LHC GROUP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. Organization

LHC Group, Inc. (the Company) is a healthcare provider specializing in the post-acute continuum of care primarily for Medicare beneficiaries in rural markets in the southern United States. The Company provides home-based services, primarily through home nursing agencies and hospices, and facility-based services, primarily through long-term acute care hospitals and outpatient rehabilitation clinics. As of the date of this report, the Company, through its wholly and majority-owned subsidiaries, equity joint ventures, and controlled affiliates, operated in Louisiana, Alabama, Arkansas, Mississippi, Texas, West Virginia, Kentucky, Florida, Georgia and Tennessee.

Unaudited Interim Financial Information

The condensed consolidated balance sheet as of March 31, 2007 and the related condensed consolidated statements of income and cash flows for the three months ended March 31, 2007 and 2006 and related notes (interim financial information) have been prepared by LHC Group, Inc. and are unaudited. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation in accordance with accounting principles generally accepted in the United States have been included. Operating results for the three months ended March 31, 2007 are not necessarily indicative of the results that may be expected for the year ended December 31, 2007.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted from the interim financial information presented. These condensed consolidated financial statements should be read in conjunction with the notes to the consolidated financial statements included in the Company's Consolidated Financial Statements in the Company's Annual Report as filed with the Securities and Exchange Commission on Form 10-K for the year ended December 31, 2006, which includes information and disclosures not included herein.

2. Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenue and expenses during the reported period. Actual results could differ from those estimates.

Critical Accounting Policies

The most critical accounting policies relate to the principles of consolidation, revenue recognition, accounts receivable and allowances for uncollectible accounts, and accounting for goodwill and intangible assets.

Principles of Consolidation

The consolidated financial statements include all subsidiaries and entities controlled by the Company. Control is generally defined by the Company as ownership of a majority of the voting interest of an entity. The consolidated financial statements include entities in which the Company absorbs a majority of any losses, receives a majority of any residual returns, or both, as a result of ownership, contractual or other financial interests in the entity.

All significant inter-company accounts and transactions have been eliminated in consolidation. Business combinations, which are accounted for as purchases, have been included in the consolidated financial statements from the respective dates of acquisition.

Table of Contents

The following describes the Company's consolidation policy with respect to its various ventures excluding wholly-owned subsidiaries:

Equity Joint Ventures

The Company's joint ventures are structured as limited liability companies in which the Company typically owns a majority equity interest ranging from 51% to 99%. Each member of all but one of the Company's equity joint ventures participates in profits and losses in proportion to their equity interests. The Company has one joint venture partner whose participation in losses is limited. The Company consolidates these entities as the Company absorbs a majority of any losses, receives a majority of any residual returns and generally has voting control over the entity.

Cooperative Endeavors

The Company has arrangements with certain partners that involve the sharing of profits and losses. Unlike the equity joint ventures, the Company owns 100% of the equity in these cooperative endeavors. In these cooperative endeavors, the Company possesses interests in the net profits and losses ranging from 67% to 70%. The Company has one cooperative endeavor partner whose participation in losses is limited. The Company consolidates these entities as the Company owns 100% of the outstanding equity and the Company absorbs a majority of any losses and receives a majority of any residual returns.

License Leasing Arrangements

The Company, through wholly-owned subsidiaries, leases home health licenses necessary to operate certain of its home nursing agencies. As with wholly-owned subsidiaries, the Company owns 100% of the equity of these entities and consolidates them based on such ownership as well as the Company's right to receive a majority of any residual returns and the Company's obligation to absorb a majority of any losses.

Management Services

The Company has various management services agreements under which the Company manages certain operations of agencies and facilities. The Company does not consolidate these agencies or facilities, as the Company does not have an ownership interest and does not have a right to receive a majority of any residual returns or an obligation to absorb a majority of any losses.

The following table summarizes the percentage of net service revenue earned by type of ownership or relationship the Company had with the operating entity:

	Three Months Ended March 31,	
	2007	2006
Wholly-owned subsidiaries	44.7%	38.3%
Equity joint ventures	41.8	47.5
Cooperative endeavors	1.2	1.7
License leasing arrangements	9.6	11.1
Management services	2.7	1.4
	100.0%	100.0%

Revenue Recognition

The Company reports net service revenue at the estimated net realizable amount due from Medicare, Medicaid, commercial insurance, managed care payors, patients, and others for services rendered. Under Medicare, the Company's home nursing patients are classified into a group referred to as a home health resource group prior to the receipt of services. Based on this home health resource group, the Company is entitled to receive a prospective Medicare payment for delivering care over a 60-day period referred to as an episode. Medicare adjusts these prospective payments based on a variety of factors, such as low utilization, patient transfers, changes in condition and the level of services provided. In calculating the Company's reported net service revenue from home nursing

Table of Contents

services, the Company adjusts the prospective Medicare payments by an estimate of the adjustments. The Company calculates the adjustments based on a historical average of these types of adjustments. For home nursing services, the Company recognizes revenue based on the number of days elapsed during the episode of care.

For the Company's long-term acute care hospitals, revenue is recognized as services are provided. Under Medicare, patients in the Company's long-term acute care facilities are classified into long-term diagnosis-related groups. Based on this classification, the Company is then entitled to receive a fixed payment from Medicare. This fixed payment is also subject to adjustment by Medicare due to factors such as short stays. In calculating reported net service revenue for services provided in the Company's long-term acute care hospitals, the Company reduces the prospective payment amounts by an estimate of the adjustments. The Company calculates the adjustment based on a historical average of these types of adjustments for claims paid.

For hospice services, the Company is paid by Medicare under a per diem payment system. The Company receives one of four predetermined daily or hourly rates based upon the level of care the Company furnished. The Company records net service revenue from hospice services based on the daily or hourly rate. The Company recognizes revenue for hospice as services are provided.

Under Medicare, the Company is reimbursed for rehabilitation services based on a fee schedule for services provided adjusted by the geographical area in which the facility is located. The Company recognizes revenue as these services are provided.

The Company's Medicaid reimbursement is based on a predetermined fee schedule applied to each service provided. Therefore, revenue is recognized for Medicaid services as services are provided based on this fee schedule. The Company's managed care payors reimburse the Company under the terms of the related contracts. Accordingly, the Company recognizes revenue from managed care payors consistent with those terms.

The Company records management services revenue as services are provided in accordance with the various management services agreements to which the Company is a party. The agreements generally call for the Company to provide billing, management, and other consulting services suited to and designed for the efficient operation of the applicable home nursing agency, hospice, or inpatient rehabilitation facility. The Company is responsible for the costs associated with the locations and personnel required for the provision of the services. The Company is generally compensated based on a percentage of net billings or an established base fee. In addition, for certain of the management agreements, the Company may earn incentive compensation.

Net service revenue was comprised of the following:

	Three Months Ended March 31,	
	2007	2006
Home-based services	78.6%	69.8%
Facility-based services	21.4	30.2
	100.0%	100.0%

The following table sets forth the percentage of net service revenue earned by category of payor:

	Three Months Ended March 31,	
	2007	2006
Payor:		
Medicare	80.8%	86.1%
Medicaid	6.1	5.2
Other	13.1	8.7
	100.0%	100.0%

Home-Based Services

Home Nursing Services. The Company receives a standard prospective Medicare payment for delivering care. The base payment, established through federal legislation, is a flat rate that is adjusted upward or downward based

-6-

Table of Contents

upon differences in the expected resource needs of individual patients as indicated by clinical severity, functional severity, and service utilization. The magnitude of the adjustment is determined by each patient's categorization into one of 80 payment groups, known as home health resource groups, and the costliness of care for patients in each group relative to the average patient. The Company's payment is also adjusted for differences in local prices using the hospital wage index. The Company performs payment variance analyses to verify the models utilized in projecting total net service revenue are accurately reflecting the payments to be received.

