ITEM 1. BUSINESS AND ITEM 2. PROPERTIES

INTRODUCTION

Harte-Hanks is an international direct and interactive marketing services company that provides end-to-end customer relationship management (CRM), related marketing services solutions and shopper publications to a wide range of industries serving both consumer and business-to-business markets.

The Company's direct and interactive marketing business operates both nationally and internationally, while its shopper business operates in selected local and regional markets in California and Florida. The Company believes that marketing is undergoing a transition from traditional mass media marketing to targeted marketing and CRM. The transition is being driven by the increasing sophistication and efficiency of technology and a growing need among marketers to customize the products and services they offer to customers. Direct and interactive marketing, which represents 66% of the Company's revenue, is leading the movement toward highly targeted marketing and CRM. The Company's shopper business applies similar targeting principles. Harte-Hanks strategy is based on five key elements: being a market leader in each of its businesses; increasing revenues through growing its base businesses, introducing new products, entering

Edgar Filing: HARTE HANKS INC - Form 10-K405

new markets and making acquisitions; using technology to create competitive advantages; employing people who can partner effectively with its clients; and creating shareholder value. Company revenues totaled \$917.9 million in 2001.

Harte-Hanks is the successor to a newspaper business begun in Texas in the early 1920's by Houston Harte and Bernard Hanks. In 1972, the Company went public and was listed on the New York Stock Exchange. The Company became private in a leveraged buyout initiated by management in 1984. In 1993, the Company again went public and listed its common stock on the NYSE. In October 1997, the Company sold all of its remaining traditional media operations (consisting of newspapers, television and radio companies) in order to focus all of its efforts on its direct and interactive services and shoppers operations.

See Note N of "Notes to Consolidated Financial Statements" for certain financial information about the Company's two business segments - direct and interactive marketing and shoppers.

DIRECT MARKETING

GENERAL

Harte-Hanks operates an international direct and interactive marketing services company that provides end-to-end CRM and related marketing services solutions to a wide range of industries serving both consumer and business-to-business markets. The Company utilizes advanced technologies to enable its clients to identify, reach, influence and nurture their customers. The Company believes that developments in technology and trends toward more sophisticated marketing analysis and measurement will continue to result in increased usage of direct and interactive marketing services. The Company's solutions use technology as the enabler to capture, analyze and disseminate customer and prospect data at all points of contact. The Harte-Hanks customer-centric models allow it to be the overall solutions provider for driving traffic to brick-and-mortar locations, Web sites or call/contact centers. With a full-service approach - CRM professional services to implementation to ongoing support; strong product and service brands including Alllink(TM), Trillium(TM) and nTouch; the use of targeted media from mail to Internet to Web to telephone; end-to-end execution from design and print to personalized mail and email production - Harte-Hanks provides practical implementation of technology and understands the needs of clients and their customers to deliver best-of-breed solutions. The Company's client base is both domestic and international. In 2001, Harte-Hanks Direct Marketing had revenues of \$601.9 million, which accounted for approximately 66% of the Company's total revenues.

In 2001, Harte-Hanks made one acquisition in its direct and interactive marketing business segment. This acquisition expanded the Company's services and client base in its CRM sector. Harte-Hanks expanded its

4

services to the automotive, energy and other industries through the acquisition of Sales Support Services, Inc., a leading business-to-business lead generation, order processing and fulfillment services company with operations in New Jersey, Texas and California.

CUSTOMER RELATIONSHIP MANAGEMENT

Edgar Filing: HARTE HANKS INC - Form 10-K405

Harte-Hanks Customer Relationship Management (CRM) uses technology as an enabler to capture, to analyze and to disseminate customer and prospect data across all points of customer contact. The Company helps clients manage the inquiries they receive from their marketing efforts, whether from Web sites, e-mail, toll-free numbers, trade shows, fax programs or other sources. These inquiries, or leads, are qualified, tracked and distributed both to appropriate sales channels and to client management for analysis, decision-making and/or additional interaction in order for clients to more effectively manage their customer and prospect relationships. Using proprietary software and open software solutions, the Company also builds contact databases for its clients using the information gained from these CRM activities. These databases help clients measure the return on their marketing communications and make more informed decisions about future marketing efforts.

The Company also builds customized marketing databases for specific clients and provides them with easy-to-use tools to perform analysis and to target their best customers and prospects. Using its proprietary name and address matching software, Trillium(TM), the Company standardizes large numbers of customer records from multiple sources, integrates them into a single database for each client and, if needed, appends demographic and lifestyle information.

