### EXPLANATORY NOTE

This Amendment No. 1 on Form 10-Q/A (this "Amendment") amends our Quarterly Report on Form 10-Q for the quarter ended June 30, 2004 filed on August 2, 2004 (our "Original Filing"). EZCORP, Inc. (the "Company") has filed this Amendment to correct the classification of certain transactions presented in the Statements of Cash Flows in our Original Filing. The net effect of the reclassifications in the nine-month period ended June 30, 2004 is to increase operating cash flows, while decreasing investing cash flows by an equal and offsetting amount. The net effect of the reclassifications in the nine-month period ended June 30, 2003 is to decrease operating cash flows, while increasing investing cash flows by an equal and offsetting amount. These changes were identified during the course of the Company preparing its response to a comment letter from the U.S. Securities and Exchange Commission regarding our Annual Report on Form 10-K for the year ended September 30, 2003, as well as filings of other registrants in our industry.

A description of these reclassifications and a summary showing their effect on the restated Statements of Cash Flows is provided in Note K to the Condensed Consolidated Financial Statements. This Amendment also includes corresponding textual changes in the Liquidity and Capital Resources section of Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations, an update to related information in Item 4, Controls and Procedures, and updated officer certifications required to be currently dated. This Amendment has no effect on the Condensed Consolidated Balance Sheets or Statements of Operations, and more specifically, does not affect net income (loss), earnings (loss) per share, total cash flows, current assets, total assets, current liabilities, total stockholders' equity or any other information as presented in our Original Filing.

Other information contained herein has not been updated. Therefore, this Amendment should be read together with other documents that the Company has filed with the Securities and Exchange Commission subsequent to the filing of our Original Filing. Information in such reports and documents updates and supersedes certain information contained in this Amendment. The filing of this Amendment shall not be deemed an admission that our Original Filing, when made, included any known, untrue statement of material fact or knowingly omitted to state a material fact necessary to make a statement not misleading.

### EZCORP, INC. AND SUBSIDIARIES

#### NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) JUNE 30, 2004

##### NOTE A: BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring entries) considered necessary for a fair presentation have been included. The accompanying financial statements should be read with the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended September 30, 2003 ("Fiscal 2003"). The balance sheet at September 30, 2003 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

The Company's business is subject to seasonal variations, and operating results for the three-month and nine-month periods ended June 30, 2004 are not necessarily indicative of the results of operations for the full fiscal year.

##### NOTE B: SIGNIFICANT ACCOUNTING POLICIES

**PAWN LOAN REVENUE RECOGNITION:** Pawn service charges are recorded using the interest method for all pawn loans the Company deems to be collectible. The Company bases its estimate of collectible loans on several factors, including

## Edgar Filing: EZCORP INC - Form 10-Q/A

recent redemption rates, historical trends in redemption rates, and the amount of loans due in the following three months. Unexpected variations in any of these factors could increase or decrease the Company's estimate of collectible loans, affecting the Company's earnings and financial condition.

**PAYDAY LOAN REVENUE RECOGNITION:** Payday loans and related service charges reported in the Company's consolidated financial statements reflect only the Company's participation interest in these loans. The Company accrues service charges on the percentage of loans the Company deems to be collectible using the interest method. Accrued service charges related to defaulted loans are deducted from service charge revenue upon loan default, and increase service charge revenue upon subsequent collection.

The Company considers a loan defaulted if the loan has not been repaid or refinanced by the maturity date. Although defaulted loans may be collected later, the Company charges defaulted loan principal to bad debt upon default, leaving only active loans in the reported balance. Subsequent collections of principal are recorded as a reduction of bad debt at the time of collection. The Company's payday loan net defaults, included in bad debt and other payday loan direct expenses, were \$2.3 million and \$5.0 million, representing 6.6% and 5.6% of loans made for the three-month and nine-month periods ended June 30, 2004 (the "Fiscal 2004 Third Quarter" and the "Fiscal 2004 Year-to-Date Period," respectively). In the comparable 2003 periods (the "Fiscal 2003 Third Quarter" and the "Fiscal 2003 Year-to-Date Period," respectively), payday loan net defaults were \$0.8 million and \$2.3 million, representing 4.8% and 4.7%, respectively, of loans made.

**ALLOWANCE FOR LOSSES ON PAYDAY LOANS:** The Company also provides an allowance for losses on active payday loans and related service charges receivable. Changes in the principal valuation allowance are charged to bad debt expense in the Company's statement of operations. Changes in the service charge receivable valuation allowance are charged to payday loan service charge revenue.

**INVENTORY:** If a pawn loan is not repaid, the forfeited collateral (inventory) is recorded at cost (pawn loan principal). The Company does not record loan loss allowances or charge-offs on the principal portion of pawn loans. In order to state inventory at the lower of cost (specific identification) or market (net realizable value), the Company provides an allowance for shrinkage and excess, obsolete, or slow-moving inventory. The allowance is based on the type and age of merchandise as well as recent sales trends and margins. At June 30, 2004, June 30, 2003, and September 30, 2003, the valuation allowance deducted from the carrying value of inventory was \$1.7 million, \$2.5

4

million, and \$1.8 million (5.1%, 7.9%, and 5.8% of gross inventory), respectively. Changes in the inventory valuation allowance are recorded as cost of goods sold.

**VALUATION OF TANGIBLE LONG-LIVED ASSETS:** The Company assesses the impairment of tangible long-lived assets whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors which could trigger an impairment review include the following: significant underperformance relative to historical or projected future cash flows; significant changes in the manner of use of the assets or the strategy for the overall business; and significant negative industry trends. When management determines that the carrying value of tangible long-lived assets may not be recoverable, impairment is measured based on the excess of the assets' carrying value over the estimated fair value. No impairment of tangible long-lived assets has been recognized in the Fiscal 2004 or 2003 Year-to-Date Periods.

Edgar Filing: EZCORP INC - Form 10-Q/A

INCOME TAXES: The provision for federal income taxes has been calculated based on the Company's estimate of its effective tax rate for the full fiscal year. At June 30, 2004, the Company increased its estimate of the effective tax rate for its fiscal year ending September 30, 2004 from 34.5% to 37.0%, as more fully discussed in Note J, "Income Taxes." As part of the process of preparing the consolidated financial statements, the Company is required to estimate income taxes in each of the jurisdictions in which it operates. This process involves estimating the actual current tax liability together with assessing temporary differences in recognition of income for tax and accounting purposes. These differences result in deferred tax assets and liabilities, which are included in the Company's consolidated balance sheet. Management must then assess the likelihood that the deferred tax assets will be recovered from future taxable income. In the event the Company was to determine that it would not be able to realize all or part of its net deferred tax assets in the future, a valuation allowance would be charged to the income tax provision in the period such determination was made. Likewise, should the Company determine that it would be able to realize its deferred tax assets in the future in excess of its net recorded amount, a decrease to a valuation allowance would increase income in the period such determination was made. The Company evaluates the realizability of its deferred tax assets quarterly by assessing the need for a valuation allowance, if any. No adjustments have been made to the Company's valuation allowance in the Fiscal 2004 or 2003 Periods.

PROPERTY AND EQUIPMENT: Property and equipment is shown net of accumulated depreciation of \$57.7 million, \$63.6 million and \$65.7million at June 30, 2004, June 30, 2003, and September 30, 2003, respectively.