Medicare rates are subject to change. Due to the length of the Company's episodes of care, a situation may arise where Medicare rate changes affect a prior period's net service revenue. In the event that Medicare rates experience change, the net effect of that change will be reflected in the current reporting period.

Final payments from Medicare may reflect one of five retroactive adjustments to ensure the adequacy and effectiveness of the total reimbursement: (a) an outlier payment if the patient's care was unusually costly; (b) a low utilization adjustment if the number of visits was fewer than five; (c) a partial payment if the patient transferred to another provider before completing the episode; (d) a change-in-condition adjustment if the patient's medical status changes significantly, resulting in the need for more or less care; or (e) a payment adjustment based upon the level of therapy services required in the population base. Management estimates the impact of these payment adjustments based on historical experience and records this estimate during the period the services are rendered.

Hospice Services. The Company's Medicare hospice reimbursement is based on an annually-updated prospective payment system. Hospice payments are also subject to two caps. One cap relates to individual programs receiving more than 20% of their total Medicare reimbursement from inpatient care services. The second cap relates to individual programs receiving reimbursements in excess of a cap amount, calculated by multiplying the number of beneficiaries during the period by a statutory amount that is indexed for inflation. The determination for each cap is made annually based on the 12-month period ending on October 31 of each year. This limit is computed on a program-by-program basis. None of the Company's hospices exceeded either cap during the three months ended March 31, 2007 or 2006.

Facility-Based Services

Long-Term Acute Care Services. The Company is reimbursed by Medicare for services provided under the long-term acute care hospital prospective payment system, which was implemented on October 1, 2002. Each patient is assigned a long-term care diagnosis-related group. The Company is paid a predetermined fixed amount applicable to that particular group. This payment is intended to reflect the average cost of treating a Medicare patient classified in that particular long-term care diagnosis-related group. For selected patients, the amount may be further adjusted based on length of stay and facility-specific costs, as well as in instances where a patient is discharged and subsequently readmitted, among other factors. Similar to other Medicare prospective payment systems, the rate is also adjusted for geographic wage differences.

Outpatient Rehabilitation Services. Outpatient therapy services are reimbursed on a fee schedule, subject to annual limitations. Outpatient therapy providers receive a fixed fee for each procedure performed, adjusted by the geographical area in which the facility is located. The Company recognizes revenue as the services are provided. There are also annual per Medicare beneficiary caps that limit Medicare coverage for outpatient rehabilitation services.

Accounts Receivable and Allowances for Uncollectible Accounts

The Company reports accounts receivable net of estimated allowances for uncollectible accounts and adjustments. Accounts receivable are uncollateralized and primarily consist of amounts due from third-party payors and patients. To provide for accounts receivable that could become uncollectible in the future, the Company establishes an allowance for uncollectible accounts to reduce the carrying amount of such receivables to their estimated net realizable value. The credit risk for other concentrations of receivables is limited due to the significance of Medicare as the primary payor. The Company does not believe that there are any other significant concentrations of receivables from any particular payor that would subject it to any significant credit risk in the collection of accounts receivable.

Table of Contents

The amount of the provision for bad debts is based upon the Company's assessment of historical and expected net collections, business and economic conditions, and trends in government reimbursement. Uncollectible accounts are written off when the Company has determined the account will not be collected.

A portion of the estimated Medicare prospective payment system reimbursement from each submitted home nursing episode is received in the form of a request for accelerated payment (RAP). The Company submits a RAP for 60% of the estimated reimbursement for the initial episode at the start of care. The full amount of the episode is billed after the episode has been completed. The RAP received for that particular episode is deducted from the final payment. If a final bill is not submitted within the greater of 120 days from the start of the episode, or 60 days from the date the RAP was paid, any RAPs received for that episode will be recouped by Medicare from any other claims in process for that particular provider. The RAP and final claim must then be re-submitted. For any subsequent episodes of care contiguous with the first episode for a particular patient, the Company submits a RAP for 50% instead of 60% of the estimated reimbursement. The Company has earned net service revenue in excess of billings rendered to Medicare. Only a nominal portion of the amounts due to the Medicare program represent cash collected in advance of providing services.

Our Medicare population is paid at a prospectively set amount that can be determined at the time services are rendered. Our Medicaid reimbursement is based on a predetermined fee schedule applied to each individual service we provide. Our managed care contracts are structured similar to either the Medicare or Medicaid payment methodologies. Because of our payor mix, we are able to calculate our actual amount due at the patient level and adjust the gross charges down to the actual amount at the time of billing. This negates the need for an estimated contractual allowance to be booked at the time we report net service revenue for each reporting period.

At March 31, 2007, our allowance for uncollectible accounts, as a percentage of patient accounts receivable, was approximately 10.5%. For the three months ended March 31, 2007, the provision for doubtful accounts increased to 2.6% of net service revenue compared to 1.8% of net service revenue for the same period in 2006. Adverse changes in general economic conditions, billing operations, payor mix, or trends in federal or state governmental coverage could affect our collection of accounts receivable, cash flows and results of operations.

The following table sets forth our aging of accounts receivable (based on the billing date) as of March 31, 2007:

Payor	0-30	31-60	61-90	91-120	121-150	151+	Total
	(in thousands)						
Medicare	\$ 20,383	\$ 4,736	\$ 2,548	\$ 1,202	\$ 1,888	\$ 9,103	\$ 39,860
Medicaid	1,348	1,512	543	377	640	3,921	8,341
Other	4,745	3,049	1,822	695	1,297	10,274	21,882
Total	\$ 26,476	\$ 9,297	\$ 4,913	\$ 2,274	\$ 3,825	\$ 23,298	\$ 70,083

Goodwill and Intangible Assets

Goodwill and other intangible assets with indefinite lives are reviewed annually for impairment or more frequently if circumstances indicate impairment may have occurred.

The Company estimates the fair value of its identified reporting units and compares those estimates against the related carrying value. For each of the reporting units, the estimated fair value is determined based on a multiple of earnings before interest, taxes, depreciation, and amortization or on the estimated fair value of assets in situations when it is readily determinable.

Included in intangible assets, net are other intangible assets such as licenses to operate home-based and/or facility-based services and trade names. The Company has valued these intangible assets separately from goodwill for each acquisition completed after January 1, 2006. The Company has concluded that these licenses and trade names have indefinite lives, as management has determined that there are no legal, regulatory, contractual, economic or other factors that would limit the useful life of these intangible assets and the Company intends to renew and operate the licenses and use these trade names indefinitely. Prior to January 1, 2006, the Company elected to

Table of Contents

recognize the fair value of indefinite-lived licenses and trade names together with goodwill as a single asset for financial reporting purposes.

Components of the Company's home nursing operating segment are generally represented by individual subsidiaries or joint ventures with individual licenses to conduct specific operations within geographic markets as limited by the terms of each license. Components of the Company's facility-based services are represented by individual operating entities. Effective January 1, 2004, management aggregates the components of these two segments into two reporting units for purposes of evaluating impairment.

Other Significant Accounting Policies

Due to/from Governmental Entities

The Company's critical access hospital and long-term acute care hospitals are reimbursed for certain activities based on tentative rates. Final reimbursement is determined based on submission of annual cost reports and audits by the fiscal intermediary. Adjustments are accrued on an estimated basis in the period the related services are rendered and further adjusted as final settlements are determined. These adjustments are accounted for as changes in estimates. There have been no significant changes in estimates during the three months ended March 31, 2007 and 2006.

Property, Building, and Equipment

Property, building, and equipment are stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the individual assets, generally ranging from three to ten years and up to thirty-nine years on buildings. Depreciation expense for the three months ended March 31, 2007 and 2006 was \$710,000 and \$532,000, respectively.

