STRAYER EDUCATION, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
Information as of June 30, 2006 and 2007 is unaudited.

1. Basis of Presentation

The financial statements are presented on a consolidated basis. The accompanying financial statements include the accounts of Strayer Education, Inc., Strayer University, Inc. (the "University") and Education Loan Processing, Inc. ("ELP"), collectively referred to herein as the "Company".

The results of operations for the three months and six months ended June 30, 2007 are not necessarily indicative of the results to be expected for the full fiscal year. All information as of June 30, 2006, December 31, 2006 and June 30, 2007 and for the three and six months ended June 30, 2006 and 2007 is unaudited but, in the opinion of management, contains all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the condensed consolidated financial position, results of operations and cash flows of the Company. The year end condensed balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America.

The Company's educational programs are offered on a quarterly basis. Approximately 97% of the Company's revenues during the six months ended June 30, 2007 consisted of tuition revenue. Tuition revenue is recognized in the quarter of instruction. Tuition revenue is shown net of any refunds, withdrawals, corporate discounts, scholarships and employee tuition discounts. At the time of registration, a liability (unearned tuition) is recorded for academic services to be provided and a tuition receivable is recorded for the portion of the tuition not paid upfront in cash. Revenues also include application fees, commencement fees, placement test fees, withdrawal fees, loan service and origination fees, textbook-related income and other income which are recognized when incurred.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

2. Nature of Operations

Strayer Education, Inc., a Maryland corporation, conducts its operations through its subsidiaries. The University is an accredited institution of higher education that provides undergraduate and graduate degrees in various fields of study through its 47 campuses in Pennsylvania, Delaware, Maryland, Washington, D.C., Virginia, North Carolina, South Carolina, Kentucky, Tennessee, Alabama, Georgia, and Florida and worldwide via online courses. ELP originates and administers student loans for the University's students. These loans are held for sale.

3. Earnings Per Share

Basic earnings per share is computed by dividing net income available to common stockholders by the weighted average number of shares of common stock outstanding during the periods. Diluted earnings per share reflects the potential dilution that could occur assuming conversion or exercise of all dilutive unexercised stock options and restricted stock. The dilutive effect of stock options was determined using the treasury stock method. Under the treasury stock method, the proceeds received from the exercise of stock options, the amount of compensation cost for future service not yet recognized by the Company, and the amount of tax benefits that would be recorded in additional paid-in capital when the stock options become deductible for income tax purposes are all assumed to be used to repurchase shares of the Company's common stock. Stock options are not included in the computation of diluted earnings per share when the stock option exercise price of an individual grant exceeds the average market price for the period. At June 30, 2007, the Company had no issued and outstanding stock options that were excluded from the calculation.

Table of Contents

Set forth below is a reconciliation of shares used to compute net income per share (in thousands):

	For the three months ended June 30,		For the six months ended June 30,	
	2006	2007	2006	2007

Unvested restricted stock	6	87	3	76
Shares used to compute diluted net income per share	14,497	14,509	14,528	14,486

4. Credit Facilities

The Company maintains two credit facilities from two banks in the amount of \$10.0 million each. Interest on any borrowings under the facilities will accrue at an annual rate of no more than 0.75% above the London Interbank Offered Rate. There was no outstanding balance and there were no fees payable on either facility as of June 30, 2007. An unsecured letter of credit in the amount of \$1.2 million, which expires in July 2008, was issued by the University in favor of regulators in connection with their periodic approval activities.

5. Stockholders' Equity

Common Stock

A total of 20,000,000 shares of common stock, par value \$0.01, have been authorized. As of December 31, 2006 and June 30, 2007, the Company had 14,293,584 and 14,496,922 shares of common stock issued and outstanding, respectively. Commencing in the fourth quarter of 2006, the Company increased the annual common stock cash dividend from \$1.00 to \$1.25 per share or \$0.3125 per share quarterly.

Stock-based compensation

On January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123(R), Share-based Payment, ("FAS 123(R)") which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors, including employee stock options and employee stock purchases related to the Company's Employee Stock Purchase Plan ("employee stock purchases"), based on estimated fair values. FAS 123(R) supersedes the Company's previous accounting under Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees ("APB 25") for periods beginning January 1, 2006. In March 2005, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 107 ("SAB 107") relating to FAS 123(R). The Company has applied the provisions of SAB 107 in its adoption of FAS 123(R).

