1991 with respect to Digicon Inc., the tax benefits of net operating loss carryforwards existing at the date of the quasi-reorganization have been recognized through a direct addition to additional paid-in capital, when realization is more likely than not. Additionally, the utilization of the net operating loss carryforwards existing at the date of the quasi-reorganization is subject to certain limitations. For the three months ended October 31, 2001, we recognized \$1.1 million related to these benefits.

We receive some account receivable payments in foreign currency. We currently do not conduct a hedging program because we do not consider our current exposure to foreign currency fluctuations to be significant, although we have hedged certain future charter payments to be made in a foreign currency.

In July 2001, the Financial Accounting Standards Board issued SFAS No. 141 (Business Combinations) and SFAS No. 142 (Goodwill and Other Intangible Assets). We adopted SFAS No. 141 upon its issuance, and we adopted SFAS No. 142 as of August 1, 2001. The main effect of SFAS No. 141 is to require purchase accounting be used in all future business combinations, disallowing the pooling-of-interests method allowed under APB Opinion No. 16. SFAS No. 142 defines the booking and subsequent treatment of goodwill and other intangible assets derived from business combinations and supersedes APB Opinion No. 17. This statement requires us to discontinue amortization of goodwill and requires that we test goodwill and other intangible assets for impairment in a specific manner on an annual basis or when certain events trigger such a test. Management expects to complete its evaluation of impairment of goodwill in January 2002. The prior year's first quarter includes \$0.3 million (\$0.01 per share) for goodwill amortization.

In August 2001, the Financial Accounting Standards Board issued SFAS No. 143 (Asset Retirement Obligations). This standard requires that obligations associated with the retirement of a tangible long-lived asset be recorded as a liability when those obligations are incurred with the liability being initially measured at fair value. We will adopt the use of this accounting statement in fiscal 2003. We have not yet completed our evaluation of the effect of this statement on our accounting practices.

In October 2001, the Financial Accounting Standards Board issued SFAS No. 144 (Accounting for the Impairment or Disposal of Long Lived Assets). This standard develops one accounting model for long-lived assets that are to be disposed of by sale, requiring such assets to be measured at the lower of book value and fair value less cost to sell. The standard also provides guidance on the recognition of liabilities for the obligations arising from disposal activities.

## Edgar Filing: VERITAS DGC INC - Form 10-Q

We will adopt the use of this accounting statement in fiscal 2003. We have not yet completed our evaluation of the effect of this statement on our accounting practices.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES REGARDING MARKET RISK

At October 31, 2001, we had limited market risk related to foreign currencies. In March 2001, we entered into a contract requiring payments in Norwegian kroner to charter the seismic vessel M/V Seisquest. The contract requires 36 monthly payments commencing on June 1, 2001. To protect our exposure to exchange rate risk, we entered into multiple forward contracts as cash flow hedges fixing our exchange rates for Norwegian kroner to the U.S. dollar. The total fair value of the open forward contracts at October 31, 2001 in U.S. dollars is \$7.9 million.