Capital leases are included in equipment. Capital leases are recorded at the present value of the future rentals at lease inception and are amortized over the shorter of the applicable lease term or the useful life of the equipment. Amortization of assets under the capital lease obligations is included in depreciation and amortization expense.

Long-Lived Assets

The Company reviews the recoverability of long-lived assets whenever events or circumstances occur which indicate recorded costs may not be recoverable. If the expected future cash flows (undiscounted) are less than the carrying amount of such assets, the Company recognizes an impairment loss for the difference between the carrying amount of the assets and their estimated fair value.

Income Taxes

The Company accounts for income taxes using the liability method. Under the liability method, deferred taxes are determined based on differences between the financial reporting and tax bases of assets and liabilities, and are measured using the enacted tax laws that will be in effect when the differences are expected to reverse. Management provides a valuation allowance for any net deferred tax assets when it is more likely than not that a portion of such net deferred tax assets will not be recovered.

Minority Interest and Cooperative Endeavor Agreements

The interest held by third parties in subsidiaries owned or controlled by the Company is reported on the consolidated balance sheets as minority interest. Minority interest reported in the consolidated statements of income reflects the respective interests in the income or loss of the subsidiaries attributable to the other parties, the effect of which is removed from the Company's consolidated results of operations.

Several of the Company's home health agencies have cooperative endeavor agreements with third parties that allow the third parties to be paid or recover a fee based on the profits or losses of the respective agencies. The

Table of Contents

Company accrues for the settlement of the third party's profits or losses during the period the amounts are earned. Under the agreements, the Company has incurred net amounts due to the third parties of \$56,000 and \$65,000 for the three months ended March 31, 2007 and 2006, respectively. The cooperative endeavor agreements have terms expiring at the end of June 2008.

For agreements where the third party is a healthcare institution, the agreements typically require the Company to lease building and equipment and receive housekeeping and maintenance from the healthcare institutions. Ancillary services related to these arrangements are also typically provided by the healthcare institution.

Minority Interest Subject to Exchange Contracts and/or Put Options

The Company has a put option agreement with the minority interest holders of a majority-owned subsidiary, St. Landry Extended Care Hospital, LLC (St. Landry), which allows the minority interest holders to redeem their minority interests for cash. As of March 31, 2007, approximately 76.5% of the doctors have converted their minority interests to cash.

There were no redemptions in the three months ended March 31, 2007. In the three months ended March 31, 2007, the Company recorded a mark-to-market charge of \$35,000 for these redeemable minority interests. Included in minority interests subject to exchange contracts and/or put options liability at March 31, 2007 and December 31, 2006 is \$279,000 and \$314,000, respectively, related to these redeemable minority interests.

Stock-based Compensation

The Company has two stock option plans that are administered by the Compensation Committee of the Board of Directors, which selects persons eligible to receive awards and determines the number of shares and/or options subject to each award, the terms, conditions, performance measures and other provisions of the award. Readers should refer to note 6 of the Company's consolidated financial statements in its Annual Report on Form 10-K for the year ended December 31, 2006 for additional information related to these stock-based compensation plans.

The Company accounts for its stock-based compensation plans using the fair value recognition provisions of Statement of Financial Accounting Standards.

Earnings Per Share

Basic per share information is computed by dividing the item by the weighted-average number of shares outstanding during the period. Diluted per share information is computed by dividing the item by the weighted-average number of shares outstanding plus dilutive potential shares.

The following table sets forth shares used in the computation of basic and diluted per share information:

	Three Months Ended March 31,	
	2007	2006
Weighted average number of shares outstanding for basic per share calculation	17,748,369	16,557,828
Effect of dilutive potential shares:		
Options	4,789	940
Restricted stock	54,180	4,600
Adjusted weighted average shares for diluted per share calculation	17,807,338	16,563,368

Recently Issued Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157), which defines fair value, establishes a framework for measuring fair value in GAAP and expands disclosures about fair value measurements. SFAS No. 157 will be effective for financial statements issued for fiscal years beginning after

Table of Contents

November 15, 2007, and interim periods within those fiscal years. The Company is currently evaluating the requirements of this new standard and has not concluded its analysis on the impact to the Company's consolidated financial position or results of operations.

In February 2007, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting (SFAS) No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment to FASB Statement No. 115* (SFAS No. 159), which permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS No. 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. The Company is currently evaluating the requirements of this new standard and has not concluded its analysis on the impact to the Company's consolidated financial position or results of operations.

3. Acquisitions and Divestitures

The following acquisitions were completed pursuant to the Company's strategy of becoming the leading provider of post-acute healthcare services to Medicare patients in selected rural markets in the southern United States. The purchase price of each acquisition was determined based on the Company's analysis of comparable acquisitions and target market's potential cash flows. Goodwill generated from the acquisitions was recognized based on the expected contributions of each acquisition to the overall corporate strategy. The Company expects the goodwill recognized in connection with the acquisition of existing operations to be fully tax deductible.

2007 Acquisitions

During the three month period ended March 31, 2007, the Company acquired the existing operations of four entities for \$5,298,000 in cash and \$439,000 in acquisition costs. Goodwill of \$4.8 million and other intangibles of \$1.0 million were assigned to the home based services segment.

2007 Divestitures

The Company has reclassified the operations of one long-term acute care hospital out of discontinued operations in the three months ended March 31, 2007 and 2006. The facility had previously been identified as held for sale and accounted for in discontinued operations throughout the year ended December 31, 2006. Goodwill of \$402,000 and other assets related to this hospital were classified as assets held for sale at December 31, 2006. The operating results for the three months ended March 31, 2006, previously disclosed in discontinued operations, have been reclassified to continuing operations in the statement of income.

The Company has identified one pharmacy operation as held for sale as of March 31, 2007. The assets related to this operation are classified as assets held for sale on the balance sheet.

The following table summarizes the operating results of divestitures which have been presented as loss from discontinued operations in the accompanying consolidated statements of income:

	Three Months Ended March 31,	
	2007	2006
Net service revenue	\$ 542	\$ 1,594
Costs, expenses and minority interest and cooperative endeavor allocations	547	1,933
Gain (Loss) from discontinued operations before income taxes	(5)	(339)
Income taxes (benefit)	(2)	(129)
Gain (Loss) from discontinued operations	\$ (3)	\$ (210)

The changes in recorded goodwill by segment for the three month period ended March 31, 2007 were as follows:

Table of Contents

	Three months Ended March 31, 2007 (in thousands)
Home-based services segment:	
Balance at December 31, 2006	\$ 35,740
Goodwill acquired during the period from acquisitions	4,830
Balance at March 31, 2007	\$ 40,570
Facility-based services segment:	
Balance at December 31, 2006	\$ 3,941
Goodwill classified as held for sale at December 31, 2006	402
Balance at March 31, 2007	\$ 4,343

The above transactions were considered to be immaterial individually and in the aggregate. Accordingly, no supplemental pro forma information is required.

4. Credit Arrangements**Long-Term Debt**

Long-term debt consisted of the following:

	March 31, 2007	December 31, 2006
	(in thousands)	
Notes payable:		
Due in yearly installments of \$50,000 through August 2010 at 6.25%	\$ 190	\$ 190
Due in monthly installments of \$20,565 through October 2015 at LIBOR plus 225 basis points (7.57% at March 31, 2007)	2,891	2,898
Due in monthly installments of \$12,500 through November 2009 at 3.08%	359	391
	3,440	3,479
Less current portion of long-term debt	430	428
	\$ 3,010	\$ 3,051

In August 2005, the Company entered into a promissory note with Bancorp Equipment Finance, Inc. to purchase an airplane, for a principal amount of \$2,975,000 with interest on any outstanding principal balance at the one month LIBOR rate plus 225 basis points (7.57% at March 31, 2007). The note is collateralized by the Company's airplane and is payable in 119 monthly installments of \$20,565 followed by one balloon installment in the amount of \$1,920,565.