In most cases, these databases are delivered for use on clients' personal computers, networks or workstations, where the Company's software applications and solutions help clients predict the likely results of marketing promotions and track recipients' buying behavior. Relational databases are built for clients from a range of facilities, each specializing in specific market segments. These databases are moved to the client's site or maintained at Harte-Hanks with on-line access to client locations. In addition to building a client's database and providing software solutions for analytics and campaign management, Harte-Hanks CRM performs regular database updates. Harte-Hanks CRM also offers its software module Trillium(TM) for clients who want to integrate data quality capabilities into their data warehouse or operational systems.

In addition, the Company operates as a service bureau, preparing list selections, maximizing deliverability and reducing clients' mailing costs through sophisticated postal coding, hygiene and address updates through a non-exclusive National Change of Address license with the U.S. Postal Service.

As a further extension of the client's marketing arm, Harte-Hanks provides marketing research and analytics services. Specific capabilities include tracking and reporting, media analysis, modeling, database profiling, primary data collection, marketing applications, consulting and program development.

CRM services are marketed to specific industries or markets with services and software products tailored to each industry or market. Having established the basic technological foundation, the Company is able to provide CRM services to new industries and markets by modifying its existing technology and information applications. The Company currently provides CRM services to all of its primary markets in addition to a range of select markets.

The Company expanded its CRM services by the November 2001 acquisition of Sales Support Services, Inc., a leading business-to-business lead generation, order processing and fulfillment services company to the automotive, energy and other industries.

The Company strengthened its suite of CRM offerings by forming a number of strategic alliances during the year. Harte-Hanks Trillium(TM) Software joined the Siebel Alliance Program as a Premier Software Partner and has successfully validated its Trillium Connector for Siebel eBusiness Applications. Trillium Software has also

completed the development of an active interface to the Microsoft SQL Server 2000 Data Transformation Service and has been accepted into Microsoft's Data Warehouse program. These alliances were developed to align industry leading software technologies in a tightly integrated solution for developing the most accurate and reliable customer information for customer data integration, customer data management, e-business and data warehouse applications. Additionally, Trillium Software was named a key business partner to the Compaq Computer Corporation's Zero Latency Enterprise (ZLE) architecture. The Compaq ZLE solution enables companies to converge key business operations in order to enhance customer relations, strengthen global supply chain linkages, and improve decision making through real-time business intelligence and knowledge management. Trillium Software is the component of Compaq's ZLE architecture used to clean, standardize and link data in real-time.

Depending on the needs of its clients, Harte-Hanks CRM capabilities are provided in a specialized, coordinated and integrated approach through 16 facilities nationwide. These centers possess some industry specialization and are linked together to support certain clients that experience volume spikes or seek high-growth needs. The Company also provides CRM services internationally through 10 offices located outside of the United States.

MARKETING SERVICES

Harte-Hanks provides a variety of services to help clients develop and execute targeted marketing communication programs. These include such upfront services as creative and graphics, along with back-end services such as printing, personalization of communication pieces using laser and inkjet printing, target mail and fulfillment, and transportation logistics.

The Company's mail tracking capability and long-standing relationships with the U.S. Postal Service help ensure that customer mailings reach their destinations on time. And, by controlling the final stage of the print distribution process through its logistics operations, the Company facilitates the delivery of its clients' materials while holding costs to a minimum.

Increasingly, clients seek execution programs as part of Harte-Hanks end-to-end solutions. Harte-Hanks also offers direct marketing agency services to create the plan to manage direct and interactive marketing communication efforts. These services combine information-based strategy and brand-building creative efforts across both traditional direct and interactive media.

Depending upon the needs of clients, Harte-Hanks marketing services capabilities are provided in a specialized, coordinated and integrated approach through 16 facilities nationwide.

SALES AND MARKETING

The national direct and interactive marketing sales forces of Harte-Hanks are headquartered in Cincinnati, Ohio, with additional offices maintained throughout the United States and Europe, as well as office locations in Australia, Canada and South America. In addition, the Company has affiliates in Asia. The sales forces, with industry-specific knowledge and experience, emphasize the cross-selling of a full range of direct and interactive marketing

Edgar Filing: HARTE HANKS INC - Form 10-K405

services and are supported by employees in each sector. The overall sales focus is to position Harte-Hanks as a marketing partner and a single-source solution for a client's targeted marketing needs.

7

COMPETITION

Harte-Hanks' direct and interactive marketing business faces competition from other direct marketing companies in each sector, as well as from print and electronic media and other forms of advertising. Harte-Hanks believes that its state-of-the-art CRM capabilities, combined with its national production capability, industry focus and ability to offer a full range of integrated services, enable the Company to compete effectively.