The Company adopted FAS 123(R) using the modified prospective transition method provided under the rule, which requires the application of the accounting standard as of January 1, 2006. The Company's consolidated financial statements as of and for the three and six months ended June 30, 2006 and 2007 reflect the impact of FAS 123(R). In accordance with the modified prospective transition method provided under the rule, the Company's consolidated

financial statements for prior periods have not been restated to reflect, and do not include, the impact of FAS 123(R).

FAS 123(R) requires companies to estimate the fair value of share-based payment awards on the date of grant using an option-pricing model. The Company has elected to estimate fair value using the Black-Scholes option pricing valuation model. The value of the portion of the award that is ultimately expected to vest is recognized as expense over the requisite service periods in the Company's Consolidated Statements of Income. Prior to the adoption of FAS 123(R), the Company accounted for stock-based awards to employees and directors using the intrinsic value method in accordance with

8

Table of Contents

APB 25 pursuant to Statement of Financial Accounting Standards No. 123, Accounting for Stock-based Compensation ("FAS 123"). Under the intrinsic value method, no stock-based compensation expense was recognized in the Company's Consolidated Statements of Income because the exercise price of the Company's stock options granted to employees and directors equaled the fair market value of the underlying stock at the date of grant.

Stock-based compensation expense recognized in the Company's Consolidated Statements of Income for the three and six months ended June 30, 2006 and 2007 included compensation expense for share-based payment awards granted prior to, but not yet vested as of December 31, 2005, based on the grant date fair value estimated in accordance with the pro forma provisions of FAS 123 and compensation expense for the share-based payment awards granted subsequent to December 31, 2005, based on the grant date fair value estimated in accordance with the provisions of FAS 123(R). Stock-based compensation expense recognized in the Consolidated Statements of Income for the three and six months ended June 30, 2006 and 2007 is based on awards ultimately expected to vest and, therefore, has been adjusted for estimated forfeitures. FAS 123(R) requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates.

The Company's determination of fair value of share-based payment awards on the date of grant using an option-pricing model is affected by the Company's stock price as well as assumptions regarding a number of highly complex and subjective variables. These variables include, but are not limited to, the Company's expected stock price volatility over the term of the awards, and actual and projected employee stock option exercise behaviors.

Stock-based compensation plans

In July 1996, the Company's stockholders approved 1,500,000 shares of common stock for grants under the Company's 1996 Stock Option Plan. This plan was amended by the stockholders at the May 2001 Annual Stockholders' Meeting and at the May 2005 Annual Stockholders' Meeting to increase the number of shares authorized for issuance thereunder by 1,000,000 and 500,000, respectively (as amended, the "Plan"). A total of 3,000,000 shares have therefore been approved for grants under the Plan. The Plan was again amended at the May 2006 Annual Stockholders' Meeting to authorize a one-time exchange of stock options for restricted stock by employees (excluding the five highest compensated executive officers) and to permit restricted stock and cash awards to qualify for favorable tax treatment under Section 162(m) of the Internal Revenue Code. The Plan provides for the grant of options intended to qualify as incentive stock options, and also provides for the grant of non-qualifying options and restricted stock to employees, officers and directors of the Company. Options and restricted stock may be granted to eligible employees, officers or directors of the Company at the discretion of the Board of Directors. Vesting provisions are also at the discretion of the Board of Directors. Options may be granted at option prices based at or above the fair market value of the shares at the date of grant. The maximum term of the options granted under the Plan is ten years.

In May 1998, the Company adopted the Strayer Education, Inc. Employee Stock Purchase Plan (“ESPP”). Under the ESPP, eligible employees may purchase shares of the Company’s common stock, subject to certain limitations, at 90% of its market value at the date of purchase. Purchases are limited to 10% of an employee’s eligible compensation. The aggregate number of shares of common stock that may be made available for purchase by participating employees under the ESPP is 2,500,000 shares.