STOCK-BASED COMPENSATION: The Company accounts for its stock-based compensation plans in accordance with the intrinsic value method prescribed in Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" and related interpretations ("APB 25"). Statement of Financial Accounting Standards ("SFAS") No. 123, "Accounting for Stock-Based Compensation," as amended by SFAS No. 148, "Accounting for Stock-Based Compensation Transition and Disclosure," encourages expensing the fair value of employee stock options, but allows an entity to continue to account for stock-based compensation to employees under APB 25 with disclosures of the pro forma effect on net income had the fair value accounting provisions of SFAS No. 123 been adopted. The Company has calculated the fair value of options granted in these periods using the Black-Scholes option-pricing model and has determined the pro forma impact on net income. For purposes of pro forma disclosures, the estimated fair value of the options is amortized to expense over the options' vesting period.

5

The following table presents the effect on net income (loss) if the Company had applied the fair value recognition provisions of SFAS No. 123, as amended by SFAS No. 148, to stock-based compensation:

	Three Months Ended June 30		Nine Mo Ju
	2004	2003	2004

Earnings (loss) per share, assuming dilution:			
As reported	\$ 0.02	\$ --	\$ 0.48
Pro forma	\$ 0.01	\$ --	\$ 0.45

See Note H, "Common Stock, Warrants, and Options."

Certain prior year balances have been reclassified to conform to the Fiscal 2004 presentation.

NOTE C: EARNINGS (LOSS) PER SHARE

The following table sets forth the computation of basic and diluted earnings per share:

	Three Months Ended June 30,		Nine
	2004	2003	2004
	-----		
	(In thousands, except per s		
Numerator			
Income before cumulative effect of adopting a new accounting principle	\$ 253	\$ 53	\$ 6,25
Cumulative effect of adopting a new accounting principle, net of tax	--	--	--
	-----	-----	-----
Net income (loss)	253	53	\$ 6,25
	=====	=====	=====
Denominator			
Denominator for basic earnings per share: weighted average shares	12,275	12,188	12,22
Effect of dilutive securities:			
Options and warrants	866	340	86
Restricted common stock grants	80	--	5
	-----	-----	-----
Dilutive potential common shares	946	340	91
	-----	-----	-----
Denominator for diluted earnings per share: adjusted weighted average shares and assumed conversions	13,221	12,528	13,13
	=====	=====	=====
Basic earnings (loss) per share	\$ 0.02	\$ 0.00	\$ 0.5
	=====	=====	=====
Diluted earnings (loss) per share	\$ 0.02	\$ 0.00	\$ 0.4
	=====	=====	=====

Edgar Filing: EZCORP INC - Form 10-Q/A

6

The following table presents the weighted average shares subject to options outstanding during the periods indicated. Anti-dilutive options, warrants and restricted stock grants have been excluded from the computation of diluted earnings per share because the exercise price was greater than the average market price of the common shares and, therefore, the effect would be anti-dilutive.

	Three Months Ended June 30		Nine
	2004	2003	2004
Total options outstanding			
Weighted average shares subject to options	2,362,426	1,972,915	2,299,27
Average exercise price per share	\$ 6.86	\$ 6.12	\$ 6.5
Anti-dilutive options outstanding			
Weighted average shares subject to options	320,982	886,516	1,018,90
Average exercise price per share	\$ 13.42	\$ 10.74	\$ 11.0

During the nine months ended June 30, 2004, there were 37,007 weighted average shares of restricted stock outstanding that were anti-dilutive.

NOTE D: INVESTMENT IN UNCONSOLIDATED AFFILIATE

The Company owns 13,276,666 common shares of Albemarle & Bond Holdings, plc ("A&B"), approximately 29% of A&B's total outstanding shares. The Company accounts for its investment in A&B using the equity method. Since A&B's fiscal year ends three months prior to the Company's fiscal year, the income reported by the Company for its investment in A&B is on a three-month lag. In accordance with U.K. securities regulations, A&B files only semi-annual financial reports, for its fiscal periods ending December 31 and June 30. The Company estimates A&B's results of operations for the March 31 quarter for its financial statements. The income reported for the Company's Fiscal 2004 Year-to-Date Period represents its percentage interest in the results of A&B's operations from July 1, 2003 to March 31, 2004, as estimated.

Conversion of A&B's financial statements into US Generally Accepted Accounting Principles ("GAAP") resulted in no material differences from those reported by A&B following UK GAAP. Below is summarized financial information for A&B's most recently reported results (in thousands of U.S. dollars, using average exchange rates for the periods indicated):

	Six Months ended December 31,	
	2003	2002
Turnover (gross revenues)	\$ 19,726	\$ 16,655
Gross profit	13,164	11,047
Profit after tax (net income)	2,977	2,464

## Edgar Filing: EZCORP INC - Form 10-Q/A

### NOTE E: CONTINGENCIES

As previously announced on a Form 8-K filed on May 21, 2004 with the Securities and Exchange Commission, the Company received a subpoena on May 14, 2004 from the Securities and Exchange Commission relating to an investigation of certain jewelry companies. The subpoena requested the Company's documents concerning Morgan Schiff & Co., Inc. The Company believes it has responded fully to the subpoena. Since completing its response to the subpoena, the Company has received no further communication from the Securities and Exchange Commission regarding this matter.

From time to time, the Company is involved in litigation and regulatory actions arising from its normal business operations. Currently, the Company is a named party in several actions, some of which involve claims for substantial amounts. While the ultimate outcome of these actions cannot be determined, after consultation with counsel, the Company believes the resolution of these actions will not have a material adverse effect on the

7

Company's financial condition, results of operations, or liquidity. However, there can be no assurance as to the ultimate outcome of these actions.

### NOTE F: COMPREHENSIVE INCOME (LOSS)

Comprehensive income (loss) includes net income (loss) and other revenues, expenses, gains and losses that are excluded from net income (loss) but are included as a component of total stockholders' equity. Comprehensive income for the Fiscal 2004 Third Quarter was \$0.4 million and comprehensive income for the Fiscal 2004 Year-to-Date Period was \$6.7 million. For the comparable 2003 periods, comprehensive loss was \$0.1 million and comprehensive loss was \$4.0 million, respectively. The difference between comprehensive income (loss) and net income (loss) results primarily from the effect of foreign currency translation adjustments determined in accordance with SFAS No. 52, "Foreign Currency Translation." The accumulated balance of foreign currency activity excluded from net income (loss) of \$1.4 million is presented, net of tax of \$0.5 million, in the Condensed Consolidated Balance Sheets as "Accumulated other comprehensive income."

### NOTE G: LONG-TERM DEBT

At June 30, 2004, the Company's credit agreement provided for a \$40.0 million revolving credit facility with an effective rate of 4.0% and a maturity date of April 1, 2007. Advances are secured by the Company's assets. The Company may choose either a Eurodollar rate or the agent bank's base rate. Interest accrues at the Eurodollar rate plus 150 to 275 basis points or the agent bank's base rate plus 0 to 125 basis points, depending on the leverage ratio computed at the end of each quarter. The Company also pays a commitment fee of 37.5 basis points on the unused amount of the revolving facility. Terms of the agreement require, among other things, that the Company meet certain financial covenants. Payment of dividends and additional debt are allowed but restricted.

### NOTE H: COMMON STOCK, WARRANTS, AND OPTIONS

The Company accounts for its stock-based compensation plans as described in Note B, "Significant Accounting Policies."