Edgar Filing: HARTE HANKS INC - Form 10-K405

SHOPPERS

GENERAL

Harte-Hanks is the largest publisher of advertising shoppers in North America based on weekly circulation and revenues, and is the only national targeted media company that focuses on shoppers as a core business. Shoppers are weekly advertising publications delivered free by third-class mail to all households in a particular geographic area. Shoppers offer advertisers a targeted, cost-effective local advertising system, with virtually 100% penetration in their area of distribution. Shoppers are particularly effective in large markets with high media fragmentation in which major metropolitan newspapers generally have low penetration.

As of December 31, 2001, Shoppers delivered nearly 10 million shopper packages in four major markets each week covering the greater Los Angeles market (Los Angeles County, Orange County, Riverside County, San Bernardino County, Ventura County, and Kern County), the greater San Diego market, Northern California (San Jose, Sacramento and Stockton) and South Florida. (Shopper publications overlap in approximately 220,000 households in South Orange County where both an "early" and "late" edition PennySaver is published each week.) The Company's California publications account for 88% of Shopper's weekly circulation.

Harte-Hanks publishes 818 individual shopper editions each week distributed to zones of approximately 12,200 households each. This allows single-location, local advertisers to saturate a single geographic zone, while enabling multiple-location advertisers to saturate multiple zones. This unique delivery system gives large and small advertisers alike a cost-effective way to reach their target markets. The Company believes that its zoning capabilities and production technologies have enabled it to saturate and target areas in a number of ways including, geographic, demographic, lifestyles, behavioral and language. This allows its advertisers to effectively target their customers. The Company's strategy is to increase its share of local advertising in its existing circulation areas, and, over time, to increase circulation through internal expansion into contiguous areas and selective acquisitions. In 2001, Harte-Hanks Shoppers had revenues of \$316.0 million, accounting for approximately 34% of the Company's total revenues.

During the period 1998 through 2001, over 1.3 million households were added to the Company's shopper circulation through internal expansion. The Company believes that expansions provide increased revenues and operating income as the publications in these new areas mature. The Company now reaches over 8.8 million households in California, or nearly 73% of the state's total.

8

PUBLICATIONS

The following table sets forth certain information with respect to shopper publications:

December 31, 2001

Number of

Edgar Filing: HARTE HANKS INC - Form 10-K405

Market	Publication Name	Circulation	Zones
Greater Los Angeles	PennySaver	4,944,000	422
Greater San Diego	PennySaver	1,693,500	135
Northern California	PennySaver	2,165,000	162
South Florida	The Flyer	1,186,500	99
Total:		9,989,000	818

Shopper publications contain classified and display advertising and are primarily delivered to consumers' homes by third-class saturation mail. The typical shopper publication contains over 40 pages and is 7 by 9-1/2 inches in size. Each edition, or zone, is targeted around a natural neighborhood marketing pattern. Shoppers also serve as a distribution vehicle for multiple ads from national and regional advertisers; "print and deliver" single-sheet inserts designed and printed by the Company; coupon books; preprinted inserts from major retail chains; and a four-color proprietary product, MARQUEE. In addition, Shoppers offer advertising over its internet sites - www.pennysaverusa.com for its California publications and www.theflyer.com for its South Florida publication.

The Company has acquired, developed and applied innovative technology and customized equipment in the publication of its shoppers, contributing to efficiency and growth. A proprietary pagination system has made it possible for the hundreds of weekly zoned editions to be designed, built and output to plate-ready negatives in a paperless, digital environment. Automating the production process saves on labor, newsprint and overweight postage. This software also allows for better ad tracking, immediate checks on individual zone and ad status, and more on-time press starts with less manpower.

SALES AND MARKETING

The Company maintains local sales offices throughout its geographic markets and employs more than 630 commissioned sales representatives who develop both targeted and saturation advertising programs for customers. The sales organization provides service to both national and local advertisers through its telemarketing departments and field sales representatives. Shopper customers vary from individuals with a single item for sale to local neighborhood advertisers to large multi-location advertisers. The core customers continue to be local service businesses and small retailers. The Company is increasingly focusing its marketing efforts on larger national accounts by emphasizing its ability to deliver saturation advertising in defined zones in combination with advertising in the shopper publication.

Additional focus is placed on particular industries/categories through the use of sales specialists. These sales specialists are primarily used to target automotive, real estate and employment advertisers.