In August 2005, the Company entered into a promissory note with the seller of A-1 Nursing Registry, Inc. (A-1) in conjunction with the purchase of the assets of A-1. The principal amount of the note is \$250,000 and it bears interest at 6.25%.

Certain of the Company's loan agreements contain certain restrictive covenants, including limitations on indebtedness and the maintenance of certain financial ratios. At March 31, 2007 and at December 31, 2006, the Company was in compliance with all covenants.

Other Credit Arrangements

The Company maintains a revolving-debt arrangement. Under the terms of this arrangement, the Company may be advanced funds up to a defined limit of eligible accounts receivable not to exceed the borrowing limit. At March 31, 2007 and December 31, 2006, the borrowing limit was \$22,500,000, and no amounts were outstanding. Interest accrues on any outstanding amounts at a varying rate and is based on the Wells Fargo Bank, N.A. prime rate plus 1.5% (9.75% at March 31, 2007). The annual facility fee is 0.5% of the total availability. The agreement expires on April 15, 2010.

5. Income Taxes

Table of Contents

The Company adopted the provisions of FASB Interpretation No. 48 Accounting for Uncertainty in Income Taxes (FIN 48) effective January 1, 2007. The adoption did not have a material effect on the consolidated financial position or results of operations of the Company. At the date of adoption, the Company had no unrecognized tax benefits. The Company recognizes interest and penalties related to uncertain tax positions in interest expense and general and administrative expenses, respectively. As of March 31, 2007, there were no accrued interest or penalties relating to unrecognized income tax benefits recognized in the statement of operations. There was no accrued liability for interest or penalties related to unrecognized income tax benefits recognized in the statement of financial position at March 31, 2007.

The Company is subject to both federal and state income tax for jurisdictions within which it operates. Within these jurisdictions, the Company is open to examination for tax years ended after December 31, 2002.

6. Stockholders Equity

The following table summarizes the activity in stockholders equity for the three month period ended March 31, 2007 (amounts in thousands, except per share data):

	Common Stock				Additional Paid-In Capital	Retained Earnings	Total
	Amount	Issued Shares	Amount	Treasury Shares			
Balances at December 31, 2006	\$ 177	20,682,317	\$(2,856)	2,950,059	\$ 80,273	\$ 44,295	\$ 121,889
Net income						6,263	6,263
Issuance of 1,167 shares of vested restricted stock		1,167			33		33
Nonvested stock compensation					194		194
Issuance of nonvested stock		13,477					
Excess tax benefits from issuance of nonvested stock					51		51
Issuance of common stock under Employee Stock Purchase Plan		3,240			88		88
Recording minority interest in joint venture at redemption value						35	35
Balances at March 31, 2007	\$ 177	20,700,201	\$(2,856)	2,950,059	\$ 80,639	\$ 50,593	\$ 128,553

Share Based Compensation

On January 20, 2005, the board of directors and stockholders of the Company approved the 2005 Long Term Incentive Plan (the Incentive Plan). The Incentive Plan provides for 1,000,000 shares of common stock that may be issued or transferred pursuant to awards made under the plan. A variety of discretionary awards for employees, officers, directors and consultants are authorized under the Incentive Plan, including incentive or non-qualified statutory stock options and restricted stock. All awards must be evidenced by a written award certificate which will

include the provisions specified by the compensation committee of the board of directors. The compensation committee will determine the exercise price for non-statutory stock options. The exercise price for any option cannot be less than the fair market value of our common stock as of the date of grant.

Also on January 20, 2005, the 2005 Director Compensation Plan was adopted. The shares issued under our 2005 Director Compensation Plan are issued from the 1,000,000 shares reserved for issuance under our Incentive Plan.

Stock Options

At March 31, 2007, 21,000 options were issued and exercisable. No options were exercised or forfeited during the three months ended March 31, 2007. There were no options granted during the three months ended March 31, 2007. There were no options exercised, forfeited or granted during the three month period ended March 31, 2006.

Table of Contents*Nonvested Stock*

During the three months ended March 31, 2007, 12,600 nonvested shares of stock were granted to our independent directors under the 2005 Director Compensation Plan. Of these 12,600 shares, 9,100 shares vest in one year, while the remaining 3,500 shares vest one third immediately, and the remaining two-thirds vest over the two year period following the grant date. During the three months ended March 31, 2007, 109,425 nonvested shares were granted to employees pursuant to the 2005 Long-Term Incentive Plan. Of these 109,425 shares, 2,000 shares vest over a three year period while the remaining 107,425 shares vest over a five year period. The fair value of nonvested shares is determined based on the closing trading price of the Company's shares on the grant date. The weighted average grant date fair values of nonvested shares granted during the three month period ended March 31, 2007 were \$30.30.

The following table represents the nonvested stock activity for the three months ended March 31, 2007:

	Number of Shares	Weighted average grant date fair value
Nonvested shares outstanding at December 31, 2006	86,716	\$ 18.29
Granted	122,025	30.30
Vested	(14,644)	18.96
Forfeited		
Nonvested shares outstanding at March 31, 2007	194,097	\$ 25.58

As of March 31, 2007, there was \$4.8 million of total unrecognized compensation cost related to nonvested shares granted. That cost is expected to be recognized over the weighted average period of 4.1 years. The total fair value of shares vested in the three month periods ended March 31, 2007 was \$397,000. No shares vested in the three months ended March 31, 2006. The Company records compensation expense related to nonvested share awards at the grant date for shares that are awarded fully vested, and over the vesting term on a straight line basis for shares that vest over time. The Company has recorded \$227,000 and \$96,000 in compensation expense related to nonvested stock grants in the periods ended March 31, 2007 and 2006 respectively.

Employee Stock Purchase Plan

The Company has a plan whereby eligible employees may purchase the Company's common stock at 95% of the market price on the last day of the calendar quarter. There are 250,000 shares reserved for the plan. The Company issued 3,240 shares of common stock under the plan at a per share price of \$27.08 during the three months ended March 31, 2007. At March 31, 2007 there were 239,664 shares available for future issuance.

7. Commitments and Contingencies**Contingencies**

The terms of several joint venture operating agreements grant a buy/sell option that would require the Company to either purchase or sell the existing membership interest in the joint venture within 30 days of the receipt of the notice to exercise the provision. Either the Company or its joint venture partner has the right to exercise the buy/sell option. The party receiving the exercise notice has the right to either purchase the interests held by the other party or sell its interests to the other party. The purchase price formula for the interests is set forth in the joint venture agreement and is typically based on a multiple of the earnings before income taxes, depreciation and amortization of the joint venture. Total revenue earned by the Company from joint ventures subject to these arrangements was \$3.8 million and \$3.5 million for the three months ended March 31, 2007 and 2006, respectively. The Company has not received notice from any joint venture partners of their intent to exercise the buy/sell option nor has the Company notified any joint venture partners of any intent to exercise the buy/sell option.

Table of Contents

The Company is involved in various legal proceedings arising in the ordinary course of business. Although the results of litigation cannot be predicted with certainty, management believes the outcome of pending litigation will not have a material adverse effect, after considering the effect of the Company's insurance coverage, on the Company's consolidated financial statements.

Compliance

The laws and regulations governing the Company's operations, along with the terms of participation in various government programs, regulate how the Company does business, the services offered, and interactions with patients and the public. These laws and regulations, and their interpretations, are subject to frequent change. Changes in existing laws or regulations, or their interpretations, or the enactment of new laws or regulations could materially and adversely affect the Company's operations and financial condition.

