The selected financial data for the five years ended December 31, 2001, are derived from the Company's consolidated financial statements. The consolidated financial statements for the years ended December 31, 1997, 1998, 1999, 2000 and 2001 were audited by Ernst & Young LLP. The data below should be read in conjunction with the consolidated financial statements and related notes thereto included elsewhere in this report and Management's Discussion and Analysis of Financial Conditions and Results of Operations.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

FTI Consulting, Inc. (the "Company" or "FTI") is one of the largest U.S. providers of turnaround, restructuring, bankruptcy and related consulting services. Our highly skilled professionals assist distressed companies in improving their financial position, or their creditors or other stakeholders, in maximizing recovery of their claims. We quickly analyze and implement an array of strategic alternatives, such as rightsizing infrastructure, improving working capital management, selling non-core assets or business units, and restructuring capital. Through our corporate recovery services, we can help financially distressed companies implement their plans by providing interim management teams. Our teams of professionals have extensive experience in crisis management, negotiations of complex mergers, acquisitions and capital restructurings, as well as the liquidation of surplus assets.

We also help clients in all phases of litigation, including pre-filing, discovery, jury selection, trial preparation, expert testimony and the actual trial. We assist with refining issues in litigation and venue selection, and provide fraud investigation and securities litigation assistance. Our trial graphics and technology and electronic evidence experts assist clients in preparing for and presenting their cases in court. Furthermore, we provide forensic accounting and economic consulting services. Our forensic accounting and data mining (sorting through large volumes of data) services help clients to unravel complex financial transactions and reconstruct events from incomplete and/or corrupt data. Our specialized expertise in economic consulting allows us to help clients in valuing assets of all types and entire businesses, as well as intellectual property disputes. Our industry expertise extends to the telecommunications, railroad, energy and electric utility industries. In recent months, we have begun initiatives in the mergers and acquisitions area and, dispute settlement services.

Our clients are typically companies facing adverse circumstances, as well as their creditors or other stakeholders, such as financial institutions and private equity firms, and the law firms that represent them. Unlike demand for traditional consulting services, which depends primarily on companies' internal budgeting decisions, demand for our services is driven by non-discretionary engagements for businesses facing critical situations that are often adverse. These companies typically focus on our track record and reputation rather than our prices. In the case of bankruptcy proceedings, bankruptcy courts often mandate the selection of third party advisors, reinforcing the non-discretionary nature of our services.

We regularly provide our turnaround, restructuring, bankruptcy and related consulting services to the largest banks in the U.S., including Bank of America, N.A., Wachovia Bank, N.A. and JP Morgan Chase Bank. We are involved in many of the largest bankruptcy proceedings and out-of-court restructurings in the U.S. For example, we are currently involved in the bankruptcies of Enron Corp., WorldCom, Inc., US Airways, Inc. and Adelphia Communications Corporation. We believe clients retain us because of our recognized expertise and capabilities in highly specialized areas, as well as our reputation for satisfying clients' needs.

Our direct costs of revenues consist primarily of employee compensation and related payroll benefits, the cost of outside consultants assigned to revenue-generating activities and other related expenses billable to clients. In 2001, our direct costs of revenues from continuing operations were 48.3% of revenues, consistent with our overall long-term 50.0% target and an improvement from 51.2% in 2000.

Selling, general and administrative expenses consist primarily of salaries and benefits paid to office and corporate staff, as well as rent, marketing, corporate overhead expenses, and depreciation and amortization of property and equipment. In 2001, selling, general and administrative expenses, including depreciation and amortization of our continuing operations, accounted for 27.0% of our revenues, consistent with our overall long-term target of 25.0%, as well as the 25.0% experienced in 2000. Our corporate overhead costs, which are included in selling, general and administrative expenses, represented 8.6% of revenues in 2001 and 8.3% in 2000.

We had goodwill related to our continuing operations of about \$75.7 million at December 31, 2001 that we recorded principally from business combinations that we completed in the last five years. Goodwill represented about 47.6% of our total assets at December 31, 2001. As of January 1, 2002, we no longer amortize this goodwill, but rather make annual assessments of impairment.

Table of Contents

Recent Developments

Acquisition of BRS

On August 30, 2002, we acquired BRS for \$141.3 million in cash and 3,000,000 shares of our common stock valued at \$101.9 million. We incurred expenses of approximately \$1.3 million in connection with this acquisition.

Our acquisition of BRS greatly enhances our ability to provide consulting services in the largest and most complex U.S. turnarounds, restructurings and bankruptcies. The BRS professionals have developed a premier practice handling turnarounds, restructurings and bankruptcies of comparable scale and complexity as we have. As a result of the acquisition of BRS, we have added 371 professionals, including the 49 BRS partners that we hired, to our pool of talented, experienced professionals. The BRS acquisition also significantly diversifies our client base. Immediately after the acquisition, we began integrating BRS into our turnaround, restructuring and bankruptcy practice group.

Pending Sale of Our Applied Sciences Practice Group

In July 2002, we committed to a plan to sell our applied sciences practice group, which we previously reported as a separate segment. The asset disposal group comprising the applied sciences practice group is available for immediate sale in its present condition, subject only to the terms that are usual and customary for sales of such asset disposal groups. An active program to locate a buyer, and other actions required to complete the plan to sell, have been initiated.

The sale of the asset disposal group is considered probable and is expected to be completed prior to July 2003. Actions necessary to complete the plan indicate that it is unlikely significant changes to the plan will be made or that the plan will be withdrawn.

The assets comprising the applied sciences asset disposal group are measured at the lower of their carrying amount or estimated fair value less cost to sell. We currently expect to recover the \$28.3 million carrying value of the assets of the disposal group. However, it is reasonably possible that the ultimate amount realized from the sale may be less than the carrying value.

Because the operations and cash flows of the applied sciences practice group will be eliminated from our ongoing operations as a result of the pending disposal transaction, and because we will not have any significant continuing involvement in the held for sale operations after the disposal transaction, the results of the applied sciences practice group's operations are reported for all periods presented as a separate component of income, net of income taxes. Accordingly, the statements of income for each of the three years in the period ended December 31, 2001 have been restated to report the operations of the applied sciences practice group as a discontinued operation.

Critical Accounting Policies

General. Our discussion and analysis of our financial condition and results of operations are based on our consolidated financial statements, which we have prepared in accordance with accounting principles generally accepted in the U.S. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to bad debts, goodwill, income taxes and contingencies. We base our estimates on historical experience and on various other assumptions that we believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We believe that the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements.