On September 17, 2003, the Compensation Committee of the Board of Directors approved an award of 125,000 shares of restricted stock to the Chairman of the

## Edgar Filing: EZCORP INC - Form 10-Q/A

Board. The Company also agreed to reimburse the Chairman for the income tax consequences resulting from the award. The market value of the restricted stock on the award date was \$0.8 million, which is being amortized over the two-year restriction period expiring September 17, 2005. During the Fiscal 2004 Third Quarter and the Fiscal 2004 Year-to-Date Period, \$0.1 million and \$0.3 million, respectively, of this cost was amortized to expense. In the quarter ended December 31, 2003, the Company also reimbursed \$0.8 million for the Chairman's one-time taxes related to the award. The reimbursement was charged to administrative expense.

On January 15, 2004, the Compensation Committee of the Board of Directors approved an award of 60,000 shares of restricted stock to the Company's Chief Executive Officer. The shares will vest on January 1, 2009, provided he remains continuously employed by the Company through the vesting date. The shares are subject to earlier vesting based on the occurrence of certain objectives. The Company also agreed to reimburse him for the income tax consequences resulting from the award. The market value of the restricted stock on the award date was \$0.6 million, which is being amortized over a three-year period based on the Company's expectation that earlier vesting objectives will be met. During the Fiscal 2004 Third Quarter and the Fiscal 2004 Year-to-Date Period, \$0.05 million and \$0.1 million, respectively, of this cost was amortized to expense. The Company expects to amortize an additional \$0.05 million of stock compensation cost related to this award during the remaining three months of the fiscal year ending September 30, 2004. Additionally in the quarter ended March 31, 2004, the Company reimbursed \$0.3 million for the Chief Executive Officer's one-time taxes related to the award. The reimbursement was charged to administrative expense.

Stock option exercises resulted in the issuance of 162,800 shares of Class A Common Stock for total proceeds of \$442,000 during the Fiscal 2004 Third Quarter and 164,600 shares of Class A Common Stock for total proceeds of \$446,000 during the Fiscal 2004 Year-to-Date Period. There were no stock option exercises during fiscal year ending September 30, 2003.

8

The Company issued 8,737 shares of Class A Common Stock during the Fiscal 2004 Year-to-Date Period and 21,189 shares of Class A Common Stock during the Fiscal 2003 Year-to-Date Period to the Company's 401(k) Plan and Trust representing the Company's match of employees' contributions.

### NOTE I: CHANGE IN ACCOUNTING PRINCIPLE - GOODWILL AND OTHER INTANGIBLE ASSETS

The Company adopted SFAS No. 142, "Goodwill and Other Intangible Assets" effective October 1, 2002. Under the provisions of SFAS No. 142, goodwill and other intangible assets having indefinite lives are not subject to amortization but are tested for impairment annually, or more frequently if events or changes in circumstances indicate that the assets might be impaired. During the quarter ended December 31, 2002, the Company, with assistance of independent valuation specialists, completed impairment tests of its goodwill and pawn licenses; its indefinite lived intangible assets. The goodwill testing estimated enterprise value based on discounted cash flows and market capitalization and indicated an implied fair value of goodwill of \$0 based on the allocation of enterprise value to all of the Company's assets and liabilities. This resulted in an \$8.0 million, net of tax, impairment charge for goodwill, recorded as a cumulative effect of adopting a new accounting principle. Separately, the estimated fair value of pawn licenses was compared to their carrying value, indicating no impairment.

At each balance sheet date presented, the balance of pawn licenses - the only major class of indefinite lived intangible assets at each of these dates - was \$1.5 million.

## Edgar Filing: EZCORP INC - Form 10-Q/A

The following table presents the gross carrying amount and accumulated amortization for each major class of definite lived intangible assets at the specified dates:

	June 30, 2004, Carrying Amount	Accumulated Amortization	June 30, 2003, Carrying Amount	Accumulated Amortization	Septem Carrying Amount
	-----	-----	-----	-----	-----
	(In thousands)				
License application fees	\$ 345	\$ 187	\$ 742	\$ 554	\$ 742
Real estate finders' fees	554	271	554	240	554
Non-compete agreements	388	233	388	214	388
	-----	-----	-----	-----	-----
Total	\$ 1,287	\$ 691	\$ 1,684	\$ 1,008	\$ 1,684
	=====	=====	=====	=====	=====

Total amortization expense from definite lived intangible assets for the Fiscal 2004 Third Quarter and the Fiscal 2004 Year-to-Date Period was approximately \$18,500 and \$59,000, respectively. In comparison, the amortization expense for the Fiscal 2003 Third Quarter and the Fiscal 2003 Year-to-Date Period was approximately \$23,000 and \$68,000, respectively. The following table presents the Company's estimate of amortization expense for definite lived intangible assets for each of the five succeeding full fiscal years ending September 30 (in thousands):

Fiscal Year	Amortization Expense
-----	-----
2004	\$ 77
2005	68
2006	67
2007	67
2008	66

As acquisitions and dispositions occur in the future, amortization expense may vary from these estimates.

### NOTE J: INCOME TAXES

The provision for federal income taxes has been calculated based on the Company's estimate of its effective tax rate for the full fiscal year. At June 30, 2004, the Company increased its estimate of the effective tax rate for its fiscal year ending September 30, 2004 from 34.5% to 37.0%. The increase resulted primarily from the determination in the current quarter that certain executive compensation would not be deductible for federal income tax purposes in

2004 and from an increase in expected state income taxes. The increase in the effective income tax rate lowered net income in the quarter ended June 30, 2004

## Edgar Filing: EZCORP INC - Form 10-Q/A

by \$248,000, or \$0.02 per share (basic and assuming dilution).

### NOTE K: RESTATEMENT OF THE STATEMENTS OF CASH FLOWS

In addressing comments from the staff of the Securities and Exchange Commission, the Company restated its Condensed Consolidated Statements of Cash Flows to reclassify certain transactions between the operating and investing sections of the Statements of Cash Flows. The Company has reviewed its classification of cash flows arising from the forfeiture and subsequent sale of pawn loan collateral. The Company determined that investing cash flows representing a return of pawn loans receivable which were reported on the dates of loan forfeiture should have been reported on the dates that the forfeited collateral was sold. The previously reported cash flows have been adjusted to remove the non-cash transfer of forfeited collateral from pawn loans to inventory, and to report as a cash flow from investing activities the portion of sales proceeds representing the return of amounts previously loaned. The effect of this adjustment is to increase cash provided by operating activities and to decrease cash flows from investing activities by \$1.1 million in the nine-month period ended June 30, 2004, and to decrease cash flows from operating activities and increase cash flows from investing activities by \$2.4 million in the nine-month period ended June 30, 2003. The Company also determined that it should have reported its payday loan loss provision as an adjustment to reconcile net income to cash provided by operating activities rather than including it in the net change in payday loans in investing activities. The effect of the adjustment to correct this is to increase cash flows from operating activities and to decrease cash flows from investing activities in the amounts of \$5.2 million and \$2.3 million in the nine-month periods ended June 30, 2004 and 2003, respectively. Additionally, the Company previously included renewed pawn loans as both a loan repaid and a loan made. Because a customer need only pay accrued pawn service charges but not the loan principal in order to renew a loan, the Company has restated its statements of cash flows to exclude the principal portion of renewed loans from both loans made and repaid. The effect of this adjustment is to reduce pawn loans made and repaid by \$17.7 million and \$16.7 million in the nine-month periods ended June 30, 2004 and 2003, respectively. As pawn loans made and repaid are each reported as investing activities, there was no net effect on operating or investing cash flows as a result of this adjustment.