The Company is subject to various routine and non-routine governmental reviews, audits, and investigations. In recent years, federal and state civil and criminal enforcement agencies have heightened and coordinated their oversight efforts related to the healthcare industry, including with respect to referral practices, cost reporting, billing practices, joint ventures, and other financial relationships among healthcare providers. Violation of the laws governing the Company's operations, or changes in the interpretation of those laws, could result in the imposition of fines, civil or criminal penalties, termination of the Company's rights to participate in federal and state-sponsored programs, and suspension or revocation of the Company's licenses.

If the Company's long-term acute care hospitals fail to meet or maintain the standards for Medicare certification as long-term acute care hospitals, such as average minimum length of patient stay, they will receive payments under the prospective payment system applicable to general acute care hospitals rather than payment under the system applicable to long-term acute care hospitals. Payments at rates applicable to general acute care hospitals would likely result in the Company receiving less Medicare reimbursement than currently received for patient services. Moreover, all of the Company's long-term acute care hospitals are subject to additional Medicare criteria because they operate as separate hospitals located in space leased from, and located in, a general acute care hospital, known as a host hospital. This is known as a hospital within a hospital model. These additional criteria include requirements concerning financial and operational separateness from the host hospital.

The Company anticipates there may be changes to the standard episode-of-care payment from Medicare in the future. Due to the uncertainty of the revised payment amount, the Company cannot estimate the impact that changes in the payment rate, if any, will have on its future financial statements. In August 2004, the Centers for Medicare and Medicaid Services, or CMS, adopted new regulations that implement significant changes affecting long-term acute care hospitals. Among other things, these new regulations, which became effective in October 2004, implemented new rules that provide long-term acute care hospitals operating in the hospital within a hospital model with lower rates of reimbursement for Medicare admissions from their host hospitals that are in excess of specified percentages.

These new rules also reclassified certain long-term acute care hospital diagnosis related groups, which could result in a decrease in reimbursement rates. Further, the new rules kept in place the financial penalties associated with the failure to limit to 5% the total number of Medicare patients discharged to the host hospital and subsequently readmitted to a long-term acute care hospital located within the host hospital.

The Company believes that it is in material compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no such regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action, including fines, penalties, and exclusion from the Medicare program.

8. Segment Information

The Company's segments consist of (a) home-based services and (b) facility-based services. Home-based services include home nursing services and hospice services. Facility-based services include long-term acute care

Table of Contents

services and outpatient rehabilitation services. The accounting policies of the segments are the same as those described in the summary of significant accounting policies.

	Three Months Ended March 31, 2007		
	Home-Based Services	Facility-Based Services (in thousands)	Total

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

CAUTIONARY NOTICE REGARDING FORWARD-LOOKING STATEMENTS

This Management's Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements. Forward-looking statements relate to expectations, beliefs, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts or that necessarily depend upon future events. In some cases, you can identify forward-looking statements by terms such as may, will, should, could, would, expect, plan, anticipate, believe, estimate, project, predict, potential, and

Specifically, this report contains, among others, forward-looking statements about:

our expectations regarding financial condition or results of operations for periods after March 31, 2007;

our future sources of and needs for liquidity and capital resources;

our expectations regarding any future indebtedness under our credit facility;

our expectations regarding the size and growth of the market for our services;

-16-

Table of Contents

our business strategies and our ability to grow our business;

the implementation or interpretation of current or future regulations and legislation;

the reimbursement levels of third-party payors;

the effect of adjustments and corrections to prior reimbursement levels by third-party payors on our financial condition or results of operations;

possible changes in legislation and/or government regulations that would affect our business;

possible effects of legal proceedings on our financial condition and results of operations;

the sufficiency of our self-funded medical insurance plan;

the impact that the cost of medical supplies may have on our financial condition or results of operations;

the impact of interest rates on our business; and

our discussion of our critical accounting policies.

The forward-looking statements contained in this report reflect our current views about future events, are based on assumptions and are subject to known and unknown risks and uncertainties. Many important factors could cause actual results or achievements to differ materially from any future results or achievements expressed in or implied by our forward-looking statements. Many of the factors that will determine future events or achievements are beyond our ability to control or predict. Important factors that could cause actual results or achievements to differ materially from the results or achievements reflected in our forward-looking statements include, among other things, the factors discussed in the Part II, Item 1A Risk Factors, included in this report and in other of our filings with the SEC, including our annual report on Form 10-K for the year ended December 31, 2006. This report should be read in conjunction with that annual report on Form 10-K, and all our other filings, including quarterly reports on Form 10-Q and current reports on Form 8-K, made with the SEC through the date of this report.

You should read this report, the information incorporated by reference into this report and the documents filed as exhibits to this report completely and with the understanding that our actual future results or achievements may be materially different from what we expect or anticipate.

The forward-looking statements contained in this report reflect our views and assumptions only as of the date this report is signed. Except as required by law, we assume no responsibility for updating any forward-looking statements.

We qualify all of our forward-looking statements by these cautionary statements. In addition, with respect to all of our forward-looking statements, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.

Unless the context otherwise requires, we, us, our, and the Company refer to LHC Group, Inc. and its consolidated subsidiaries.

Overview

We provide post-acute healthcare services primarily to Medicare beneficiaries in rural markets in the southern United States. We provide these post-acute healthcare services through our home nursing agencies, hospices, long-term acute care hospitals and outpatient rehabilitation clinic. Since our founders began operations in 1994 with one

Table of Contents

home nursing agency in Palmetto, Louisiana, we have grown to 141 locations in Louisiana, Mississippi, Alabama, Texas, Arkansas, West Virginia, Kentucky, Florida, Tennessee, and Georgia as of March 31, 2007.

Segments

We operate in two segments for financial reporting purposes: home-based services and facility-based services. We derived 78.6% and 69.8% of our net service revenue during the three months ended March 31, 2007 and 2006, respectively, from our home-based services segment and derived the balance of our net service revenue from our facility-based services segment.

Through our home-based services segment we offer a wide range of services, including skilled nursing, private duty nursing, physical, occupational, and speech therapy, medically-oriented social services, and hospice care. As of March 31, 2007, we owned and operated 113 home nursing locations, seven hospices, a diabetes self management company, and a home health pharmacy. Of our 122 home-based services locations, 83 are wholly-owned by us and 39 are majority-owned or controlled by us through joint ventures. We also manage the operations of four home nursing agencies and one hospice in which we have no ownership interest. We intend to increase the number of home nursing agencies that we operate through continued acquisition and development, primarily in underserved rural markets, as we implement our growth strategy. As we acquire and develop home nursing agencies, we anticipate the percentage of our net service revenue and operating income derived from our home-based services segment will increase.

We provide facility-based services principally through our long-term acute care hospitals and outpatient rehabilitation clinic. As of March 31, 2007, we owned and operated four long-term acute care hospitals with seven locations, of which all but one are located within host hospitals. We also owned and operated an outpatient rehabilitation clinic, a critical access hospital, a pharmacy, two medical equipment locations, and a health club. Of these 13 facility-based services locations, seven are wholly-owned by us and six are majority-owned or controlled by us through joint ventures. We also manage the operations of one inpatient rehabilitation facility in which we have no ownership interest. Because of the recent changes in the regulations applicable to long-term acute care hospitals operated as hospitals within hospitals, we do not intend to expand the number of hospital within a hospital long-term acute care hospitals that we operate. Due to our emphasis on expansion through the acquisition and development of home nursing agencies, we anticipate that the percentage of our net service revenue and operating income derived from our facility-based segment will decline.