Revenue Recognition. We derive substantially all of our revenue from providing professional services to our clients. Most of these services are rendered under arrangements that require the client to pay us a fee for the hours that we incur at agreed-upon rates. We also bill our clients for the cost of the production of our work products and other direct expenses that we incur

Table of Contents

on behalf of the client, such as travel costs and materials that we purchase to produce presentations for courtroom proceedings. We recognize our revenue from professional services as work is performed and expenses are incurred. The basis for our policy is the fact that we normally obtain engagement letters or other agreements from our clients prior to performing any services. In these letters and other agreements, the clients acknowledge that they will pay us based upon our time spent on the matter and at our agreed-upon hourly rates. Revenues recognized, but not yet billed to clients, have been recorded as unbilled receivables in the accompanying consolidated balance sheets. Billings in excess of services provided represents amounts billed to clients, such as retainers, in advance of work being performed. The consolidated balance sheets previously issued in 2001 and 2000 classified these as reductions in accounts receivables.

Some clients pay us retainers before we begin any work for them. We hold retainers on deposit until we have completed the work. We apply these retainers to final billings or refund any excess over the final amount billed to clients, as appropriate, upon our completion of the work. If the client is in bankruptcy, fees for our professional services are subject to approval by the court. In some cases, a portion of the fees to be paid to us by a client is required to be held by a court until completion of our work. We make the initial determination whether to record all or a portion of such a holdback as revenue prior to collection on a case-by-case basis.

Bad Debts. We also maintain an allowance for doubtful accounts for estimated losses resulting from the inability of our clients to pay our fees, or for disputes that affect our ability to fully collect our billed accounts receivable as well as potential fee reductions imposed by bankruptcy courts. We estimate this allowance by reviewing the status of past-due accounts and recording general reserves based on our experiences in these cases and historical bad debt expense. Our actual experience has not varied significantly from our estimates. However, if the financial condition of our clients were to deteriorate, resulting in their inability to pay our fees, we may need to record additional allowances in future periods. This risk is mitigated by the retainers that we require from some of our clients prior to performing significant services.

We believe that the addition of BRS will not have a significant effect on our bad debt expense as a percentage of revenue.

Goodwill. We have remaining goodwill from continuing operations of about \$75.7 million at December 31, 2001 that we recorded for business combinations that we completed principally in the last five years. This goodwill has been amortizing over 20 to 25 year periods and resulted in amortization expense approximating \$5.0 million in 2001. As of January 1, 2002, we adopted Financial Accounting Standards Board Statement No. 142, *Goodwill and Other Intangible Assets* (Statement 142). Under the new rules, goodwill and other intangible assets deemed to have indefinite lives are no longer amortized, but are subject to annual impairment tests in accordance with the Statement. Accordingly, we no longer amortize this goodwill, but rather make annual assessments of impairment. During the second quarter of 2002, we completed the transitional impairment tests required by Statement 142 for this goodwill as of January 1, 2002. No impairment of goodwill was identified as a result of these tests. In the future, we will be making impairment tests during the fourth quarter of each year. In making these impairment assessments, we must make subjective judgments regarding estimated future cash flows and other factors to determine the fair value of the reporting units of our business that are associated with this goodwill. It is possible that these judgments may change over time as market conditions or our strategies change, and these changes may cause us to record impairment charges to adjust our goodwill to its estimated fair value.

Effect of Recent Accounting Pronouncements

As of January 1, 2002, the Company adopted Financial Accounting Standards Board Statement No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* (Statement 144). Statement 144 supersedes and serves to clarify and further define the provisions of Statement of Financial Accounting Standards No. 121, *Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of*, and provides a single accounting model for long-lived assets to be disposed of. Statement 144 does not apply to goodwill and other intangible assets that are not amortized, and retains the Company's current policy to recognize an impairment loss only if the carrying amount of a long-lived asset is not recoverable from its undiscounted future cash flows and to measure the impairment loss as the difference between the carrying amount and the fair value of the asset.

In April 2002, the Financial Accounting Standards Board issued Statement of Financial Accounting Standard No. 145, *Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections* (Statement 145). Among other changes, Statement 145 rescinds Statement 4, which required all gains and losses from extinguishment of debt to be aggregated and classified as an extraordinary item, net of the related tax effect. Statement 145

Table of Contents

provides that gains and losses from extinguishment of debt should be classified as extraordinary items only if they are unusual or infrequent, or they otherwise meet the criteria for classification as an extraordinary item, and observes that debt extinguishment transactions would seldom, if ever, result in extraordinary item classification of the resulting gains and losses. We will adopt Statement 145 in January 2003, and upon adoption, we will report as other expenses any extraordinary losses that we incur upon the extinguishment of our debt. In addition, when we present for comparative purposes financial statements issued prior to December 31, 2002, we will reclassify to other expenses any extraordinary losses that we recorded upon the early extinguishment of debt in those periods. In 2000, we reported a \$5.4 million loss from the early extinguishment of certain debt. We may incur an extraordinary loss from the early extinguishment of our debt from our planned equity offering in the fourth quarter of 2002, as well as from application of the proceeds from our intended sale of our applied sciences practice group, if the sale occurs in 2002.

In July 2002, the Financial Accounting Standards Board issued Statement of Financial Accounting Standard No. 146, *Accounting for Costs Associated with Exit or Disposal Activities* (Statement 146). Statement 146 supersedes EITF Issue No. 94-3 *Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity*. Statement 146 requires that costs associated with an exit or disposal plan be recognized when incurred rather than at the date of a commitment to an exit or disposal plan. Statement 146 is to be applied prospectively to exit or disposal activities initiated after December 31, 2002, and early adoption is encouraged. We do not expect that our adoption of Statement 146 will have a material effect on our reported results of operations and financial position.

Recent Acquisitions

We have made three acquisitions since the beginning of 2000, each of which was treated as a purchase business combination for accounting purposes:

Company	Date Acquired	Purchase Price	Goodwill and Other Intangibles Recorded	Sources of Cash Financing	Services
<i>(in table, dollars in millions)</i>					
U.S. BRS division of PwC	Aug-02	\$243.2, in cash and stock(1)	\$ 243.7	Bank financing and our available cash	Turnaround, restructuring and bankruptcy consulting
Technology & Financial Consulting, Inc.	Jan-02	\$4.1, in cash and stock(2)	\$ 3.8	Available cash	Intellectual property consulting
Policano & Manzo, L.L.C.	Feb-00	\$54.9, in cash and stock(3)	\$ 52.2	Bank financing and our available cash	Turnaround, restructuring and bankruptcy consulting

Notes:

- (1) The purchase price of BRS consisted of \$22.3 million of cash on hand, debt of \$119.0 million and 3,000,000 shares of common stock, valued at \$101.9 million.
- (2) The purchase price of TFC consisted of \$3.1 million of cash on hand and 46,216 shares of common stock, valued at \$1.0 million.
- (3) The purchase price of P&M consisted of \$1.9 million of cash on hand, debt of \$47.5 million and 1,222,000 shares of common stock, valued at \$5.5 million.