In February 2006, the Company’s Board of Directors approved cash payments to the holders of vested stock options in an amount equivalent to the Company’s common stock dividends. These cash payments are remitted on the same dates as the Company’s dividends and amounted to approximately \$0.2 million and \$0.1 million for the three months ended June 30, 2006 and 2007, respectively, and approximately \$0.3 million and \$ 0.2 million for the six months ended June 30, 2006 and 2007, respectively.

In February 2007, the Company’s Board of Directors approved a grant of 20,016 shares of restricted stock to certain employees. These shares vest 100% on February 13, 2010. The Company’s stock price closed at \$113.72 on the date of the restricted stock grant.

In May 2007, the Company awarded 3,726 shares of restricted stock to various non-employee members of the Company’s Board of Directors as part of its annual director compensation program. The Company’s stock price closed at \$128.67 on the date of this restricted stock grant.

Forfeitures were estimated based on historical experience.

6. Investments in Marketable Securities

Most of the Company's excess cash is invested in tax-exempt money market funds and a diversified, short-term, investment grade, tax-exempt bond fund to minimize the Company's principal risk and to benefit from the tax efficiency of the fund's underlying securities. As of June 30, 2007, the Company had a total of \$75.7 million invested in the short-term tax-exempt bond fund. The investments are considered "available-for-sale" as they are not held for trading and will not be held to maturity, in accordance with Statement of Financial Accounting Standards No. 115, Accounting for Certain Investments in Debt and Equity Securities. The Company records the net unrealized gains and losses for changes in fair value as a component of accumulated other comprehensive income in stockholders' equity. Realized gains and losses from the sale of marketable securities are based on the specific identification method.

7. Long-Term Liabilities

Lease Incentives

In conjunction with the opening of new campuses and renovating existing ones, the Company, in some instances, was reimbursed by the lessors for improvements made to the leased properties. In accordance with Financial Accounting Standards Board ("FASB") Technical Bulletin No. 88-1, these improvements were capitalized as leasehold improvements and a long-term liability was established for the reimbursements. The leasehold improvements and the long-term liability will be amortized on a straight-line basis over the corresponding lease terms, which range from five to ten years. As of December 31, 2006 and June 30, 2007, the Company had deferred lease incentives of \$3.9 million and \$4.2 million, respectively.

Lease Obligations

In accordance with the FASB Technical Bulletin No. 85-3, Accounting for Operating Leases with Schedule Rent Increases, the Company records rent expense on a straight-line basis over the initial term of a lease. The difference between the rent payment and the straight-line rent expense is recorded as a long-term liability. As of December 31, 2006 and June 30, 2007, the Company had deferred lease obligations of \$3.8 million and \$4.2 million, respectively.

11

Table of Contents

Deferred Gain

In conjunction with the sale and lease back of its Loudoun, Virginia campus building in June 2007, the Company realized a gain of \$2.8 million before tax, which is deferred and recognized over the 10-year lease term. The non-current portion of this gain, which was \$2.5 million at June 30, 2007, is recorded as long-term liability.

8. Income Taxes

The Company adopted the provisions of Financial Standards Accounting Board Interpretation No. 48, Accounting for Uncertainty in Income Taxes (“FIN 48”), an interpretation of FASB Statement No. 109 (“SFAS 109”) on January 1, 2007. As a result of the implementation of FIN 48, no material adjustment in the liability for unrecognized income tax benefits was recognized. The amount of unrecognized tax benefits at the adoption date of January 1, 2007 and at June 30, 2007 are immaterial. The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. As of June 30, 2007, the amount of accrued interest related to uncertain tax positions was immaterial. The tax years 2003-2006 remain open to examination by the major taxing jurisdictions to which the Company is subject.

9. Sale of Campus Building

In the second quarter 2007, the Company sold its Loudoun, Virginia campus building for \$5.8 million. The Company will lease back most of the campus building over a 10-year period. The transaction resulted in a gain of \$2.8 million before tax, which is to be recognized over the 10-year lease term.