Recent Developments*Medicare*

Home-Based Services. The base payment rate for Medicare home nursing in 2007 is \$2,339 per 60-day episode. Since the inception of the prospective payment system in October 2000, the base episode rate payment has varied due to both the impact of annual market basket based increases and Medicare-related legislation. Home health payment rates are updated annually by either the full home health market basket percentage, or by the home health market basket percentage as adjusted by Congress. CMS establishes the home health market basket index, which measures inflation in the prices of an appropriate mix of goods and services included in home health services.

On April 27, 2007, the Centers for Medicare & Medicaid Services (CMS) issued a Notice of Proposed Rulemaking regarding the Home Health Prospective Payment System Refinement and Rate Update for Calendar Year 2008 (Proposed Rule). The Proposed Rule includes changes to the base rate calculation, refinements to the payment system, and new quality of care data collection requirements, among others. According to the release, the Proposed Rule is open for public comment for a period of 60 days from the date of the release and would be effective on January 1, 2008. Management is currently evaluating the net impact to its consolidated results of operation and cash flows for the Proposed Rule.

On April 20, 2007, CMS released a transmittal that provided for a correction of the hospice cap amount for fiscal years ending October 31, 2004 and 2003. As a result of the correction, the new cap amounts are \$18,963 and \$18,143 for fiscal 2004 and 2003, respectively, compared to the prior rates of \$19,636 and \$18,661 for fiscal 2004 and 2003, respectively. For those providers who are affected by the corrected cap amounts, revised calculations and

Table of Contents

letters are to be issued by July 31, 2007 by the fiscal intermediary. Management completed an analysis of the Company's potential cap exposure using the corrected rates for both fiscal 2004 and fiscal 2003, and as a result of this analysis, has determined that the change will not have a material impact to the Company's consolidated financial position, cash flows or results of operations.

On April 2, 2007, CMS provided a time extension to health care providers to comply with the National Provider Identifier (NPI) deadline implementation, as required under the regulations of the Health Insurance Portability and Accountability Act (HIPAA) of 1996. The final rule establishes the NPI as the standard unique health provider identifier for health care providers and requires all covered entities to be in compliance with the provisions of such final rule by May 23, 2007 (the NPI Deadline). The NPI is an identifier that is to be used by covered entities to identify health care providers, thus eliminating the current need for multiple identifiers for the same provider. The NPI will be required for use on all health care claims and other HIPAA transactions. The extension has been considered by CMS as it had become apparent that many covered entities were not going to be able to fully comply with the NPI standard by the NPI Deadline. Management is currently in the final stages of its system upgrades to properly assign the required NPI to each claim that will be processed from the NPI Deadline forward, and management does not foresee the requirement having a material impact to the Company's consolidated financial position, cash flows or results of operations as the Company is on target to be compliant by the NPI Deadline.

On November 1, 2006, CMS released the final rule updating the home health perspective payment systems for calendar year 2007. The rule finalizes the market basket increase of 3.3%, a 0.2% increase over the proposed rule. This equates to a 3.1% update for urban home health agencies (HHAs) and a 3.6% update for rural HHAs after accounting for changes in the wage index. The update increases the national 60-day episode payment rate for urban home health agencies from the current level of \$2,264.38 to \$2,339.00. Under the final rule, HHAs will get the full home health market basket as long as they submit required quality data using the Outcome and Assessment Information Set (OASIS). With some limited exceptions, if an HHA does not provide this data, then its home health market basket update of 3.3% will be reduced by two percentage points. The final rule discontinues the temporary 5% add-on payment for rural HHAs in 2007, except for episodes that begin before January 1, 2007. The final rule does not modify the current case-mix methodology for 2007.

Approximately 55% and 53%, respectively, of our net service revenue for the three months ended March 31, 2007 and 2006 was derived from patients who do not reside in Metropolitan Statistical Areas (MSAs).

In August 2006, CMS announced the payment rates for hospice care furnished from October 1, 2006 through September 30, 2007. These rates are 3.4% higher more than the rates for the previous year. In addition, CMS announced that the hospice cap amount for the year ending October 31, 2006 is \$20,585.

Facility-Based Services Under the long-term acute care hospital prospective payment system implemented on October 1, 2002, each patient discharged from our long-term acute care hospitals is assigned a long-term care diagnosis-related group (LTCH-DRG). CMS establishes these long-term care diagnosis-related groups by categorizing diseases by diagnosis, reflecting the amount of resources needed to treat a given disease. For each patient, our long-term acute care hospitals are paid a pre-determined fixed amount applicable to the particular LTCH-DRG to which that patient is assigned. The payment is further increased for severity based on co-morbidities, complications and procedures. The payment is decreased for short-stay outlier patients whose stay does not reach a predetermined minimum assigned for the LTCH-DRG. In addition, extremely high cost patients, after crossing a fixed loss threshold, receive an additional high-cost outlier payment intended to account for resource utilization requirements above the LTCH-DRG payment.

On May 2, 2007 CMS published its annual long-term acute care hospital update for the LTCH Rate Year which begins July 1, 2007. There are five major portions of the final rule that are noteworthy for the operations of our long-term acute care hospitals. The Final Rule projects an overall decrease in payments to all Medicare certified long-term acute care hospitals of 3.8% compared to an impact estimated at 2.9% under the proposed rule. Included in the Final Rule are the following: (1) an increase to the standard federal payment rate of 0.71% which is a base rate of \$38,356.45; (2) revisions to payment methodologies impacting short stay outliers, which reduce payments by 0.9%; (3) adjustments to the wage index component of the federal payment resulting in projected reductions in payments of 1.0%; (4) an increase in the high cost outlier threshold from \$18,477 per discharge in the proposed rule to \$22,954 in

the Final Rule resulting in projected reductions of 2.5%; and (5) an extension of the policy known as the 25 Percent Rule to all LTAC hospitals, with a three-year phase-in, which CMS projects will not result in payment reductions

-19-

Table of Contents

for the first year of implementation but estimates reductions of 2.4% in the second year of implementation. The Final Rule also states that the annual update to the LTCH-DRG classifications and relative weights will be made in a budget neutral manner, effective October 1, 2007 which means that even after annual re-weighting of LTCH-DRGs, total payments to LTACs will not be reduced.

Our analysis has shown that the impact of this final rule to be a 3.29% reduction in payments to our long-term acute care hospitals. This reduction is less than the projected decrease of 3.8% forecast by CMS in the final rule. We currently operate a total of seven long-term acute care hospitals. Six of our hospitals are classified as hospitals within a hospital (HwH) and one as a freestanding.

The final rule regarding extension of the 25% rule to freestanding facilities will not have an effect on our one existing freestanding location based on our analysis that no single referral source is greater than 25% of Medicare discharges.

Under Medicare, we are reimbursed for rehabilitation services based on a fee schedule for services provided adjusted by the geographical area in which the facility is located. Outpatient therapy services are subject to an annual cap of \$1,780 per beneficiary effective January 1, 2007. The Deficit Reduction Act of 2005 and the Tax Relief and Health Care Act of 2006 provided for an exceptions process that effectively prevents application of the caps. The exceptions process ends January 1, 2008. We are unable to predict whether Congress will extend the exceptions process for 2008. We cannot assure you that one or more of our outpatient rehabilitation clinics will not exceed the caps in the future.

Office of Inspector General

The Office of Inspector General (OIG) has a responsibility to report both to the Secretary of the Department of Health and Human Services and to Congress any program and management problems related to programs such as Medicare. The OIG's duties are carried out through a nationwide network of audits, investigations and inspections. Each year, the OIG outlines areas it intends to study relating to a wide range of providers. In fiscal year 2007, the OIG indicated its intent to study topics relating to, among others, home health, hospice, long-term care hospitals, and certain outpatient rehabilitation services. No estimate can be made at this time regarding the impact, if any, of the OIG's findings.