Table of Contents

Results of Continuing Operations

Years Ended December 31, 2001, 2000, and 1999

Revenues. Total revenues in 2001 increased 28.0% to \$122.3 million from \$95.5 million in 2000. We believe revenues grew during 2001 primarily as a result of our ability to recruit seasoned financial professionals to meet the continued strong demand for our services in both restructuring and turnaround activities and the forensic accounting and strategic consulting portions of the business, coupled with increases in professional rates. We added several new practice areas in early 2002, including crisis management, intellectual property litigation consulting, electronic evidence discovery, and utility regulatory financial consulting.

Total revenues in 2000 increased 95.3% to \$95.5 million from \$48.9 million in 1999, primarily as the result of our acquisition of Policano & Manzo, LLC (P&M) early in 2000 and the successful integration of its financial professionals into our existing practices. Our headcount at year-end 2000 increased by approximately 50% when compared to the prior year, as the result of the acquisition of P&M and our successful recruiting efforts.

Direct Cost of Revenues. Direct cost of revenues was 48.3% of our total revenues in 2001, 51.3% in 2000 and 52.3% in 1999. The improvement in 2001 resulted primarily from the broader implementation of incentive compensation programs that promote increased billable hours by our professional staff, and the continued strong demand for our services. Employee compensation accounted for 75% of direct cost of revenues in 2001.

Selling, General and Administrative Expenses. As a percent of our total revenues, selling, general, and administrative expenses, which include depreciation and amortization of property and equipment, were 27.0% in 2001, 25.0% in 2000 and 33.8% in 1999. The slight increase in 2001 is the result of costs incurred to open larger offices in several major cities, including New York and Washington, DC. The decrease in 2000 is the result of the substantial increases in revenues, since selling, general and administrative expenses, such as rent, are relatively fixed costs.

Amortization of Goodwill. Annual amortization of goodwill increased from \$3.9 million in 2000 to \$4.2 million in 2001, primarily as a result of additional contingent consideration related to our acquisitions. Amortization of goodwill increased from \$1.6 million in 1999 primarily as a result of the P&M acquisition.

Interest Income and Expense, Net. Interest expense consisted primarily of interest on debt we incurred to purchase businesses over the past several years. Interest expense decreased substantially in 2001, as compared to 2000, because interest rates were lower and we were able to retire \$32.3 million of our debt. We used cash generated from operations, the proceeds of an equity offering in October 2000, and proceeds from the exercise of options and warrants to pay down debt. We achieved lower interest rates by refinancing our outstanding debt in late 2000 and experienced declining market interest rates on our revolving credit facility.

Income Taxes. Our effective tax rate decreased to 40.0% in 2001 from 41.2% in 2000, principally because the increase in our net income diluted the effect of non-deductible goodwill amortization. See Note 8 of Notes to Consolidated Financial Statements for a reconciliation of the federal statutory rate to our effective tax rates during each of these years, and a summary of the components of our deferred tax assets and liabilities.

Extraordinary Loss on Early Extinguishment of Debt, Net of Income Taxes. As a result of the write-off of unamortized debt discount and deferred financing costs associated with the debt that we refinanced or retired early in 2000, we had a \$5.4 million loss on early extinguishment of debt, net of taxes in 2000.

Liquidity and Capital Resources

Our cash flow generated from operations increased from \$15.6 million in 2000 to \$35.4 million in 2001. This increase of \$19.8 million is primarily the result of an increase in our net income before non-cash charges of \$7.0 million. We also were able to increase our operating cash flows by reducing our working capital balances, despite significant growth in our revenues. The average collection period for our fees has declined because we continue to increase the use of retainers when we are engaged on major assignments and because we have improved our collection monitoring processes.

Table of Contents

During the year ended December 31, 2001, we spent \$4.4 million for net additions to property and equipment, primarily for the cost of the expansion of five of our major offices. At December 31, 2001, we had no material commitments for the acquisition of property and equipment. In 2001, we also paid \$3.0 million to former owners of businesses we acquired in previous years to satisfy contingent consideration and other obligations. We have no remaining contingent purchase price obligations. During 2000, we spent \$6.6 million for additions to property and equipment and \$49.4 million to acquire P&M.

During the year ended December 31, 2001, options to purchase 2,498,672 shares of common stock were exercised, generating \$19.9 million in new capital including related tax benefits. In addition, we sold 174,906 shares of common stock to our employees participating in the Employee Stock Purchase Plan, generating \$1.0 million of cash. We used these net proceeds and cash flow from operations to pay-down \$32.3 million of debt during the year.

In 2000, we completed a public offering of 6,037,500 shares of our common stock. We used the net proceeds and our other financial resources to repay the \$30.0 million senior subordinated notes that we issued on February 4, 2000. In addition, we retired warrants for 492,001 shares of our common stock issued in February 2000 in connection with the \$30.0 million senior subordinated notes that were repaid.

In December 2000, we refinanced our \$61.0 million term loan and the \$7.5 million revolving credit facility. The replacement credit facility consisted of an amortizing term loan of \$32.5 million of which \$28.2 million was outstanding at December 31, 2001, and a \$47.5 million revolving credit line. At December 31, 2001, we had no outstanding balances on the line of credit.

On August 30, 2002, the Company terminated its existing credit facility and entered into a new credit facility in connection with the acquisition of BRS. The new credit facility consists of a pre-existing term loan of \$26.0 million, a new term loan for \$74.0 million and a new revolving credit facility for \$100.0 million. On September 30, 2002, \$1.1 million of the \$26.0 million term loan was repaid. The debt under the new credit facility bears interest at an annual rate equal to LIBOR plus an applicable margin or an alternative base rate defined as the higher of (1) the lender's announced prime rate or (2) the federal funds rate plus the sum of 50 basis points and an applicable margin. If not prepaid, the \$24.9 million term loan will mature on December 1, 2005, and the \$74.0 million term loan and the revolving credit facility will mature on August 30, 2006. Under the credit facility, the lenders have a security interest in substantially all of the Company's assets.

At September 30, 2002, outstanding debt under the new credit facility was \$138.9 million, including the balance on the revolving line of credit of \$40.0 million, bearing interest at 4.95%. Under the terms of the new credit facility, the Company must apply at least half of the net proceeds obtained from any public offering of its equity securities to the repayment of the debt. Also, under the new credit facility, the Company is required to apply all of the proceeds from the sale of its applied sciences practice group to reduce the outstanding debt.

We believe that our available cash, cash generated from operations and the revolving credit facility will be sufficient to meet our normal on-going operating for the foreseeable future. We do not have any significant capital lease obligations.