A summary of the effects of these corrections is as follows:

	Nine Months Ended June 30, 2004		
	As Previously Reported	Adjustments	As Restated
	-----	-----	-----
	(in thousands)		
Net cash provided by operating activities	\$ 9,942	\$ 6,317	\$ 16,259

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The discussion in this section of this report contains forward-looking statements that involve risks and uncertainties. The Company's actual results could differ materially from those discussed herein. Factors that could cause or contribute to such differences include, but are not limited to, those discussed in this section and those discussed elsewhere in this report.

Third Quarter Ended June 30, 2004 vs. Third Quarter Ended June 30, 2003

The following table sets forth selected, unaudited, consolidated financial data with respect to the Company for the three-month periods ended June 30, 2004 and 2003 ("Fiscal 2004 Third Quarter" and "Fiscal 2003 Third Quarter," respectively):

	Three Months Ended June 30, (a)	
	2004	2003

12

### OVERVIEW

The Company meets the short-term cash needs of the cash and credit constrained consumer by offering convenient, non-recourse loans secured by tangible personal property, commonly known as pawn loans, and short-term non-collateralized loans, often referred to as payday loans. The Company makes pawn loans in its 280 EZPAWN locations and makes payday loans in 188 of its EZPAWN locations, 85 EZMONEY Payday Loans locations ("EZMONEY stores"), and through its Austin, Texas based call center.

The Company earns pawn service charge revenue on its pawn lending activity. While allowable service charges vary by state and by amount of the loan, a majority of the Company's pawn loans are in amounts that permit pawn service

## Edgar Filing: EZCORP INC - Form 10-Q/A

charges of 20% per month or 240% per annum. The Company's average pawn loan amount has historically averaged between \$70 and \$75, but varies depending on the valuation of each item pawned. The allowable term of pawn loans also differs by state, but is typically 30 days with a 60-day grace period.

The Company earns payday loan service charge revenue on its payday loans. In 214 locations and its call center, the Company markets and services payday loans made by County Bank of Rehoboth Beach ("County Bank"), a federally insured Delaware bank. After origination of the loans, the Company may purchase a 90% participation in the loans made by County Bank and marketed by the Company. In 59 of its locations, the Company makes payday loans in compliance with state law. The average payday loan amount is approximately \$380 and the terms are generally less than 30 days, averaging about 17 days. The service charge per \$100 loaned is typically \$18 for a 7 to 23-day period, but varies in certain locations.

In its 280 EZPAWNS, the Company sells merchandise acquired primarily through pawn loan forfeitures and, to a lesser extent, through purchases of customer merchandise. The realization of gross profit on sales of inventory depends primarily on the Company's initial assessment of the property's resale value. Improper assessment of the resale value of the collateral in the lending function can result in reduced marketability of the property and the realization of a lower margin.

In the Fiscal 2004 Third Quarter, the Company's net income improved to \$253,000 compared to \$53,000 in the Fiscal 2003 Third Quarter. Contributing to the earnings improvement was a significant growth in the Company's payday loan balances and related earnings contribution, as well as improvements in its gross margins on merchandise sales. Partially offsetting these factors was the incremental operating costs at the 85 new EZMONEY stores and an increase in same store labor costs.

### RESULTS OF OPERATIONS

Third Quarter Ended June 30, 2004 vs. Third Quarter Ended June 30, 2003

The following discussion compares the results of operations for the Fiscal 2004 Third Quarter to the Fiscal 2003 Third Quarter. The discussion should be read in conjunction with the accompanying financial statements and related notes.

The Company's Fiscal 2004 Third Quarter pawn service charge revenue increased 1.6%, or \$0.2 million, from the Fiscal 2003 Third Quarter to \$13.8 million. This increase was due to a \$1.8 million, or 3.9% increase in average pawn loans outstanding during the quarter, offset by a three percentage point decrease in loan yields to 119% in the Fiscal 2004 Third Quarter. The yield decrease in the Fiscal 2004 Third Quarter is primarily due to the higher level of loan forfeitures during the quarter and the higher level of loan forfeitures expected in the ending pawn loan balance. Variations in the annualized loan yield are due generally to changes in the level of loan forfeitures, a mix shift between loans with different yields, and changes in statutory fees that can be charged. The Company's average balance of pawn loans outstanding during the Fiscal 2004 Third Quarter was 3.9% higher and ending pawn loans outstanding were 6.1% higher than in the Fiscal 2003 Third Quarter.

In the Fiscal 2004 Third Quarter, 94.7%, or \$13.1 million, of recorded pawn service charge revenue was collected in cash, and 5.3%, or \$0.7 million resulted from an increase in accrued pawn service charges receivable. In the comparable Fiscal 2003 Third Quarter, 93.8%, or \$12.8 million, of recorded pawn service charge revenue was collected in cash and 6.2% or \$0.8 million was due to an increase in accrued pawn service charges receivable. This pattern is

Edgar Filing: EZCORP INC - Form 10-Q/A

13

consistent with the seasonal nature of the pawn lending business. The accrual of pawn service charges is dependent on the Company's estimate of collectible loans in its portfolio at the end of each quarter. Consistent with prior year treatment, the Company decreased its estimate of collectible loans at June 30, 2004 in anticipation of lower loan redemptions during the summer lending season.

Sales increased \$0.8 million in the Fiscal 2004 Third Quarter compared to the Fiscal 2003 Third Quarter, to \$30.8 million. The increase was due to 4.0% higher same store merchandise sales (\$1.0 million), offset by a decrease in jewelry scrapping sales (\$0.2 million). Below is a summary of comparable sales data:

	Quarter Ended June 30,	
	2004	2003
	(Dollars in thousands)	
Merchandise sales	\$ 25,845	\$ 24,863
Jewelry scrapping sales	4,937	5,149
Total sales	30,782	30,012
Gross profit on merchandise sales	\$ 10,279	\$ 9,421
Gross profit on jewelry scrapping sales	1,163	877
Gross margin on merchandise sales	39.8%	37.9%
Gross margin on jewelry scrapping sales	23.6%	17.0%
Overall gross margin	37.2%	34.3%

The Fiscal 2004 Third Quarter overall gross margins on sales increased 2.9 percentage points from the Fiscal 2003 Third Quarter to 37.2%. This resulted from improved margins on same store merchandise sales and the effect higher gold prices had on jewelry scrapping. Margins on merchandise sales, excluding jewelry scrapping, increased 1.9 percentage points primarily due to less discounting, offset by an increase in the inventory valuation allowance. During the Fiscal 2004 Third Quarter, the Company increased its inventory valuation allowance \$0.7 million as a result of the less efficient liquidation of aged general merchandise since the beginning of the quarter and the growth in overall inventory balances. In the comparable Fiscal 2003 Third Quarter, the inventory allowance was increased \$0.1 million due to liquidation levels of aged merchandise during that quarter. Changes in the inventory valuation allowance are recorded in cost of goods sold, directly impacting the Company's gross margins. Inventory shrinkage, also included in cost of goods sold, was 1.6% of merchandise sales in the Fiscal 2004 Third Quarter compared to 2.8% in the Fiscal 2003 Third Quarter.