10. Recent Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 157 (“SFAS 157”), Fair Value Measurements, which defines fair value, establishes guidelines for measuring fair value and expands disclosures regarding fair value measurements. SFAS 157 does not require any new fair value measurements but rather eliminates inconsistencies in guidance found in various prior accounting pronouncements. SFAS 157 is effective for fiscal years beginning after November 15, 2007. Earlier adoption is permitted, provided that the company has not yet issued financial statements, including for interim periods, for that fiscal year. We are currently evaluating the impact of SFAS 157, but do not expect the adoption of SFAS 157 to have a material impact on our consolidated financial position, results of operations or cash flows.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 158. “Employers’ Accounting for Defined Benefit Pension and Other Postretirement Plans” (FAS 158), an amendment to FASB Statements No. 87, 88, 106 and 132(R). FAS 158 requires an employer to recognize the overfunded or underfunded status of a defined benefit pension and other postretirement benefit plan as an asset or liability in its statement of financial position and to

recognize changes in that funded status in the year in which the changes occur through other nonowner changes in equity. The standard also requires disclosure in the notes to the financial statements of additional information about certain effects on net periodic benefit costs of the next fiscal year that arise from delayed recognition of gains or losses, prior services costs and transition asset or obligation. An employer with publicly traded equity securities is required to initially recognize the funded status of a defined benefit postretirement plan and to provide the required disclosures as of the end of the fiscal year ending after December 15, 2006. The Company does not expect the adoption of FAS 158 will have a material effect on the Company's financial position or results of operations since it has no defined benefit pension or other postretirement plan.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities". This statement permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. This statement also establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The Company is evaluating the statement but does not expect the adoption of SFAS No. 159 will have a material effect on the Company's financial position or results of operations.

Instruction and educational support expenses. Instruction and educational support expenses increased \$4.0 million, or 18%, from \$22.7 million in the second quarter of 2006 to \$26.7 million in the second quarter of 2007. costs, which increased \$1.6 million, \$1.0 million, and \$0.5 million, respectively. Instruction and educational support expenses as a percentage of revenues decreased to 33.9% in the second quarter of 2007 from 34.7% in the second quarter of 2006, largely attributable to faculty costs growing at a lower rate than tuition revenue.

Selling and promotion expenses. Selling and promotion expenses increased \$2.0 million, or 18%, from \$11.2 million in the second quarter of 2006 to \$13.2 million in the second quarter of 2007. General and administration expenses. General and administration expenses increased \$2.4 million, or 24%, from \$10.2 million in the second quarter of 2006 to \$12.6 million in the second quarter of 2007. General and administration expenses as a percentage of revenues increased to 16.0% in the second quarter of 2007 from 15.5% in the second quarter of 2006 primarily due to the above factors.

Provision for income taxes. Income tax expense increased \$2.0 million, or 23%, from \$8.6 million in the second quarter of 2006 to \$10.6 million in the second quarter of 2007, primarily due to the increase in income before taxes attributable to the factors discussed above. Net income. Net income increased \$3.4 million, or 24%, from \$14.0 million in the second quarter of 2006 to \$17.4 million in the second quarter of 2007 because of the factors discussed above.

Revenues. Revenues increased 20% from \$132.6 million in the six months ended June 30, 2006 to \$159.1 million in the six months ended June 30, 2007, principally due to a 16% average increase in student enrollments and a 5% tuition increase effective for 2007.

Instruction and educational support expenses. Instruction and educational support expenses increased \$8.2 million, or 18%, from \$44.8 million in the six months ended June 30, 2006 to \$53.0 million in the six months ended June 30, 2007. This increase was principally due to direct costs necessary to support the increase in student enrollments, including faculty compensation, related academic staff salaries, and campus facility costs, which increased \$3.2 million, \$2.1 million, and \$1.4 million, respectively. These expenses as a percentage of revenues decreased from 33.7% in the six months ended June 30, 2006 to 33.3 % in the six months ended June 30, 2007.

Selling and promotion expenses. Selling and promotion expenses increased \$4.3 million, or 19%, from \$21.8 million in the six months ended June 30, 2006 to \$26.1 million in the six months ended June 30, 2007. Investment and other income. Investment and other income increased \$0.9 million, or 43%, from \$2.1 million in the six months ended June 30, 2006 to \$3.0 million in the six months ended June 30, 2007. Income tax expense increased \$3.6 million, or 19%, from \$18.6 million in the six months ended June 30, 2006 to \$22.2 million in the six months ended June 30, 2007, primarily due to the increase in income before taxes discussed above. The Company's effective tax rate was 38.0% for the six months ended June 30, 2007 compared to 38.3% for the six months ended June 30, 2006. The decrease in the Company's effective tax rate is primarily attributable to higher income from investments in tax-exempt securities.