Below is a summary of our contractual obligations and commitments at December 31, 2001:

Contractual Obligations	Payments Due by Period (in thousands)					
	Total	2002	2003	2004	2005	Thereafter
Long-Term Debt	\$ 28,166	\$ 4,333	\$ 6,500	\$ 8,667	\$ 8,666	\$
Operating Leases	35,842	5,470	5,333	4,982	4,650	15,407
Total Obligations	\$ 64,008	9,803	11,833	13,649	13,316	15,407

Table of Contents

Forward-Looking Statements

Some of the statements under Management's Discussion and Analysis of Financial Conditions and Results of Operations and elsewhere in this report, contain forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934. These statements involve known and unknown risks, uncertainties and other factors that may cause our or our industry's actual results, levels of activity, performance or achievements expressed or implied by such forward-looking statements not to be fully achieved. These forward-looking statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as may, will, should, expects, plans, intends, anticipates, believes, estimates, predicts, potential or continue or the negative of such terms or terminology. These statements are only predictions. We are under no duty to update any of the forward-looking statements after the date of this report to conform such statements to actual results and do not intend to do so. Factors, which may cause the actual results of operations in future periods to differ materially from intended or expected results include, but are not limited to, the risk factors described elsewhere in this report.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are subject to market risk associated with changes in interest rates on our variable rate debt. We have managed this risk by entering into interest rate swaps. These hedges reduce our exposure to rising interest rates, but also reduce the benefits from lower interest rates. We do not anticipate any material changes to our market risk exposures in 2002.

Interest rate swaps with notional principal amounts of \$28.2 million at December 31, 2001 were designated as hedges against outstanding debt and were used to convert the interest rate on our variable rate debt to fixed rates for the life of the swap. Our pay rate on our debt was 8.39% at December 31, 2001, compared to our receive rate of 4.02%. Because of the effectiveness of our hedge of variable interest rates associated with our debt, the change in fair value of our interest rate swaps resulting from changes in market interest rates is reported as a component of other comprehensive income.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Report of Independent Auditors

Board of Directors and Stockholders
FTI Consulting, Inc.

We have audited the accompanying consolidated balance sheets of FTI Consulting, Inc. and subsidiaries as of December 31, 2001 and 2000, and the related consolidated statements of income, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2001. Our audits also included the financial statement schedule listed in the Index at Item 14a. These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of FTI Consulting, Inc. and subsidiaries as of December 31, 2001 and 2000, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2001, in conformity with accounting principles generally accepted in the United States. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

Notes to Consolidated Financial Statements

December 31, 2001

(dollars in tables expressed in thousands, except per share data)

1. Description of Business and Significant Accounting Policies

Basis of Presentation of Financial Statements

Description of Business

FTI Consulting, Inc. and subsidiaries (the Company or FTI) is a U.S. provider of turnaround, restructuring, bankruptcy and related consulting services. The Company's highly skilled professionals assist distressed companies in improving their financial position, or their creditors or other stakeholders in maximizing recovery of their claims. The Company also provides other consulting services such as corporate recovery, forensic accounting, fraud investigation and asset tracing, regulatory, intellectual property, and mergers and acquisition advisory services. The Company's trial support practice group advises clients in all phases of litigation, including pre-filing, discovery, jury selection, trial preparation, expert testimony and the actual trial. The Company has approximately 650 employees in 33 locations throughout the United States, including its applied sciences practice group (see Note 2).

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant intercompany transactions have been eliminated.

Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

The Company uses estimates to determine the amount of the allowance for doubtful accounts necessary to reduce accounts receivable and unbilled receivables to their expected net realizable value. The Company estimates the amount of the required allowance by reviewing the status of significant past-due receivables and analyzing historical bad debt trends. Actual collection experience has not varied significantly from estimates, due primarily to credit policies, collection experience, and a lack of concentrations of accounts receivable. Accounts receivable balances are not collateralized.

Estimates are also required in such areas as the Company's self-insurance reserves for certain employee benefit plans and other ordinary accruals. Such estimates are based upon historical trends, current experience and knowledge of relevant factors.

Table of Contents

FTI Consulting, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

1. Description of Business and Significant Accounting Policies (continued)

Significant Accounting Policies (continued)

Cash Equivalents

The Company considers all highly liquid investments with maturity of three-months or less when purchased to be cash equivalents.

Property and Equipment

Property and equipment is stated at cost and depreciated using the straight-line method. Furniture and equipment is depreciated over estimated useful lives ranging from three to seven years, and leasehold improvements are amortized over the lesser of the estimated useful life of the asset or the lease term.

Goodwill

Goodwill consists of the excess of the purchase price over the fair value of tangible and identifiable intangible net assets acquired in purchase business combinations. Prior to January 1, 2002, goodwill was amortized over periods ranging from 20 to 25 years. Commencing January 1, 2002, goodwill is not amortized, but is tested annually for impairment at the reporting unit level. Impairment is the condition that exists when the carrying amount of goodwill exceeds its implied fair value. The implied fair value of goodwill is the amount determined by deducting the estimated fair value of all tangible and identifiable intangible net assets of the reporting unit from the estimated fair value of the reporting unit. If the recorded value of goodwill exceeds its implied value, an impairment charge is recorded for the excess. (See also Note 1, *Impact of Recent Accounting Pronouncements*.)

Impairment of Long-Lived Assets

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset, or group of assets, may not be fully recoverable. These events or changes in circumstances may include a significant deterioration of operating results, changes in business plans, or changes in anticipated future cash flows. If an impairment indicator is present, the Company evaluates recoverability by a comparison of the carrying amount of the assets to future undiscounted net cash flows expected to be generated by the assets. Assets are grouped at the lowest level for which there is identifiable cash flows that are largely independent of the cash flows generated by other asset groups. If the assets are impaired, the impairment recognized is measured by the amount by which the carrying amount exceeds the fair value of the assets. Fair value is generally determined by estimates of discounted cash flows. The discount rate used in any estimate of discounted cash flows would be the rate required for a similar investment of like risk.

Assets to be disposed of are reported at the lower of carrying values or fair values, less estimated costs of disposal.

Revenue Recognition

The Company derives most of its revenues from professional service activities. The vast majority of these activities are provided under time-and-materials billing arrangements, and revenues, consisting of billed fees and pass-through expenses, are recorded as work is performed and expenses are incurred. Revenues recognized, but not yet billed to clients, have been recorded as unbilled receivables in the accompanying consolidated balance sheets. Billings in excess of services provided represents amounts billed to clients, such as retainers, in advance of work being performed. The previously issued 2001 and 2000 consolidated balance sheets classified these amounts as reductions in accounts receivable.

