^{*} Price increases implemented in April

(a) The amounts reported in this column are the amounts that the Company has estimated were lost due to price increases based on customer feedback and its analyses of monthly volume reports.

Changes to Pricing Study

Effective April 1, 2005, the Company added 23 transfer stations to its pricing study. Additionally, the Company has selected four Market Areas for implementation of the pricing study, beginning on May 1, 2005.

The additional sites were chosen based upon the same general criteria as the original 30 landfills, including broad geographic scope, third party disposal volumes, and internal revenue growth. The 23 transfer stations and four Market Areas added to the study include the following:

Transfer Stations:

Market Area	Transfer Station
Greater Toronto	Clarington Transfer
Boston/Western Massachusetts	PRTR Transfer
Eastern Pennsylvania	Philadelphia Transfer
Eastern Pennsylvania	Indian Valley Transfer
New Jersey	Park Ridge Transfer
New Hampshire/Maine	Auburn Transfer
Colorado	Colorado Springs Transfer
Denver	D&R Transfer
Denver	South Metro Transfer
Illinois	Joliet Transfer
Minnesota	Gallagher Transfer
Wisconsin	Sheboygan Falls Transfer
Puerto Rico	San Juan Transfer
Central Florida	Tall Pines Transfer

The price increases at the added transfer stations and landfills will be on municipal solid waste (MSW) and/or construction and demolition (C&D) waste, and will be effective immediately. The Company expects that the price increases generally will range from 2.5% to 7.5%. However, some customers will be temporarily exempted from the price increase, either because of a recent price increase or certain other factors. Pricing for customers under contract will be increased pursuant to the terms of the customers agreements.

The tonnage received at 65 landfills and 46 transfer stations sites now included in the study represent approximately 21% of the Company s total MSW and C&D volumes for 2004. All price increases implemented since January 1, 2005 will be included in any future reports of the results of the study.

Certain statements contained in Item 7 of this Form 8-K include statements that are forward-looking statements. There are risks that the Company faces that could cause actual results to be materially different from those that may be set forth in forward-looking statements made by the Company. There also may be additional risks that the Company does not presently know or that it currently believes are immaterial which could also impair its business and results of operations. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Additional information regarding factors that could materially affect results and the accuracy of the forward-looking statements contained herein may be found in Part I, Item 1 of the Company s Annual Report on Form 10-K for the year ended December 31, 2004.