Payday loan data are as follows:

Quarter Ended June 30	
2004	2003
(Dollars in thousands)	

## Edgar Filing: EZCORP INC - Form 10-Q/A

Service charge revenue	\$ 6,191	\$ 3,0
Bad debt (included in operating expense):		
Net defaults on loans	(2,297)	(8
Change in valuation allowance and other related costs	(262)	(
	-----	-----
Net bad debt	(2,559)	(8
Incremental operating expenses at EZMONEY stores	(1,049)	
Other direct expenses (included in operating expense)	(273)	(2
Collection and call center costs (included in administrative expense)	(213)	(1
	-----	-----
Contribution to operating income	\$ 2,097	\$ 1,7
	=====	=====
Average payday loan balance outstanding during quarter	\$ 5,752	\$ 2,6
Payday loan balance at end of quarter	\$ 6,720	\$ 3,1
Average loan balance per participating location at end of quarter	\$ 24.5	\$ 13
Participating locations at end of quarter (whole numbers)	273	2
Net default rate (defaults net of collections, measured as a percent of loans made)	6.6%	4

14

The Contribution to operating income presented above is the incremental contribution only, including the effect of incremental operating expenses at EZMONEY stores, but excluding operating costs such as labor, rent, and other overhead costs at EZPAWN locations offering payday loans.

Payday loan service charge revenue increased from the Fiscal 2003 Third Quarter with the growth in the amount of loans made during the quarter. The maturing of the product in locations offering the product for more than twelve months and a growth in the number of locations offering the loans contributed to the increase in the loan balance. In the Fiscal 2004 Third Quarter, 93.4% or \$5.8 million of recorded payday loan service charge revenue was collected in cash and 6.6% or \$0.4 million resulted from an increase in accrued payday loan service charges receivable. In the comparable Fiscal 2003 Third Quarter, 94.4% or \$2.8 million of recorded payday loan service charge revenue was collected in cash and 5.6% or \$0.2 million resulted from an increase in accrued payday loan service charges receivable. This is consistent with the seasonal pattern expected in payday lending. The Company anticipates continued growth in payday loans as it continues the expansion of additional EZMONEY stores and the product matures in its current locations.

Bad debt expense on payday loans increased to \$2.6 million in the Fiscal 2004 Third Quarter from \$0.9 million in the Fiscal 2003 Third Quarter. Of the total increase, \$0.9 million was due to the growth in the loan portfolio, and \$0.8 million resulted from an increase in the net default rate from 4.8% in the Fiscal 2003 Third Quarter to 6.6% in the Fiscal 2004 Third Quarter. While the percentage of payday loans defaulting upon maturity during the Fiscal 2004 Third Quarter approximated that in the Fiscal 2003 Third Quarter, the percentage of collections of those defaulted loans decreased significantly. The Company believes it has taken the appropriate steps to return collection rates to levels experienced in prior periods.

The Company provides for a valuation allowance on both the principal and service charges receivable for payday loans. At June 30, 2004, the valuation allowance was \$0.6 million, or 7.2% of the payday loan principal and service charges receivable, compared to \$0.2 million, or 5.2% of payday loan principal and service charges receivable at June 30, 2003. Due to the short-term nature of these loans, the Company uses recent net default rates and anticipated seasonal

## Edgar Filing: EZCORP INC - Form 10-Q/A

changes in the rate of defaults as the basis for its valuation allowance, rather than reserving the annual or quarterly rate. Actual loan losses could vary from those estimated due to variance in any of these factors, as well as any national or regional economic downturn.

Store operating expenses increased 10.8% (\$2.1 million), to \$21.8 million in the Fiscal 2004 Third Quarter, representing a 3.9 percentage point decrease when measured as a percent of net revenues. This dollar increase was due primarily to \$1.0 million in incremental operating expenses at the 85 new EZMONEY stores. Also contributing to the increase was a \$0.4 million (4.5%) increase in same store labor and benefits and a \$0.3 million increase in robbery losses.

While administrative expenses decreased 0.3 of a percentage point when measured as a percent of net revenue, it increased 14.7% (\$0.6 million) from the Fiscal 2003 Third Quarter to \$4.6 million. The primary cause of this was a \$0.4 million increase in legal and professional services.

Depreciation and amortization expense decreased \$0.3 million in the Fiscal 2004 Third Quarter to \$1.9 million. This improvement is primarily due to assets that became fully depreciated over the past year, net of additional depreciation on assets placed in service in the last twelve months.

In the Fiscal 2004 Third Quarter, interest expense decreased by \$0.1 million to \$0.3 million as a result of lower average debt balances and lower effective interest rates. At June 30, 2004, the Company's total debt was \$31.2 million compared to \$33.0 million at June 30, 2003.

The Fiscal 2004 Third Quarter income tax provision was \$0.5 million (66.9% of pretax income) compared to \$28,000 (35% of pretax income) for the Fiscal 2003 Third Quarter. At June 30, 2004, the Company increased its estimate of the effective tax rate for its full fiscal year ending September 30, 2004 from the previously estimated 34.5% to 37.0%. The increase resulted primarily from the determination in the current quarter that certain executive compensation would not be deductible for federal income tax purposes in 2004 and from an increase in expected

15

state income taxes. The increase in the effective income tax rate lowered net income in the Fiscal 2004 Third Quarter by \$248,000.

Operating income for the Fiscal 2004 Third Quarter increased \$0.5 million from the Fiscal 2003 Third Quarter to \$0.7 million. The \$1.1 million higher gross profit on sales and \$0.9 million greater contribution from same store payday loan operations were partially offset by a \$0.6 million operating loss from EZMONEY stores opened in the last 12 months, a \$0.4 million increase in same store labor costs, and \$0.5 million higher administrative costs. After a \$0.5 million increase in income tax expense and smaller changes in other non-operating items, net income improved to \$253,000 in the Fiscal 2004 Third Quarter from \$53,000 in the Fiscal 2003 Third Quarter.

Nine Months Ended June 30, 2004 vs. Nine Months Ended June 30, 2003

The following discussion compares the results of operations for the Fiscal 2004 Year-to-Date Period to the Fiscal 2003 Year-to-Date Period. The discussion should be read in conjunction with the accompanying financial statements and related notes.

The Company's Fiscal 2004 Year-to-Date Period pawn service charge revenue increased 0.7%, or \$0.3 million from the Fiscal 2003 Year-to-Date Period to \$43.9 million. This increase was primarily due to a slightly higher loan yield

## Edgar Filing: EZCORP INC - Form 10-Q/A

of 128% in the Fiscal 2004 Year-to-Date Period. Variations in the annualized loan yield, as seen between these periods, are due generally to changes in the level of loan forfeitures, a mix shift between loans with different yields and changes in statutory fees that can be charged. The Company's average balance of pawn loans outstanding during the Fiscal 2004 Year-to-Date Period was 0.8% higher and ending pawn loans outstanding were 6.1% higher than in the Fiscal 2003 Year-to-Date Period.

In the Fiscal 2004 Year-to-Date Period, 101.0% or \$44.3 million of recorded pawn service charge revenue was collected in cash offset by a \$0.4 million decrease in accrued pawn service charges receivable. In the Fiscal 2003 Year-to-Date Period, 100.0% or \$43.6 million of recorded pawn service charge revenue was collected in cash. The accrual of pawn service charges is dependent on the Company's estimate of collectible loans in its portfolio at the end of each quarter. Consistent with prior year treatment, the Company decreased its estimate of collectible loans at June 30, 2004 in anticipation of lower loan redemptions during the summer lending season.