Table of Contents

FTI Consulting, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

1. Description of Business and Significant Accounting Policies (continued)

Significant Accounting Policies (continued)

Direct Cost of Revenues

Direct cost of revenues consists primarily of billable employee compensation and related payroll benefits, the cost of consultants assigned to revenue-generating activities and direct expenses billable to clients. Direct cost of revenues does not include an allocation of overhead costs.

Stock Options and Stock Granted to Employees

The Company records compensation expense for all stock-based compensation plans using the intrinsic value method prescribed by APB Opinion No. 25, *Accounting for Stock Issued to Employees* (APB No. 25). Under APB No. 25, compensation expense is recorded over the vesting period to the extent that the fair value of the underlying stock on the date of grant exceeds the exercise or acquisition price of the stock, or stock-based award. Financial Accounting Standards Board Statement No. 123, *Accounting for Stock-Based Compensation* (Statement 123) encourages companies to recognize expense for stock-based awards based on their estimated value on the date of grant. Statement 123 requires the disclosure of pro forma income and earnings per share data in the notes to the financial statements if the fair value method is not adopted. The Company has supplementally disclosed in Note 7 the required pro forma information as if the fair value method had been adopted.

The Company also periodically issues restricted and unrestricted stock to employees in connection with new hires and performance evaluations. The fair market value on the date of issue of unrestricted stock is immediately charged to compensation expense, and the fair value on the date of issue of restricted stock is charged to compensation expense ratably over the restriction period.

Income Taxes

The Company uses the liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are determined based on differences between financial reporting and tax bases of assets and liabilities, and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse.

Accounting Change and Interest Rate Swaps

Effective January 1, 2001, the Company adopted Statement of Financial Accounting Standards No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended, which requires that all derivative instruments be reported on the balance sheet at fair value and that changes in a derivative's fair value be recognized currently in earnings unless specified hedge criteria are met. Under Statement 133, if an interest rate swap is designated a cash flow hedge, the effective portions of the changes in the fair value of the swap are recorded in other comprehensive income. Ineffective portions of changes in the fair value of cash flow hedges are recognized in earnings.

As part of managing the exposure to changes in the market interest rates on its variable rate debt, the Company has entered into various interest rate swap transactions with financial institutions acting as the counterparty. To ensure both appropriate use as a hedge and hedge accounting treatment, all swaps entered into are designated according to the hedge objective against a specific debt issue. The notional amounts, rates and maturities of the Company's interest rate swaps are closely matched to the related terms of hedged debt obligations. None of the Company's interest rate swaps would result in a significant loss to the Company if a counterparty failed to perform according to the terms of the agreement.

The Company recorded a cumulative effect adjustment of \$(348,000), net of tax, to other comprehensive loss in 2001 in accordance with the transition provisions of Statement 133.

Table of Contents

FTI Consulting, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

1. Description of Business and Significant Accounting Policies (continued)

Significant Accounting Policies (continued)

Impact of Recent Accounting Pronouncements Goodwill and Other Intangible Assets

As of January 1, 2002, the Company adopted Statement of Financial Accounting Standards No. 142, *Goodwill and Other Intangible Assets* (Statement 142). Under the new rules, goodwill and other intangible assets deemed to have indefinite lives are no longer amortized, but are subject to annual impairment tests in accordance with the Statement. Other intangible assets with finite lives will continue to be amortized over their useful lives.

Impact of Recent Accounting Pronouncements Accounting for the Impairment or Disposal of Long-Lived Assets

As of January 1, 2002, the Company adopted Statement of Financial Accounting Standards No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* (Statement 144). Statement 144 supersedes and serves to clarify and further define the provisions of Statement of Financial Accounting Standards No. 121, *Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of*, and provides a single accounting model for long-lived assets to be disposed of.

Statement 144 does not apply to goodwill and other intangible assets that are not amortized, and retains the Company's current policy to recognize an impairment loss only if the carrying amount of a long-lived asset is not recoverable from its undiscounted future cash flows and to measure the impairment loss as the difference between the carrying amount and the fair value of the asset. In July 2002, the Company announced its decision to sell its applied sciences practice group, and in accordance with Statement 144, the Company has restated its December 31, 2001 and 2000 consolidated balance sheets to segregate the current and non-current assets held for sale of its discontinued operations. The consolidated statements of income for each of the three years in the period ended December 31, 2001 have also been restated to report the results of the applied sciences practice group as a separate component of net income. See Note 2 for additional information.

Impact of Recent Accounting Pronouncements Reporting Extraordinary Items

In April 2002, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 145, *Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections* (Statement 145). Among other changes, Statement 145 rescinds Statement 4, which required all gains and losses from extinguishment of debt to be aggregated and classified as an extraordinary item, net of the related tax effect. Statement 145 provides that gains and losses from extinguishment of debt should be classified as extraordinary items only if they are unusual or infrequent or they otherwise meet the criteria for classification as an extraordinary item, and observes that debt extinguishment transactions would seldom, if ever, result in extraordinary item classification of the resulting gains and losses. The Company will adopt Statement 145 in January 2003, and upon adoption, the Company will report as other expenses any extraordinary losses that it incurs upon the extinguishment of debt. In addition, when the Company presents for comparative purposes financial statements issued prior to December 31, 2002, it will reclassify to other expenses any extraordinary losses recorded upon the early extinguishment of debt in those periods. In 2000, the Company reported a \$5.4 million loss from the early extinguishment of certain debt. The Company may incur an extraordinary loss from the early extinguishment of our debt from its planned equity offering in the fourth quarter of 2002, as well as from application of the proceeds from the pending sale of the applied sciences practice group, if the sale occurs in 2002.

FTI Consulting, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

1. Description of Business and Significant Accounting Policies (continued)

Significant Accounting Policies (continued)

Impact of Recent Accounting Pronouncements Accounting for Costs Associated with Exit or Disposal Activities

In July 2002, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 146, *Accounting for Costs Associated with Exit or Disposal Activities* (Statement 146). Statement 146 supersedes EITF Issue No. 94-3 *Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity*. Statement 146 requires that costs associated with an exit or disposal plan be recognized when incurred rather than at the date of a commitment to an exit or disposal plan. Statement 146 is to be applied prospectively to exit or disposal activities initiated after December 31, 2002, with early application encouraged. The adoption of Statement 146 is not expected to have a significant effect on the Company's results of operations and financial position.

Stock Splits

The Company's board of directors authorized a three-for-two stock split in the form of a stock dividend to be distributed to stockholders of record on January 2, 2002. All share and per share data included in the consolidated financial statements have been restated to reflect the stock split.

2. Pending Sale of Applied Sciences Practice Group

In July 2002, the Company committed to a plan to sell its applied sciences practice group, which the Company previously reported as a separate segment. The asset disposal group comprising the applied sciences practice group is available for immediate sale in its present condition, subject only to the terms that are usual and customary for sales of such asset disposal groups. An active program to locate a buyer, and other actions required to complete the plan to sell have been initiated.