Components of Expenses

Cost of Service Revenue

Our cost of service revenue consists primarily of the following expenses incurred by our clinical and clerical personnel in our agencies and facilities:

salaries and related benefits;

transportation, primarily mileage reimbursement; and

supplies and services, including payments to contract therapists.

General and Administrative Expenses

Our general and administrative expenses consist primarily of the following expenses incurred by our home office and administrative field personnel:

Home office:

salaries and related benefits;

insurance;

costs associated with advertising and other marketing activities; and

rent and utilities;

Table of Contents

Supplies and services:
accounting, legal and other professional services; and

office supplies;
Depreciation; and

Provision for bad debts.

Results of Operations**Three Months Ended March 31, 2007 Compared to Three Months Ended March 31, 2006***Net Service Revenue*

Net service revenue for the three months ended March 31, 2007 was \$70.0 million, an increase of \$23.5 million, or 50.7%, from \$46.5 million in 2006. The increase in net service revenue is due primarily to the increase in patient census in the home-based segment. For the three months ended March 31, 2007 and 2006 80.8% and 86.1% respectively, of our net service revenue was derived from Medicare.

Home-Based Services.

Net home-based services revenue for the three months ended March 31, 2007 was \$55.1 million, an increase of 69.8%, from \$32.4 million for the three months ended March 31, 2006. Organic growth in this service sector was approximately \$17.6 million, or 66.3%. The increase in net home-based service revenue is due primarily to the increase in patient census through acquisitions and internal growth. Total admissions were 9,431 during the period, versus 5,570 for the same period in 2006, a 69.3% increase. Organic growth in admissions was 61.7%. The Company also monitors patient census as a key performance indicator within its home based services. LHC Group's average home-based patient census for the three months ended March 31, 2007 was 15,712 patients, an increase of 71.9% as compared to 9,138 patients for the three months ended March 31, 2006. Organic growth in home-based patient census was 62.2%. Organic growth includes growth on same store locations (owned for greater than 12 months), and growth from de novo locations. Growth from acquired locations owned less than 13 months is not included.

	For the three months ended March 31,			For the three months ended March 31,			For the three months ended March 31,		
	2007 Revenue	2006 Revenue	% Growth	2007 Admissions	2006 Admissions	% Growth	2007 Census	2006 Census	% Growth
Organic	\$44,079	\$26,498	66.3%	6,927	4,284	61.7%	12,354	7,616	62.2%
Acquired	\$10,987	\$5,923	85.5%	2,504	1,286	94.7%	3,358	1,522	120.6%
Total	\$55,066	\$32,421	69.8%	9,431	5,570	69.3%	15,712	9,138	71.9%

Facility-Based Services.

Table of Contents

Net service revenue for facility-based services for the three months ended March 31, 2007, increased 6.6% to \$15.0 million compared with \$14.0 million for the three months ended March 31, 2006. The increase in facility-based net service revenue is due primarily to an increase in patient days. Patient days were 11,674 in the three months ended March 31, 2007, as compared with 11,699 in the three months ended March 31, 2006. The 11,699 patient days in the first quarter of 2006 includes 669 patient days for a discontinued entity which is not included in the net service revenue. Patient days, less discontinued operations, increased 5.8% to 11,674 in the three months ended March 31, 2007, from 11,030 in the three months ended March 31, 2006. Outpatient visits decreased 70.2% to 2,615 at March 31, 2007, compared with 8,775 for the three months ended March 31, 2006, due to the sale of one of the Company's clinics and the closure of another clinic on April 1, 2006.

	For the three months ended March 31,			For the three months ended March 31,			For the three months ended March 31,		
	2007 Revenue	2006 Revenue	% Growth	2007 Patient Days	2006 Patient Days	% Growth	2005 Discharges	2006 Discharges	% Growth
Organic	\$14,968	\$13,372	11.9%	11,674	10,757	8.5%	471	426	10.6%
Acquired		675	(100.0)%		273	(100.0)%		27	(100.0)%
Total	\$14,968	\$14,047	6.6%	11,674	11,030	5.8%	471	453	4.0%

Cost of Service Revenue

Cost of service revenue for the three months ended March 31, 2007 was \$35.2 million, an increase of \$10.3 million, or 41.6%, from \$24.9 million for the three months ended March 31, 2006. Cost of service revenue represented approximately 50.3% and 53.5% of our net service revenue for the three months ended March 31, 2007 and 2006, respectively.

Home-Based Services. Cost of home-based services revenue for the three months ended March 31, 2007 was \$26.0 million, an increase of \$9.8 million, or 60.3%, from \$16.2 million for the three months ended March 31, 2006. Approximately \$8.7 million of this increase resulted from an increase in salaries and benefits. Approximately \$6.6 million of the increase in salaries and benefits expense was due to acquisitions that occurred in 2006 and approximately \$1.2 million of the increase in salaries and benefits expense was due to acquisitions that occurred in 2007. The remaining increase in salaries and benefits expense of approximately \$0.9 million was primarily attributable to internal growth. The remaining increase in cost of service revenue was attributable to increases in supplies and services expense and transportation expense of \$0.5 million and \$0.6 million, respectively. The entire increase in supplies and services expense and the entire increase in transportation were due to acquisitions in 2006. Cost of home-based services revenue represented approximately 47.3% and 50.1% of our net home-based services revenue for the three months ended March 31, 2007 and 2006, respectively.

Facility-Based Services. Cost of facility-based services revenue for the three months ended March 31, 2007 was \$9.2 million, an increase of \$0.6 million or 6.2%, from \$8.6 million for the three months ended March 31, 2006. The entire increase resulted from an increase in salaries and benefits from internal growth. Cost of facility-based service revenue represented approximately 61.2% and 61.4% of our net facility-based services revenue for the three months ended March 31, 2007 and 2006, respectively.

General and Administrative Expenses

General and administrative expenses for the three months ended March 31, 2007 were \$23.0 million, an increase of \$7.8 million, or 51.1%, from \$15.2 million for the three months ended March 31, 2006. General and

Table of Contents

administrative expenses represented approximately 32.9% and 32.8% of our net service revenue for the three months ended March 31, 2007 and 2006, respectively.

Home-Based Services. General and administrative expenses in the home-based services segment for the three months ended March 31, 2007 were \$17.8 million, an increase of \$6.5 million, or 57.5%, from \$11.3 million for the three months ended March 31, 2006. Approximately \$4.0 million of the increase in general and administrative expenses was due to acquisitions that occurred in 2006 and approximately \$0.8 million of the increase in general and administrative expenses were due to acquisitions that occurred in 2007. The remaining increase in general and administrative expenses of approximately \$1.7 million was primarily attributable to internal growth. General and administrative expenses in the home-based services segment represented approximately 32.4% and 34.9% of our net service revenue for the three months ended March 31, 2007 and 2006, respectively.

Facility-Based Services. General and administrative expenses for the three months ended March 31, 2007 were \$5.2 million, an increase of \$1.3 million, or 32.5%, from \$3.9 million for the same period in 2006. The entire growth was attributable to internal growth. General and administrative expenses in the facility-based services segment represented approximately 34.8% and 27.9% of our net service revenue for the three months ended March 31, 2007 and 2006, respectively.

Income Tax Expense

The effective tax rates for the three months ended March 31, 2007 and 2006 were 38.6% and 31.2% respectively. The effective tax rate increase in the three months ended March 31, 2007 is primarily due to the reduction in the tax credits related to the Gulf Opportunity Zone Act of 2005.

Minority Interest and Cooperative Endeavor Allocations

The minority interest and cooperative endeavor allocations expense for the three months ended March 31, 2007 was \$1.8 million, compared to \$1.0 million for the same period in 2006. The increase is due primarily to an increase in joint ventures and an increase in the income from operations related to our joint ventures.

