**ITEM 2.02. RESULTS OF OPERATIONS AND FINANCIAL CONDITION.**

On January 22, 2009, Northrop Grumman Corporation (the Company) issued a press release announcing that it will record a 2008 fourth quarter non-cash, after-tax charge of \$3.0 billion to \$3.4 billion for impairment of goodwill recorded in connection with acquisitions made by the Company in 2001 and 2002. The estimated impairment charge primarily results from the effects of adverse equity market conditions on parameters used by the Company in its required annual testing of goodwill. As a result of this charge, the Company announced that it will report a net loss for the fourth quarter and 2008. The Company is in the process of finalizing the actual amount of the impairment charge, which will be completed prior to reporting fourth quarter and full year 2008 financial results.

The Company also announced updates to its guidance for 2008. The Company announced that it expects 2008 earnings per share from continuing operations before the impairment charge to meet the upper end (\$5.20 per share) of its prior guidance range, and that it expects cash from operations and free cash flow to exceed the upper end (\$2.9 billion and \$2.1 billion, respectively) of prior guidance ranges.

Earnings per share from continuing operations before the impairment charge, as used in the press release and this disclosure in Item 2.02 is a non-GAAP financial measure. The Company has provided this information for consistency and comparability of the 2008 results with the Company's prior guidance and results of operations for prior periods.

Free cash flow is also a non-GAAP financial measure that is described further in the press release.

Statements in this disclosure on Item 2.02 are forward-looking statements and subject to risks and uncertainties described in the press release.

The press release is furnished as Exhibit 99 and incorporated in this Current Report on Form 8-K by reference.