The sale of the asset disposal group is considered probable and is expected to be completed prior to July 2003. Actions necessary to complete the plan indicate that it is unlikely significant changes to the plan will be made or that the plan will be withdrawn.

The assets comprising the applied sciences asset disposal group are measured at the lower of their carrying amount or estimated fair value less cost to sell. Property and equipment held for sale with a carrying value of \$1.6 million is no longer being depreciated. The Company currently expects to recover the \$283 million carrying value of the below assets of the disposal group. However, it is reasonably possible that the ultimate amount realized from the sale may be less than the carrying value.

Assets of the applied sciences practice group held for sale are as follows:

	December 31,	
	2001	2000
Accounts receivable, net	\$ 8,341	\$ 8,234
Unbilled receivables, net	3,224	2,841
Deferred income taxes	384	381
Other current assets	292	297
	12,241	11,753
Property and equipment, net	1,634	1,423
Goodwill, net	14,423	14,718
Total assets of discontinued operations	\$ 28,298	\$ 27,894

Table of Contents

FTI Consulting, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

2. Pending Sale of Applied Sciences Practice Group (continued)

Because the operations and cash flows of the applied sciences practice group will be eliminated from the ongoing operations of the Company as a result of the disposal transaction, and because the Company will not have any significant continuing involvement in the held for sale operations after the disposal transaction, the results of the applied sciences practice group's operations are reported for all periods presented as a separate component of income, net of income taxes. Accordingly, the statements of income for each of the three years in the period ended December 31, 2001 have been restated to report the operations of the applied sciences practice group as a discontinued operation.

Summarized operating results of the applied sciences practice group are as follows:

	Year ended December 31		
	2001	2000	1999
Revenue	\$ 44,042	\$ 39,232	\$ 35,693
Income before income taxes	6,347	5,951	4,088
Net income	3,523	3,296	2,179

Notes to Consolidated Financial Statements

4. Supplemental Disclosure of Cash Flow Information

In 2000, the Company purchased the membership interests of Policano & Manzo, L.L.C., for total consideration of \$54.9 million. In connection with this acquisition, assets with a fair market value of \$58.1 million were acquired and liabilities of approximately \$3.2 million were assumed. The Company did not make any acquisitions during 2001 or 1999.

The Company paid interest of \$4.6 million, \$10.8 million and \$4.1 million, and income taxes of \$6.0 million, \$4.3 million and \$2.0 million during fiscal years 2001, 2000 and 1999, respectively.

5. Acquisitions

Policano & Manzo, L.L.C.

Effective January 31, 2000, the Company acquired the membership interests of Policano & Manzo, L.L.C. (P&M). P&M, based in Saddle Brook, New Jersey, is a leader in providing bankruptcy and turnaround consulting services to large corporations, money center banks and secured lenders throughout the U.S. The purchase price totaled approximately \$54.9 million, consisting of \$48.3 million in cash, 1,222,000 shares of common stock valued at \$5.5 million and acquisition related expenses of \$1.1 million. The acquisition was accounted for using the purchase method of accounting and approximately \$52.2 million of goodwill was recorded and was being amortized over its estimated useful life of 20 years. The results of operations of P&M are included in the accompanying consolidated statements of income commencing January 31, 2000.

Contingent Payments to Previous Owners

In 2001, the Company paid contingent consideration of approximately \$3.0 million to the former shareholders of Klick, Kent & Allen, Inc., a company acquired in 1998 and the former shareholder of LWG, Inc., a company acquired in 1997. The contingent payments were attributed to the achievement of specified pre-tax earnings. Additionally, the Company paid the working capital adjustment balance of \$211,000 to the former shareholders of P&M, which was acquired in 2000. There are no future contingent payments due on any of the previous acquisitions of the Company.

6. Long-Term Debt

Long-term debt consists of the following:

	December 31,	
	2001	2000
Amounts due under an \$80.0 million long-term credit facility, consisting of an amortizing term loan of \$32.5 million and a \$47.5 million revolving credit line, (of which zero was drawn at December 31, 2001), bearing interest at LIBOR plus variable percentages (4.02% at December 31, 2001). This facility is secured by substantially all the assets of the Company, and the unpaid principal matures in varying amounts through December 31, 2005.	\$ 28,166	\$ 60,500
Less current portion	(4,333)	(4,333)
Total long-term debt	\$ 23,833	\$ 56,167

Table of Contents

FTI Consulting, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

6. Long-Term Debt (continued)

Aggregate maturities of debt at December 31, 2001, are as follows:

2002	\$	4,333
2003		6,500
2004		8,667
2005		8,666
Total	\$	28,166

The Company has entered into interest rate swap transactions on a portion of the outstanding amortizing term loans. At December 31, 2001, the notional amount of the interest rate swap transactions was \$28.2 million. The swap transactions resulted in exchanging floating LIBOR rates for a fixed rate of 6.64%, and expire in 2004. The changes in the fair value of the swaps are recognized in the consolidated financial statements as changes in accumulated other comprehensive income (loss). During 2001, the Company did not recognize a net gain (loss) related to the interest rate swap transactions as there was no ineffective portion of the cash flow hedge nor was there any portion of the hedged instrument excluded from the assessment of hedge effectiveness. During the next twelve months, the Company does not expect to reclassify the effective portion of the cash flow hedge captured in other comprehensive income (loss) as it does not expect a change in the probability assessment regarding the forecasted cash flows generated from the interest rate swap transaction and the related debt obligations.

The Company is required to comply with certain financial and non-financial covenants contained in the revolving credit and term loan agreements. The Company is in compliance with all covenants as stipulated in the agreements. The terms of the credit facility prohibit the payment of dividends without the consent of the lender.

The fair value of long-term debt approximates its carrying value at December 31, 2001.

7. Stock Option Plans

Prior to 1997, the Company granted options to key employees under the 1992 Stock Option Plan. This plan was terminated in 1997 upon the adoption of the 1997 Stock Option Plan. The 1997 Plan, provides for the granting to employees and non-employee directors of qualified and non-qualified options to purchase an aggregate of up to 6,225,000 shares of common stock. Options to purchase common stock may be granted at prices not less than 50% of the fair market value of the common stock at the date of grant, for a term of no more than ten years. Vesting provisions for individual awards are at the discretion of the Board of Directors.