Discontinued Operations

Revenue from discontinued operations for the three months ended March 31, 2007 and 2006 was \$0.5 million and \$1.2 million, respectively. Costs, expenses, and minority interest and cooperative endeavor allocations were \$0.5 million and \$1.6 million, respectively, for the three months ended March 31, 2007 and 2006. For the three months ended March 31, 2007, the loss from discontinued operations was \$3,000, as compared to a loss from discontinued operations of \$210,000 for the same period in 2006. In the first quarter of 2007, the Company converted Louisiana Extended Care Hospital of West Monroe back into continuing operations from discontinued operations. After having the entity in discontinued operations for the year ended December 31, 2006, the Company decided to make this change after we did not receive an offer that we felt was indicative of the value of the entity.

Liquidity and Capital Resources

Our principal source of liquidity for our operating activities is the collection of our accounts receivable, most of which are collected from governmental and third party commercial payors. Our reported cash flows from operating activities are impacted by various external and internal factors, including the following:

Operating Results Our net income has a significant impact on our operating cash flows. Any significant increase or decrease in our net income could have a material impact on our operating cash flows.

Start-Up Costs Following the completion of an acquisition, we generally incur substantial start-up costs in order to implement our business strategy. There is generally a delay between our expenditure of these start-up costs and the increase in net service revenue, and subsequent cash collections, which adversely affects our cash flows from operating activities.

Table of Contents

Timing of Payroll Our employees are paid bi-weekly on Fridays; therefore, operating cash flows decline in reporting periods that end on a Friday. Conversely, for those reporting periods ending on a day other than Friday, our cash flows are higher because we have not yet paid our payroll.

Medical Insurance Plan Funding We are self funded for medical insurance purposes. Any significant changes in the amount of insurance claims submitted could have a direct impact on our operating cash flows.

Medical Supplies A significant expense associated with our business is the cost of medical supplies. Any increase in the cost of medical supplies, or in the use of medical supplies by our patients, could have a material impact on our operating cash flows.

Operating activities during the three months ended March 31, 2007 provided \$2.0 million in cash compared to \$5.6 million for the three months ended March 31, 2006. Net income provided cash of \$6.3 million. Non-cash items such as depreciation and amortization, provision for bad debts, equity-based compensation, minority interest in earnings of subsidiaries and deferred income taxes totaled \$3.9 million. Changes in operating assets and liabilities, excluding cash, offset these non-cash charges.

Days sales outstanding, or DSO, for the three months ended March 31, 2007, was 78 days compared with 72 days for the same three-month period in 2006. DSO, when adjusted for acquisitions and unbilled accounts receivables, was 68 days for the three months ended March 31, 2007. The adjustment takes into account \$8.1 million of unbilled receivables that the Company is delayed in billing during this time due to the lag time in receiving the change of ownership after acquiring companies. For the comparable period in 2006, adjusted DSO was 62 days, taking into account \$2.7 million in unbilled accounts receivable as well as an additional \$2.6 million of accounts receivable that was acquired during the later part of 2005 and the first quarter of 2006 that did not generate revenue for the Company.

Investing activities used \$6.6 million and \$3.1 million in cash for the three months ended March 31, 2007 and 2006, respectively. In the three months ended March 31, 2007, cash used by investing activities was \$0.7 million for the purchases of property and equipment and \$5.9 million in the cost of acquisitions.

Financing activities used \$1.4 million and \$1.8 million in the three months ended March 31, 2007 and 2006, respectively. The \$1.4 million cash used in financing activities in the three months ended March 31, 2007 was for minority interest distributions.

At March 31, 2007, we had working capital of \$68.7 million compared to \$68.4 million at December 31, 2006, an increase of \$0.3 million. This increase in working capital was due primarily to increases in accounts receivable due to increased revenue.

Indebtedness

Our total long-term indebtedness was \$3.7 million at March 31, 2007 and \$3.8 million at December 31, 2006, respectively, including the current portions of \$594,000 and \$639,000. In April 2005, we entered into an amended and restated senior secured credit facility with Residential Funding Corporation due April 15, 2010. We, together with certain of our subsidiaries, may become borrowers under the credit facility. Our obligations and the obligations of our subsidiary borrowers under our credit facility agreement are secured by a lien on substantially all of our assets (including the capital stock or other forms of ownership interests we hold in our subsidiaries and affiliates) and the assets of those subsidiaries and affiliates.

Our credit facility makes available to us up to \$22.5 million in revolving loans. The total availability may be increased up to a maximum of \$25.0 million, subject to certain terms and conditions. Total availability under our credit facility may be limited from time to time based on the value of our receivables. As of December 31, 2006, we had no outstanding balance under our credit facility.

Interest on outstanding borrowings under our credit facility accrues at a variable base rate (based on Wells Fargo Bank's prime rate or the federal funds rate), plus a margin of 1.5%.

Table of Contents

Our credit facility contains customary affirmative, negative and financial covenants. For example, we are restricted in incurring additional debt, disposing of assets, making investments, allowing fundamental changes to our business or organization, and making certain payments in respect of stock or other ownership interests, such as dividends and stock repurchases. Financial covenants include requirements that we maintain a debt to EBITDA ratio of no greater than 1.5 to 1.0 and a fixed-charge coverage ratio of not less than 1.4 to 1.0.

Our credit facility also contains customary events of default. These include bankruptcy and other insolvency events, cross-defaults to other debt agreements, a change in control involving us or any subsidiary guarantor, and the failure to comply with certain covenants.

Contingencies

For a discussion of contingencies, see Item 1, Notes to Condensed Consolidated Financial Statements Note 7 Commitments and Contingencies of this Form 10-Q, which discussion is incorporated herein by reference.

Off-Balance Sheet Arrangements

We do not currently have any off-balance sheet arrangements with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. In addition, we do not engage in trading activities involving non-exchange traded contracts. As such, we are not materially exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in these relationships.

Critical Accounting Policies

For a discussion of critical accounting policies, see Item 1, Notes to Condensed Consolidated Financial Statements Note 2 Significant Accounting Policies of this Form 10-Q, which discussion is incorporated herein by reference.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As of March 31, 2007, we had cash of \$20.9 million, which consisted of highly liquid money market instruments with maturities less than 90 days. Because of the short maturities of these instruments, a sudden change in market interest rates would not be expected to have a material impact on the fair value of the portfolio. We would not expect our operating results or cash flows to be materially affected by the effect of a sudden change in market interest rates on our portfolio. At times, cash in banks is in excess of the FDIC insurance limit. The Company has not experienced any loss as a result of those deposits and does not expect any in the future.

Our exposure to market risk relates to changes in interest rates for borrowings under the new senior secured credit facility we entered into in April 2005. A hypothetical 100 basis point adverse move (increase) in interest rates would not have materially affected the interest expense for the three months ended March 31, 2007 since there were no amounts outstanding on the credit agreement during this period.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the Exchange Act)) that are designed to ensure that information required to be disclosed in the Company's reports filed under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Such

Table of Contents

information is also accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Management of the Company, under the supervision and with the participation of the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures and based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of March 31, 2007.

The design of any system of control is based upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated objectives under all future events, no matter how remote, or that the degree of compliance with the policies or procedures may not deteriorate. Because of their inherent limitations, disclosure controls and procedures may not prevent or detect all misstatements. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

Changes in Internal Controls

There have been no changes in the Company's internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) that occurred during the three months ended March 31, 2007, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

We are involved in litigation and proceedings in the ordinary course of business. We do not believe that the outcome of any of the matters in which we are currently involved, individually or in the aggregate, will have a material adverse effect upon our business, financial condition, or results of operations.

ITEM 1A. RISK FACTORS.

There have been no material changes from the Risk Factors we previously disclosed in our Form 10-K for the year ended December 31, 2006 filed with the Securities and Exchange Commission on March 16, 2007.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.