The Company utilizes proprietary sales and marketing systems to enter customer orders directly from the field, instantly checking space availability, ad costs and other pertinent information. These systems efficiently facilitate the placement of advertising into multiple-zoned editions and include built-in error-reducing safeguards which aid in minimizing costly sales adjustments. In addition to allowing advertising information to be entered for immediate publication, these systems feed a relational customer database enabling sales

personnel to access

9

customer history by designated variables to facilitate the identification of similar potential customers and to assist with timely follow-up on existing customers.

FACILITIES

Harte-Hanks shoppers are produced at owned or leased facilities in the markets they serve. The Company has five production facilities - three in Southern California, one in Northern California and one in its Florida market - and 29 sales offices.

COMPETITION

Harte-Hanks shoppers compete primarily with metropolitan daily newspapers, shared mail packages and other local advertising media. Shoppers also compete in varying degrees for advertisers and readers with magazines, radio, broadcast and cable television, directories, internet sites, other shoppers and other communications media that operate in their markets. The Company believes that its production systems and technology, which enable it to publish separate editions in narrowly targeted zones, allow it to compete effectively, particularly in large markets with high media fragmentation.

EMPLOYEES

As of December 31, 2001, Harte-Hanks employed 6,894 full-time employees and 625 part-time employees, as follows: direct marketing - 5,007 full-time and 317 part-time employees; shoppers - 1,867 full-time and 307 part-time employees; and corporate office - 20 full-time employees and 1 part-time employee. None of the work force is represented by labor unions. The Company considers its relations with its employees to be good.

FACILITIES

Harte-Hanks' executive offices are located in San Antonio, Texas and occupy approximately 17,000 square feet in leased premises. The Company's business is conducted in facilities worldwide containing aggregate space of approximately 3.7 million square feet. Approximately 3.5 million square feet are held under leases, which expire at dates through 2014. The balance of the properties, used in the Company's Southern California shopper operations, Westville, New Jersey marketing services operations and Hasselt, Belgium CRM operations, are owned by the Company.

ITEM 3. LEGAL PROCEEDINGS

The Company from time to time becomes involved in various claims and lawsuits incidental to its businesses. In the opinion of management, after consultation with counsel, any ultimate liability arising out of currently pending claims and lawsuits will not have a material effect on the financial condition or operations of the Company.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of security holders during the

Edgar Filing: HARTE HANKS INC - Form 10-K405

fourth quarter of the fiscal year covered by this report.

10

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

Incorporated herein by reference from the Company's Annual Report to Stockholders for the year ended December 31, 2001 at page 32.

ITEM 6. SELECTED FINANCIAL DATA

Incorporated herein by reference from the Company's Annual Report to Stockholders for the year ended December 31, 2001 at page 31.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Incorporated herein by reference from the Company's Annual Report to Stockholders for the year ended December 31, 2001 at pages 12 through 17.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's earnings are affected by changes in short-term interest rates as a result of its revolving credit agreements, which bear interest at floating rates. The Company does not believe that it has significant exposure to market risks associated with changing interest rates as of December 31, 2001. The Company does not use derivative financial instruments in its operations.

The Company's earnings are also affected by fluctuations in foreign exchange rates as a result of its operations in foreign countries. Due to the level of operations in foreign countries, the impact of fluctuations in foreign exchange rates is not significant to the Company's overall earnings.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The following information is set forth in the Company's Annual Report to Stockholders for the year ended December 31, 2001, which is incorporated herein by reference: All Consolidated Financial Statements (pages 18 through 21); all Notes to Consolidated Financial Statements (pages 22 through 30); and the Independent Auditors' Report (page 32). With the exception of the information herein expressly incorporated by reference, the Company's Annual Report to Stockholders for the year ended December 31, 2001 is not deemed filed as part of this Annual Report on Form 10-K.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 10. MANAGEMENT

INDEPENDENT AUDITORS' REPORT ON 10-K SCHEDULE

The Board of Directors and Stockholders
Harte-Hanks, Inc.:

Under date of January 29, 2002, we reported on the consolidated balance sheets of Harte-Hanks, Inc. and subsidiaries as of December 31, 2001 and 2000 and the related consolidated statements of operations, cash flows and stockholders' equity and comprehensive income for each of the years in the three-year period ended December 31, 2001, as contained in the 2001 annual report to stockholders. These consolidated financial statements and our report thereon are incorporated by reference in the annual report on Form 10-K for the year 2001. In connection with our audits of the aforementioned consolidated financial statements, we also audited the related consolidated financial statement schedule as referred to in Item 14(a)(2). This financial statement schedule is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement schedule based on our audits.

In our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.