The following table summarizes the option activity under the plans for the three-year period ended December 31, 2001:

	2001	2001 Weighted Avg. Exercise Price	2000	2000 Weighted Avg. Exercise Price	1999	1999 Weighted Avg. Exercise Price
Options outstanding at January 1	4,896,193	\$ 4.74	3,027,044	\$ 4.74	2,731,244	\$ 5.24
Options granted	853,331	17.11	2,013,300	4.65	596,250	2.83
Options exercised	(2,498,672)	4.69	(96,701)	3.71		
Options forfeited	(79,000)	3.65	(47,450)	4.69	(300,450)	5.50
Options outstanding at December 31	3,171,852	\$ 8.09	4,896,193	\$ 4.74	3,027,044	\$ 4.74
Options exercisable at December 31	1,024,352	\$ 5.25	2,655,200	\$ 4.99	1,796,387	\$ 5.25

Table of Contents

FTI Consulting, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

7. Stock Option Plans (continued)

All options granted have an exercise price equal to or greater than the fair value of the Company's common stock on the date of grant. Exercise prices for options outstanding as of December 31, 2001, ranged from \$1.92 to \$21.20 as follows:

Range of Exercise Prices	Options Outstanding	Weighted Average Exercise Price of Options Outstanding	Weighted Average Remaining Contractual Life of Options Outstanding	Options Exercisable	Weighted Average Exercise Price of Options Exercisable
\$1.92 \$4.42	1,738,488	\$4.15	7.89 years	613,488	\$4.15
\$4.46 \$9.00	617,693	\$6.40	7.52 years	352,693	\$6.11
\$10.72 \$21.20	815,671	\$17.76	9.49 years	58,171	\$11.72
	3,171,852			1,024,352	

Pro Forma Disclosures Required by Statement 123

For the years ended December 31, 2001, 2000 and 1999, pro forma net income and earnings per share information required by Statement 123 has been determined as if the Company had accounted for its stock options using the fair value method rather than the intrinsic value method followed by the Company. The fair value of these options was estimated at the date of grant using the Black-Scholes option-pricing model with the following assumptions:

	2001	Year ended December 31 2000	1999
Risk free interest rate	4.5%	5.5%	5.5%
Expected dividend yield	0%	0%	0%
Expected option life	3.38 years	4 years	4 years
Expected stock price volatility	0.758 0.782	0.779 0.790	0.788 0.808
Weighted average fair value of granted options	\$9.40	\$2.09	\$1.77

The Black-Scholes option pricing model and other models were developed for use in estimating the fair value of traded options, which have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions, including the expected stock price volatility. Because the Company's stock options have characteristics significantly different from those of traded options and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of its stock options.

For purposes of pro forma disclosures, the estimated fair value of the options is amortized to expense over the options' vesting period.

The following table summarizes pro forma income (loss) and earnings (loss) per share:

	Year ended December 31 2001	2000	1999
Net income, as reported	\$ 16,469	\$ 2,561	\$ 2,991
Pro forma net income (loss)	\$ 14,100	\$ (197)	\$ 1,820
Earnings per common share, basic, as reported	\$ 0.92	\$ 0.24	\$ 0.41
Pro forma earnings (loss) per common share, basic	\$ 0.79	\$ (0.02)	\$ 0.25
Earnings per common share, diluted, as reported	\$ 0.84	\$ 0.21	\$ 0.39
Pro forma earnings (loss) per common share, diluted	\$ 0.72	\$ (0.02)	\$ 0.24

Table of Contents

FTI Consulting, Inc. and Subsidiaries Notes to Consolidated Financial Statements

8. Income Taxes

Significant components of the Company's deferred tax assets and liabilities from continuing operations before extraordinary item are as follows:

	December 31	
	2001	2000
Deferred tax assets:		
Allowance for doubtful accounts	\$ 784	\$ 292
Accrued vacation and bonus	275	369
Other	32	
Total deferred tax assets	1,091	661
Deferred tax liabilities:		
Use of cash basis for income tax purposes by subsidiary		350
Goodwill	1,407	610
Capitalized software	341	447
Other	130	172
Total deferred tax liabilities	1,878	579
Net deferred tax liability	\$ (787)	\$ (918)

Income tax expense (benefit) from continuing operations before extraordinary item consisted of the following:

	Year ended December 31		
	2001	2000	1999
Current:			
Federal	\$ 6,749	\$ 2,469	\$ 287
State	2,007	1,047	428
	8,756	3,516	715
Deferred (benefit):			
Federal	(49)	(145)	(190)
State	(86)	(109)	(123)
	(135)	(254)	(313)
	\$ 8,621	\$ 3,262	\$ 402

The Company's provision for income taxes from continuing operations before extraordinary item resulted in effective tax rates that varied from the statutory federal income tax rate as follows:

	Year ended December 31		
	2001	2000	1999
Expected federal income tax provision at 34%	\$ 7,333	\$ 2,693	\$ 413

Edgar Filing: FTI CONSULTING INC - Form 10-K/A

Expenses not deductible for tax purposes	74	283	40
State income taxes, net of federal benefit	1,093	374	29
Other	121	(88)	(80)
	\$ 8,621	\$ 3,262	\$ 402

9. Operating Leases

The Company leases office space under non-cancelable operating leases that expire in various years through 2010. The leases for certain office space contain provisions whereby the future rental payments may be adjusted for increases in maintenance and insurance above specified amounts. The Company also leases certain furniture and equipment in its operations under operating leases having initial terms of less than one year.

Table of Contents

FTI Consulting, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

9. Operating Leases (continued)

Future minimum payments under non-cancelable operating leases with initial terms of one year or more consist of the following at December 31, 2001:

2002	\$ 5,470
2003	5,333
2004	4,982
2005	4,650
2006	3,479
Thereafter	11,928
Total minimum lease payments	\$ 35,842

Rental expense from continuing operations consists of the following:

	Year ended December 31		
	2001	2000	1999
Furniture and equipment	\$ 375	\$ 323	\$ 359
Office and storage	3,586	2,206	2,443
	\$ 3,961	\$ 2,529	\$ 2,802

10. Employee Benefit Plans

The Company maintains a qualified defined contribution 401(k) plan, which covers substantially all employees. Under the plan, participants are entitled to make both pre-tax and after-tax contributions. The Company matches a certain percentage of participant contributions pursuant to the terms of the plan, which are limited to a percent of the participant's eligible compensation. The percentage match is at the discretion of the Board of Directors. The Company made contributions of \$1.1 million, \$685,000 and \$344,000 during 2001, 2000 and 1999, respectively, related to these plans.

The Company also maintains an Employee Stock Purchase Plan, which covers substantially all employees. Under the Plan, participants are eligible to purchase shares of the Company's common stock at a price that is equal to 85% of the lesser of the fair market value of the stock on the first or the last trading day of the offering period. Offering periods commence the first day of each January and July in any particular year. There are 750,000 shares of the Company's common stock issuable under the Plan, of which 608,350 shares have been issued or subscribed for as of December 31, 2001.

