Item 8.01 Other Events.

On April 3, 2006, AutoNation, Inc. issued a press release announcing that it received lender commitments of \$600.0 million for a term loan. A copy of the press release is attached as Exhibit 99.1 hereto and its contents are incorporated herein by reference.

The \$600.0 million in term loan commitments exceeded AutoNation's original expectations. Accordingly, AutoNation anticipates that its previously announced offering of senior unsecured notes will be reduced to an aggregate principal amount of \$600.0 million. AutoNation expects to finance its previously announced equity tender offer and debt tender offer and consent solicitation with the proceeds of the \$600.0 million term loan, the net proceeds from the offering of the \$600.0 million principal amount of senior unsecured notes, revolving credit facility borrowings of approximately \$125.0 million and approximately \$200.0 million of existing cash on hand. Set forth below is AutoNation's updated presentation of the estimated sources and uses of funds for the foregoing transactions.

This presentation assumes that 50,000,000 shares are purchased for \$23 per share and that all of the 9% senior notes are tendered and that all such notes are purchased in the debt tender offer and paid for on April 12, 2006, for total consideration and accrued interest payable per \$1,000 principal amount of old notes of \$1,098.41, based on a hypothetical purchase price determined based on a fixed spread over the 4.124% U.S. Treasury Note due August 15, 2008 and based upon the yield on such benchmark security as of March 8, 2006. It is also assumed that, of the \$600.0 million of senior notes to be issued, an equal aggregate principal amount of the floating rate notes and the fixed rate notes are issued, although the relative size of each tranche remains to be determined.