Sales increased \$2.7 million in the Fiscal 2004 Year-to-Date Period compared to the Fiscal 2003 Year-to-Date Period, to \$102.7 million. The increase was due to higher same store merchandise sales (\$2.1 million), coupled with an increase in jewelry scrapping sales (\$0.6 million). Below is a summary of comparable sales data:

	Nine Months Ended June 30,	
	2004	2003
	(Dollars in thousands)	
Merchandise sales	\$ 90,095	\$ 87,994
Jewelry scrapping sales	12,616	11,986
	102,711	99,980
Gross profit on merchandise sales	\$ 38,088	\$ 34,614
Gross profit on jewelry scrapping sales	3,493	1,658
Gross margin on merchandise sales	42.3%	39.3%
Gross margin on jewelry scrapping sales	27.7%	13.8%
Overall gross margin	40.5%	36.3%

Overall gross margins on sales in the Fiscal 2004 Year-to-Date Period increased 4.2 percentage points from the Fiscal 2003 Year-to-Date Period to 40.5%. This resulted from improved margins on same store merchandise sales and the favorable effect higher gold prices had on jewelry scrapping. Margins on merchandise sales, excluding jewelry scrapping, increased 3.0 percentage points primarily due to the more efficient liquidation of aged general

merchandise and less discounting in the Fiscal 2004 Year-to-Date Period. During the Fiscal 2004 Year-to-Date Period, the inventory valuation allowance was reduced \$0.2 million as a result of the improved liquidation of aged merchandise. In the comparable Fiscal 2003 Year-to-Date Period, the inventory valuation allowance was increased \$0.8 million due to less efficient liquidation of aged general merchandise during that period. Changes in the inventory

## Edgar Filing: EZCORP INC - Form 10-Q/A

valuation allowance are recorded in cost of goods sold, directly impacting the Company's gross margins. Inventory shrinkage, also included in cost of goods sold, was 1.6% of merchandise sales in the Fiscal 2004 Year-to-Date Period compared to 1.9% in the Fiscal 2003 Year-to-Date Period.

Payday loan data are as follows:

	Nine Months Ended June	
	2004	2003
	(Dollars in thousands)	
Service charge revenue	\$ 16,124	\$ 8,7
Bad debt (included in operating expense):		
Net defaults on loans	(5,021)	(2,3
Change in valuation allowance and other related costs	(195)	
Net bad debt	(5,216)	(2,2
Incremental operating expenses at EZMONEY stores	(1,735)	
Other direct expenses (included in operating expense)	(741)	(8
Collection and call center costs (included in administrative expense)	(590)	(4
Contribution to operating income	\$ 7,842	\$ 5,1
Average payday loan balance outstanding during period	\$ 5,061	\$ 2,5
Payday loan balance at end of period	\$ 6,720	\$ 3,1
Average loan balance per participating location at end of period	\$ 24.5	\$ 13
Participating locations at end of period (whole numbers)	273	2
Net default rate (defaults net of collections, measured as a percent of loans made)	5.6%	4

The Contribution to operating income presented above is the incremental contribution only, including the effect of incremental operating expenses at EZMONEY stores, but excluding operating costs such as labor, rent, and other overhead costs at EZPAWN locations offering payday loans.

Payday loan service charge revenue and bad debt expense each increased from the Fiscal 2003 Year-to-Date Period primarily due to an increase in the amount of loans made during the period. The maturing of the product and a growth in the number of locations offering the loans contributed to the increase in the loan balance. In the Fiscal 2004 Year-to-Date Period, 96.3% or \$15.5 million of recorded payday loan service charge revenue was collected in cash, and 3.7% or \$0.6 million resulted from an increase in accrued payday loan service charges receivable. In the comparable Fiscal 2003 Year-to-Date Period, 98.6% or \$8.7 million of recorded payday loan service charge revenue was collected in cash, and 1.4% or \$0.1 million resulted from an increase in accrued payday loan service charges receivable. The Company anticipates continued growth in payday loans as it continues the expansion of additional EZMONEY stores and the product matures in its current locations.

Bad debt expense on payday loans increased to \$5.2 million in the Fiscal 2004 Year-to-Date Period from \$2.3 million in the Fiscal 2003 Year-to-Date Period. Of the total increase, \$2.1 million was due to the growth in the loan portfolio, and \$0.8 million resulted from an increase in the net default rate from 4.7% in the Fiscal 2003 Year-to-Date Period to 5.6% in the Fiscal 2004 Year-to-Date Period. While the percentage of payday loans defaulting upon maturity during the Fiscal 2004 Year-to-Date Period approximated that in the Fiscal 2003

## Edgar Filing: EZCORP INC - Form 10-Q/A

Year-to-Date Period, the percentage of collections of those defaulted loans decreased significantly. The Company believes it has taken the appropriate steps to return collection rates to levels experienced in prior periods.

Although store operating expenses decreased 5.0 percentage points when measured as a percentage of net revenues, it increased 6.4% (\$3.9 million) in dollar terms, to \$64.4 million. This was due primarily to \$1.7 million in

17

incremental operating expenses at the 85 new EZMONEY stores. Also contributing to the increase was a \$1.8 million (5.7%) increase in same store labor and benefits.

Administrative expenses increased 32.6% (\$4.1 million) from the Fiscal 2003 Year-to-Date Period to \$16.9 million, representing a 2.2 percentage point increase when measured as a percent of net revenues. The primary causes of this were a \$1.0 million increase in legal and professional fees, a \$0.8 million increase in accrued incentive compensation related to the Company's improved performance and \$1.5 million for restricted stock awarded to the Company's Chairman and its Chief Executive Officer. Also contributing to the increase was \$0.7 million related to a valuation allowance placed on a note receivable from the Company's former Chief Executive Officer.

Depreciation and amortization expense decreased \$1.0 million in the Fiscal 2004 Year-to-Date Period to \$5.6 million. This improvement is primarily due to assets that became fully depreciated over the past year, net of additional depreciation on assets placed in service in the last twelve months.

In the Fiscal 2004 Year-to-Date Period, interest expense decreased by \$0.4 million to \$1.2 million as a result of lower average debt balances and lower effective interest rates. At June 30, 2004, the Company's total debt was \$31.2 million compared to \$33.0 million at June 30, 2003.

The Fiscal 2004 Year-to-Date Period income tax provision was \$3.7 million (37.0% of pretax income) compared to \$2.1 million (35% of pretax income) for the Fiscal 2003 Year-to-Date Period. At June 30, 2004, the Company increased its estimate of the effective tax rate for its full fiscal year ending September 30, 2004 from the previously estimated 34.5% to 37.0%. The increase resulted primarily from the determination in the current quarter that certain executive compensation would not be deductible for federal income tax purposes in 2004 and from an increase in expected state income taxes. The increase in the effective income tax rate lowered net income in the Fiscal 2004 Year-to-Date Period by \$248,000.

On October 1, 2002, the Company adopted SFAS No. 142 regarding goodwill and other intangible assets. During the Fiscal 2003 Year-to-Date Period, the Company completed its transitional impairment tests, resulting in a non-cash \$8.0 million, net of tax impairment charge for goodwill, recorded as a cumulative effect of adopting a new accounting principle.