11. Extraordinary Loss

In connection with the acquisition of P&M, the Company refinanced its debt during the first quarter of 2000 and retired all long-term debt outstanding at February 4, 2000. In connection with this early extinguishment of debt, the Company wrote off unamortized debt discount and financing fees, incurring an extraordinary loss of \$869,000 (net of a \$660,000 income tax benefit).

During the fourth quarter of 2000, the Company successfully completed a secondary offering of 6,037,500 shares of common stock. The \$24.0 million proceeds, net of offering costs, together with internal cash resources, were used to repay the \$30.0 million of subordinated notes issued in connection with the acquisition of P&M. Concurrent with the repayment of the subordinated notes, the Company refinanced its long-term debt to obtain more attractive terms and to reduce interest expense. In connection with the fourth quarter early extinguishment of debt, the Company wrote-off unamortized debt discount and financing fees and pre-payment penalties, resulting in an extraordinary loss of \$4.5 million (net of a \$2.4 million income tax benefit).

FTI Consulting, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

12. Segment Reporting

The Company is a multi-disciplined consulting firm with leading practices in the areas of financial restructuring, litigation consulting, and engineering and scientific investigation. Prior to September 1, 2002, the Company was organized into three operating segments: Financial Consulting, Litigation Consulting and Applied Sciences. As a result of the acquisition of the domestic Business Recovery Services division of PricewaterhouseCoopers, LLP ("BRS") in August 2002 (see Note 15) and the decision to sell the applied sciences practice group, the Company is now managing its operations as one segment.

Substantially all revenue and assets are attributed to or located in the United States. The Company does not have a single customer that represents ten percent or more of consolidated revenues for any period presented.

14. Contingencies

The Company is subject to legal actions arising in the ordinary course of its business. In management's opinion, the Company has adequate legal defenses and/or insurance coverage with respect to the eventuality of such actions and does not believe any settlement would materially affect the Company's financial position.

15. Subsequent Events

Technology & Financial Consulting, Inc.

On January 2, 2002, the Company completed the acquisition of all of the outstanding common stock of Technology & Financial Consulting, Inc. (TFC). TFC, based in Houston, Texas, provides intellectual property consulting services. As a result of the acquisition, the Company added a new practice area to its service offerings. The total purchase price was \$4.1 million, including cash payments of \$3.1 million and common stock valued at \$1.0 million. The value of the 46,216 common shares issued was determined based on the average market price of the shares over the period from two days before to two days after the date the Company entered into the definitive purchase agreement. The acquisition was accounted for using the purchase method of accounting. In connection with the acquisition, assets with a fair market value of \$4.3 million including approximately \$3.8 million of goodwill were acquired and liabilities of \$33,000 were assumed.

Table of Contents

FTI Consulting, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

15. Subsequent Events (continued)

Acquisition of Domestic Business Recovery Services Division of PwC

On August 30, 2002, the Company acquired the domestic Business Recovery Services division of PricewaterhouseCoopers, LLP (BRS) for \$141.3 million in cash (including \$1.3 million in acquisition related expenses) and 3,000,000 shares of common stock valued at \$101.9 million. The fair market value of the common stock was based on the average market price of the shares over the period from two days before to two days after the date the Company entered into the definitive purchase agreement. The Company will be obligated to certain sellers that received 470,464 restricted common shares in the acquisition for additional consideration if the quoted market price of its common stock declines below \$28.33 per share at the date the restrictions lapse. The amount of the additional consideration payable is the difference between \$28.33 per share and the quoted market price on the date the restrictions lapse.

BRS was a leading provider of bankruptcy, turnaround and business restructuring services to corporations in the United States and had more than 350 people located in 15 offices across the U.S., with significant practices in New York, Dallas, Los Angeles, Chicago and Atlanta. The acquisition of BRS enhances the Company's ability to provide consulting services in the largest and most complex turnarounds, restructurings and bankruptcies. The BRS acquisition diversifies the Company's client base, while adding a pool of more than 350 professionals.

The Company has preliminarily allocated the \$243.2 million purchase price to \$270.6 million of assets acquired and \$27.4 million of liabilities assumed. The Company recorded significant goodwill (approximately \$239 million) in the acquisition as a result of the ability to earn a higher rate of return from the acquired business than would be expected if those net assets had to be acquired or developed separately. The Company believes the goodwill recorded as a result of the BRS acquisition will be fully deductible for income tax purposes.

Restructuring of Credit Facilities

On August 30, 2002, the Company terminated its existing credit facility and entered into a new credit facility in connection with the acquisition of BRS. The new credit facility consists of a pre-existing term loan of \$26.0 million, a new term loan for \$74.0 million and a new revolving credit facility for \$100.0 million. On September 30, 2002, \$1.1 million of the \$26.0 million term loan was repaid. The debt under the new credit facility bears interest at an annual rate equal to LIBOR plus an applicable margin or an alternative base rate defined as the higher of (1) the lender's announced prime rate or (2) the federal funds rate plus the sum of 50 basis points and an applicable margin. If not prepaid, the \$24.9 million term loan will mature on December 1, 2005, and the \$74.0 million term loan and the revolving credit facility will mature on August 30, 2006. Under the credit facility, the lenders have a security interest in substantially all of the Company's assets.

At September 30, 2002, outstanding debt under the new credit facility was \$138.9 million, including the balance on the revolving line of credit of \$40.0 million, bearing interest at 4.95%. Under the terms of the new credit facility, the Company must apply at least half of the net proceeds obtained from any public offering of its equity securities to the repayment of the debt. Also, under the new credit facility, the Company is required to apply all of the proceeds from the sale of its applied sciences practice group to reduce the outstanding debt.

Table of Contents

PART III

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Glenn R. Baker, President of the Company's applied sciences practice group, owns a one-third partnership interest in SEA Properties and 50% of the capital stock of GBDG, Ltd. S.E.A., Inc., a wholly-owned subsidiary of the Company, leases two properties from SEA Properties and GBDG, Ltd. for an aggregate annual rent of \$485,654. In 2001, pursuant to the provisions of these leases, the Company paid an aggregate of \$109,743 for real estate taxes and utilities related to the leased facilities. Both leases expire on August 31, 2008. In connection with the Company's acquisition of S.E.A., Inc. in 1998, the Company agreed to assume these leases and to pay rent and other related expenses at fair market value. Management of the Company believes that these lease agreements are on terms at least as favorable to the Company as those that could have been obtained from unaffiliated third parties. As discussed in Note 2 to the Consolidated Financial Statements, in July 2002, the Company committed to a plan to sell its applied sciences practice group.

PART IV

**ITEM 14. EXHIBITS, FINANCIAL STATEMENT SCHEDULES,
AND REPORTS ON FORM 8-K**
