**Item 2.05 Costs Associated with Exit or Disposal Activities.**

On March 2, 2007, Advanced Energy Industries, Inc. (the Company) filed a Form 8-K announcing that the Company's Board of Directors had approved a plan for the closure of its manufacturing, distribution, and research and development facility located in Stolberg, Germany. At the time of the filing, the Company was unable in good faith to make a determination of an estimate or range of estimates required by paragraphs (b), (c) and (d) of Item 2.05 of Form 8-K.

Pursuant to Item 2.05 of Form 8-K, the Company is now filing an amended Form 8-K to announce its determination of such estimates. In connection with the reductions, the Company estimates that it will incur total pre-tax restructuring and related asset impairment charges of approximately \$3.6 million as follows:

Asset impairment charges of approximately \$900,000 in accordance with Statement of Financial Accounting Standards (SFAS) No. 144 *Accounting for the Impairment or Disposal of Long-Lived Assets* to write-down the facilities' real and personal property to estimated fair market value.

Severance and benefit costs of approximately \$2.1 million in accordance with SFAS No. 146 *Accounting for Costs Associated with Exit or Disposal Activities*.

Other costs incurred to close and consolidate facilities as well as transfer production to other facilities of approximately \$600,000.

All of the charges, except for the approximately \$900,000 asset impairment charge, will result in future cash expenditures relating to severance, benefits and other plant exit and consolidation costs in 2007.

**Item 2.06 Material Impairments**

In connection with committing to the restructuring plan described in Item 2.05 above, management concluded that it was required to record the asset impairment charges described under Item 2.05. The information set forth above in Item 2.05 is hereby incorporated by reference into this Item 2.06.