Operating income for the Fiscal 2004 Year-to-Date Period increased \$3.4 million from the Fiscal 2003 Year-to-Date Period to \$9.8 million. This increase was primarily due to a \$5.3 million increase in gross profit on sales and a \$3.5 million greater contribution from same store payday loan operations. Somewhat offsetting these factors were a \$4.1 million increase in labor and incentive compensation, a \$1.0 million increase in professional fees, and a \$0.8 million operating loss at EZMONEY stores opened in the last 12 months. After a \$1.6 million increase in income tax expense and smaller changes in other non-operating items, income before the cumulative effect of adopting a new accounting principle improved 62.9% to \$6.3 million in the Fiscal 2004

## Edgar Filing: EZCORP INC - Form 10-Q/A

Year-to-Date Period from \$3.8 million in the Fiscal 2003 Year-to-Date Period. The Company's net income for the Fiscal 2004 Year-to-Date Period was \$6.3 million, compared to a net loss of \$4.2 million after the cumulative effect of adopting a new accounting principle in the Fiscal 2003 Year-to-Date Period.

### LIQUIDITY AND CAPITAL RESOURCES

Certain transactions presented in the restated Statements of Cash Flows for the nine-month periods ended June 30, 2004 and 2003 have been reclassified between certain sections of the Statements of Cash Flows. A summary of these reclassifications showing their effect on the restated Statements of Cash Flows is provided in Note K to the Condensed Consolidated Financial Statements.

During the Fiscal 2004 Year-to-Date Period, operating activities provided \$16.3 million compared to \$8.1 million in the Fiscal 2003 Year-to-Date Period. Payday loan service charges collected increased \$6.8 million in the Fiscal 2004 Year-to-Date Period due primarily to the growth in the underlying loan portfolio, cash from sales of inventory (less the portion representing a recovery of pawn loan principal) increased \$6.5 million in the Fiscal 2004 Year-to-Date Period compared to the Fiscal 2003 Year-to-Date Period, and pawn service charges collected in cash increased \$0.7 million. Offsetting these improvements in cash flows were an increase of \$4.2 million of labor, benefits, and

18

incentive compensation paid to employees, the payment of \$1.1 million in payroll taxes related to the restricted stock awards discussed above and \$0.7 million paid to settle previously accrued workers' compensation claims. Among other changes, the Company also used \$1.5 million more in the Fiscal 2004 Year-to-Date Period for the direct purchase of customers' merchandise, and \$1.2 million more was paid in income taxes during the Fiscal 2004 Year-to-Date Period.

The Company's financing activities provided \$0.2 million of cash during the Fiscal 2004 Year-to-Date Period, comprised of \$0.4 million proceeds from the exercise of employee stock options and \$0.2 million additional bank borrowings, offset by \$0.4 million paid in connection with the renewal of the Company's credit agreement.

The cash flows from operating and financing activities, as well as \$0.8 million of cash on hand was used to fund \$17.3 million of investments during the Fiscal 2004 Year-to-Date Period. These investments consisted of \$8.3 million of payday loans made net of repayments, \$4.2 million of pawn loans made in excess of those repaid and recovered through the sale of forfeited collateral, and \$5.4 million invested in property and equipment, offset by \$0.7 million of dividends received from the Company's investment in an unconsolidated affiliate.

For purposes of its internal liquidity assessments, the Company considers net cash changes in pawn receivables and payday loan receivables to be closely related to operating cash flows, although in the Statements of Cash Flows these are classified as investing cash flows. The table below presents the combined cash flows from operating and lending activities:

Nine Months Ended June 30,	
2004	2003
(In thousands)	

## Edgar Filing: EZCORP INC - Form 10-Q/A

Combined cash flows from operations and lending:		
Net cash provided by operating activities (restated)	\$ 16,259	\$ 8,083
Net cash flows from pawn loan principal	(4,247)	3,508
Payday loans made, net of repayments	(8,306)	(3,074)
	-----	-----
Combined cash flows from operations and lending	\$ 3,706	\$ 8,517
	=====	=====

Below is a summary of the Company's cash needs to meet its future aggregate contractual obligations in the full fiscal years ending September 30:

Contractual Obligations	Total	Payments due by Period			
		Less than 1 year	1-3 years	3-5 years	More than 5 years
	-----	-----	-----	-----	-----
Long-term debt obligations	\$ 31,200	\$ --	\$ --	\$ 31,200	\$ --
Capital lease obligations	--	--	--	--	--
Operating lease obligations	79,741	12,828	22,297	15,012	29,604
Purchase obligations	--	--	--	--	--
Other long-term liabilities	--	--	--	--	--
	-----	-----	-----	-----	-----
Total	\$110,941	\$ 12,828	\$ 22,297	\$ 46,212	\$ 29,604
	=====	=====	=====	=====	=====

In the remaining three months of the fiscal year ending September 30, 2004, the Company plans to open an additional 35 to 40 EZMONEY payday loan stores for an expected aggregate capital expenditure of approximately \$1.2 million, plus the funding of working capital and start-up losses at these stores. The Company believes that these new stores will create a drag on earnings in their first six to nine months of operations before turning profitable.

Effective April 8, 2004, the Company amended and restated its credit agreement. The amendment extends the maturity date to April 1, 2007 and provides for a \$40.0 million revolving credit facility. Under the terms of the amended agreement, the Company had the ability to borrow an additional \$8.8 million at June 30, 2004. Advances

19

are secured by the Company's assets. Terms of the agreement require, among other things, that the Company meet certain financial covenants. Payment of dividends and additional debt are allowed but restricted.

The Company anticipates that cash flow from operations and availability under its revolving credit facility will be adequate to fund its contractual obligations, planned store growth, capital expenditures, and working capital requirements during the coming year.

### SEASONALITY

Historically, service charge revenues are highest in the Company's first fiscal quarter (October through December) due to improving loan redemption rates coupled with a higher average loan balance following the summer lending season. Sales generally are highest in the Company's first and second fiscal quarters (October through March) due to the holiday season and the impact of tax refunds.

## Edgar Filing: EZCORP INC - Form 10-Q/A

Sales volume can be heavily influenced by the timing of decisions to scrap excess jewelry inventory, which generally occurs during low jewelry sales periods (May through October). The net effect of these factors is that net revenues and net income typically are highest in the first and second fiscal quarters. The Company's cash flow is greatest in its second fiscal quarter primarily due to a high level of loan redemptions and sales in the income tax refund season.

### USE OF ESTIMATES AND ASSUMPTIONS

Management's Discussion and Analysis of Financial Condition and Results of Operations are based upon the Company's condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, management evaluates its estimates and judgments, including those related to revenue recognition, inventory, allowance for losses on payday loans, long-lived and intangible assets, income taxes, contingencies and litigation. Management bases its estimates on historical experience, observable trends, and various other assumptions that are believed to be reasonable under the circumstances. Management uses this information to make judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ materially from the estimates under different assumptions or conditions.

### DISCLOSURE AND INTERNAL CONTROLS

Based on an assessment of the effectiveness of the Company's disclosure controls and procedures, accounting policies, and the underlying judgments and uncertainties affecting the application of those policies and procedures, management believes that the Company's condensed consolidated financial statements provide a meaningful and fair perspective of the Company in all material respects. There have been no significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation. Management identified no significant deficiencies or material weaknesses in internal controls, but did identify and take corrective action related to a significant deficiency in its disclosure controls and procedures surrounding the preparation of its Condensed Consolidated Statements of Cash Flows, as more thoroughly discussed in Item 4, "Controls and Procedures" below. Other risk factors, such as those discussed elsewhere in this interim report as well as changes in business strategies, could adversely impact the consolidated financial position, results of operations, and cash flows in future periods.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The following discussion about the Company's market risk disclosures involves forward-looking statements. Actual results could differ materially from those projected in the forward-looking statements. The Company is exposed to market risk related to changes in interest rates, foreign currency exchange rates, and gold prices. The Company also is exposed to regulatory risk in relation to its payday loans. The Company does not use derivative financial instruments.