Most of the Company's excess cash is invested in tax-exempt money market funds and a diversified, short-term, investment grade, tax-exempt bond fund to minimize the Company's principal risk and to benefit from the tax efficiency of the funds' underlying securities. As of June 30, 2007, the Company had a total of \$75.7 million invested in the short-term tax-exempt bond fund. At June 30, 2007, the 413 issues in this fund had an average credit rating of AA, an average maturity of 1.2 years and an average duration of 1.2 years, as well as an average yield to maturity of 3.8%. The Company had no debt as of December 31, 2006 or June 30, 2007.

The Company generated \$5.8 million in net proceeds from the sale of its Loudoun, Virginia campus building in June 2007. For the six months ended June 30, 2007, the Company paid \$9.1 million in cash dividends to its common stockholders and received \$12.3 million upon the exercise of stock options. The Company's remaining authorization for common stock repurchases was \$16 million at June 30, 2007, having spent \$16 million for repurchases in the six months ended June 30, 2007.

In the second quarter of 2007, bad debt expense as a percentage of revenue was 3.5% compared to 2.6% for the same period in 2006. Days sales outstanding, adjusted to exclude tuition receivable related to future quarters, was 12 days at the end of the second quarter of 2007, compared to 10 days in the same period in 2006.

The Company believes that existing cash, cash equivalents, and marketable securities, cash generated from operating

activities, and if necessary, cash borrowed under the credit facilities, will be sufficient to meet the Company's requirements for at least the next 12 months.

The table below sets forth our contractual commitments associated with operating leases as of June 30, 2007. Although they have historically been paid by the Company, common stock dividend payments are not a contractual commitment and, therefore, have been excluded from this table.

	Total	Payments due by period (in thousands)			
		Within 1 Year	2-3 Years	4-5 Years	After 5 Years
Operating leases	\$ 112,103	\$ 15,572	\$ 33,624	\$ 26,151	\$ 36,756
New Campuses					

As previously announced, Strayer University plans to open four new campuses for the fall academic term, pending final regulatory approvals. Two of these new campuses will be in New Jersey, one in Cherry Hill and the other in Willingboro, on the campus of Burlington Community College. The other two new campuses will be in Knoxville, Tennessee and Atlanta, Georgia (Strayer University's fifth campus in that market). These four campuses, together with the two Kentucky campuses and two Florida campuses opened earlier this year, will complete the Company's planned eight campus openings in 2007. The Company intends to announce in October the number of new campuses Strayer University's is planning to open in 2008.

Early Reaffirmation of Accreditation

As previously announced, The Middle States Commission on Higher Education has reaffirmed on an accelerated basis the accreditation of Strayer University for a full ten-year period, through 2017. The Commission's decision to accelerate the University's reaffirmation was based on its extensive review of the University's 2006 voluntary self study, and eliminates the necessity for the Commission's accreditation review previously scheduled for 2011.

Business Outlook

Based on enrollment growth for the 2007 summer term, the Company estimates third quarter 2007 diluted EPS will be in the range of \$0.60-\$0.62. The Company estimates that it will incur stock-based compensation expense of approximately \$0.11 per share after tax in the third quarter of 2007, which is included in the Company's diluted EPS estimate.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is subject to the impact of interest rate changes and may be subject to changes in the market values of its future investments. The Company invests its excess cash in bank overnight deposits, money market funds and a short-term tax-exempt bond fund. The Company has not used derivative financial instruments in its investment portfolio.

Earnings from investments in bank overnight deposits, money market mutual funds, and short-term tax-exempt bond funds may be adversely affected in the future should interest rates change. The Company's future investment income

may fall short of expectations due to changes in interest rates or the Company may suffer losses in principal if forced to sell securities that have declined in market value due to changes in interest rates. As of June 30, 2007, a 10% increase or decrease in interest rates would not have a material impact on the Company's future earnings, fair values, or cash flows related to investments in cash equivalents or interest earning marketable securities.