The Company's earnings and financial position may be affected by changes in gold prices and the resulting impact on pawn lending and jewelry sales. The proceeds of scrap sales and the Company's ability to liquidate excess jewelry inventory at an acceptable margin are dependent upon gold prices. The impact on the

## Edgar Filing: EZCORP INC - Form 10-Q/A

Company's financial position and results of operations of a hypothetical change in gold prices cannot be reasonably estimated.

The Company's earnings are affected by changes in interest rates due to the impact those changes have on its debt, all of which is variable-rate debt. If interest rates average 25 basis points more during the remaining three months of the fiscal year ending September 30, 2004 than they did in the comparable period of 2003, the Company's interest expense during those three months would increase by approximately \$20,000. This amount is determined by considering the impact of the hypothetical interest rates on the Company's variable-rate debt at June 30, 2004.

The Company's earnings and financial position are affected by foreign exchange rate fluctuations related to the equity investment in A&B. A&B's functional currency is the U.K. pound. The U.K. pound exchange rate can directly and indirectly impact the Company's results of operations and financial position in several ways. For example, a devalued pound could result in an economic recession in the U.K., which in turn could impact A&B's and the Company's results of operations and financial position. The impact on the Company's results of operations and financial position of a hypothetical change in the exchange rate between the U.S. dollar and the U.K. pound cannot be reasonably estimated due to the interrelationship of operating results and exchange rates. The translation adjustment, net of tax, representing the strengthening in the U.K. pound during the quarter ended March 31, 2004 (included in the Company's June 30, 2004 results on a three-month lag as described above) was approximately a \$154,000 increase to stockholders' equity. On June 30, 2004, the U.K. pound closed at 1.00 to 1.8074 U.S. dollars, a weakening from 1.8262 at March 31, 2004. No assurance can be given as to the future valuation of the U.K. pound and how further movements in the pound could affect future earnings or the financial position of the Company.

### FORWARD-LOOKING INFORMATION

This Quarterly Report on Form 10-Q includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical information provided herein are forward-looking and may contain information about financial results, economic conditions, trends and known uncertainties. The Company cautions the reader that actual results could differ materially from those expected by the Company depending on the outcome of certain factors, including without limitation (i) fluctuations in the Company's inventory and loan balances, inventory turnover, average yields on loan portfolios, pawn redemption rates, payday loan default and collection rates, labor and employment matters, competition, operating risk, acquisition and expansion risk, changes in the number of expected store openings, changes in expected returns from new stores, liquidity, and capital requirements and the effect of government and environmental regulations, and (ii) adverse changes in the market for the Company's services. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. The Company undertakes no obligations to release publicly the results of any revisions to these forward-looking statements which may be made to reflect events or circumstances after the date hereon, including without limitation, changes in the Company's business strategy or planned capital expenditures, or to reflect the occurrence of unanticipated events.

### ITEM 4. CONTROLS AND PROCEDURES

The Company restated its Condensed Consolidated Statements of Cash Flows for the quarter ended June 30, 2004 and the years ended September 30, 2003, 2002 and 2001. For a description of the restatement of the Condensed Consolidated Statements of Cash Flows and the amendment of related disclosures, see the

## Edgar Filing: EZCORP INC - Form 10-Q/A

Explanatory Note on the second page of this Form 10-Q/A.

Under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, management of the Company has evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of June 30, 2004 ("Evaluation Date").

21

In making this evaluation, we considered matters relating to the restatement of the previously issued Consolidated Statements of Cash Flows and the amendment of related disclosures. The Company determined that a significant deficiency existed in its disclosure controls surrounding the preparation of the Statements of Cash Flows. The Company has taken steps to improve the control processes surrounding the preparation and review of the Statements of Cash Flows. Specifically, key personnel involved in the preparation and review of the Company's financial statements have undertaken research of both authoritative guidance and industry practices in order to improve their understanding of cash flow presentation issues relevant to the consumer finance industry. Management also will institute more rigorous reviews of the elements contained in the Statement of Cash Flows to be certain that it accurately captures only cash items consistent with the requirements of the Financial Accounting Standards Board's Statement of Financial Accounting Standards No. 95 - Statement of Cash Flows ("SFAS 95"), and properly segregates transactions between the different activities presented in the Consolidated Statements of Cash Flows. There were no other significant deficiencies, and therefore there were no other corrective actions taken.

In light of, among other things, the facts and circumstances relating to the restatement, the Chief Executive Officer and Chief Financial Officer concluded the significant deficiency noted above and the restatement itself were not reflective of any material weakness in the disclosure controls and procedures. In support of this conclusion, the Chief Executive Officer and Chief Financial Officer noted that the Company's restatement of its Consolidated Statements of Cash Flows for the quarter ended June 30, 2004 and the years ended September 30, 2003, 2002 and 2001 is, in substance, only a reclassification of certain items as well as an elimination of certain non-cash items in the Consolidated Statements of Cash Flows, as more fully described in Note K to the Condensed Consolidated Financial Statements. Also, to management's knowledge no investor has expressed to the Company any confusion or uncertainty about the Company's disclosure approach during that period of time.

The reclassification is the result of an interpretation of the Company's business characteristics in relation to generally accepted accounting principles pursuant to the requirements of SFAS 95, which calls for the exclusion of non-cash transactions from the statement of cash flows.

Management assessed the magnitude of any actual or potential misstatement resulting from the changes described above and concluded that the magnitude of any actual or potential misstatement was limited to the classification of certain items in the "Cash Flows from Operating Activities" and "Cash Flows from Investing Activities" sections of the Consolidated Statements of Cash Flows and did not affect any other part of the Consolidated Statements of Cash Flows or any of the Company's other financial statements.

Based upon the evaluation described above, the Chief Executive Officer and Chief Financial Officer concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) are effective to ensure that information required to be

## Edgar Filing: EZCORP INC - Form 10-Q/A

disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. Additionally, there were no significant changes in the Company's internal controls or other factors that could significantly affect those controls subsequent to the date of their evaluation.

The Company's management, including its Chief Executive Officer and Chief Financial Officer, does not expect that the Company's disclosure controls and procedures or internal controls will prevent all possible error and fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

22

### PART II

#### ITEM 1. LEGAL PROCEEDINGS

As previously announced on a Form 8-K filed on May 21, 2004 with the Securities and Exchange Commission, the Company received a subpoena on May 14, 2004 from the Securities and Exchange Commission relating to an investigation of certain jewelry companies. The subpoena requested the Company's documents concerning Morgan Schiff & Co., Inc. The Company believes it has responded fully to the subpoena. Since completing its response to the subpoena, the Company has received no further communication from the Securities and Exchange Commission regarding this matter.

From time to time, the Company is involved in litigation and regulatory actions arising from its normal business operations. Currently, the Company is a named party in several actions, some of which involve claims for substantial amounts. While the ultimate outcome of these actions cannot be determined, after consultation with counsel, the Company believes the resolution of these actions will not have a material adverse effect on the Company's financial condition, results of operation, or liquidity. There can be no assurance, however, as to the ultimate outcome of these actions.

#### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.
